RIP-TIE®

RIP-TIE ®

As a manager of a film and broadcast video equipment rental facility, Michael Paul Fennell wanted his products to be the most professionally prepared for this intense, fast paced industry. Frustrated with messy cables and annoying plastic ties, and unable to find any useful options on the market, Fennell set out to solve the problem on his own and came up with the first cable organizer using VELCRO® brand hook and loop fasteners - The Original Rip-Tie CableWrap. He wanted something that was reusable, quick, strong, neat, and wouldn't be lost. He worked on perfecting his invention, testing it on rental equipment and with his colleagues, until he knew he had it right. Little did he know that this handy device would become so popular.

Rip-Tie is the industry standard in reusable cable organization. The Rip-Tie line includes the CableWrap, CableCarrier, CableCarrier-LG, mini, CableCatch, CableHanger, CinchStrap, CinchStrap-EG, Rip-Tie Lite & WrapStrap, Econo Series Products, and we are a Preferred Converter of VELCRO® brand Hook & Loop. Rip-Tie is trusted to be the expert in both cable organization and VELCRO® brand products. After 29 years in business, Rip-Tie proudly boasts a customer base which includes high profile companies like Intel, Panavision and General Dynamics and the U.S. military. From Fortune 100 companies to home users, they all want the same thing - the best quality product available!

Mission

That we maintain the highest quality standards with our products and that all who contact us have a positive experience; including customers, suppliers, and our staff.

Background

We design, manufacture and distribute hook and loop reusable cable management products for virtually every function and market. We have the ability to customize and adapt products for specific needs. All Rip-Tie products are produced on site in our San Leandro facility.

Products

Most Rip-Tie products are available in the ten EIA color code.
The hook and loop materials we use are reusable, and ideally suited for use with sensitive data cables and fiber optics. Rip-Tie is a Preferred Converter of VELCRO® brand Hook and Loop materials.

Services

Quality products, fairly priced, and prompt, courteous service are the Rip-Tie standards. With rare exceptions, we ship within 24 hours from receipt of the purchase order. Our goal; 100% customer satisfaction.

Rip-Tie Product Comparison Chart

Attach to the Cable   *Choose the one that suits your application!*

| Pg	Product	How to use	Features	Application
4	**CW** CableWrap	Attaches to Cable with Nylon Tie	10,000+ Cycles, Pull Tab for Easy Release	For frequently-used cables, such as extension cords, camera cables or any equipment cable. Once it is attached, you won't lose it.
5	**CWE** CableWrap Elastic	Attaches to Cable with Elastic Loop	10,000+ Cycles Pull Tab for Easy Release	Designed to attach the elastic loop directly on the power adapter or optical cable connector. The elastic-loop fits almost any shape.
5	**CWB** CableWrap Buckle	Attaches to Cable with Plastic Buckle	10,000+ Cycles Pull Tab for Easy Release	For frequently-used cables, extension cords, camera cables, and cables for equipment. The installation and removal can be done simply and quickly.
10	**ET** EconoWrap Nylon Tie	Attaches to Cable with Nylon Tie	2,000+ refastening Economical and Easy to Use	For microphone cables and network cables.
10	**EE** EconoWrap Elastic	Attaches to Cable with Elastic Loop	2,000+ Cycles Easy to Release	For microphone cables and network cables with diameters up to 1/2".
10	**ESL** EconoWrap Slip-on	Attaches to Cable with Hook & Loop	2,000+ Cycles Easy to Release	For use with cable diameters up to 3/4".
10	**ESN** EconoWrap Snap-on	Attaches to Cable with Plastic Rivet	2,000+ Cycles Easy to Slide on Cable	Use enclosed rivets for the attachment. Attaches to a cable with the maximum diameter of 3/8". Not a fixed mount type, it can slide freely.
12	**LT** Rip-Tie Lite	Attaches by Inserting Strap through Slot	200+ Cycles Double-Sided Hook & Loop	The Rip-Tie Lite is ideal for bundling & organizing computer and network cables.
12	**LTP** Rip-Tie Lite PLUS	Attaches by Inserting Strap through Slot	200+ Cycles Double-Sided Hook & Loop with Low Profile Material	Same usage as Rip-Tie Lite. The thickness of the Rip-Tie Lite Plus is 0.03", suitable for cabling in limited space.
12	**mini** Rip-Tie mini	Attaches by Inserting Strap through Slot	200+ Cycles Double-Sided Hook & Loop Designed for Small Cables	For small cables, such as charger cables, earphone cables and cell phone cables, etc.

