SNUG FITTING FLOATING EYEGLASSES

Inventor: Thomas A. Bonacci
Costa Mesa, CA (US) 92626

Appl. No: 10/133,281
Filed: Apr. 29, 2002

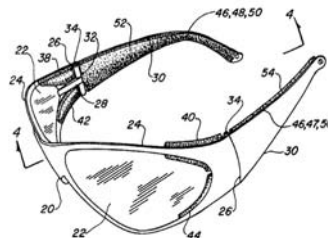

United States Patent
Bonacci Patent No: 6,059,408
Date of Patent: May 9, 2000

SNUG FITTING FLOATING EYEGLASSES

Inventor: Thomas A. Bonacci
Costa Mesa, CA (US) 92626

Appl. No: 09/352,151
Filed: July 13, 1999

PATENTED TECHNOLOGY CREATED WITH PERFORMANCE IN MIND

Founded in 1997, by World Champion Jet Ski Racer, Tommy "The Bomber" Bonacci, Bomber Eyewear has revolutionized the eyewear industry through its patented foam lining technology. Out of sheer frustration of having his glasses bounce around, slip off of his face, and then disappear into the watery depths, Tommy developed an eyewear line with the ultimate thrasher in mind. Drawing inspiration from his own extreme and active lifestyle, Tommy patented a technology (found in no other eyewear brand) to ensure a comfortable and snug fit, guaranteed to float - perfect for any sporting fool in or out of the water.

Say good-bye to those uncomfy shades that pinch the sides of your head and leave red marks on your temples; alleviate the discomfort behind your ears or your nose. We are the perfect excuse to finally ditch those shades aimed at optical agony.

"The Bomber" 1995 Pro Sport World Champion
