designed to be better.™

IT'S JUST A LIGHT SWITCH. LIKE PARIS IS JUST A CITY.

TABLE OF CONTENTS

IT'S TIME FOR A BEAUTIFUL SWITCH

The adorne collection makes life simply beautiful. It starts with stylishly smart switches, dimmers, outlets, and wall plates that merge an awe-inspiring array of styles and finishes with a high tech wow factor that's easy to get used to. You'll soon discover why adorne makes it a delight to hit the lights.

adorne's under-cabinet lighting solution seamlessly blends lighting, power, and music into a simple recipe for a state of the art, clutter-free kitchen. See how to keep every modern convenience (like our innovative iPad and iPhone USB chargers) close at hand but ingeniously tucked away. Bluetooth connectivity, hidden power outlets, and a plug and play music system are just a few of the key ingredients for your infinitely flexible kitchen.

Finally, the adorne collection brings wireless control to video intercom, music, and room-to-room or whole house lighting with its range of home system solutions. It's the kind of innovation that at first seems luxurious, but soon makes you wonder how you ever lived without.

Simply put, the adorne collection brings a new world of convenience — and a stylish finishing touch — to any space.

TRADITIONAL

COTTAGE

CONTEMPORARY

TURN ON YOUR STYLE

The adorne collection offers solutions to match any taste — finishes to fit any personality. Whether you favor the clean lines of modern design, or cozy, cottage-style comfort, or even the classic elegance of a more traditional style, adorne is built to fit.

Take your pick of white or magnesium switches, dimmers, and outlets, and match them with a wide array of wall plate options. You'll find everything from lush natural woods, metals, and leather to a brilliant spectrum of colorful solids. Watch these usually forgotten finishing touches transform your walls from blah to breathtaking, letting the personality of your design shine through.

And how about the kitchen? Striking the right balance between practicality and style is always a challenge—whether traditional, contemporary, cottage, or otherwise. By tucking modular power outlets, lighting options, and music under the cabinets, adorne keeps counters and backsplashes uncluttered and puts the kitchen of your dreams in the most flattering light.

The adorne collection's range of high tech, high style solutions combines accessible, flexible, and smart designs to inspire creativity and enliven your living spaces to a whole new level.

TOUCHES OF BRILLIANCE.

Switches, dimmers, outlets, and accessories are the heart of the adorne collection. Whether you favor a simple touch (like on your smart phone), a satisfying click, or even the simple wave of a hand, adorne makes it a delight to hit the lights. All products are available in white or magnesium.

Paddle™ Switch: A wide, graceful curve works with a simple up-and-down motion, allowing you to turn lights on and off with ease.

Paddle™ Dimmer

Whisper™ Switch: A smart design that features elegant lines and a quiet, fluid motion.
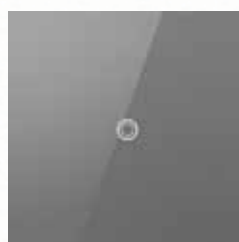

Whisper™ Dimmer

**sofTap™ Switch:** Designed with an innovative micro-movement that turns lights on and off with just a soft "tap" of the finger.

SofTap™ Dimmer

Touch™ Switch: A stunning translucent face works just like an iPhone® — simply touch your finger on the circle to turn lights on and off.

Touch™ Dimmer

SensaSwitch™: Sensor turns lights on when you enter a room and off when you leave. (Also available in Manual-On/Auto-Off format.)

SensaDimmer™

Push™ Switch: A tactile, fingersized impression lets you turn lights on and off with a simple push-button motion.

Wave™ Switch: Smart technology combined with sleek, modern design. Simply wave your hand to turn lights on and off.

A RECIPE FOR KITCHEN MAGIC.

The adorne Under-Cabinet Lighting System brings an array of modular components that swap out so easily, you'll want to reconfigure whenever the mood strikes. From speakers and smart phone docks to lighting and outlets, there's a world of possibilities to choose from with these high-tech, highly convenient building blocks.

Puck Lights: For a spectacular spotlighted look.

Linear Lights: For a consistent, continuous light.

USB Module: A handy outlet to power today's devices.

Outlet Module: Convenient power snaps in where you need it.

Tablet Cradle: Puts apps and the internet where you need them.

Mobile Cradle: Because recharging doesn't have to look sloppy.

Music System: Plug and play your favorites—wirelessly.

Modular Tracks: The nerve center that tucks away out of sight. Available in four sizes.

WELCOME HOME

DINNER PARTY

Music on your wavelength
Smart phones revolutionized the way we listen to music, and adorne brings that convenience home.

Rich, resonant speakers connect wirelessly to your home network, turning a smart phone or tablet into your personal jukebox. Innovation rocks!

Face to face communication
This video monitor not only shows who's at the door, it connects to other stations in your house as a true audio intercom.

Seeing eye
It's a doorbell. It's a camera. It's your new video door station — a wonderful way to see visitors from the convenient spot of your choosing.

Touch™ Dimmer

Convenience in hand
Define up to four unique presets and control your entire home lighting environment with the touch of adorne's handy wireless remote. Or, use our app, and your iPhone® becomes a remote, allowing you to access your presets — even while away.

legrand®

The adorne Collection features an intelligent part numbering structure to aid in product selection. Each character in the part number represents a specific product feature. All adorne part numbers begin with the letter A to indicate that they are part of the adorne collection.
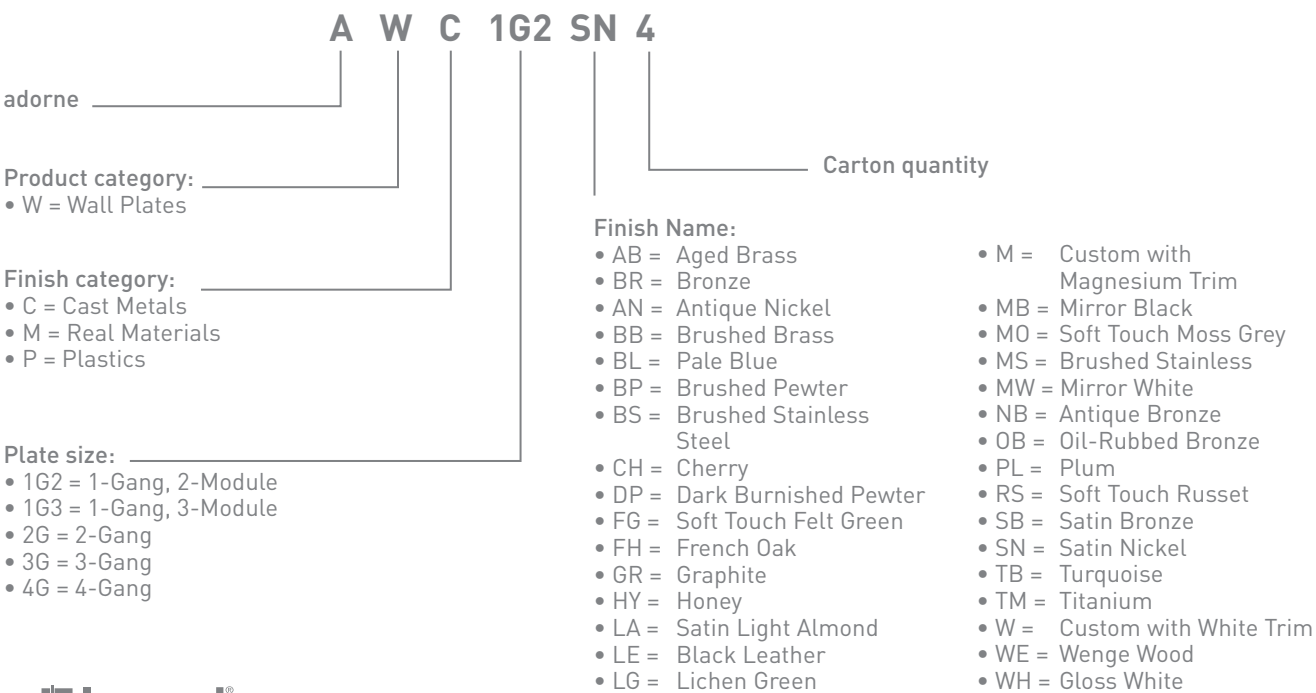