Just Wrap

Pg	Product	How to use	Features	Application
10	**EW** EconoWrap	Just wrap	2,000+ Cycles Economical	Easy to install and remove, durable, good for bundling cables and many other household uses!
13	**WS** WrapStrap	Cut to Desired Length and Wrap	200+ Cycles Leaves no sticky residue	For cable racks, wiring under a server room and floor. Versatile and economical, just cut to desired length.
13	**WSP** WrapStrap PLUS	Cut to Desired Length and Wrap	200+ Cycles Economical - Low Profile	Same usage as WrapStrap, but with a lower profile (0.03"). Suitable for cabling in a limited space.
14	**RW** RipWrap	Cut to Desired Length and Wrap	25+ Cycles Weather Resistant	Used instead of nylon wire ties. Can be used for outdoor applications. Inexpensive and expendable for a variety of uses.

Other Ways to Organize Cables

Pg	Product	How to use	Features	Application
8	**CR** CableCarrier	Attaches to Belt for Easy Access to Cables	10,000+ Cycles Choose from 3 different Attachments	For carrying cables on the go. Also can be used for hanging temporary cable runs.
7	**CC** CableCatch	Peel Backing and Apply to Smooth Surface	10,000+ Cycles Acrylic Based Adhesive, for high temperatures (225°F)	Adheres to most smooth surfaces. Used in computer server rooms, monitor wiring, and medical equipment.
11	**EC** EconoCatch	Peel Backing and Apply to Smooth Surface	2,000+ Cycles Rubber Based Adhesive	Adheres to most surfaces. For use at work stations and many other uses.
7	**CS** CinchStrap	Cinch with Buckle to Fasten	10,000+ Cycles Heavy Duty Utility Strap	For multiple uses; cables, tripods, luggage, boating, and many other household organizational uses.
11	**ECS** EconoCinch	Cinch with Buckle to Fasten	2,000+ Cycles Non-metallic Buckle	Same usage as CinchStrap, NOT for heavy use. For camera cables, tripod, and many other uses.
6	**EG** CinchStrap-EG	Attaches to a Surface with Brass Grommet	10,000+ Cycles Oriented to Any Direction	For professional use, manage cable bundles inside wiring racks and closets.
11	**EEG** EconoCinch-EG	Attaches to a Surface with Brass Grommet	2,000+ Cycles Oriented to Any Direction	For cable management in component racks, Medium duty.

CableWrap

● ●

CW Our highest quality wraps are extremely durable and tested for 10,000 release cycles. MADE IN THE U.S.A.

CableWrap

Our original patented wrap, one end semi-permanently attaches to a cable, the other end has a pull-tab to fasten and unfasten the Rip-Tie with one hand.
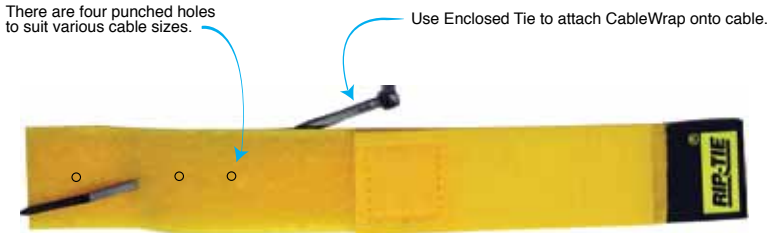

