

L-101

The Industry's Premier Line of Wiring Devices

Including Power Delivery and Data Connection Devices for Construction & Maintenance

THE FUTURE IS ON

The Largest Selection for Industrial, Commercial and Residential Construction

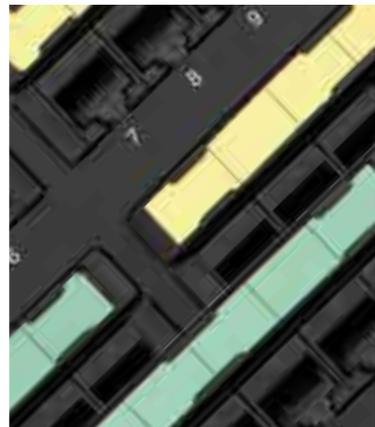

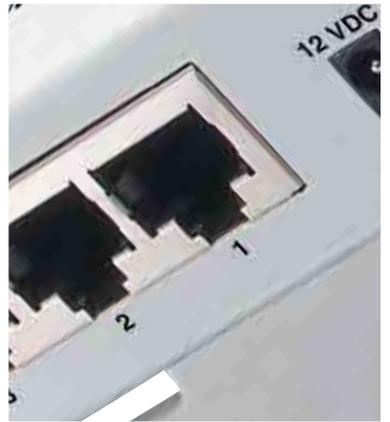

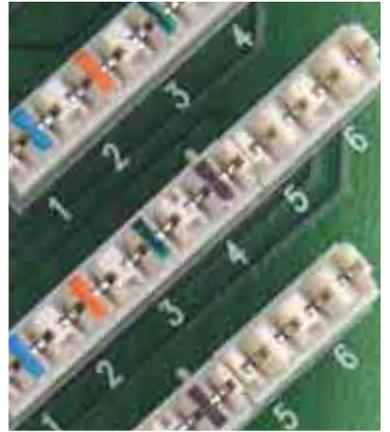

TABLE OF CONTENTS with Quick Reference Index

ABOUT LEVITON—vi–ix; HOW TO USE THIS CATALOG—x, A8, C36, D28, G18, H8, J36, K18, T6, U6
 CATALOG NUMBER ALPHANUMERIC INDEX (last section)—Index pages 1–16

SECTION **A**
Acenti Collection

Acenti® Collection
 Overview A2
Acenti Lighting Controls
 Dimmers and Fan Speed Control A3
Acenti Switches
 15A and 20A Switches A4
 Electronic Timer Switch A4
 Manual-ON Occupancy Sensor A4

Acenti Receptacles
 Triplex and Duplex A5
 Sixplex and Duplex Surge Protective Receptacles A5
Acenti Wallplates and QuickPort® Connectors
 Wallplates A6
 QuickPort Snap-In Connectors A7
 QuickPort Wallplate Inserts A7

SECTION **B**
Decora Devices

General Overview B2
 Decora Switch Overview B3
Commercial Grade Switches
 Decora *Plus* AC Quiet Rocker Switches B4
 Decora *Plus* Momentary and Maintained Switches B5
 Decora *Plus* Illuminated and Pilot Light Switches B6
Residential Grade Switches
 Decora AC Quiet Rocker Switches B7, B8
 Illuminated, Pilot Light B8
 Decora 911 Emergency Flasher B8
Industrial and Commercial Grade Receptacles
 Decora Receptacles Overview B9
 Decora *Plus* Receptacles B10, B11
Residential Grade Receptacles
 Decora Quickwire and Side Wired B12
Hospital and Industrial Grade Surge Protective Receptacles
 Decora Back and Side Wired B13
SmartLockPRO® GFCI Receptacles
 SmartLockPRO® Overview B14

GFCI Receptacles B15
 Combination Switch/GFCI Outlet B15
 Blank Face B15
Commercial Grade Devices
 Decora Combination Devices B16, B17
 Decora Voice/Data/Video Devices B18
 Decora *Plus* Canadian 347V AC
 Quiet Rocker Switches B19
 Canadian 347V Midway Nylon Wallplates B19
Wallplates
 Decora *Plus* Screwless Snap-On B20
 Decora Thermoset, Thermoplastic and Metal B21–B23
 Adapters B24
 Replacement Screws B24

THE FUTURE IS ON

2007 Don Hendler named CEO; Steve Sokolow named Chairman.
New branding launched.

2005 Don Hendler becomes President.

2003 Opening of manufacturing facility in China.

1986 Leviton begins operations in Mexico

1979 Leviton devices used in refurbishing Statue of Liberty and Ellis Island.

1975 Company moves corporate headquarters to Little Neck, NY.

1973 Decora® designer-style devices introduced.

1965 Harold Leviton becomes President and CEO.

1961 Leviton devices installed in the White House.

1953 Acquires Hale Brothers Companies, now known as Leviton Canada.

1939 Leviton devices featured at the World's Fair.

1932 Leviton devices used in Empire State Building.

1929 Leviton relocates to Greenpoint, Brooklyn.

1910 Leviton makes pullchain lampholders for Edison's new light bulbs.

1906 Isidor Leviton opens a small shop in New York making gas mantle tips.

Rooted in a Rich Tradition of Excellence

Isidor Leviton

The Leviton Manufacturing Company

offers our customers the most comprehensive

selection of wiring devices for virtually every conceivable residential, commercial, industrial and OEM wiring application. From our simple roots at the dawn of the electrical age, our product offering has branched out to include more than 25,000 wiring devices, systems and components which meet the needs of today's rapidly changing global marketplace. And while times have changed, the core principles upon which the Leviton family business was formed remain the same. Quality, innovation and a rich heritage of unparalleled customer service and support are hallmarks of the Leviton name.

From Modest Beginnings to Industry Leader

Like many large companies today, Leviton didn't start out that way. Our founding father Isidor Leviton opened up a small tinsmithing operation in Manhattan in 1906, after emigrating from Russia. The small startup company produced mantle tips for the gas lighting industry. As electricity quickly grew to become the dominant infrastructure for powering the lights and

Harold Leviton

the appliances of the day, the business retooled to produce a single electrical product — the pull-chain lampholder. Envisioning the widespread use of electricity in homes, businesses and factories at the turn of the century, the Leviton Company continued to anticipate marketplace needs. As times changed, so did we, and over ten decades, from simple beginnings, we evolved to become an industry leader with operations throughout North America and around the globe.

Leading the Way through a Rich Family Heritage

Today, standing on the horizon of our second century in business, we're committed to remaining that rarity in the contemporary American business landscape — a third generation family-owned company dedicated to our core vision, philosophy and family culture. From the early days of Isidor Leviton, to the global expansion engineered by the "big-picture" thinking of our late CEO and Chairman, Harold Leviton, to our latest branding and strategic programs under his successor Don Hendler, Leviton's legacy and family tradition live on. Now in our second century, we continue to lead the industry with the most complete selection of products, programs and services.

Don Hendler

No matter what markets you serve...

Your Future Is On with Leviton

There's a good reason Leviton is the number one choice of builders,

architects, electrical contractors, specifying engineers and other electrical professionals we serve. We've set the highest levels of quality and efficiency as our benchmarks. Our products are backed by superior technical service, quality assurance, engineering, research and development, testing and the highest manufacturing standards. This combination of expertise and personal commitment has earned us a worldwide reputation for quality, precision and reliability.

Pioneering Advances

Leviton engineers, designers and researchers apply leading-edge technology in the design of our products. Equipped with the latest

CAD/CAM tools, direct model-making capability and industry-leading R & D and testing facilities, our design staff is able to quickly develop products for every industrial and commercial grade wiring device application, as well as the latest offerings in lighting controls, lighting and energy management systems, structured media components, home automation and a host of other emerging new areas.

Advanced Technologies

Through vertical integration of our manufacturing capabilities,

we fabricate all parts for the devices we produce. This assures unmatched quality, not only in finished products, but also in components and sub-assemblies. Industrial robotics and automated assembly improve our manufacturing process dramatically, so that we are able to measure production times in minutes, and often in seconds. And, our ability to make quick product changeovers enables us to operate at the cutting edge of responsiveness.

Setting the Standard for Service

The true mark of leadership is customer satisfaction.

A centralized customer service department lets us service your needs with quick turnaround and maximum efficiency.

Strategically located warehouses throughout North America, equipped with state-of-the-art material handling technologies are interlinked by a computerized network that provides outstanding turnaround and order fill for our customers. Our electronic data interchange (EDI) and vendor managed inventory (VMI) satisfy a broad array of customer needs.

World-Class Quality

Leviton's state-of-the-art manufacturing processes facilitate zero-defect factory output as well as lower production costs. Our quality assurance team has instituted an innovative inspection program that applies statistical process controls to improve product quality. Component parts are checked at every step to ensure that finished devices are perfect. In addition, we use UL as a registrar to secure ISO registration for our manufacturing plants, warehouses and office facilities.

All Leviton manufacturing facilities are ISO 9001 Certified. We are also committed to Six Sigma quality standards as an integral part of our operations. This leads to measurable quality enhancements in all phases of manufacturing, with the goal of achieving a performance standard of 99.9997%, or 3.4 defects per 1 million opportunities.

Powerful Marketing Maximizes Opportunity

Leviton goes to market in the Retail, Distribution and OEM channels. Each has a dedicated Marketing Division applying its depth of expertise to identify opportunities for creating strong sales volume, increased share of market and sustained profitable growth for our customers. In addition, Leviton offers comprehensive marketing and merchandising support that includes advertising, collateral materials, sales aids, incentive programs, award-winning merchandising systems, promotions and in-depth training.

Leading the Industry

Leviton has led the industry at the forefront of progress and innovation for over a century. We sustain this legacy with a continuing commitment to

pioneering new technologies, implementing enlightened business policies and providing outstanding responsiveness. The net result is that no matter what markets you serve, it's our pledge to serve you well.

Our Most Comprehensive Catalog to Date

The L-101 Catalog reflects our commitment to support traditional as well as emerging new markets. We expanded this catalog with an extensive line of rugged, high-performance

Industrial Grade devices to satisfy the exacting needs of industrial and institutional users. Also included is a larger offering of devices for commercial and residential applications, including the latest structured wiring and multimedia solutions. Our most comprehensive catalog to date, the L-101 represents our dedicated commitment to serving your complete electrical wiring device needs.

...Leviton will serve you well.

TABLE OF CONTENTS with Quick Reference Index

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

15 AMP 125 and 250V • 20 AMP 125 and 250V
Industrial Grade Straight Blade Receptacles

Back and Side Wired (Basic Cat. No. Denotes Brass Device*)

SPECIFICATIONS AND FEATURES

Back & Side Wired Duplex

- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely latch face
- Single-piece brass mounting strap on LEVISPEC devices, multi-piece steel strap on other devices
- Large, lip-wipe, brass "T" contacts for superior contact and conductivity
- Back and side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Abrax barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back wiring for superior contact and conductivity

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399); UL Federal Specification WC-590

COLOR

Basic Cat. Nos. shown above denote Brass device, except for Isolated Ground (-IG) devices. Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Brown (For IG devices only, add -B), Almond (-A), Light Almond (-T), Gray (-G or -GX), Black (-B), Red (-R) and Blue (-BU, for IG devices only, add -BIG)

MATERIAL CHARACTERISTICS

Environmental: Flammability, Rated V2
 Operating Temperature: From -40° C (without impact) to 60°C maximum continuous

ACENTI® COLLECTION FEATURES

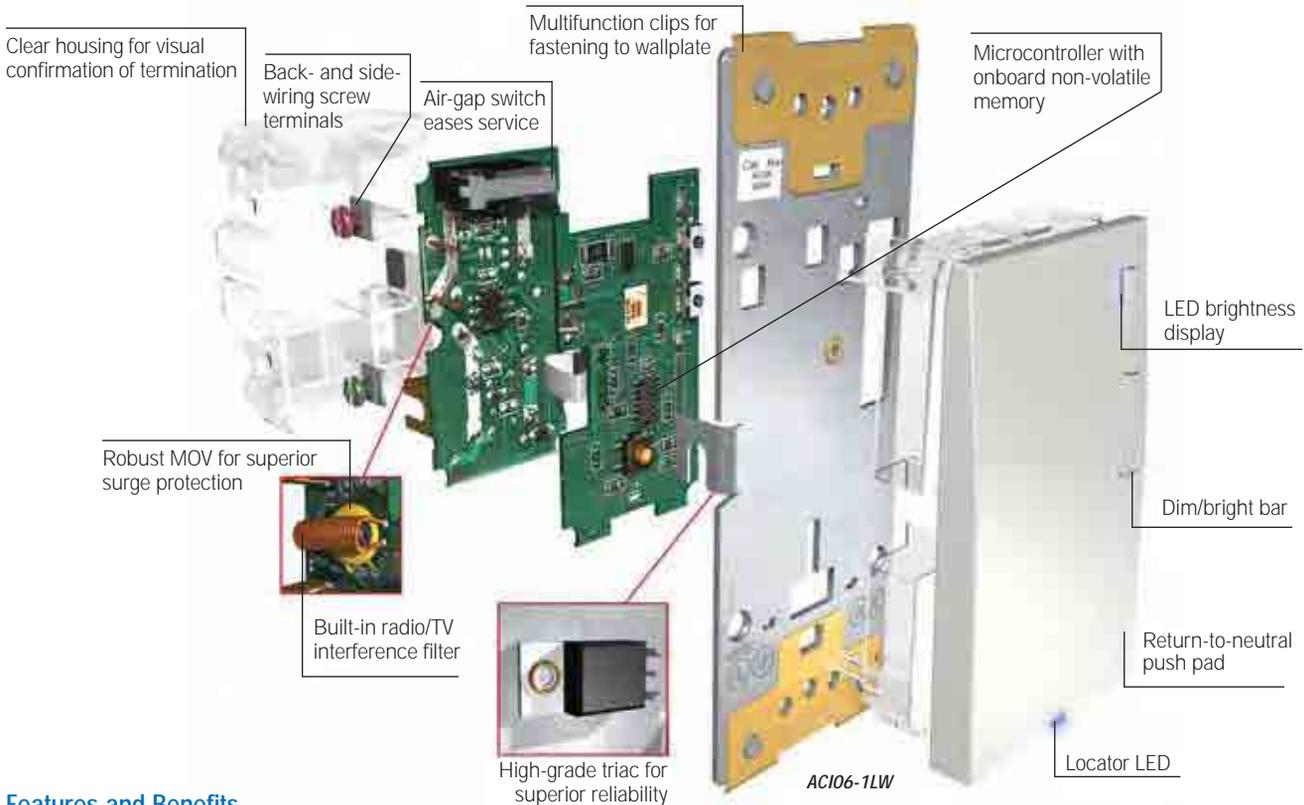

Premium Grade Lighting Controls and Devices

THE ACENTI COLLECTION OFFERS A FULL PORTFOLIO OF TECHNICALLY AND AESTHETICALLY SUPERIOR DEVICES FOR RESIDENTIAL APPLICATIONS.

Acenti lighting controls and switches respond alike; their push pads remain permanently graded. No line breaks or irregular shadow patterns detract from their pleasing, symmetrical appearance. The Collection includes the industry's first triplex receptacle, duplex and sixplex surge protective receptacles, GFCIs, screwless snap-on wallplates, and QuickPort® multimedia inserts and snap-in connectors.

Acenti Lighting Controls

Lighting and fan speed controls feature a patent-pending return to neutral push pad, multi-location control with either matching or coordinating remotes, soothing blue LEDs and Acenti's unique surface alignment system.

Features and Benefits

- Efficient construction with consistent form factor, excellent ergonomic traits and precision feel
- Innovative contoured geometry* offers an exclusive aesthetic design
- Clean multi-gang installation with no dividers between devices
- Devices and wallplates molded from engineering-grade polymer with subtle matte finish and flawless color match
- Screwless wallplates snap onto device's TOX®-fastened multifunction clips
- Brushed and polished metal finish wallplates available to coordinate with premium grade appliances
- Meet all applicable UL, CSA, NOM and FCC requirements
- Backed by a Five-Year Limited Warranty

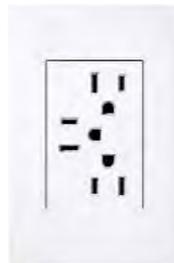

* U. S. and Foreign Patents Pending.

ACENTI BY LEVITON...DOWN TO THE LAST DETAIL

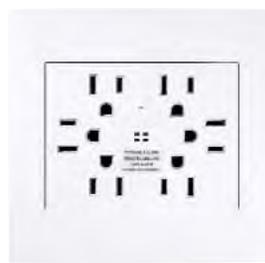

Switches

Return-to-neutral push pad with blue LED locator. 15A electronic (single-pole or multi-location) and 20A electromechanical models (120 & 277V in SP, 3W, 4W).
AC15-1LW shown

Triplex & Duplex Receptacles

Exclusive space-saving Triplex Receptacle in NEMA 5-15R and 5-20R configurations. Duplex models also available.
AC315-W shown

GFCI, Sixplex & Duplex Surge Protective Receptacles

GFCIs feature lockout action for added safety. Exclusive Sixplex Surge Receptacle saves space and helps protect sensitive electronic equipment.
ACSR6-W shown

Wallplates

Screwless snap-on design provides smooth, clean look exclusively for all Acenti devices. Brushed stainless steel versions available.
ACWP1-W shown

Premium Grade Lighting Controls

Acenti Lighting Controls

All Acenti lighting controls provide single-pole (one location) and 3-way (multi-location) control when used with Remote unit.

Coordinating Remote Unit to 120V Dimmers/Fan Speed Control for 3-Way or up to 10 locations, no LED; Neutral required†	AC00R-10	No load rating	W, Q, A, S, D, C, G, E

† Except when used with incandescent or magnetic low-voltage dimmers.

CAUTION ON RETROFITS: When retrofitting Mark 10™ *Powerline* dimming ballasts into fixtures that originally had Instant Start ballasts, the sockets MUST be replaced with Rapid Start sockets to allow proper dimmer operation and prevent damage to the dimming ballast. Refer to the instructions provided with the ballast and the Leviton dimmer.

Acenti Colors

Note: Wallplates are also available in Brushed Stainless Steel, Polished Chrome and 24K Gold finishes. Custom premium colors available.

SPECIFICATIONS AND FEATURES

- Universal design provides crisp actuation with minimal travel
- Push pad always returns to neutral position regardless of load status
- Minimum brightness can be adjusted to comfortable level
- Dim-lock feature allows lights to turn on to a user-configured level every time
- Soothing blue LED Locator for easy location in the dark
- Subtle blue LED brightness level display
- Digital circuitry provides eye-pleasing soft-ON/fade-OFF and extended lamp life; fade rates are selectable

- Protected memory and voltage compensation maintain light levels after power outages
- Single-pole (one-location) and 3-way (multi-location) switching with Acenti Remote Units
- Built-in radio/TV interference filter
- Terminal screws (back- and side-wire) on select models ease installation
- Multifunction self-grounding clip snaps onto wallplate and ensures proper device alignment
- Screwless, snap-on wallplates in matching and coordinating colors

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373)
- CSA Certified (File #LR-3413)

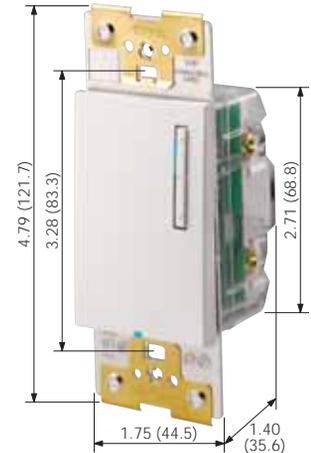

- NOM Certified (#057)
- Meets FCC Part 15
- Backed by a Limited Five-Year Warranty

*COLOR

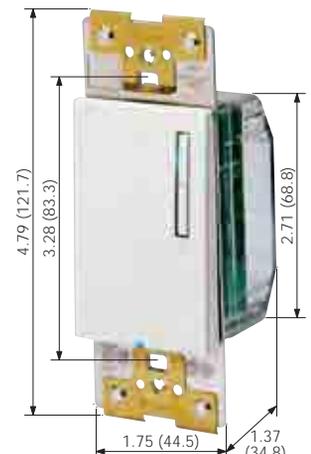

For color selection, add suffix to catalog number as follows: Alabaster (-W), Quartz (-Q), Natural (-A), Sand (-S), Driftwood (-D), Cocoa (-C), Slate (-G), Onyx (-E).

SPECIFICATIONS AND FEATURES

Acenti Switches

- Universal design provides crisp actuation with minimal travel
- Push pad always returns to neutral position regardless of load status
- Soothing blue Locator LED for easy location in the dark
- ACS15-1L provides single-pole (one-location) and multi-location switching with Acenti Remote Units
- Terminal screws (back- and side-wire) ease installation
- Multifunction self-grounding clip snaps onto wallplate and ensures proper device alignment
- Screwless, snap-on wallplates in matching and coordinating colors

Acenti Electronic Timer Switch

- Four preset buttons plus OFF for timed control of lights and appliances
- LEDs indicate time elapsed and last LED flashes two-minutes-until-OFF warning

Acenti Occupancy Sensor

- Manual-ON/Automatic OFF operation in accordance with California Title 24 2005 requirements
- ACP15 provides true 3-way control when used with ACPOR Remote – ideal for L-shaped room or any large rooms
- ACP15 can be used with Acenti Switch Remotes for true 3-way control where a single sensor provides

complete room coverage – ideal for rooms with more than one entrance

- ACPOR Remote can be used with any Acenti dimmer for true 3-way control with combined occupancy sensor/dimmer functionality – ideal for Jack and Jill bathrooms

TESTING AND CODE COMPLIANCE

- Switches:** • UL Listed (File #E-7458)
- CSA Certified (File #LR-152105)
- Meets NEMA WD-1 & WD-6 requirements
- Timer:** • UL Listed (File #E-66800)
- CSA Certified (File #LR-68679)
- Occupancy Sensor:** • UL Listed (File #E-118904)

Acenti Collection

SPECIFICATIONS AND FEATURES

All Triplex and Duplex Receptacles

- Fit into a standard size wallbox
- Exclusive space-saving Triplex Receptacle accommodates 3 NEMA grounding plugs
- Neat multi-gang installation with no dividers between devices
- Terminal screws (back and side wire) available for easier installation
- Multifunction self-grounding clip snaps onto wallplate and ensures proper device alignment
- Subtle, matte finish complements fine décors
- Molded from engineering-grade polymer for uniformity and flawless color match
- Screwless, snap-on wallplates in matching and coordinating colors

GFCI Receptacles

- Patented bridge contact provides individual set of contacts for GFCI receptacle face and downstream receptacles
- Patented, advanced technology "dead-face" safety feature: no power to receptacle face if improperly wired (line-load reversal)
- Lockout feature for added safety
- Matching TEST and RESET buttons

Surge Protective Receptacles

- Exclusive space-saving Sixplex Surge Protective Receptacle provides six outlets
- Protect sensitive electronic equipment against transient voltage surges
- UL 1449 clamping level: 400V
- Audible alarm for protection status
- Soothing blue LED Monitor/Indicator

TESTING AND CODE COMPLIANCE

- UL Listed (Triplex/Duplex/Surge: File #E-13399, GFCI: File #E-48380)
- CSA Certified (Triplex/Duplex: File #LR-152105, GFCI: File #LR-57811, Surge: File #MC152105/LR-406)
- NOM Certified (#057)
- Meets NEMA WD-1 & WD-6 requirements
- Backed by a Limited Five-Year Warranty

SPECIFICATIONS AND FEATURES

- Exclusively for all Acenti devices
- Screwless snap-on design provides smooth, clean look
- Subtle, matte finish complements fine décor
- Available in engineering-grade polymer, brushed stainless steel, polished chrome and 24K Gold metal finishes
- Unique, screwless metal finish wallplates coordinate with premium-grade appliances
- Single-opening design of multi-gang wallplates means device frames rest side by side, without extra webbing between them to disrupt clean appearance
- Alignment plate with positioning pins ensures alignment of device and wallplate
- Snaps easily and directly onto device's multifunction, Tox®+fastened clips, which also provides self-grounding of device and metal wallplate (when used with a properly grounded metal wallbox)
- Custom premium colors and QuickPort® jack inserts available

TESTING AND CODE COMPLIANCE

- UL Listed and CSA Certified
- NOM Certified (#057)
- Meet NEMA Standards WD-1, WD-6 (plastic); Meet NEMA and ANSI standards (metal)
- Backed by a Limited Five-Year Warranty

HOW TO USE THIS CATALOG

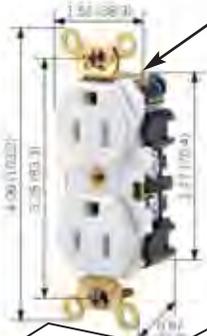

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

SPECIFICATIONS AND FEATURES

Back & Side Wired Duplex

- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely fasten face
- Single-piece brass mounting strap on LEVSPEC® devices, multi-piece steel strap on other devices
- Large, impervious, brass "T" contacts for superior contact and conductivity
- Back and side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Agion barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back-wiring for superior contact and conductivity

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399); (UL Federal) Specification WC-598

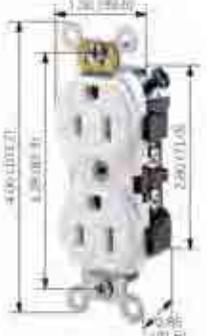

- Meets NEMA WD 1-3, 6, and ANSI standards
- Backed by a Limited 10-Year Warranty
- SPECCLASS** devices backed by a Limited 2-Year Warranty

COLOR

Basic Cat. Nos. shown above denote Brass device, except for Isolated Ground (-IG) devices. Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Brown (-B) for IG devices only, add (-B), Almond (-A), Light Almond (-T), Gray (-G or -GY), Black (-E), Red (-R) and Blue (-BU) for IG devices only, add (-BIG)

DECORA® DEVICE FEATURES

Commercial Grade Wiring devices

LEVITON'S DECORA DESIGNER LINE OF WIRING DEVICES ADDS CONTEMPORARY STYLING TO ANY RESIDENTIAL OR COMMERCIAL APPLICATION.

Decora Devices are built to the highest performance standards to provide a long, trouble-free service life. The Decora Devices line represents a broad selection of switches, receptacles, surge suppressor receptacles, SmartLock® GFCI receptacles, combination devices, wall jacks and wallplates.

Features and Benefits

- Decora Devices are engineered for beauty, versatility and durability
- All Decora Plus Commercial Grade devices feature heavy-duty construction
- All Decora devices meet or exceed applicable UL, CSA and NOM testing standards
- Backed by a Limited 10-Year Warranty

DECORA COLORS

Decora devices are offered in a wide range of colors and finishes, which includes Almond, Light Almond, White, Ivory, Gray, Red, Ebony (Black) and Mahogany Brown. A selection of metal Decora wallplates comes in Brushed Brass, Polished Brass, Stainless Steel and Aluminum.

Decora Switches

A complete range of single pole, double pole, 3 and 4-way switches in both residential and commercial grades. **5691-2E, 5621-2W shown**

Decora Receptacles

A broad selection of amperages and NEMA configurations in Industrial, Commercial and Residential grades with an array of colors from which to choose. **16352-GY shown**

Decora Illuminated Switches

Pilot Light, Illuminated Rocker, Maintained and Momentary Contact versions. **5631-2I, 5628-2A shown**

Decora Hospital Grade Receptacles
Leviton's selection includes Isolated Ground, Tamper Resistant, Surge Protected, GFCI and Power Indication versions. **16262-IGR shown**

Decora Combo Devices
Compact design fits dual or triple switch, switch/receptacle, or switch/GFCI receptacle into standard wallboxes. **7299-I shown**

Decora Communications Wiring Devices
Pre-configured and field-configurable jacks accommodate Decora wallplates, complementing other Decora wiring devices, and fit in standard NEMA wallboxes. **41658-W shown**

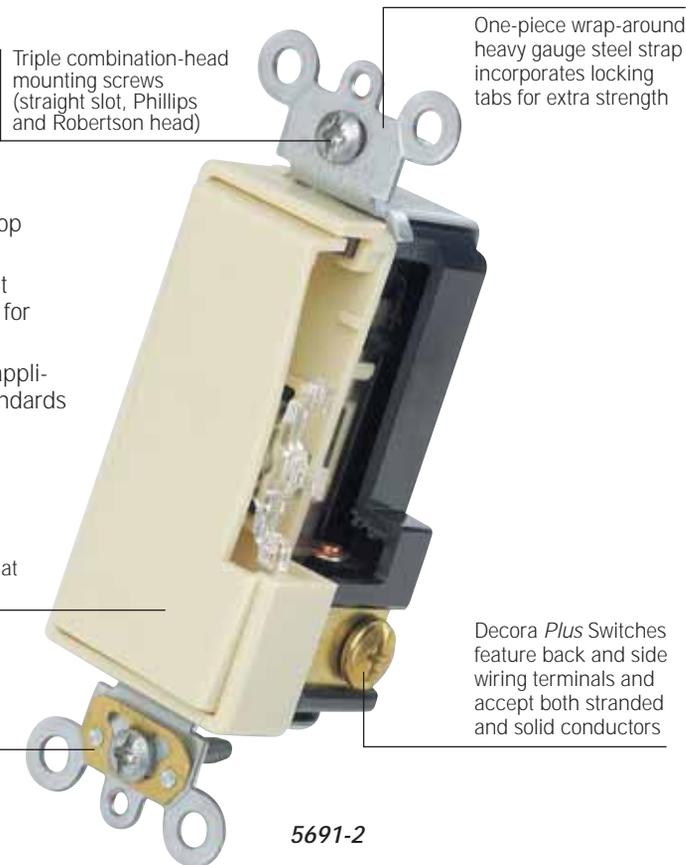

DECORA PLUS SWITCHES ENHANCE EVERY INTERIOR

Leviton's Decora line of designer-style switches are available in a complete range of single pole, double pole, 3 and 4-way switches in both residential and commercial grades. They come in a cascade of contemporary shades and add an air of distinction and value to contemporary commercial and residential design schemes.

Features and Benefits

- Engineered for fine tolerances and top performance
- Decora Plus Switches feature impact resistant thermoplastic construction for long service life
- All Decora devices meet or exceed applicable UL, CSA and NOM testing standards

Triple combination-head mounting screws (straight slot, Phillips and Robertson head)

One-piece wrap-around heavy gauge steel strap incorporates locking tabs for extra strength

Decora Plus Switches have patented concave rockers that present a low profile

Self-grounding clip

Decora Plus Switches feature back and side wiring terminals and accept both stranded and solid conductors

5691-2

Decora Plus Switches
A complete range of rugged Commercial Specification Grade single pole, double pole, 3 and 4-way switches.
5691-2E, 5621-2W shown

Illuminated Switches
Rocker lens is illuminated when load is OFF.
5631-2I shown

Pilot Light Switches
Rocker lens is illuminated when load is ON.
5628-2A shown

Momentary Contact Switches
Combines Decora styling and rugged construction for momentary contact closure (single-pole, double-throw, center OFF switching).
5657-2A shown

Maintained Contact Switches
Rugged Decora styling for maintained contact closure (single-pole, double-throw, center OFF switching).
5685-2E shown

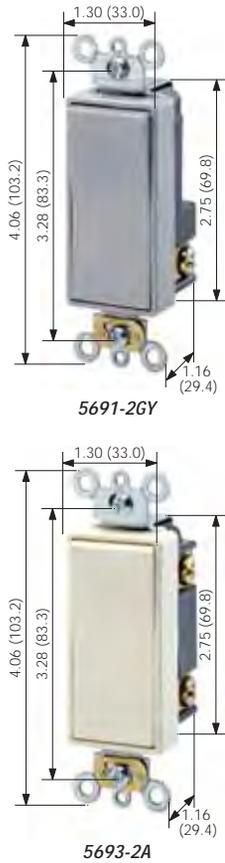

Residential Grade Switches
Engineered for smooth, quiet operation and a long trouble-free service in fine residential interiors.
5601-2I shown

SPECIFICATIONS AND FEATURES

Back and Side Wired

- Full rated current capacity with tungsten, fluorescent or resistive loads. Motor capacity is 80% of switch rating
- Back and side-wiring terminals accept both solid and stranded wire to ease installation
- New architecturally-styled smooth-action concave rocker
- Heavy-duty impact-resistant thermoplastic construction for long service life in commercial applications
- Two ground connection options: a green grounding screw and a self-grounding clip
- For Canadian 347V Decora Plus Switches, see page B19

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-7458)
- CSA Certified (File #LR-3413)
- NOM Certified (#057)
- Compliance with the latest Federal Specification WS-896
- Backed by a Limited 10-Year Warranty

THE BEAUTY, DURABILITY AND VERSATILITY OF DECORA RECEPTACLES

Leviton's Decora line of designer-style receptacles are available in Industrial Grade (including Hospital Grade), Commercial Grade and Residential Grade, with a number of wiring options and features. They come in a variety of contemporary shades and add contemporary style to fine interiors everywhere.

Features and Benefits

- Engineered for fine appearance and top performance in demanding commercial and institutional applications using a durable, thermoplastic face and impact-resistant construction
- Shallow design for maximum wiring room in wallbox
- Back Wire and Side Wire terminal wiring options for ease of installation
- Heavy-gauge zinc-plated steel locked-in wrap-around strap
- Triple-wipe brass contacts for long service life
- Exclusive V-shaped, serrated back wiring clamps for superior contact and conductivity
- Available in an array of colors to coordinate with any interior
- Backed by a Limited 10-Year Warranty

Hospital Grade Tamper Resistant Receptacles
These Hospital Grade receptacles incorporate a unique shutter mechanism that opens easily for insertion of 2 or 3-prong plugs, but prevents the insertion of small objects into either slot.
16262-SGI shown

Dual Voltage Receptacles
Maintain the consistent look of Decora style receptacles throughout commercial settings even when the need arises for Dual Voltage 15A 125 and 15A 250V duplex receptacles.
16292-I shown

Surge Suppressor Receptacles
Decora-style single and duplex surge-protective receptacles, including versions with audible alarm, LED indicator light and Isolated Ground.
8280-IGB shown

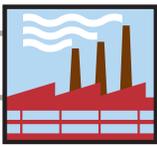

Hospital Grade Power Indication™ Receptacles
Power Indication meets UL 498 Hospital Grade identification requirements and provides visual confirmation that the device is energized.
16362-PLR shown

SmartLockPRO® GFCI Receptacles
SmartLockPRO GFCI meets or exceeds UL 2006 requirements and features a patented lockout action that blocks RESET if GFCI protection has been compromised.
7599-W shown

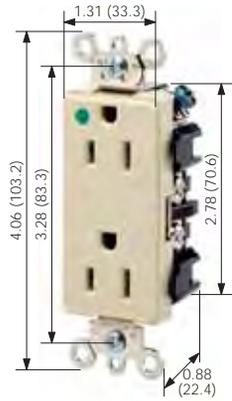

Residential Grade Receptacles
Receptacles engineered for elegant appearance, speedy installation and a long trouble-free service life for fine residential applications.
5325-I shown

SPECIFICATIONS AND FEATURES

- Durable thermoplastic face in an array of contemporary colors
- Receptacles have a locked-in mounting strap with a self-grounding clip riveted to the strap (Except Isolated Ground devices)
- Hospital Grade Tamper-resistant receptacles include a unique shutter mechanism that opens easily for the insertion of 2 or 3-prong plugs while preventing entry by other small objects into either outlet slot
- Hospital Grade Isolated Ground receptacles (identified by an orange face or triangle on the face) protect sensitive electronic equipment and eliminate electromagnetic interference by providing a separate path to ground
- Power Indication meets UL 498 Hospital Grade identification requirements and provides visual confirmation that the device is energized.
- Back and side wiring terminals permit fast installation of up to No. 10 solid or stranded conductors
- Triple-wipe copper alloy contacts ensure maximum conductivity

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-13399)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Limited 10-Year Warranty

For complete Decora wallplate selection, see pages B20–B24.

SPECIFICATIONS AND FEATURES

- Side Wire and Quickwire™ holes accept No. 14 AWG copper wire for Cat. No. 5325
- Heavy-gauge zinc-plated steel mounting strap
- Heavy duty double-wipe brass contacts for long service life

TESTING AND CODE COMPLIANCE

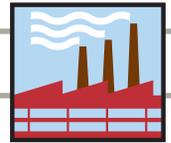

- UL Listed (File #E-13399)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Limited One-Year Warranty

*COLOR

Basic Cat. No. denotes Mahogany (Brown) device unless indicated. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Almond (-A), Light Almond (-T), Gray (-GY), and Black (-E).

MATERIAL CHARACTERISTICS

Environmental: Flammability UL-94, V2 Rating
Operating Temperature: -40°C to 60° C Maximum Continuous

Decora Surge Protective Receptacles

Back and Side Wired NEMA 5-15R & 5-20R

(Basic Cat. No. denotes Mahogany device except where noted)

DESCRIPTION	CAT. NO./COLOR* 15A-125V	CAT. NO./COLOR* 20A-125V

For complete Decora wallplate selection, see pages B20–B24.

SPECIFICATIONS AND FEATURES

- Decora-styled TVSS receptacles protect sensitive electronic equipment against transient voltage surges
- UL 1449 Suppressed Voltage Ratings: 400V for all 3 modes (line-neutral, line-ground, neutral ground)
- Hospital Grade versions (indicated by green dot on receptacle face) are suitable for high-abuse health care, industrial and commercial applications
- Isolated Ground versions (indicated by orange color or orange triangle on receptacle face) provide a pure ground path for use with isolated grounding systems
- Monitor/Indicator LED is ON continuously when protection is active and OFF when protection circuit is deactivated due to excessive transients
- All Hospital Grade devices and Cat. Nos. 7280 and 7380 Industrial devices also provide an audible tone alert that sounds if protection is lost
- Maximum Continuous Operating Voltage: 150V
- Maximum single-pulse transient current (8 x 20µs Amps peak) 24,000A (L-N), 12,000A (L-G), 12,000 (N-G)
- Rated single pulse transient energy (10 x 1000µs, impulse) 320 Joules
- RFI and EMI noise filtration (-35db, @5KHz-5MHz)

TESTING AND CODE COMPLIANCE

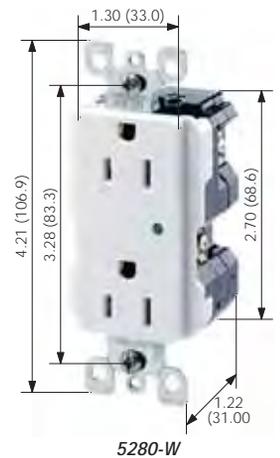

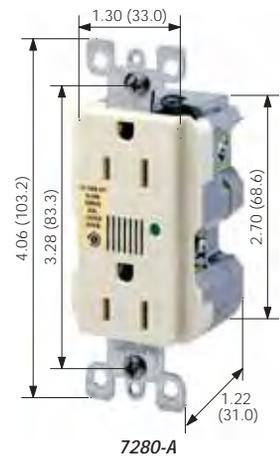

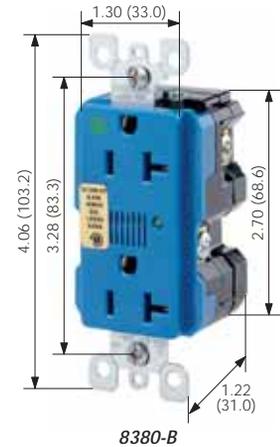

- UL Listed (File #E-13399)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- UL Standard 1449-2nd ED
- Backed by a Limited 10-Year Warranty

***COLOR**

Basic Cat. Nos. denote Mahogany device, unless indicated. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Almond (-A), Light Almond (-T), Red (-R), Gray (-G or -GY), Blue (-B) and Orange (-O).

MATERIAL CHARACTERISTICS

Environmental: Flammability UL-94, V2 Rating
Operating Temperature: -40°C to 120°C

DECORA® SMARTLOCKPRO® GFCI PERSONNEL PROTECTION DEVICE FEATURES

Commercial Grade Decora Devices

SmartLockPRO® GFCI with Professional Grade Lockout Action

Meets or exceeds Underwriters Laboratories (UL) 2006 UL943 GFCI Safety Standards

- Patented professional grade lockout action as end-of-life indication
- Prevents power from being connected to face and feed-through terminals when miswired (line-load reversal)
- Improved immunity to electrical noise to reduce false tripping
- Advanced electronics provide superior surge immunity
- Trip threshold meets or exceeds UL requirements for tripping time

THE SMARTLOCKPRO® PROTECTION ADVANTAGE

While other GFCI manufacturers may have taken the alternate route in the 2006 UL Standard by providing an indicator light for end-of-life indication, allowing reset and continued use of a GFCI with unprotected power to the GFCI face and downstream receptacles, the SmartLockPRO's reset button will not engage if protection has been compromised. The SmartLockPRO's unique patented professional grade end-of-life lockout action, reduces the possibility of end-users incorrectly assuming that a reset GFCI outlet is providing ground fault protection when it actually is not.

Ideal for a Wide Range of GFCI Applications

- **Residential** – Kitchens, bathrooms, garages, basements and other wet locations
- **Outdoors** – Outdoor receptacles by pools, cabanas, patios, decks and lanais
- **Hospital and Healthcare Facilities** – Scrub rooms, lavatories kitchenettes and other potentially wet locations
- **Educational Facilities** – Classrooms, restrooms, laboratories, dormitories and kitchens
- **Airports** – Bathrooms, general use areas and maintenance areas
- **Restaurants, Lodging and Retail Malls** – Bathrooms, general use areas and maintenance areas
- **Commercial Offices** – Bathrooms, basement areas, hallways and kitchens
- **Public Areas** – Near wet and damp locations

Professional Grade Protection

SPECIFICATIONS AND FEATURES

- Meets or exceeds UL 2006 Requirements
 - TEST and RESET functions work together so that a tripped GFCI cannot be reset if GFCI circuit no longer provides ground fault protection
 - RESET button is blocked if GFCI protection has been compromised, reducing the possibility of end-users incorrectly assuming that a reset GFCI is providing ground fault protection when it actually is not
 - Line-load diagnostic feature prevents GFCI from being reset and stops power from being fed to the GFCI receptacle face or through to downstream devices. This alerts installer to a line-load reversal. Indicator light will be ON to indicate line-load reversal.
 - The SmartLockPRO® GFCI with lockout action is designed and patented by Leviton
 - Trip threshold meets or exceeds UL requirements for tripping time
 - Impact-resistant thermoplastic cover and body
 - Silver-alloy contacts
 - Compatible with all Decora devices: available in selected Decora colors
- Combination Switch/SmartLockPRO® GFCI Outlet**
- Ideal for kitchens, bathrooms, modular kitchen units, bathroom cabinet fixtures, lamp cabinet fixtures and applications where combination devices are used.

TESTING AND CODE COMPLIANCE

- UL Standard 943 Class A (GFCI) and 498 (Receptacles)
- UL Listed (File # 48380)
- CSA Certified (File #LR-57811)
- NOM Certified (#057)
- Backed by a Limited Two-Year Warranty

*COLOR

Basic Cat. Nos. denote Brown color unless indicated. For other color selections, add suffix to catalog number as follows: Ivory (-I), White (-W), Almond (-A), Light Almond (-T), Gray (-G or GY), Red (-R), Black (-E).

MATERIAL CHARACTERISTICS

Flammability: Rated V2
Operating Temperature: -30°F (-35°C) to 151°F (66°C)

1754-W

7299-I

SPECIFICATIONS AND FEATURES

- Multi-switch combination devices save space and add convenience
- Common shunted internally to all switches
- Elegant Decora styling permits ganging with other Decora devices
- Switch/SmartLockPRO® GFCI Receptacle replaces standard switch/outlet combination devices in commercial or residential installations
- Space-saving SmartLockPRO® GFCI protection in new or retrofit construction
- Switch/SmartLockPRO® GFCI Receptacle permits multiple wiring options that allow six different applications

SmartLockPRO® GFCI

- Meets or exceeds UL 2006 Code Requirements for line-load reversal indication during installation and end-of-life indication
- Exclusive, patented lockout-action: RESET button is blocked if GFCI protection has been compromised, eliminating the risk of end-users incorrectly assuming that a reset GFCI is providing ground fault protection when it actually is not

For complete Decora wallplate selection, see pages B20-B24.

SPECIFICATIONS AND FEATURES

- All wall jacks are compatible with Decora Plus snap-on wallplates and Decora standard wallplates
- All wall jacks can be used with single or multiple-gang wall boxes
- Modular Jacks have 50 micro-inches hard gold-plated phosphor bronze spring wire contacts.
- Jacks can be used for 75-OHM cable connections for televisions, VCR's and receivers
- Decora Plus Duplex Jack uses snap-in modules with quick-connect insulation displacement terminals for 22 or 24 AWG wire

TESTING AND CODE COMPLIANCE

- UL Listed (File #109712) in accordance with NEC Article 800-51(-I)
- CSA Certified (File #80287 for all cat. nos. except 80381, which is File #LR-20064)
- NOM Certified (#057)

- Decora F-Connector Wall Jacks meet specs. for UL 1863
- Meet FCC Part 68 requirements
- All Decora Plus Voice/Data Jack Snap-in QuickPort modules meet TIA-568A electrical, mechanical and transmission requirements
- Wall Jacks' housings of high-impact, self-extinguishing plastic, rated UL 94 V-O
- Backed by a Limited Two-Year Warranty

Residential and Commercial Grade Decora Wallplates

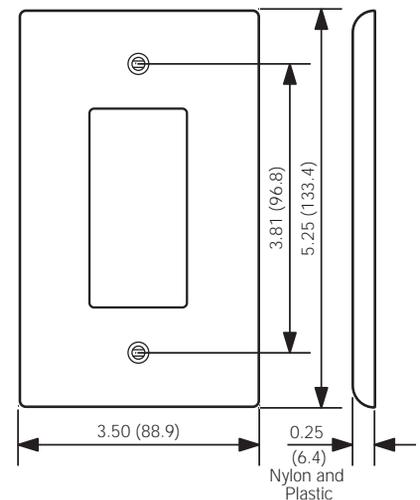

Standard Size Single-Gang

Midway Size Single-Gang

Midway wallplates can be mounted onto larger-volume outlet boxes and/or used to hide wall irregularities. Midway wallplates are a full 0.375" higher and wider than standard size wallplates.

Oversized Single-Gang

Oversized wallplates are used to conceal greater wall irregularities than those hidden by Midway wallplates. Oversized wallplates are a full 0.75" higher and wider than standard size wallplates.

NOTE: Add 1.81" (46.0mm) for each additional gang.

All Decora Wallplates

- Accent any wall covering with a wide selection of colors and finishes
- Smooth face and rounded edges resist dust accumulation
- Individual plastic wrapping to protect wallplate's surface
- Color-matched metal mounting screws supplied

Residential Grade Thermoset Wallplates

- Photoelectrically color-matched to Leviton Decora devices
- Designed for high dielectric strength and arc resistance
- Meet or surpass UL 514 testing requirements
- Resistant to fading, discoloration, grease, oils, organic solvents and moisture scratches
- Backed by a Limited Two-Year Warranty

Commercial Grade Thermoplastic Wallplates

- Molded thermoplastic for maximum resistance to impact, abrasion, fading and discoloration
- Resistant to mechanical stress associated with high abuse applications
- Backed by a Limited Ten-Year Warranty

Commercial Grade Metal Wallplates

- Rounded edges to prevent injury and wall damage
- Deluxe stainless steel is non-magnetic Type 302, .032" thick
- Standard magnetic stainless steel Type 430, .032" thick, also available
- Brass is 70/30 alloy 260, .040" thick
- Aluminum is 3004 alloy, .040" thick
- Backed by a Limited Ten-Year Warranty

TESTING AND CODE COMPLIANCE

GET A FLAWLESS FLUSH-MOUNTED INSTALLATION WITH LEVITON'S LINE OF RECESSED DEVICES

For an almost invisible installation behind wall-mounted TVs, entertainment centers, monitors and more, connect with Leviton Recessed Devices. The Recessed Entertainment Box (REB) centralizes AC power and low-voltage connection points for audio, video, data and phones. For smaller applications, choose the Two-Gang Recessed Duplex Receptacle with openings for 6 installer-selected QuickPort® connectors or the One-Gang Recessed Duplex Receptacle.

Features and Benefits

- Recessed Entertainment Box (REB) centralizes points for AC power, audio, video, home theater, data and phone connections
- Recessed two-gang duplex receptacle with openings for 6 QuickPort® Connectors installs invisibly behind wall units and wall-mounted flat-panel TVs
- Two-gang duplex receptacle is fully compatible with Leviton's QuickPort snap-in modules, including component video and S-Video signal connectors (not included)
- Recessed One-Gang Duplex Receptacle supplies AC power for two components (flat panel TVs and video receiver)
- Meet all applicable UL and CSA requirements
- Backed by a Limited Two-Year Warranty

The Recessed Entertainment Box
Centralizes home theater electronics in a single location. Ideal for new construction and retrofit applications. (QuickPort® connectors not included)
47617-REB shown

Recessed Duplex Receptacle with Connector Openings
Flush mounts to install invisibly behind wall units and flat panel TVs. Provides openings for 6 installer-selected QuickPort connectors.
690-W shown

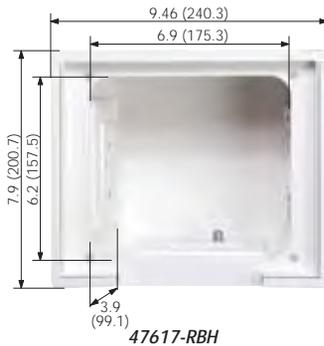

Recessed One-Gang Duplex Receptacle
Supplies AC power for two components and provides sleek installation for signature artwork and flat panel TVs.

SPECIFICATIONS AND FEATURES

Recessed Entertainment Box

- Manages home theater, satellite TV, Internet, whole-house audio/video and home-networking electronics from a single location
- Ideal for new construction (stud-mounted) and retrofit (wall-mounted) applications
- Low-profile frame provides neat, clean recessed installation
- Optional high-profile cover includes sliding plastic front panel and channels all wires through the bottom of the REB
- Any combination of line and low-voltage products can be configured in the three device opening
- Paintable white ABS molded plastic for structural integrity

Recessed Two-Gang Duplex Receptacle with QuickPort Openings

- Provides 2 15A/125V AC NEMA 5-15R power outlets and openings for 6 installer-selected QuickPort connectors or blank inserts (4 inserts included)
- Fully compatible with Leviton's QuickPort Snap-In modules, including component video and S-video signal connectors (not included)
- Includes plastic electrical box designed for use in new and retrofit construction and a barrier to separate line and low-voltage conductors
- Wallplate built into device

Recessed One-Gang Duplex Receptacle

- Installs invisibly behind wall units, signature artwork and wall-mounted flat-panel TVs
- Supplies AC power for two components (flat panel TVs and video receiver)
- Fits most common electrical boxes available (electrical box not included)

Recessed One-Gang Single Receptacles

- Includes clock-hanger hook
- Flush mount with square recess

DIMENSIONS® ARCHITECTURAL LIGHTING CONTROL SYSTEM FEATURES

Commercial Grade Lighting Controls

WHETHER IT'S ADVANCED ARCHITECTURAL LIGHTING CONTROL SYSTEMS THAT CAN BE CUSTOM-MANUFACTURED FOR ANY SITE-SPECIFIC REQUIREMENT OR INNOVATIVE BOX-MOUNTED CONTROLS FOR INCANDESCENT, LOW-VOLTAGE AND FLUORESCENT LIGHTING, LEVITON HAS THE PRODUCTS YOU CAN DEPEND ON.

