

Edwards® 1887 Series Battery Operated Analog 12" Clocks

Features

- 12 hour dial with arabic numerals
- Surface mount
- Shatter-resistant polystyrene case
- Shatter-proof crystals available

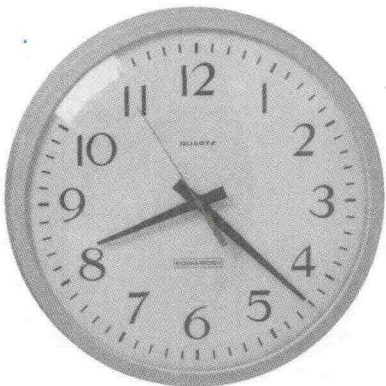

Description

Edwards analog clocks have large, easy to read numbers on a white background. The black hour and minute hands and blue second hand are attractive and visible from a great distance.

The 1887 is available in either a brown or gray case. To protect the clock from damage, order the Cat. No. 1888 Wire Guard. To pendant mount the clock, order the Cat. No. 1899BL, 1899B, or 1899A suspension unit. See Clock Accessories, page 13-18.

Specifications

- 12 inch (305mm) face
- 1.5V "C" size alkaline battery (purchased locally)

Applications

Edwards clocks are used in industrial plants, offices, schools, health facilities, public buildings, and transportation terminals. Use wherever an attractive, quality time piece is required.

Cat No.	Case Color