Example for: Switches and Dimmers
Paddle Switch, 2-Module, 15A, Magnesium

A S PD 153 2 M 4
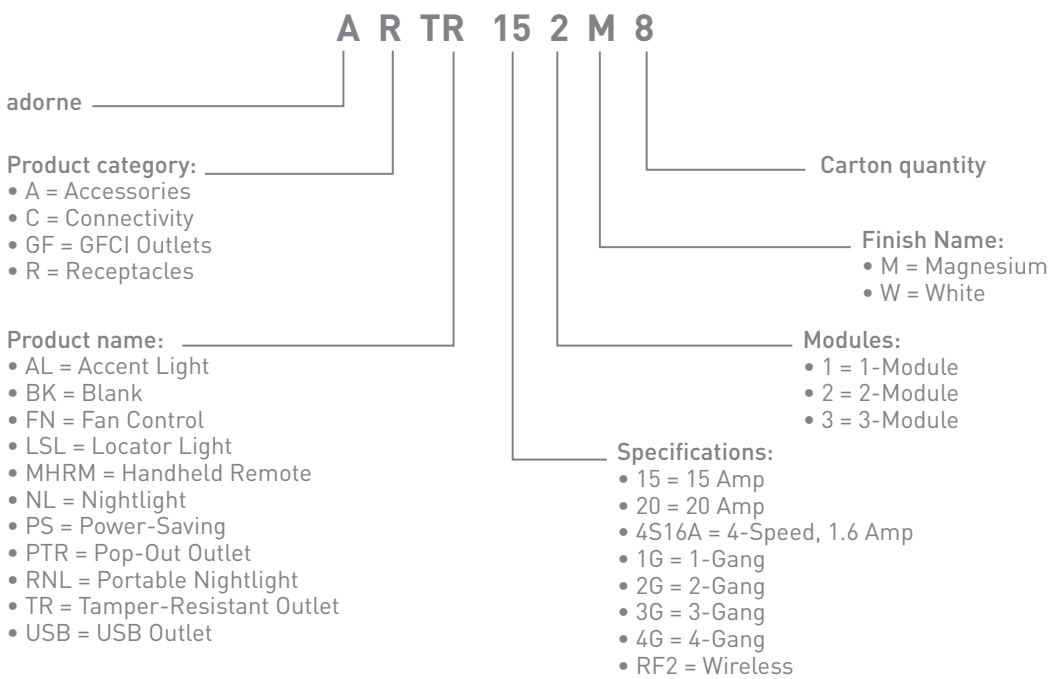

adorne

Product category:
• D = Dimmers
• S = Switches

Interface name:
• OS = Occupancy Sensor
• PD = Paddle
• PU = Push
• SM = SensaDimmer
• TH = Touch
• TM = Timer
• TP = softTap
• VS = Vacancy Sensor
• WR = Whisper
• WV = Wave

Specifications:
• 153 = 15 Amp, Single-Pole/3-Way
• 203 = 20 Amp, Single-Pole/3-Way
• 204 = 20 Amp, 4-Way
• 453 = 450 Watt, Single-Pole/3-Way
• 703 = 700 Watt, Single-Pole/3-Way
• 700MM = 700 Watt, Multi-Location Wireless Master
• 700MR = 700 Watt, Multi-Location Wireless Remote
• 700RM = 700 Watt, Whole-House Wireless Master
• 700RR = 700 Watt, Whole-House Wireless Remote
• 1103 = 1100 Watt, Single-Pole/3-Way

Modules or Load Type:
• 1 = 1-Module
• 2 = 2-Module
• H = Incandescent/Halogen
• L = CFL/LED
• TU = Tru-Universal (Incandescent, Halogen, Fluorescent, MLV, Forward + Reverse-Phase ELV, CFL, LED)

SOME SWITCHES LIGHT ROOMS. OTHERS, YOUR IMAGINATION.

SWITCHES, DIMMERS, OUTLETS, & ACCESSORIES

The adorne Frame System

The frame is the foundation upon which the adorne modular system is built. It is manufactured with high-strength galvanized metal and includes a ground wire.

Frames include plastic spacers. The spacers remain in place for devices with 2-Module backbodies. They must be removed for devices with 3-Module backbodies, such as dimmers and GFCI outlets.

The frame completes the enclosure, providing a safe installation during the construction phase and allowing the wall plate to be installed at the end of the project.

Spacers

1-Gang, 2-Module
with Spacers

1-Gang, 3-Module
without Spacers

2-Gang with Spacers

3-Gang with Spacers

4-Gang with Spacers

The adorne Modular System
Complete versatility and unmatched flexibility

adorne fits in all existing
NEMA-approved wallboxes.*

The frame is grounded.

Device snaps into the frame and is
automatically grounded**.
It self-aligns without any screws.

Standard Wallbox

Frame

Device

Wall plate snaps onto
frame; no screws required.

Modular system solves
device alignment problems,
improving fit and finish in
multi-gang installations.

Wall Plate

*   Does not apply to Pop-Out Outlet.
** Does not apply to Pop-Out Outlet,
    20A Outlet, or 20A GFCI Outlet.

Devices simply snap into the frame from the front. During installation, screw the frame to the box, then pull the wires through the frame and wire the device. Then, simply snap the device into the frame.

Modular Unit Dimensions

1-Module Dimensions

45mm (1.77")

22.5mm (.89")

2-Module Dimensions

45mm (1.77")

45mm (1.77")
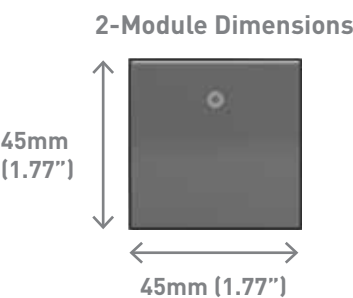

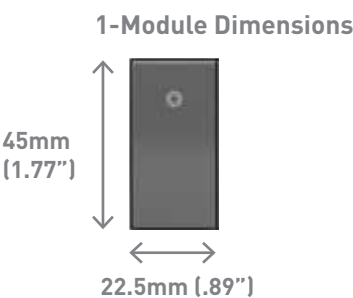

- The basic building block of the system is a 1-Module unit (45mm x 22.5mm).
- All devices have either 1-module or 2-module front faces.
- Devices also have either 1-module, 2-module, or 3-module backbodies.

- Most switches, dimmers, and outlets are in the 2-module format (45mm x 45 mm). This is the standard adorne proprietary "45" opening.

adorne Wireless Lighting Controls

The adorne Collection offers both multi-location and whole-house lighting control options using the Legrand-patented Topdog™ radio frequency technology. Each of the systems features switches and dimmers in multiple adorne interface types.

adorne Multi-Location Wireless

System range:

- 40 feet
- Supports up to nine devices grouped together

The Single-Room or Multi-Location system provides multi-location dimming without the need to run any additional wires. It is ideal for small to large remodeling projects in which you would like to control a light from more than one location without rewiring. You can even pair a wireless switch or dimmer with an adorne wireless outlet to control a plug load quickly and easily.

Using the robust and reliable Topdog radio frequency protocol, switches, dimmers, and outlets can communicate seamlessly together, eliminating the need to run new traveler wires from device to device. It is no longer necessary to tear into sheetrock to enjoy the ambiance, convenience, and energy-savings that lighting controls offer.

Scene Selection

You can also pair your devices with the adorne Wireless Lighting Remote Control for even more system flexibility, allowing you to program lighting scenes that can be accessed at the touch of a button, such as Welcome Home, Entertain, and Goodnight.

adorne Whole-House Wireless

System range:

- More than 100 feet (up to 300 feet with use of repeater MRR2-G)
- Supports up to 100 devices

The Whole-House system provides unrivaled convenience, security, and energy-savings for both remodel projects and new construction. The ability to set scenes allows you to create the perfect lighting environment in multiple rooms or the entire house, all at the touch of a single button.

Convenience

- Coordinated control of lights, lamps, ceiling fans, and small appliances
- One-touch scene selection
- Easy grouping of dimmers and switches for flexible control
- Smart phone, tablet, and computer control options to give you access to your home's lighting from anywhere in the world

Security and Safety

- Control as many lights in the home as desired from anywhere in the home or with your smart phone
- One-touch whole-house on/off
- Welcome home scenes that illuminate pathways and garages for a safe arrival
- Timed events make the home look occupied, even when you are away
- Easily integrates with alarm and fire systems*
- Turns off fans in the event of a fire*

*Requires integration of RS232 to RF Interface device (MR232). See Page 68.

Installation

Replacing existing devices with adorne wireless devices is as simple as a standard device installation – all switches, dimmers, and outlets fit in your existing electrical box. Just install a wireless master device directly connected to the load, and then install a wireless remote device anywhere within the system range. Then, follow included instructions to easily pair them together.

Paddle™

The Paddle design features a simple up and down motion, allowing you to turn lights on and off with ease. Dimmers include a slider for dimming or brightening lights.

Pair with a Locator Status Light to add illumination to your Paddle switch or dimmer. See page 37.

See pages 74 & 78 for switch and dimmer installation instructions.

sofTap™

The sofTap design features an innovative micro-movement that turns lights on and off with just a soft "tap" of the finger. Dimmers include a unique paddle to adjust light levels.

See pages 74 & 78 for switch and dimmer installation instructions.