Our designer preset systems and distributed programmable computer-controlled systems are ideal for large-scale, multi-use environments. Leviton's innovative line of box-mounted controls includes digital multi-location devices that provide maximum performance in architectural, commercial and residential settings.

Dimensions Architectural Lighting Control Systems

Each Dimensions® System combines ease of operation with a wide range of entry stations and accessories to provide a powerful and flexible control solution. The bright LCD readout displays functions and scene information in plain English, and guides you step-by-step through setup and operation. They enable the optimal mix of lighting to be selected—to evoke the right mood—without the guesswork.

Triac with generous 1000W zone capacity

LCD with intuitive, menu-driven Wizard interface guides setup and operation

Zone information buttons display zone name and brightness level

Interchangeable covers

One-touch scene recall buttons

Built-in IR receiver for use with hand-held remote control

Individual zone dim/bright control

Features and Benefits

- Astronomical clock for event scheduling
- Programmable scene and zone names, fade rates and much more
- Join/separate functionality (D3208 and D4200)
- Optional setup software and handheld remote control
- Meets ASHRAE Standard 90.1 requirements
- Backed by a Limited Two-Year Warranty

NOTE: The Dimensions product line also includes the highly advanced D8000 system. Consult your Leviton representative for more information.

DIMENSIONS D3200 SYSTEM

DIMENSIONS D4000 SYSTEM

D3200 Multizone Controller/Dimmer

Advanced, multipoint scene control and dimming with 4 to 6 dimming loads and 8 scene buttons. D3208 features join/separate for partitioning and the addition of two auxiliary zones via network power extenders. D3206-ILS shown

D3200 Scene Controller
Four-scene Decora® wall controller with Off switch. Ideal for secondary entranceways and residential applications. NE505 shown

D3200 LCnet SmartJack (with Software)
PC/laptop-to-network jack that enables D3200 Data Manager software. NE100-00C shown

D4000 Series Multizone Controller

32-zone digital lighting controller and entry station used with dimming cabinets, relay cabinets remote receivers, and accessory stations. D4200-00W shown

D3200 Infrared Remote Control
Handheld remote control for use with any IR-receiving D3200 controller. NE210 shown

D4000 Series Remote Station
Decora-style wall controllers in 15 versions, each with unique range of D4000 functionality. D42PB-00W shown

To learn more about Leviton's outstanding offering of devices visit our Website at: www.leviton.com

Dimensions D3200 Architectural Lighting Control System

The Dimensions D3200 is a component-based lighting system flexible enough for a wide range of commercial and high-end residential lighting applications. The essential component is the Multizone Controller/Dimmer, a self-contained programmable dimmer and scene controller that will control up to eight zones of lighting. The unit will also function as a control unit for other devices attached to the Leviton Control Network (LCnet). By adding wall mounted scene controllers, a hand-held remote and a SmartJack for PC-based programming, the D3200 offers a comprehensive lighting control solution that can be expanded at any time.

Dimensions D3200 Multizone Controller/Dimmers

DESCRIPTION	CAT. NO.	LOAD RATING	COLOR*
D3204 Multizone Controller/ Dimmer—Self-contained dimmer with learning IR receiver. Controls up to 4 local zones and a maximum of 248 remote zones. Features 8 scene buttons and 32-scene capability. LCD with wizard menus. Supplies 24VDC @ 150mA power to hardwired control devices.	D3204-1LW	120V AC 60Hz: 1920W/VA total output, 1000W/VA max. per zone, 1200W/VA max. per side. For use with Incandescent, Tungsten, Magnetic Low Voltage Transformer, Advance Mark 10™ Powerline Electronic Fluorescent Dimming Ballast, Neon, Cold Cathode and non-dimming loads. Electronic Low Voltage and 0-10V DC Fluorescent Hi-Lume and Eco-10 controlled with optional power extenders.	W
Dimensions D3206 Multizone Controller/Dimmer—Self-contained dimmer with learning IR receiver. Controls up to 6 local zones and a maximum of 186 remote zones. Features 8 scene buttons and 32-scene capability. LCD with wizard menus. Supplies 24VDC @ 150mA power to hardwired control devices.	D3206-1LW	Same as D3204-1LW	W
Dimensions D3208 Multizone Controller/Dimmer—All features of the D3206 plus: Combine/separate functionality for 8 partitioned spaces in up to 256 configurations. Up to 64 scheduled scene changes. Easy access to 2 auxiliary loads from front panel. Controls 62 additional remote zones (248 max).	D3208-1LW	Same as D3204-1LW	W
D3204 Multizone Controller/Dimmer—same as D3204-1L except rated for 230V loads.	D3204-2LW	230V AC 50–60Hz: 2400W/VA total output, 800W/VA max. per zone. For use with Incandescent, Tungsten, Magnetic Low Voltage Transformer, Advance Mark 10™ Powerline Electronic Fluorescent Dimming Ballast, Neon, Cold Cathode and non-dimming loads.	W
D3206 Multizone Controller/Dimmer—same as D3206-1L except rated for 230V loads.	D3206-2LW	Same as D3204-2LW	W

Dimensions D3200

SPECIFICATIONS AND FEATURES

- D3204 and D3206**
- 41 internally-driven dimming loads (D3206); 4 for D3204
 - Controls up to 186 remote zones via Leviton Control Network (LCnet) bus (D3206); D3204 controls up to 248
 - 6 (D3206) and 4 (D3204) Scene buttons and 32-scene capability
 - 2-line, 32-character LCD with Wizards for easy setup
 - LED Light-level indicators
 - Group raise/lower buttons for changing all zone light levels at same time
 - Learning IR Receiver
 - Powers LCnet controllers and Leviton SmartJack
 - Mounts in 4-gang box with 4-gang device cover
 - UL Listed, CSA Certified
 - California Title 24 compliant and meets ASHRAE Standard 90.1 requirements
 - Backed by a Limited Two-Year Warranty
- D3208 Additional Features**
- Up to 64 scheduled scene changes based on time of day or astronomical clock
 - Combine/Separate functionality for 8 partitions in up to 256 different configurations
 - Controls up to 248 remote zones
 - Easy front panel access to 2 auxiliary LCnet dimming zones or switching loads

APPLICATIONS

- Home Theaters
- Great Rooms
- Ballrooms
- Conference Rooms
- Restaurants
- Executive Offices
- Surgical Suites
- Houses of Worship
- Light Commercial Applications

D3200 System Components

*COLOR/COMPONENTS

Cat Nos. NE505, NE515 and NE100 come in White with matching wallplate. Include snap-on Ivory Color Change Kit. (Ivory wallplate sold separately). With DCK05-0C Color Change Kits add to suffix as follows: Ivory (I), White (W), Almond (A), Gray (G), and Black (E).

TESTING AND CODE COMPLIANCE

- UL Listed, CSA Certified, FCC Part 15 (where applicable)
- Backed by a Limited Two-Year Warranty

Dimensions D4000 Series Architectural Lighting Control System

The Dimensions D4000 Series offers a wide range of entry stations and accessories for a powerful and flexible lighting control solution. Easy to install, configure and operate, D4000 Series products are scalable for every application from stand-alone systems to a complete network environment.

D4200

D42P8-00W

SPECIFICATIONS AND FEATURES

- Up to 32 zones/channels of control
- Up to 6 Internal Network Dimmers
- Scene memory 16 + 2
- Fade times for each scene
- Room partition control
- Remote dimmer configuration
- Includes Lockout and Sequencer
- Complete multi-event scheduler
- Integrated astronomical time clock
- Dimmer Rating for Incandescent, Advance Mark 10®, Lutron Tu-Wire® and Magnetic Low Voltage load types:
 - 120V: Max 1,000W per Dimmer; Max 1,920W per unit (continuous); Max 1,200W per side
 - 230V: Max 800W per Dimmer; Max 2,420W per unit (continuous); Max 1,200W per side

D4104/D4106 Stand-Alone Systems

- Compatible with Entry and Room Combine Stations
- Used when integration with other product or rooms is not required.
- 4 or 6 channels and dimmers

D4200 Network Controller

- Full network compatibility
- 32 control channels
- Used to control other dimmers or relays on the Luma-Net network

D4206 Network Controller w/Dimmers

- Full network and device compatibility
- 32 control channels
- Used to control other dimmers or relays on the Luma-Net network
- 6 internal dimmers

D4006 Remote Dimmer

- Full network compatibility
- Controllable by any network controller
- Start channel and Network ID (address) set from front panel
- Full configuration from any connected D4200 or D4206
- 6 internal dimmers

Entrance Stations

- Connect to controller via Luma-Net network
- Used to remotely control scenes and zones on a master station

Command Stations

- Connect to controller via Luma-Net network
- Used to execute commands on a master station

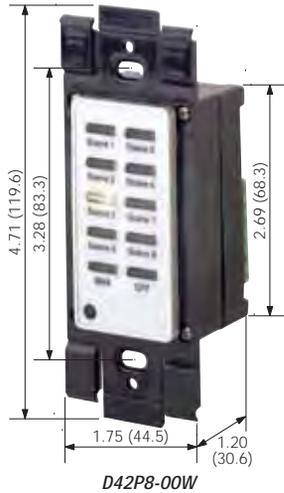

Room Combine Stations

- Connect to controller via Luma-Net network
- Requires 1 Master station in each room, addressed 10 for room 1, 20 for room 2, etc.
- Other room-combine options available, contact your local sales agent for more information

APPLICATIONS

- Ballrooms
- Cafeterias
- Auditoriums
- Lecture Halls
- Conference Rooms
- Hotel Suites
- Restaurants
- Museums
- Houses of Worship

Standard Power Extenders

Power Extenders—PE100, PE200, PE300, PE400

DESCRIPTION	CAT. NO.	RATING
Extends dimming zone capacity to full 1920W/VA @ 120V for incandescent, magnetic low-voltage, halogen or neon/cold cathode lighting. Aluminum heat sink with snap-on white cover	PE100-10W	Input Voltage: 120V 50/60Hz Load Rating: 1920W/VA Load Output Power: phase independent of control device Dimmer Input: 120V 50/60Hz
Extends dimming zone capacity to full 1920VA @ 120V for Mark 10™ Powerline, Hi-Lume®, or equivalent dimmable fluorescent ballast. Aluminum heat sink with snap-on white cover	PE200-10W	Input Voltage: 120V 50/60Hz Load Rating: 1920VA Load Output Power: phase independent of control device Dimmer Input: 120V 50/60Hz
Extends dimming zone capacity to full 3000VA @ 277V for Mark 10™ Powerline, Hi-Lume®, or equivalent dimmable fluorescent ballast. Aluminum heat sink with snap-on white cover	PE200-70W	Input Voltage: 277V 50/60Hz Load Rating: 3000VA Load Output Power: phase independent of control device Dimmer Input: 120V 50/60Hz
Extends dimming zone capacity to full control of a 20A circuit with 0–10 V DC Mark 7® 0–10V, Lutron 0–10V, OSRAM Sylvania Quicktronic® Helios™ or equivalent ballast. Metallic silver color.	PE300-D0W	Input Voltage: 120V AC to 277V AC, 60Hz Load Rating: 20A–2400VA @ 120V AC, 5500VA @ 277V AC Power Consumption: 6W @ 120V AC, 18W @ 277V AC Output Ballast Control: 0–10V DC Dimmer Input: 120V 60Hz
Extends dimming zone capacity to full control of a 1000W/VA @ 120V AC for electronic low voltage or incandescent lighting. Aluminum heat sink with snap-on white cover	PE400-10W	Input Voltage: 120V AC 50/60Hz Load Rating: 1000W/VA Load Output Power: phase independent of control device Dimmer Input: 120V 60Hz

Auxiliary-Zone Network Power Extenders (for D3200 Systems only)

DESCRIPTION	CAT. NO.	RATING
Enables 2 auxiliary zones on a D3200 Controller/Dimmer for full control over incandescent, magnetic low-voltage, or neon/cold cathode lighting. Aluminum heat sink with snap-on white cover	PEAUX-12W	Input Voltage: 120V AC 50/60Hz Load Rating: 1920W/VA total, or 1000W/VA max. per zone Load Output Power: phase independent of control device Dimmer Input: D3200
Enables 1 auxiliary zone on a D3200 Controller/Dimmer for full control over incandescent, magnetic low-voltage, or neon/cold cathode lighting Aluminum heat sink with snap-on white cover	PEAUX-AUW	Input Voltage: 230V AC 50/60Hz Load Rating: 2400 W/VA total Load Output Power: phase independent of control device Dimmer Input: D3200
Enables 1 auxiliary zone on a D3200 Controller/Dimmer for full control over Mark 7™ 0–10V, OSRAM Sylvania Quicktronic Helios, Lutron 0–10V, or equivalent ballasts. Aluminum heat sink with snap-on white cover	PEAU7-M1W	Input Voltage: 120–230V 50–60Hz Output Ballast Control: 0–10V DC Load Rating: 20A–120V & 10A–230V Load Output Power: phase independent of control device Dimmer Input: D3200

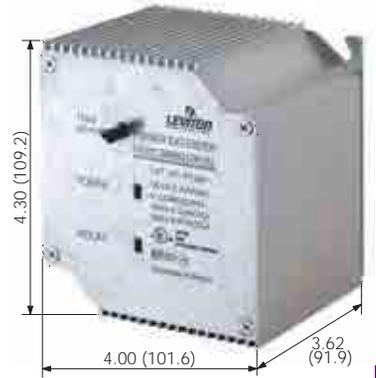

Power Extender Compatibility

Standard Power Extenders work with any Dimensions Multizone Controller/Dimmer and all Architectural Systems. Refer to the chart below for compatibility with Leviton Box-Mounted Dimmers.

POWER EXTENDER	BOX-MOUNTING DIMMER COMPATIBILITY
PE100-10W	Must use 120V 600W Incandescent version of Acenti, IllumaTech, Mural, True Touch, ToggleTouch, Sure Slide and Home Controls. (or 600VA version of Acenti). For Monet, use 120V 600VA Magnetic Low-Voltage version (requires Neutral wire). For dimmers that include a Neutral wire, the dimmer Neutral wire must be connected.
PE200-10W PE200-70W	Must use 120V 600VA Mark 10 version Acenti, of Monet, IllumaTech, and Mural. For dimmers that include a Neutral wire, the dimmer Neutral wire must be connected. For Hi-Lume ballasts, use incandescent dimmers. PE200-70W is compatible with all 600VA-220V box-mounted dimmers.
PE300-D0W	Must use 120V 600W Incandescent version of Acenti, IllumaTech, Mural, True Touch, ToggleTouch, Sure Slide and Home Controls. For Monet, use 120V 600VA Magnetic Low-Voltage version (requires Neutral wire). For dimmers that include a Neutral wire, the dimmer Neutral wire must be connected.
PE400-D0W	Must use 120V 600W Incandescent version of Acenti, IllumaTech, Mural, True Touch, Trimatron and Sure Slide Home Controls. For Monet, use 120V 600VA Magnetic Low-Voltage version (requires Neutral wire). For dimmers that include a Neutral wire, the dimmer Neutral wire must be connected.

PE100/200/400/AUX/AU7

PE300-D0W

SPECIFICATIONS AND FEATURES

Standard Power Extenders

- Emulates characteristics of dimmer it is connected to in terms of dimming range and resolution
- Low-end trim available for setting minimum brightness level (PE100, PE200, PE300)
- PE100, PE200 and PE400 can be surface or flush mounted using 1900 Box and 2-gang raised cover
- PE300 mounts in 4" square box

APPLICATIONS

Standard Power Extenders

- Works with any D3200 Multizone Controller/Dimmer to extend load capacity of any zone
- Extends load capacity of box-mounted dimmers (see compatibility chart)
- Works with all families of Leviton Architectural Systems

Network Power Extenders

- Enables a D3200 Multizone Controller/Dimmer to accommodate extra loads
- Works with any D3200 Multizone Controller/Dimmer to extend load capacity of any zone

TESTING AND CODE COMPLIANCE

- UL Listed (except PEAUX-AUW), CSA Certified and NOM Certified
- Backed by a Limited Two-Year Warranty

ARCHITECTURAL DIMMING CABINETS

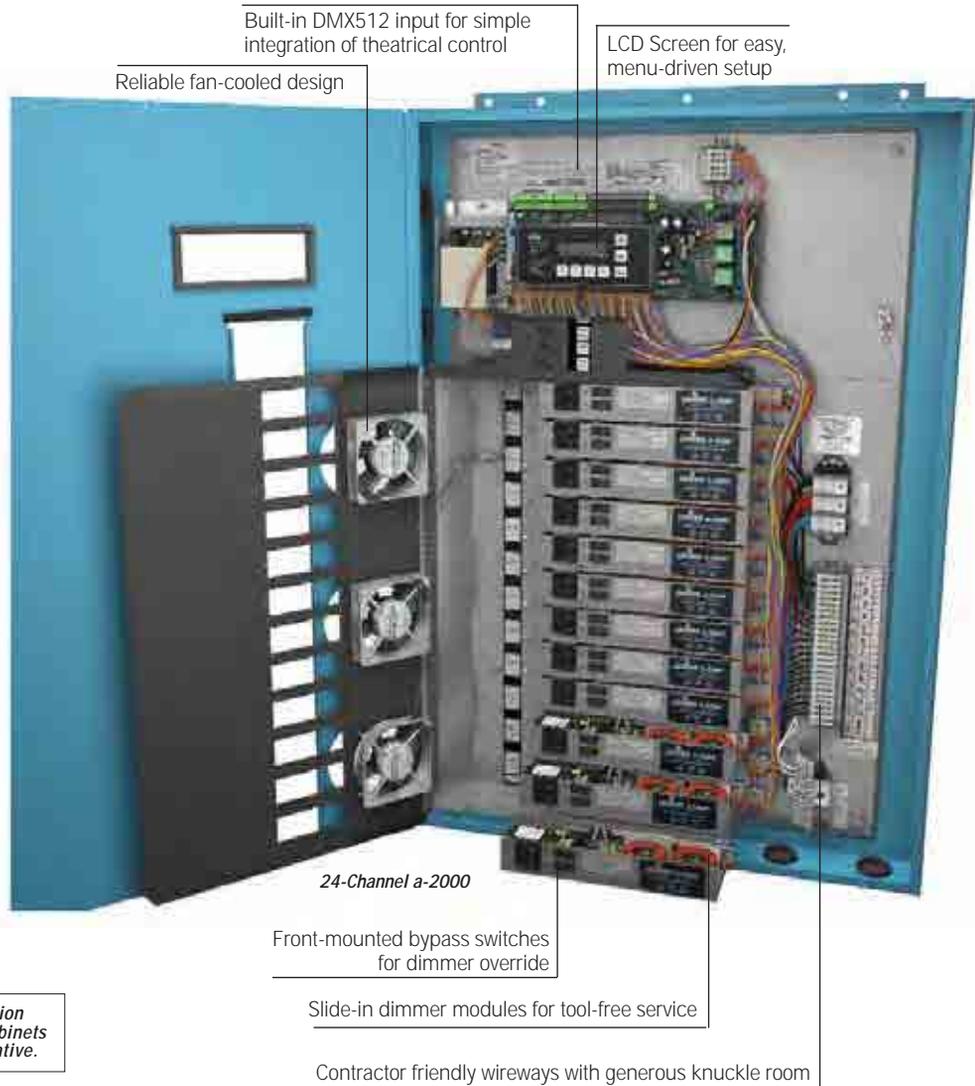

Commercial Grade Lighting Controls

a-2000® Modular Dimming Cabinets

The a-2000® is a compact, high-performance dimming cabinet that combines theatrical grade performance with the ability to control a wide variety of architectural load types. Its modular design enables rapid servicing of both dimming modules and control electronics. The a-2000 digital module cabinets are easy to install and work with virtually all types of lighting, including 120 and 277VAC dimming fluorescent lamps. This state-of-the-art cabinet integrates seamlessly with preset or manual controls, building automation, daylight harvesting and time clock systems. The a-2000 is a highly versatile dimming platform supporting a broad array of control requirements.

a-2000-24

Built-in DMX512 input for simple integration of theatrical control

LCD Screen for easy, menu-driven setup

Reliable fan-cooled design

24-Channel a-2000

Front-mounted bypass switches for dimmer override

Slide-in dimmer modules for tool-free service

Contractor friendly wireways with generous knuckle room

For complete ordering information on Leviton a-2000 Dimming Cabinets consult your Leviton representative.

SPECIFICATIONS AND FEATURES

- Fully programmable from front panel
- Plug-in dimmer modules for easy maintenance
- Communication inputs: DMX512, Luma-Net III, RS485, full bright, emergency, and +0-10VDC analog
- Capacity of up to 48 dimmer circuits
- Each dimmer channel rated to 20A continuous (20A modules only)
- All load types supported
- Rugged dual-SCR dimmer circuitry for superior dimming performance and reliability over triac dimmers
- Individual bypass per-dimmer provides work-light function

- Restoration feature restores the last lighting look in the event of power failures
- Lifetime non-volatile memory
- Super-quiet, redundant ball-bearing fan design for added reliability
- Contractor-friendly design for easy installation with a large wiring space
- Compact 30-3/8 inch cabinet width holds up to 24 dimmer CCTS and fits between two stud widths
- Surface or recessed mounting
- Top, bottom or side feed

APPLICATIONS

- Office spaces
- Daylight harvesting
- Cafeterias
- Ballrooms
- Auditoriums
- Houses of worship
- Lecture halls
- Conference rooms
- Restaurants
- Multi-purpose rooms
- Office spaces
- Spaces requiring a single dimming source for a broad range of loads

a-2000® Dimmer Modules

The a-2000 uses a modular dimmer, allowing for ease of replacement and custom tailoring of module type to each project's specific needs. Leviton's a-2000 dimmer modules employ proven dual SCR dimming technology, inherited from Leviton's line of theatrical equipment.

SUPPORTED LOAD TYPE	UNIVERSAL	240V	STANDARD
Incandescent	X	X	X
Tungsten	X	X	X
Neon	X	X	X
Cold-Cathode	X	X	X
Magnetic Low Voltage	X	X	X
Electronic Low Voltage*	X	X	X
Fluorescent Dimming Ballasts	X	X	X
0-10V Fluorescent Ballast Example†: Advance Mark 7®	X	X	X
2-Wire Fluorescent Ballast Example†: Advance Mark 10®	X	—	X
3-Wire Fluorescent Ballast Examples†: Lutron Hi-lume® & Eco-10™	X**	—	—

* Electronic Low Voltage transformers are supported upon the manufacturer's approval for use with forward phase dimmers. When the use of Electronic Low Voltage is required that does not meet this requirement, Leviton's PE400 power extender may be used. Contact your local Leviton LMS representative for more information.

** Supports all standard load types as well as 2 circuits of Hi-lume and other 3-wire fluorescent dimming ballasts.

† Mark 7® and 10® are registered trademarks of Advance Transformer Company.
Eco-10™ is a trademark and Hi-lume® is a registered trademark of Lutron Electronics Co., Inc

a-2000-24 with Relay Cabinet

SPECIFICATIONS AND FEATURES

- 20A continuous duty rating (120V modules only)
- Voltage regulation: compensates for incoming line voltage variations
- 97% efficiency
- 350 μS rise time standard
- Ratings are for continuous use at 100% load

Universal Modules:

- Bypass switch has two modes: Normal and Bypass. When the switch is set to Bypass (red LED illuminated), the SCRs and relays are forced to turn on independent of the control module

- 277V Universal modules may be used in 120V cabinets.
- 120V Universal modules may be used only in 120V cabinets.

240V Modules:

- Built-in bypass switches (240V): Bypasses control electronics permitting the cabinet to be used for work lights during construction.

Standard Modules:

- Built-in bypass switches (120V) or shunts (277V): Bypasses control electronics, permitting the cabinet to be used for work lights during construction.

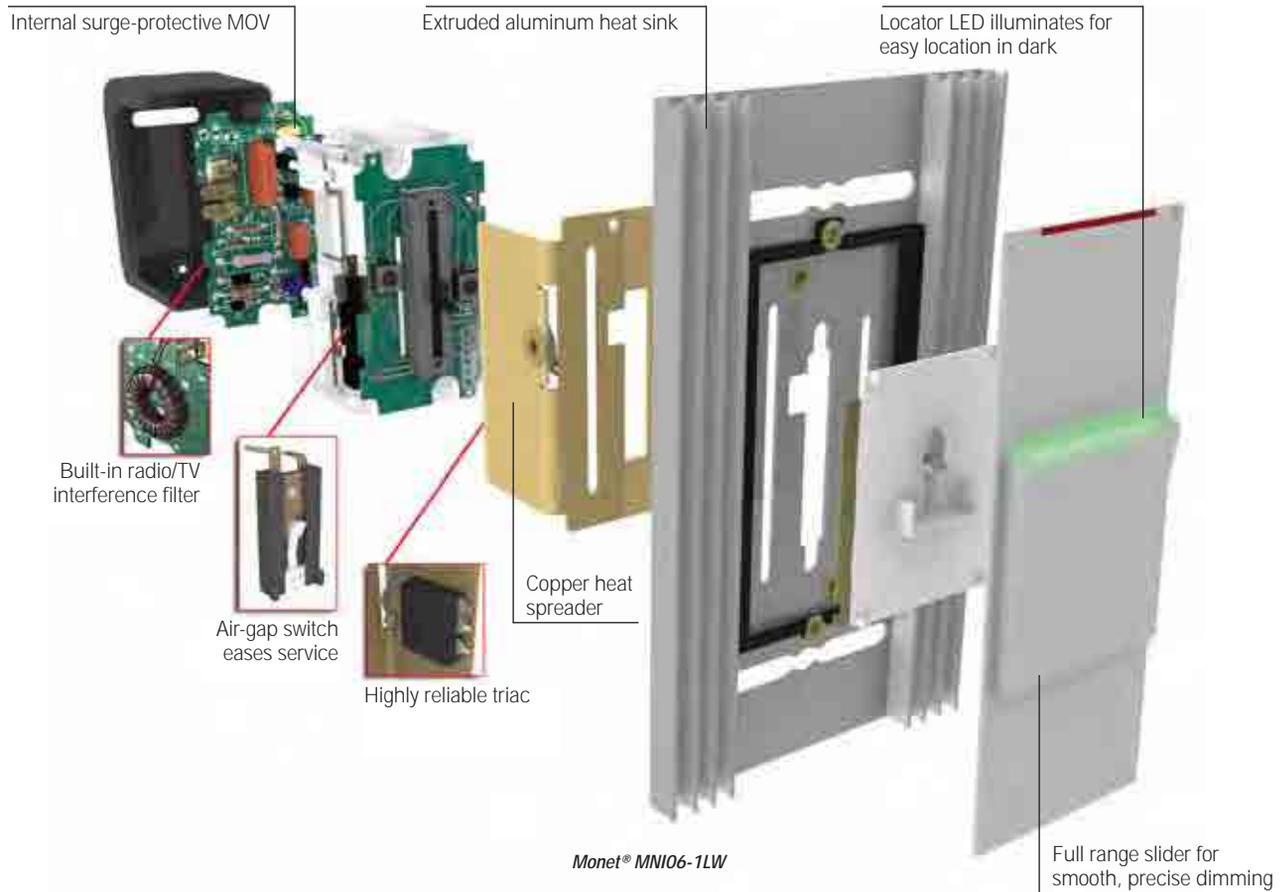

ARCHITECTURAL SPECIFICATIONS LIGHTING CONTROLS FEATURES

Commercial Grade Lighting Controls

Architectural Specification Lighting Controls

Inspired by the great painters, Leviton's Monet®, Renoir® and Van Gogh® dimmers and fan speed controls accent today's most beautiful interiors. Leviton's premier line of architectural lighting controls can accommodate high wattage loads and mate with screwless narrow- and wide-fin wallplates—for the ultimate flexibility in design.

Features and Benefits

- Full-range dimming for both single-pole and multi-location control
- Accommodates high-power loads
- Low profile, designer styling; mates with narrow- and wide-fin screwless wallplates
- Wide range of colors available through convenient color change kits
- UL and CSA Listed
- Backed by a Limited Five-Year Warranty

ARCHITECTURAL SPECIFICATION DIMMING AND FAN SPEED CONTROLS

Monet® Slide Dimmer
Low-profile architectural controls with advanced features. With narrow or wide fin. Matte finish. Custom-engraved wallplates available. **MNI06-1LW shown**

Renoir® Slide Dimmer
Rugged, full-range preset slide dimmer for high-power loads. With narrow or wide fin. **81000-W shown**

Van Gogh® Rotary Dimmer
Architectural yet classic full-range rotary dimmer for high-power incandescent loads. Rugged design. **60800-W shown**

Monet Architectural Specification Grade Preset Controls
120V and 277V AC 60Hz

Low-profile Architectural Decora Digital Preset Slide Dimmers with LED locator light. Most Monet dimmers provide single-pole (1 location) and 3-way (multi-location) control with Switching Remote.

MNS20 shown

SPECIFICATIONS AND FEATURES

- Premier Architectural Specification Grade dimmer combines high load capability, esthetic appearance, digital circuitry and Scene Lighting capabilities
- Provides single-pole and 3-way switching with Monet Non-Dimming Remote Unit
- Low-profile architectural fins, even on wide-fin models, for a flush fit appearance
- Smooth slide-dimming operation. Push slider for ON/OFF preset
- Digital circuit provides Soft-ON/Fade-OFF for eye-pleasing effect and prolonged bulb life
- Specially designed to minimize shadows with non-reflective, easy-to-clean matte finish. Ideal for museums, art galleries, showrooms
- Soft, green locator LED discretely positioned on slider
- Square Law Dimming ensures linear slide control across entire dim and bright output range
- Hidden air-gap switch; slider moves into hidden key-way to access air-gap switch for servicing needs. When air gap switch is open, red line appears at top
- Small and large size adapter plates fit all Leviton Decora straps to make them compatible with Monet wallplates

- Screwless, designer Monet wallplates with matte finish included. Multi-gang wallplates also available for combining narrow and wide dimmers, with or without fins removed (see page C13)
- Customized wallplate engravings available—See your Leviton representative for more information
- Built-in radio/TV interference filter
- Protected memory during temporary power failures
- Internal MOV for surge protection

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373)
- CSA Certified (File #LR-3413)
- Backed by a Limited Two-Year Warranty

*COLOR

Cat. No. denotes White device. For other colors, order Color Change Kits and add suffix as follows: Ivory (-I), White (-W), Gray (-G), Black (-E), Brown (-B) and Almond (-A). Monet Rocker Switches listed above do not use Color Change Kits—Add suffix to basic Cat. No. for color selection.

MNW14-FB	1 Narrow/4 Wide	9-Gang
MNW24-FB	2 Narrow/4 Wide	10-Gang

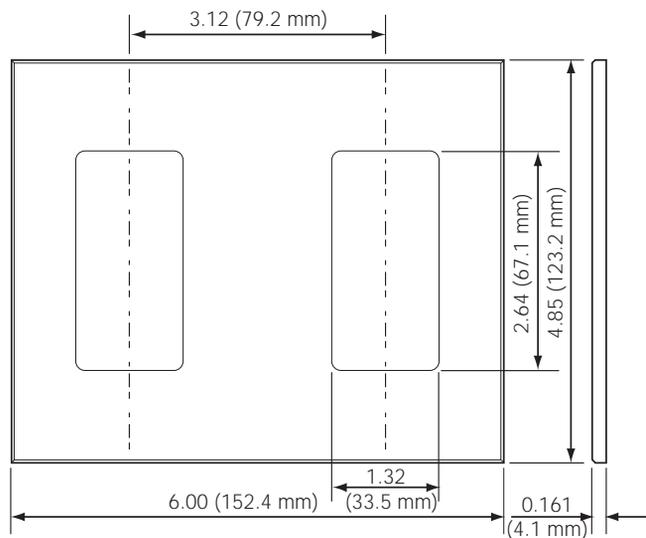

Monet multi-gang wallplates are available for every permissible combination of small fin and large fin dimmers. Tables 1 and 2 can be used to determine if a specific combination of devices is possible. When small and large fin devices are combined, all the large fin devices must be placed to one side and all the small fin devices must be placed to the other side. In an installation where all the fins are broken off, do not remove the fins from the dimmers at each of the extreme ends of the installation.

NOTE: For fin removal and switchbox requirements for ganging Leviton Renoir dimmers, refer to page C17.

Note: Sharing a neutral wire may cause flickering. Connect all dimmers to the same phase or run a separate neutral to each phase. Consult Leviton Techline if problems persist.

SPECIFICATIONS AND FEATURES

- ON/OFF rocker switch turns lights ON at last selected brightness level
- Smooth-action, linear slide control for easy, precise operation
- Available in single-pole (one location) and 3-way (multi-location) versions. 3-way dimmer is used with standard 3-way ON/OFF switch
- Decora-styling coordinates with Leviton's extensive line of Decora devices
- Decora-style screwless snap-on wallplates present an attractive appearance in any application
- Slim, compact housing easily fits in standard wall boxes
- Fins are easily removed for multi-gang applications
- Large radio/TV interference filter
- Illuminated versions available

TESTING AND CODE COMPLIANCE

Operating Temperature: 32°F to 130°F

Ganging and Derating Box-Mounted Lighting Controls

Ganging is an installation practice where two or more lighting controls are mounted side-by-side using the required number of connected wallboxes. Ganging may require the removal of part of the fins on Architectural Dimmers or part of the mounting strap on strap-mounted devices. In Architectural Dimmers, the metallic fins help dissipate heat from within the device. Strap mounted dimmers use the mounting strap for the same purpose. Therefore, removing a portion of the fins or strap for ganging purposes will require derating the dimmers to prevent them from overheating.

Ganging and Derating Leviton Lighting Controls

When ganging Mural, True Touch, ToggleTouch and IllumaTech controls, the side sections of the mounting strap must be removed. Use pliers to carefully bend side sections back and forth until they break off. The side sections of the strap dissipate heat, so removing them requires derating the dimmer's capacity. See Chart 1.

Note that Leviton SureSlide and Trimatron lighting controls can be ganged without removing any sections of their mounting straps. However, SureSlide and Trimatron controls must also be derated when they're ganged.

Maximum Load Per Dimmer for Multi-Ganging All Strap-Mounted Dimmers

Dimmer Rating	Single	2-Gang	More Than 2-Gang
500W	500W	400W	300W
600W	600W	500W	400W
1000W	1000W	800W	700W
400VA	400VA	350VA	250VA
600VA*	600VA	500VA	400VA
1000VA	1000VA	800VA	700VA

*Except IPX06-7, which requires no derating

Maximum Bulb Wattage for Magnetic Low-Voltage Lighting

The capacity of a magnetic low-voltage dimmer is its VA rating. If a wattage rating is also listed (as in this book), it is merely an estimate of the lamp wattage that can be placed on a UL-approved magnetic low-voltage transformer without exceeding the dimmer's VA rating. (This is, in turn, based on an estimate of transformer efficiency.)

Power To Transformer	Transformer Efficiency	Lamp Load
1000VA	X 80%	= 800W
600VA	X 75%	= 450W

Ganging and Leviton Renoir® and Van Gogh® Architectural Lighting Controls

When fins are broken off on wide and narrow controls for ganging purposes, the number of switch boxes required can be quickly determined by referring to the two charts below.

Ganging

Switch boxes required for ganging Leviton architectural controls when no fins are removed:

Number of Wide Controls	Number of Narrow Controls*				
	0	1	2	3	4
0	•	•	•	•	•
1	1	3	5	7	8
2	4	6	7	9	11
3	7	9	10	11	13
4	9	11	12	14	16

Switch boxes required for ganging Leviton architectural controls when all inside fins are removed:

Number of Wide Controls	Number of Narrow Controls						
	0	1	2	3	4	5	6
0	0	1	2	3	4	5	6
1	1	3	4	5	6	7	8
2	3	5	6	7	8	9	10
3	5	7	8	9	10	11	12
4	7	9	10	11	12	13	14
5	9	11	12	13	14	15	16
6	11	13	14	15	16	17	18

*Narrow controls must have fins broken off to be ganged.

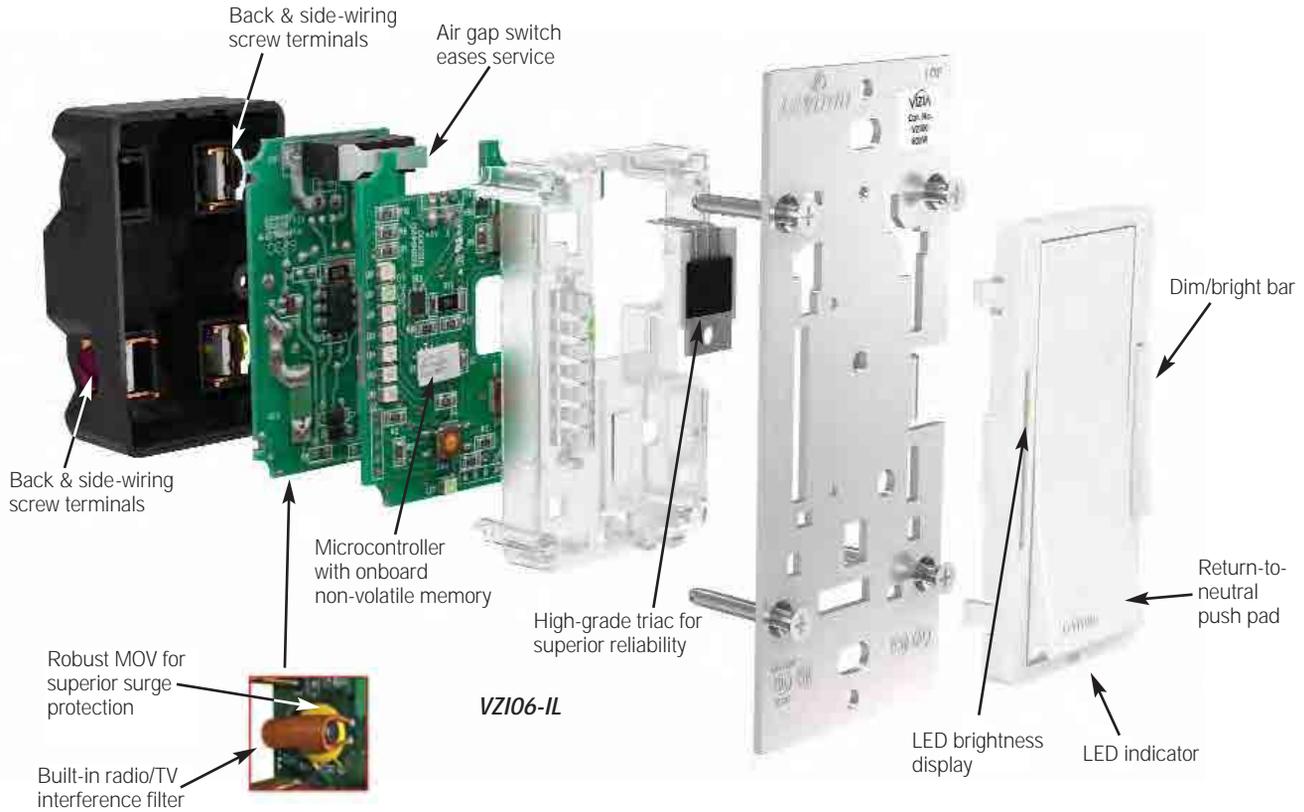

DESIGNER CONTROL FEATURES

Commercial Grade Controls

Designer Lighting Controls

Brilliant inside and out — the Vizia® collection includes dimmers, fan speed controls and radio frequency (RF) products integrated into a stylish form factor. With Vizia RF, homeowners can automate lighting as well as select appliances and electronics. The Mural® line encompasses scene-capable enhancement products. These designer-style devices provide full-range dimming in a sleek, Decora body that will enhance any décor.

Features and Benefits

- Easy to operate for people of all ages and abilities
- Digital circuitry provides eye-pleasing soft-ON/fade-OFF that extends lamp life
- Compatible with Decora® screwless and Decora standard designer wallplates
- Wide range of colors available through convenient color change kits
- UL and CSA Listed
- Backed by a Limited Five-Year Warranty

LEVITON DESIGNER DIMMERS FOR FULL-RANGE DIMMING

Vizia Controls
Vizia digital dimmer with LED brightness level indicators, intuitive Dim/Bright bar and return-to-neutral pushpad. Color-change kits available.
VZ106-1L shown

Vizia Remote Controls
Enables multi-location dimming or fan control when used in conjunction with Vizia Dimmer/Fan Speed Controls.
VZ00R-1L shown

Mural 7-Scene Controller
Decora style controller sends commands for up to 7 distinct scenes to individual Mural Scene-Capable Controllers.
MN00C-1LW shown

Vizia Digital Controls

All Vizia Preset Dimmers and Fan Speed Controls provide single-pole (one location) or 3-way (multi-location) control when used with a Vizia remote unit.

VZIO6-1LX

Use Leviton Power Extenders to extend the load capacity of box-mounted dimmers. Leviton Power Extenders are available for incandescent, magnetic low-voltage, electronic low-voltage, Advance Mark 10® Powerline fluorescent dimming ballasts or equivalents, and 0–10 VDC dimmable fluorescent ballasts such as Advance Mark 7® 0-10V, OSRAM Sylvania Quicktron Helios or equivalent ballasts.

† Contractor Packs are available in White (-W), Almond (-A) or Light Almond (-T), packaged 10 pieces/box. To order, add suffix -ML to catalog number followed by color designation. Ex.: VZIO6-ML*

Eco-10® (Eco-Series) Tu-Wire® and Hi-Lume® are trademarks of Lutron Electronics Co., Inc.

See Page C7 for more information on Leviton Power Extenders

Note: Sharing a neutral wire may cause flickering. Connect all dimmers to the same phase or run a separate neutral to each phase. Consult Leviton Techline if problems persist. Digital Lighting and Fan Speed Controls are polarity sensitive devices. Always follow the wiring instructions included with each device.

CAUTION ON RETROFITS: When retrofitting Mark 10® Powerline dimming ballasts into fixtures that originally had Instant Start ballasts, the sockets MUST be replaced with Rapid Start sockets to allow proper dimmer operation and prevent damage to the dimming ballast. Refer to the instructions provided with the ballast and the Leviton dimmer.

SPECIFICATIONS AND FEATURES

- Streamlined Decora styling complements any interior, adds a “family look” when ganged with any Decora device
- Push pad always returns to neutral regardless of load status
- Digital circuitry provides Soft-ON/Fade-OFF lighting and prolonged lamp life or an option via simple programming for classic ON/OFF
- Green LED locator light illuminates when lights are OFF
- Air-gap switch completely disconnects power to unit for bulb changing or removal from service
- Provides single pole (one-location) or multi-location full range dimming when used with Vizia Dimmer Remotes (see P. C20 for Vizia Remotes)
- Vizia Six-Pack: Three color choices along with single pole or 3-way control provide 6 different options in each box, eliminating the need to stock a large variety of devices
- Color Change Kits are available in a wide range of colors, making it easy and economical to change decorating schemes
- Power failure recovery assures retention of lighting levels during long-term power interruptions
- Built-in radio/TV interference filter
- Quiet 1.5Amp Fan Speed Controls are perfect for libraries, study rooms and any areas where ceiling fan noise could become distracting
- Fits in standard wallbox – units may be ganged
- LED display alongside push pad indicates selected brightness /fan speed level
- Dim/Bright Bar allows user to set brightness level when lights are ON or OFF
- Minimum brightness level can be easily programmed from 1 to 50% of full brightness
- Dim Lock level feature determines preset light level regardless of last setting
- Selectable Fade Rate is easily programmable for desired Fade ON/OFF
- Press and hold push pad to turn lights on to full bright from any preset light level
- To use the Delayed OFF feature while lights are ON (10 seconds to OFF), press and hold the push pad
- Compatible with Decora PLUS screwless wallplates and Decora wallplates

TESTING AND CODE COMPLIANCE

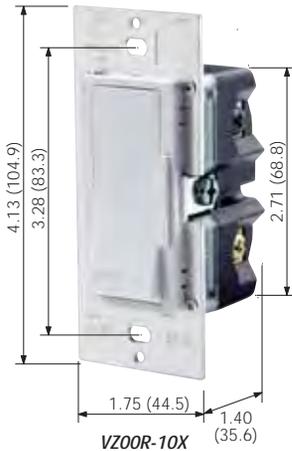

- UL Listed (File #E-31373)
- CSA Certified (File #M/C 152105)
- Backed by a Limited Five-Year warranty

MATERIAL CHARACTERISTICS

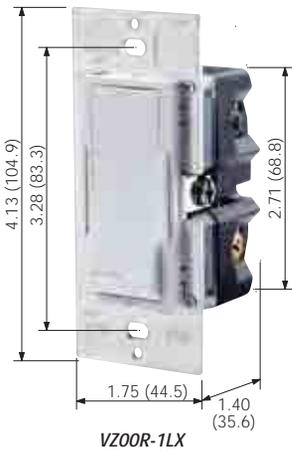

Environmental: Flammability UL-94, V2 Rating
Operating Temperature: 32°F to 130°F

RZI06-1LX

RZM10-1LX

SPECIFICATIONS AND FEATURES

Vizia RF Scene Capable Dimmers

- Scene capable, wireless control via RF (Z-Wave® technology)
- Digital circuitry provides soft ON/fade OFF light switching and smooth full-range changes in brightness level for extended bulb life
- Push pad always returns to neutral position regardless of load status
- Compatible with Decora Plus screwless wallplates and Decora wallplates
- Complements Vizia Lighting Controls (see page C19 for more information)
- Color change kits are available to allow fast color changeover and simplify stocking inventory
- Vizia Six-Pack: Three color choices along with single pole or 3-way control provide 6 different options in each box, eliminating the need to stock a large variety of devices
- Easy adjustments for minimum brightness level, Dim-Lock and selectable fade rates
- Lights turn ON at the last selected brightness level or at user-programmable Dim-Lock setting
- Manual and remote ON/OFF/DIM/BRIGHT control of connected Dimmer
- ON/OFF/DIM/BRIGHT scene and zone control capability
- Responds to Vizia RF Controllers as well as selected Z-Wave certified controllers from other manufacturers
- Works with the Vizia RF 1-Zone Controller/Matching Dimmer Remote (RZCZ1-1L) for RF virtual 3-way control without the need for traditional 3-way wiring or for a dedicated traveler wire
- Works with Vizia™ (non-RF) Coordinating Remotes (VZ00R-10) for hardwired 3-way or up to 10-location control

- Enhanced 2-way communication
- Easy to clean, high gloss finish complements a wide range of décors
- DIM/BRIGHT bar allows user to select brightness level when lights are ON or OFF— green LED displays brightness level
- Power-failure memory allows light levels to return to the same levels set prior to power interruption
- RFI filtering for radio, audio and video equipment
- UL required air gap switch disconnects power from load locally. It is concealed during normal operation and is accessible without removing the wallplate

Vizia RF Scene Capable Plug-in Appliance Module (RZP15)

- Provides 15A-120VAC NEMA 5-15R grounding receptacle for use with a wide variety of lamps and appliances
- Provides Manual ON/OFF switching of plug-in load and remote scene and zone control compatibility

- Enhanced 2-way communication

Vizia RF Scene Capable Plug-in Lamp Dimming Module (RZP03)

- Provides NEMA polarized 1-15R 2-blade receptacle for use with incandescent lamps
- Load Sensing feature allows lamp to be turned ON manually using the lamp's switch or the integrated ON/OFF button
- Provides manual and remote ON/OFF/DIM/BRIGHT control of plug-in lamps
- Enhanced 2-way communication
- Provides ON/OFF/DIM/BRIGHT scene and zone control capability

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-66800)
- CSA Certified (File #152105)
- NOM Certified (#057)
- Complies with FCC Part 15, Class B
- Z-Wave Certified
- Backed by a Limited Five-Year Warranty

*COLOR

Vizia-RF Lighting Controls come packaged with three colors. Controls with suffix (-X) include White, Ivory and Almond. Color Change Kits available in the following colors: Ivory (-I), White (-W), Almond (-A), Light Almond (-T), Gray (-G), Black (-E), Red (-R) and Brown (-B).

SPECIFICATIONS AND FEATURES

Vizia RF Controllers

- Compatible with Decora Plus screwless wallplates and Decora wallplates
- Enhanced 2-way communication
- Popular Vizia-style push pad on 1-button controllers blend seamlessly with other devices in the Vizia collection

Vizia RF 1-Button Scene Controller (RZCS1-1L)

- Provides remote ON/OFF control of one scene
- Virtual 3-way and multi-location remote ON/OFF control of selected Vizia RF switches without the need for traditional 3-way wiring or a dedicated traveler wire
- Controller fits in standard wall box and utilizes household 120VAC 60Hz wiring (when neutral wire is present) for easy "no-new-wires" installation
- Green LED illuminates to indicate controlled scene. When acting as a matching remote, LED will illuminate when the load is OFF

Vizia RF 1-Button Zone Dimming Controller (RZCZ1-1L)

- Provides remote ON/OFF/DIM/BRIGHT control of one Vizia RF Dimmer
- Virtual 3-way remote dimming control of selected Vizia RF dimmers without the need for traditional 3-way wiring or a dedicated traveler wire
- Controller fits in standard wall box and utilizes existing 120VAC 60Hz wiring to replace a regular switch (when neutral wire is present) for easy "no-new-wires" installation
- Green LED locator illuminates to indicate controlled zone or load is OFF

Vizia RF 4-Button Scene (RZCS4-1L) or Zone (RZCZ4-1L) Controllers

- Provides remote ON/OFF/DIM/BRIGHT control of four scenes (RZCS4-1L) or zones/areas (RZCZ4-1L) of selected Vizia RF devices
- Integrated infrared (IR) port
- Controller fits in standard wall box and utilizes existing 120VAC 60Hz wiring to replace a regular switch (when neutral wire is present) for easy "no-new-wires" installation
- Green LED illuminates when the assigned scene (RZCS4-1L) or zone/area (RZCZ4-1L) is ACTIVE

Vizia RF Handheld Remotes

RZCPG

- Primary device for creating and programming a Vizia RF system
- Provides user level control of up to 128 devices
- Can operate as a secondary remote control
- Provides remote control (ON/OFF/DIM/BRIGHT/SCENE/ZONE) of all devices in the Vizia RF network

RZMR1

- Works with Vizia RF IR compatible controllers
- Controls four scenes and four zones

TESTING AND CODE COMPLIANCE

- UL Listed (File #-E-66800)
- CSA Certified (File #152105)
- NOM Certified (#057)
- Complies with FCC Part 15, Class B
- Z-Wave Certified
- Backed by a Limited Five-Year Warranty

Handheld Remotes

- Complies with FCC Part 15, Class B
- Z-Wave Certified

DESCRIPTION	CAT. NO.	COLOR*
Mural Dimmer Color Change Kit with LED Locator and Brightness Display	DRKDD-1L	I, W, A, G, E, B
Remote Color Change Kit, no LED Locator or Display	DRKOR-00	I, W, A, G, E, B

Digital Lighting and Fan Speed Controls are polarity sensitive devices. Always follow the wiring instructions included with each device.

