

led wallpacks

The Simkar WS LED Series of traditionally-styled LED wallpacks replaces 100W to 400W metal halide wall mounted fixtures while consuming up to 75% less energy and operating for up to 100,000 hours (L70). Powered by high performance, energy-efficient LEDs, WS LED wallpacks produce bright, long-lasting illumination, reducing shadows and creating a safer nighttime environment while saving energy and maintenance costs. The footprint allows for replacement of HID fixtures without painting or patching.

- Traditional design, familiar footprint
- Up to 75% energy savings vs. traditional HID sources
- Up to 100,000 hour operating life (L70)

- Available in 5000K (standard)
- Excellent >80 CRI
- LED technology provides Instant-on operation

HOUSING / LENS Bronze powder coat die cast aluminum housing for a high quality finish, excellent heat dissipation, and durability. Borosilicate prismatic glass lens with weatherproof silicone gasketing to seal out contaminants. The WSM approximate shipping weight is 13 lbs. The WSL approximate shipping weight is 28 lbs.

LEDS WS LED wallpacks are available in 5 light levels (delivered): 2,040 lumens (24W), 2,710 lumens (37W), 4,120 lumens (54W), 5,780 lumens (71W), and 7,560 lumens (95W) at 5000K (standard), >80 CRI. Operating life is up to 100,000 hours L70. Light engines consist of multi chip packages mounted to a metal core PCB and integral aluminum heat sink.

ELECTRICAL Power supply is 120-277V. Power factor is >0.9. Power supply is mounted in direct contact with aluminum housing for cooler operation and longer life. 20W, 30W, 70W, and 90W fixtures use a 28W, 700mA power supply. 50W fixture uses 1 58W 1.5A power supply. The WS

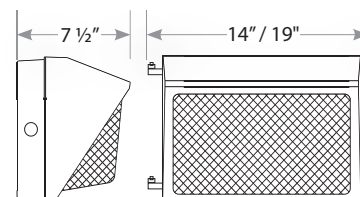

LED Series is suitable for use in operating temperatures of -13°F (-25°C) to 95°F (35°C).

ACCESS / WIRING The side-hinged door opens easily using two captive stainless steel screws to provide easy access to internal components. Wiring options include mounting over a 4" recessed junction box or surface mounting using convenient conduit entries located on sides of fixture. Top conduit entry provided for optional photocell.

MOUNTING The recommended wall mounting height of the WSM LED is 8 ft to 18 ft. The recommended mounting height of the WSL LED is 18 ft to 25 ft.

LISTINGS C-UL-US Listed wet location.

WARRANTY 5 year limited warranty.

WS LED Wall Pack Configuration

ACCESSORIES

For (x) below, please use (M) for WSM or (L) for WSL

WG(x) = Wire Guard

PG(x) = Polycarbonate Guard (vandal shield)

WS(x)-TS = Tamperproof Screws

WS(x)-TSD = Tamperproof Screws & screwdriver

Glare Shields

WS(x)-GS = Side Cutoffs

WS(x)-GSF = Full Cutoff