Tru-Universal

Our Tru-Universal technology enables a dimmer to control all load types. Dimmers marked as Tru-Universal, such as the sofTap Dimmer below, automatically adapt to any load or combination of loads attached to them - Incandescent/Halogen, Magnetic Low Voltage, Electronic Low Voltage in Forward or Reverse Phase, CFL/LED bulbs, etc. They eliminate the flickering, early dropout, or "pop-on" deficiencies which can plague other non-adaptive dimmers.

The adorne Tru-Universal dimmer is the ultimate solution to dimming difficult loads. Simply pair it with any fixture and you're done!

SensaSwitch™ + SensaDimmer™

SensaSwitches include passive infrared (PIR) sensor technology, automatically turning lights on or off when you enter or leave a room. The design features an innovative micro-movement that allows you to also manually turn on lights with a soft touch of the finger. SensaSwitches are available in three models:

- Auto-ON/Auto-OFF: Automatically turns lights on when you enter a room and off when you leave. (Occupancy Sensor)
- Manual-ON/Auto-OFF: Allows you to turn lights on when you enter a room and automatically turns them off when you leave. (Vacancy Sensor)
- Manual-ON/Timed-OFF: Allows you to turn lights on when you enter a room and select a time for lights to turn off (options include 10, 20, 30, and 60 minutes). (Timer)

SensaSwitches are perfect for kitchens, bathrooms, garages, and pantries. The SensaDimmer turns lights on when you enter a room and off when you leave, but can be adjusted to become Manual-ON/Auto-OFF if desired. The chart to the right provides an overview of the sensor coverage area.

SensaSwitch™ + SensaDimmer™ Coverage Area

The Occupancy Sensor, Vacancy Sensor, and SensaDimmer each have a maximum coverage range of 180 degrees and a coverage area of 600 sq. ft. The sensor must have a clear and unobstructed view of the coverage area. Objects blocking the sensor's lens may prevent detection thereby causing the light to turn off even though someone is in the area. Windows, glass doors, and other transparent barriers will obstruct the sensor's view and prevent detection.

Wave™

The Wave switch features innovative technology combined with sleek, contemporary design. Simply wave your hand in front of the switch to turn lights on and off.

Ideal for kitchens and bathrooms, the Wave has a preset sensor distance of approximately 4". However, this can be easily adjusted to sense movement from 1" to 6" in front of switch.

Wireless Lighting Remote Control

This unique remote allows you to control your wireless switches and dimmers from anywhere in the home as well as create lighting scenes.

The remote is easy to program and is compatible with adorne multi-location wireless lighting controls. It allows up to four lighting scenes, as well as one-touch dimming or brightening of your lights.

NAME	PART NUMBER
Wireless Lighting Remote Control	ADMHRM4

Touch™

The Touch design features a stunning translucent face and operates just like an iPhone® - simply touch your finger on the circle to turn lights on and off, or use the arrows on the right to dim them (Touch dimmer only).

The white Touch interface is created using a unique translucent material. In multi-gang installations, we recommend pairing white Touch switches and dimmers for optimal consistency.

See pages 74 & 78 for switch and dimmer installation instructions.

USB Outlet, 1-Module	Perfect for charging mobile devices such as phones and tablets. Pair with a switch or outlet in a 1-Gang, 3-Module plate for more functionality in one box.	2.1A, 5 VDC, 11W			White Magnesium	ARUSBW4 ARUSBM4

Pop-Out™ Outlet (Receptacle)

The Pop-Out Outlet lets you hide an outlet when not in use. Simply push on the outlet and it disappears into the wall. When you're ready to plug something in, just push on the box and the outlets will "pop out," enabling easy access to power.

Pop-Out Outlets require a special frame (included in package) and are not compatible with those used with adorne wall plates. **They require a deep box, such as Pass & Seymour S122R, for installation.**

See specifications below to select the correct outlet for your installation. Each outlet includes capacity for three plugs.

NAME	DESCRIPTION	RATINGS	NEMA CONFIGURATION	COMPLIANCE	FINISH OPTIONS	PART NUMBER
Pop-Out Outlet, 1-Gang	Includes 1-gang frame for installation. Cannot be paired with other switches, dimmers, outlets, or accessories.	15A	5-15R		White Magnesium	ARPTR151GW2 ARPTR151GM2
Pop-Out Outlet, 2-Gang	Includes one Pop-Out Outlet and 2-gang frame for installation. Select this option to pair your Pop-Out Outlet with another adorne switch, dimmer, outlet, or accessory.	15A	5-15R		White Magnesium	ARPTR152GW2 ARPTR152GM2

Illumination

You've never seen a nightlight that hides itself so cleverly, yet responds so elegantly to a simple touch. Or one that can be lifted from its home on your wall to double as a carry-around flashlight. When it comes to brilliant solutions, adorne really shines.

All nightlights include ambient light level sensors. Each features a range of settings, including: Always Off, Low, Medium, and High. If set to Low, Medium, or High, the nightlight's LED will only be visible when the ambient room is dark. To change the selected setting, simply push on the square in the upper right-hand corner of the nightlight.

NAME	DESCRIPTION	COMPLIANCE	PART NUMBER
Nightlight, 1-Module	Features a soft, glowing LED light. Pair with a switch or outlet in a 1-Gang, 3-Module Plate for added flexibility. **Light levels include:** Always Off Low Medium High	cETLus LISTED	AANLM14
Nightlight, 2-Module	Features a soft, glowing LED light. **Light levels include:** Always Off Low Medium High	cETLus LISTED	AANLM24
Portable Nightlight/ Flashlight	Simply push on this innovative nightlight to remove it from the wall and use it as a flashlight. Device recharges while mounted in wall and operates for up to 10 hours during a power failure. Includes light level options listed above, as well as Flashlight Mode, which is activated only when device is removed from the wall.	cETLus LISTED	AARNL2

In-wall nightlight function

Press on nightlight to remove from wall

Portable flashlight function

Accent Nightlight

The Accent Nightlight is a stunning addition to any adorne product and is compatible with any size wall plate. The device is invisible once installed, but can be activated by placing a finger under the wall plate. This will cause the light to cycle through several light level options, as depicted in the chart below.

NAME	COMPLIANCE	PART NUMBER
Accent Nightlight, 1-Gang	cETLus LISTED	AAAL1G4
Accent Nightlight, 2-Gang	cETLus LISTED	AAAL2G2
Accent Nightlight, 3-Gang	cETLus LISTED	AAAL3G2
Accent Nightlight, 4-Gang	cETLus LISTED	AAAL4G2

Light Level Settings

The Accent Nightlight will cycle through these options, allowing you to select the setting you prefer. Auto-OFF indicates that the light will automatically turn on when the room is dark and off when the room is light.

DAYTIME	NIGHT TIME
Auto-OFF (1)	High
Always ON (2)	Medium
	Low
	Ultra-Low
	OFF (3)

1. Light turns off automatically when room is light.
2. Light remains on when room is light.
3. Light remains off when room is dark.

Locator Status Light: Find Us in the Dark

NAME	DESCRIPTION	COMPLIANCE	PART NUMBER
Locator Status Light	Add a stylish, small locator light to your Paddle, Whisper, or Push switch or dimmer and you'll never again have to slide your hand across the wall trying to find that switch. The locator light is a standard feature of all other switches and dimmers. It can be disabled if desired. Locator light is on when the load is off and off when the load is on.	cETLus LISTED	AALSL6

Wall Plates

Available in four gang sizes, adorne wall plates provide the perfect complement to adorne switches, dimmers, outlets, and accessories. The collection includes a variety of finishes, from cast metals like Satin Nickel and Oil-Rubbed Bronze to real materials such as Leather and Wood. In addition, the collection includes a full offering of plastic plates in contemporary and classic colors, as well as three innovative Soft Touch finishes.

Each wall plate is packaged with a metal frame to enable easy installation when paired with a device. All plates are screwless and simply snap onto the included metal frame. See page 18 for more information on the adorne frame system.

All adorne wall plates are UL and ETL-approved.

A FRESH IDEA

FOR COOKING LIGHT

A RECIPE FOR KITCHEN MAGIC.

The adorne Under-Cabinet Lighting System brings an array of modular components that swap out so easily, you'll want to reconfigure whenever the mood strikes. From speakers and smart phone docks to lighting and outlets, there's a world of possibilities to choose from with these high-tech, highly convenient building blocks.

UNDER CABINET LIGHTING
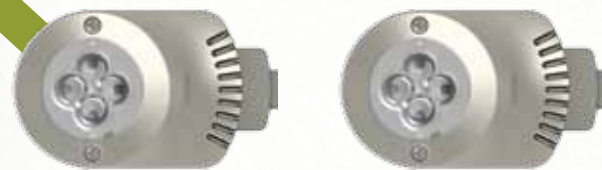

Puck Lights: For a spectacular spotlighted look.

Linear Lights: For a consistent, continuous light.

USB Module: A handy outlet to power today's devices.