See Page C7 for more information on Leviton Power Extenders

SPECIFICATIONS AND FEATURES

- Provides single-pole (one-location) or multi-location full range dimming when used with MS00R remote unit
- Streamlined popular Decora styling enhances any interior and adds a family look when ganged with other Decora devices
- Smooth ON/OFF and DIM/BRIGHT Decora rocker action provides ease of operation for people of all ages and abilities
- Digital circuitry provides Soft-ON/Fade-OFF switching for an eye-pleasing effect and extended lamp life
- Compatible with DecoraPLUS screwless and Decora wallplates
- Locator LED illuminated when lights are OFF
- Color change kits available in a wide range of choices, making it easy and economical to change decorating schemes
- Color change kits simplify inventory for distributors and contractors who can offer a complete range of colors without stocking a different device for each one
- Protected memory and voltage compensation maintain light levels after short-term power outages and during minor power fluctuations

- Coordinates with Leviton's DHC line of products
- Green LED display alongside rocker indicates selected brightness level on MD models
- Built-in radio/TV interference filter
- Air gap switch completely disconnects power to unit for bulb changing or removal from service

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373)
- CSA Certified (File #LR-3413)
- Backed by a Limited Five-Year Warranty

*COLOR

To order colors, add suffix to basic catalog number. Colors in parentheses must be ordered as Color Change Kits. Color suffixes are: Ivory (-I), White (-W), Almond (-A), Gray (-G), Black (-E) and Brown (-B).

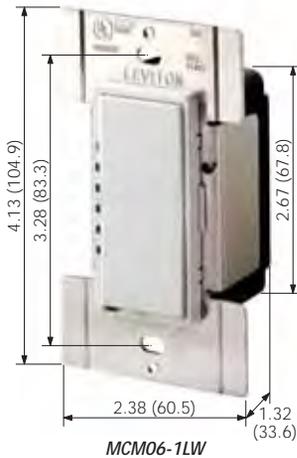

MATERIAL CHARACTERISTICS

Environmental: Flammability UL-94, V2 Rating
Operating Temperature: 32°F to 130°F

Use Leviton Power Extenders to extend the load capacity of box-mounted dimmers. Leviton Power Extenders are available for incandescent, magnetic low-voltage, electronic low-voltage, Advance Mark 10® Powerline fluorescent dimming ballasts or equivalents, and 0–10 VDC dimmable fluorescent ballasts such as Advance Mark 7® 0–10V, OSRAM Sylvania Quicktronic Helios or equivalent ballasts.

Commercial Grade Lighting Controls

MCM06-1LW

Mural Scene Capable Digital Dimmers

Compatible with Scene Controller and Scene Enhancement Products — See page C25.

Mural Scene Capable Digital Dimmer 120V AC 60Hz Only  

DESCRIPTION	CAT. NO.	RATING	COLOR*
Mural Scene Capable Incandescent/Magnetic Low-Voltage Dimmer with LED Locator and Brightness Display	MCM06-1L	600W Incandescent 600VA Magnetic Low Voltage	I, W, A (G, E, B with Kit)
Mural Scene Capable Incandescent/Magnetic Low-Voltage Dimmer with LED Locator and Brightness Display	MCM10-1L	1000W Incandescent 1000VA Magnetic Low Voltage	I, W, A (G, E, B with Kit)
Mural Scene Capable Preset Fluorescent Dimmer for Mark 10® Powerline Ballast with LED Locator and Brightness Display; neutral required	MCX10-1L	1000VA	W (I, A, G, E, B with Kit)
Color Change Kits for Mural MC Scene Capable Dimmer	DRKDD-1L	—	I, W, A, G, E, B

See Page C7 for more information on Leviton Power Extenders

Note: Sharing a neutral wire may cause flickering. Connect all dimmers to the same phase or run a separate neutral to each phase. Consult Leviton Techline if problems persist. Digital Lighting and Fan Speed Controls are polarity sensitive devices. Always follow the wiring instructions included with each device.

CAUTION ON RETROFITS: When retrofitting Mark 10® Powerline dimming ballasts into fixtures that originally had Instant Start ballasts, the sockets MUST be replaced with Rapid Start sockets to allow proper dimmer operation and prevent damage to the dimming ballast. Refer to the instructions provided with the ballast and the Leviton dimmer.

SPECIFICATIONS AND FEATURES

- Responds to lighting level commands sent by the Cat. No. MN00C-1L Scene Controller (See Page C25). Users can program the desired lighting level for individual Mural Scene Dimmers in up to seven distinct lighting scenes, which are easily accessed by one or more Scene Controllers
- Smooth ON/OFF and DIM/BRIGHT Decora rocker action provides ease of operation for people of all ages and abilities
- Local DIM/BRIGHT adjustment on individual scene dimmers will not affect programmed scene lighting settings
- Compatible with Scene Enhancement Products including Contact Closure Interface, Infrared Hand-Held Remote and Infrared Receiver, and one-way and two-way Signal Repeater
- Streamlined, popular Decora styling enhances any interior and adds a “family look” when ganged with any Decora device
- Digital circuitry provides Soft-ON/Fade-OFF operation for an eye-pleasing effect and prolonged lamp life
- Green LED display alongside rocker indicates selected brightness level
- Locator LED illuminates when lights are OFF
- Color change kits available in a wide range of choices, making it easy and economical to change decorating schemes

- Color change kits simplify inventory for distributors and contractors who can offer a complete range of colors without stocking a different device for each one
- Minimum Brightness Adjustment sets comfortable minimum light level
- Protected memory and voltage compensation maintain light levels after power outages and during minor power fluctuations
- Built-in radio/TV interference filter
- Air-gap switch completely disconnects power to unit for bulb changing or removal from service

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373)
- CSA Certified (File #LR-3413)
- Backed by a Limited Five-Year warranty

Compatible with Mural Scene Capable Lighting Controls  

DESCRIPTION	CAT. NO.	RATING	COLOR*
Signal Repeater—Must be used if controlling lighting on more than one circuit. One-Way and Two-Way versions available	17100-1WY, 17100-2WY	No load rating 120V AC	—
Contact Closure Interface—Allows control of Mural Scene Capable devices from home theater and building control systems via momentary contact inputs	177BI	No load rating 120V AC	(Non-color item)
Infrared Receiver available with Wall Mount and Ceiling Fan Bezels	177IR-IWA	No load rating 120V AC	Supplied with Ivory, White and Almond bezels
Hand-Held Infrared Remote Control: with 4 Scene Buttons plus OFF	177RC	No load rating 120V AC	E

Note: A Repeater must be used on any installation that uses more than one circuit.

SPECIFICATIONS AND FEATURES

Scene Controller

- Sends commands for up to seven distinct scenes to individual Mural Scene Capable Dimmers
- Multiple Scene Controllers can be used for multi-point access to scenes.
- Provides OFF button and two arrow-shaped buttons for group Dim and Bright control
- Local DIM/BRIGHT adjustment on individual scene dimmers will not affect programmed scene settings
- Green LED display for each scene button indicates selected scene
- Fast, easy scene programming: Press scene button on MN00C, adjust individual level on Mural Scene Capable dimmer, press program button on dimmer
- Controls up to 20 scene dimmers per circuit
- Streamlined, popular Decora styling enhances any interior and adds a “family look” when ganged with any Decora device
- Use Decora Plus or any standard Decora wallplate
- Color change kits are available in a wide range of colors making it easy and economical to change decorating schemes
- Internal MOV for surge protection

- Customized lettering for each scene button available (maximum of 8 characters and spaces) — see your Leviton representative for ordering information

Scene Enhancement Products

- Two-Way Repeater provides scene control communication link between branch circuits. One-Way Repeater allows the creation of separate scene control zones

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373 – Cat. Nos. MN00C and 177IR; File #E-66800 – Cat. Nos. 17100-1WY and 17100-2WY; File #E-600800 – Cat. No. 177BI)
- CSA Certified (File #LR-3413)
- Backed by a Limited Five-Year Warranty

***COLOR**

Basic Cat. No. denotes White device. For other colors, order Color Change Kits and add suffix as follows: Ivory (-I), White (-W), Almond (-A), Gray (-G) and Black (-E).

MATERIAL CHARACTERISTICS

Environmental: Flammability UL-94, V2 Rating
Operating Temperature: 32°F to 130°F

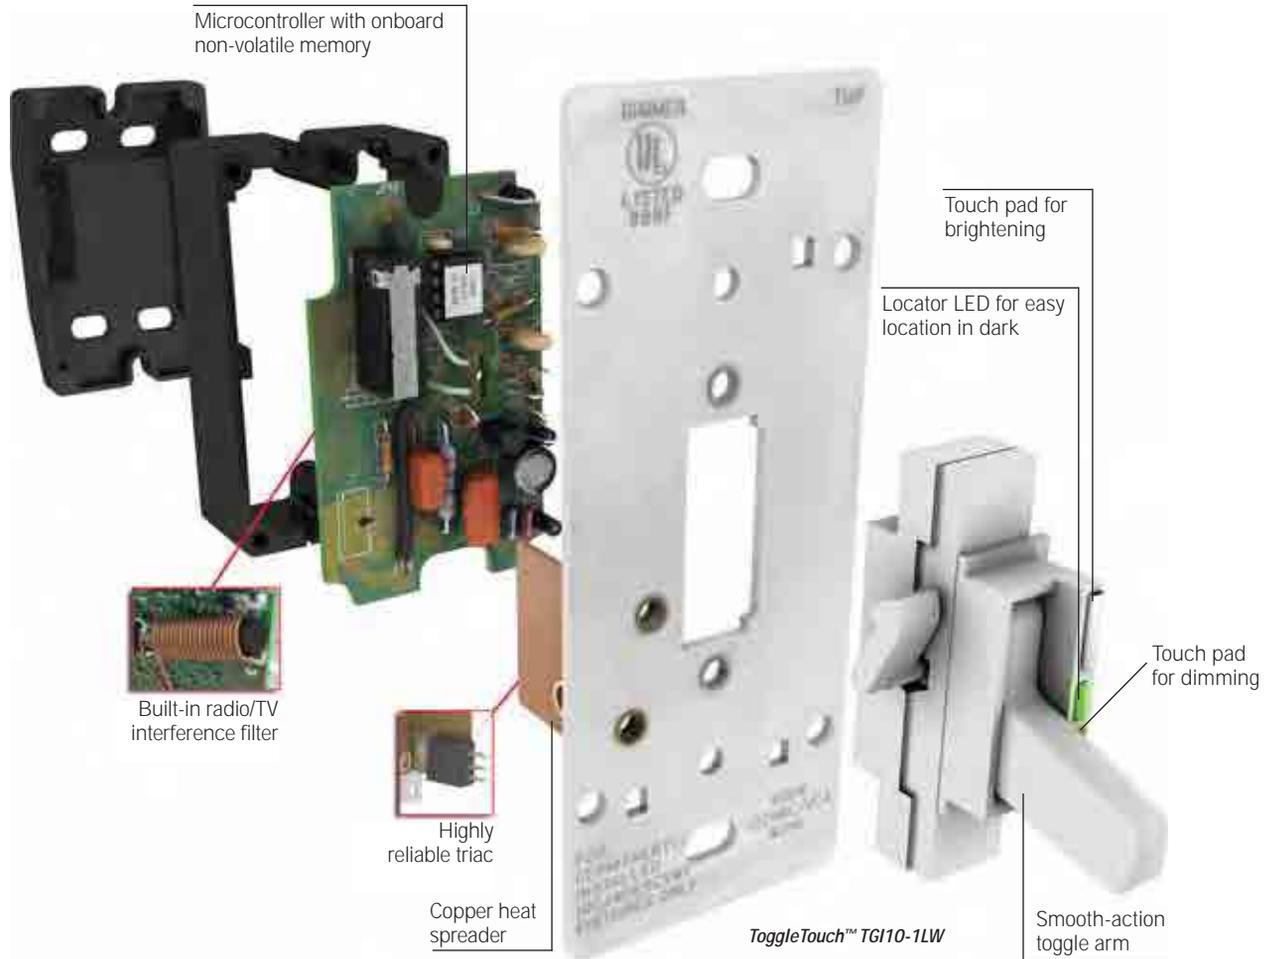

TOUCH LIGHTING CONTROL FEATURES

Commercial Grade Lighting Controls

Touch Lighting Controls

The Leviton Touch series includes two full-range dimming lines that use digital touch pad technology to enable dimming and switching with a touch of a finger: True Touch™ and ToggleTouch™.

Features and Benefits

- Preset dimmers incorporate touchpad technology
- Digital circuitry provides eye-pleasing Soft-ON/ Fade-OFF that extends lamp life (most models)
- Single- and multi-location control available
- Wide range of colors coordinates with any décor
- UL and CSA Listed
- Backed by a Limited Five-Year Warranty

LEVITON TOUCH DIMMERS FOR FULL-RANGE DIMMING

True Touch™ Dimmer
Decora-style digital touch dimmer. Provides fingertip full-range single-pole and multi-location dimming. Color change kits available. **TGI10-1LX shown**

ToggleTouch™ Dimmer
Unique design features toggle-style ON/OFF switch with bright and dim digital touch pads alongside toggle and LED locator light. **TGI10-1LW shown**

True Touch Digital Dimmers

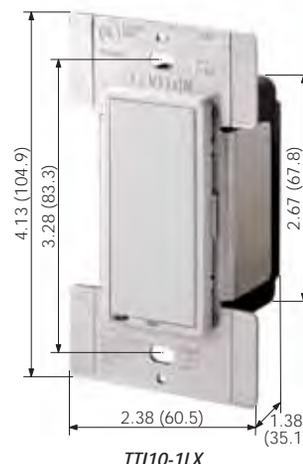

All True Touch dimmers provide single-pole (one location) or 3-way (multi-location) control when used with TrueTouch Remote.

True Touch Digital Dimmer 120V AC 60Hz

DESCRIPTION	CAT. NO.	RATING	COLOR*
True Touch Incandescent Dimmer with LED Locator	TTI06-1L	600W	X, Z, GS X=I+W+A Z=I+W+T
True Touch Incandescent Dimmer with LED Locator	TTI10-1L	1000W	X, Z, GS
True Touch Magnetic Low-Voltage Dimmer with LED Locator	TTM10-1L	1000VA (800W)	X, Z, GS
Coordinating Remote Unit to True Touch Dimmers for 3-way or up to 10 locations, no LED	TT00R-1	No load rating	X, Z, GS
True Touch Dimmer Color Change Kit	TTKIT	—	I, W, A, T, GY, E, WS, GI, BG
True Touch Remote Dimmer Color Change Kit	TTKTR	—	I, W, A, T, GY, E, WS, GI, BG

See Page C7 for more information on Leviton Power Extenders

Digital Lighting and Fan Speed Controls are polarity sensitive devices. Always follow the wiring instructions included with each device. They can be used in conventional 3-way and 4-way wiring circuits only when the Control is properly connected to the load as indicated by the device's wiring instructions.

TTI10-1LX

SPECIFICATIONS AND FEATURES

- Provides fingertip ease of use and precise adjustment of lighting levels. Simple one-touch for ON at preset level, or again for OFF. Touch and hold for BRIGHT/DIM lighting control
- Provides single-pole (one-location) and multi-location full range dimming when used with TT00R remote dimmer
- Attractive Decora styling blends with any interior
- Digital circuitry provides Soft-ON/Fade-OFF switching for an eye-pleasing effect and extended lamp life
- Compatible with DecoraPLUS screwless and Decora wallplates
- Locator LED is illuminated when lights are OFF (no LED on Remote Unit)
- Color change kits offered in a wide range of colors, making it easy and economical to change decorating schemes
- Protected memory maintains light levels after short-term power outages and during minor power fluctuations
- Built-in radio/TV interference filter
- Air gap switch completely disconnects power to unit for bulb changing or removal from service

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373)

ToggleTouch Magnetic Low-Voltage Dimmer	TGM10-1L	1000VA (800W)	W, I, A, T, G

Note: Leviton does not recommend using the ToggleTouch Dimmer with metal wallplates.

See Page C7 for more information on Leviton Power Extenders

Digital Lighting and Fan Speed Controls are polarity sensitive devices. Always follow the wiring instructions included with each device. They can be used in conventional 3-way and 4-way wiring circuits only when the Control is properly connected to the load as indicated by the device's wiring instructions.

SPECIFICATIONS AND FEATURES

- Provides a unique combination of toggle-style ON/OFF switching and digital touch pad technology
- Designed for smooth ON/OFF toggle action and fingertip touch dimming control that's easy to operate
- Provides single-pole (one-location) and 3-way (multi-location) control when used with a 3-way switch
- Touch pads match color of toggle switch
- Fits and gangs perfectly with Leviton standard toggle wallplates and all Leviton toggle switches
- Provides preset dimming with Soft-ON feature (does not provide Fade-OFF)
- Locator LED is illuminated when lights are OFF
- Protected memory during temporary power failures ensures that ToggleTouch will retain last setting before power interruption
- Built-in radio/TV interference filter

TESTING AND CODE COMPLIANCE

TRADITIONAL CONTROL FEATURES

Commercial and Residential Grade Controls

Traditional Controls

Leviton offers a full line of slide, rotary and toggle dimmers and fan speed controls ideally suited to traditional interiors. The line includes IllumaTech™, SureSlide™, and Trimatron® brand devices as well as a number of specialty lighting devices. Leviton traditional controls are offered in a variety of colors.

IPI10-1LZ

Features and Benefits

- Features slide, rotary and toggle style dimmers
- Most with full-range dimming and built-in radio/TV interference filter
- Single- and multi-location control available
- UL and CSA Listed
- Backed by a Limited Five-Year Warranty

TRADITIONAL STYLE SLIDE AND ROTARY LIGHTING CONTROLS

IllumaTech™ Slide and Rotary Dimmers
Decora-style dimmer with full-range slide or rotary dimming for single- or multi-location dimming control. Color change kits available.
IPI06-1LZ and RPI06-1LZ shown

SureSlide™ Slide Controls
Smooth-action slide control for easy, precise operation. Slim design ideal for multi-gang installations. Preset and slide-to-off versions.
6633-PLW shown

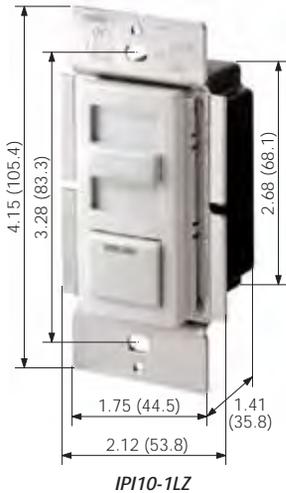

Trimatron® Rotary Controls
Ultra-compact, full-range rotary dimmers.
6681-W shown

Specialty Lighting Controls
Specialty dimmers, sockets and switches. Emergency switch flashes lights on and off. Lamp-cord and 4-step dimmers also available.
911-W shown

Commercial Grade Controls

IllumaTech Fluorescent Dimmer for Advance Mark 10® Powerline Ballasts, no LED; neutral required	IPX06-70	600VA 277V AC 60Hz	X, Z
IllumaTech Fluorescent Dimmer for Advance Mark 10® Powerline Ballasts, no LED; neutral required	IPX12-70	1200VA 277V AC 60Hz	X, Z
IllumaTech Quiet Fan Speed Control with LED Locator; neutral required	IPF01-1L	1.5 Amps 120V AC 60Hz	X, Z
IllumaTech Fully variable Fan Speed Control with LED Locator; neutral required	IPF05-1L	5 Amps 120V AC 60Hz	X, Z
IllumaTech Color Change Kit with LED Locator	IPKIT-00	—	I, W, A, T, G, E, R, B
IllumaTech Color Change Kit, no LED	IPKIT-0N	—	I, W, A, T, G, E, R, B
IllumaTech Color Change Kit for Fan Speed Control	IPQFK-00	—	I, W, A, T, G, E, R, B

See Page C7 for more information on Leviton Power Extenders

Note: Sharing a neutral wire may cause flickering. Connect all dimmers to the same phase or run a separate neutral to each phase. Consult Leviton Techline if problems persist.

CAUTION ON RETROFITS: When retrofitting Mark 10® Powerline dimming ballasts into fixtures that originally had Instant Start ballasts, the sockets MUST be replaced with Rapid Start sockets to allow proper dimmer operation and prevent damage to the dimming ballast. Refer to the instructions provided with the ballast and the Leviton dimmer.

SPECIFICATIONS AND FEATURES

- Fluid slide movement allows fine adjustment of light level with minimum effort
- Captured, wrap-around slide bar stays in place and cannot fall off during use
- Easy-to-use pushbutton switch with conveniently positioned locator LED. Makes the pushbutton easier to find in the dark
- Provide single-pole (one-location) and multi-location lighting control when used with a 3-way switch
- IllumaTech Six-Pack: Three color choices, along with single- or multi-location control provide six different options in each box, eliminating the need to stock a large variety of devices
- Attractive Decora styling blends with any interior
- Compatible with Decora screwless and Decora standard designer wallplates
- Power failure recovery ensures retention of last setting before power interruption
- Built-in radio/TV interference filter
- Quiet 1.5 Amp Fan Speed Controls are ideal for libraries, study rooms and any area where ceiling fan noise could become distracting. Full range 5-amp fan speed controls also available

- Color change kits feature a self-aligning mechanism that automatically connects it to internal slider
- Snap-On Color Change Kits allow color changes on any device, eliminating the need to stock a separate device for every available color

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373)
- CSA Certified (File #LR-3413)
- Backed by a Limited Five-Year Warranty

*COLOR

IllumaTech Preset Controls come packaged with three colors. Controls with suffix (-X) include Ivory, White and Almond; controls with suffix (-Z) include Ivory, White and Light Almond. Color Change Kits available in the following colors: Ivory (-I), White (-W), Almond (-A), Light Almond (-T), Gray (-G), Black (-E), Brown (-B) and Red (-R).

MATERIAL CHARACTERISTICS

Environmental: Flammability UL-94, V2 Rating
Operating Temperature: 32°F to 130°F

Use Leviton Power Extenders to extend the load capacity of box-mounted dimmers. Leviton Power Extenders are available for incandescent, magnetic low-voltage, electronic low-voltage, Advance Mark 10® Powerline fluorescent dimming ballasts or equivalents, and 0–10 VDC dimmable fluorescent ballasts such as Advance Mark 7® 0–10V, OSRAM Sylvania Quicktronic Helios or equivalent ballasts.

Residential Grade Controls

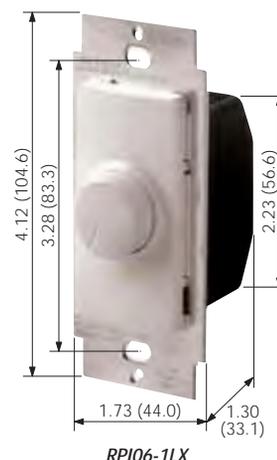

IllumaTech Rotary Controls

All IllumaTech Rotary Controls combine the ease of a traditional rotary dial with the contemporary look of Leviton Decora®.

RTD01-10X

SPECIFICATIONS AND FEATURES

- Combines traditional rotary dial with contemporary Decora styling
- Dimmers provide single-pole (one-location) and 3-way (multi-location) control when used with a 3-way switch
- IllumaTech Six-Pack: Three color choices, along with single- or 3-way control provide six different options in each box, eliminating the need to stock a large variety of devices
- Dimmers available in illuminated and non-illuminated versions
- Quiet 1.5 Amp Fan Speed Controls are perfect for libraries, study rooms and any area where ceiling fan noise could become distracting
- Dual fan speed control and dimmer is ideal for ceiling fans with built-in light fixtures
- Attractive Decora styling coordinates perfectly with Leviton's complete line of Decora wiring devices
- Compatible with Decora Plus screwless and Decora standard designer wallplates
- Built-in radio/TV interference filter
- Slim, compact housing fits easily into a standard wallbox and is suitable for multi-gang installations

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-31373)
- CSA Certified (File #LR-3413)

Full-Range Compact Dimmer Socket (1/8 I.P.S Thread and Set Screw)	6151	150W	(Non-color item)

6161-W

6151

SPECIFICATIONS AND FEATURES

Four-Level Step Dimmer

- Eliminates guesswork — user selects one of four preset lighting levels (25%, 50%, 75%, 100%)
- Easily installs in place of single-pole switch
- LED indicates selected level of brightness
- Sleek designer styling; can be ganged with other Decora devices

Lamp Cord and Socket Dimmers

- Compact Dimmer Socket interchangeable with standard lampholder for dimmer conversion (eliminates need for expensive 3-way bulbs)
- Full-Range Feed-Through Lamp Cord Dimmer provides full-range dimming with positive ON/OFF action in a completely insulated plastic housing

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

SPECIFICATIONS AND FEATURES

Back & Side Wired Duplex

- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely fasten face
- Single-piece brass mounting strap on LEVSPEC® devices, multi-piece steel strap on other devices
- Large, impervious, brass "T" contacts for superior contact and conductivity
- Back and side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Agion barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back-wiring for superior contact and conductivity

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399); (UL Federal) Specification WC-590

- Meets NEMA WD 1-3, 6, and ANSI standards
- Backed by a Limited 10-Year Warranty
- SPECCLASS** devices backed by a Limited 2-Year Warranty

COLOR

Basic Cat. Nos. shown above denote Brass device, except for Isolated Ground (-IG) devices. Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. OCCUPANCY SENSOR LIGHTING CONTROL FEATURES

Commercial and Residential Grade Energy Management Products

LEVITON OFFERS A RANGE OF PRODUCTS THAT REDUCE ENERGY COSTS WHILE INCREASING COMFORT AND SECURITY.

The modular Centura® Fluorescent Energy Management system offers "daylight harvesting" in commercial buildings through the use of photo sensors, occupancy sensors, dimmers and a PC-based lighting control interface. Occupancy sensors provide convenient, hands-free lights-ON/lights-OFF switching either independently or as part of the Centura system. Leviton's residential and commercial grade Electronic Timers reduce energy bills and can provide a "lived-in look" for added home security. Z-MAX™ timed relay lighting control panels combine time clock and switching contactor functions with innovative technology for advanced scheduling of lighting and other loads in commercial, educational and outdoor areas.

Occupancy Sensor Lighting Controls

Leviton offers a variety of space-monitoring Occupancy Sensor Lighting Controls for virtually any room, facility, home or office. Wall or ceiling mount, with passive infrared, ultrasonic or multi-technology sensing; end-users will benefit from the energy savings, convenience and security provided by Leviton Occupancy Sensors.

Features and Benefits

- Adjustable delayed-OFF and/or self-adjusting delayed-OFF interval compensates for occupancy patterns—preventing unnecessary ON/OFF switching
- Many with self-adjusting settings that continuously analyze and adjust for optimum performance
- Advanced passive infrared (PIR) technology for monitoring obstruction-free areas
- Advanced ultrasonic sensing technology for highly accurate small-motion monitoring
- For use with incandescent or fluorescent lighting
- Backed by a Limited Five-Year Warranty

OCCUPANCY SENSOR LIGHTING CONTROLS FOR COMMERCIAL AND RESIDENTIAL APPLICATIONS

Decora® Wall-Switch Infrared Occupancy Sensor
Features automatic "walk-through" sensing and self-adjusting delayed-OFF. Dual relay versions available.
ODS15-IDW shown

Self-Contained Infrared Ceiling-Mount Occupancy Sensor
Features built-in relay and 360° coverage. For small spaces.
ODC05-11W shown

Multi-tech Ceiling-Mount Occupancy Sensor
IR and ultrasonic combine for accurate monitoring while minimizing false triggers. For larger, open areas. Self adjusting.
OSC20-MOW shown

Ultrasonic Ceiling-Mount Occupancy Sensor
Highly accurate small-motion detection. Self-adjusting sensitivity and time off.
OSC05-UOW shown

Wall-Mount Occupancy Sensor
Available with multi-technology sensing or IR wide-view, high-bay and long-range versions. Fits in corner.
OSW12-MOW shown

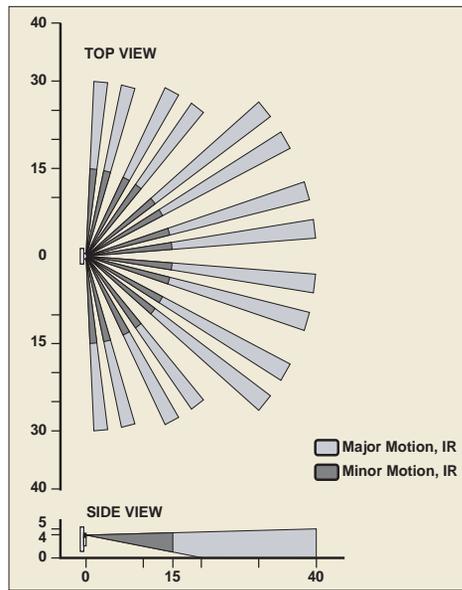

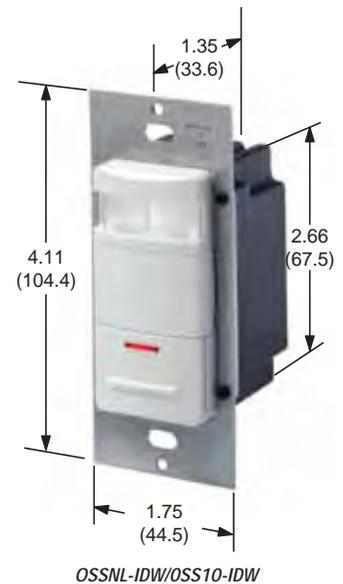

Infrared Outdoor Motion Sensor
Adjustable delayed-OFF plus sensitivity to reduce false triggers. For commercial and residential applications.
PS200 shown

Wall Switch Occupancy Sensor Lighting Controls

Decora Wall Switch Infrared Occupancy Sensor (Incandescent or Fluorescent)

DESCRIPTION	CAT. NO.	RATING	COLOR*
Decora Wall Switch PIR Occupancy Sensor, 180° field of view, 2100 sq. ft	ODS10-ID	Incandescent: 800W @ 120V, Fluorescent: 1200VA @ 120V, 2700VA @ 277V. For 60 Hz AC only. Motor: 1/4 HP @ 120V	I, W, A, T, G
Decora Wall Switch PIR Occupancy Sensor with Self-Adaptive Technology, 180° field of view, 2100 sq. ft	ODS15-ID	Incandescent: 1800W @ 120V. Fluorescent: 1800VA @ 120V, 4000VA @ 277V. Motor: 1/4 HP @ 120V	I, W, A, T, G
Decora Wall Switch PIR Occupancy Sensor with LED Night Light, 180° field of view, 1200 sq. ft (neutral required)	OSSNL-ID	Incandescent: 800W @ 120V Fluorescent: 1200VA @ 120V 2700VA @ 277V Motor: 1/8HP @ 120V	I, W, A, T, G
CEC Title 24 Compliant Decora Wall Switch PIR Manual-ON Sensor with LED Night Light, 180° field of view, 1200 sq. ft (neutral required)	OSS10-ID	Incandescent: 800W @ 120V Fluorescent: 1200VA @ 120V 2700VA @ 277V Motor: 1/8HP @ 120V	I, W, A, T, G

SPECIFICATIONS AND FEATURES

All ODS Wall Switch Sensors

- Ambient light override prevents these devices from switching lights ON when there is ample natural sunlight
- Push-button manual override is used to turn lights ON at any time, regardless of the override setting
- 180° field of view, 2100 sq. ft. of coverage
- One unit can be used for 120V or 277VAC 60Hz incandescent, low voltage and fluorescent lighting with either magnetic or electronic ballasts, and motor loads
- Fits in standard wallbox; gangable
- Elegant Decora styling; uses Decora wallplate

ODS15-ID PIR Occupancy Sensor

- For use in small offices, conference rooms, classrooms, stockrooms, lounges, restrooms, warehouses and commercial areas
- Exclusive automatic "Walk-Through" sensing increases energy savings by shutting lights within 2 1/2 minutes after momentary occupancy

- Delayed-OFF time interval (5, 10 and 20 minutes) compensates for real-time occupancy patterns, preventing unnecessary ON/OFF switching—with 30-second test mode

ODS10-ID PIR Occupancy Sensor

- For use in enclosed offices, storage rooms, copier rooms and closets
- Delayed-OFF time settings: 10, 20 and 30 minutes with 30-second test mode

All Night Light Wall Switch Sensors

- For use in conference rooms, classrooms, small offices, lounges, hotel/hospital/office restrooms
- 180° field of view, 1200 sq. ft. of coverage
- Night light with dim feature

OSSNL-ID PIR Occupancy Sensor

- Manual delayed-OFF time settings: 30 seconds, 30 minutes, 1 hour, 2 hours

OSS10-ID PIR Occupancy Sensor

- Manual delayed-OFF time settings: 30 seconds to 30 minutes

- Manual ON/Auto OFF operation for CEC Title 24 Compliance

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-118904)
- CSA Certified (File #LR-91148M)
- NOM Certified (#057)
- Conforms to California Title 24 Energy Code
- Backed by a Limited Five-Year Warranty

Dual-Relay Decora Wall Switch Infrared Occupancy Sensor

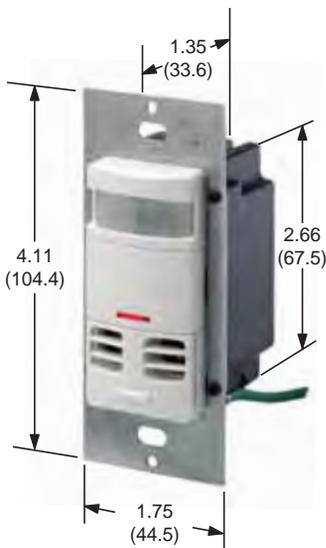

DESCRIPTION	CAT. NO.	PHOTOCELL CONTROL OPTIONS PER RELAY	RATING	COLOR*
Dual-Relay Decora Wall Switch PIR Occupancy Sensor with Self-Adaptive Technology, 180° field of view, 2100 sq. feet	ODSOD-ID	Default Setting: Conference Room Mode (Both Primary and Secondary Relays respond to Ambient Light Override.) Alternate Setting: Classroom Mode (Primary Relay only responds to Ambient Light Override.)	Primary Relay: Fluorescent: 1200VA @ 120V, 2700VA @ 277V. Incandescent: 800W @ 120V. Secondary Relay: Fluorescent: 800VA @ 120V, 1200VA @ 277V. Incandescent: 800W @ 120V	I, W, A, T, G
Dual-Relay Decora Wall Switch PIR Occupancy Sensor with Self-Adaptive Technology. Secondary relay provides Manual-ON only for CEC Title 24 compliance, 180° field of view, 2100 sq. ft	ODSOD-TD	Primary Relay provides Automatic ON switching and responds to Ambient Light Override. Secondary Relay provides Manual-ON switching only	Primary Relay: Fluorescent: 1200VA @ 120V, 2700VA @ 277V. Incandescent: 800W @ 120V. Secondary Relay: Fluorescent: 800VA @ 120V, 1200VA @ 277V. Incandescent: 800W @ 120V	I, W, A, T, G

Decora Wall Switch Multi-Tech (PIR & US) Occupancy Sensors

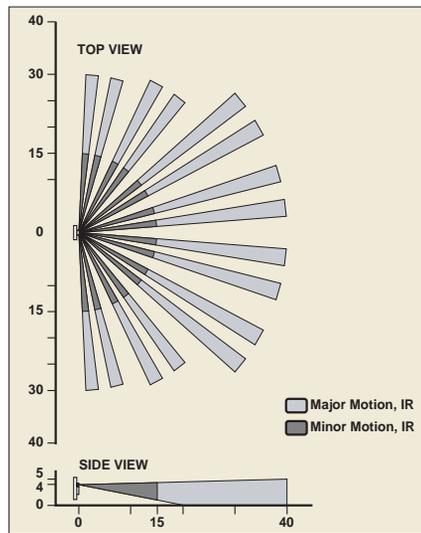

DESCRIPTION	CAT. NO.	RATING	COLOR*
Decora Wall Switch Multi-Tech Occupancy Sensor with Self-Adaptive Technology, 180° field of view, 1200 sq. ft	OSSMT-MD	Incandescent/Tungsten: 800W @ 120V Fluorescent: 1200VA @ 120V, 2700VA @ 277V Motor: 1/4HP @ 120V	I, W, A, T, G

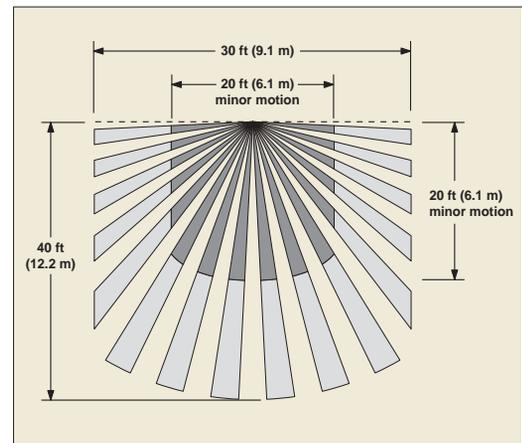

ODSOD-IDW/ODSOD-TDW

OSSMT-MD Multi-Tech Sensor

ODSOD-ID, -TD Field of View (in feet)

OSSMT-MD Field of View (in feet)

SPECIFICATIONS AND FEATURES

Dual-Relay PIR Occupancy Sensors

- Ideal for classrooms, multimedia and conference rooms, day care centers, office, and lounges
- Exclusive automatic "Walk-Through" sensing
- Provides automatic switching for 2 separate banks of fluorescent, incandescent, or low-voltage lighting from a single unit
- Delayed-OFF time interval (5, 10 and 20 minutes) compensates for real-time occupancy patterns, preventing unnecessary ON/OFF switching—with 30-second test mode
- ODSOD-TD provides Manual-ON/Auto-OFF operation for CEC Title 24 compliance

OSSMT-MD Multi-Tech Occupancy Sensor

- Ideal in offices, conference rooms, storage areas, restrooms, classrooms and lounges

- Combines passive infrared and ultrasonic technologies to provide maximum sensitivity with immunity to false triggering
- Ambient light override prevents lights from turning ON when there is ample natural light
- Exclusive automatic "Walk-Through" sensing
- Manual delayed-OFF time settings (30 seconds to 30 minutes)
- Manual-ON/Auto-OFF setting for CEC Title 24 compliance

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-118904)
- Cat. No. ODSOD-ID is CUL/US Certified
- CSA Certified (File #LR-91148M)
- NOM Certified (#057)
- Conforms to California Title 24 Energy Code
- Backed by a Limited Five-Year Warranty

*COLOR

Colors available as listed, add suffix to catalog number as follows: Ivory (-I), White (-W), Almond (-A), Light Almond (-T), Gray (-G).

MATERIAL CHARACTERISTICS

Operating Temperature: 0°C to 50°C
Storage Temperature: -10°C to 85°C
Relative Humidity: 20% to 90% non-condensing

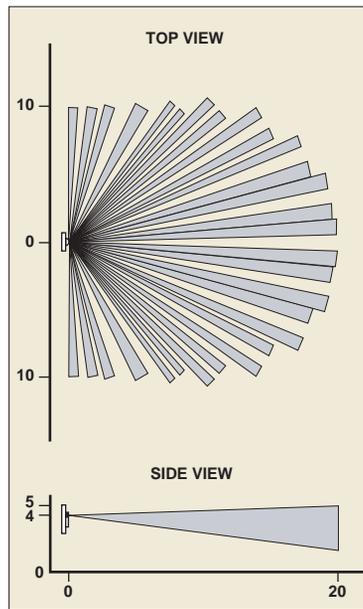

Wall Switch Occupancy Sensor Lighting Controls

Decora Wall Switch Infrared Occupancy Sensor

DESCRIPTION	CAT. NO.	RATING	COLOR*
Decora Wall Switch PIR Occupancy Sensor, Single-Pole & 3-Way, 180° field of view, 400 sq. ft	PR180-1L	Incandescent: 500W, Rapid Start Magnetic Fluorescent only: 400VA @ 120V AC,	I, W, A
Decora Wall Switch PIR Occupancy Sensor, Single-Pole, 150° field of view, 350 sq. ft	PR150-1L	Incandescent: 500W, Rapid Start Magnetic Fluorescent only: 400VA @ 120V AC,	I, W, A

PR150-1L Field of View (in feet)

PR180-1L Field of View (in feet)

SPECIFICATIONS AND FEATURES

- PR180 with 180° field of view, 400 sq. ft. of coverage: For use in large rooms, home offices, and a variety of light commercial and residential applications
- PR150 with 150° field of view, 350 sq. ft. of coverage: For use in residential applications
- Ambient light override prevents these devices from switching lights ON when there is ample natural sunlight
- Manual override for use as a standard ON/OFF switch
- Adjustable delayed-OFF time interval (15 seconds to 15 minutes)
- Fits in standard wallbox; gangable
- Elegant Decora styling; uses Decora wallplate

TESTING AND CODE COMPLIANCE

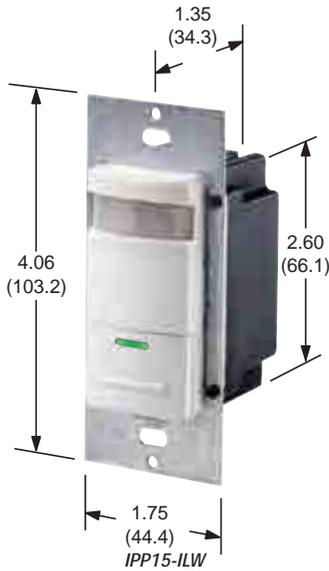

- UL Listed (File #E-118904)
- CSA Certified (File #LR-91148M)
- Backed by a Limited Two-Year Warranty

*COLOR

Manual-ON Wall Switch Occupancy Sensor Lighting Controls

Decora Manual-ON Wall Switch Infrared Occupancy Sensor

DESCRIPTION	CAT. NO.	RATING	COLOR*
Decora Manual-ON Wall Switch PIR Occupancy Sensor, CEC Title 24 Compliant, Single-Pole, 3-Way or more when used with IPPOR Sensor Remote or Vizia Switch Remote, 180° field of view, 900 sq. ft (neutral required)	IPP15-1L	Incandescent: 1800W, Fluorescent: 1800VA at 120V AC, Motor: 1/2 HP @ 120V AC	I, W, A, T, E
Decora Manual-ON Occupancy Sensor Remote, 180° field of view, 900 sq. ft (neutral required)	IPPOR-1L	120V AC—No load rating, For use with IPP15 Sensor or Vizia Dimmers	I, W, A, T
Vizia™ Matching Switch Remote, lighted (neutral required)	VZOSR-1L	120V AC—No load rating	X (I, W & A), Z (I, W & T)
Vizia™ Coordinating Switch Remote, unlighted (neutral required)	VZOSR-10	120V AC—No load rating	X (I, W & A), Z (I, W & T)

IPP15-IL Field of View (in feet)

SPECIFICATIONS AND FEATURES

- Manual-ON/Automatic OFF operation in accordance with California Title 24 2005 requirements
- 180° field-of-view provides approximately 900 sq. ft. of coverage suitable for bathrooms, basements, garages, utility rooms, and a variety of other residential areas
- Low-profile design eliminates an obtrusive “scanning-device” look
- Elegant Decora styling complements any interior and coordinates with Leviton’s popular line of Decora wiring devices and Vizia lighting controls
- IPP15 provides a true 3-Way feature when used with the IPPOR Manual-ON Occupancy Sensor Remote or the VZOSR Vizia Switch Remote
- Convenient push-button provides Manual ON/OFF light switching at any time
- Segmented Fresnel lens provides optimum sensitivity and performance
- Horizontal field of view may be adjusted between 180° and 32° of arc by using integral blinders located on either side of the lens
- Four optional manual adjustments for delayed-OFF time settings maximize energy savings: 30 seconds (for walk test), 5 minutes, 15 minutes and 30 minutes
- LED indicator light flashes when sensor detects motion to verify detection is active
- Fits in standard wallbox
- Requires a neutral (white) wire connection

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-118904)
- CSA Certified (File #LR-152105)

- Conforms to California Title 24 Energy Code and FCC regulations
- Backed by a Limited Five-Year Warranty

*COLOR

Colors available as listed, add suffix to catalog number as follows: Ivory (-I), White (-W), Almond (-A), Light Almond (-T) and Black (-E). Vizia Switch Remotes come packaged with three colors. Controls with suffix (-X) include White, Ivory and Almond. Controls with suffix (-Z) include White, Ivory and Light Almond.

