

3 - 1 Premise MULETAPE®

- *Reduces installation time and saves money on premise jobs*
- *Thread, measure and pull with single product*
- *Imprinted with sequential footage or meter markings*
- *Fewer installation steps, significant material and labor savings*

3 - 1 Premise MULETAPE®

Cuts Pulling & Installation Time!

The NEW 3 - 1 Premise MULETAPE® cuts pulling and installation time on premise jobs. It allows you to thread, measure and pull with a single, super-strong product. There is no more need for proofing with poly line or pulling with string/rope combinations. And because it is imprinted with sequential footage or meter markings, there is no need to go back and manually calculate the length of cable you will need. That means fewer steps in the installation process, significant material and labor cost savings and fewer products shipped to the job site.

- Eliminates the potential for duct cutting
- Lower elongation reduces snap-back and enhances worker safety
- Reduces tension at the start of a pull
- Imprinted with footage or meter marking
- Reduces material, inventory and freight costs
- Pulling strength – 200 lbs. to 6000 lbs.
- Patent pending

Description	Pulling Strength	Length	Cat. No.
3-in-1 Premise MULETAPE®	400 lb.	4,500 ft./bucket	31-314
3-in-1 Premise MULETAPE®	1,800 lb.	1,300 ft./bucket	31-315