Outlet Module: Convenient power snaps in where you need it.

Tablet Cradle: Puts apps and the internet where you need them.

Mobile Cradle: Because recharging doesn't have to look sloppy.

Music System: Plug and play your favorites—wirelessly.

Modular Tracks: The nerve center that tucks away out of sight. Available in four sizes.

Lı legrand®

How to Specify the System

The adorne Under-Cabinet Lighting System is a fully customizable and modular solution for eliminating kitchen clutter. It is compatible with any kitchen layout, such as a galley, L-shaped, or U-shaped, as well as with any home wiring. In order to ensure you have specified the correct products for your system, we recommend you follow the steps outlined below.

1. Planning Your System Layout

First, determine where you want to install the system. Then measure your cabinets to determine the length of Modular Track required:

- Measure each cabinet length at back of cabinet.
- For installations with a corner, allow 3" on each side for Corner Connector.
- When totaling up the length of required Modular Track, be sure to include the length of the desired Control Box or Direct Wire Connector. For a 1-gang box, allow 5". For a 2-gang box, allow 5.25". For Direct Wire Connector, allow 6". For more detail on Control Box options, see page 58.
- If your selection of Modular Tracks does not match the exact length of your cabinets, you can use a Modular Track Extender to complete the track. This piece can be cut down to 6". Standard 12", 18", and 27" Modular Tracks cannot be shortened.

27

DWC

- Direct Wire Connector is placed at one end of system for hardwired power connection
- Light control located in nearby wallbox
- GFCI circuit breaker located in electrical panel
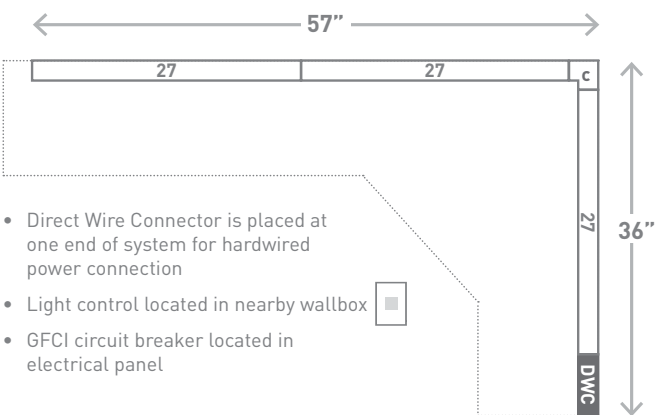

2. Selecting the Control Box and Power Options

Next, select the type of lighting and power connection you'd like to include. For a simple install, the Plug-In Control Box provides the easiest solution. For a hardwired installation, there are five options to choose from which enable expanded lighting control options such as dimming:

- Control Box with Paddle Dimmer
- Control Box with Paddle Dimmer and GFCI protection
- Control Box, 1-Gang (No Devices)
- Control Box, 2-Gang (No Devices)
- Direct Wire Connector

For hardwired installations, there must be three separate circuits from the electrical panel:
- Receptacle Circuit: 20 Amps; GFCI-protected; Use #12 wire
- Lighting Circuit: 15 Amps; Use #12 or #15 wire
- Accessory Circuit: 15 Amps; Use #12 or #14 wire

Hardwired Control Boxes

1-Gang Control Box with Paddle Dimmer

2-Gang Control Box with Paddle Dimmer and 15A GFCI

Direct Wire Connector

Control Box, No Devices, 1-Gang*

Control Box, No Devices, 2-Gang*

Plug-In Control Box

Compatible with all adorne 2-module devices. The CFL/LED Paddle Dimmer (ADPD453LM2) is recommended for use with the adorne system.

3. Selecting the LED Lights

The adorne Under-Cabinet Lighting System is only compatible with adorne LED lights. These are available in Puck and Linear versions. Recommended placement for lights is every 18" along Modular Track.

You can select any combination of Puck and Linear lights to complete your system. In addition, if you are mounting a light under the cabinet and wish to move it further to the front of the counter, you can use the LED Light Extender. This enables you to increase the length of any light from the Modular Track from a standard 11" to up to 22". This is especially useful in corner installations.

LED Puck Light

LED Linear Light

Light Extender

4. Choosing Accessories to Complete the System

The final step is to select the accessories to perfectly complement your system. adorne offers a range of options, including USB charging ports, mobile and tablet cradles, and a Digital Music Kit. Each of these accessories provides flexibility in that it can be added or removed at any time – simply swap it with an existing outlet or blank module to increase your system capabilities. For more detail on accessories, see page 59.

We're here to help!
We have a dedicated project services team on staff to help you plan your projects, including supplying a full takeoff based on your floor plans.

Give us a call at 315.468.8413 or email us your project info at adornemyproject@legrand.us.

Modular Tracks

The adorne system is a flexible and modular solution designed to eliminate kitchen clutter. Fully customizable, you can select from several types of modules and modify your system in minutes. Simply pop out an existing module and replace it with a new module at any time.

The Modular Tracks listed below simply plug together to create a full system custom-designed for any kitchen. They form the base of the system, housing all of the wiring that connects the modules.

Each system must include a Control Box or Direct Wire Connector that is hardwired to existing wiring or plugged into an outlet on the backsplash.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
12" Modular Track	c ETL us LISTED	Includes one Outlet Module and one Blank Module. Can support up to two LED lights. Provides 120V power via 15A outlet modules and 20A pass-through. Module openings are 6" on-center.	APMT12TM2
18" Modular Track	c ETL us LISTED	Includes one Outlet Module and one Blank Module. Can support up to two LED lights. Provides 120V power via 15A outlet modules and 20A pass-through. Module openings are 9" on-center.	APMT18TM4
27" Modular Track	c ETL us LISTED	Includes two Outlet Modules and one Blank Module. Can support up to three LED lights. Provides 120V power via 15A outlet modules and 20A pass-through. Module openings are 9" on-center.	APMT27TM2
18" Modular Track Extender	c ETL us LISTED	Enables a perfect fit for any kitchen. Simply cut to length (minimum of 6") and attach to end of Modular Track. Does not include any module openings.	APME18TM2
Modular Track Corner Connector	c ETL us LISTED	Use with installations that include a right-angle corner to connect two Modular Tracks. Allow 3" on each side for installations with Corner Connectors.	APCCTM4
Short Modular Track	c ETL us LISTED	Includes one outlet module. Intended for use on short cabinet sections. 10" in length but can be cut to 9". Enables direct wire connection to wiring behind the wall. Cannot be combined with any other track section.	APST9TM1

Control Boxes

Every Under-Cabinet Lighting System must include one of the below Control Boxes or Direct Wire Connector. These boxes connect to existing in-wall wiring or plug into an outlet on the backsplash to provide system power.

Control Boxes include system end caps, ensuring a clean finish on the left and right edges of the installed system.

Hardwired installations require three circuits from the electrical panel.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
Control Box with Paddle Dimmer	450W c ETL us LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5" onto system length. Includes adorne 450W CFL/LED Paddle Dimmer (ADPD453LM2). GFCI protection must be provided at the electrical panel	APCB1TM4
Control Box with Paddle Dimmer and 15A GFCI	450W 15A c ETL us LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5.25" onto system length. Includes adorne 450W CFL/LED Paddle Dimmer (ADPD453LM2) and 15A Tamper-Resistant GFCI Outlet (AGFTR153M4).	APCB2TM2
Plug-In Control Box	c ETL us LISTED	Snaps into any module opening on the track and plugs into an existing outlet to provide system power. Cord length of 11" can easily be shortened to match the distance from outlet to Modular Track.	APCB3TM4
Control Box, No Devices, 1-Gang	c ETL us LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5" onto system length. Customize with your preference of adorne dimmers, switches, or outlets.	APCB4TM1
Control Box, No Devices, 2-Gang	c ETL us LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5.25" onto system length. Customize with your preference of adorne dimmers, switches, or outlets.	APCB5TM1
Direct Wire Connector	c ETL us LISTED	Enables direct wire feed of power from in-wall wiring, eliminating need for a Control Box. Connector is 6" in length.	APDWCTM1

Lighting

adorne Puck and Linear LED Lights are designed for use with the adorne system only.
They can be paired with the adorne CFL/LED Paddle Dimmer (ADPD453L) to enable dimming.

Lights easily plug into a connection port on any system module. Optimal positioning is one light for every 18" of Modular Track. Lights can be added or removed as needed.

adorne LED lights are Energy Star certified.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
LED Puck Light		• 7W • 240 lumens • correlated color temperature: 3000 kelvin color rendering index: 95	ALPKLEDTM4
LED Linear Light		• 8W • 280 lumens • correlated color temperature: 3000 kelvin color rendering index: 95	ALLNLEDTM4
Light Extender		Enables adorne LED lights to be mounted up to 22" from backsplash by extending cord length beyond default 11". Ideal for corner cabinet installations.	ALEXTLEDTM4

The adorne system is optimized to provide a premium under-cabinet lighting solution by utilizing the latest innovations in lighting research and LED technologies.

