## MILWAUKEE TOOL FORCE LOGIC™ PRESS TOOLS

### WHY PRESS?

Press is a method of joining pipe that uses force to make a connection, eliminating the need to solder, groove, braze, thread or weld. Utilizing only three short steps, connections can be completed up to 60% faster than traditional methods, and involve no open flame. Most importantly, press eliminates the need to drain and dry a system, enabling fast, professional repairs and increased productivity on service calls.

#### Saves Time

- Up to 50% faster than traditional methods
- Works on a wet system

#### Consistent & Reliable

- Over 1 Million press fittings installed in the U.S.

#### Safe

- No open flame
- No need for permits