Two-Inch

The two inch wide Rip-Tie CableWrap has two grommetted holes and a flap to cover the heads of the 50 lb. nylon ties that attach the wrap to the cable.
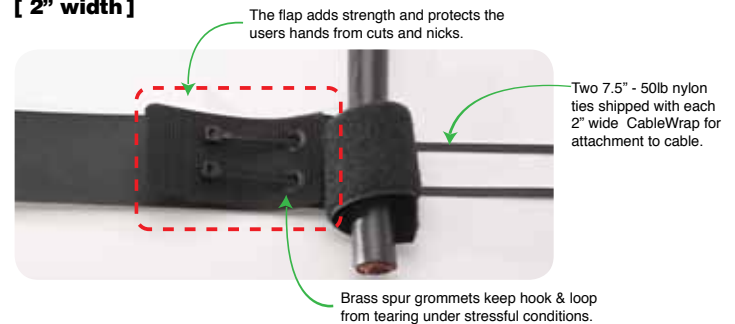

With Webbing

Same great design as the Two-Inch CableWrap with the additional strength of heavy duty nylon webbing. INDUSTRIAL GRADE.

[5/8", 3/4" and 1" width]

There are four punched holes to suit various cable sizes.

Use Enclosed Tie to attach CableWrap onto cable.

[2" width]

The flap adds strength and protects the users hands from cuts and nicks.

Two 7.5" - 50lb nylon ties shipped with each 2" wide CableWrap for attachment to cable.

Brass spur grommets keep hook & loop from tearing under stressful conditions.

CinchStrap-EG

Cable Management for Professionals

EG Our highest quality wraps are extremely durable and tested for 10,000 release cycles. MADE IN THE U.S.A.
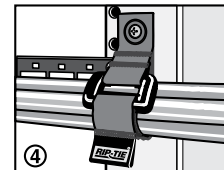

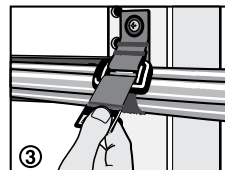

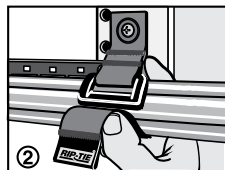

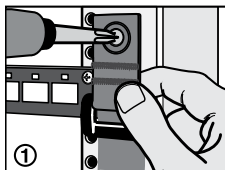

CinchStrap-EG

- Professional grade quality, durability and value for cable management.
- Perfect for managing cable bundles inside wiring racks, mobile carts, along walls, over doorways, and in wiring closets.
- Attach to any rack or surface. Use any fastener up to 1/4" diameter for mounting.
- Non-magnetic grommet spreads fastener load evenly without risk of ripping fabric.
- Can be oriented in any direction.
- One of our top sellers.

Two-Inch CinchStrap-EG

- 2" CinchStrap-EG has two brass spur grommets to support heavier cable runs.
- Grommets are spaced 7/8" on center.
- We can make them at 1-1/8" on center to match standard rack hole dimensions.

CinchStrap

Heavy duty utility strap with extra strength and holding power that exemplifies our exacting standards for the best quality. We use the highest quality hook and loop and double stitch to insure the CinchStrap will stand up to years of daily use.

2" CinchStrap

Many recreational uses like boating, camping, soccer nets, backstops and cycling. Use on suitcases and boxes when travelling - both as a closure and as a unique ID. Earthquake safety strapping for computer equipment. Use in the garden - around hoses and on tools.

Non-metallic buckle - can be used safely around computers without demagnetizing disks.

① ② ③

CableCatch

CC
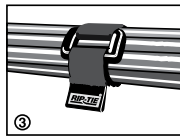

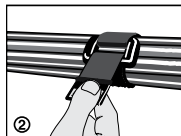

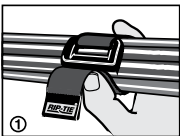

Anchor cords, cables and wires neatly along a surface and out of the way. Acrylic pressure sensitive adhesive securely attaches CableCatch to equipment racks, desks, or walls. Peel-away backing makes the CableCatch easy to install. CableCatch successfully maintains the integrity of cable performance, and offers an easy & reliable way to organize high performance data cable without using nylon ties. One quick pull of the tab releases the cable bundle for easy rearranging and quick equipment set-ups.

ES Our EconoSeries is designed for moderate use and a more budget driven user, tested for 2,000 release cycles. Available with a variety of attachments. MADE IN THE U.S.A.

EconoWrap

EconoWrap is designed for organizing cables and cords for the more budget driven user. Our economical design features a die cut rounded end to make it easier to release.