MATERIAL CHARACTERISTICS

Operating Temperature: 0°C to 50°C
Storage Temperature: -10°C to 85°C

Self-Contained Infrared Fixture-Mount Occupancy Sensor

DESCRIPTION	CAT. NO.	RATING	MOUNTING HEIGHT	COLOR
Self-Contained Fixture-Mount High Bay Occupancy Sensor with 360° open area lens and 60 x 20 ft. aisle pattern lens	OSFHU-ITW	Fluorescent: 800VA @ 120V, 1200VA @ 277V, 1500VA @ 347V Motor: 1/4HP @ 120V	360° lens: 40 ft with 60 ft dia. 30 ft with 50 ft dia. 20 ft with 50 ft dia. Aisle lens: 40 ft with 60 ft (length) x 20 ft (width)	White
Offset Adapter Accessory for High Bay Fixture-Mount Occupancy Sensor	OSFOA-00W	---	---	White

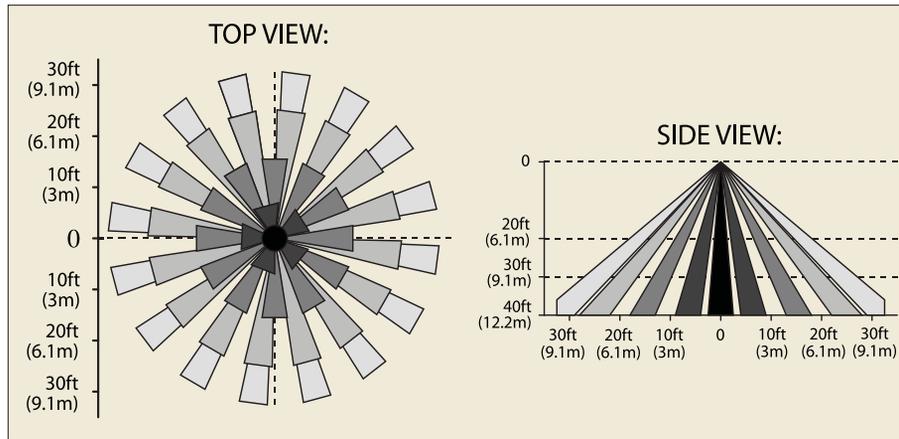

OSFHU-ITW

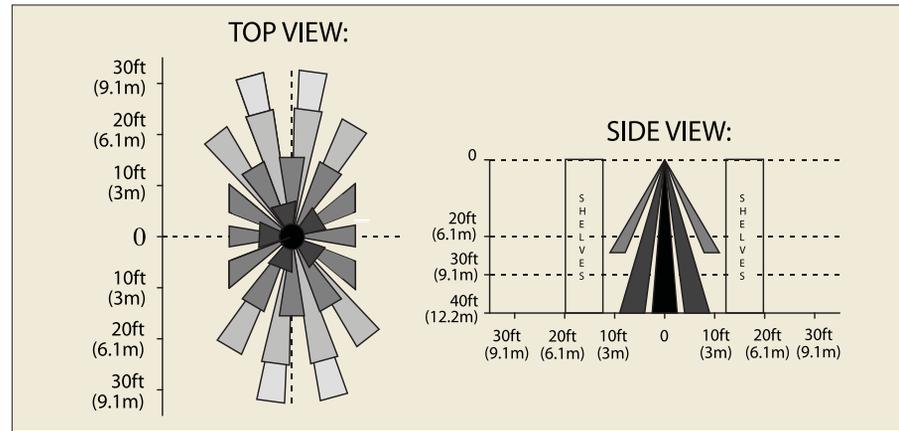

360° Lens

OSFOA

OSFHU-ITW 360° Field of View (in feet)

OSFHU-ITW Aisle Field of View (in feet)

SPECIFICATIONS AND FEATURES

- Ideal in commercial facilities with high ceilings, including warehouses, manufacturing and others
- Mounts directly to industrial-style fluorescent luminaires or electrical junction box
- Provided with an open area 360° lens installed in the sensor and an interchangeable 60 x 20 ft. aisle-pattern lens
- Self-contained PIR sensor and relay turn individual fixtures ON/OFF based on occupancy
- Accommodates high-bay 20-40 ft. mounting heights
- Relay uses zero-crossing circuitry for enhanced reliability and long-life operation

- Delayed-OFF time adjustment from 30 seconds to 20 minutes
- Two-piece accessory offset adapter (Cat. No. OSFOA-00W) that snaps into a 1/2" knockout on the end of an industrial fixture is also available
- Adapter allows positioning of the sensor below the fixture body to improve field of view for deep body fixtures

TESTING AND CODE COMPLIANCE

- UL and cUL Listed
- California Title 24 Compliant
- FCC Compliant
- Backed by a Limited Five-Year Warranty

OPB15-ODW

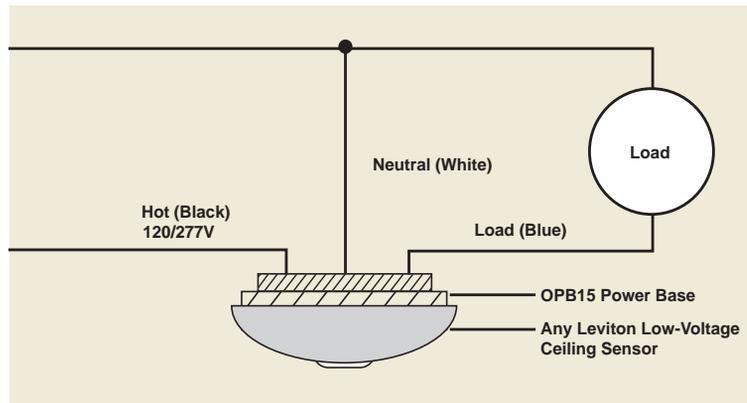

Self-Contained Power Base Adaptor

Power Base Adaptor

Converts any Leviton low voltage ceiling or wall-mount occupancy sensor to a self-contained, line voltage unit with 15A, 120/277V load capacity

Power Base Adaptor

DESCRIPTION	CAT. NO.	POWER INPUT/OUTPUT	RATING	COLOR
Power Base Adaptor	OPB15-ODW	Power Input: 120/277VAC Control Output: 24VDC, 40mA	15A Incandescent, Electronic or Magnetic Fluorescent Ballast	White

OPB15-ODW Power Base Adaptor Wiring Diagram

SPECIFICATIONS AND FEATURES

- Ideal for use in lavatories, remodels, hard ceiling spaces, energy conservation retrofits and any installation with limited access for low-voltage wiring
- Patent-pending design converts Leviton low-voltage ceiling sensors to line voltage
- Ideal for both existing buildings with limited access to low-voltage wiring and new construction with line-voltage circuiting only
- Mounts easily in a standard 2.125" deep x 4" octagon or 2.125" deep x 4" square electrical box with a 2-gang mud ring; flying leads provide fast line voltage connections

- Two-piece terminal block provides fast, easy low-voltage connections to the sensor
- Relay uses zero-crossing circuitry for enhanced reliability and long-life operation

TESTING AND CODE COMPLIANCE

- UL and cUL Listed
- NOM Certified
- California Title 24 Compliant
- Backed by a Limited Five-Year Warranty

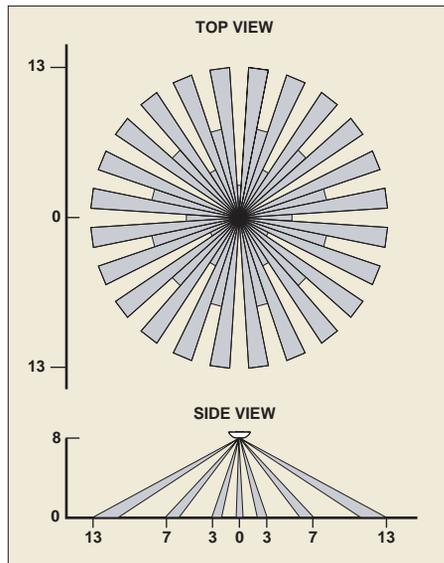

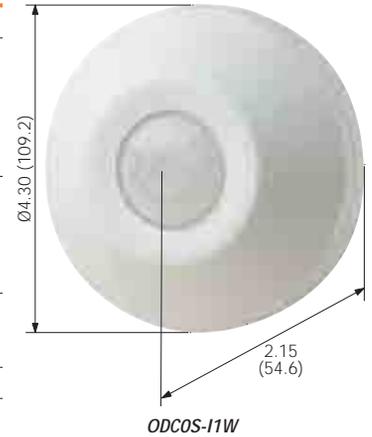

Ceiling-Mount Occupancy Sensor Lighting Controls

PIR Occupancy Sensor with built-in relay—Separate Power Pack not required

Self-Contained Infrared Ceiling-Mount Occupancy Sensor

DESCRIPTION	CAT. NO.	RATING	COVERAGE	COLOR
Self-Contained Ceiling-Mount Infrared Occupancy Sensor and Switching Relay	ODCOS-11W	Incandescent: 1000W @ 120V. Fluorescent: 1000VA @ 120V. 1 HP @ 120V For 60Hz AC only	360°, 530 sq. ft	White
Self-Contained Ceiling-Mount Infrared Occupancy Sensor and Switching Relay	ODCOS-12W	Incandescent: 1000W @ 220V. Fluorescent: 500VA @ 220V. For 50Hz AC only	360°, 530 sq. ft	White
Self-Contained Ceiling-Mount Infrared Occupancy Sensor and Switching Relay	ODCOS-17W	Fluorescent: 2700VA @ 277V. For 60Hz AC only	360°, 530 sq. ft	White
Protective Cage	ODCCG	—	—	White

SPECIFICATIONS AND FEATURES

- Ideal for use in storage areas, small bathrooms, copy rooms and a variety of small spaces without wall switches
- Full 360° view of a 530 sq. ft. area when surface mounted on standard, 8-foot ceiling
- Sensor and switching relay combined in a single self-contained unit—No control unit required
- Ambient light override option prevents lights from turning ON when there is ample natural light
- Adjustable Delayed-OFF time settings from 20 seconds (for test mode) to 15 minutes
- Small, unobtrusive self-contained unit: 4.3" (109.2 mm) diameter

TESTING & CODE COMPLIANCE

- UL Listed and CSA Certified
- California Title 24 compliant and meets ASHRAE Standard 90.1 requirements
- Backed by a Limited Five-Year Warranty

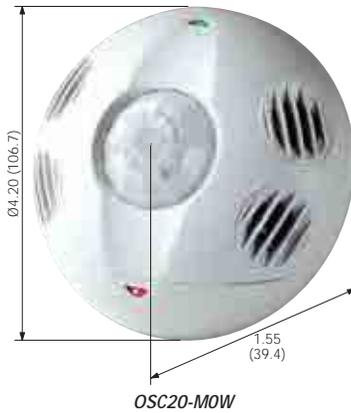

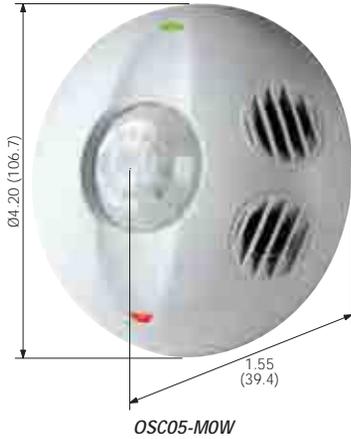

OCCUPANCY SENSOR LIGHTING CONTROLS • CEILING MOUNT

Commercial Grade Energy Management Products

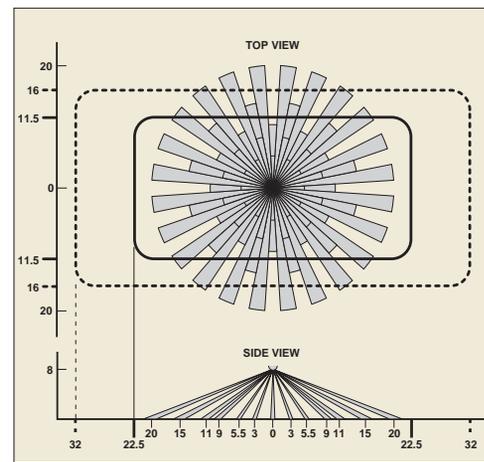

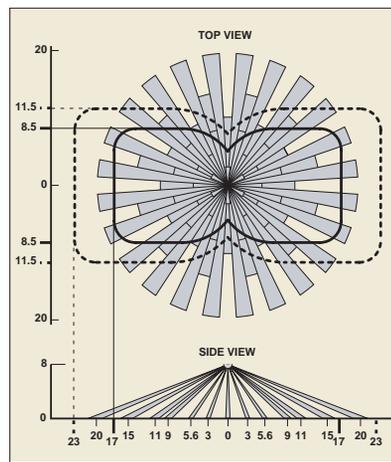

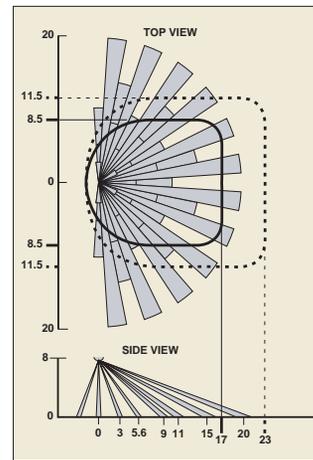

Ceiling-Mount Occupancy Sensor Lighting Controls

Multi-Technology Ceiling-Mount Occupancy Sensor (UL, CE) (For use with Leviton Power Pack)*
 Advanced motion sensors combine infrared and ultrasonic technology for highly accurate monitoring without false triggering. All-digital self-adjusting technology provides "Install and Forget" solution for automatic lighting control.

DESCRIPTION	CAT. NO.	COVERAGE	OPERATING FREQUENCY	COLOR
Multi-Tech Ceiling-Mount Occupancy Sensor	OSC05-MOW	180°, 500 sq. ft	40kHz	White
Multi-Tech Ceiling-Mount Occupancy Sensor	OSC10-MOW	360°, 1000 sq. ft	40kHz	White
Multi-Tech Ceiling-Mount Occupancy Sensor	OSC20-MOW	360°, 2000 sq. ft	32kHz	White
Protective Cage for Ceiling-Mount Occupancy Sensors	ODCCG-000	—	—	White

*Low-voltage wiring is used to connect Leviton Occupancy Sensors to Cat. No. OSP20 Power Pack or a Centura CN100 Power Pack (purchased separately). See page D15 for information on OSP20.

SPECIFICATIONS AND FEATURES

- Ideal for office areas with cubicles, general work space, classrooms, cafeterias and public areas in commercial facilities
- Ultrasonic sensing for maximum sensitivity combined with Passive Infrared (PIR) sensing to prevent false triggering from air conditioning and corridor activity
- Self-adjusting settings continuously analyze and adjust for optimum performance
- Ambient light override prevents lights from turning ON when there is ample natural light
- Manual Delayed-OFF time settings of 30 seconds to 30 minutes
- Self-Adjusting Delayed-OFF time interval settings for 30 seconds to 30 minutes — Compensates for real-time occupancy patterns, preventing unnecessary ON/OFF switching

- Non-volatile memory preserves all automatic and manual settings during power outages
- Choice of coverage patterns to suit a variety of applications
- Small, unobtrusive size blends in with any décor
- Fast, simple installation using 4 color-coded low-voltage wires and a single mounting post
- Compatible with Wiremold® surface raceways for mounting to hard ceilings

TESTING AND CODE COMPLIANCE

- CUL/US, FCC and NOM Certified
- California Title 24 compliant and meets ASHRAE Standard 90.1 requirements
- Backed by a Limited Five-Year Warranty

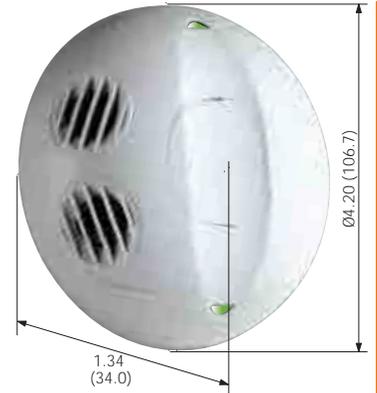

Ceiling-Mount Occupancy Sensor Lighting Controls

Ultrasonic Ceiling-Mount Occupancy Sensor (UL) (For use with Leviton Power Pack)*

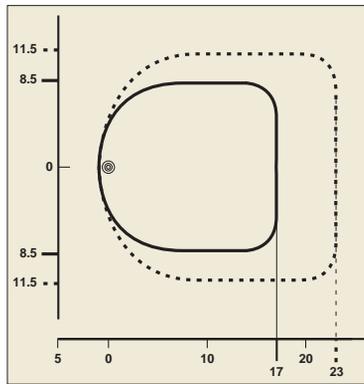

Advanced Ultrasonic sensing technology for highly accurate monitoring with excellent immunity to air currents and other interference. All-digital self-adjusting technology provides "Install and Forget" solution for automatic lighting control.

DESCRIPTION	CAT. NO.	COVERAGE	OPERATING FREQUENCY	COLOR
Ultrasonic Ceiling-Mount Occupancy Sensor	OSC05-UOW	180°, 500 sq. ft	40kHz	White
Ultrasonic Ceiling-Mount Occupancy Sensor	OSC10-UOW	360°, 1000 sq. ft	40kHz	White
Ultrasonic Ceiling-Mount Occupancy Sensor	OSC20-UOW	360°, 2000 sq. ft	32kHz	White
Protective Cage for Ceiling-Mount Occupancy Sensors	ODCCG-000	—	—	White

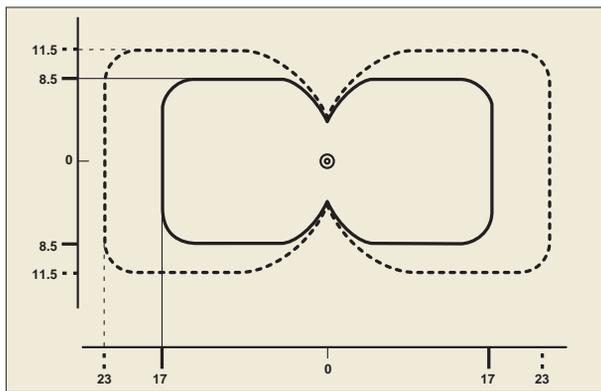

*Low-voltage wiring is used to connect Leviton Occupancy Sensors to Cat. No. OSP20 Power Pack or a Centura CN100 Power Pack (purchased separately). See page D15 for information on OSP20.

OCCUPANCY SENSOR POWER PACKS

Commercial Grade Energy Management Products

Occupancy Sensor Power Packs

Power packs provide power for occupancy sensors as well as load switching circuitry. A Leviton Power Pack is required with any low voltage occupancy sensor. Add-A-Relay units can be used to expand control capability.

Power Packs and Accessories (For use with Leviton Occupancy Sensors on pages D10-D14)

DESCRIPTION	CAT. NO.	POWER INPUT	RELAY RATING	CONTROL INPUT	POWER SUPPLY OUTPUT
Power Pack	OSP20-0D0	120/220/ 277VAC, 60Hz	20A fluorescent/ incandescent @ 120V, 20A fluor. @ 277V; 1HP @120V, 2HP @ 240V	5mA, 24VDC	150mA, 24VDC
Power Pack with HVAC relay	OSP20-RD0	120/220/ 277VAC, 60Hz	20A fluorescent/ incandescent @ 120V, 20A fluor. @ 277V; 1HP @ 120V, 2HP @ 240V; HVAC: 0.5A @ 125VAC, 1A @ 30VDC	5mA, 24VDC	150mA, 24VDC
Power Pack with HVAC relay	OSP15-R30	347VAC, 60Hz	15A fluorescent @ 347V; 1HP @ 120V, 2HP @ 240V; HVAC: 0.5A @ 125VAC, 1A @ 30VDC	5mA, 24VDC	120mA, 24VDC
Add-A-Relay Unit with HVAC relay	OSA20-R00	—	15A incandescent @120V, 20A fluorescent @120V, 20A fluor. @ 277V, 15A fluor. @ 347V; HVAC: 0.5A @ 125VAC, 1A @ 30VDC	5mA, 24VDC	—
Low-Voltage Nipple Adapter with 1/2" Lock Nut for Power Pack and Add-A-Relay units	OSPNA-000	—	—	—	—

Power Pack Capacity Formula

Leviton power packs can be used to provide power to one or more occupancy sensors. Since current consumptions of occupancy sensors may vary, the best way to ensure you order the correct number of power packs and Add-A-Relays is by using this formula:

$$\left(\begin{array}{c} \text{Number of} \\ \text{Model A sensors} \\ \times \\ \text{Sensor A current} \\ \text{consumption rating} \end{array} \right) + \left(\begin{array}{c} \text{Number of} \\ \text{Model B sensors} \\ \times \\ \text{Sensor B current} \\ \text{consumption rating...} \end{array} \right) + \left(\begin{array}{c} \text{Number of} \\ \text{Add-A-Relays} \\ \times \\ 50\text{mA} \end{array} \right) \leq 150\text{mA per power pack}$$

SENSOR	CURRENT CONSUMPTION
OSC04-I, OSC15-I, OSWHB-I, OSWLR-I, OSWWV-I	20mA
OSC05-M, OSC05-U, OSW12-M	30mA
OSC20-M, OSC20-U	32mA
OSC10-M, OSC10-U	40mA
OSA20-R00 Add-A-Relay	50mA

SPECIFICATIONS AND FEATURES

Power Pack

- For use with all OS Series occupancy sensors
- Power supply for OS Series occupancy sensors
- Switches incandescent, magnetic and electronic fluorescent, magnetic and electronic low voltage, and motor loads
- Compact size and light weight allows easy mounting through knockout in junction box (from either inside or outside the box) with a simple twist-on nut

Add-A-Relay

- Expands power pack load capacity by functioning as a supplementary relay
- Provides ability to switch loads in different voltage systems

- Compatible with electronic ballasts
- Same compact size and mounting features as Power Pack

Nipple Adapter

- Simplifies the connection of occupancy sensor to the low-voltage side of a power pack mounted inside a fluorescent ballast cavity
- 1/2" conduit lock nut included

TESTING AND CODE COMPLIANCE

- cULus, FCC and NOM Certified
- Meets ASHRAE Standard 90.1 requirements
- Backed by a Limited Five-Year Warranty

SPECIFICATIONS AND FEATURES

Professional Series

- Ideal for a wide range of commercial/industrial settings including parking areas, storage facilities, warehouses, loading docks, marina, garages, walkways, campus grounds, meat lockers, walk-in refrigerators/freezers and outbuildings
- Adjustable Delayed-OFF time settings from 20 seconds (for test mode) to 15 minutes
- Adjustable sensitivity and immunity to RFI signals reduces false triggers
- Ambient light override prevents lights from turning ON when there is ample natural light
- Provides Automatic, Test and Continuous Modes—Test mode simulates automatic operation with short delayed-OFF time for ease of making adjustments. Continuous mode enables manual override for

constant "lights ON" operation (when used with standard ON/OFF switch)

- Surge suppression minimizes likelihood of damage due to electrical surges
- Temperature compensation feature ensures uniform performance in extreme hot or cold weather and during temperature fluctuations
- Sensor neck adjustment allows accurate area monitoring: 110° vertical, 180° horizontal, 110° rotational

Residential Series

- Ideal for a wide range of residential settings including backyards, garages, entranceways, porches, swimming pool areas, doorways and private docks
- Sensor neck adjustment allows accurate area monitoring: 110° vertical, 180° horizontal, 110° rotational
- Adjustable Delayed-OFF time settings from 20 seconds (for test mode) to 15 minutes

- Adjustable sensitivity reduces false triggers
- Provides Automatic, Test and Continuous Modes—Test mode simulates automatic operation with short Delayed-OFF time for ease of making adjustments. Continuous mode enables manual override for constant "lights ON" operation (when used with standard ON/OFF switch)

FLUORESCENT ENERGY MANAGEMENT SYSTEMS

Commercial Grade Energy Management Products

Centura® Fluorescent Energy Management System

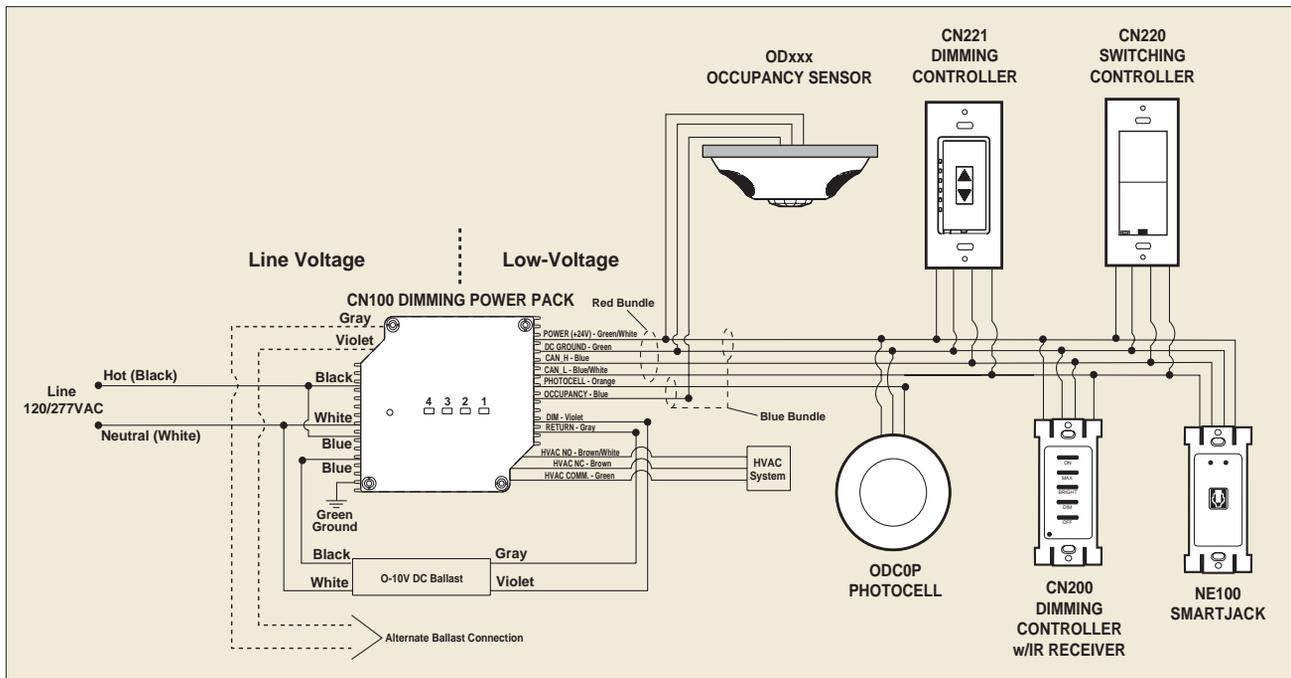

Centura combines the technology of “daylight harvesting” with a host of innovative energy-efficient modular lighting controls, including dimmers, timers, occupancy sensors and photo-sensors that dim or turn off fluorescent lighting when a space is not being used. Centura incorporates the ability to interface with Leviton occupancy sensors to provide even greater energy savings. When single or multiple occupancy sensors are installed, programmed interior lighting is automatically turned OFF when the room is vacant and back ON to the programmed level when occupancy is detected. The use of movement sensors means energy savings up to a proven 50%.

Leviton Occupancy Sensors Compatible with Centura System

DESCRIPTION	CAT. NO.	COVERAGE	PAGE NO.
Multi-tech Ceiling Sensor	OSC05-M0W	180°, 500 sq. ft.	D10

Energy Management Products

Centura® Fluorescent Energy Management System

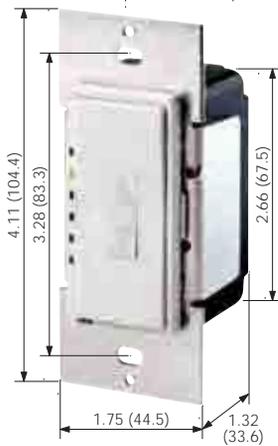

Leviton's Centura, a modular lighting control system for dimming fluorescent ballasts (Advance Mark 7™, OSRAM Sylvania Quicktronic® Helios™ and Energy Savings SuperDim™), brings increased energy savings to commercial spaces. Using a technique known as "daylight harvesting," Centura factors in the available daylight for the precise control of fluorescent light levels to achieve optimum comfort and energy efficiency.

Centura Fluorescent Energy Management System

DESCRIPTION	CAT. NO.	RATING	COLOR
Centura Dimming Power Pack—ON/OFF and DIM/BRIGHT control of 0-10VDC dimming fluorescent ballasts. Responds to Wall Controller, Occupancy Sensor and Photocell input and provides +24 VDC power supply for these devices. Programmed via Wall Controller or via Leviton Personal Dimmer software from a PC. Secondary relay sends control signals to HVAC system. LEDs indicate operation mode	CN100-0D0	2400VA @ 120V AC 60Hz, 5500VA @ 277V AC 60Hz. For use with Advance Mark 7™ 0-10VDC, OSRAM Sylvania Quicktronic® Helios™, Energy Savings SuperDim™ and comparable ballasts only	Gray Metallic
Centura Dimming Controller with Infrared Receiver—Decora-style 5-button unit for ON/OFF, DIM/BRIGHT and MAX override. Built-in IR receiver for use with Centura NE200-00E Hand-Held Remote. Programs energy management functions	CN200-00C	No load rating, for use with Centura Dimming Power Pack only	White (Ivory color change kit included)
Centura Hand-Held Remote Controller Infrared—Remote provides convenient ON/OFF, DIM/BRIGHT control presets and programming. Designed for use with Centura CN200	NE200-00E	No load rating, for use with Centura CN200 Controller only	Black
Centura Switching Controller—Decora-style rocker for ON/OFF switching	CN220-00C	No load rating	White (Ivory color change kit included)
Centura Dimming Controller—Decora-style rocker for ON/OFF switching with built-in arrow-shaped rocker for DIM/BRIGHT control. LED display indicates selected brightness level. Programs energy management functions—back of wallplate provides instruction label that lines up with LEDs to facilitate programming	CN221-00C	No load rating, for use with Centura Dimming Power Pack only	White (Ivory color change kit included)
Centura Photocell—Detects available light levels for "Daylight Harvesting." Allows Centura system to maintain a programmed light level by constantly adjusting fluorescent light output to compensate for changes in available daylight	ODCOP	No load rating, for use with Centura Dimming Power Pack only. 0-70 foot candles	White
Centura Lcnet SmartJack—Includes a cable for connecting the SmartJack to a PC and a mini-CD containing server, administrator and user software. For the latest software upgrades, check Leviton's website at leviton.com/centura	NE100-00C	No load rating, for use with Centura Power Pack	White (Ivory color change kits included)

For more information on Commercial Fluorescent Energy Management Systems, visit Leviton's website at www.leviton.com

SPECIFICATIONS AND FEATURES

- Ideal for commercial spaces and individual offices
- Reduces eyestrain and fatigue from glare, increasing comfort and productivity
- All functions conveniently accessed through Controllers or via Leviton Personal Dimmer software from a PC
- Dimming Power Pack provides low-voltage power supply for Controllers, Photocell and Occupancy Sensors
- Photocell provides energy savings through Daylight Harvesting technology
- Use with Leviton Occupancy Sensors for increased energy savings: Lights turn ON automatically to programmed levels when personnel enter area; OFF automatically when area becomes vacant

- Modular system design expands energy saving options with an interface for building emergency systems, load shedding programs and time clock systems
- Dimming Power Pack mounts in standard 4" square back box. Dimming and Switching Controllers mount in standard single-gang switch box

TESTING AND CODE COMPLIANCE

- Agency approvals for all Centura components are UL, CSA, NOM, FCC, and California Title 24 (where applicable) except for the hand-held remote controller
- Meets ASHRAE Standard 90.1 requirements
- Backed by a Limited Two-Year Warranty (except photocell: Backed by a Limited Five-Year Warranty)

Decora Plus Electronic Timer Switches

Leviton Timers add contemporary styling to any commercial or residential application. Built to the highest performance standards, Decora Electronic Timers provide long-lasting trouble-free service life.

Four Preset buttons plus an OFF button permit timed control of lights and appliances. Decora Plus Timers are ideal for heat lamps, foyer and outdoor lights, hot tubs, spas, attic and exhaust fans. LEDs indicate elapsed time and flash “Two Minutes Until OFF” warning.

Decora Style Rotary-Dial Variable Countdown Timer Switch—600W Incandescent, 20A Inductive Motor: 1 HP @ 120V AC 60Hz Neutral Connection Required	6652	1 minute to 18 hours	I, W, A

SPECIFICATIONS AND FEATURES

24-Hour Programmable Timer

- Ideal for a wide variety of commercial and residential applications including outdoor lighting, pools, motors, sprinklers, exhaust and attic fans, bathroom heat lamps, hot tubs and spas, whole-house exhaust fan scheduling, office lights, janitor closets, landscape and security lighting
- Permits separate ON or OFF scheduling for half-hour periods of the day; ON/OFF manual control available by using button below display panel
- Decora styling enhances any interior (NOTE: 6124H cannot be used with Decora Plus Screwless Snap-On Wallplates)

14-Hour Programmable Timer

- Ideal for residential incandescent lighting control including indoor, outdoor and seasonal lighting
- “Set-it-and-forget convenience” provides automatic daily control with manual override
- Automates daily switching program (up to 14 hours) by responding to DIP switch ON or OFF position for each hour; repeats until function switch is moved to Manual or OFF mode

Countdown Timer Switch

- For residential and light commercial applications including indoor and outdoor lighting, office lights and ceiling paddle fans
- Simple rotary-dial time selection of settings from 1 minute to 18 hours: ON/OFF manual control available
- An illuminated LED indicates load is ON. Blinking LED accompanied by annunciator sound indicates end of time cycle

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-66800)

Z-MAX Relay Overview

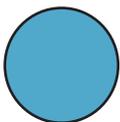

Z-MAX Lighting Control Relay Systems

The Leviton Z-MAX™ line of timed lighting controls and relays provides advanced scheduling of lighting and other loads in applications where a time clock is typically used in conjunction with switching contactors. All Z-MAX models feature easy-to-use menu-driven programming and configuration, a programmable time clock and output relays in a compact cabinet, and several optional accessories for remote control. Z-MAX relay panels are ideal for cafeterias, auditoriums, offices, parking facilities, gymnasiums, pools, educational facilities, and landscape and security lighting. A number of wall stations, flush trim kits and other accessories are available.

- In four versions: 8-relay non-networked and 8-relay, 24-relay, 48-relay networked
- Single-circuit relay cards simplify maintenance and expansion
- Integrated astronomical time clock
- Individually replaceable relays rated for all light sources as well as motors
- Single-pole and two-pole relays fit in the same location
- Normal or emergency panel capability
- Compatible with occupancy sensors, photocells, digital and low-voltage wall stations and more

Available Color

Blue

TIMED LIGHTING CONTROL PANELS

Commercial Grade Energy Management & Dimming Products

Z-MAX™ Relay Cabinets

Z-MAX Relay Cabinets provide complex scheduling of lighting and other loads in commercial and residential applications where a time clock would typically be used in conjunction with switching contactors. Z-MAX relay cabinets are ideal for cafeterias, auditoriums, offices, parking facilities, gymnasiums, pools, educational facilities, and landscape and security lighting. Unique to Z-MAX is the standard relay card's proprietary circuitry that eliminates arc shower pitting at the contacts for extended relay life. The stand-alone cabinets presented here are best suited to advanced scheduling of a single area (networked 8-relay cabinets are also available). The Z-MAX line features a wide range of accessories, including digital and low-voltage switch stations.

8-Relay Stand-Alone Z-MAX Cabinets

With 8 switch inputs and 20A output relays

DESCRIPTION	CAT. NO.	INPUT POWER	COLOR
Standard 8-Relay Cabinet (no relays)	R08BD-000	120, 277, 347V	Blue
8-Relay Cabinet with 4 Standard Relays	R08BD-104	120, 277, 347V	Blue
8-Relay Cabinet with 8 Standard Relays	R08BD-108	120, 277, 347V	Blue
8-Relay Cabinet with 4 2-Pole Relays	R08BD-204	120, 277, 347V	Blue
8-Relay Cabinet with 8 2-Pole Relays	R08BD-208	120, 277, 347V	Blue
8-Relay Cabinet with 4 347V Relays	R08BD-C04	120, 277, 347V	Blue
8-Relay Cabinet with 8 347V Relays	R08BD-C08	120, 277, 347V	Blue

For network versions replace B in middle of catalog number with N for network. 24-relay and 48-relay cabinets with 12 switch inputs (in master and slave versions) are also available. For digital and low-voltage switch stations, see page D26.

Z-MAX Relay Cards

For incandescent, electronic fluorescent, magnetic fluorescent, electronic low voltage, neon cold cathode, high intensity discharge and motor loads

DESCRIPTION	CAT. NO.	INPUT POWER
Standard 20A Single-Pole Relay Card*	RELAY-STD	120-277V
2-Pole 20A Relay Card	RELAY-2PL	240/480V
347V Single-Pole 20A Relay Card	RELAY-347	120-347V
Normally Closed Relay Card	RELAY-NCL	120-347V

*NOTE: Relay cabinets ship with RELAY-STD modules unless otherwise specified.

For the complete line of Z-MAX components, visit Leviton's website at www.leviton.com.

SPECIFICATIONS AND FEATURES

- Easy-to-program keypad control module with LCD screen and straightforward menus—in plain English (not code)
- Internal time clock with astronomical clock, daylight savings time, and holiday scheduling features
- Generous wiring space and easy-to-wire terminals
- Switch inputs with override capability for each relay
- Hinged, removable door with keyed lock
- Works with analog controllers, low voltage switches, discrete and analog photocells, and occupancy sensors
- Accessories include: Z-MAX Switch Stations, telephone and modem interface modules, additional

switch input board, Ethernet module, photocell, flush trim kits, voltage barriers, and PC-based programming software

- Enclosure Dimensions: 13.00 (330.2) x 13.00 (330.2) x 4.34 (110.6)

TESTING AND CODE COMPLIANCE

- UL Listed (for individual load types) and CUL Listed under both Industrial Control Equipment and Energy Management Equipment
- California Title 24 compliant and meets ASHRAE Standard 90.1 requirements
- NOM certified
- Limited Two-Year Warranty on cabinets

Z-MAX Relay Product Listing

Z-MAX Relay Cabinets with Integrated Electrical Distribution

Z-MAX Relay Panels with an integrated electrical distribution system offer the convenience of a single feed with the flexibility of our popular Z-MAX relay system. Each includes all the award winning features of the Z-MAX product line, integrated with a standard system of electrical distribution and over current protection. These integrated systems use commonly available Cutler Hammer breakers.

SPECIFICATIONS AND FEATURES

- Single or Three Phase configurations
- 120V, 277V or 347V systems
- Main lugs or main breaker
- Custom load center configuration
- Field replaceable standard breakers
- All standard Z-MAX operational features
- Uses Cutler-Hammer CH, GHQ and GBH frame snap-in breakers, locked in place by the enclosure
- Ships as one complete pre-wired assembly

- Up to 100,000A AIC, short Circuit Current Rating, available on all panelboards (Consult factory for details)
- 277/480V panelboards, main lugs, 65k AIC @ 120/208V, 14k AIC @ 277/480V standard
- 277/480V panelboard, main breaker, 35k AIC standard
- 120/208V or 120/240V panelboards, main lugs, 10k AIC standard
- 120/208V or 120/240V panelboards, main breaker, 25k AIC standard depending on main breaker

- 347/600V panelboards, main lugs, 10k AIC standard
- 347/600V panelboards, main breaker, 19k AIC standard

RRP—Remote 4-Relay Panel (Controlled by Z-MAX Master Cabinet)

The RRP (Remote Relay Panel) provides distributed switching of up to four 20 amp lighting circuits, enabling multiple units to be networked and controlled from a Z-MAX Master Relay Panel. With photocell, occupancy sensor and local switch inputs, the RRP is an ideal solution for applications such as school classrooms where daylight harvesting, occupancy sensor control, local switching and central control scheduling are desired. Revolutionary Z-MAX switching circuit with 10,000,000 cycle life employed in the 120-277V standard relay model.

RRP—Remote 4-Relay Panel

DESCRIPTION	CAT. NO.	RATING
Remote Relay Panel with 4, Single Pole 20 Amp Relays for use with Z-MAX. 120/277V	RE4SD-104	20A per relay
Remote Relay Panel with 4, Double Pole 20 Amp Relays for use with Z-MAX. 120/277V	RE4SD-204	20A per relay
Remote Relay Panel with 4, Single Pole 20 Amp Relays for use with Z-MAX. 347V	RE4SD-304	20A per relay

Dimensions: 10.0 (254.0) H x 10.0 (254.0) W x 4.0 (101.6) D

RRP – Remote 4-Relay Panel

For more information on Z-MAX Remote Relay Panels and Accessories, refer to Z-MAX data sheets.

SPECIFICATIONS AND FEATURES

- Network ready for up to 96 total relays
- USB port for software updates and network configuration
- 120/277V dual voltage standard
- 347V available
- Removable interior allows rough-in without risk of damage to components
- Rated for 100% load capacity
- Handles in-rush currents in excess of 50 times load current
- Low-voltage switch inputs support Leviton low voltage switches and GE-style, ON/OFF switches with optional LED output

ACCESSORIES

- Low-voltage switch adapter (reduces required wire count of GE style switch by 1)
- 1-10 Button low voltage switches
- Indoor and outdoor 0-10V photocells
- Atrium and skylight 0-10V photocells

EZ-MAX Relay Product Listing

EZ-MAX Relay Cabinets

EZ-MAX relay lighting control panels combine the power and performance of the larger Z-MAX relay cabinets in a cost-effective four-circuit package that's housed in a compact 10" X 10" standard electrical enclosure. It is the ideal contractor friendly, quick-to-install solution for smaller, stand-alone applications that do not require the field configuration or advanced networking features of the larger Z-MAX cabinets. It serves as a smart replacement for time clock/contactor installations for any application requiring reliable and cost-effective automatic lighting control.

EZ-MAX Relay Cabinet

EZ-MAX Relay Cabinets

DESCRIPTION	CAT. NO.	RATING
EZ-MAX with 4 120-277V relays	RE4BD-104	20A per relay

- Limited Two-Year Warranty

miniZ™ Product Listing

miniZ™ Intelligent Daylight Management System

miniZ combines occupancy sensing, daylight harvesting and flexible lighting control functions into a single, easily installed package. miniZ features several methods of ladderless commissioning, including the AutoCal™ feature, the world's first 100% self-configuring daylight harvesting system. Installation requires little more than any other power-pack type product. The performance features and capabilities of the miniZ product provide a package that surpasses all others in the industry at a price anyone can afford.

miniZ™ Intelligent Daylight Management System

20A output relays (120/277V); 15A output relays (347V); Fluorescent, non-dimmed and 1-10V dimmed (0,2 or 3 zones); 120mA/24V output for operation of occupancy sensors, etc.

Dual Room miniZ™ Intelligent Daylight Management System

The dual room miniZ offers the same performance features as the miniZ, but instead of working in one room using one photocell to control three zones, it provides dual room/ one zone per room daylight harvest-ing control using a separate photocell and occupancy sensor for each room.

miniZ/ Dual Room miniZ

SPECIFICATIONS AND FEATURES

- Automatic Correction setting for Light Loss Factor (LLF) recognizes and corrects for lumen maintenance issues
- Cost-effective energy code compliance
- Ladderless Commissioning™ provides install-and-forget convenience
- Automatic closed-loop, multi-zone daylight control
- Convenient occupancy sensor and photocell integration
- Simplified daylight harvesting with 3% to 100% dimming capabilities (0-10V fluorescent dimming ballasts required)
- Autocal™ (patent pending) automatic photocell calibration
- Accepts external time clock inputs

- Simplified integration with emergency and building automation systems
- Automatic Daylight Harvest Mode provides optimum lighting output for additional energy savings potential
- Daylight switching full range 0-10V dimming and network models available
- Cost effective energy code compliance
- Accepts external time clock inputs
- Closed loop or open loop daylight control
- Isolated contacts for HVAC relay
- miniZ works in one room using one photocell and occupancy sensor to control three zones
- Dual Room miniZ controls one zone per room using a separate photocell and occupancy sensor for each room

NETWORK FEATURES

- Luma-CAN® Network support
- Network digital switch support
- Z-MAX master/slave network participation
- Remote shared network inputs
- Scalable system expansion

TESTING AND CODE COMPLIANCE

- UL and cUL Listed
- CEC Title-24 Listed
- Limited Two-Year Warranty

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

SPECIFICATIONS AND FEATURES

Back & Side Wired Duplex

- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely fasten face
- Single-piece brass mounting strap on LEVSPEC® devices, multi-piece steel strap on other devices
- Large, impervious, brass "T" contacts for superior contact and conductivity
- Back-and-side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Agion barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back-wiring for superior contact and conductivity

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399); (UL Federal) Specification WC-590

- Meets NEMA WD 1-3, 6, and ANSI standards
- Backed by a Limited 10-Year Warranty
- SPECCLASS** devices backed by a Limited 2-Year Warranty

COLOR

Basic Cat. Nos. shown above denote Brass device, except for Isolated Ground (-IG) devices. Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Brown (-B) for IG devices only, add (-B), Almond (-A), Light Almond (-T), Gray (-G or -GY), Black (-E), Red (-R) and Blue (-BU) for IG devices only, add (-BIG)

MATERIAL CHARACTERISTICS

Environmental: Flammability, Rated V2; Operating Temperature: From -40° C (without impact) to 60°C maximum continuous

DECORA® PLUS SCREWLESS SNAP-ON WALLPLATES

Residential and Commercial Grade Wallplates

Decora Plus Screwless Snap-On Wallplates

- Sleek, smooth contemporary architectural styling enhances fine décor
- Exclusive new design eliminates subplate screws
- "Hook and Snap" subplate and wallplate mounting provides easy, time saving installation
- Decora-compatible two-piece kit allows easy retrofit to any Decora installation
- Tough, unbreakable polycarbonate construction
- Now available in standard and midway sizes that can be mounted onto larger-volume wallboxes and/or used to hide wall irregularities.

Residential and Commercial Grade Decora Wallplates

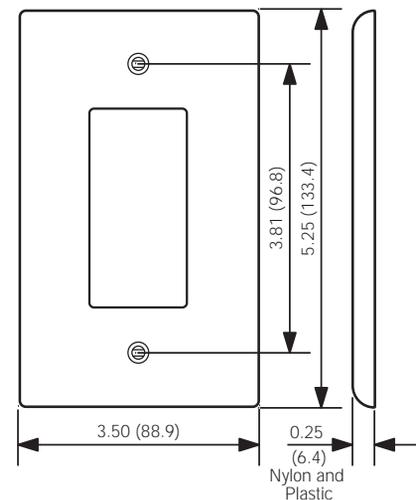

Standard Size Single-Gang

Midway Size Single-Gang

Midway wallplates can be mounted onto larger-volume outlet boxes and/or used to hide wall irregularities. Midway wallplates are a full 0.375" higher and wider than standard size wallplates.

Oversized Single-Gang

Oversized wallplates are used to conceal greater wall irregularities than those hidden by Midway wallplates. Oversized wallplates are a full 0.75" higher and wider than standard size wallplates.

NOTE: Add 1.81" (46.0mm) for each additional gang.

All Decora Wallplates

- Accent any wall covering with a wide selection of colors and finishes
- Smooth face and rounded edges resist dust accumulation
- Individual plastic wrapping to protect wallplate's surface
- Color-matched metal mounting screws supplied

Residential Grade Thermoset Wallplates

- Photoelectrically color-matched to Leviton Decora devices
- Designed for high dielectric strength and arc resistance
- Meet or surpass UL 514 testing requirements
- Resistant to fading, discoloration, grease, oils, organic solvents and moisture scratches
- Backed by a Limited Two-Year Warranty

Commercial Grade Thermoplastic Wallplates

- Molded thermoplastic for maximum resistance to impact, abrasion, fading and discoloration
- Resistant to mechanical stress associated with high abuse applications
- Backed by a Limited Ten-Year Warranty

Commercial Grade Metal Wallplates

- Rounded edges to prevent injury and wall damage
- Deluxe stainless steel is non-magnetic Type 302, .032" thick
- Standard magnetic stainless steel Type 430, .032" thick, also available
- Brass is 70/30 alloy 260, .040" thick
- Aluminum is 3004 alloy, .040" thick
- Backed by a Limited Ten-Year Warranty

TESTING AND CODE COMPLIANCE

- Thermoplastic and Thermoset: UL Listed (File #E-13397)
- Metal: UL Listed (File #E-16347)

LARGER SIZE WALLPLATES

Residential and Commercial Grade Wallplates

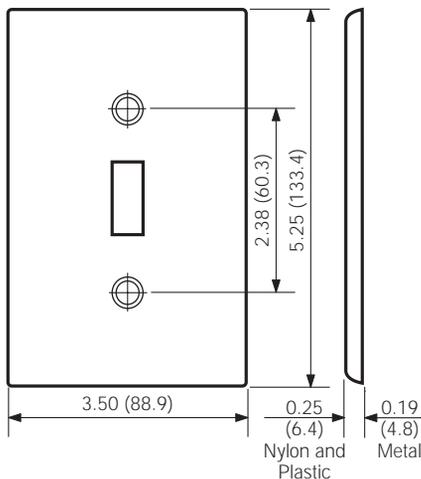

Standard Size Single-Gang

Midway Size Single-Gang

Midway wallplates can be mounted onto larger-volume outlet boxes and/or used to hide wall irregularities. Midway wallplates are a full 0.375" higher and wider than standard size wallplates.

Oversized Single-Gang

Oversized wallplates are used to conceal greater wall irregularities than those hidden by Midway wallplates. Oversized wallplates are a full 0.75" higher and wider than standard size wallplates.

NOTE: Add 1.81" (46.0mm) for each additional gang.

A COMPLETE SELECTION OF WALLPLATES FOR INDUSTRIAL, COMMERCIAL AND RESIDENTIAL APPLICATIONS

Features and Benefits of All Leviton Wallplates

- Easy to Clean, smooth finish
- Noncombustible
- Individual plastic wrapping to protect wallplate surface
- Color-matched metal mounting screws supplied in an envelope to protect plate from scratches
- UL Listed and CSA Certified
- Conform to NEMA and ANSI Standards

Residential Grade Thermoset (Plastic) Wallplates

- Photoelectrically color-matched to Leviton Decora devices
- Designed for high dielectric strength and arc resistance
- Meet or surpass UL 514 testing requirements
- Resistant to fading, discoloration, grease, oils, organic solvents and moisture scratches
- Backed by a Limited Two-Year Warranty

Commercial Grade Thermoplastic (Nylon) Wallplates

- Molded thermoplastic for maximum resistance to impact, abrasion, fading and discoloration
- Resistant to mechanical stress associated with high abuse applications
- Backed by a Limited Ten-Year Warranty

Commercial Grade Metal Wallplates

- Rounded edges to prevent injury and wall damage
- Deluxe stainless steel is non-magnetic Type 302, .032" thick
- Standard magnetic stainless steel Type 430, .032" thick, also available
- Brass is 70/30 alloy 260, .040" thick
- Aluminum is 3004 alloy, .040" thick
- Backed by a Limited Ten-Year Warranty

TESTING AND CODE COMPLIANCE

- UL Listed
- Meets NEMA Standards WD-1, WD-6
- CSA Certified

WEATHER-RESISTANT COVERS

Commercial Grade

Features and Benefits

Plastic

- Impact resistant thermoplastic construction
- Pre-installed gasket for easy, reliable installation
- Tongue and groove plate-to-cover construction
- Offset device opening (horizontal only) for easier cord exit
- Thermoplastic inserts prevent insect and debris accumulation

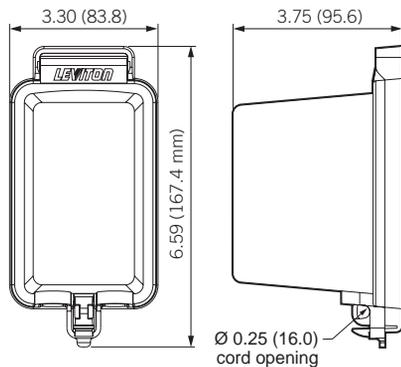

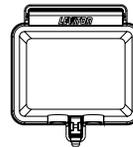

Plastic and Metal

- Self-closing
- Vertical and horizontal mounting
- Die cast aluminum or impact-resistant thermoplastic covers and bases
- Weather-resistant gaskets
- Stainless steel springs
- Gray or clear finish

SPECIFICATIONS & FEATURES

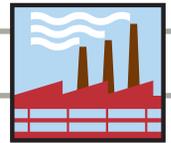

- Mounting Screws and rubber gasket included for fast, easy installation onto surface-mounted outdoor-type boxes or flush-mounted wall boxes
- Easy-grip self-closing covers with durable, non-corrosive stainless steel screws
- acked by a Limited Two-Year Warranty

TESTING AND CODE COMPLIANCE

- Full compliance with UL, CSA and NEC Section 410-57 requirements for damp and wet locations with cover closed
- Raintight while-in-use covers are NEMA 3R rated for use with unattended plugs engaged in "live" receptacles in wet or damp locations

*COLOR

Basic Cat. No. denotes Brown. For other color selections, add suffix to catalog numbers as follows: White (-W), Light Almond (-T), Gray (-GY).

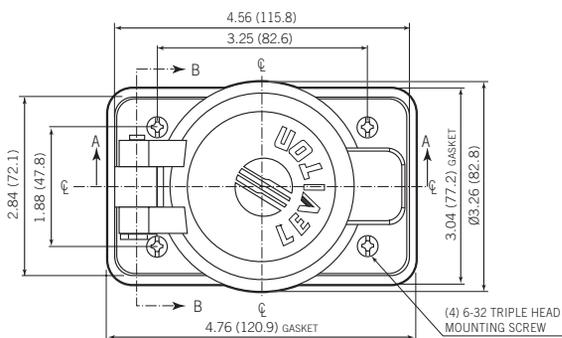

Features and Benefits

- Glass-filled thermoplastic cover and plate for outstanding impact resistance and durability
- UL 94-VO Flammability Rating
- Superior IP 54 Suitability rating protects against dust particles and splashing water
- NEMA Type 3R enclosure rating ensures protection against rain, sleet and damage from external ice formation
- Dual gaskets, one under plate and one under lid, for weather-resistant fit
- Stainless steel hinge-pin, spring and mounting screws for excellent corrosion resistance
- Triple-combination screws accept Phillips, straight-blade or Robertson-head screwdrivers
- Oversized cover tab for easier opening with gloved hands
- Mounts to panel or FS/FD boxes
- UL Listed and CSA certified for wet locations with cover closed

Special Wallplates

The Order Form and instructions requesting custom wallplate configurations are found on the following pages. Custom wallplates are available in a variety of metals and can be requested from Leviton through special order, beginning on the next page.

All devices are UL Listed and CSA Certified.