System specifications:

- OSRAM OSLON® Color Champ LED
- Nominal 3000K Correlated Color Temperature (CCT) warm light output
- Color Rendering Index (CRI) of 95
- Excellent range of color differentiation and rendering of the important red color (think red meat and apples) and skin tones
- A bright lumen light output (Puck = 240 lumens/Linear = 280 lumens) provides optimized lighting for the under-cabinet environment
- Efficient driver design integrated in each fixture results in:
  - Reliable and smooth dimming
  - ENERGY STAR certification
  - Rated for 40,000 hours of high performance
- LED quality control uses a "fine bin system" based on a three-step MacAdams ellipse to ensure color consistency

ANSI Chromaticy Color Bin for 3000K

Legrand adorne LED Fixture Chromaticity Color Bin for 3000K
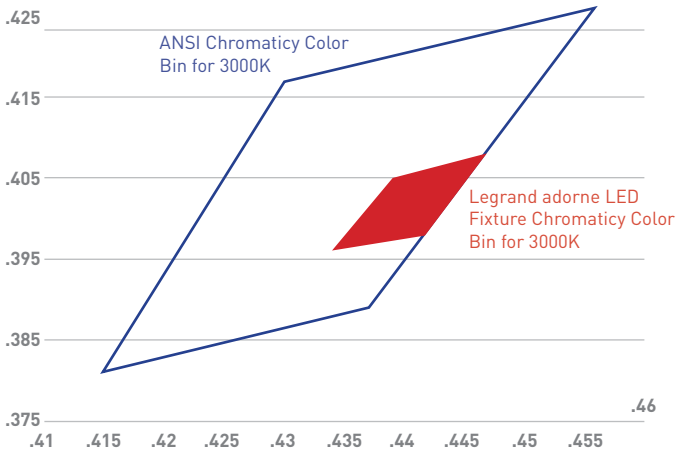

adorne individual LEDs are specifically selected to ensure fixture output CCT uniformity within a range of less than 100. This tight manufacturing assurance process ensures that variations inherent in the LED chip manufacturing process do not compromise reliable light quality.

Digital Music Kit

The Digital Music Kit adds high performance sound to your adorne Under-Cabinet Lighting System. It includes two speakers and a detachable dock for smart phones or MP3 players. Simply fit the main speaker into one module opening and then place the second speaker in any other module location. Speakers can be easily removed and relocated at any time by simply pushing on the sides of the modules and popping them out of the track.

The system features BLUETOOTH® wireless technology to enable streaming of music from your devices. It also includes a 3.5mm cable to manually connect devices.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
Digital Music Kit		2" (50mm) full range drivers Digital signal processing for full, rich sound BLUETOOTH wireless technology is A2DP compatible Includes USB charging capability	AUDMTM1

Bluetooth® is a registered trademark of Bluetooth SIG, Inc. The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks (licensee name) is under license. Other trademarks and trade names are those of their respective owners.

Modules and Accessories

adorne system modules are designed to fit in any module opening, and can be easily added or removed by using the included module tool. Simply fit the tool into either end of the module and pop it out of the track.

Cradles do not occupy a module opening. Instead, they save space by resting on the back edge of the track.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
15A Outlet Module	15A, 120V	Provides two power outlets by snapping into any module opening. Tamper-resistant outlet is designed with a patented shutter system. Included with short, 12", 18", and 27" Modular Tracks.	APTR15TM4
USB Outlet Module	2.1A, 5V	Provides two USB charging ports for devices such as mobile phones and tablets by snapping into any module opening. Charging cable not included.	APUSB2TM4
Mobile Phone Cradle		Attaches anywhere along track to hold a mobile phone. Perfect for use with USB Outlet Module while charging devices.	AAPCTM4
Tablet Cradle		Attaches anywhere along track to hold a tablet. Perfect for use with USB Outlet Module while charging devices.	AATCTM4

iPhone® is a registered trademark of Apple, Inc.

Wi-Fi Music System

The adorne Wi-Fi Music Kit includes two wireless speakers to enable rich, resonant sound throughout a single room or the whole house. The speakers seamlessly connect to your wireless network and can be controlled via a smart phone or tablet. The system plays music files stored on your network, as well as Internet radio stations and online music services, such as Pandora® and Sirius®.

One speaker must be connected to a wall outlet power source (power cable included) and includes buttons for enhanced system control as well as built-in amplification and a 2.4GHz Wi-Fi transceiver. The second speaker does not require external power and receives its audio via a speaker wire connection from the primary speaker.

The adorne system also allows multiple pairs of speakers to be used throughout the home. Up to three pairs of speakers can be connected on one wireless system.

NAME	PART NUMBER
Wi-Fi Music System	AU65261

Wireless Video Intercom

The adorne Wireless Video Intercom System allows you to see who's at the front door from multiple locations in the home. The kit includes one exterior video doorbell camera and one interior intercom unit to receive camera images. Additional interior intercom units can be added to the system and connected wirelessly to existing units.

The video doorbell camera transmits images from the front door to every intercom unit throughout the home, and each interior unit can communicate with other interior units via audio. System limit is three interior intercom units per system.

The camera can be powered via its long-life battery unit, but can also use existing doorbell wiring. It includes an extender cable to allow you to easily mount the unit at camera height and connect it to wiring in the doorbell opening.

The interior unit includes a power cable and must be plugged into an existing outlet. It can be surface-mounted to the wall, or placed on a tabletop through use of the integrated easel back..

Consumer Brochure	This short collection overview provides a consumer-friendly look at the adorne product line. Perfect for small tradeshows and take-with materials in lighting showrooms.	View online or contact your Legrand sales representative.
Swatch Book	Includes life-size color swatches of all 32 adorne wall plate finishes, each paired with a white and a magnesium switch.	Contact your Legrand sales representative.
Lookbook	Beautiful, full-color overview of adorne collection. Includes in-depth looks at product design, finish offerings, and home decor pairings.	View online or contact your Legrand sales representative.
Lighting Showroom Displays	Interactive displays showcasing adorne switches, dimmers, wall plates, and the under-cabinet lighting system. Displays are 3' wide and can sit side-by-side or back-to-back. A third display is available for home systems products.	All adorne showroom partners who have placed a stock order qualify for device and under-cabinet displays. Contact your Legrand sales representative.
Countertop Displays	Convenient displays feature powered switches and dimmers, as well as the under-cabinet lighting system. Device display also includes the Pop-Out Outlet.	adorne Authorized Distributor Partners qualify for countertop displays. In addition, these are an alternative option to the larger, free-standing lighting showroom displays for showrooms that want a smaller footprint. Contact your Legrand sales representative.

Technical Support/Project Assistance

We're here to help! Our Technical Support staff has in-depth knowledge of our products and can assist you with your installations. Simply give us a call at the number below, or visit www.adornemyhome.com/install and select "Customer Support" to email your question to a member of our team.

Interactive Support

www.adornemyhome.com
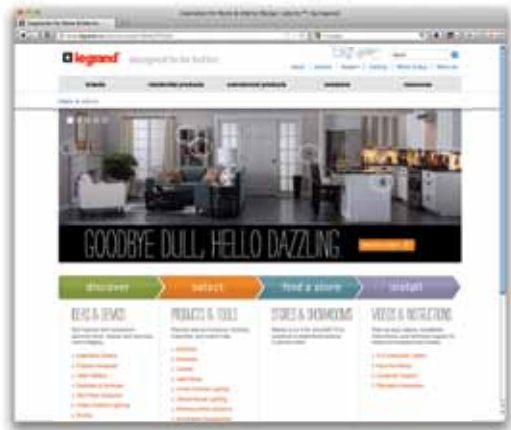

Filled with helpful planning tools, in-depth product details, and beautiful, inspirational shots of adorne installed in a variety of homes, the adorne website is your number one resource for support.

On the site, you can find:

- Short, engaging consumer-focused videos
- Inspiration gallery of adorne products used in cottage, traditional, and contemporary homes
- Product Visualizer Tool and App link (see below for more information)
- Product details, including imagery, technical specs, features and benefits, and dimensions
- Under-Cabinet Lighting System Configurator – allows you to easily plan your under-cabinet system, including exact modular track lengths needed, and delivers a bill of materials by part number which can be emailed or saved to your desktop
- Where-to-buy information
- Contact information and issue submittal for technical support
- Easy-to-understand how-to-videos
- Full, searchable library of instruction sheets and product documentation

Product Visualizer

Available as an online tool or as a tablet or smart phone app, the adorne visualizer allows you to view the full range of plate finishes and combine them with a selection of adorne switches, dimmers, and outlets. Simply select a wall plate size, and then swipe through all 32 finishes to find the one that's right for you. Then, choose white or magnesium switches, dimmers, or outlets to complete your project. You can even demo the different types of switches and dimmers, dimming and brightening a light.

