

Contractor Series Halogen Worklights

CCI offers an expanded line of heavy-duty die cast Power Light halogen worklights for any residential, light commercial construction or maintenance project. The compact designs and variety of both lumen output and base options offer convenient, easily transported models for ultra-mobility and versatility, from 35W clamp-on small space lighting to 1,000W directional wide-area site lighting. All lights include Shadow Fighter™ grills. Sled-base and Tri-Pod options offer maximum versatility for directional lighting.

Features & Benefits

- Heavy-duty, die-cast frame provides years of service
- Shadow Fighter™ grills maximize light output
- Compact design offers great portability
- Hooks and clamps on the 35W and 250W offer over-head small space light option
- Tri-pod model offers 500W or 1,000W directional lighting with a sled base for ultra-versatility

Industry Approvals

- UL and cUL Listed

Product Construction

- Heavy-duty, die-cast, powder coated frames
- Shadow Fighter™ grills
- Tempered high heat glass
- Heavy-duty polypropylene Worklight Tool Tray has a universal mounting bracket