What is EconoSeries...

EconoSeries are designed for organizing cables and cords for the budget driven user.

EconoSeries are made out of medium duty hook & loop - good for 2000+ cycles.

EconoSeries straps are designed to meet medium usage applications. Our economical design features a die cut rounded end to make it easy to release .

---

Available Attachments

Nylon Tie

Semi-Permanently attached on the cable with nylon tie, so you won't lose it. Nylon tie included.

Snap-On

Install EconoWrap with enclosed rivets. This allows the wrap to slide freely on the cable.

Elastic Loop

EconoWrap with an elastic loop attaches quickly and easily to keep the wrap on the cable.

Slip-On

Install EconoWrap on a cable by peeling the hook away, then place the cable and mate the hook/loop strap.

Our EconoSeries is designed for moderate use and a more budget driven user, tested for 2,000 release cycles. Available with a variety of attachments. MADE IN THE U.S.A. **ES**

EconoCinch-EG

EconoCinch-EG has a brass grommet with an inside diameter of 1/4". It can be attached with a metal fastener to walls, carts, and equipment racks.

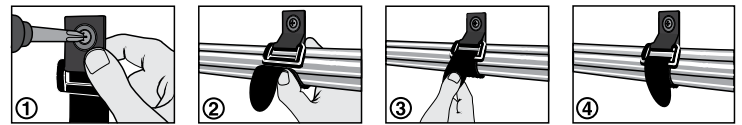

① ② ③ ④

EconoCinch

EconoCinch has many uses; bundling cables, hoses, and strapping equipment to desks or carts. The loop lock acts like a pulley, giving you leverage to pull the strap as tight as needed. The non-metallic buckle is safe to use around electrical and magnetic equipment.

① ② ③

EconoCatch

EconoCatch organizes cables against any smooth surface. The rubber based adhesive back allows for attachment to desks, walls, computers and any smooth surface.

Our lite series are made of double-sided hook and loop, tested for at least 200+ release cycles. Perfect for use on equipment, home theater and audio systems, tools, appliances and more. MADE IN THE U.S.A.

Length

1/2" Width
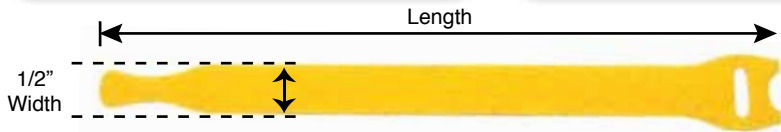

Rip-Tie Lite

Rip-Tie Lite is ideal for bundling & organizing computer and network cables. Made of one piece of double-sided hook and loop. A die-cut slot allows for attachment to a single cable; **chads removed**. Rip-Tie Lite Screw Mount version has a larger head and a perforated "X" for driving a screw.

Plenum Rated Rip-Tie Lite

Meeting the requirements of these regulations allows these products to be used for wire and cable management above a hung ceiling or below a raised floor. Manufactured from Polypropylene and Nylon. UL (Underwriters Laboratories) 94-V2 FAR 2.5 853 A/B NEC Section 300-22 (C) & (D).

RipWrap

RipWrap
RIP-TIE Style Gaffer Tape!

Do you use Gaffer tape? Try RipWrap instead. Great value, reusable and leaves no sticky residue on your cables!

- RipWrap can be used to bundle low voltage cables INSTEAD of nylon wire ties or tape.
- Perfect for Home Theater, Security or Telecom applications.
- Very inexpensive and weather resistant, can be used in nurseries, vineyards, tree farms, florists, and for gardening.
- Both continuous and perforated rolls are available. Perforations allow tearing off pieces at predetermined lengths.
- Polyester construction makes this wrap ideal for marine and outdoor installations.
- Tested for 25+ release cycles.

Unitag

Unitag cable identification labels were developed to provide a quick, easy method of clearly labeling cables 7/16" in diameter or smaller.

Unitag cable labels are easy to read. They can be oriented to be easily read in hard to reach areas, behind computer desks and crowded wiring closets.

The marking surface can be rotated 360 for easy viewing. Unitag labels are easily installed. They are interchangeable and reusable. A marking pen can be used directly on the surface or use your own label printer.