And, you can select a background wall color or even take a picture of your wall to perfectly visualize how adorne will look when your project is finished. Then, choose to save or share your project if you'd like to remember the combination you selected.

You can find the visualizer at **www.adornemyhome.com** or simply download it from iTunes for your iPhone or iPad.

INSTALLATION INSTRUCTIONS
Please read these instructions completely before you begin.
adorne™ switches are designed for installation in standard electrical boxes. However, some of the installation methods vary slightly from traditional methods. If you do not understand these instructions or are unsure of your abilities, seek the assistance of a qualified electrician.

Use only with Legrand adorne™ system.

1
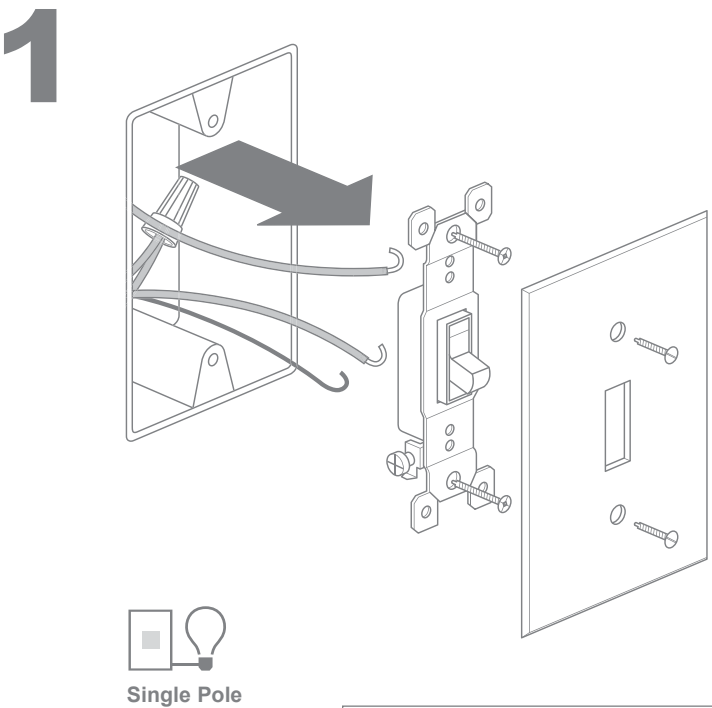

Single Pole
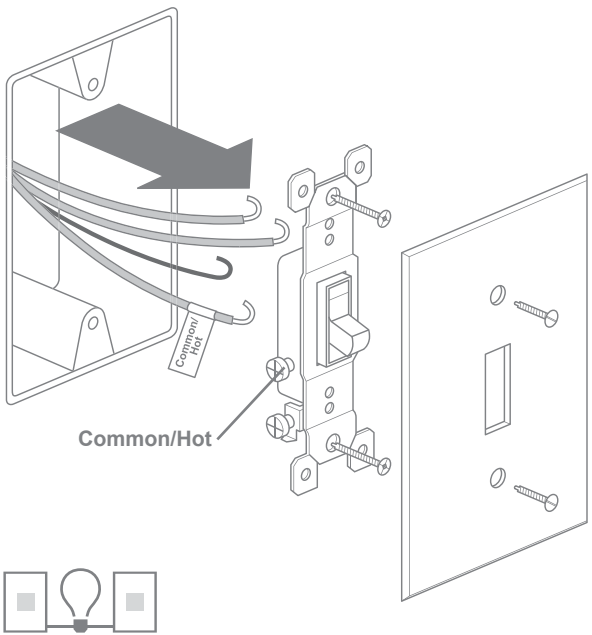

⚠ **WARNING**
To prevent severe shock or electrocution, always disconnect power at the service panel before beginning work.

3-Way
In a 3-Way circuit, identify the Common/Hot wire — connected to the terminal marked Common or the odd-colored terminal screw.

Common/Hot

When replacing existing switches, label wires before disconnecting. Disconnect old switch.

2

If necessary, cut wires and strip insulation using stripping guide on back of switch.
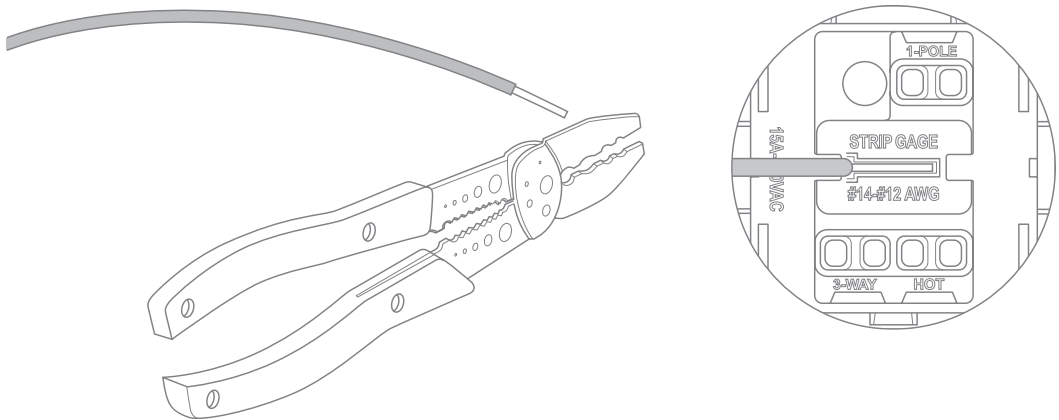

3

⚠ **WARNING**
Failure to connect the ground wire will result in an unsafe installation that could lead to personal injury.

Connect frame ground wire to bare ground wire in box. Fold ground wires into back of box. Mount frame to wall box with screws provided. Tighten screws just enough to hold frame in place. Do NOT over-tighten.
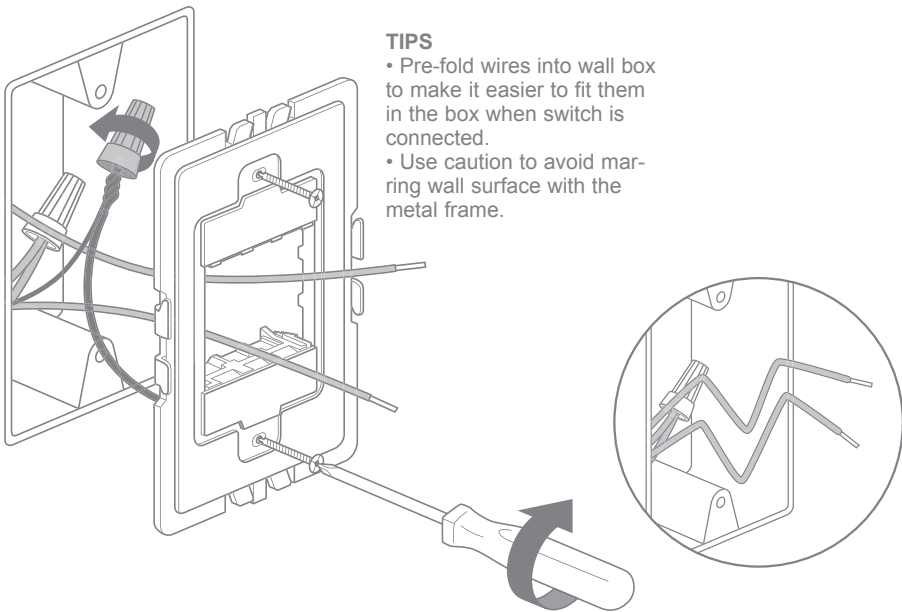

TIPS
• Pre-fold wires into wall box to make it easier to fit them in the box when switch is connected.
• Use caution to avoid marring wall surface with the metal frame.

Sample Installation: Paddle Switch, 2-Module | Continued

4 Connect new switch as shown. Make sure the terminal holes are clear. Insert wires into terminals and tighten screws securely.

NOTE - If you have purchased an **adorne**™ Locator Light or Accent Nightlight, please refer to those instructions at this step.

