Concealed Service Floor Boxes

663 Series Floor Box

- Multiple service floor box that delivers power, communications and data from standard conduit with no exposed service fitting
- · Result: Open office planning flexibility
- Ideal for workstations that require power, communications and data service
- Stamped steel, concrete-tight, semi-adjustable
- Electro-galvanized body and hardware
- Shipped complete with expendable cap to prevent ingress of concrete
- Blank- and duplex-face plates can be mounted at either end of the box
- Does not include duplex faceplate; faceplate is included with P-62-CP and P-60-3B cover plates
- Use P-62 and P-60 Series covers*

When ordering a 664 Series box, the cover must be ordered separately, see page C50 For communications accessories, see page C85 $\,$

Multiple-Service Floor Boxes for Power, Communications and Data

Multiple-service floor boxes deliver power, communications and data from standard conduit with no exposed service fittings. Result: Open office planning flexibility. Ideal for the modern office with workstations that have power, communications and data equipment.

Power receptacles and low-voltage connections can be enclosed underfloor in either steel or cast-iron bodies. Galvanized 14-gauge steel boxes are provided with knockouts from 3/4 in. to 1-1/4 in. Cast-iron bodies have threaded openings for 3/4 in. and 1 in. conduit.

- Two-compartment boxes are available in three types: stamped steel (664-SC), shallow (664-S) and cast iron (664-Cl)
- Durable nonmetallic covers include a steel reinforcement plate for added strength
- New! Metallic covers in solid brass and aluminum provide aesthetics and durability
- Four leveling screws enable quick leveling to desired **concrete** depth
- · Cover flange self-levels with the finished floor for easy installation

665 Series Floor Boxes: 665SC

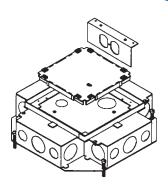

- For concrete application
- The 665 line is an extension of the industry-leading 664 Series; our concealed service line now allows the customer to install up to four device panels in one box
- Through the use of a unique nonmetallic wire tunnel, the installer can easily partition the power, voice/data requirements
- Four (4) device compartments can accommodate any combination of devices. For example: (3) duplex power devices and (1) duplex telephone device, or (2) voice and data connectors and (1) GFCI device and (1) blank, etc.
- Overall height of 3-1/2 in. allows for shallow pours when needed
- High-Strength polycarbonate cover with a 5/32 in. steel plate assures structural integrity
- Metallic Covers also available in solid brass and aluminum
- Four-side feed-through allows installer to feed through power or data/com service from any orientation
- Nonmetallic wire tunnels aesthetically clean. Full-width tunnel provides maximum feed-through capacity; nonmetallic material prevents conductor damage
- Total access area of 126 cu. in. allows for friendly installation of workstation cables
- Contains 28 knockouts (16-1-1/4 in. and 12-3/4 in. KOs) that provide increased flexibility when installed
- This CSA Listed, stamped-steel floor box can be installed with Thomas & Betts voice and data connector products
- Four 2-1/2 in. levelling screws provided with all boxes
- Device panels ordered separately

Cast Iron for Slab-On-Grade Applications

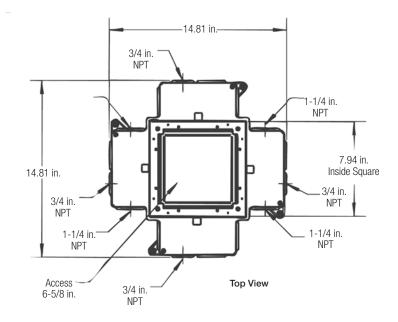

The new Steel City® 665 Cast Iron Floor Box provides a high-capacity power and data solution for ground-floor installations. This 4-gang recessed-service floor box is ideal for **concrete slab-on-grade applications**. Removable voltage dividers enable users to customize wiring configurations by feeding two or more adjacent compartments with a single conduit. Aesthetic covers feature a recess to accept floor covering to match the surrounding floor.