How to Order Custom Wallplates

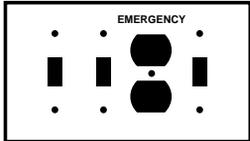

General Information

Custom wallplates, up to twelve gangs in size, made of brass, stainless steel, painted steel, aluminum or chrome, can be special ordered from Leviton. Any combination of the configurations shown can be specified to meet your needs. In addition, standard and custom metal wallplates can be engraved, and standard nylon wallplates can be hot stamped, with the message of your choice. Follow the steps below to fill out the Custom Wallplate Order Form completely and accurately. The finished order form must include:

1. The wallplate catalog number
2. The type of wallplate material desired (from the Material Code Chart)
3. The quantity of wallplates desired
4. The wallplate configurations in proper order (from the Configuration Code Chart)
5. The wallplate color, selected from the Wallplate Color Code Chart
6. Engraved or hot stamped message, if desired, with message location and letter size
7. Engraved or hot stamped message filler color, selected from the Fill-In Color Chart

Photocopy the blank Custom Wallplate Order Form at the back of this section and refer to the completed sample Custom Wallplate Order Form shown when filling out your order. Your Leviton representative can provide you with additional forms if needed. The sample order grid below shows the custom wallplate pictured at right:

WALLPLATES

How to Order Custom Wallplates

How to Fill Out the Custom Wallplate Order Form

STEP 1: DETERMINE THE WALLPLATE CATALOG NUMBER

The catalog number for a custom wallplate is determined as follows: a single-gang custom wallplate is Cat. No. 90001, a double-gang custom wallplate is Cat.No. 90002, a three-gang custom wallplate is Cat. No. 90003, and so on through the sequence to Cat. No. 90010 for the ten-gang custom wallplate. Enter the number in the space on the Order Form marked "CAT. NO." If you are ordering a standard metal wallplate for custom engraving, use the 90000 series number. If you are ordering a standard nylon wallplate for custom hot stamping, enter that wallplate's catalog number in the space on the Order Form marked "CAT. NO."

STEP 2: SELECT THE WALLPLATE MATERIAL

Choose the custom wallplate material desired from the Wallplate Material Chart below. Enter the Material Code for the material selected in the space marked "MATERIAL CODE" on the Order Form. When ordering Custom Hot Stamped wallplates, enter NYLON.

MATERIAL	MATERIAL CODE
Aluminum [†]	AL
Brass (Satin) Polished Brass	BR PB
Non-Magnetic Stainless Steel-Type 302/304	S3
Oversize Non-Magnetic Stainless Steel-Type 302/304*	S30
Painted Steel	S5
Oversize Painted Steel*	S50
Chrome	CRM
Raw Steel	RAW

[†]6-Gang maximum size, standard size only
*4-Gang maximum size

STEP 3: DETERMINE THE QUANTITY OF THE WALLPLATE ORDER

Enter the quantity of wallplates needed in the space marked "QUANTITY" on the Order Form.

STEP 4: DETERMINE THE CUSTOM WALLPLATE CONFIGURATION

The Wallplate Configuration Chart below shows all the configurations that can be specified for Leviton custom metal wallplates. Each configuration has a specific Configuration Code number in the lower right-hand corner of its corresponding space on the chart. Enter this configuration code in the center of the corresponding square on the Order Form Grid to match its desired position on the finished custom wallplate. Refer to the Sample Order Form Grid for clarification on configurations and their placement, if necessary (page G43).

 Toggle Switch 01	 Duplex Receptacle 03	 Louvre Horizontal Mount 05	 Louvre Vertical Mount* 07	 Blank Box Mount 09	 Blank Strap Mount 11

Tamper-resistant screws and screwdriver included w/Key Lock configurations. Device mount unless specified otherwise. For 1-gang, order 84071-40.	
 49					

Enter the code number for the configurations you select in the center box on each desired wallplate position on the Custom Wallplate Order Form.

*3-Gang minimum
**2-Gang minimum

How to Fill Out the Custom Wallplate Order Form (continued)

STEP 5: SELECT THE WALLPLATE COLOR

For painted metal, select one of the following colors and enter its color code in the space marked "COLOR CODE" on the order form:

COLOR	WALLPLATE COLOR CODE
Almond	PA
Black	PE
Brown	PB
Gray	PG
Ivory	PI
Orange	PO
Red	PR
White	PW

STEP 6: ENTER ENGRAVING INFORMATION

NOTE: WE CAN ENGRAVE NYLON AND PAINTED AND UNPAINTED METAL WALLPLATES. After completing steps 1-5:

6A) Type or clearly print the message(s) (i.e., TURN OFF) as you wish it to appear on the lines provided in the appropriate Grid box(es). **6B)** Select the size of the letters you desire for the wallplate message from the dimensions shown below and enter that size in the space marked "LETTER SIZE" on the Order Form. **6C)** Select the fill-in color for the message letter from the chart below and enter the code for the color chosen in the space marked "FILLER CODE."

FILLER COLOR CODES for Engraved Wallplates

COLOR	CODE
Black	XE
White	XW
Red	XR
No Filler	XX

LETTER SIZE GAUGE for Engraved Wallplates

1/8"	3/16"	1/4"	5/16"	3/8"
E	E	E	E	E

STEP 7: ENTER HOT STAMPING INFORMATION

7A) Select the message(s) desired from the Message Library below. Enter the message on the lines provided in the appropriate Grid box(es) where they should appear. The message will be stamped in 3/16"-high text.

HOT STAMPING MESSAGE LIBRARY FOR CUSTOM NYLON WALLPLATES

1. SHOWER	7. HEAT	13. ON	19. ISOLATED	25. EQUIP

TERMS

- Please take care to complete your order carefully. Custom wallplates cannot be returned
- Custom orders are shipped in three to four weeks
- All engraving shall be centered within its corresponding gang unless specifically instructed to span across multiple gangs
- All engravings on toggle configurations shall appear above the mounting screw holes unless specifically instructed otherwise
- All engravings on GFCI/Decora configurations shall appear below the mounting screw hole unless specifically instructed otherwise

AC SWITCH FEATURES

Industrial Grade AC Switches

LEVITON OFFERS A FULL LINE OF 15, 20 AND 30 AMP AC SWITCHES, AVAILABLE IN INDUSTRIAL, COMMERCIAL AND RESIDENTIAL GRADE, WITH A WIDE VARIETY OF COLORS, WIRING OPTIONS AND OTHER FEATURES.

Leviton's AC switches are for control of resistive and inductive loads and motors. A full selection of ratings is available in Industrial Grade, Commercial Grade and Residential Grade.

The following pages provide a comprehensive overview of the complete Leviton AC Quiet Switch product line. Ordering information will help you select the switches best suited to meet your application requirements.

Leviton's Industrial Grade AC switches for heavy-duty applications represent top-of-the-line quality and peak performance. Leviton uses the finest materials available and the highest production standards to produce industrial switches of unmatched versatility and reliability.

Features and Benefits—**LEVSPEC** Industrial Grade Switches

- Top-of-the-line industrial-grade quality for peak performance and rugged, long-lasting service
- All screws are triple-drive and accept Standard, Phillips and Robertson screwdrivers
- External clamp-type wiring terminals provides secure connection of solid or stranded wire for back or side wiring
- Back or side-wired grounding terminal offers wiring flexibility
- Sturdy, long-lasting thermoplastic toggles provide smooth switching action and long life
- UL 20 Listed; meets latest Federal Specifications WS-896, CSA Specification C22.2.2 No. 11 Certified; NOM Certified; complies with NEMA and ANSI requirements
- Backed by a Limited 10-Year Warranty

Back and Side Wired
External clamp-type terminals for maximum wiring versatility. **1203-2I shown**

- SPECIFICATIONS AND FEATURES**
- Top-of-the-line industrial quality
 - Heavy gauge copper alloy one-piece arm for top performance
 - Large silver cadmium-oxide contacts for long life, prevent sticking, welding and excessive pitting
 - Color-coded covers: 15 Amp-blue; 20 Amp-red; 30 Amp-green
 - Fully enclosed switch mechanism in rugged housing for strength, tracking and arc resistance
 - Brass combination-head terminal screws on LEVSPEC devices, steel combination head terminal screws on other devices
 - Self-grounding clip on LEVSPEC devices (self-grounding when used with a grounded metal wallbox)
 - Wire lead switches for fast and easy installation

- TESTING AND CODE COMPLIANCE**
- Meets all NEMA WD 1 & 6, and ANSI requirements
 - Meets Federal Specification WS-896
 - UL Listed (File #E-7458)
 - CSA Certified (File #152105)
 - NOM Certified (#057)
 - Backed by a Limited 10-Year Warranty
 - SPECCASS devices backed by a Limited 2-Year Warranty

***COLOR**

Basic Cat. Nos. shown above denote Brown color. Other color available as listed, add suffix to catalog number as follows: Ivory (-I), White (-W), Gray (-GY or -G), Red (-R), Black/Ebony (-E), Almond (-A) and Light Almond (-T). For locking switch colors, use the following suffixes: Ivory (-2IL), White (-2WL), Gray (-2GL), Red (-2RL).

**** CANADIAN COLOR**

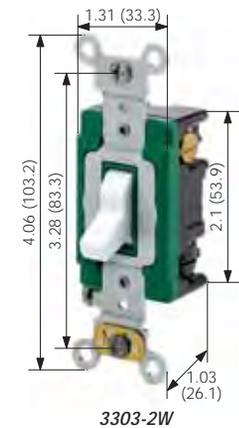

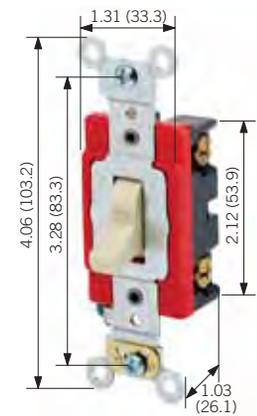

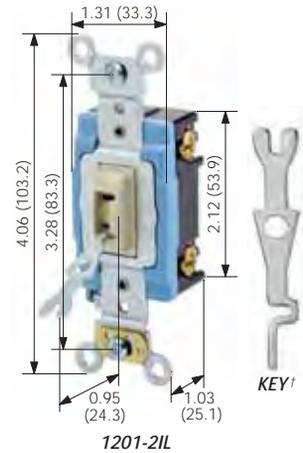

For color selection, add suffix to catalog number as follows: Ivory (-I), White (-W), Brown (-B), Red (-R), and Gray (-G).

SPECIFICATIONS AND FEATURES

MS Switches

- All molded parts are thermoplastic to resist impacts, chemicals, temperature, tracking and arcing
- Positive-contact design enhances fast-make/ slow-break
- Silver-alloy contacts for maximum conductivity and service life
- Back and side wire terminals accept up to #10 AWG solid copper wire. For stranded #8 AWG wire, remove terminal clamp and use ring terminal
- Oversized #10 triple-combination terminal screws are vibration resistant
- Insulating barrier between terminals provide isolation from each phase

- Nickel-plated brass mounting yoke for superior corrosion resistance
- Large toggle provides positive actuation, even with gloved hand

WS Switches

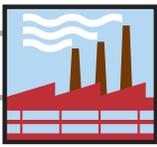

- Capable of accommodating bus bar termination in multi-gang applications
- Hole for mounting hardware supports panel mounting with self-threading fasteners or pop rivets
- Terminal screws accept up to # 10 AWG solid copper wire. For stranded # 8 AWG wire, remove terminal clamp and use ring terminal
- Fast-threading, corrosion-resistant brass triple-combination screws for fast, easy installation

TESTING AND CODE COMPLIANCE

- MS devices: UL & CUL Listed (File #E-63969)
- WS devices: UL Recognized Component (File #E-63969)
- MS & WS devices comply with UL 508
- Backed by a Limited Ten-Year Warranty

Operating Temperature: -40°C to 65°C

SAFETY DISCONNECT SWITCH FEATURES

Industrial Grade Watertight Safety Disconnect Switches UL 98 & UL 508 Listed, CUL per CSA Specification, C22.2 No. 14 Certified

2 YEAR LIMITED
WARRANTY

Liquid-tight conduit fitting can be installed for top or bottom feed

- One fitting supplied:
- 30 Amp – 1"
 - 60 Amp – 1 1/4"
 - 100 Amp – 1 1/2"

Stainless steel screws are captive and will not fall out when cover is opened

- Impact UV and chemical-resistant Valox enclosure rated to UL and IEC watertight standards
- Type 3R, 4X & 12K
 - IP67

**Fused Models Accept
"Class J" Time-Delay Fuses**

Pre-wired grounding plates (top and bottom of enclosure) connect to metal conduit grounding system

Brass threaded inserts will not strip, provide higher torque, and form tighter seal between back box and cover

Rugged hinge mechanism pivots 180° for easy access during installation and maintenance

Red "pistol grip" handle provides visual confirmation of switch's status

Integrated lockout handle meets OSHA safety regulations

**Watertight Safety Disconnect Switches Include —
30 Amp Fused, 60 & 100 Amp (Fused & Non-Fused)**

**Meets 2002 NEC® Requirements
430.102 (A) and 430.102 (B)**

Circuit identification pad for means of identifying specific equipment loads

DS60-FAX

Handle with padlock installed

Generous wiring space for top to bottom wiring

- Disconnect switch with integrated fuse holder offers proven performance in a compact package
- Fused cartridges accept "Class J" fuses (not included)
 - 1 Factory installed Auxiliary Contact (Normally Open – 10 Amp)
 - Additional Auxiliary Contact Available (Normally Closed – 10 Amp)
 - Easily accessible neutral and ground terminal blocks

Cover Screws: 1 1/8" deep slotted. LG stainless steel.
Mounting Screws: 10-24 x 1/2" deep slotted. LG stainless steel.

Ordering Information for Watertight Safety Disconnect Switches

AMPS	MAX VOLTAGE	INTERRUPTED RATINGS — RMS SYMMETRICAL AMPERES	
		CATALOG NO. NON-FUSED	CATALOG NO. FUSED
30 60 100	600V AC 600V AC 600V AC	DS30-AX DS60-AX DS100-AX	DS30-FAX DS60-FAX

Non-Fused are suitable for use on circuits capable of delivering not more than (see chart below for catalog no. and value) RMS symmetrical amperes. Fused, when protected by Class J fuses, 600V AC maximum, are suitable for use on circuits capable of delivering not more than (see chart below for catalog no. and value) RMS symmetrical amperes.

	ELECTRICAL		
	Device	Current Applied	Duration
Ground Path Integrity	30 A	60 A	2 min
	60 A	120 A	4 min
	100 A	200 A	6 min
Current Interrupting	Certified for current interrupting at full-rated current and voltage		
Endurance	6000 operations at rated current and voltage (Power factor 0.75 – 0.80)		
Dielectric	1000 V plus twice rated voltage for 1 minute		

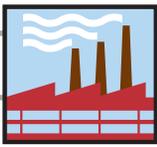

MECHANICAL	
Mold Stress Relief	70°C for 7 hours
Knockout Test	Remains in place with 20 lb push
Crush	100 lb
Impact	1.2 lb steel ball dropped from 5 ft
Cold Impact	Same as above, after conditioning to -35°C
Strength of Insulating Base and Support	110% of specified tightening torque on terminal screws
Pullout	18 lb pull on internal wires

ENVIRONMENTAL	
Flammability	V2 or better per UL 94 or CSA 22.2 No 0.6; V-0 for watertight enclosure
Rain (3R) per UL 50	Water spray @ 5 psi from all sides for 1 hr
Hosedown (4X) per UL 50	Water spray @ 65 gal/min for 5 minutes
Dust (12K) per UL 50	Cement Dust Circulated @ 1000 ft/minute for 5 minutes
Gasket Aging	70°C for 168 hours
UV Resistance	Exposed plastic materials are UV stabilized
Operating Temperature	-40°C to +60°C (-40°F to +140°F)

Key Lock Power Switches are not recommended for use on Master or Emergency Power Systems.

SPECIFICATIONS AND FEATURES

- Key-operated locking mechanism for maximum tamper-proof operation in schools, institutions, public housing, trailer parks, loading docks, freight yards and other areas
- Chrome lock dome with 2 keys provided per switch
- Back and side wire terminals accept up to #14 – #10 AWG copper or copper clad wire
- Large, combination head terminal screws with external clamps
- 4-Way switch has internal, back-wire clamps
- Triple-combination mounting screws for fast, easy installation
- Heavy-gauge rust-resistant mounting strap with steel grounding screw and self-grounding clip (self grounding when used in a properly grounded metal wallbox)
- Key removable in ON or OFF positions

TESTING AND CODE COMPLIANCE

- Meets NEMA WD-1, WD-6 & ANSI requirements
- Meets Federal Specifications WS-896
- UL Listed (File #E-7458)
- CSA Certified (File #152105)
- NOM Certified (#057)
- Backed by a Limited Ten-Year Warranty

AC QUIET SWITCH FEATURES

Commercial Grade AC Quiet Switches

LEVITON OFFERS A LARGE SELECTION OF 15 AND 20 AMP COMMERCIAL SWITCHES, AVAILABLE IN A WIDE VARIETY OF COLORS, WIRING OPTIONS AND OTHER FEATURES.

Leviton's Commercial Grade switches are designed to offer outstanding reliability and top performance in commercial settings. Ideal applications include municipal facilities, government buildings, malls, department stores, hospital and health care facilities, office buildings, schools, colleges, universities, houses of worship and cultural institutions.

Features and Benefits

- Listed UL Federal Specification, WS-896
- Heavy-duty pre-plated steel mounting strap for maximum strength
- All screws are brass combination-head for fast installation with Standard, Phillips and Robertson head screwdrivers
- External clamp-type wiring terminals provides secure connection of solid or stranded wire for back or side wiring (CSB1 and CSB3)
- Backed by a Limited 10-Year Warranty

Back and Side Wired
External clamp-type terminals for maximum wiring versatility.
CSB1-20 shown

Side Wired
Sturdy, rugged, cost effective.
CS120-2W shown

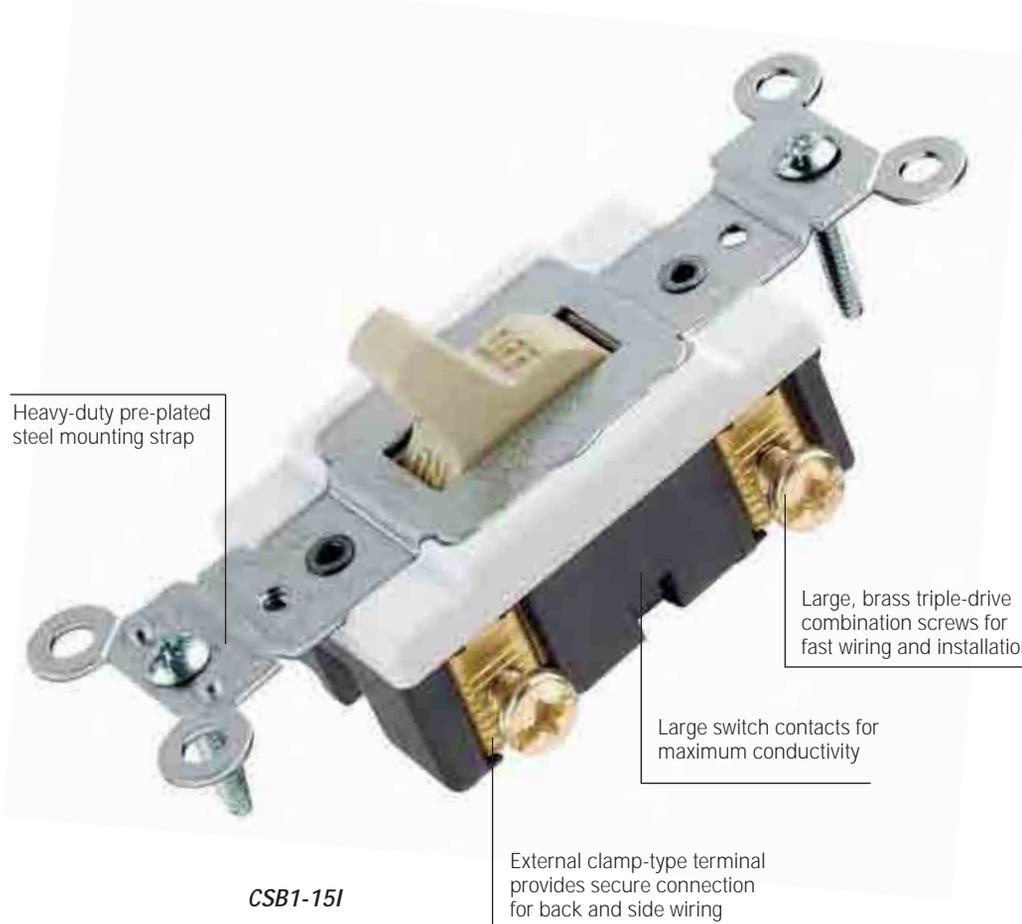

Framed Toggle
For neater finished appearance.
54501-2I shown

Lighted Toggle
Lights up, when power is off, easy to locate in darkened rooms.
5501-LHI shown

Hospital Call Switch
Turns on when toggle is pulled down with cord (included).

STRAIGHT BLADE RECEPTACLE FEATURES

Industrial Grade Straight Blade Receptacles

LEVITON'S INDUSTRIAL GRADE STRAIGHT BLADE RECEPTACLES ARE BUILT TO THE MOST DEMANDING STANDARDS FOR PERFORMANCE AND RELIABILITY. THEY'RE DESIGNED TO WITHSTAND THE HIGHEST ABUSE AND RESIST IMPACT, CRACKING AND HARSH CHEMICALS.

All Leviton Hospital Grade Receptacles undergo the most stringent UL testing to assure continuous, safe operation in any application requiring high-abuse tolerance, including health care facilities, manufacturing plants and schools.

Features and Benefits

- UL 498 for Hospital Grade (UL File #E-13399); UL Federal Specification WC-596 Listing
- CSA Certified where applicable (CSA File #LR-406)
- NOM Certified
- Meets NEMA WD-1 and 6 and ANSI standards
- All industrial back and side wired receptacles have #10-32 triple combination head terminal screws; straight, Phillips and Robertson.
- Back and side wiring options accept #14-#10 AWG stranded or solid wire
- Power Indication™ circuit board integrates 100,000 hour LED and components in a compact fail-safe assembly
- Apron barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back-wiring clamps for superior contact and conductivity
- Backed by a Limited 10-Year Warranty
- Hospital Grade Receptacles also available with Decora® designer-styling (See Decora® Plus devices, Section B)

Hospital Grade, Tamper Resistant
Approved for emergency circuits and pediatric/psychiatric care areas.
8300-SGW shown

Hospital Grade, Isolated Ground
Provides a pure ground path to a building's isolated ground system.
8200-IG shown

Industrial Grade Back & Side Wired
Features interlocking thermoplastic body and cover with one-piece brass strap.
5262-W shown

Four-In-One
Hardwire device converts a duplex receptacle installation into four receptacles without multiple installation labor and material costs.
5490-BU shown

POWER INDICATION™

Face and body locked together with exclusive four-corner latch construction, remains securely fastened

Power Indication™ meets UL498 Hospital Grade identification requirements and offers visual confirmation that the device is energized

Large, triple-wipe, nickel plated brass "T" contacts for superior contact and conductivity

Nickel-plated brass bushing for additional assembly security

Thick-walled impact-resistant thermoplastic nylon cover and body withstands abuse

Smooth face, easy to clean and soil resistant

Exclusive nickel-plated brass, staked on, self-grounding clip will never fall off

Nickel-plated brass, one piece mounting strap with integral ground contact, for superior ground path

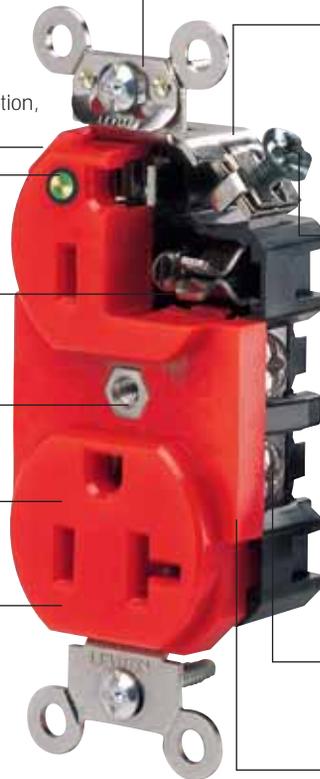

Back and side-wire grounding terminal for quick ground installation

Exclusive V-shaped, serrated back-wiring clamps for superior contact and conductivity

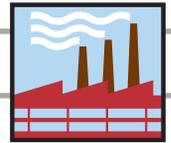

Back and side-wiring options

Exclusive triple combination #10-32 nickel-plated brass terminal screws, straight slot, Phillips #2, Robertson #1, for excellent torque

Apron barrier to prevent accidental contact of terminal screw heads with metal box

SPECIFICATIONS AND FEATURES

Back & Side Wired Duplex

- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely fasten face
- Single-piece brass mounting strap on LEVSPEC devices, multi-piece steel strap on other devices
- Large, triple-wipe, brass "T" contacts for superior contact and conductivity
- Back and side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Apron barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back-wiring clamps for superior contact and conductivity
- Wire lead receptacles for fast and easy installation

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399); UL Federal Specification WC-596

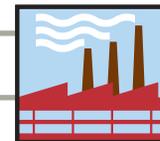

- CSA Certified where applicable (CSA File #LR-406)
- NOM Certified (#057)
- Meets NEMA WD-1 & 6, and ANSI standards
- Backed by a Limited 10-Year Warranty
- SPECCCLASS devices backed by a Limited 2-Year Warranty

*COLOR

Basic Cat. Nos. shown above denote Brown device, except for Isolated Ground (-IG) devices Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Brown (For IG devices only, add -B), Almond (-A), Light Almond (-T), Gray (-G or -GY), Black (-E), Red (-R) and Blue (-BU; for IG devices only, add -BIG)

MATERIAL CHARACTERISTICS

Environmental: Flammability, Rated V2
Operating Temperature: From -40° C (without impact) to 60°C maximum continuous

Industrial Grade Straight Blade Receptacles

Four-In-One 2-Pole 3-Wire Grounding

(Basic Cat. No. denotes Brown device, except Isolated Ground devices—Basic Cat. No. denotes Orange device)

DESCRIPTION	CAT. NO./COLOR* 15A-125V	CAT. NO./COLOR* 20A-125V

3254	I, W, GY, R, E, OR, BLU

Four-In-One Portable Boxes

CAT. NO.	COLOR*
4254	I, GY, E, OR, Y (No Brown)

Portable boxes are not UL Listed. UL Listing does not apply when Four-in-One Receptacles are used with portable boxes for extension cord applications.

Four-In-One Receptacle Wallbox Mounting

MOUNTS DIRECTLY			MOUNTS WITH ADAPTER PLATE	
				
Single-Gang	4" Octagonal	4" Square	2-Gang	4 1/16" Square

SPECIFICATIONS AND FEATURES

- Terminal wiring screws fit inside a standard single-gang wallbox; adapter plate not required (optional)
- Heavy-impact nylon cover and base for strength and resistance to chemicals and corrosives
- Smooth face; easy to clean surface
- Easy-to-read voltage and amperage rating molded onto face
- Heavy-duty, T-type triple-wipe bronze contacts for maximum performance
- Ground holes configured up or down to be outside the device, accommodating up to 4 Fed Spec size straight or angle plugs
- No. 8 terminal screws accept up to No. 12 solid or stranded copper wire
- Termination anchor holes for easy conductor wiring
- Deep cut mill-slotted screws resist slippage
- Exclusive shield-wall design protects ground connection from contact with live circuit conductors
- *"A" and "B" molded on face and back for easy identification of receptacle pairs for split-circuit conversion. (Note: Split circuit not available on surge models).
- Convenient built-in strip-gauge

TESTING AND CODE COMPLIANCE

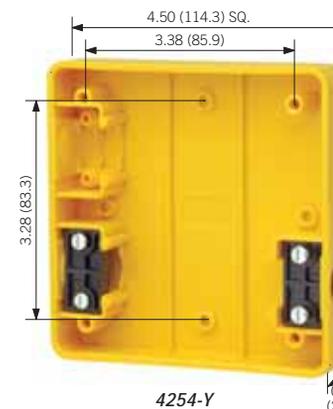

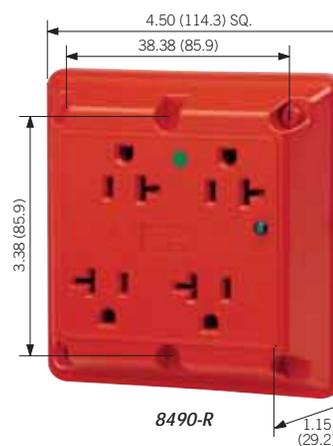

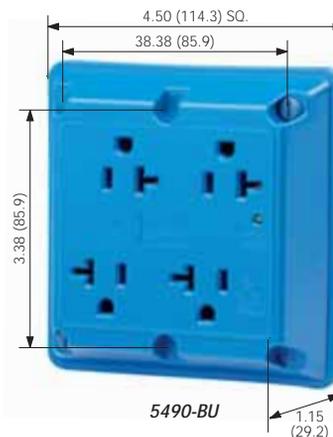

- UL Listed 498 for Hospital Grade (UL File #13399); UL Federal Specification WC-596; UL Listed Adapter Plates (File #E-13397)
- CSA Certified where applicable (CSA File #152105); CSA Certified Adapter Plates (File #LR-16347)
- NOM Certified (#057)
- Complies with NEMA WD-1 & 6, and ANSI standards
- Backed by a Limited 10-Year Warranty

*COLOR

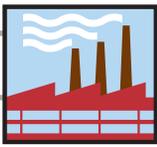

Basic Cat. Nos. denote Brown device, except for Isolated Ground (-IG) devices-Basic Cat. No. denotes Orange. Isolated Ground receptacle distinguished by orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Red (-R), Gray (-G or -GY), Black (-E), Orange (For adapter plates and portable boxes only, -OR), Blue (-BU, -BLU, -B) and Yellow (-Y).

MATERIAL CHARACTERISTICS

Environmental: Flammability, Rated V2

Straight Blade Receptacles

STRAIGHT BLADE RECEPTACLE FEATURES

Commercial Grade Straight Blade Receptacles

LEVITON OFFERS A LARGE SELECTION OF 15 AND 20 AMP COMMERCIAL GRADE RECEPTACLES, AVAILABLE IN A WIDE VARIETY OF COLORS, WIRING OPTIONS AND OTHER FEATURES.

Back & Side Wired
Constructed of high impact resistant thermoplastic, power contacts are triple wipe for good conductivity.
BR15-W shown

Side Wired
Available with back and side-wired options, it can operate at either 125 or 250V volts.
CR15-W shown

Dual Voltage
Smooth face, self-grounding clip, easily accessible break-off tabs for split-circuit wiring.
5844 shown

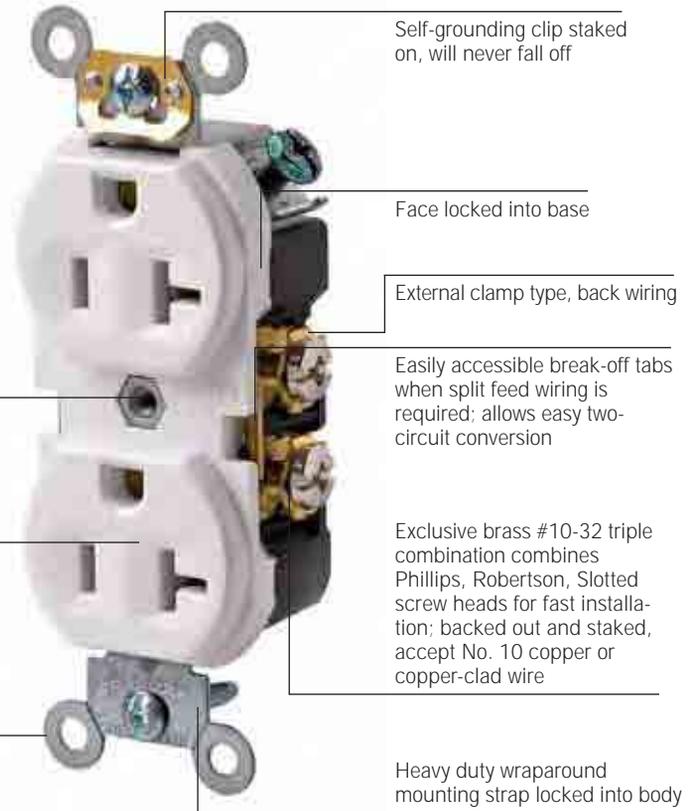

Brass Floor Box Assembly
Complete with brass plate, receptacle, brass screw-in cap and O-ring.
5249-FBA shown

Leviton's Commercial Receptacles are manufactured to withstand the demands of commercial and institutional applications. These commercial receptacles provide long-lasting service life and are a cost-saving alternative to the industrial devices.

Features and Benefits

- Cost-efficient alternative to industrial receptacles
- Manufactured to withstand the demands of commercial and institutional applications
- Power contacts available in triple and double wipe for maximum conductivity and plug retention
- Shallow design for maximum wiring room in box
- UL Listed 498 (UL File #E-13399)
- CSA Certified where applicable (CSA File #LR-406)
- NOM Certified (#057)
- Meets NEMA WD-1 & 6, and ANSI standards
- Backed by a Limited 10-Year Warranty
- All commercial side-wired receptacles have #8-32 triple combination head terminal screws
- All commercial back and side-wired receptacles have #10-32 triple combination head terminal screws

BR20 shown

Back-wiring clamps accept up to No. 10 solid or stranded copper wire
Exclusive V-shaped, serrated back-wiring clamps for superior contact and conductivity

80703-I	80704-W	80716-I	84003-40	84004-40	84016-40

For complete wallplate selection, see Section E.

SPECIFICATIONS AND FEATURES

- Large-head, triple-drive terminal screws, backed out and staked, accept No. 10 copper or copper-clad wire
- Back-wiring clamps accept up to No. 10 copper or copper-clad wire
- All power contacts are triple wipe for maximum conductivity and plug retention
- Heavy-gauge, rust-resistant steel mounting strap
- Shallow design for maximum wiring room in box
- Convenient washer-type break-off plaster ears for best flush alignment
- Captive mounting screws for fast installation
- Break-off tabs on duplex receptacles for easy two-circuit conversion

TESTING AND CODE COMPLIANCE

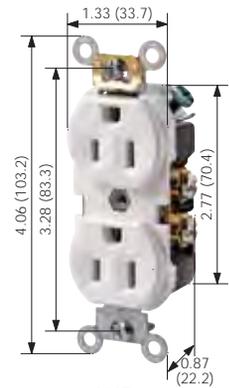

- UL Listed 498
- CSA Certified where applicable (File #LR-406)
- NOM Certified (#057)
- Meets or exceeds NEMA WD-1, & 6, and ANSI standards
- Backed by a Limited 10-Year Warranty

SPECIFICATIONS AND FEATURES

Side Wired Duplex Receptacles

- Large-head terminal screws, backed out and staked, accept No. 10 copper or copper-clad wire
- All power contacts are triple wipe for maximum conductivity and plug retention — except CR series
- Heavy-gauge, rust-resistant steel mounting strap
- Shallow design for maximum wiring room in box
- Convenient washer-type break-off plaster ears for best flush alignment
- Captive mounting screws for fast installation where applicable

Brass Floorbox Assembly

- Complies with NEC 370-27(b)
- All-in-one, ready-to-wire unit provides quick, easy installation
- Plate gasket and O-ring combine to seal out moisture and contaminants
- Thick brass plate and screw cap resist abuse and prevent contaminant from entering device
- Durable nylon receptacle face and body resist breakage
- Brass screw cap threaded to fit flush to plate
- Green grounding screw

TESTING AND CODE COMPLIANCE

- UL Listed 498 (File #E-13399)
- CSA Certified where applicable (File #LR-406)
- NOM Certified (#057)
- Meets or exceeds NEMA WD-1, and -6, and ANSI standards
- Backed by a Limited 10-Year Warranty

Straight Blade Receptacles

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

SPECIFICATIONS AND FEATURES

Back & Side Wired Duplex

- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely fasten face
- Single-piece brass mounting strap on LEVSPEC® devices, multi-piece steel strap on other devices
- Large, impervious, brass "T" contacts for superior contact and conductivity
- Back and side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Agion barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back-wiring for superior contact and conductivity

- Meets NEMA WD 1-3, 6, and ANSI standards
- Backed by a Limited 10-Year Warranty
- SPECCLASS** devices backed by a Limited 2-Year Warranty

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399) (UL Federal Specification WC-598)

COLOR

Basic Cat. Nos. shown above denote Brass device, except for Isolated Ground (-IG) devices. Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Brown (-R) for IG devices only, add (-B), Almond (-A), Light Almond (-T), Gray (-G or -GY), Black (-E), Red (-R) and Blue (-BU) for IG devices only, add (-BIG)

MATERIAL CHARACTERISTICS

SMARTLOCKPRO® GFCI PERSONNEL PROTECTION DEVICE FEATURES

Commercial Grade GFCI Personnel Protection Devices

LEVITON IS THE LEADING DESIGNER AND MANUFACTURER OF GROUND FAULT CIRCUIT INTERRUPTERS (GFCIs) IN THE ELECTRICAL INDUSTRY. FOR MORE THAN A QUARTER OF A CENTURY, LEVITON HAS DEVELOPED — AND CONTINUES TO DEVELOP — GFCI RECEPTACLES AND OTHER PRODUCTS TO HELP REDUCE THE HAZARD OF SERIOUS ELECTRICAL SHOCK.

The National Electric Code requires GFCI protection in specific locations within residential, commercial and industrial installations. New and revised GFCI applications appear with each new edition of the code. Leviton offers the largest and most diverse line of high quality, reliable devices to meet the demand for ground fault protection. Following is a complete listing of Leviton's GFCI product line.

SmartLockPRO® GFCI with Professional Grade Lockout Action

Meets or exceeds Underwriters Laboratories (UL) 2006 UL943 GFCI Safety Standards

- Patented professional grade lockout action as end-of-life indication
- Prevents power from being connected to face and feed-through terminals when miswired (Line-load reversal)
- Improved immunity to electrical noise to reduce false tripping
- Advanced electronics provide superior surge immunity
- Trip threshold meets or exceeds UL requirements for tripping time

THE SMARTLOCKPRO® PROTECTION ADVANTAGE

While other GFCI manufacturers may have taken the alternate route in the 2006 UL Standard by providing an indicator light for end-of-life indication, allowing reset and continued use of a GFCI with unprotected power to the GFCI face and downstream receptacles, the SmartLockPRO's reset button will not engage if protection has been compromised. The SmartLockPRO's unique patented professional grade end-of-life lock-out action, reduces the possibility of end-users incorrectly assuming that a reset GFCI outlet is providing ground fault protection when it actually is not

Ideal for a Wide Range of GFCI Applications

- Residential – Kitchens, bathrooms, garages, basements and other wet locations
- Outdoors – Outdoor receptacles by pools, cabanas, patios, decks and lanais
- Hospital and Healthcare Facilities – Scrub rooms, lavatories kitchenettes and other potentially wet locations
- Airports – Bathrooms, general use areas and maintenance areas
- Educational Facilities – Classrooms, restrooms, laboratories, dormitories and kitchens
- Restaurants, Lodging and Retail Malls – Bathrooms, general use areas and maintenance areas
- Commercial offices – Bathrooms, basement areas, hallways and kitchens
- Public Areas – Near wet and damp locations

SPECIFICATIONS AND FEATURES

- Meets or exceeds UL 2006 Requirements
 - TEST and RESET functions work together so that a tripped GFCI cannot be reset if GFCI circuit no longer provides ground fault protection
 - RESET button is blocked if GFCI protection has been compromised, providing a true "dead-face" design that ensures no power at GFCI receptacle face or downstream-fed receptacles
 - Line-load diagnostic feature prevents GFCI from being reset and stops power from being fed to the GFCI receptacle face or through to downstream devices. This alerts installer to a line-load reversal. Indicator light will be ON to indicate line/load reversal.
 - The SmartLockPRO GFCI with lockout action is designed and patented by Leviton
 - Trip threshold meets or exceeds UL requirements for tripping time
 - Impact-resistant thermoplastic cover and body
 - Silver-alloy contacts
 - Compatible with all Decora devices: available in selected Decora colors
- Combination Switch/SmartLockPRO® GFCI Outlet**
- Ideal for kitchens, bathrooms, modular kitchen units, bathroom cabinet fixtures, lamp cabinet fixtures and applications where combination devices are used.

TESTING AND CODE COMPLIANCE

- UL Standard 943 Class A (GFCI) and 498 (Receptacles)
- UL Listed (File # 48380)
- CSA (#LR-57811)
- NOM Certified (#057)
- Backed by a Limited Two-Year Warranty

COLOR

Basic Cat. Nos. denote Brown color unless indicated. For other color selections, add suffix to catalog number as follows: Ivory (-I), White (-W), Almond (-A), Light Almond (-T), Gray (-G or GY), Red (-R), Black (-E).

MATERIAL CHARACTERISTICS

Flammability: Rated V2

Operating Temperature: -30°F (-35°C) to 151°F (66°C)

UL Standard 943 Class A (GFCI) & 498 (Receptacles)
CSA Certified (File #057)
Meets July 28, 2006 UL Requirements

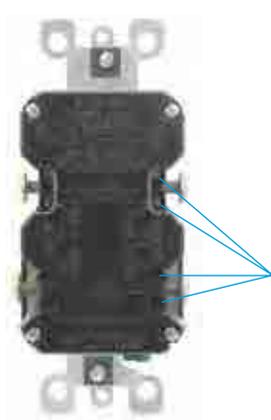

Thick-walled, impact-resistant thermoplastic nylon cover and body withstands abuse

"Surge hardened" electronics offer superior resistance to surges and overvoltages.

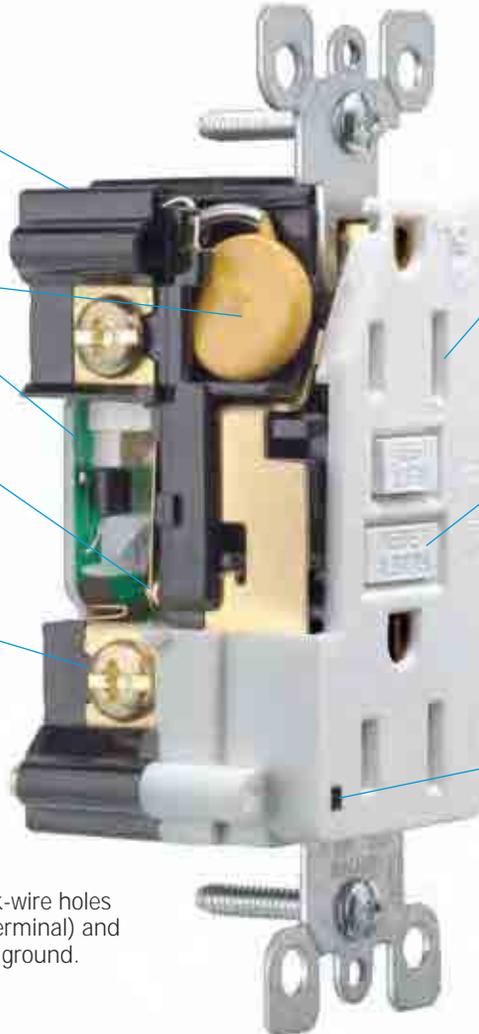

Silver alloy contacts for reliable make/break switching.

Triple drive combination terminal screws.

Eight back-wire holes (two per terminal) and back-wire ground.

Provisions for back- or side-wiring.

7599-W

Heavy duty double wipe for 15 Amp contacts and triple wipe for 20 Amp contacts

Patented lockout feature prevents "RESET" if GFCI is not functioning properly or miswired due to reversal of line and load leads.

Dual function LED offers indication of line/load reversal & power availability.

Leviton SmartLockPRO® icon ensures improved GFCI product design.

Lockout action blocks the "RESET" button if GFCI protection has been compromised.

Dual function LED offers indication of line/load reversal & power availability.

SPECIFICATIONS AND FEATURES

High Current GFCI

- Adds ground fault protection to heavy equipment powered through 3- and 4-wire circuits grounded with neutral
- Meets or exceeds UL 2003 Code Requirements for increased surge immunity, corrosion resistance, resistance to false tripping and diagnostic indication for line-load wiring reversal
- Exclusive, patented lockout-action: RESET button is blocked if GFCI protection has been compromised, eliminating the risk of end-users incorrectly assuming that a reset GFCI is providing ground fault protection when it actually is not
- Test and Reset buttons confirm proper operation
- Ideal for use with spas, heater packs, high pressure washers, industrial mixers and other equipment

Right Angle GFCI Plug

- UL 943 Class A GFCI operation with open-neutral protection
- May be pre-wired to cable of any specified length
- Power indicator light goes off if GFCI trips or unit is unplugged

TESTING AND CODE COMPLIANCE

Right Angle GFCI Plug

- UL Standard 943 Class A (GFCI) and 498 (receptacles)
- UL Recognized Component (File #48380)
- CSA Certified (LR-57811)
- Backed by a Limited One-Year Warranty

SPECIFICATIONS AND FEATURES

- The Box**
- For temporary use in industrial & commercial maintenance & repair stations (construction, entertainment, amusement sites, trade shows, convention halls) where portable power is needed
 - Weatherproof covers prevent nuisance tripping; prevent moisture from entering contacts
 - Clear port hole panel for circuit breaker viewing
 - Reinforced metal housing & legs withstand abuse
- Power Cords**
- Flexible, abrasion-resistant construction for reliable performance to -31°F

TESTING AND CODE COMPLIANCE

- Raintight covers satisfy NEC Article 410-57(b) requirements
 - Raintight covers are rated NEMA 3R
- The Box**
- Meets OSHA Regulation 20, Part 1926, Subpart K for open-neutral GFCI & circuit overload protection
 - UL Listed for outdoor use
 - Backed by a Limited One-Year Warranty
- Power Cords**
- UL Listed (File #E-48380)

GFCI Personnel Protection Devices

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

STRUCTURED MEDIA COMPONENTS

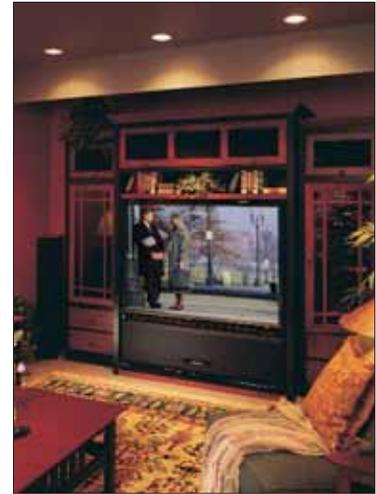

STRUCTURED MEDIA™ COMPONENTS—LEVITON INTEGRATED NETWORKS™

The information and communication revolution will have as much impact on America's homes and businesses as did the electrical revolution of the 20th Century. To fully enable the modern home, Leviton has developed Leviton Integrated Networks as the upgrade path to the future. Leviton Integrated Network's Structured Media components and systems deliver the capacity, bandwidth and speed that today's and tomorrow's information and entertainment technologies will demand.

Innovative Technology Blends Multiple Options Into One System

Leviton Integrated Networks takes the concept of structured cabling, as practiced in demanding commercial applications, and combines it with multimedia. This blending accommodates the convergence of telephone communications, computer and Internet services and much more. An innovative series of modules and media centers—configured for either essential platforms or more customized enhanced platforms—manage and distribute voice, data, audio and video in flexible configurations that best suit each homeowner's individual requirements. These requirements can range from something as simple as cable TV and telephone in several rooms, to a local area network (LAN) for a small office or home-based business.

Entertainment products built into the home should have no compromises — in quality, performance, reliability or value. That's why Leviton offers a wide variety of state-of-the-art residential entertainment products that represent today's most advanced audio/video technologies, including indoor and outdoor speakers, on-wall home theater systems, A/V entertainment center products, controls and distribution components.

47605-140 Panel Enclosure with Cover

Series 140 Panel Premium Hinged Cover

Series 140 Structured Media Enclosure

This 14" professional-grade whole-house media enclosure creates one distribution point in the home for all low voltage cables. It will accommodate two Pre-Configured Structured Cabling Panels. The sturdy design and functionality facilitate installation, reducing job-site labor costs, and making it ideal for essential home networking.

SPECIFICATIONS

Dimensions:	
Enclosure:	14.38"H x 14.38"W x 3.60"D
Cover:	16.10"H x 16.10"W
Materials: White, powder-coated enclosure (20 gauge steel), cover (18 gauge steel)	
Standards Compliance: ACA and cULus Listed. UL Listed for fire and burglary	

Series 140 Structured Media Enclosures and Covers

DESCRIPTION	CAT. NO.
Series140 Enclosure and Flush-Mount Cover, empty	47605-140
Series140 Enclosure only	47605-14E
Series 140 Flush Mount Cover	47605-14C

Series140 Enclosure only (6 per pack)	47605-14G
Series 140 Flush Mount Cover (6 per pack)	47605-14B

SPECIFICATIONS AND FEATURES

- Accommodates up to two full-width Pre-Configured Structured Cabling Panels—delivering audio/ video, voice and data to any room of the home or office.
- Positive “stops” on housing sidewalls prevent the enclosure from falling through studs during installation.
- One piece white steel unit holds full and half-width expansion modules.
- Can be surface-mounted or recessed. Ideal for new installations or retrofits.
- Mounting guides on the cover align screw-holes and reduce the chances of dropping during attachment.
- Powder-coated white cover features a 3/4" overlap to hide irregular drywall cuts.
- Combine two or more enclosures for larger installations or future expansion.
- Multiple knock-outs on top and bottom including two new 2" knockouts on top, facilitate cable entry and routing.
- Cut-out in base of enclosure for mounting single gang J-Box kit
- Six 3" square self-healing foam grommets accommodate cable bundles

STRUCTURED MEDIA™ CENTERS

Series 280 and 420 Structured Media Enclosures

Command central for home media convergence, Leviton's SMC-280 and SMC-420 home technology enclosures put the home or small office on the cutting edge of the Information Age. By bringing every conceivable technology distribution point together in one place, they make running cable and managing media both simple and more cost-effective. Designed to incorporate a hospital-grade power quality module for maximum protection from line surges, the 28" and 42" high units accommodate all the latest in functions such as home networking, fax, internet (including high speed services such as DSL, cable modems and ISDN), multi-line telephones, security camera, coaxial cable and satellite video distribution, and speaker and volume controls, when equipped with the correct accessories.

The Series 280 enclosure can comfortably accommodate up to 8 different Distribution Modules, depending on selection and density, and the 420 enclosure, with its generous size and capacity for up to 12 modules, can simultaneously manage many diverse functions. Perfect for home office and home entertainment. Make sure you plan all modules before starting the project, and specify the correct size media center.

Note: Module count will depend on the type used; some are larger than others.

SPECIFICATIONS AND FEATURES

- Multiple knock-outs (up to 2") on top, bottom, sides and back, including two new 2" knock-outs on top, facilitate cable entry and routing from every desired room.
- Six 3" square self-healing foam grommets accommodate cable bundles and protect them from being cut
- Sturdy, one-piece white steel construction.
- Combine two or more enclosures for larger installations or future expansions.
- Holds 1/4, 1/2 and full-width expansion modules with the ability to mount most modules vertically or horizontally.
- Large capacity provides multiple functionality for "wired" homes.
- Powder-coated white cover features a 3/4" overlap to hide irregular drywall cuts.