NOTE - If you are installing multiple switches in the frame, wire all devices before snapping them into the frame.
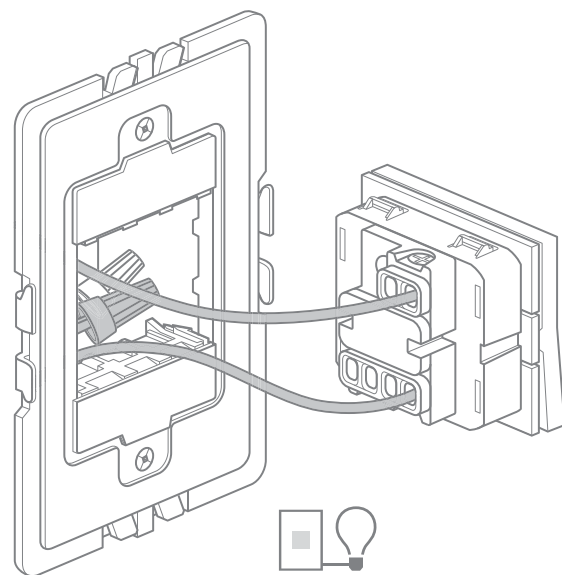

Single Pole
• Connect one wire to 1-POLE.
• Connect other wire to HOT.
• Do NOT use 3-WAY.
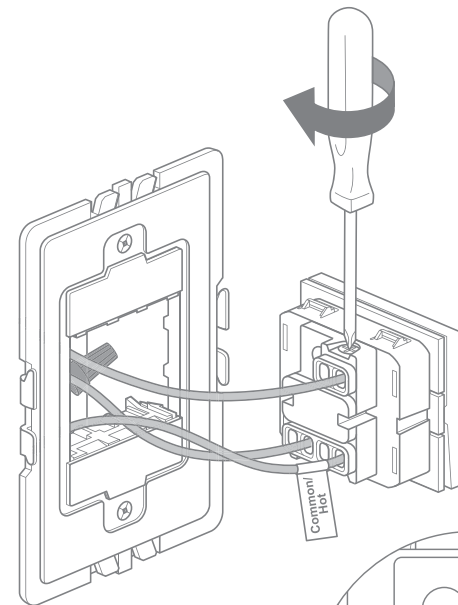

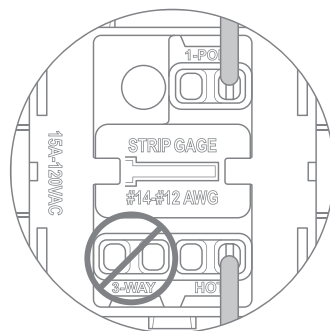

3-Way
• Connect the wire identified as Common/Hot in Step 1 to HOT.
• Connect one of the other wires to 1-POLE.
• Connect remaining wire to 3-WAY.
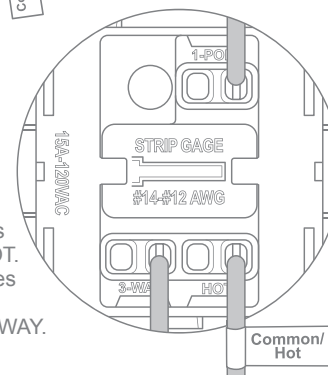

⚠ **WARNING:** Do not pair different size wires in the same terminal. If you have different size wires, use a wire nut to add a 6 inch pigtail of the same gauge wire to the smaller gauge wire.
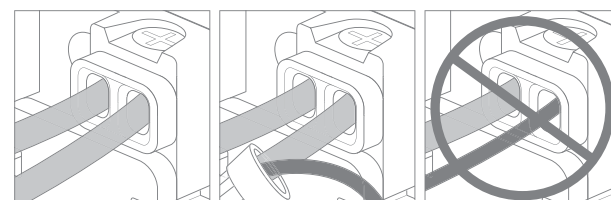

Same size.   Different size with pigtail.   Different size.

5 Carefully fold wires into box. Snap switch into frame.
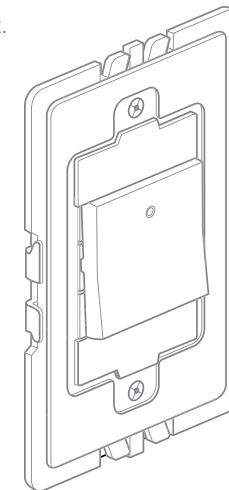

**NOTE** – If you need to remove switch after snapping into frame, first remove frame from wall box to access the three locking tabs on the back of the switch. Insert a flat screwdriver to depress tabs as you apply pressure to push switch out.
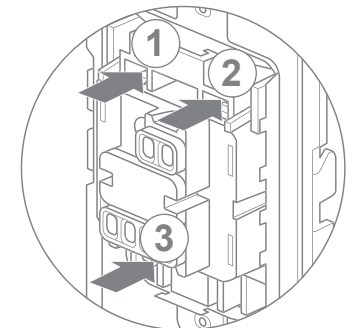

6 Snap wall plate to frame. There are three click-stops to adjust the fit of the wall plate to the switch and the wall.
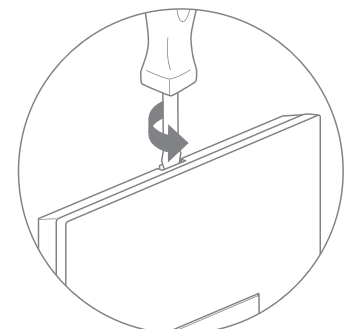

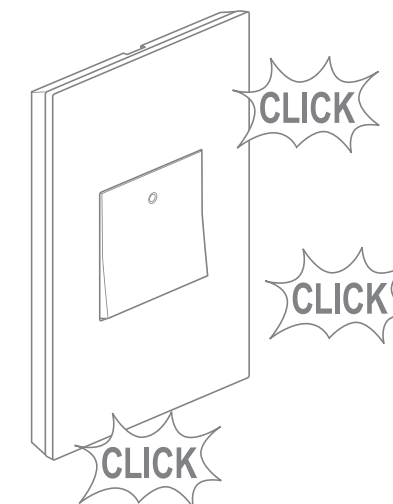

CLICK
CLICK
CLICK

NOTE – To remove wall plate, insert a small, flat screwdriver in notches on wall plate and twist gently to pry from frame.

Never apply cleaner directly to the switch or wall plate. Apply to a soft cloth and use cloth to remove any smudges from the product.

Sample Installation: Paddle Dimmer | Catalog Number: ADPD703H

Spacers

Frame

Paddle Dimmer

Ground Wire

Wall Plate

Remove spacers from the frame. Since this dimmer fills the frame completely, you will not need the spacers. From the back of the frame, pinch the tabs on the spacer to release.
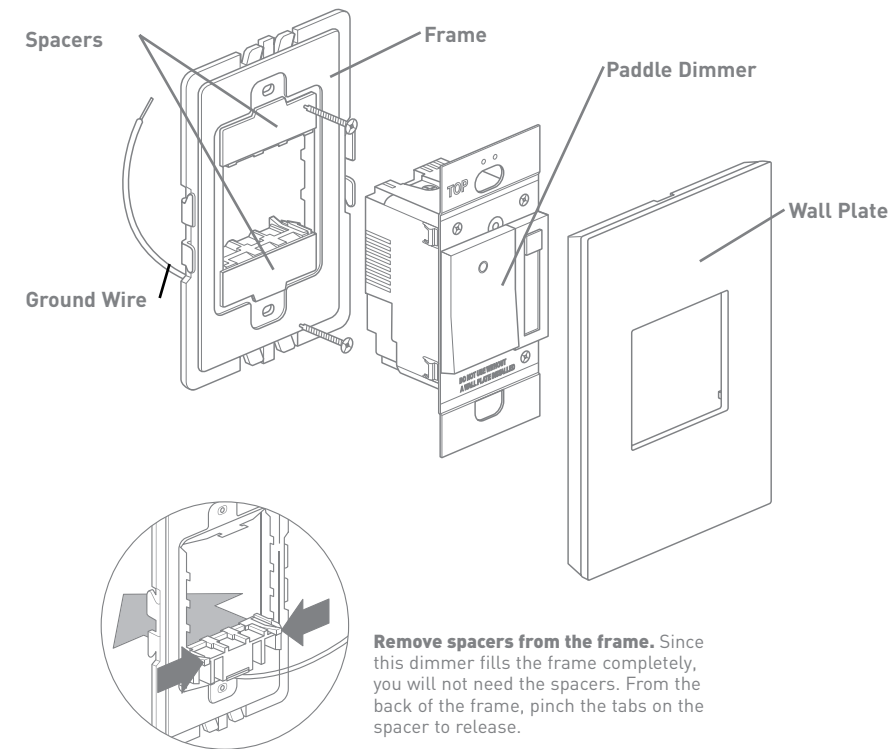

⚠ **CAUTIONS**
To reduce the risk of overheating and possible damage to other equipment, do not install incandescent dimmer to control a receptacle, a fluorescent light or bulb, a motor-operated appliance, or a transformer-supplied appliance.
Do NOT use dimmer with incandescent lamps whose power requirements exceeds maximum wattage of the dimmer.
Do NOT connect dimmer to power source other than 120VAC, 60 Hz.

For more information and helpful how-to videos, visit www.adornemyhome.com/install.

INSTALLATION INSTRUCTIONS
Please read these instructions completely before you begin. **adorne**™ dimmers are designed for installation in standard electrical boxes. However, some of the installation methods vary slightly from traditional methods. If you do not understand these instructions or are unsure of your abilities, seek the assistance of a qualified electrician.

