FEISS®

EST. 1955

Established in 1955, Murray Feiss began by offering a small assortment of porcelain figurine lamps that were topped with his mother's hand-sewn lampshades, and the brand has evolved over the years into one of the country's leading manufacturers of decorative lighting products. As always, we strive to deliver an expansive selection of beautiful designs, accessible price points and exceptional customer service -- attributes that were all near and dear to Murray Feiss when he founded this company and remain equally important to us today as we look toward the future.

Quality Design: Each year we gather inspiration far across the country and across the world to bring you fresh designs spanning from traditional to contemporary styles, all with an eye to delivering the high quality details our savvy customers expect. We strive to ensure our products generate an emotional connection with you and your space. Your surroundings reflect your taste and preference, and our products are designed to achieve that feeling of completion as you place each Feiss fixture in the perfect location. No corner is ever cut when we design and manufacture our products. We source quality metals, crystal, marble, ceramics and, yes, porcelain as well as many other materials and an extensive array of finishes to achieve distinctive looks which complement every style of interior and exterior design.

Accessible Price Points: Whatever your look is, you will find it at Feiss -- at a variety of price points to fit any budget. From those just starting out to those decorating expansive, stately spaces, Feiss is at the top of their list when exploring their local lighting showrooms for the perfect fixtures. We leverage our company's long-standing business relationships with our vendors and partners around the world to source high-quality materials at the best possible rates, uniquely delivering to you high style at accessible prices.

Exceptional Service: Our customers are second to none, and our dedication to them matches that. We take delight in offering exceptional customer care and strive to exceed customer expectations each and every time. With pride in our company's past and a commitment to the future, employees from Coast to Coast and from across the Globe all work together to deliver the very best in lighting and service.

Energy Star

Feiss energy efficient lighting products have minimum ballast starting temperature of 0° F. (-18° C).

Title 24 Compliant – This is a building code standard for incorporating energy efficient lighting. Any fixture that has GU24 based sockets would meet this requirement.

Energy star Compliant – Requires GU24 base socket and bulb. For outdoor lanterns, this additionally requires photocell switch. (Photocells are not included on the ceiling mount or chain hung lanterns.)

Dark sky Compliant – Fixtures designed to allow down-only direction of light output.

ADA Compliant – This requires wallmount fixtures to extend no more than 4 inches from wall surface. The intent of this standard is to eliminate impediments to the movement of visually impaired persons, by eliminating objects that project too far into their pathway. This is building code based standard.