- Mounting hooks on the cover align screw-holes and reduce the chances of dropping during attachment.
- Holds a broad range of current and future distribution modules, delivering audio, video, voice, data, security, and more to any room of the home or office.
- Threaded inserts added to enclosure to ensure accurate threading of screws when mounting cover
- Can be surface-mounted or recessed. Ideal for new installations or retrofits.
- Knock-out in base of enclosure for mounting of either a single gang J-Box kit or an AC power module
- Designed to accommodate safe, high-quality hospital-grade power module with surge suppression.

Extender Brackets for Leviton Series 280 and 420 Structured Media Centers

The Extender Brackets provide an additional 2" of depth and enhanced ventilation with Leviton's Series 280 and 420 Structured Media Centers (SMCs). The Extender Brackets, which are attached between the enclosure and the cover, form a frame assembled from four 2"-deep sheet metal rails with louvers on each side. The greater depth allows for better cable management and for larger modules, such as audio amplifiers, to be mounted within the Structured Media Centers.

Series 280 and 420 Structured Media Enclosures

DESCRIPTION	CAT. NO.
Extender Bracket 2" depth extension package for Series 280 Structured Media Centers	47612-28B
Extender Bracket 2" depth extension package for Series 420 Structured Media Centers	47612-42B

SPECIFICATIONS AND FEATURES

Extender Brackets

- Made of sturdy white powder-coated 18-gauge sheet metal
- Louvers in the Extender Brackets enhance ventilation for added protection against heat build-up from installed modules
- Two-Year Product Warranty

Media Versatile Panel— For Custom Retrofits and Remodeling

Ideal for custom retrofits and remodeling applications, the Media Versatile™ Panel with 3/8" plywood backing allows an open architecture for consolidating low voltage electronics and distribution components for phone, fax/modem, data, home networking, audio, video and home control. The 24" high cold-rolled steel panel with securable door will accommodate a wide variety of Structured Media Distribution Modules by simply removing the Push-Lock Pins and attaching directly to the plywood backing. The sturdy construction is built to industrial-grade standards, and the panel can be surface mounted or recessed in the wall. (Optional mounting brackets may be used for non-standard stud spacing). Ideal for custom retrofits and remodeling applications. Available in black powder coat finish. UL Listed.

SPECIFICATIONS

Dimensions:	24"H x 14"W x 6"D
Materials:	Powder-coated 18 gauge steel with 3/8" plywood backing
Standards Compliance:	UL Listed.

Media Versatile Panel

DESCRIPTION	CAT. NO.
Media Versatile Panel	47602-24E
Mounting Brackets—(set of 4)	47602-BKE

SPECIFICATIONS AND FEATURES

- Eight 1" or 1.5" conduit fittings on top and bottom facilitate cable entry and routing
- Wall-mount or recess. Ideal for new installations or retrofits
- Securable door provides maximum protection from dust and abuse
- Plywood backing allows open architecture for customizing layout and can accommodate a wide variety of Structured Media Distribution Modules.

Compact Structured Media Enclosure—For Multi-Dwelling Units (MDU's)

Leviton's new Compact Structured Media Enclosure for Multi-Dwelling Units offers a compact, cost-effective distribution point for basic telephone and video to owners/managers of multi-unit buildings. The unit accommodates a variety of telephone/video distribution configurations by hosting up to three Telephone Expansion Boards and one Passive Video Splitter.

SPECIFICATIONS

Dimensions: (Enclosure)	8.03"(204.0) H x 14.40"(365.6) W x 3.71"(94.2) D
(Cover)	9.01"(228.9) H x 15.39"(390.8) L
Materials:	ABS molded plastic
Standards Compliance:	UL94 VO flame-retardant fire rating

Compact Structured Media Enclosure for MDU's

Compact Structured Media Enclosure and Cover, empty	47605-MDU
MDU Kit (Compact Structured Media Enclosure & Cover plus 1x6 Telephone Expansion Board)	47604-F6
MDU Kit (Compact Structured Media Enclosure & Cover plus 1x6 Telephone Expansion Board and 6-Way Splitter)	47604-F6S

SPECIFICATIONS AND FEATURES

- Unique modular design has fewer parts and is made exclusively from ABS molded plastic to provide customers with cost savings in installation time
- Flexibility to accommodate a variety of telephone/video distribution configurations
- Snap-on cover requires no tools or fasteners
- Molded-in brackets provide quick snap-in convenience for Telephone Expansion Boards
- Angled video splitter shelf for easy installation
- Hosts up to three Telephone Expansion Boards and one Passive Video Splitter
- Available empty with cover or in two kitted versions with a 1x6 Telephone Expansion Board or with a 1x6 Telephone Expansion Board and a 6-Way Splitter

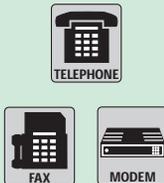

Pre-Configured Structured Cabling Panels

Route telephone, data and video services throughout your home or office with one simple panel. Leviton's Pre-configured Structured Cabling Panels combine some of our most popular voice, data and RF modules to create an economical one-stop home and office media distribution point. See the following pages for available configurations. Some modules are available in expansion styles to fill unused panel slots (see this page). Choose the pre-configured combination that best meets your needs, and enhance with expansion boards or stand-alone brackets.

Panel Components and Expansion Boards

Pre-configured Panels are assembled at the factory and will contain one or more of the following distribution modules.

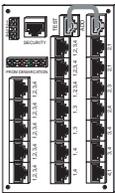

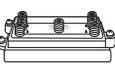

COMPONENTS	APPLICATION	FEATURES	AVAILABLE AS
 <p>1x9 Bridged Telephone Board</p> <p>Basic telephone distribution</p>		<ul style="list-style-type: none"> Bridge up to 4 telephone lines to 9 locations Connect up to 9 separate telephones per line Printed circuit board module 4-pair 110-type IDC punchdowns 	<ul style="list-style-type: none"> Part of a Pre-configured Panel Stand-alone module with bracket Expansion board without bracket

Plastic Mounting Brackets for Leviton Structured Media Centers

The Single Plastic Bracket accepts mounting of any single Leviton phone, data, security or DSL Filter Board within the Structured Media Center to enhance an existing system, for use as a stand-alone solution for voice (with or without security), data and DSL filtering services. The Expansion Plastic Bracket is a full-width bracket that can be populated with up to five Leviton phone, data, security or DSL Filter Expansion Boards in a Leviton Series 140, 280 or 420 Structured Media Center. This unit offers a universal design that accommodates installation of a variety of manufacturers' products.

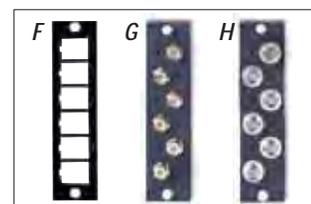

DESCRIPTION	CAT. NO.
A-Single Plastic Bracket for mounting a single Leviton phone, data, security or DSL Filter Expansion Board in a Leviton Series 140, 280 or 420 Structured Media Center	47612-SBK

SPECIFICATIONS AND FEATURES

All Plastic Brackets

- Made of sturdy white ABS plastic
- Come with push-lock pins
- Snap-in installation in any Leviton series 140, 280 or 420 Structured Media Center
- Allow for cable management via routing under bracket

Universal Security & Shelf Brackets for Leviton Structured Media Centers

The Universal Security Brackets allow for consolidation and integration of security products into any of Leviton's Series 140, 280 or 420 Structured Media Center enclosures. The 6" and 12" Universal Security Brackets accommodate the widest variety of security alarm panels. These 1"-wide brackets are sold in pairs with self-tapping screws and insulating spacers for easy attachment to the panels. The Universal Shelf Bracket provides space for security batteries of various sizes as well as other products to be mounted within Leviton's Series 140, 280 or 420 Structured Media Centers. The bracket comes with four 8" long Velcro® strips to strap down products to the shelf, ensuring both vertical and horizontal stability.

Universal Security & Shelf Brackets for Leviton 140, 280 or 420 Structured Media Centers

DESCRIPTION	CAT. NO.
A-6" Universal Security Bracket. Comes a set of two 6"-long, 1"-wide brackets with self-tapping screws and spacers for mounting within Leviton's Series 140, 280 or 420 Structured Media Centers	47612-6SB
B-12" Universal Security Bracket. Comes a set of two 12"-long, 1"-wide brackets with self-tapping screws and spacers for mounting within Leviton's Series 140, 280 or 420 Structured Media Centers	47612-1SB
C-Universal Shelf Bracket. Comes with four 8"-long Velcro strips to strap down security batteries of various sizes as well as other products to be mounted within Leviton's Series 140, 280 or 420 Structured Media Centers	47612-UBK
D-Half-Width Universal Security Plate. Comes with a 6" long plate with four adhesive clips for mounting with Leviton's Series 140, 280 or 420 Structured Media Centers	47612-HSB
E-Full-Width Universal Security Plate. Comes with a 12" long plate with four adhesive clips for mounting with Leviton's Series 140, 280 or 420 Structured Media Centers	47612-FSB
F-Combo Bracket is designed to accommodate Leviton products to be installed in most structured wiring enclosures on the market	47612-CBK

SPECIFICATIONS AND FEATURES

All Brackets

- Made of white powder-coated 18 gauge sheet metal
- Come with push-lock pins

Universal Security Brackets

- Allow an unlimited number of upgrades (limited only by the enclosure's size) to be added to an existing security system terminated within any Leviton Structured Media Center
- Sold in pairs with self-tapping screws and spacers to easily connect the largest number of security alarm manufacturers' panels

Universal Shelf Bracket

- Allows security batteries and other products to be mounted inside any Leviton Structured Media Center
- Vertical and horizontal slots on bracket to accommodate Velcro strips, ensuring vertical and horizontal stability

Combo Bracket

- Allows Leviton products to be installed in most non-Levton structured wiring enclosures

Surge-Protective and Standard AC Power Modules and J-Box Kits

Surge AC Power Module or J-Box kit models add clean, safe power to the Series 280 or 420 Structured Media Enclosures (Series 140 enclosure only accepts J-Box kits). Two non-surge protected AC Power Module or J-Box kit units offer an economical method of providing power to distribution modules and, except for built-in surge suppression, offer the same features as the respective surge-protected units. In extremely excessive surge conditions, an alarm will sound to warn the user that power is unprotected. Consists of one (J-Box kit) or two (AC Power Module) 15 Amp Hospital Grade duplex receptacles housed in a powder-coated steel enclosure. They feature EMI/RFI filtering and meet UL 1449 standards.

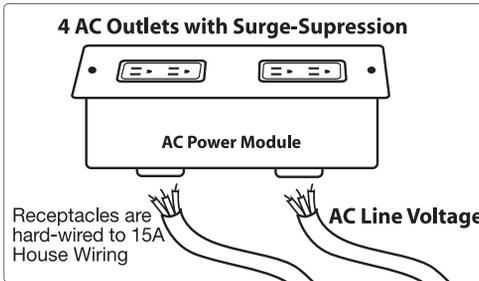

AC Power Modules for 280 and 420 Series Structured Media Enclosures

Universal Mini DC Power Supplies

These compact units are designed specifically to fit into Leviton's Series 140, 280 and 420 Structured Media enclosures. They are compatible with any incoming AC voltage in the range of 90 to 264V. The 47605-PSA's 9 12VDC connectors provide up to 40 watts of power and the 47605-PSB's 3 12VDC connectors provide up to 10 watts of power while providing short circuit overload and surge protection as well as EMI/RFI filtering to connected equipment.

DESCRIPTION	CAT. NO.
Universal DC Power Supply, 9 12VDC connectors	47605-PSA
Universal Mini DC Power Supply, 3 12VDC connectors	47605-PSB

47605-ACN Non-Surge J-Box Kit

47605-PSB, 47605-PSA
Universal Mini DC Power Supplies

SPECIFICATIONS AND FEATURES

- Hospital grade surge-protected units provide greater protection for line-voltage modules, including multi-stage defense (L-N, L-G, N-G)
- Non-surge suppressor units provide an economical method of providing power to active components
- Available with one (J-Box kits) or two (AC Power Modules) 15 Amp duplex receptacles
- Safety clips protect outlets against dust, dirt and debris
- One (J-Box kits) or two (AC Power Modules) cable knock-outs on bottom for power service connection
- Saves valuable real estate by mounting on outside of Structured Media Enclosures
- Meets UL 1449 standards

Structured Media Components

MEDIA CENTER POWER

Snap-In Surge Protection Modules

SPECIFICATIONS AND FEATURES

- Interchangeable modules accommodate changing surge protection needs
- All modules easily snap in to the Cat. No. 3950 Surge Module Bracket
- User-friendly design—no wiring required
- Telephone/Fax/Modem Module acts as a splitter, allowing the connection of two devices

3950-BKT

SPECIFICATIONS AND FEATURES

- Contains six removable double screw terminal jacks.
- Each jack utilizes slot-drive screws.
- Shipped with 6 wires containing 18 gauge connectors and 2.1 mm power plugs.
- Fully regulated (12 volt DC regulated output).

Snap-In Modules for Structured Media Enclosure Surge Module Bracket

Leviton's snap-in surge protective modules provide customized surge protection for all low-voltage communication and data lines in the Structured Media Enclosure. All Series 5950 modules can snap-in to the Cat. No. 3950-BKT Surge Module Bracket. The bracket, allows you to add and change modules to fit specific protection needs. Choose from a selection of protection modules for Digital Satellite Systems, Ethernet systems, Cable TV, Telephone/Fax/Modem and DSL/ADSL equipment. All devices attached to the modules are covered under the Leviton \$50,000 Connected Equipment Warranty.

DESCRIPTION	CAT. NO.
Satellite System/Cable TV Protection Module—4 Standard F-connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec	Beige—5951-SA Gray—5951-SAT Ice—5951-SAC
Ethernet Protection Module (10 Base-T Applications)—Two RJ45 connectors to protect two pair of transmit/receive lines. 10-Amp automatic Resettable PTC fuses. Max. operating voltage: 16.6V DC. Breakdown Voltage Range: 2.62-19.2 Volts/Sec	Beige—5952-ET Gray—5952-ETH
Cable TV System Protection Module—Two Standard F-type connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec	Beige—5953-PC Gray—5953-PCG Ice—5953-PCC
Telephone/Fax/Modem Protection Module—Three RJ11, 4-wire/2-pair connectors. 3-Position splitter allows for connection to a common line. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec	Beige—5954-AT4 Gray—5954-PT4 Ice—5954-CT4
DSL/ADSL Subscriber Equipment Protection Module—Three RJ11, 4-wire/2pair connectors. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec	Beige—5955-DT Gray—5955-DTG
Cat. 5 Ethernet Module Two RJ45 Connectors with Ground Pin for Ethernet - Cat. 5	Beige—5957-OCS Gray—5957-C5G
Two Line Telephone Module One Input, One Output RJ11 Connector for 4-Wire POTS	Beige—5958-AT4 Gray—5958-PT4
Four Line Telephone Module One Input, One Output RJ45 Connector for 8-Wire POTS	Beige—5959-BT8 Gray—5959-GT8
Surge Module Bracket	3950-BKT

DC Power Distribution Module

The DC Power Distribution Module is a unique solution to the need for high quality electrical power for the separate DC-powered components in the Structured Media Enclosure. This module reduces clutter and opens-up space in the Structured Media Enclosure by eliminating the need for multiple DC transformers. Powered by a single DC power supply, the Power Distribution module provides fully-regulated 12 VDC power for up to 6 devices.

SPECIFICATIONS

Input:	110V AC
Output:	Provides 13V DC power for up to 6 devices 1500mA
Compliance (Surge model only):	UL 1449
Dimensions:	6.58"H x 2.5"W x 1.5"D
Wire Gauge:	Up to 12 gauge

DC Power Distribution Module

DESCRIPTION	CAT. NO.
DC Power Distribution Module	48212-ODC

Structured Media™ Modules—Internet Connection Sharing and Multi-Location Networking

10/100 Internet Gateway Cable/DSL Broadband Router*

Leviton's 10/100Mbps Internet Gateway (a.k.a router) allows multiple users to securely share a single, protected high-speed Internet connection.

10/100 base-t switches*

At 10/100Mbps speeds, these units are excellent choices for networking PC's to meet a wide range of residential needs such as sharing files, printers and other peripherals.

*Networked PC's and peripherals require compatible networking cards or adapters and associated software.

Cat No. 47611-GT4
10/100Mbps Internet Gateway Router

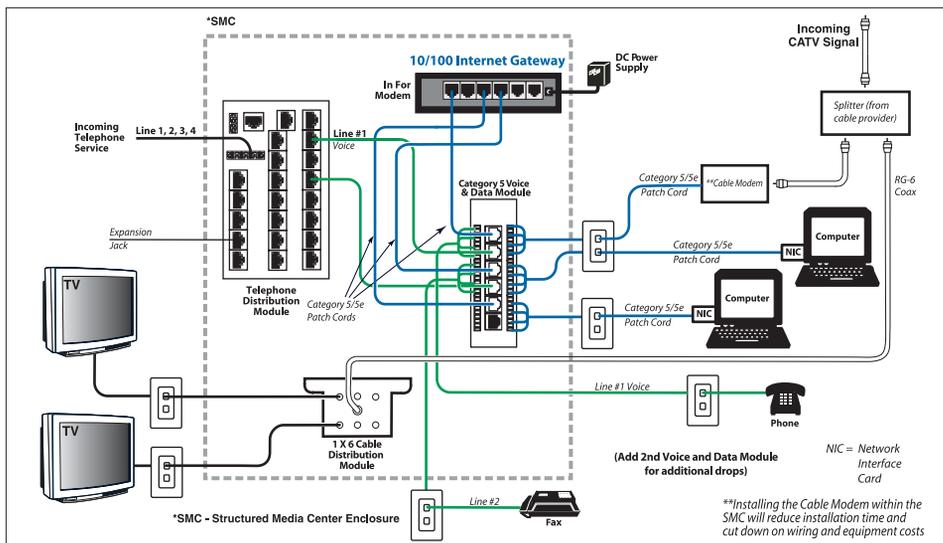

10/100 Base-T Switches and 10/100 Base-T Internet Gateway Router

SPECIFICATIONS	10/100BASE-T 5-PORT (OR 8-PORT) SWITCHES	10/100 BASE-T INTERNET GATEWAY ROUTER
Data Transfer Rate	10/100 Mbps	
Connectors	5 (or 8) ports, 1 AC Power Adapter Jack	4 LAN ports, 1 WAN port, 1 Uplink port, 1 AC Power Adapter Jack
Cabling Requirements	Standard Cat 5/5e UTP

Cable Distribution—Modem Outside the Structured Media Center

47611-5PT

47611-8PT

SPECIFICATIONS AND FEATURES

- Connects up to 4 devices directly (up to 253 computers via a series of cascaded devices) to the Internet using a single shared high-speed DSL, cable modem, or Satellite connection
- Allows fast Internet access at up to 100 Mbps
- Permits creation of a private high-speed home area network (HAN) or local area network (LAN) in small office/home office (SOHO) environments for all connected computers with its fast, integral 10/100Mbps auto-sensing Ethernet ports
- High performance suitable for demanding home office and telecommuting applications, including sharing of high-speed and high-capacity devices such as storage devices and back-up systems.
- Network Address Translation technology (NAT) creates a firewall that securely cloaks the private network from outside access
- Pass-through IPSEC and ISAKMP protocols allow attached LAN users to implement secure Virtual Private Network (VPN) communication applications on their PC's.
- Built-in DHCP server for easy setup and allocation of IP addresses on the LAN.
- Connections are made by running cable from desired locations to a Category 5e Voice and Data Module (either a stand-alone module page J10, or one of the units in the Pre-Configured Structured Cabling Panels page J9). From there, Category 5 or 5e patch cord can be used to connect the Gateway to the Category 5e Module.
- Network protocols: TCP/IP, DHCP, DNS, NAT, TFTP, HTTP, PPOE. Not PPOA
- Auto detect uplink: Use any port to cascade additional switches, hubs or routers

CATV 1GHz Video Distribution Modules

Cable service providers are converting to digital systems. These new systems will squeeze hundreds of channels plus Internet service onto the coax line. Leviton's high-performance CATV modules can support these new systems while limiting noise and other artifacts. Modules can distribute standard inputs such as CATV and antennas, and modulated inputs such as VCR's, DVD's and security camera/CCTV on coaxial cable throughout the house. Signals can be precisely controlled through the modules' built-in amplifier/attenuator (-5 to +15db) to compensate for variations in incoming signal strength for the clearest possible reception*.

Incorporates state-of-the-art bi-directional signal paths to support cable modem or cable box communications throughout a home or office. Choose from one or three-input models; both come with 8 outputs. One and three-input models come in both nickel-plated and gold-plated connector versions.

Dimensions: 3.50"H x 6.50"W x 3.20"D, Connector: F-Type, Impedance: 75 Ohm, Power Input: 12 VDC, 500 mA (1x8 & 3x8).

*Not for use in-line between 1 satellite dish (LNB) and DBS satellite TV receiver.

3x8 CATV Module, 1 GHz, Gold-plated Connectors	47693-G3Y

Video Amplifier

Run cable TV and other video service signals, such as antenna or other modulated input through this Video Amplifier Module and boost video signal strength up to 25 dB. Features a variable attenuator for signal amplification level setting, and an FM trap to eliminate unwanted FM interference.

SPECIFICATIONS

Dimensions:	6.58"H x 3.67"W x 4.4"D
Frequency Range MHz:	50-1000
Gain Control Range dB:	10-25dB
FM Trap dB:	25
Impedance:	75 Ohm
Connector Type:	F-type
Power Source:	12 VDC 500 mA

Video Amplifier

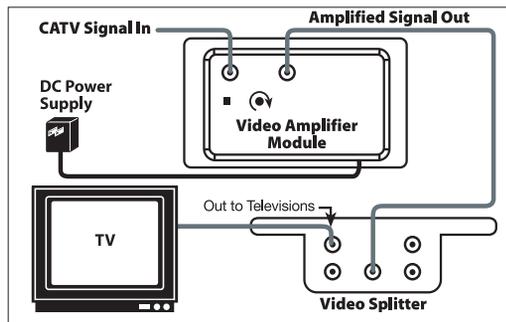

DESCRIPTION	CAT. NO.
Video Amplifier Module	48210-VA

48210-VA

SPECIFICATIONS AND FEATURES

- Run cable TV or other video signals through the Video Amplifier before splitting and distributing throughout the home or office.
- Boost signal strength by up to 25 dB.

VIDEO DISTRIBUTION

1 GHz Modules

1 GHz Video Splitters

SPECIFICATIONS AND FEATURES

- Splits video signals. Outputs for up to 4, 6 or 8 televisions.
- Provide digital cable, cable TV and other video services, via coaxial cable, to any room in the house.
- Die-cast housing and printed circuit board.
- Use with the Video Amplifier for increased signal strength.
- Units for SMC 140, 280, 420 come with mounting bracket.
- Gold-flashed contacts on 2 GHz units provide lowest conductive resistance.

47691-3MS

47691-5MS

SPECIFICATIONS AND FEATURES

- Distributes digital satellite signals to up to 4 TVs (47691-3MS) or 8 TVs (47691-5MS).
- Combines signals from digital satellite with off-air antenna onto single coax cable.
- DSS 75 Ohm and 2.0 GHz Combiner/Diplexer with DC Blocking, Cat. No. 40856-DSS, is available to separate antenna and cable signals.

Passive Components

Use 4-, 6- and 8-way Passive Video Splitters to split digital cable, quality cable TV and off-air antenna signals to 4, 6, or 8 televisions throughout the home or office. They feature die-cast housing and printed circuit board construction. Use with the Video Amplifier for increased signal strength.

1x4, 1x6, 1x8 Passive Video Splitters

1x8 Passive Video Splitter For Compact Structured Media Enclosure (2GHz)	47690-G8

Satellite Distribution Components

3x4 Multi-Switch—Passive module combines signals from dual incoming LNB digital satellite systems with off-air antenna signals on a single coaxial cable, enabling distribution to up to 4 TV's. Module incorporates a separate input for TV antenna signals (best used in combination with a video amplifier).

5x8 Multi-Switch—Active module combines signals from two dual incoming LNB digital satellite systems with an off-air antenna or cable signals on a single coaxial cable, enabling distribution to up to 8 TV's. Works with HDTV or standard receivers and with integrated multi-switches at the satellite dish; also works with DirecTV® systems. Equipped with built-in low noise amplifier and 24VDC power supply.

Leviton Video Monitoring System

Leviton's easy-to-install, high-resolution color video cameras only require one CAT 5e cable for video and power connections, both of which are supplied by a Camera Hub in the SMC. The Camera Hub installs in a single Leviton bracket space in the SMC and the cameras mount with only two screws on a low voltage ring (Indoor Camera) or outdoor electrical box (Outdoor Camera). Standard 110 IDC terminations and 8P8C jacks make the UTP cable connections quick, simple and reliable. Indoor Camera fits in a Decora style wallplate and comes with clear and tinted lens covers. The Outdoor Camera provides 0 Lux operation with IR illumination.

The Leviton IP/Quad Module enables users to view a full-screen single Indoor or Outdoor camera view or multiple cameras, up to four at once in the same "quad" view, on one or more TV sets in the home, or via the Internet from any location using an Internet browser on a PC. Mount s directly in SMC with integral mounting bracket.

Video Monitoring System Components

DESCRIPTION	CAT. NO.
Indoor Color Camera	VSIND-OSC
Outdoor Color Camera	VSOUT-00W
Camera Hub	VSHUB-000
IP/Quad Module	VSQIP-000

VSIND-OSC

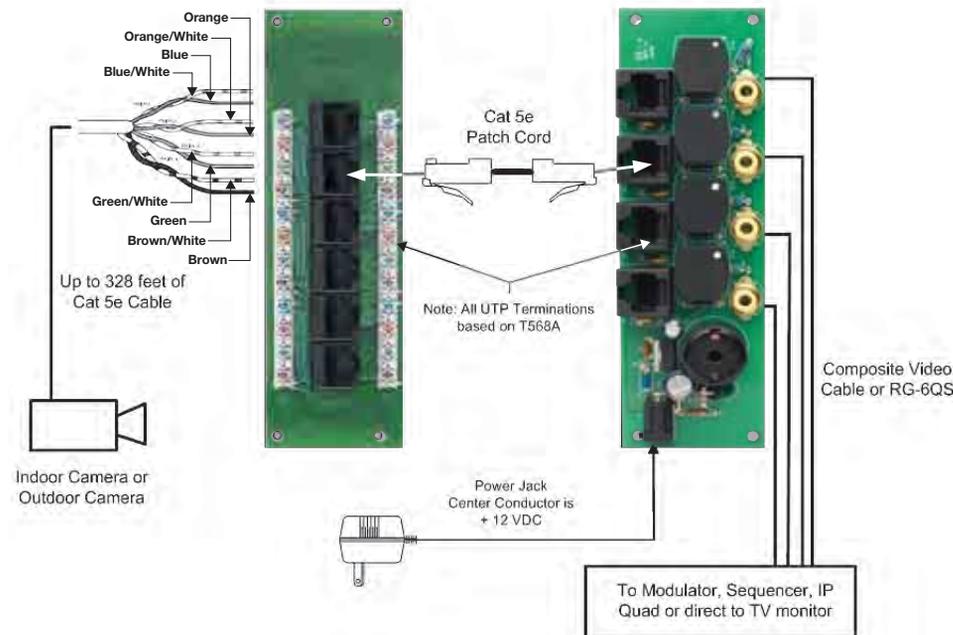

VSOUT-00W

VSHUB-000

VSQIP-000

SPECIFICATIONS AND FEATURES

Camera Hub

- Powers camera engines over UTP connection up to 100 meters

Indoor Camera

- Includes balun for clear video over UTP cable
- Includes 15VDC input power terminals for separate power cable where UTP run exceeds 100 meter limit
- Internal strap allows viewing angle adjustment
- Fits standard Decora plate with snap-in clear or smoked inserts

Outdoor camera

- Auto-on infrared LEDs for B&W video images in zero Lux conditions
- Includes balun for clear video over UTP cable

- Includes 15VDC input power terminals for separate power cable where UTP run exceeds 100 meter limit
- Mounts via special single-gang wallplate.
- Ball-joint strut allows 360° rotation and +/- 90° tilt viewing angle adjustment

IP/Quad Module

- Mounts directly to the SMC with integral mounting bracket
- Enables user to view Indoor and Outdoor Cameras on one or more TV sets in the home or via the Internet from any location using an Internet browser on a PC
- Easy browser setup and control of all cameras, including camera name, sensitivity, brightness, contrast, saturation, hue, and single or multiple camera display mode

HOME VIDEO MONITORING SYSTEM

Media Center Modulator

The Media Center Modulator takes the signal from a video device such as a security camera (or multiple cameras using the Video Sequencer) and modulates the signal to one unused cable TV channel, which can then be combined with the CATV signal to multiple locations anywhere in the home, effectively providing a whole-house security channel.

Select the broadcast channel to be programmed via dip-switch button programming. The modulator provides 0, 10, 20 or 30 dBmV RF output.

Note: Modulator broadcasts mono audio only. In a Structured Media System, when used with Structured Media Video Distribution modules, the Modulator must be used with a Leviton Notch Filter (PN 47690-NFA) to clear the target cable channel and avoid interference.

48213-VMA

SPECIFICATIONS AND FEATURES

- RCA video and audio inputs.
- F-Connector output: 14-69 UHF; 70-94, 100-125 CATV.
- DC power supply.

SPECIFICATIONS

Dimensions:	3.2"H x 2.25"W x 1"D
Inputs:	RCA video, RCA audio inputs
Outputs:	1 F-connector for RF signal
Operational channels:	14-69 UHF; 70-94, 100-125 CATV
Bandwidth:	50MHZ-860MHZ
Power:	12V DC 400mA

Media Center Modulator

DESCRIPTION	CAT. NO.
Media Center Modulator	48213-VMA

48213-CVS

SPECIFICATIONS AND FEATURES

- Inputs for up to four video cameras and audio sources.
- Automatic switching between cameras.
- 1-30 second variable time setting between cameras.
- RCA composite audio/video inputs and outputs.

Video Sequencer

The Structured Media Video Sequencer, which automatically switches between video cameras, is a security product engineered for long-term home use. With the Video Sequencer, up to four Decora Cameras* may be monitored sequentially. The Sequencer allows a variable time-interval setting from 1-30 seconds on each camera to allow thorough surveillance of any perimeter or interior. The Video Sequencer has four composite RCA audio/video inputs and two sets of RCA outputs to connect with a monitor or modulator. It snaps into a 280 or 420 Structured Media Center.

SPECIFICATIONS

Dimensions:	7.4"H x 4.75"W x 2"D
Power:	12 VDC @ 300mA
Inputs:	Four RCA video; Eight RCA left/right audio
Outputs:	2 RCA video and 4 RCA left/right audio
Time interval:	1-30 seconds, variable/adjustable
Signal to Noise Ratio:	<1.2dB
Bandwidth:	5MHz

Video Sequencer

DESCRIPTION	CAT. NO.
Video Sequencer	48213-CVS

**Not for use with Indoor/Outdoor B&W Camera with built-in modulator (Cat. No. 48213-BMC).*

Indoor/Outdoor B&W Camera with Built-in Modulator

The Indoor/Outdoor B&W Camera allows monitoring of front doors, back yards, and anywhere an extra eye is desirable. It is designed to withstand temperature and environmental extremes when mounted in a suitable location.* The camera uses a single wire for power and video making installation easy. Output is controlled by a dip-switch inside the camera housing. Permits 360° horizontal adjustment and 180° vertical adjustment.

**Recommended mounting is in a sheltered location such as under an eave or overhang and away from direct exposure to rain and snow.*

Not for use with video sequencer

SPECIFICATIONS

Dimensions:	Base 5.5" x 4.5"
Power:	12 VDC, 300mA
Output Connection:	F-Connector, 75 Ohm
Camera Lens:	3.6 mm
Resolution:	350+ lines
Minimum Illumination:	0.7 lux
Output Level:	27 dBmV
Output Frequency:	UHF 14-69, CATV 70-94, 100-125
Cable Type:	RG 59, RG6 or better

DESCRIPTION	CAT. NO.
Indoor/Outdoor B&W Camera with Built-in Modulator	48213-BMC

RF Notch Filter

The RF Notch Filter is an essential element of Home Security Monitoring and Multi-Room Video. It blocks incoming cable TV channels 75-80, allowing the Media Center Modulator or Component Modulator to broadcast an in-house "security" or "entertainment" channel over the coaxial cable system without interference. The Notch Filter simply couples to the coaxial cable TV input on either a splitter or an active video distribution device. Once installed, it filters out six cable channels to make room for any home security or entertainment video application. It also blocks outgoing signals, such as cameras, from being broadcast outside the home.

SPECIFICATIONS

Dimensions/Weight:	3"L x .9"W – 2lbs
Type:	Passive RF filter
Bandwidth:	CATV channels 75-80
Input:	Female F-connector
Output:	Male F-connector

RF Notch Filter

F, G, H

RESIDENTIAL INTERCOM SYSTEM

Leviton brings the home intercom into the 21st century with the introduction of its new Residential Intercom system for Structured Media™ installations. Available as a series of easy-to-install components, the Residential Intercom system is designed to incorporate easily into the category 5-based modular structured wiring systems that have become a standard feature of today's high-tech homes.

DESCRIPTION	CAT. NO.
A-Intercom Kit (includes Main Controller Board, 1 Interface Board on a bracket with 1 Outdoor station)	47000-MKB
B-Main Controller Board	47000-00M
C-Outdoor Station (Brushed nickel finish)	47000-OD1
D-Indoor Station (White)	47000-OW1
E-Indoor Station (Black)	47000-OE1
F-Door Strike Module	47000-STR
G-Interface Board with 4 additional ports	47000-PRT
H-Door Chime Module	47000-CHM

SPECIFICATIONS AND FEATURES

- Main controller board installs easily in SMC
- System integrates with other services in SMC (phone system, door strike, lighting controls, door bell, dry contact security devices and Indoor and Outdoor Stations)
- Supports up to 12 wall station locations in four zones
- Onboard firmware for music-on-hold
- Answering machine function for message and message taking for intercom activations
- Allows call-on-hold for hang-up at one location and pick-up at another
- Allows whole-house paging, including phone-to-phone paging
- CCTV capability integrated in Interface Board

Leviton Architectural Edition™ powered by JBL Products and Systems

When music and film professionals who create and record sound for a living have to “get it right,” they insist on JBL. Because they know JBL systems will faithfully deliver all the clarity, accuracy and impact of the original performance. When it comes to entertaining at home, why settle for less than the recording industry’s best? Especially when Leviton makes it easy to build premium JBL sound right into the home and enjoy music, movies and more with the same legendary quality heard in concerts, clubs, recording studios, and from behind the screens of the best theaters in the world.

The Leviton Architectural Edition powered by JBL program transforms a living room into a cinema, a deck into an outdoor concert, a kitchen into an elegant bistro, a dining room into a dance hall. Even a master bath turns into a luxurious private retreat. Most important, Leviton/JBL systems are the product of precision engineering, advanced audio technology, painstaking craftsmanship and the latest advances in materials— the same technologies, features and performance that make JBL the first choice of professionals. And they are offered through a select network of quality homebuilders and trained installation professionals working with Leviton, the leader in residential connectivity and home networking systems.

Leviton Architectural Edition™ powered by JBL Indoor In-Wall and In-Ceiling Speakers

Leviton/JBL multi-room In-Wall and In-Ceiling Speakers can deliver a professional listening experience in the home because they incorporate the same features and technologies found in JBL’s renowned family of professional studio monitors, including an Elliptical Oblate Spheroidal™ (EOS) Waveguide for improved high-frequency dispersion throughout a listening area, Titanium-laminate drivers to ensure musical accuracy and clarity, and HeatScape™ magnetic structures for impact and bass realism.

6.5-Inch (170mm) Two-Way In-Wall Loudspeaker

Acoustically transparent paintable baffles and grilles. 1” (25mm) Titanium laminate dome tweeter and 6.5” (170mm) Titanium-laminate woofer, Frequency Response (-10dB): 38 Hz-20 kHz, Sensitivity (2.83V/1m): 88 dB, Power Handling: 80 Watts, Impedance: Nominal 8 Ohms, Dimensions: 11” (279mm) H x 8.5” (226mm) W x 3.87” (98mm) D. Weight: 5 lb/2.3 kg per speaker. Sold in pairs.

DESCRIPTION	CAT NO.
6.5-Inch Two-Way In-Wall Loudspeaker	AEI65

8-Inch (200mm) Two-Way In-Wall Loudspeaker

Acoustically transparent paintable baffles and grilles. 1” (25mm) Titanium laminate dome tweeter and 8” (200mm) Titanium-laminate woofer, Frequency Response (-10dB): 30 Hz-20 kHz, Sensitivity (2.83V/1m): 89 dB, Power Handling: 100 Watts, Impedance: Nominal 8 Ohms, Dimensions: 13.12” (333mm) H x 10.12” (257mm) W x 4” (102mm) D. Weight: 7.8 lb/3.5kg per speaker. Sold in pairs.

DESCRIPTION	CAT NO.

Leviton Architectural Edition™ powered by JBL Outdoor/All-Weather Speakers

As the brand delivering sound in more concert venues than any other (including all three Woodstock festivals) JBL is extremely qualified to bring premium sound outdoors. These outdoor speakers are engineered to withstand long-term exposure to the elements right down to their weatherized grilles and input connectors. They are also ideal for indoor pools, atriums and other large open spaces where enclosure speakers with large-area coverage are desired.

Outdoor/All-Weather Two-Way Loudspeaker

Professional-grade injection-molded weather-resistant ported base-reflex enclosure with metal-mesh grille, .75" (19mm) Titanium laminate dome tweeter and 4" (100mm) WeatherPlas™ (polymer-coated cellulose fiber cone) woofer with rubber surround, high-temperature/oversized Kapton® voice coil and HeatScape™ motor structure, Frequency Response (-3dB): 75 Hz-20 kHz, Sensitivity (2.83V/1m): 86 dB, Power Handling: 100 Watts, Impedance: Nominal 8 Ohms, Dimensions: 9.5" (241mm) H x 6.25" (159mm) W x 4.75" (121mm) D. Weight: 4.5 lb/2.1 kg per speaker. Sold in pairs.

DESCRIPTION	CAT NO.
Outdoor/All-Weather Two-Way Loudspeaker	AEN24

Outdoor/All-Weather Three-Way Loudspeaker

"Extreme performance" three-way professional-grade sealed enclosure speaker with all-metal, gold-plated binding posts for outdoor applications and for music and home theater installations (as a satellite with a subwoofer system). 1" (25mm) Pure Titanium laminate dome tweeter, 4" (100mm) WeatherPlas™ shielded midrange with Linear Field Proximity (LFP) bezel and 6" (150mm) WeatherPlas™ (polymer-coated cellulose fiber cone) woofer with rubber surround, high-temperature/oversized Kapton® voice coil, Frequency Response (-3dB): 60 Hz-20 kHz, Sensitivity (2.83V/1m): 90 dB, Power Handling: 150 Watts, Impedance: Nominal 8 Ohms, Dimensions: 10.25" (260mm) H x 14.62" (371mm) W x 5" (127mm) D. Weight: 11 lb/5 kg per speaker. Sold in pairs

DESCRIPTION	CAT NO.
Outdoor/All-Weather Three-Way Loudspeaker	AES36*

Leviton Architectural Edition™ powered by JBL Home Theater Speaker Components

JBL systems measure-up to higher standards than "home" theater, because more JBL speakers are found in film recording studios and behind the screens of the worlds best movie theaters than any other brand. This select group of installed and enclosed speakers for residential home-theater applications can bring cinema realism to any living room.

Two-Way In-Wall Center Channel Speaker

Can be used in front-speaker home theater applications either singly with Leviton/JBL In-Wall left and right speakers or in a matched set of three left/right/center speaker in ultra-premium installations. Acoustically-transparent paintable baffle and grille. 1" (25mm) Pure Titanium dome tweeter and two 5" (125mm) Polymer-coated aluminum woofers, Frequency Response (-10dB): 40 Hz-20 kHz, Sensitivity (2.83V/1m): 88 dB, Power Handling: 120 Watts, Impedance: Nominal 8 Ohms, Dimensions: 7.5" (191mm) H x 15.37" (391mm) W x 3.87" (98mm) D. Weight: 5.7 lb/2.5 kg per speaker. Sold individually

DESCRIPTION	CAT NO.
Two-Way In-Wall Center Channel Speaker	AEI55

Dual 5-Inch (125mm) Two-Way Shelf-Mount Center Channel Loudspeaker

Enclosed free-standing, shelf-mounted center-channel speaker to accompany in-wall installed left and right speakers like the Leviton/JBL AEI65, AEI80 and AEI55. .75" (19mm) Titanium laminate dome shielded tweeter and two 5" (130mm) PolyPlas™ shielded woofers, Frequency response (-3dB): 75 Hz-20 kHz, Sensitivity (2.83V/1m): 90 dB, Power Handling: 75 Watts, Impedance: Nominal 8 Ohms, Dimensions: 6.5" (165mm) H x 20.25" (514mm) W x 9.62" (244mm) D. Weight: 9.6 lb/4.4 kg per speaker. Sold individually..

DESCRIPTION	CAT NO.
Dual 5-Inch (130mm) Two-Way Shelf-Mount Center Channel Loudspeaker	AECCS

Powered 12-Inch Subwoofer

Freestanding front firing, powered (amplified) subwoofer to reinforce in-wall and in-ceiling installed systems in home theater viewing. High-efficiency, high current switched amplifier. Variable low-pass crossover and output level (volume) control. 12" (300mm) PolyPlas™ woofer with heat-resistant voice coil, front-firing enclosure. Amplifier output (RMS): 300 Watts, Dynamic power (peak): 600 Watts, Frequency response (+/- 3dB): 25 Hz low-pass crossover setting (variable), Dimensions: 19.75" (502mm) H x 14.37" (365mm) W x 18" (457mm) D. Weight: 39.5 lb/18 kg. Sold individually.

DESCRIPTION	CAT NO.
Powered 12" Subwoofer	AESUB

Leviton Architectural Edition™ powered by JBL On-Wall Home Cinema Speaker System

An ideal solution for home theater locations where an in-wall/ in-ceiling installed home theater speaker solution is impractical but full performance is desired (such as in room corner installations). This is a 5-channel surround-sound package that is expandable to 6.1 or 7.1 surround-sound operation with the addition of optional matched AESS5 Expansion Satellite Speaker(s). Includes 5 mounting brackets and subwoofer input RCA cable. Available in White or black finish

Home Cinema Speaker System

Speaker Complement: Five 2-way magnetically shielded satellite speakers with high-output 2.5" (63.5mm) woofer and precision .5" (12.7mm) tweeter, and one 8" (200mm) 100 watt powered subwoofer with LFE input, adjustable level control, and built-in crossover network for use with speaker-level outputs. Enclosure: Bass-reflex with FreeFlow™ flared port, Recommended power range: 10-100 Watts, Subwoofer Frequency Response (+/- 3dB): 150 Hz-20kHz, Satellite Speaker Sensitivity (2.83V/1m): 86dB, Satellite Impedance: Nominal 8 Ohms, Dimensions (Subwoofer): 16.25" (413mm) H x 11" (279mm) W x 13.75" (349mm) D, Dimensions (Satellite Speaker): 5" (127mm) H x 3.5" (88mm) W x 3.5" (88mm) D Subwoofer weight: 28 lb/12.7 kg.

Expansion Satellite Speaker

One 2-way magnetically shielded satellite speaker with high-output 2.5" (63.5mm) woofer and precision .5" (12.7mm) tweeter. Recommended power range: 10-100 Watts, Frequency Response (+/- 3dB): 150 Hz-20kHz, Speaker Sensitivity (2.83V/1m): 86dB, Impedance: Nominal 8 Ohms, Dimensions (Satellite Speaker): 5" (127mm) H x 3.5" (88mm) W x 3.5" (88mm) D Weight: 1.8lb/0.8kg per speaker.

Audio/Video Entertainment Center Components and Accessories from Harman/Kardon™

There is no better way to assure the highest performance and value from a state-of-the-art Leviton/JBL than to power it with matched Harman/Kardon Entertainment Center. The Harman/Kardon components available as part of the Leviton/JBL program represent a summary of today's most advanced analog and digital audio and video technologies—and ensure full compatibility with the home entertainment formats and platforms of the future.

Harman/Kardon Audio/Video Receivers

Harman/Kardon 7.1-channel digital audio/video receivers offer a wealth of listening and viewing options, including high-current amplifier design for accurate tracking of musical and audio/video source information, the latest HDMI audio/video input and switching, auto speaker calibration for surround sound perfection, multi-room audio, XM Satellite Radio and I-Pod capability, and much more, all in an elegant package.

DESCRIPTION	CAT NO.
7.1 Channel Surround Sound A/V Receiver, w/HDMI™ Switching and A-BUS®	HKAVR-XXX*
7.1 Channel Surround Sound A/V Receiver, w/HDMI™ Switching	HKAVR-XXX*

High-Performance Single-Disc DVD Player

Advanced video performance requires a maximum resolution source, because the best TV screen is only as good as what's fed into it. The Harman/Kardon progressive-scan DVD Player is equal to the task, with HDMI output, DCDi by Faroudja video processing, and up-scaling to 1080i high-definition playback.

DESCRIPTION	CAT NO.
High-Performance Single-Disc DVD Player with HDMI Output and 1080i Upscaling	HKDVD-038*

High-Definition 5-Disc CD Carousel Changer

The Harman/Kardon Changer compliments your multi-room audio system by delivering hours of music with a wide range of programming options to customize the mix – and advanced digital signal processors and digital output capability to ensure that every musical note is delivered free from distortion.

DESCRIPTION	CAT NO.
High-Definition 5-Disc CD Carousel Changer	HKDC-000*

The Bridge™ iPod Docking Station

The Bridge docking station allows your favorite iPod tracks and playlists to be controlled and heard through an entire home entertainment system when used with a compatible Harman/Kardon A/V Receiver.

DESCRIPTION	CAT NO.
The Bridge™ iPod Docking Station	HKPOD-000*

Infrared Remote Sensor

The low-profile IR remote sensor can be placed conveniently to control audio and video components with a compatible receiver's remote control even when they are in a cabinet or entertainment center. All Harman/Kardon AV products can be connected together so that one IR Sensor can operate them all.

DESCRIPTION	CAT NO.
IR Remote Sensor	HKRMS-000*

Harman/Kardon™ A-BUS® System

Multi-room music is easy with these amplified volume controls and distribution hub. The hub simply plugs into the back of an A-BUS Ready® Harman/Kardon (or other brand) A/V Receiver, and sends a selected sound source to up to four rooms/zones where the amplified volume controls take over. The system is ideal for background and casual indoor audio entertaining applications.

Amplified In-Wall A-BUS Volume Control

A Decora up/down amplified rocker-style volume control for dedicated speakers in a single room/zone for use with any A-BUS Ready Harman/Kardon A/V Receiver. Also accepts control commands to A/V receiver or other compatible components via a built-in IR sensor.

DESCRIPTION	CAT NO.
Amplified In-Wall A-BUS® Volume Control	HKABV-000*

A-BUS® Hub 4-Zone System Expansion

When used with the A-BUS interface on compatible HKAVR A/V Receivers, it allows the A/V Receiver to operate up to four rooms/zones of distributed audio (with HKABV Volume Controls and connected speakers).

DESCRIPTION	CAT NO.
A-BUS® Hub 4-Zone System Expansion	HKABH-000*

Leviton Architectural Edition™ Multi-Room Audio Amplifiers

Leviton's AE6MA and AE6MC Architectural Edition Multi-Room Audio Amplifiers combine advanced audio engineering, high-current performance and tremendous value in a single low-profile chassis that delivers superior multi-channel amplification to meet the needs of the most demanding residential multi-zone systems. Combining "audiophile" sound quality with commercial reliability, these amplifiers are a no-compromise solution for large, high-output multi-room listening systems. The amplifiers are designed for long-term use with advanced circuit protection and a thermostatically-controlled cooling fan. The AE6MA is a perfect balance of performance and simplicity, with input source flexibility through a unique "electronic channel link" feature that enables different single sources to be assigned to different rooms/zones. The AE6MC is the ultimate in listening flexibility, with advanced LCD keypads that enable the selection of up to seven different audio sources in any room with full independent control.

AE6MA

AE6MA-back

Single-Source 12 Channel (6 Stereo Pairs) Six-Room/Zone Multi-Channel Power Amplifier

Output power: 50 Watts nominal (40 watts per channel 20Hz to 20kHz @ <0.2% THD, all channels driven into 8 ohms); Peak output power: 100 watts per channel; Inputs: Gold-plated RCA jacks with adjustable input gain; Outputs: 5-way gold-plated binding posts; Total Harmonic Distortion (THD): Less than 0.1% 20 Hz to 20 kHz; Signal-to-noise ratio: Over 105 dB; Fan noise: Quiet 28 dB; Dimensions: 3.5 in (89mm) H x 17 in (432mm) W x 11.5 in (292mm) D

AE6MC-PAD

SPECIFICATIONS AND FEATURES

Single-Source 12 Channel (6 Stereo Pairs) Six-Room/Zone Multi-Channel Power Amplifier

- Automatic protection circuitry
- Individual input gain adjustment
- External power ON/OFF through external controllers
- Channel Link allows channels to have individual sources or share a common source
- Cooling fan prevents overheating and maximizes energy efficiency

Single-Source 12 Channel (6 Stereo Pairs) Six-Room/Zone Multi-Channel Power Amplifier

- Seven source input selection for each amplifier

- RS-232 port for use with whole-house and PC-based compatible control systems
- Six internal 80+ position stereo volume controls
- High efficiency/small space.
- Automatic protection circuitry
- Individual bass, treble and balance adjustment of speakers in each room
- External power ON/OFF through external controllers
- All-zone control through use of AE6MC keypad
- Cooling fan prevents overheating and maximizes energy efficiency

An entertainment system is like a chain – it can only be as strong as its weakest link. The Leviton Architectural Edition series of products was developed to make sure that every link in the system—volume controls, distribution and connection components, even multi-room amplifiers—have no weak points and are as “state-of-the-art” in performance as the systems’ speakers. The Leviton Architectural Edition is a complete solution for entertainment system designers and installers. Leviton’s award-winning System Matching module and Strauss™ Transformer-Free volume controls use advanced aerospace technology to deliver ruler-flat frequency response to every zone of a multi-room audio system. The Architectural Edition multi-room audio amplifiers combine advanced audio engineering, high-current performance and tremendous value in a single low-profile chassis that delivers superior multi-channel amplification to meet the needs of the most demanding residential multi-zone systems. The advanced circuit engineering inside Leviton’s home theater and multi-room wallplates means that audiophile-grade connectivity can be easy and quick to install.