Use only with Legrand adorne™ system.

1

⚠ **WARNING**
To prevent severe shock or electrocution, always disconnect power at the service panel before beginning work.

When replacing existing dimmers, label wires before disconnecting. Disconnect old dimmer.

3-Way
In a 3-Way circuit, identify the Common/Hot wire — connected to the terminal marked Common or the odd-colored terminal screw.

If necessary, cut wires and strip insulation using stripping guide on back of dimmer.
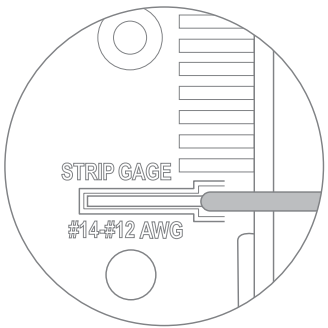

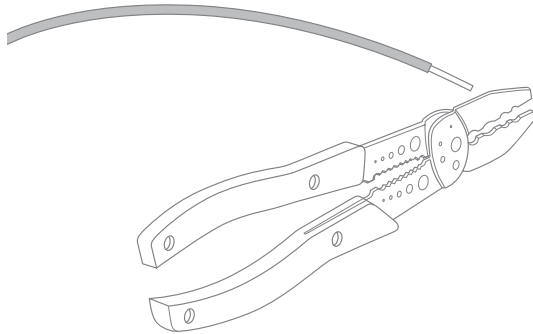

STRIP GAGE
#14-#12 AWG

3

⚠ **WARNING**
Failure to connect the ground wire will result in an unsafe installation that could lead to personal injury.

Connect frame ground wire to bare ground wire in box. Fold ground wires into back of box. Mount frame to wall box with screws provided. Tighten screws just enough to hold frame in place. Do NOT over-tighten. (to 10 in. lbs.)
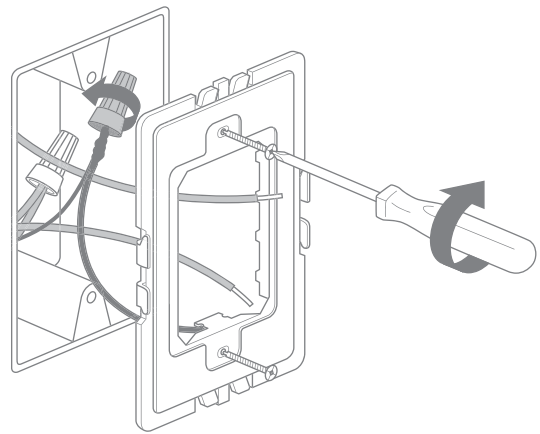

TIPS
• Pre-fold wires into wall box to make it easier to fit them in the box when dimmer is connected.
• Use caution to avoid marring wall surface with the metal frame.
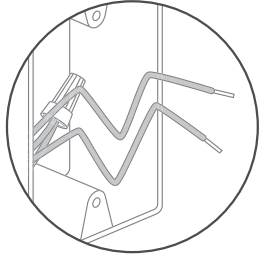

Sample Installation: Paddle Dimmer | Continued

**5** Connect new dimmer as shown. Make sure the terminal holes are clear. Insert wires into terminals and tighten screws securely. Do NOT over-tighten. (to 10 in. lbs.)
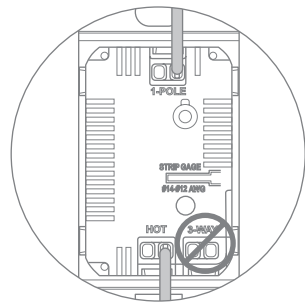

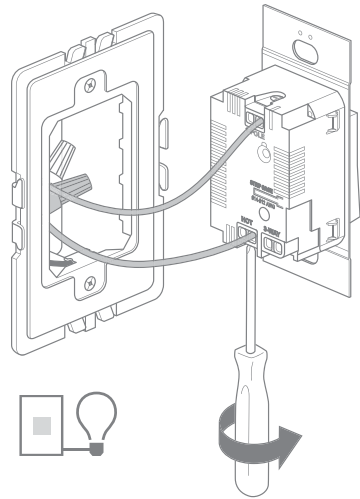

NOTE - No multi-gang derating required.

NOTE - If you have purchased an **adorne** Locator Light or Accent Nightlight, please refer to those instructions at this step.

Single Pole
• Connect one wire to 1-POLE.
• Connect other wire to HOT.
• Do NOT use 3-WAY.
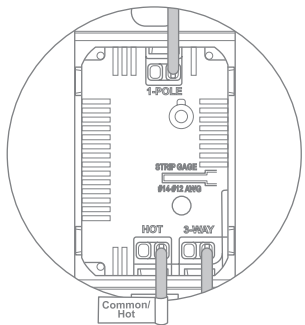

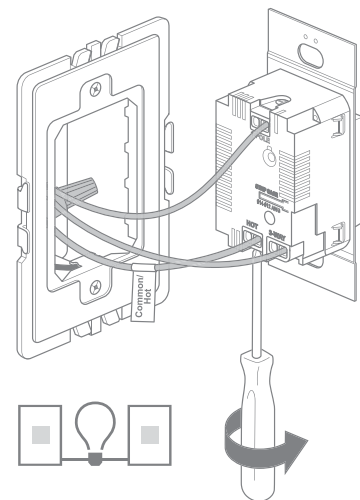

NOTE - In a 3-Way installation, use one dimmer and one switch. Do NOT use two dimmers.

3-Way
• Connect the wire identified as Common/Hot in Step 1 to HOT.
• Connect one of the other wires to 1-POLE.
• Connect remaining wire to 3-WAY.

⚠ **WARNING:** Do not pair different size wires in the same terminal. If you have different size wires, use a wire nut to add a 6 inch pigtail of the same gauge wire to the smaller gauge wire.

Same size.   Different size with pigtail.   Different size.

6 Carefully fold wires into box. Snap dimmer into frame.
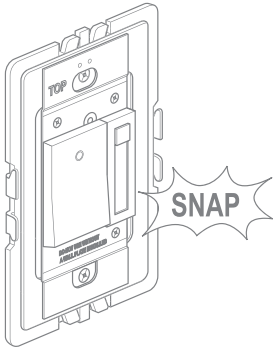

NOTE – If you need to remove dimmer after snapping into frame, first remove frame from wall box to access the four locking tabs on the back of the dimmer. Insert a flat screwdriver to depress tabs as you apply pressure to push dimmer out.
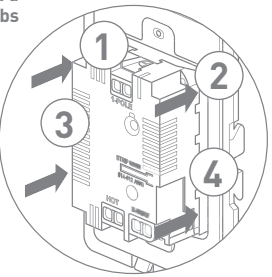

7 **High end light level adjustment**
The dimmer is pre-set so its highest setting provides maximum brightness. To reduce maximum brightness and save energy, you can adjust the high end light level. Remove cover assembly by pressing bottom center snap and lifting cover.
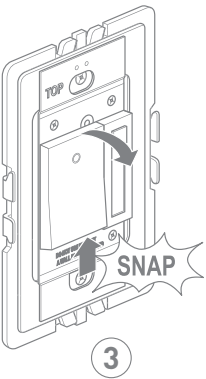

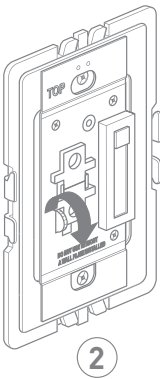

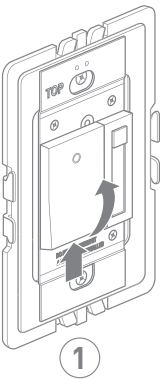

Rotate wheel downward to reduce output voltage. Maximum adjustment reduces output by 10%.

Replace cover assembly. Hook at the top and rotate down to snap into place. Note: Sliders need to be in the same position during cover re-assembly.

8 Snap wall plate to frame. There are three click-stops to adjust the fit of the wall plate to the dimmer and the wall.

NOTE – To remove wall plate, insert a small, flat screwdriver in notches on wall plate and twist gently to pry from frame.
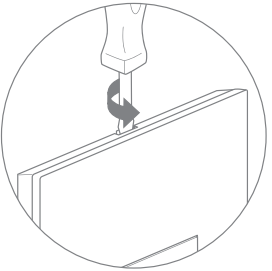

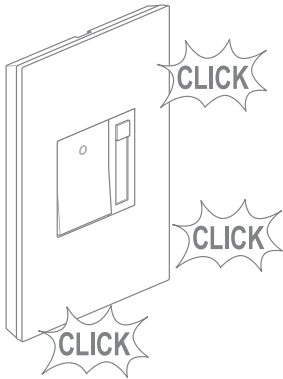

Wipe the dimmer with a damp, clean cloth. DO NOT clean dimmer with chemicals or cleaning solutions.