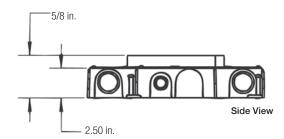

- 4-gang, recessed service for a high-capacity aesthetic floor-box solution
- Removable voltage dividers between compartments enable a single conduit to feed two or more adjacent compartments
- Heavy-duty, nonmetallic covers with steel reinforcement plates are available in a wide variety of colours to match any decor (black, grey, brown and beige)
- · Metallic Covers.
- Separate cord door in the cover latches firmly in the open position to prevent damage to cables
- MopTite[™] covers meet UL scrub-water exclusion requirements for carpet, tile and wood
- Largest cubic-inch capacity of any cast iron recessed 4-gang floor box
- Inline 1-1/4 in. hubs allow high-capacity straight runs for communication wiring

Decora® Adapters and Keystone Inserts for GFCI Device Plates. (Not included)

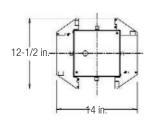

2 KOs for Audio Visual Applications

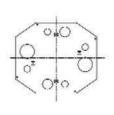

- For concrete application
- 2 KOs enable pre-terminated AV cables and connectors to be pulled directly through the conduit
- Accepts standard 665 Series covers and device plates for power, voice, data and audio visual connections
- Decora® style adapters allow voice, data and AV connectors to be mounted in a standard GFCI device plate
- Keystone style voice, data and AV connectors meet a wide range of low-voltage applications. All connectors are recessed for flush mounting in floor box applications.
- Device plates are available that accept Extron® MAAP plates to accommodate any AV requirements (Extron® MAAP plates purchased from an authorized Extron distributor)
- Metallic covers provide a durable, aesthetic installation, including industry-exclusive solid brass covers (not painted or plated, aluminum also available)

Recessed Service Floor Boxes

667-SC Floor Box

- For concrete application
- Largest capacity concealed-service floor box on the market.
 - Four "double-gangs" allow for two duplex receptacles per gang, for a total of eight receptacles per box
 - Each gang has 40 cu. in. of capacity
 - Box interior has 128 cu. in. of capacity
- Standard box configuration is for up to eight power and/or low-voltage devices
 - Box design allows for feed-through cabling for power and low-voltage conductors
- Shallow design
 - 3 in. overall height is ideal for renovations and upper level floor installations
- Full line of low-profile covers
 - Utilizes same quality cover as AFM-8 Access Floor Module
 - High-strength polycarbonate
 - Steel reinforced for added durability
 - Two receptacle cable exit ports
 - 64 sq. in. opening provides easy access to device panels
 - 1/4 in. recess for carpet/tile insert
 - Available in grey, black, brown and beige
- Box is manufactured with (1) 3/4 in., (3) 1 in. and (1) 1-1/4 in. KOs per gang.—
 This includes a 1 in. and 1-1/4 KO located in the bottom
- Full complement of device panels
 - Device panels available with one or two duplex openings, one or two GFCI openings, six standard "keystone" with Omni 110 bezels and blanks
- Provided with leveling legs and base feet
 - Base feet can be attached to form preventing box movement during concrete pour.
 - Leveling legs provide up to 1-1/2 in. pre-pour adjustment
- · Manufactured from 14-gauge pre-galvanized steel
 - Quality construction provides added durability and rust protection
- MopTite[™] covers meet UL scrub-water exclusion requirements for carpet, tile and wood

668-S Ultra-Shallow Floor Box

Top View – Compartment Layout
Note: shown with Top Plate Removed

The 668-S Ultra-Shallow Floor Box from Thomas & Betts provides a high-capacity power and data solution for shallow **concrete floors**. The low-profile 4-gang box is constructed of galvanized stamped steel. Removable voltage dividers enable users to customize wiring configurations by feeding two or more adjacent compartments with a single conduit. Metallic covers with durable powder-coat finish are designed to match any decor, while optional edge trims enable covers to be mounted completely flush with the floor in tile or wood floor applications.

- Low profile (2-1/2 in. height) for shallow concrete pours
- 4-gang, recessed service for a high-capacity, aesthetic floor box solution
- Stamped-steel box construction
- Removable voltage dividers between compartments enable a single conduit to feed two or more adjacent compartments
- Metallic covers feature durable powder-coat paint to match any decor (black, grey, brown and beige)
- Heavy-duty cord door in the cover latches firmly in the open position to prevent damage to cables
- Optional tile trim enables flush mounting for tile and wood floor applications
- MopTite™ covers meet UL scrub-water exclusion requirements for carpet, tile and wood
- Largest cubic-inch capacity of any shallow, recessed 4-gang floor box
- Additional KOs (up to 2 in.) on the bottom of the box enable installation flexibility
- Custom device panels are available contact your Regional Sales Office about these offerings