Composer Series Volume Controls

Leviton’s Composer Series controls are built to a single quality standard, which means system designers can specify them for any distributed sound application with total confidence. (Leviton’s Strauss and Chopin Digital Volume controls use the same heat-dissipation technology used on the space shuttle and resistive switching to achieve ruler-flat frequency response.) On the Brahms rotary controls, tapped auto-transformer design provides a stable interface between high-current amplification and speakers of virtually any type while resisting contamination from dust and dirt. All audio power ratings are UL referenced. All volume controls feature screw connectors for long-term connection integrity.

Decora® Strauss™ Transformer-Free™ and Impedance Matching Transformer-Free™ Volume Controls

In multi-room distributed audio systems, the source of undesirable speaker coloration (usually perceived as a “muffled” sound) is often the volume control itself, because the audio transformers (AKA: autoformers) used in conventional controls can actually filter the bass and treble frequencies. The Decora Strauss Transformer-Free Volume Controls use audio-grade Cermetile resistors to change volume levels while leaving the audio signal unaffected, resulting in ruler-flat frequency response across the entire audible frequency range. Moreover, Decora Strauss Transformer-Free Volume Controls eliminate the problem of “saturation” associated with conventional volume controls and can handle tremendous amounts of music power. Available in standard and impedance-matched versions.

SGVST-00W

SPECIFICATIONS

Speaker Impedance:	2-16 Ohms (nominal 8 Ohms)
Power Handling:	200W peak/100W RMS
Frequency Response:	20Hz-20KkHz +/- 1dB
Dimensions:	4.06"(103.1) H x 1.32"(33.5) W x 2.5"(63.5) D
Mounting:	Standard single-gang design with a mounting depth of 2.5"
Wire Gauge:	Detachable cable connectors are compatible with all standard speaker wire sizes (14-18 gauge)
Color:	White (Optional color change kits available)

Decora Strauss Transformer-Free Volume Control

DESCRIPTION	CAT NO.–WHITE
Decora Strauss Transformer-Free Impedance-Matched Volume Control	SGVSM-00W
Decora Strauss Transformer-Free Volume Control	SGVST-00W
Color change kit converts to Ivory and Almond	SGVCK-IA
Color change kit converts to Ebony	SGVCK-00E
Color change kit converts to Light Almond	SGVCK-OLA

SPECIFICATIONS AND FEATURES

- Decora slide control with precision 12-position switch (including fully-OFF position)
- Transformer-Free™ volume controls deliver rich, full sound at any volume level in any room
- Aerospace-grade Cermetile resistors replace conventional autoformers to maintain audio signal purity
- Detachable cable connector is compatible with all standard speaker wire (14-18 gauge)

Decora Digital™ Chopin™ Volume Control

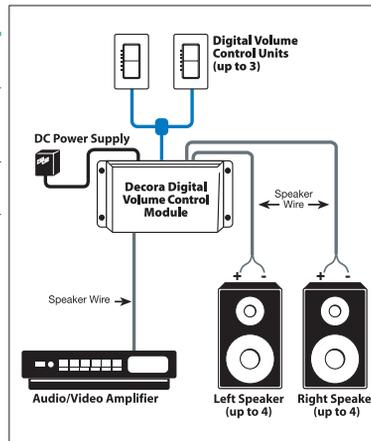

Fill a room with high-quality audio at the touch of a button, replacing traditional transformers and rotary controls with this advanced interface module and one-touch Decora Chopin Rocker-Switch Wall Unit. Attractive Decora styling and transformer-less design delivers simplicity and superior sound-quality, and enables “three-way” volume control operation in larger rooms/zones. The Volume Control mounts in a standard wall box or low-voltage mounting bracket and connects via Category 5 cable to the Interface Module.

SPECIFICATIONS

Peak RMS Power Rating:	200 Watts per channel
Continuous Power Rating:	100 Watts RMS per channel
Frequency Response, all rated power levels, +/-0.1 dB:	DC-50,000 Hz
Speaker Impedance:	4-16 Ohms nominal
Speaker/Amplifier Connection:	Removable, snap-in audio monoblock w/screw terminals
Power:	12 Volts DC, 200 mA

Brahms Autoformer Volume Controls

On the Brahms series of rotary controls, tapped auto-transformer design provides a stable interface between high-current amplification and speakers of virtually any type while resisting contamination from dust and dirt.

Brahms™ Stereo Volume Controls—75 Watt Audio

The 75 Watt Brahms series (25 Watts RMS) of volume controls is designed for low to moderate power installations in the home. The units accommodate 4, 8 or 16 Ohm speakers and amplifiers up to 75 Watts. All controls are impedance matching.

Attenuation: -34 dB in 12 steps. Attenuator Type: Tapped auto transformer. Power Rating: UL Listed @ 75 Watts audio, 25 Watts RMS continuous. Frequency Response: 35 Hz–20 kHz. Screw type connections, 12 position rotary switch.

Decora® Brahms™ Stereo Volume Controls—75 Watt Audio

Control stereo volume from convenient wall-mounted location.

DESCRIPTION	CAT NO.—WHITE
Decora Brahms Stereo Volume Control, 75 Watt, 25 Watt RMS with insert, knob and plate. Boxed unit pack, rack pack carton	40841-ODW

40841-ODW

SPECIFICATIONS AND FEATURES

Decora Digital Chopin Volume Control

- Connects to Interface Module with a single RJ-45 connection. No direct speaker/amplifier connections required at the controller.
- Microprocessor-controlled relays for silent switching.
- Provides impedance matching with speakers from 4–16 Ohms.
- Terminates all amplifier and speaker connections using high-quality audio connection block.
- Digital, transformer-free design uses aerospace-quality ceramic resistors for proper heat dissipation and superior performance.
- Each audio zone requires one Digital Volume Control module.
- Each Digital Volume Control module can support up to three volume control units.
- Each Digital Volume Control module can control up to 4 pairs of speakers.
- Tap mute feature activated when center of rocker panel is pressed.

40905-25W

Decora® Brahms™ Stereo Volume Control with ON/OFF Switch—75 Watt Audio

Control of ON/OFF, as well as volume control.

DESCRIPTION	CAT NO.—WHITE
Decora Brahms Stereo Volume Control, 75 Watt, 25 Watt RMS with insert, knob and plate. Boxed unit pack, rack pack carton	40905-25W

Decora® Brahms™ Stereo Volume Controls—216 Watt Audio

The 216 Watt Audio (72 Watt RMS) Strauss volume control series is designed for higher power installations in the home,. Their heavy-duty autoformer construction is designed to resist saturation and degradation even after years of high-volume use. The units accommodate 4, 8 or 16 Ohm speakers and amplifier systems rated up to 216 Watts. All controls are impedance matching.

Attenuation: -34 dB in 12 steps. Attenuator Type: Tapped auto transformer. Power Rating: UL Listed @ 216 Watts Audio, 72 Watts RMS continuous. Frequency Response: 35 Hz–20 kHz. Screw type connectors, 12 position rotary switch.

Decora® Brahms™ Stereo Control with ON/OFF Switch—216 Watt Audio

Convenience of ON/OFF, as well as volume control.

DESCRIPTION	CAT NO.—WHITE

40888-72W

Leviton Architectural Edition System Matching Module with AutoSurge™ Technology

The System Matching Module is used to match the impedance of all speakers and volume controls automatically at a central wiring point. It allows connecting up to six rooms of speakers to a stereo amplifier, and is a cost-effective way to design a passive, impedance-matched multi-room music system.

NOTE: Do not use the System Matching Module with impedance-matched volume controls.

SPECIFICATIONS

Dimensions:	2.57"(68.6) H x 6.38"(161.9) W x 5.38"(136.5) D
Mounting Location:	Mounts in Leviton Structured Media™ Centers
Power Handling:	150W RMS per channel/225W peak
Frequency Response:	10Hz-40kHz, +/- .5dB
Wire Gauge:	Detachable cable connectors are compatible with all standard speaker wire sizes (18-14 AWG)

System Matching Module

DESCRIPTION	CAT NO.-WHITE
System Matching Module with AutoSurge Technology	SGAMP-000

SGAMP-000

1x6 Passive Audio Module

Easy, centralized audio system distribution module connects up to six pairs of speakers from an entertainment center or amplifier. Note: To ensure a correct impedance match with an amplifier, only use the passive audio module with impedance-matched volume controls.

SPECIFICATIONS

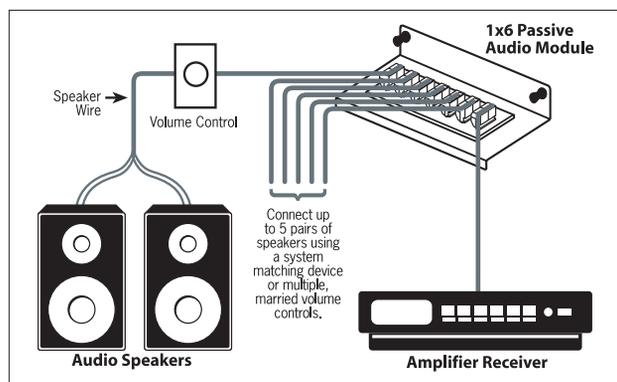

Dimensions:	6.58"H x 2.89"W x 1.42"D
Wire Gauge:	18-14 AWG
Requirements:	Product should be used with impedance-matched volume controls

48211-06A

1x6 Passive Audio Module

DESCRIPTION	CAT. NO.
1x6 Passive Audio Module	48211-06A

SPECIFICATIONS AND FEATURES

System Matching Module

- Connects up to six rooms/zones
- Convenient single-point connection for all speakers
- Combine with Decora® Strauss™ Transformer-Free-Volume™ Controls or equivalent to control up to six locations of speakers from one amplifier or receiver*
- User-removable connectors facilitate installation
- Transformer-Free impedance-matching design ensures linear frequency response, signal integrity and high power handling capacity

1x6 Passive Audio Module

- Supports up to six pairs of speakers.
- Parallel connection scheme insures the best sound quality.
- User-removable connectors facilitate installation.
- Connects with standard fire-rated speaker wire.

Home Theater and Multi-Room Integrated Wallplates

Both integrated wallplates combine the convenience of a ready-made plate with pre-configured wiring terminations with the performance and connection quality of "audiophile-grade" connectors. These plates are complete and ready-to-use, and make a "custom quality" statement in any installed entertainment system.

Home Theater Interface Wallplate

Connector Type (Front of module): 14 audiophile-grade, gold-plated black and red spring clips, 2 RCA connectors, 2 QuickPort openings; Connector Type (Back of module): 8-pin and 6-pin in-line pluggable screw terminals; Wallplate: High quality impact-resistant white plastic, standard 3-gang with matching painted screws; Mounting Depth: 2.5" (64mm); Wiring: 14-16 gauge speaker wire

DESCRIPTION	CAT NO.
Home Theater Interface Wallplate	AEHTK-000

AEHTK-000

Multi-Room Stereo Speaker Wallplate

Connector Type (Front of module): 4 audiophile-grade, gold-plated black and red spring clips, 2 QuickPort openings; Connector Type (Back of module): Two 2-pin in-line pluggable screw terminals; Wallplate: High quality impact-resistant white plastic, standard single-gang with matching painted screws; Mounting Depth: 2.5" (64mm); Wiring: 14-16 gauge speaker wire

DESCRIPTION	CAT NO.
Multi-Room Stereo Speaker Wallplate	AEMRK-000

AEMRK-000

Specialized Audio/Video Wallplates

These high-value plates are quick to install and intuitive to use when connecting a multi-room entertainment system.

Single Spring Clip Wallplate

Equipped with spade terminals. Mounted on break resistant polymer wallplate.

DESCRIPTION	CAT NO.-WHITE	CAT NO.-IVORY
Single Spring Clip Wallplate. Carded unit pack, rack pack carton	40951-1PW	40951-1PI

40951-1PW

Double Spring Clip Wallplate

Equipped with spade terminals. Mounted on break resistant polymer wallplate.

DESCRIPTION	CAT NO.-WHITE	CAT NO.-IVORY
Double Spring Clip Wallplate. Carded unit pack, rack pack carton	40952-2PW	40952-2PI

40952-2PW

SPECIFICATIONS AND FEATURES

Home Theater Interface Wallplate

- Accommodates from 5.1 to 7.1 channel surround-sound systems
- For use with low voltage rings and standard low voltage junction boxes
- Features RCA connectors for connecting subwoofers
- Two extra openings for additional QuickPort connectors

Multi-Room Stereo Speaker Wallplate

- Integrated wallplate for connecting left and right audio speakers (+/- connections)
- For use with low voltage rings and standard low voltage junction boxes
- Two extra openings for additional QuickPort connectors

Spec Grade Sound™ Indoor and Outdoor Speakers

Leviton's award-winning* Spec-Grade Sound™ indoor and outdoor speaker line takes installed home audio to a new level in both technical innovation and value. Leviton's Spec-Grade Sound™ indoor and outdoor speakers can be used with Leviton's innovative, exclusive Decora® Strauss™ Transformer-Free™ Volume Controls and Leviton's System Matching Module and other audio distribution products to form complete systems. All of Leviton Spec Grade Sound™ indoor speakers incorporate exceptionally strong, light and rigid AeroNylon tweeters and Kevlar®-composite woofers for exceptional clarity, detail and impact. They come with built-in AutoSurge protection to help protect the speakers from possible damage due to overdriving. The outdoor/utility speaker is constructed of weather resistant materials inside and out.

OTHER HOME ENTERTAINMENT PRODUCTS

Decora Media™ System

Send analog audio and video signals through up to 1,000 feet (300 meters) of Category-5 cable with no discernible distortion. The Decora Media System is ideal for connecting source components back to a multi-room audio amplifier located elsewhere in a system. DMS is comprised of: a Send Unit for transmitting audio/video signals, a Receive Unit for receiving signals and a Media Hub. The DMS can operate several ways: in a "hub" configuration with one Send unit sending a single audio/video signal to up to six Receiver units, and point-to-point where Send and Receive units are linked directly together to replace expensive specialized cables or baluns with simple Category-5 cabling..

Send and receive units run on 12VDC, hub runs on 15VDC and can be powered independently or through the Media Hub.

SPECIFICATIONS	SEND UNIT	RECEIVE UNIT	MEDIA HUB
Dimensions:	4.1"H x 1.4"W x 2.0"D	4.1"H x 1.4"W x 2.0"D	6.5"H x 3.4"W x 1.75"D

Decora Media System

DESCRIPTION	CAT. NO.
Decora Media System Media Hub with Power Supply	48210-MCH
Decora Media System Send and Receive Unit Pair with Power Supply	48210-SRU
Decora Media System Send Unit with Power Supply	48210-MSU
Decora Media System Receive Unit	48210-MRU

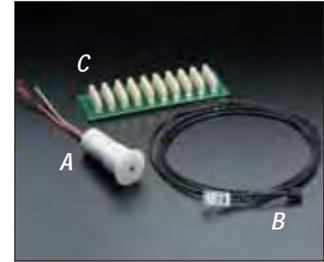

SPECIFICATIONS AND FEATURES

- Cascade hub units to distribute audio/video signals to over 20 locations.
- Send and Receive units are equipped with RJ-45 jacks and 110 punchdown blocks for maximum flexibility in installation.
- Composite RCA inputs for connectivity directly from AV source.
- Send and Receive units fit standard wallboxes and Decora wallplates.
- Advanced circuitry with automatic equalization streams analog stereo audio and video signals over long distances with less distortion.
- Stereo audio input/output handles Dolby® ProLogic™ surround signals.
- RJ-45 input for Send unit.

Multi-Room Infrared (IR) Repeater System

The IR Repeater System consists of three pieces: an IR Target, IR Emitter and a distribution block for distributing control signals to multiple emitters. The IR Target takes the signal from a remote control for an audio/video component and converts it to a low-voltage electrical signal, sending it back to a component to be controlled by the IR emitter. The flush-mount IR Target easily installs in a ceiling or wall, and connects with Category 5 cable to the IR Emitter. Multiple IR Emitters connect to controlled A/V components through the distribution block in the Structured Media Enclosure. Distribution block (Cat. No. 47689-B) available separately. Dimensions: 2"L x 1"W, Power: 12V DC @200mA, Target Output: 4 signal leads, Target Input: 2 power leads (DC + and -), Emitter Output: Infrared to control source component, Emitter Input: 2 signal leads, Power Supply (included): 12V DC @5mA

One-Gang Single Receptacle with Clock Hanger Hook	5261-CH	Stainless Steel	

Side-Wired 20A-125V AC, 2-Pole, 3-Wire, NEMA 5-20R

DESCRIPTION	CAT. NO.	COLOR*	NEMA CONFIG.
One-Gang Single Receptacle with Clock Hanger Hook	5361-CH	Stainless Steel	5-20R 

† QuickPort Connectors not included.

SPECIFICATIONS AND FEATURES

Recessed Entertainment Box

- Provides single location for line and low-voltage connections
- Stud- and wall-mountable
- Neat, clean recessed installation
- Optional high-profile cover includes sliding plastic front panel and channels all wires through the bottom of the REB
- Paintable white ABS plastic

Recessed Two-Gang Duplex Receptacle with QuickPort Openings

- Provides 2 15A/125V AC NEMA 5-15R power outlets and openings for any 6 installer-selected QuickPort connectors or blank inserts (4 inserts included)
- Includes plastic electrical box and a barrier to separate line and low-voltage conductors
- Wallplate built into device

Recessed One-Gang Duplex Receptacle

- Installs invisibly behind wall units, signature artwork and wall-mounted flat-panel TVs
- Supplies AC power for two components

- Fits most common electrical boxes available (electrical box not included)

Recessed One-Gang Single Receptacles

- Includes clock-hanger hook
- Flush mount with square recess

TESTING AND CODE COMPLIANCE

Recessed Receptacles

- cULus Listed
- NOM Certified (#057)

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

DHC POWERLINE CARRIER COMPONENTS FEATURES

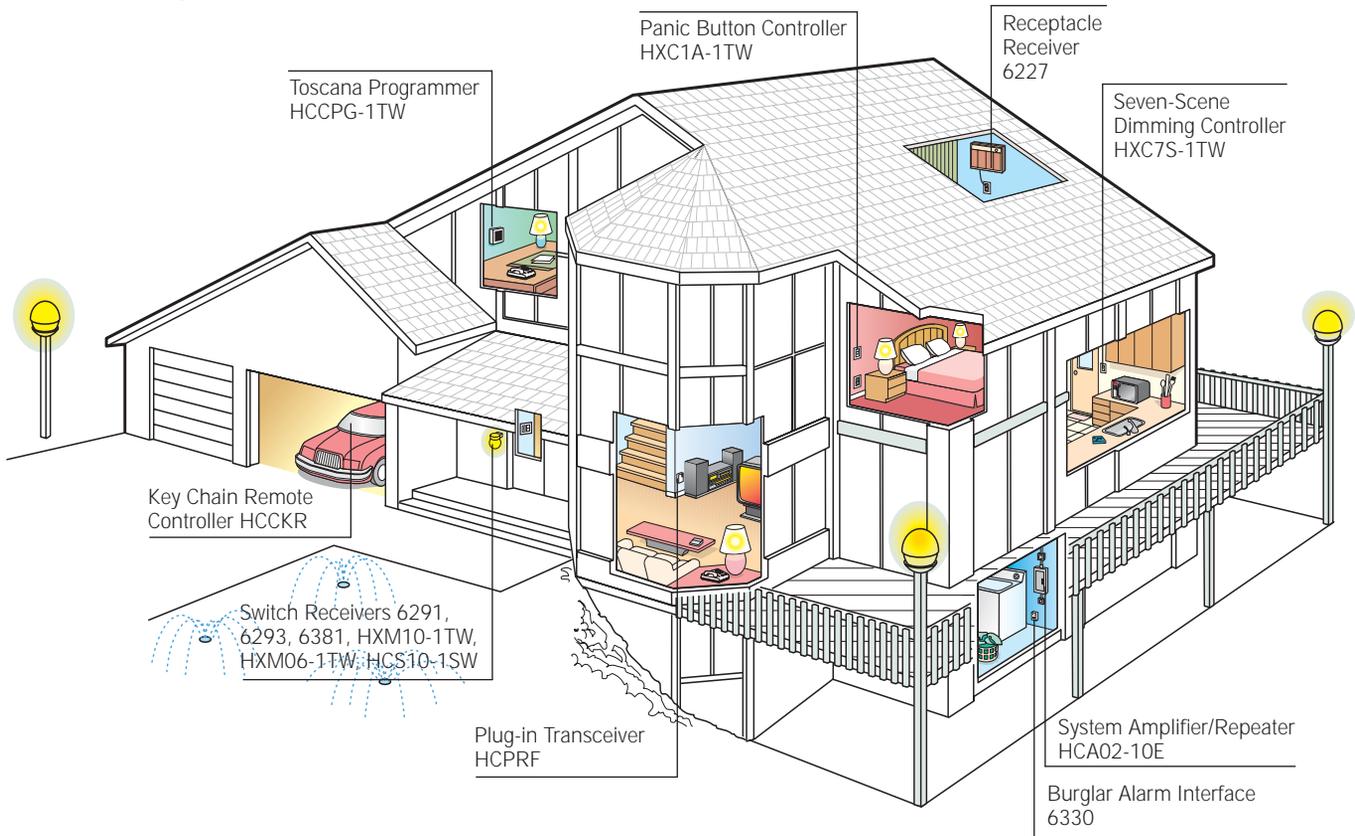

Residential Grade Controllers

LEVITON'S DECORA HOME CONTROLS (DHC) RESIDENTIAL POWERLINE CARRIER COMPONENTS PROVIDE HOMEOWNERS WITH EVERYTHING NEEDED FOR PROGRAMMED AND MANUAL CONTROL OF LIGHTING AND APPLIANCES USING THEIR HOME'S EXISTING AC WIRING.

Our current listing of DHC components features new programmers, controllers and receivers with Scene Lighting Capability for coordinated, whole-house lighting control. This includes models offering two-way communication, which enables controllers in remote locations to show the On/Off status of individual lighting loads. Many new DHC components feature Intellisense™, a Leviton exclusive technology. Intellisense reduces noise sensitivity without reducing command signal sensitivity, resulting in the most reliable performance of any powerline carrier home automation system available today.

Features and Benefits

- A network of controllers and DHC switch, dimmer, fixture and receptacle receivers that communicate via unique coded switching signals over a home's AC wiring to automate control of lights and appliances
- DHC components replace switches and outlets, which simplifies installation compared with other automation systems that require dedicated proprietary wiring backbones.
- An effective way to contribute to energy conservation and extend bulb and appliance life
- Offers significant security benefits to today's homeowner, including programmed automatic and manual home security features

DHC CONTROLLERS, RECEIVERS AND NETWORK INTEGRITY PRODUCTS

DHC Controllers
DHC Controllers send control signals to user-specified DHC address throughout the network. Offering includes wall-mounted programmable, plug-in, tabletop, wireless hand-held, wall switch/dimmer and sensor units, plus models with 2-way communication.
HXC7S-1TW shown

DHC Receivers
DHC Receivers can be set to any of 256 DHC address codes for remote/manual control of incandescent, inductive, fluorescent, or low-voltage loads. They are available as receptacle, plug-in, fixture and multi-location wall switches and dimmer switches.
HXM10-1TW shown

Network Integrity Products
Leviton highly recommends installing these products in every DHC application. The System Coupler/Repeater ensures DHC signal integrity throughout the house. Panel-mount surge devices protect DHC components from transient voltage surges.
51120-1 shown

Toscana™ Deluxe Programmer

Toscana is a simple central access station that expands DHC control capability with easy one-touch access for up to 64 whole-house lighting scenes along with direct remote control of up to 256 devices. Scenes can be accessed by an IR remote or from remote scene lighting control keypads. Toscana provides complex date/time and macro automated programming of lights and appliances.

Timed events or up to 8 groups of timed events can be selected and run on a recurring basis using a highly accurate internal astronomical clock. Toscana registers status changes when DHC receivers with 2-way communication are manually changed.

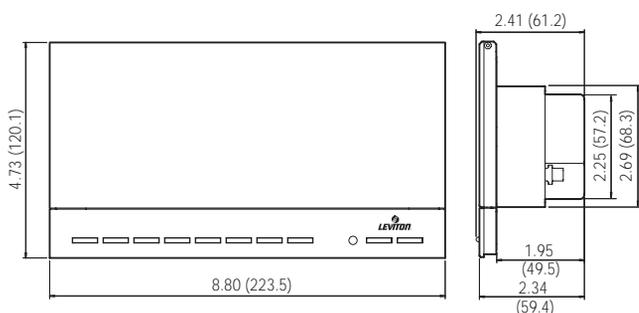

HCCPG-1TW

Toscana Deluxe Programmer INTELLISENSE™

DESCRIPTION	CAT. NO.
Toscana Deluxe Programmer—Rated: 120V 60Hz AC only. Power consumption: 3 watts. White frame and white cover. Color change kits available for other colors.	HCCPG-1TW

HCCPG-1TW

SPECIFICATIONS AND FEATURES

- Simple central access station for manual control of whole-house system
- No programming experience required—Use simple wizards for setup
- Automatically turn appliances ON/OFF and lights ON/OFF/DIM/BRIGHT
- Controls up to 256 devices in a DHC home system
- Leviton's patented IntelliSense™ Technology virtually eliminates signal problems due to line noise
- 2-Way communication capability registers status changes when receivers with 2-way communication are manually changed
- Permits input of real device names to specify control (such as "wall sconce") rather than cryptic house and device codes (e.g. B5)
- Automatically turns lights ON/OFF at dusk and/or at dawn (astronomical clock)
- Allows creation of up to 64 timed events that can reoccur year annually
- Each timed event can be part of up to 8 "time schedules"
- Create and download complex timed events and macros using a PC with RS-232 port
- Backup and restore all system data; allows cloning of devices using a PC with RS-232 port
- Mounts in standard 4-gang box
- No external wall transformer or powerline interface required
- Rated 120V AC Hz, requires neutral and ground connections

Whole House Lighting Scenes

- Create up to 64 whole-house lighting scenes to create lighting moods
- Access any of the 64 scenes from the Toscana front panel (8 at any one time)
- Access any seven of the scenes remotely using the HXC7S-1TW scene keypads
- Access any of the scenes using 10 learned infrared codes
- Learned infrared codes could be taught using any standard IR remote

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-66800)
- CSA Certified (File #LR-54628)
- NOM Certified (#057)

COLOR

Shipped with White frame and White Cover. See chart for color change kits.

MATERIAL CHARACTERISTICS

Engineering Thermoplastic UL-94, V2 Rating
 Operating Temperature: 32°F to 130°F

Note: A Cat. No. HCA02-10E System Amplifier must be installed in all panels in every DHC installation to ensure adequate signal strength.

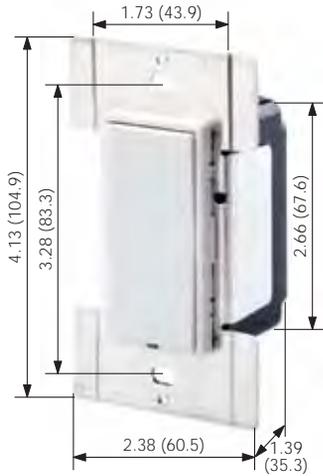

DECORA® HOME CONTROLS (DHC)

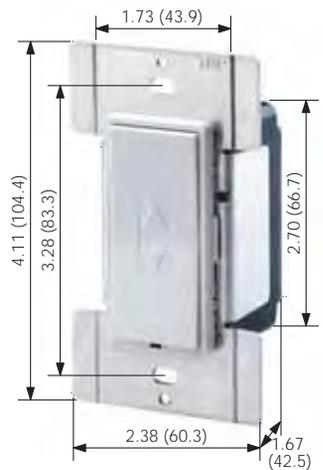

Residential Grade Controllers—Green Line

Wall Switch Controllers with 2-Way Communication INTELLISENSE™

HXC10-1TW

HXC1D-1TW

HXC2D-1TW

DESCRIPTION	CAT. NO.
One Address ON/OFF Controller —One ON/OFF rocker transmits ON/OFF commands to one address. Shipped in White—Color change kits available for other colors.	HXC10-1TW
All Lights ON/All OFF Controller —One ALL LIGHTS ON/ALL OFF rocker transmits commands to all receivers set to the same letter code as this controller. Provides “Panic Button” lighting control for safety and security. NOTE: Receptacle receivers and Universal Low-Voltage Module (6337) do not respond to ALL ON command. Shipped in White—Color change kits available for other colors.	HXC1A-1TW
One-Address Dimming Controller —One ON/OFF rocker transmits ON/OFF commands to one address in the same letter code as this controller. Built-in arrow-shaped rocker transmits DIM/BRIGHT commands to that same address. Shipped in White—Color change kits available for other colors.	HXC1D-1TW
Two-Address Dimming Controller —Two sets of ON/OFF buttons transmit ON/OFF commands to two sequential addresses in the same letter code as this controller. One set of DIM/BRIGHT buttons transmits BRIGHT/DIM commands to the most recently selected address. Shipped in White—Color change kits available for other colors.	HXC2D-1TW

No more than 4 Controllers should be installed on a single branch circuit.

SPECIFICATIONS AND FEATURES

- Fit in standard wallboxes and replace regular switches to provide DHC control capability as indicated in “Description”
- 2-Way Communication allows status of receivers changed manually to be reflected in the controller
- Leviton’s patented IntelliSense™ Technology virtually eliminates signal problems due to line noise
- Uses existing 120V AC 60Hz wiring to send command signals
- Compatible with Decora screwless and standard Decora wallplates
- Green LED illuminates to confirm ON command sent or STATUS ON report received
- Decora styling coordinates with Leviton’s popular Decora line; complements any interior
- Backed by a Limited Two-Year Warranty

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-66800)
- CSA Certified (File #LR-54628)
- UL 224A Tested (and others as appropriate)

COLOR

All devices are shipped in White only. See chart for compatible color change kits.

MATERIAL CHARACTERISTICS

Environmental: Flammability (Engineering Thermoplastic) UL-94, V2 Rating
Operating Temperature: 32°F to 130°F

Note: A Cat. No. HCA02-10E System Amplifier must be installed in all panels in every DHC installation to ensure adequate signal strength.

Wall Switch Controllers with 2-Way Communication

DESCRIPTION	CAT. NO.
Three-Address Dimming Controller —Three sets of ON/OFF buttons transmit ON/OFF commands to three sequential addresses in the same letter code group as this controller. One set of DIM/BRIGHT buttons transmits DIM/BRIGHT commands to the most recently selected address. Shipped in White—Color change kits available for other colors.	HXC3D-1TW
Four-Address Dimming Controller —Four sets of ON/OFF buttons transmit ON/OFF commands to four sequential addresses in the same letter code group as this controller. One set of DIM/BRIGHT buttons transmits DIM/BRIGHT commands to the most recently selected. Shipped in White—Color change kits available for other colors.	HXC4D-1TW
Three-Address Dimming, ALL LIGHTS ON/ALL OFF Controller —Three sets of ON/OFF buttons transmit ON/OFF commands to three sequential addresses in the same letter code group as this controller. One set of DIM/BRIGHT buttons transmits DIM/BRIGHT commands to the most recently selected address. One set of ALL LIGHTS ON/ALL OFF buttons transmits commands to all receivers set to the same letter code as this transmitter. Receptacle receivers and Universal Low-Voltage Module (6337) will not respond to ALL ON command. Shipped in White—Color change kits available for other colors.	HXC4A-1TW
Seven-Scene Dimming Controller —Each of seven SCENE buttons transmits ON commands at preset levels to 12 sequential addresses in the same letter code as this controller. (Note: 12-address sequence continues at address 1 if address 16 is reached before all sequential addresses are completed). May be used with all Leviton scene-capable receivers. One set of SCENE DIM/SCENE BRIGHT buttons transmits SCENE DIM/BRIGHT commands to most recently selected scene. One OFF button transmits OFF command to most recently selected scene. Green LEDs illuminate to indicate ON command sent or SCENE ON command detected. Shipped in White—Color change kits available for other colors.	HXC7S-1TW

The HXC7S-1TW utilizes extended code format. This command structure is compatible with Cat. No. HCA02-10E DHC System Amplifier/Coupler /Repeater but is not compatible with the older version of the System Amplifier Cat. No. 6201.

No more than 4 Controllers should be installed on a single branch circuit.

SPECIFICATIONS AND FEATURES

- Fit in standard wallboxes and replace regular switches to provide DHC control capability as indicated in "Description"
- 2-Way Communication allows status of receivers changed manually to be reflected in the controller
- Leviton's patented IntelliSense™ Technology virtually eliminates signal problems due to line noise
- Uses existing 120V AC 60Hz wiring to send command signals
- Compatible with Decora Plus screwless and standard Decora wallplates
- Green LED illuminates to confirm ON command sent or STATUS ON report received
- Decora styling coordinates with Leviton's popular Decora line; complements any interior
- Backed by a Limited Two-Year Warranty

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-66800)
- CSA Certified (File #LR-54628)
- UL 224A Tested (and others as appropriate)

COLOR

All devices are shipped in White only. See chart for compatible color change kits.

MATERIAL CHARACTERISTICS

Engineering Thermoplastic UL-94, V2 Rating
Operating Temperature: 32°F to 130°F

Note: A Cat. No. HCA02-10E System Amplifier must be installed in all panels in every DHC installation to ensure adequate signal strength.

DECORA® HOME CONTROLS (DHC)

Residential Grade Controllers—Green Line

RF Components

DESCRIPTION

CAT. NO.

Universal Remote Control—Hand-held wireless remote control sends RF (radio frequency) command signals to DHC Plug-In Transceiver Cat. No. HCPRF for up to 256 DHC addresses. With an operating range of up to 50 ft. through wall and ceilings, it sends ON/OFF, DIM/BRIGHT and ALL ON/ALL OFF commands for lighting and ON/OFF commands for appliances. The Universal Remote will also control audio and video equipment, including TV's, VCR's, cable boxes, satellite receivers, DVD and CD players and more. Functions as an all-in-one controller for lighting and audio/video systems, making it ideal for home theaters. Universal design also makes it suitable for the elderly and physically challenged. Dual built-in timers can shut off TV and/or DHC devices up to ninety minutes after setting. Uses 2 AAA batteries. Must be used with HCPRF Transceiver. Color: Black.

HCCUR

Plug-In Transceiver—Accepts Radio Frequency DHC commands from the Universal Remote Cat. No. HCCUR for ON/OFF, DIM/BRIGHT and ALL ON/ALL OFF, as well as ON/OFF commands from the Key Chain Remote Cat. No. HCCKR. The Plug-In Transceiver works with all DHC receivers by re-transmitting commands signals onto the home's existing electrical wiring. Plugs into any standard receptacle and provides a built-in outlet for ON/OFF switching of incandescent lamps rated 300W max. @ 120V AC. The lamp can be controlled remotely or locally via the programming button on the face of the Transceiver, which can also be used to change the unit's DHC address. Features IntelliSense™ Technology to ensure optimum system performance. 2-Way communication permits local status of attached lamp to show on all 2-Way capable DHC controllers. Multiple HCPRF Transceivers can be used to increase coverage in large homes. Unit will re-transmit commands for up to 256 DHC addresses. Color: White.

HCPRF-1TW

Key Chain Remote Controller—Designed to fit on a key chain and send RF (radio frequency) command signals to DHC Plug-In Transceiver Cat. No. HCPRF. With an operating range of up to 50 ft. through wall and ceilings, it sends ON/OFF commands for any 2 sequential DHC addresses (addresses are user programmable). Ideal for control of home lighting from a vehicle when entering garage or driveway. Uses long-life 3V CR2032 lithium battery (included). Must be used with HCPRF Transceiver. Color: Black.

HCCKR-E

HCCUR

HCCKR-E

SPECIFICATIONS AND FEATURES

- Leviton's Universal Remote Control works with DHC-controlled lighting and appliances as well as audio/video system components
- Ultra-compact Key Chain Remote adds to home security by allowing users to turn ON lighting as they approach entranceway, garage or driveway
- Plug-In Transceiver features IntelliSense™ Technology for optimum reliability, 2-way signaling capability, and easy one-button programming. Must be used with Universal Remote and Key Chain Remote.
- Backed by a Limited Two-Year Warranty

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-66800)
- CSA Certified (File #LR-69519)
- NOM Certified (#057)
- UL 224A Tested (and others as appropriate)

COLOR

Colors available as listed.

MATERIAL CHARACTERISTICS

Environmental: Flammability (Engineering Thermoplastic) UL-94, V2 Rating
Operating Temperature: 32°F to 130°F

Note: Cat. No. HCCUR is CSA Certified only. Cat. No. HCPRF-1TW is UL Listed, CSA Certified and NOM Certified. UL and CSA not required for Cat. No. HCCKR-E

Programmer/Controller Products

DESCRIPTION	CAT. NO.
<p>Basic Wall Mounted Programmer—A powerful home automation controller that is easy to install and use. Compact, low-profile unit fits in single-gang wallbox. Accepts up to four addresses; maximum two ON and two OFF commands per address. SECURITY mode randomly selects ON and OFF times to make an empty home appear occupied. ALL LIGHTS ON switch acts as a panic-button lighting system, switching on all DHC switch modules with one touch. DIM/BRIGHTEN command can automatically adjust lighting levels of all fixtures controlled by DHC dimming receivers. LED readout shows time and program status; battery back-up protects clock setting and program status for ten hours during power interruption. Available in Ivory, White, and Almond.</p>	6312
<p>Table Top Controller★—Provides manual remote control for all 256 DHC addresses. Command functions include ON/OFF, ALL LIGHTS ON/ALL OFF and DIM/BRIGHTEN. The 6320 plugs into any 120 volt AC receptacle to transmit command signals over existing AC wiring.</p>	6320
<p>Dry Contact Controllers★—Allow monitoring of up to four dry contact closures. No. 6315 Maintained Contact Transmitter sends ON or OFF command signals in response to contact opening or closure. No. 6316 Momentary Contact Transmitter sends ON or OFF command signals in response to contact closure, and no command signal upon contact openings. These units can be used with photocells, infrared sensors, security system, motion sensors, and any other dry-contact-based sensors. Installs in a single-gang wallbox. Color: Ivory.</p>	6315 6316

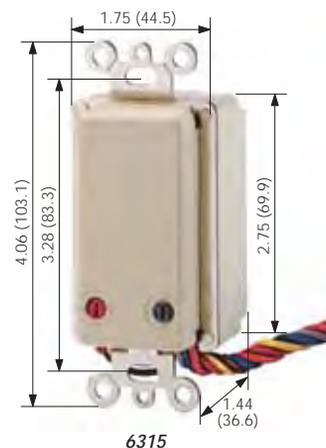

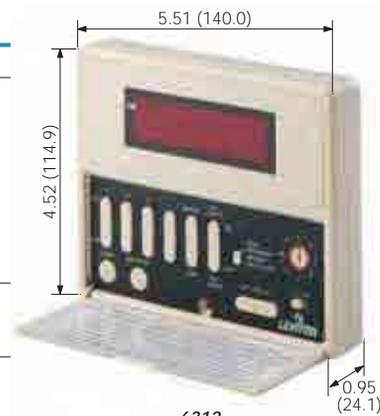

Power to control side: 125V 60Hz AC Only.

LV LEAD COLOR	TRANSMITS TO
Blue	A1*
Orange	A2*
Yellow	A3*
Brown	A4*

*Or any four sequential address codes within the same Letter Code group as the Transmitter.

CSA Certified except where indicated by★

No more than 4 Controllers should be installed on a single branch circuit.

SPECIFICATIONS AND FEATURES

- Programmer adds user-devised scheduling to DHC automated control of lights and appliances for greater convenience, energy savings and security
- Programmer and Controllers send DHC switching commands over existing 60Hz 120V AC house wiring.
- Dry Contact Transmitters link signaling from photocells, infrared sensors, security systems, motion sensors, and other dry contact transmitters to DHC controlled devices
- Backed by a Limited Two-Year Warranty

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-66800)
- CSA Certified (File #LR-54628)
- NOM Certified (#057)

Residential Grade Receivers—Green Line

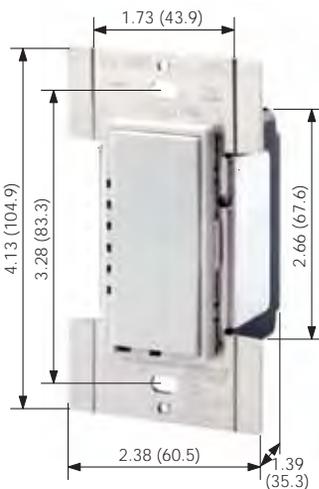

Home Automation Products

HCM06-1TW

HXS08-1TW

HCM06-1DW

Scene-Capable Wall Dimmers and Switches

The new DHC Scene-Capable Receivers provide one-button programming for scene and address capturing. All feature Leviton's exclusive IntelliSense® to ensure top performance and reliability even when noise is present on the AC powerline.

Dimming Wall Switch Receivers provide manual and remote ON/OFF switching and full-range dimming for incandescent and magnetic low-voltage lighting loads. The new HXS08-1TW Electronic Switch Receiver (non-dimming) provides manual and remote ON/OFF switching for incandescent, magnetic low-voltage, fluorescent and compact fluorescent lighting. All Switch Receivers come with a locator LED. Dimming models feature an LED brightness level display and a preset feature that turns lights ON at the last selected brightness level. Double Tap feature immediately adjusts light to full brightness without affecting the last selected brightness level. All -T Receivers allow 2-way status tracking with the DHC Toscana™ Deluxe Programmer and new 2-way capable controllers when receivers are changed locally.

Typical applications include home theaters, dining rooms, chandeliers, living rooms with multiple high-hats, entranceways, and a wide range of mood lighting applications.

DESCRIPTION	CAT. NO.	RATING @ 120V 60Hz	COLOR
600 Watt Scene-Capable Dimming Wall Switch Receiver with One-Button Programming and LED brightness display. 3-Way capable when used with MS00R-10 Multi-Remote	HCM06-1DW	Incandescent 600W, (450W) Magnetic Low-Voltage Lighting 600VA	White (Ivory kit included)
1000 Watt Scene-Capable Dimming Wall Switch Receiver with One-Button Programming and LED brightness display. 3-Way capable when used with MS00R-10 Multi-Remote	HCM10-1DW	1000W Incandescent, 1000VA (750W) Magnetic Low-Voltage Lighting	White (Ivory kit included)
600 Watt Scene-Capable Dimming Wall Switch Receiver with One-Button Programming, 2-Way Communication and LED brightness display. Neutral connection required	HXM06-1TW	600W Incandescent, 600VA (450W) Magnetic Low-Voltage Lighting	White (Ivory kit included)
1000 Watt Scene-Capable Dimming Wall Switch Receiver with One-Button Programming, 2-Way Communication and LED brightness display. Neutral connection required	HXM10-1TW	1000W, 120V AC 60Hz Incandescent, 1000VA (750W) Magnetic Low-Voltage Lighting	White (Ivory kit included)
8 Amp Scene-Capable Electronic Switch Receiver (non-dimming) with One-Button Programming and 2-Way Communication. Neutral connection required	HXS08-1TW	8 Amp, 1000W Incandescent, 1000VA (750W) Fluorescent & Magnetic Low-Voltage Lighting	White (Ivory kit included)

Special Note: As with any dimmer, derating for multiple gang installations is required for Wall Switch Receivers.

Use Leviton Power Extenders to extend the load capacity of DHC Dimming Wall Switch Receivers.

Scene-Capable Wall Dimmers

Dimming Wall Switch Receivers provide manual and remote ON/OFF switching and full range dimming for incandescent and magnetic low-voltage loads. Receivers are scene-capable when used with Leviton's Toscana Programmer HCCPG-1TW and Seven-Scene Controller HXC7S. Receivers will respond to ON, OFF, DIM, BRIGHT, ALL LIGHTS ON/ALL OFF AND SCENE commands. Receivers also provide single-pole and 3-way (multi-location) ON/OFF switching and full range dimming when used with MS00R-10 Multi-Remote. Preset feature turns lights ON at last selected brightness level. Soft ON/Fade OFF feature provides eye-pleasing effect and extended bulb life. Cat. No. HCS10-1SW is a non-dimming ON/OFF Receiver. All receivers feature IntelliSense™ Technology to ensure top performance and reliability even when noise is present on the AC powerline.

Packed with Ivory and White Rocker and Frame Kits. Kits for other colors must be purchased separately.

Scene-Capable Plug-In Receiver Modules

DESCRIPTION	CAT. NO.
<p>Scene-Capable Plug-In Appliance Module with One-Button Programming and 2-Way Communication—Provides 1-button programming through address capturing. No wiring necessary; plugs into any 15A-125V grounding receptacle and provides NEMA 5-15R grounding receptacle for lights and appliances. Provides manual and remote ON/OFF switching for a variety of free-standing lights and appliances. Provides scene capability (ON/OFF switching) when used with the HXCS7-1TW Seven-Scene Controller and the HCCPG-1TW Toscana Deluxe Programmer. Responds to ON, OFF, ALL LIGHTS ON/ALL OFF and SCENE COMMANDS. Push button allows manual ON/OFF control. Provides status tracking to notify 2-way capable controllers of manual status changes. Features Intellisense™ Technology for the utmost in reliability even when noise exists on the AC powerline. With LED locator light. Color: White.</p> <p>Rated: 120V AC 60 Hz, 1800W Incandescent, 1800VA Fluorescent, 15A Resistive, 1/2 HP Motor loads @ 120V AC</p>	HXP15-1TW
<p>Scene-Capable Plug-In Lamp Module with One-Button Programming—Provides 1-button programming through address capturing. Provides remote ON/OFF switching, manual ON switching, and remote full-range dimming for plug-in incandescent lamps. No wiring necessary; plugs into 15 Amp AC outlet. Allows local control of any lamp plugged into it. Available in White (-W) only. Provides Scene Control capability when used with DHC Scene Controller HXCS7-1TW and HCCPG-1TW DHC Toscana Deluxe Programmer. Also backward compatible with 16400/16450-S and 16400/16450-SD DHC Scene Controllers. Equipped with Leviton's Intellisense® advanced circuitry for the utmost in reliability, even where electrical "noise" exists on the power line. Responds to ON, OFF, DIM, BRIGHT, ALL LIGHTS ON/ALL OFF and SCENE LIGHTING commands.</p> <p>Rated: 120V 60Hz, 300W Incandescent</p>	HCP03-10W

SPECIFICATIONS AND FEATURES

- Plug-in design requires no wiring
- HXP15-1TW provides manual and remote ON/OFF switching of plug-in lamps and appliances
- HCP03-10W provides manual and remote ON/OFF switching and full-range dimming for plug-in incandescent lamps
- One-button programming through address capturing
- Scene-capable when used with when used with the HXCS7-1TW Seven-Scene Controller and the HCCPG-1TW Toscana Deluxe Programmer.
- Protected memory maintains status of plug-in loads and address programming during minor power fluctuations
- HXP15-1TW provides status tracking to notify 2-way capable controllers of manual status changes
- Leviton's patented Intellisense™ Technology virtually eliminates signal problems due to line noise

Wall Switch Receivers INTELLISENSE™

DESCRIPTION

CAT. NO.

Single-Pole (One Location) Switch—Equipped with Intellisense (gated automatic gain control) and provides manual and remote ON/OFF control. Can be set to any of 256 DHC address codes to switch incandescent, inductive or resistive loads where dimming is not required. Responds to ON, OFF, ALL LIGHTS ON/ALL OFF commands. Wires easily into standard wall box using terminal screws. Neutral Connection Required. Pilot light is ON when switch is ON. Code wheels are located beneath rocker plate. Packed with Ivory and White Rocker and Frame. Kits for other colors must be purchased separately (See Chart). Requires Cat. No. 6287 when used with electronic loads such as compact fluorescent lamps.

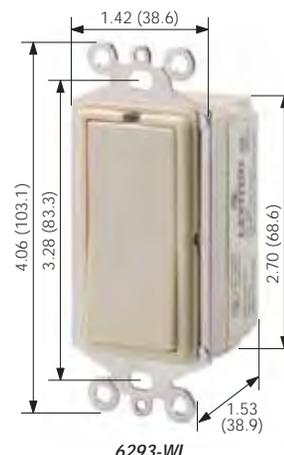

6291-WI

Rated: 15A 120V AC 60Hz Incandescent, Inductive or Resistive

3-Way (Multi-Location) Switch—Equipped with Intellisense (gated automatic gain control). Provides manual and remote ON/OFF control in multi-station switching circuits when used in conjunction with one or more Cat. No. 6294 Remote Switches. The 6293 can be set to any of 256 DHC address codes to switch incandescent, inductive or resistive loads where dimming is not required. Responds to ON, OFF, ALL LIGHTS ON/ALL OFF commands. Wires easily into standard wall box using terminal screws. Neutral Connection Required. Pilot light is ON when switch is ON. Code wheels are located beneath rocker plate. For proper operation, the total length of traveler wire between Multi-Location Switch and Remote should not exceed 90 feet. Packed with Ivory and White Rocker and Frame. Kits for other colors must be purchased separately (See Chart).

6293-WI

Rated: 15A 120V AC 60Hz Incandescent, Inductive or Resistive

Wall Switch Remotes and Receivers

DESCRIPTION	CAT. NO.
<p>3-Way and 4-Way (Multi-Location) Remote Switch—For use with DHC Cat. Nos. 6383 and 6293 Multi-Location Switches as a remote switch. The 6294 provides 3-Way, 4-Way and higher-level control in conjunction with these units. It cannot be used for any other purpose in the DHC network. The unit wires easily into standard wall box using terminal screws. For proper operation, the total length of traveler wire between Multi-Location Switch and Remote should not exceed 90 feet. Available in Ivory (-I), White (-W) and Almond (-A). Specify color(s) when ordering, as snap-on cover and frame kits cannot be used with the 6294.</p> <p>No Load Rating—For use with 6293 and 6383 units only</p>	6294
<p>Double Pole Wall Switch—Equipped with Intellisense (gated automatic gain control). Provides local and remote ON/OFF control. Responds to ON/OFF and ALL OFF commands from controllers. Can be set to any of the 256 DHC address codes. Intended for control of pool pumps, air conditioning units, spa heaters and pumps, and other large residential loads. Wire easily into any standard wall box by means of six-inch leads. Available in Ivory only.</p> <p>Rated: 20A 2 HP 250V AC 60Hz</p>	6371-I

RECEPTACLE Receivers

DESCRIPTION

Split Duplex Wall Receptacle—Equipped with Intellisense (gated automatic gain control). Top outlet provides remote ON/OFF load control in response to controller command signals. Bottom outlet is continuously live. Local control of any light or appliance plugged into the controlled outlet can be achieved by switching the load ON/OFF switch once or twice. Will not respond to ALL LIGHTS ON command. Fits standard wall boxes and supplied with leads for easy installation.

Rated: 15A 120V 60Hz AC only. NEMA 5-15R.

CAT. NO.

6227-I
6227-W
6227-A

Duplex Wall Receptacle—Equipped with Intellisense (gated automatic gain control). Same as 6227, but with both top and bottom outlets providing ON/OFF control in response to controller command signals. Feed-through load allows control of receptacles downstream. Will not respond to ALL LIGHTS ON command. No local control available.

Rated: 15A 120V 60Hz AC only. NEMA 5-15R

6280-W

Single Wall Receptacle★—Equipped with Intellisense (gated automatic gain control). Provides ON/OFF control. No local control available. Wires easily into standard wallbox using supplied six-inch leads. Will not respond to ALL LIGHTS ON command.

Rated: 20A 120V 60Hz AC only. NEMA 5-20R

6296-I
6296-W

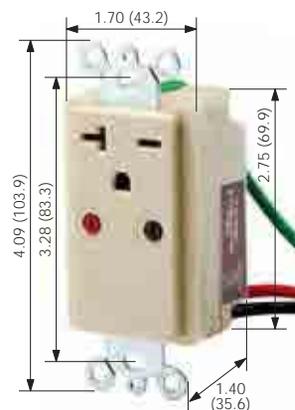

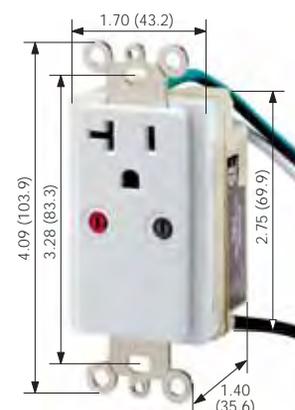

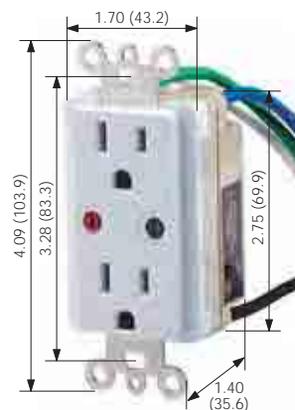

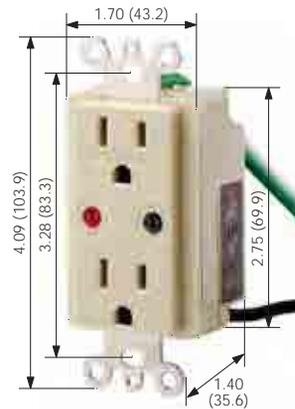

Single Wall Receptacle★—Equipped with Intellisense (gated automatic gain control). Provides ON/OFF control. No local control available. Wires easily into standard wallbox using supplied six-inch leads. Will not respond to ALL LIGHTS ON command.

Rated: 20A 250V 60Hz AC only. NEMA 6-20R

6337

6375

Receiver Modules

DESCRIPTION	CAT. NO.
<p>Universal Low Voltage Module—Almost any device operated at low voltages can now be automated using the 6337. This receiver interfaces between the low voltage device and the 120V AC wiring network. It receives an ON or OFF command from DHC Transmitters and can operate sprinkler systems, designated lighting, skylight closures, heating systems, garage door openers and other lighting and motor loads. Simply connect LV wiring to the screw terminal on the module and plug it into any 120V wall outlet.</p> <p>In addition to switching contacts, the 6337 has a built-in alarm that can be set to sound whenever the switch contacts are closed. The 6337 can be set to operate the relay only, the alarm only, or both the relay and the alarm.</p> <p>The 6337 can also be set for momentary operation so that the relay and/or the alarm will be turned on for approximately two seconds in response to any ON command. Does not respond to ALL LIGHTS ON or DIM/BRIGHT commands.</p> <p>Rated: 120V 60Hz AC only. Contacts: 5A 12V DC, 100VA 30V DC Inductive</p>	6337
<p>Fixture Relay Module—Can be mounted at either an incandescent or fluorescent fixture by means of adhesive strips. Responds to ON/OFF and ALL LIGHTS ON/ALL OFF commands from controllers. Equipped with leads for easy installation.</p> <p>Rated: 15A 120V 60Hz AC only, incandescent, inductive, or resistive.</p>	6375
<p>Dimming Fixture Module—Can be mounted at an incandescent fixture by means of adhesive strips. Responds to ON/OFF, DIM/BRIGHTEN and ALL LIGHTS ON/ALL OFF commands from controllers. Equipped with leads for easy installation.</p> <p>Rated: 300W incandescent 120V 60Hz AC only.</p>	6376

See Lighting Controls Section C for more information on Leviton Power Extenders.

Use Leviton Power Extenders to extend the load capacity of DHC Dimming Wall Switch Receivers.

SPECIFICATIONS AND FEATURES

- Universal Low Voltage Module can automate devices operated at low voltages such as sprinklers, skylights, and heating/AC systems
- Fixture modules provide direct control for fixtures where only remote control is necessary
- Backed by a Limited Two-Year Warranty

DHC Network Integrity Products

Panel Mounted Surge Protective Devices (SPD)—Provides homes with protection from high-energy transient voltage surges that can damage sensitive electronic circuits in computers, audio and video components and electronic appliances. DHC components incorporate micro circuitry and Leviton highly recommends protecting the DHC network from powerline surges. Leviton Panel Mount devices feature unique hybrid suppression circuitry for outstanding surge protection. The following devices are compatible with all DHC components.

DESCRIPTION	CAT. NO.	MAX. SURGE CURRENT (8 X 20µs wave) L-N	UL 1449 RATING L-N
120/240V AC, Single-Phase —Standard J-box metal enclosure with pre-punched standard knockouts.	51120-1	50kA	500V
120/208V AC, 3-Phase WYE —Standard J-box metal enclosure with pre-punched standard knockouts.	51120-3	50kA	500V
120/240V AC, Single-Phase —NEMA 3R enclosure suitable for outdoor use	51120-3R	50kA	800V
120/240V AC, Single-Phase —Features sine wave tracking, redundant protection and replaceable/surge modules. NEMA 12 enclosure with hinged cover.	52120-M2H	100kA	400V
120/240V AC, Single-Phase Multimedia Panel —Provides surge protection for AC powerline, 2-pairs of phone/fax/modem connections, and dual CATV/Satellite feeds using F connectors. Painted steel NEMA 1 enclosure with four perforated 7/8" knockouts.	51110-PTC	AC: 48kA Tel: 1.9kA @ 3.8kV CATV: 2kA	AC: 400V Tel: 220V CATV: 25V

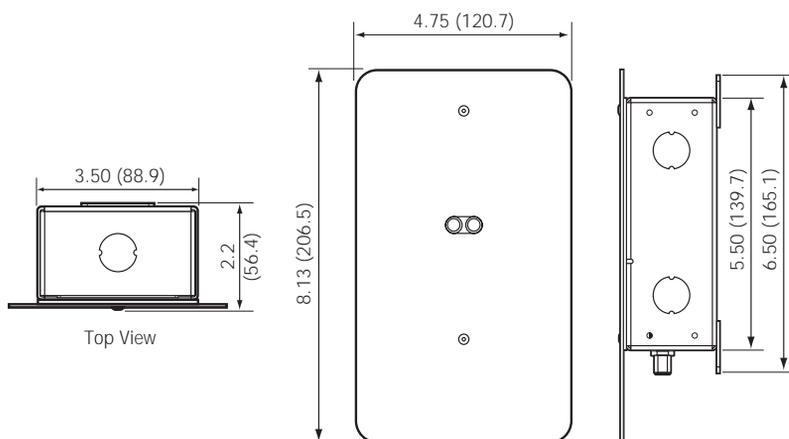

51110-PTC

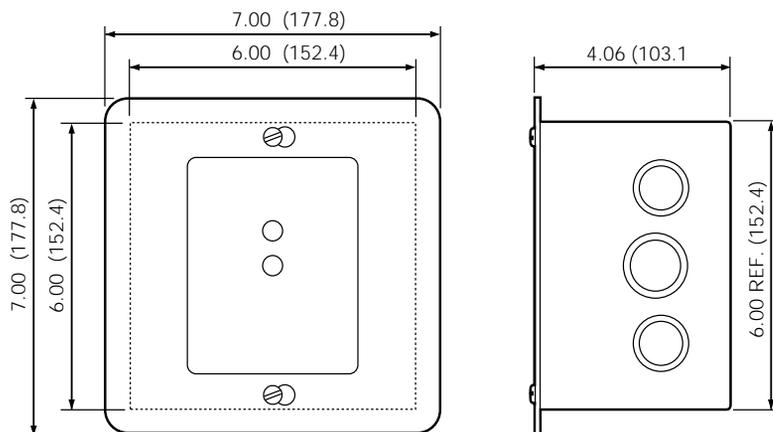

51120-1

Note: A Panel Mount Surge Protective Device should be installed at the service panel in every DHC installation.

*Multimedia Panel Surge Protective Device
Cat. No. 51110-PTC*

*PANEL MOUNTED SURGE PROTECTIVE DEVICE
Cat. No. 51120-1,-3*

SPECIFICATIONS AND FEATURES

- Real-time diagnostic visual indicator shows power and suppression status for each (protected) phase
- Cat. No. 51110-PTC Multimedia Panel protects AC, phone/fax/modem, and CATV/Satellite lines from transient voltage surges
- Cat. No. 52120-M2H features user-replaceable surge modules
- Backed by a Limited 10-Year Warranty

TESTING AND CODE COMPLIANCE

HCA02-10E

6299

DHC Network Integrity Products

DESCRIPTION	CAT. NO.
<p>System Amplifier/Coupler/Repeater with Built-in Test Signal Generator—Performs a variety of functions to ensure outstanding DHC system performance and reliability. Couples transmitter (programmer and controller) signals generated on the 120V leg where the transmitter draws power onto the other leg in a 120/240V single-phase 3-wire residential wiring system. The HCA02-10E also amplifies and repeats command signals to maintain proper signal strength through the DHC system. Green pilot light indicates unit has power. Lamp will indicate when signal is being transmitted. Features IntelliSense™ Technology to help ensure top performance even when noise is present on the AC powerline. The error lamp indicates the IntelliSense feature is activated. The unit provides convenient test signal transmission for easy signal strength verification at individual DHC module locations using Leviton's Cat. No. 6386 Signal Strength Indicator.</p> <p>The HCA02-10E should be installed at the main panel on its own dedicated 15A breaker in accordance with NEC requirements. The HCA02-10E cannot be used in a 3-phase system.</p> <p><i>Note: A Cat. No. HCA02-10E System Amplifier must be installed in all panels in every DHC installation to ensure adequate signal strength.</i></p>	HCA02-10E
<p>Signal Bridge/Passive System Coupler—Couples the DHC command signal onto the 120V legs of the power system to ensure sufficient command signal strength throughout the DHC network. (NOTE: 6299 should NOT be installed in the same panel as HCA02-10E). Rated: 120/240V 60Hz AC only.</p>	6299
<p>Signal Attenuator, 2-Phase—Attenuates “(knocks down”) external noise and signal levels entering the DHC network. The 6285 can be used to block interference from appliances, electronic ballasts and home electronics to ensure top performance from DHC network. Also used to block signal leakage (attenuation) caused by capacitive filters and electronic power supplies. Rated: 2-Phase 120/240V & 120/208V 60Hz AC only.</p>	6285
<p>Multi-Phase Blocking Coupler—The 6284 is installed between the incoming electrical service and the service panel in apartment buildings, condominiums, attached-unit dwellings and homes sharing the same side of the electrical transformer. Keeps extraneous electronic noise and signals from entering or leaving the DHC network. Rated: 120V, 120/240V & 120/208V 60Hz AC—Max. 200 Amp panel.</p>	6284

SPECIFICATIONS AND FEATURES

- Cat. No. HCA02-10E System Amplifier/Coupler/Repeater must be installed in all DHC installations to ensure adequate signal strength.
- Cat. Nos. 6284 and 6285 are used to stop extraneous noise and signals from degrading DHC network operation
- Backed by a Limited Two-Year Warranty

DHC Residential Grade Network Integrity Products

DHC Network Integrity Products

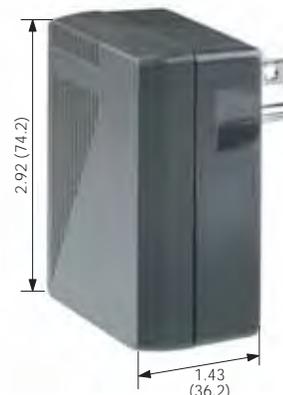

DESCRIPTION	CAT. NO.
<p>Noise Block—The 6287 is designed for use with DHC switch modules that include a means for connection to neutral. This device may be wired on the LOAD side of a DHC switch module (except 6383), or on the LINE side of any fixture using an electronic ballast, a low-voltage ballast, or any noise-generating source that does not require more than 5A 120V AC. The 6287 prevents interference generated by fixture components from interfering with DHC signals.</p> <p>Rated: 5A 120V 60Hz AC only.</p>	6287
<p>Plug-in Noise Filter—electrical appliances may generate “noise” that could interfere with proper signal transmission. When the offending appliance is isolated and plugged into the 6288 Noise Filter, which is in turn plugged into a receptacle, stray noise is filtered out, ensuring a clear signal. Color: Brown.</p> <p>Rated: 5A 120V 60Hz AC only.</p>	6288
<p>In-Line Noise Reducer—the 6289 Noise Reducer filters electrical “noise” and signals with frequencies above and below the 121 kHz signal. The 6289 may be installed at the “noise” or signal source or at the module affected by the interference. Depending on the source of the interference, the 6289 may be wired phase to neutral or phase to phase.</p>	6289

DHC Powerline Carrier Test Equipment

<p>Signal Strength Indicator—Measures command signal strength at individual module locations. Minimum signal strength required for proper DHC Powerline Carrier component operation is 100mV.</p>	6386

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

STRUCTURED CABLING DEVICE FEATURES

Quick Reference Guide

The following terms are used throughout this section to help users quickly identify special product features.

eXtreme® 10G

Our Category 6A solution enables advanced technologies, including new 10G and IP-based services. eXtreme 10G connectors feature patent-pending Cone of Silence and patented Retention Force Technology® (RFT) for unparalleled signal integrity.

eXtreme® 6+

Leviton's Category 6 solution with patented Retention Force Technology. Includes connectors, patch cords and a variety of patch panels. Exceeds TIA specifications for channel, permanent link and component-rated Category 6 systems.

GigaMax® 5e

Leviton's Category 5e channel and component rated solution. Includes connectors, patch cords and a variety of universal and pre-configured panels. Exceeds TIA specifications for channel-and component-rated Category 5e systems.

Category 5

Leviton's Category 5 solution for fast reliable voice and data applications from frame to workstation. Includes connectors, patch cords and universal panels. Exceeds TIA specifications for channel and category-rated Category 5 systems.

Opt-X®

Opt-X is Leviton's full solution Fiber Optic System incorporating a wide range of fiber optic components, including adapters, mounting plates, connectors, enclosures, cable assemblies, tools, consumables and workstation products with features and options to meet all types of customer and application needs.

FastCAM™

Leviton's FastCAM fiber connectors are pre-terminated and factory polished to provide precision termination of single-mode or multimode fiber.

Thread-Lock®

Award-winning Thread-Lock mechanical connectors are part of Leviton's full line of connectors. Ideal for quick installations, the reusable connectors make field-installation simple and cost-effective.

Fast-Cure

Reliable, cost-effective fiber optic connectors with quick, adhesive termination featuring precision pre-radiused zirconia ferrules, high retention strength, and patented non-optical disconnect spacer design.

Versa-Cleave®

The Versa-Cleave tool is your award-winning solution for cleaving fiber perfectly every time.

Versi-Duct®

Leviton's versatile horizontal and vertical slotted duct system for fiber and copper cable organization and management. A high-quality system with a variety of solution-based accessories.

LabelWare™

A TIA/EIA-606-A compliant tool to label and help identify your cabling infrastructure.

110 ChannelMax®

110 channel duct allows extra space for routing cables by increasing the vertical channel depth to 3 or 5 inches.

Retention Force Technology®

Patented features included in eXtreme 6+ and Gigamax 5e+ products, which provide enhanced connection integrity and promote consistent performance over the life of the system. Increased wire retention reduces time contact failure. Improved gas-tight connection prevents corrosion.

QuickPort®

Leviton's extensive line of snap-in modules allows complete field-configurability for the installer. Leviton QuickPort housings, such as wallplates, MOS housings and modular furniture faceplates, can be configured with a custom combination of QuickPort modules which easily snap in or out of ports.

Decora®

The original Decora QuickPort module wallplate is designed to match Decora electrical devices manufactured by Leviton.

Lifetime Performance Warranty

Leviton Voice & Data Division offers a Lifetime Performance Warranty when approved components are installed by a Leviton Certified Installer through the Certified Cabling System (CCS) program.

TIA Guidelines

The TIA, or Telecommunications Industries Association, is the industry regulatory body which defines industry standards, such as the following:

TIA/EIA-568-B: Commercial Building Telecommunications Cabling Standard

TIA/EIA-569-B: Commercial Building Standards for Telecommunications Pathways & Spaces

TIA/EIA-570-B: Residential and Light Commercial Wiring Standard

TIA/EIA-606-A: Administration Standard for the Telecommunications Infrastructure of Commercial Buildings

TIA/EIA-607: Telecommunications Bonding and Grounding Standard

Styles, Features, etc.

These color bars are found throughout this catalog to indicate additional information about a given product. They point out unique features and configurations, or other technical notes to help you in understanding, choosing or using Leviton products.

MATERIAL CHARACTERISTICS

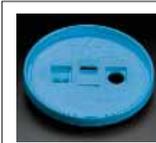

QuickPort Connectors for UTP and STP Copper Cable

A-I Leviton offers a variety of copper connectors from advanced CAT 6A (10G) to CAT 3 solutions. CAT 6A eXtreme® 10G, our highest performing connector featuring the Cone of Silence and Retention Force Technology®, (RFT), resists alien crosstalk (AXT) and offers unparalleled signal integrity. eXtreme 6+ and component rated GigaMAX 5e+ connectors also feature patented RFT for long term performance.

Shielded connectors in CAT 5e and CAT 6 ratings feature a robust, die-cast housing, provide protection from electromagnetic interference, and offer increased data security. Category 5 and Category 3 connectors offer an economical solution for a variety of applications.

All connectors feature standard QuickPort compatibility and universal color coded wiring labels and exceed industry performance standards. Available in 14 colors.

Use a Leviton Field-Termination Coaster to quickly and easily punch down wires on any Leviton Category or Multimedia Connector. For more information, call Sales Support at 1-800-922-6229.

Color Choices

Note: Protect your Category 5e and 6 connectors from damage and debris with Leviton's field installable Shutters and Icons. See Labeling Products Page L60.

*COLOR/CONNECTORS

For color selection, add suffix to catalog number as follows: Ivory (I), White (W), Gray (G), Black (E), Orange (O), Blue (L), Crimson Red (C), Yellow (Y), Green (V), Purple (P), Almond (A), Light Almond (T), Brown (B), Dark Red (R).

MATERIAL CHARACTERISTICS

- All module bodies are fire-retardant plastic rated UL 94V-0
- Jack spring contacts are the highest quality phosphor bronze, plated with 50 microinches of gold over 100 microinches of nickel for lowest contact resistance, maximum life

TESTING AND CODE COMPLIANCE

- All category-rated connectors comply with TIA-568-A requirements
- UL Listed
- Fully compliant with NEC Article 800
- Meet FCC Part 68

QUICKPORT® for AUDIO/VIDEO

QuickPort Adapters & Connectors for Audio/Video

Mix & match QuickPort Snap-In Audio/Video Adapters and Connectors to create a customized multimedia center. Make connections with standard industry tools. For Compression Connectors, use Leviton's Master Compression Tool.

- A BNC QuickPort Adapter:** Gold-plated female-to-female connector with twist-on front and rear connections using BNC plugs. Applications: high-end video, home theater, CCTV, LAN. Cable: shielded video & data cable.
- B F-Type QuickPort Adapter:** Nickel or gold-plated female-to-female connector with screw-on front and rear connections. Applications: TV, VCR, DVD, satellite, home theater. Cable: coaxial cable terminated with "F" plugs.
- C S-Video QuickPort Connector:** Flush-mount S-Video connector on the front with 110 punchdowns on the rear. Applications: audio/video, conference rooms, classrooms, computers, projectors. Cable: UTP Category 5, 5e or 6 cable.
- D QuickPort Blank Inserts:** Cover up unused QuickPort housing openings. Order in packages of 10.
- E RCA QuickPort Adapters:** Black, yellow or red striped color-coded module for front and rear connections using RCA plugs. Applications: audio/video, home theatre. Cable: shielded audio/video cable with terminated RCA plugs.
- F RCA-110 QuickPort Connector:** Standard RCA connector on the front with 110 punchdowns on the rear. Applications: audio/video, VCR, DVD, computers and gaming consoles. Cable: UTP Category 5, 5e or 6 cable.
- G, H F-Type and RCA QuickPort Compression Connectors:** Time saving solution for robust terminations right at the wall plate. Applications: HDTV, cameras, component video, CATV and satellite signal delivery. Cable: RG6 Quad.
- I, J RCA and F-Type Compression Connectors:** Female style connectors feature radial crimp for increased audio/video signal integrity. Applications: HDTV, cameras, component video, CATV and satellite signal delivery. Cable: RG6 Quad.

All modules meet or exceed industry standards. All QuickPort connectors and modules are UL certified, fully compliant with NEC® Article 800, and meet FCC Part 68.

For product specifications and recommendations, please visit our web resource at www.leviton.com/.

Thread-Lock® Reusable Fiber Connectors, Multimode And Single-mode

K-M Award-winning Thread-Lock Connectors, available in SC, FC and ST® styles, are reusable, field-terminable fiber optic connectors with a simple, craft-friendly installation. Available in 62.5/125 and 50/125 multimode or single-mode versions. Each box of 50 connectors includes one tightening tool.

Thread-Lock Fiber Connectors

DESCRIPTION	CAT. NO. SINGLEMODE	CAT. NO. MULTIMODE
[K] SC Thread-Lock Connector	49884-SSC (blue)	49884-MSC (beige)

[O] Silicon Build-up Sleeve Kit, includes one of each type (bag of 10)	49885-SBS
Nylon Retention Sleeve (bag of 10)	49855-SLV

MT-RJ Fiber Connectors, Multimode

P, Q Leviton MT-RJ Workstation connectors offer innovative push-button fiber termination, and plug directly into our MOS adapters (see page L14). Frame-Station connectors use a cam technology to lock the fiber into a terminated position for use in frame or, with adapters, in the workstation. Both feature a pre-polished ribbon fiber ferrule that eliminates polishing.

MT-RJ Fiber Connectors

DESCRIPTION	CAT. NO.
[P] High-Density MT-RJ Frame-Station Connector, multimode, 62.5 µm	49888-6SF
High-Density MT-RJ Frame-Station Connector, multimode, 50.0 µm	49888-5SF
[Q] High-Density MT-RJ Workstation Connector, multimode, 62.5 µm	49888-6SW
High-Density MT-RJ Workstation Connector, multimode, 50.0 µm	49888-5SW

Note: For a complete listing of Fiber Optic Tools, see the Tools section, Pages L62–L64.

Fast Cure Adhesive Connectors

A-D Leviton Fast-Cure adhesive connectors, available in ST, SC, FC, and LC styles, are reliable, cost-effective fiber optic connectors with quick, adhesive termination. Feature precision pre-radiused zirconia ferrules, high cable retention crimp, and patented non-optical disconnect spacer design. Available in multimode or singlemode versions.

Connectors

*COLOR/FIBER ADAPTERS

[H-M] For color selection, add suffix to catalog number as follows: Ivory (I), White (W), Gray (G), Black (E).

Leviton QuickPort fiber adapters fit into any Leviton QuickPort wallplate or housing, providing a high-density fiber-to-the-workstation solution, see pages L8-L17 for workstation options.

Leviton's Fiber Optic Consumables Kits provide the products you need to quickly and efficiently polish, clean and terminate all our fiber connectors. See Page L63.

QUICKPORT® FLUSH MOUNT WALLPLATES and INSERTS

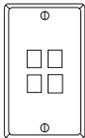

QuickPort Flush Mount Wallplates and Inserts

Leviton offers one of the largest selections of field-configurable, flush mount wallplates and inserts available on today's market. They provide the adaptability and performance required in a voice/data wiring interface in a sleek low-profile wallplate.

Choose from a full range of materials and styles, including: nylon, urea and stainless steel; standard and midsize; single- and dual-gang; and Decora® designer styling. All Leviton flush mount devices fit standard NEMA openings for easy installation on new or existing wallboxes.

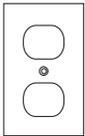

Styles

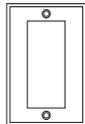

QuickPort

Wallplates with standard-sized openings designed to accommodate QuickPort connectors or adapters.

Flush Mount

Wallplates designed to fit smoothly against a wall, with a minimum profile.

Decora®

Wallplates with standard-sized openings designed to accommodate Decora Inserts.

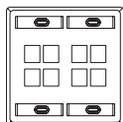

Decora Insert

Standard, Decora-sized inserts designed to adapt high and low voltage applications to a single wallplate profile.

Single-gang

The standard wallplate width of 2.75" W x 4.53" H.

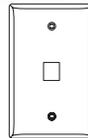

Dual-Gang

The standard double wallplate width of 4.625" W x 4.53" H.

Wall Jack

A wallplate preconfigured with some kind of connector or adapter.

Midsize

A wider (3.12" W x 4.87" H) single-gang wallplate designed to disguise flaws in drywall or provide a designer silhouette.

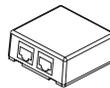

Type 106 (Duplex)

The Standard NEMA-style form, with two openings, which is most common among electrical outlets.

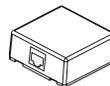

Type 105 (Single)

The Standard NEMA-style form with one opening—less common than the Type 106.

Type 104 (Duplex)

A NEMA-style of surface-mount box, with two outlets or openings, common for use with telephone jacks on walls or along baseboards.

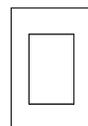

Type 103 (Single)

Identical to the type 104 box, but featuring only one outlet.

Acenti™ Insert

QuickPort inserts designed to snap into Acenti wallplates.

Acenti Wallplate

Sleek, low-profile plates available in 1–6 gang styles accept a variety of QuickPort and other inserts for voice, data, electro-mechanical, lighting control, GFCI and more.

QuickPort Decora Multimedia Inserts

Combine voice, data, audio and video in one compact, attractive Decora wallplate. QuickPort Decora Wallplate Inserts offer designer style to match Leviton Decora electrical switches and outlets, with the capacity and flexibility to support high-tech communications for boardrooms or workstations. QuickPort snap-in modules fit neatly into a single gang Decora wallplate and can be combined with Decora electrical devices (with a barrier box) in a multi-gang wallplate. Simply snap in the QuickPort connectors of your choice to customize multimedia options. Compatible with all standard Decora wallplates and Decora Plus snap-on wallplates with hidden mounting screws and standard NEMA openings. UL Listed and CSA Certified.

For Decora-style F-connector and Telephone Wall Jack Inserts, see page L19.

QUICKPORT MIDWAY WALLPLATES

D Midway wallplates provide QuickPort modularity with .375" more coverage than standard wallplates. Expanded silhouette provides designer look and easily hides irregular drywall cuts or flaws around outlets. The 4.875" x 3.125" plate is .375" wider and taller, and matches Leviton's Midway Wallplates for electrical devices and lighting controls. .25" depth ensures a clean fit with various devices. Crafted from durable, smooth-finish nylon, wallplates fit a single-gang electrical box. UL listed and CSA certified.

QUICKPORT STAINLESS STEEL WALLPHONE WALLPLATES

C Bring Stainless Steel elegance to your wallphone. Easily mount any standard wallphone on this sturdy, standard-sized wallplate with durable rivets. Single port accepts any Leviton QuickPort Connector. Recessed design fits cleanly with slide-rail mechanisms.

QuickPort Stainless Steel Wallphone Wallplates

DESCRIPTION	CAT. NO.
Stainless Steel Wallphone Wallplate, recessed	4108W-1SP
Stainless Steel Wallphone Wallplate	4108W-OSP

Note: Leviton also offers Voice-Grade Wall Phone Jacks. (See pages L3-L7.)

QuickPort Wallplate Inserts

QUICKPORT DUPLEX/QUAD 106 INSERTS

D, E The QuickPort Duplex and Quad 106 Units are ideal for applications where two or four individual modular ports are desired, within the standard '106/NEMA-style' outline that prevails among electrical outlets. Accepts all QuickPort Snap-in Modules and fits standard NEMA wallboxes and most floor boxes and monuments. A recess above each module port on the Duplex 106 Unit accommodates Leviton Designation Labels (page L60) or hand-written port ID. Uses standard duplex wallplates (sold separately, see Section E). UL & CSA listed and NEC Article 800 compliant.

Note: Inserts are sold empty. Snap-in Connectors must be ordered separately. (See pages L3-L7.)

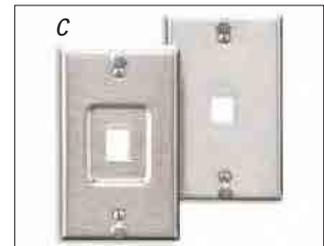

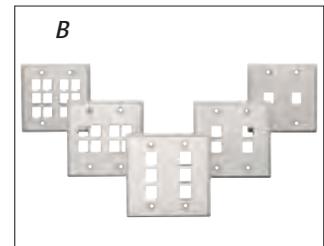

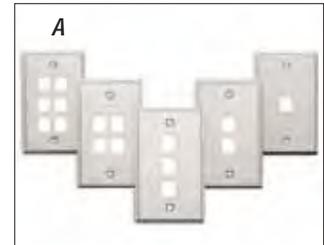

QUICKPORT FLOOR JACK INSERTS

F Rugged and fully field-configurable, this device provides point-of-use connectivity for a broad range of applications where convenience or building requirements dictate the use of a floor-mounted communications outlet. Each floorplate is made of .06" thick solid brass to hold up under heavy furniture or foot traffic. When not in use, a flush-fitting brass screw cap keeps internal components free from dirt and dust.

The two individual ports are configured easily with any combination of QuickPort. QuickPort floor jacks will fit standard metal boxes 3" x 2", 3" x 2 1/8" and larger.

QUICKPORT® MODULAR FURNITURE FACEPLATES

Steelcase Series

Herman Miller® series (shown with 49910-SE4 and Herman Miller's "Reducer" G1189A)

Haworth® Panels

QuickPort Modular Furniture Faceplates

Bring a simple snap-in installation, attractive streamlined appearance and easy identification to your modular furniture environments. QuickPort Modular Furniture Faceplates accept all QuickPort Snap-In Modules—supporting virtually any application—and snap easily and snugly into standard modular furniture. Features faceplate windows with clear plastic covers that allow easy insertion of ID labels. Labor-saving QuickPort jack design and tool-less plate installation simplifies installations, adds, moves and changes, and allows access to the connectors without removing the furniture channel cover. Available in 2- and 4-port versions, and in four colors: ivory, white, gray and black. cULus Listed and A-Tick Certified.

QuickPort furniture faceplates come in many styles to fit all major modular furniture brands.

MATERIAL CHARACTERISTICS

High-impact, fire-retardant, plastic rated UL 94V-0.

QuickPort Multimedia Outlet System (MOS)

The innovative QuickPort Multimedia Outlet System is designed to provide the highest level of application and installation flexibility for fiber optic and twisted-pair connectivity. It consists of a surface mount box and single- and dual-gang wallplates, which accept a variety of copper, fiber, and A/V QuickPort snap-in modules.

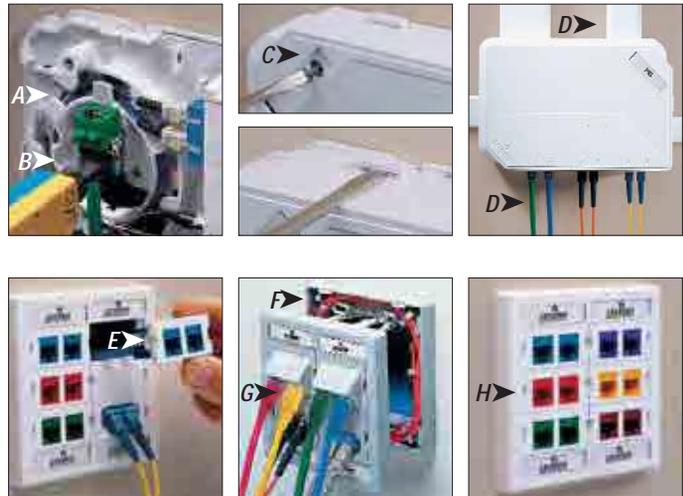

The MOS line is distinguished from other QuickPort housings by several features: front-load installation capability so that changes can be made without dismantling the entire device; duplex modules and fiber coupling types for SC, ST, MT-RJ and other applications; the addition of S-video and RCA adapters for high-definition audio/video; and design elements for enhanced routing, storage and bend radius protection of fiber and copper cabling. See individual product descriptions for more features.

For product specifications and recommendations, please visit our web resource at www.leviton.com.

Features and Benefits

- A** Multiple connector termination stations provide stabilized punchdown support.
- B** Leviton's exclusive dual rings store the fiber loop and provide multiple straight paths to each port.
- C** Single latch cover with security option restricts access if desired.
- D** Multi-directional mounting and raceway access allow complete installation flexibility.
- E** Front-loading inserts simplify configuration, while strong latches keep them in place during use.
- F** Fiber storage/spacer ring fits between wallbox/mud ring and MOS dual-gang plate for fiber loop storage and management.
- G** 45° angled jack insert optimizes bend radius compliance of cable exiting QuickPort® snap-in connectors.
- H** Load up to 12 devices in a dual-gang wallplate.

QuickPort Surface Mount Housings

Leviton's surface mount housings offer fast, economical installation and field configuration for applications where it may not be practical to add a wallbox, such as modular furniture environments or retrofit situations. As with all QuickPort field-configurable products, you configure the housing to your specific needs using Snap-In Modules—easily rearranged if applications change. These housings can be adapted for mounting on all types of surfaces, including walls and furniture with tape or screws (both included) modular furniture with a modular furniture bracket (page L23) or to metal surfaces with magnets (page L23).

Note: Identify all your connections with Leviton LabelWare System wallplate and housing labels (See page L60.)

Designation window accepts hand-written indications, field-printed labeling systems, Leviton LabelWare™ or pre-printed port ID labels (see page L59).

4-, 6- and 12-port housing feature raceway knockouts on all non-ported sides which are compatible with major raceway brands.

For large installations, silkscreen the cover with words, numbers, icons or company logos. Call Applications Engineering for advice on artwork and minimum quantity requirements.

Port identification areas reside next to numbered ports.

In-port connector termination stations provide stability during punchdown.

4-, 6- and 12-port surface-mount housings are compatible with Leviton's modular furniture mounting brackets and magnets (see page L24).

QUICKPORT® SURFACE MOUNT HOUSINGS

QuickPort 1-, 2-, 4-, 6-, and 12-Port Surface Mount Housings

A-E Leviton has a surface mount housing to suit your need. 1-, 2-, 4-, 6- and 12-Port housings are easily field configured with QuickPort Connectors (sold separately, pages L3-L7). The 2-port version comes with a blank filler to cover and protect one unused opening. The 4- and 6-port housings are sized to completely cover a single-gang NEMA wallbox opening, while the 12-port fits over a single- or dual-gang NEMA box opening. Housings contain knockouts to accommodate raceway and cable entry, with built-in strain relief to assure undisturbed connections, and easy cover latches allow easy adds, moves and changes.

All housings can be mounted with screws or adhesive mounting tape (both provided), or with magnets or modular furniture brackets (sold separately on page L24). Identify ports and stations by using ample space next to each port or the designation window. All housings are UL Listed and compliant with NEC Article 800.

Acenti Wallplates, QuickPort® Inserts and Connectors

Leviton's new Acenti wallplates are sleek and smooth and come in 7 soft neutral colors to perfectly complement any home or office environment. The soft radius design with low-profile corners adds personality with clean simple lines. Available in 1-, 2-, 3-, 4-, 5- and 6-gang styles. Choose from a wide variety of inserts for voice, data, electro-mechanical, lighting control, GFCI, and more. QuickPort inserts give all your voice, data, audio/visual and even fiber connections a sleek new look. See all the options at Leviton.com/acenti or call Leviton Customer Service at 1(800) 323-8920.

Telephone Wall Jack Inserts

TYPE 106 DUPLEX FLUSH MOUNT MODULAR JACK WITH 110-TYPE TERMINATION

A The Type 106 duplex jack accommodates two voice and/or data terminals in the same jack location, using standard duplex electrical wallplates. Jack choices include 4-, 6-, and 8-conductor modular jacks for voice or data, with 8-conductor keyed versions typically used for data. Mounts easily in standard electrical boxes, most floor monuments, raceways, and many cellular or raised floor boxes without adapters. May be ganged for multiple-port applications. Installation is fast and easy with 110-type insulation displacement connectors for 22-26 AWG inside wiring. UL Listed, CSA Certified, and meets FCC Part 68 requirements.

MAGNETS

Mount surface mount products on desks and other metal surfaces.

Magnets

DESCRIPTION	CAT. NO.
[E] Magnets (4 per pack)	41030-SMJ

Use 1 Magnet for 2-port Surface Mount Housing. Use 2 Magnets for 4-, 6-, and 12-port Surface Mount Housings, Single & Dual-Gang Surface Mount Backboxes, 103 & 104 type Modular Jacks.

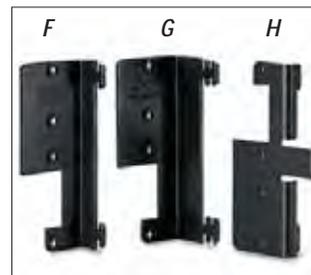

MODULAR FURNITURE BRACKETS

Use to install Leviton surface mount outlets (or flush mount devices with backbox) in many types of modular offices. Can also be used with Leviton backboxes and surface mount 4-, 6- and 12- port housings. Cold-rolled steel units snap securely into modular partitions. A cutout allows rear cable entry for a clean, uncluttered look and tangle-free installation. Available in black.

Modular Furniture Brackets

Category 6A (10G) Performance System

Leviton's eXtreme® 10G System, featuring Cone of Silence™ and Retention Force Technology®, supports backwards compatibility for 1G and 10/100 Ethernet, as well as advanced new 10G Base-T applications. Patent pending Cone of Silence blocks alien crosstalk (AXT) between neighboring connectors. Retention Force Technology ensures error-free performance over the life of the system by reinforcing fine contacts even when 4- or 6-pin plugs have been used.

EXTREME 10G QUICKPORT® PATCH PANELS

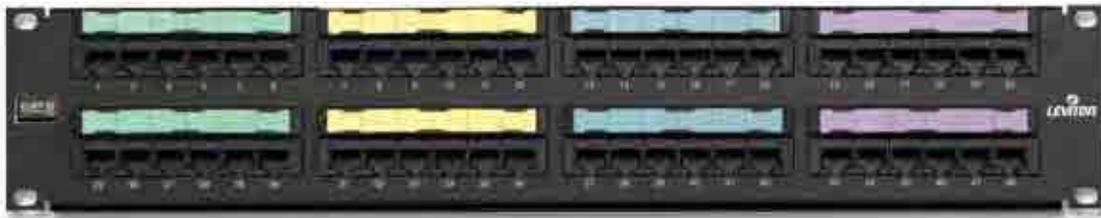

Preloaded with black eXtreme 10G connectors, panels offer universal T568A/B wiring compatibility, 110-style IDC termination field, and labeling surfaces. Available in standard and angled styles.

CAT 6A Performance QuickPort® Patch Panels

DESCRIPTION	CAT. NO.
24-Port QuickPort Patch Panel preloaded with eXtreme® 10G Connectors, 1RU	6910G-U24
48-Port QuickPort Patch Panel preloaded with eXtreme 10G Connectors, 2RU	6910G-U48
48-Port High-Density QuickPort Patch Panel kitted with 48 eXtreme 10G connectors and cable management bar, 1RU	6910G-D48

SPECIFICATIONS AND FEATURES

- Guaranteed to exceed the current TIA CAT 6A specifications for all AXT, NEXT, FEXT, PSNEXT, PSELFEXT, PSACR Insertion Loss and Return Loss, with tested transmission performance
- Exceeds TIA 568 B.2-10 channel performance when installed with Leviton approved 10G cable
- ETL verified to comply with and guaranteed to meet IEEE 802.3an 10GBASE-T and TIA Cat 6A standards
- Proprietary technology allows the channel to surpass proposed *6 around 1" Alien Crosstalk (AXT) test requirements

eXtreme® 6+ Universal Patch Panels

Craft-friendly eXtreme 6+ Universal Patch Panels exceed published Category 6 standards and feature patented Retention Force Technology™ for robust long-term performance and mechanical integrity.

These 12-, 24-, 48- and 96-port panels (and 12-port patch block) come pre-configured with craft-friendly 110-style punchdowns on the rear and six-port RJ-45 front modules. Rear designation labels are reversible, with color-coded diagrams for T568A, T568B and 25-pair wiring configurations.

Patch panels feature advanced cable management and accommodate top, bottom or side cable entry.

All eXtreme 6+ panels mount in standard 19" equipment racks, are cULus Listed and A-tick compliant.

48-Port Panel

48-Port Panel with Centralized Labels

FEATURES

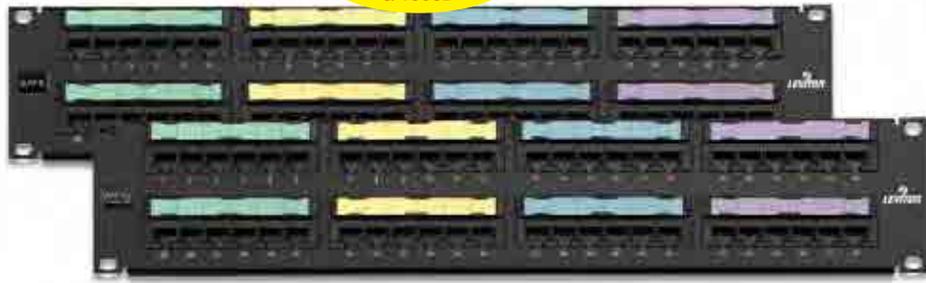

Universal printed circuit-board modules— with 110 connections and rear termination field for easy-field configurability— can be used for T568A, T568B or 25-pair wiring schemes.

- Patch panel labeling kit features colored slide-in front port identification labels.
- Reversible rear label slides easily into redesigned slot and shows color-coded diagrams for T568A, T568B and 25-pair wiring.

PATCH PANELS and BLOCKS

UNIVERSAL T568A & T568B

GigaMax® 5e and Category 5 Universal Patch Panels and Patch Blocks

GigaMax 5e and Category 5 Universal Patch Panels and Patch Blocks come in a variety of port densities. Both the blocks and panels come pre-configured with 110-punchdowns on the back and either Category 5 or GigaMax 5e six-port modules on the front. Both versions can be used for T568A or T568B wiring configurations. The panels, available with 12 to 96 pre-configured ports, mount in standard 19" equipment racks and accommodate top, bottom or side cable entry. For smaller, wall-mount installations, the 12-port patch blocks are an ideal low-profile solution.

GigaMax 5e panels are rated for both component and channel-level performance.

All panels and blocks are cULus Listed and meet all requirements of the latest published TIA guidelines.

extreme® 6+, GigaMax™ 5e and QuickPort® Angled Patch Panels

Simplify cable management, ease patch cord access, and increase rack density with Angled Patch Panels from Leviton.

Panels are available in eXtreme 6+ or GigaMax 5e Universal/110-style Angled versions. Field-configurable QuickPort versions accommodate any style of QuickPort connector, and are available empty, or as kits with either Gigamax 5e+ or extreme 6+ QuickPort connectors.

All Universal panels feature 110-style punchdowns and reversible rear designation labels with color-coded wiring diagrams for T568A, T568B and 25-pair configurations.

An array of accessories, including Horizontal Ring, 1RU and 2RU Angled Blank Panel Inserts, Transitional Cover and Angled Cable Management Bar improves rack management.

All panels mount in standard 19" equipment racks and accommodate side cable entry. All panels are cULus Listed and meet or exceed all requirements of applicable Category ratings.

FEATURES

- Cable-tie down slots accommodate Hook and Loop Cable Management tie-wraps and plastic cable ties. Built-in cable management organizes cable and helps maintain optimum bend radii.
- Exclusive Quick Termination Stations can be used to temporarily hold connectors for more convenient termination and cable dressing on 24- and 32-port standard QuickPort panels.
- QuickPort panels accept all Leviton QuickPort snap-in connectors, modules and blanks. Use with Category 6, 5e or 5 connectors for outstanding performance.
- Rugged dual-wall reinforced construction provides secure, flush mount module retention.

QuickPort® Multimedia Patch Panels and Patch Blocks

Create a Category 5, 5e, 6 or multimedia panel instantly by matching Leviton Performance connectors with versatile QuickPort patch panels and patch blocks. Field-configure with any QuickPort Snap-in Modules for voice, data, audio and video, including: Category 5, GigaMax® 5e, and eXtreme® 6+ (sold separately), to configure the panel to your exact needs.

Configure patch blocks with up to 12 QuickPort modules. Patch panels range in port density from 24 to 48 ports. 24- and 32-port panels incorporate Leviton's exclusive 'Quick Termination Station', and a cable management tray. The high-density panels include a wire management bar. An 89D mounting bracket is sold separately for patch blocks.

SPECIFICATIONS AND FEATURES

DuraPort™ Industrial Connector Housings

- Made of Polybutylene Terephthalate (PBT) for strength and chemical resistance.

DuraPort™ Industrial Wallplates

- Molded gasket with embedded sealing feature for wallplate mounting holes, ensures a watertight fit.

DuraPort™ Industrial Patch Cords

- Sheathed in Thermoplastic Elastomer to resist heat, abrasion, and tearing.

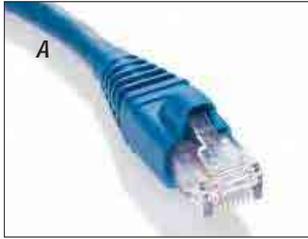

DuraPort™ Industrial Outlet Kits

- Pre-assembled stainless steel wallplate with an appropriate number of connector housings and connector caps.

PATCH CORDS

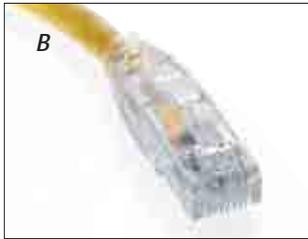

Copper Components

Performance Patch Cords

A Leviton's eXtreme 10G, eXtreme 6+, GigaMax 5e and Category 5 patch cords meet or exceed industry standard specifications and use compliant stranded wire as specified by the latest TIA guidelines, to ensure adequate "flex life". All have quality construction to maintain the integrity of signal transmission at the cross-connect, which is critical to the performance of the entire cabling system. Available in lengths of 3', 5', 7', 10', 15' and 20', in seven colors.

NOTE: Leviton Performance Patch Cords are required to qualify for the Leviton Lifetime Warranty on Certified installations.

SlimLine Patch Cords

SlimLine Patch Cords make it easy to get connected in both traditional and high-density applications. Bootless design and narrow Slimline profile are ideal in environments where rack space is especially tight. The snagless design prevents plugs from becoming entangled in nearby cables and the easy-access quick-release tab makes connections and disconnections easier. Flexible two-piece strain relief boot ensures excellent connectivity. Available in Category 5e and 6 ratings.

Shielded Patch Cords

Shielded Patch Cords, part of Leviton's full line of shielded products, provide enhanced EMI/RFI protection and increased data security for government, financial, and other critical applications. These Category 5e and Category 6 patch cords are available in 6 lengths. Grey only.

SlimLine Patch Cords

DESCRIPTION	CAT. NO.	CAT. NO.
3-foot length (.91 m)	5S460-03S	6S460-03S
5-foot length (1.52 m)	5S460-05S	6S460-05S
7-foot length (2.13 m)	5S460-07S	6S460-07S
10-foot length (3.05 m)	5S460-10S	6S460-10S
15-foot length (4.57 m)	5S460-15S	6S460-15S
20-foot length (6.10 m)	5S460-20S	6S460-20S

NOTE: Leviton Patch Cords (Standard, SlimLine or Shielded) are required to qualify for the Leviton Lifetime Warranty on Certified installations.

* COLOR/PATCH CORDS

For color selection, add suffix to catalog number as follows: Ivory (I), White (W), Gray (G), Black (E), Blue (L), Red (R), Green (G), Yellow (Y).

eXtreme 6+ 110-Style Wiring Products

Leviton's 110-Style Wiring Products are perfect for quick and easy cross connects in a minimum of space. Achieve top performance and network integrity at consolidation points, even at Category 6 levels. Building a cross-connect system for voice and data is effortless.

eXtreme 6+ 110-Style Wiring Blocks are available in 96- and 288-Pair units, with or without legs for wall mount applications. We also offer 96-, 192- and 288-pair rack-mount units. All kits include C-4 clips.

A full selection of patch cords is available for easy connection to network equipment. All units meet or exceed Category 6 transmission requirements.

eXtreme 6+ Cat 6 110-Style Wiring Block – Kitted Versions

DESCRIPTION	CAT. NO.
[A] eXtreme 6+ 110-Style Wiring Block, Wall-Mount w/o legs, CAT 6, 96-Pair	41NB6-1F4
[B] eXtreme 6+ 110-Style Wiring Block, Wall-Mount w/legs, CAT 6, 96-Pair	41AB6-1F4
[C] eXtreme 6+ 110-Style Wiring Block, Wall-Mount w/legs, CAT 6, 288-Pair	41AB6-3F4
[D] eXtreme 6+ 110-Style Wiring Block, Rack-Mount, CAT 6, 96-Pair	41DR6-1F4
eXtreme 6+ 110-Style Wiring Block, Rack-Mount, CAT 6, 192-Pair	41DR6-2F4
eXtreme 6+ 110-Style Wiring Block, Rack-Mount, CAT 6, 288-Pair	41DR6-3F4

Note: Category 5e and 6 110 wiring block legs are non-removable.

Note: Identify all of your 110 products with LabelWare™ 110 wiring product labels. See page L59.

Note: All kits include C-4 clips.

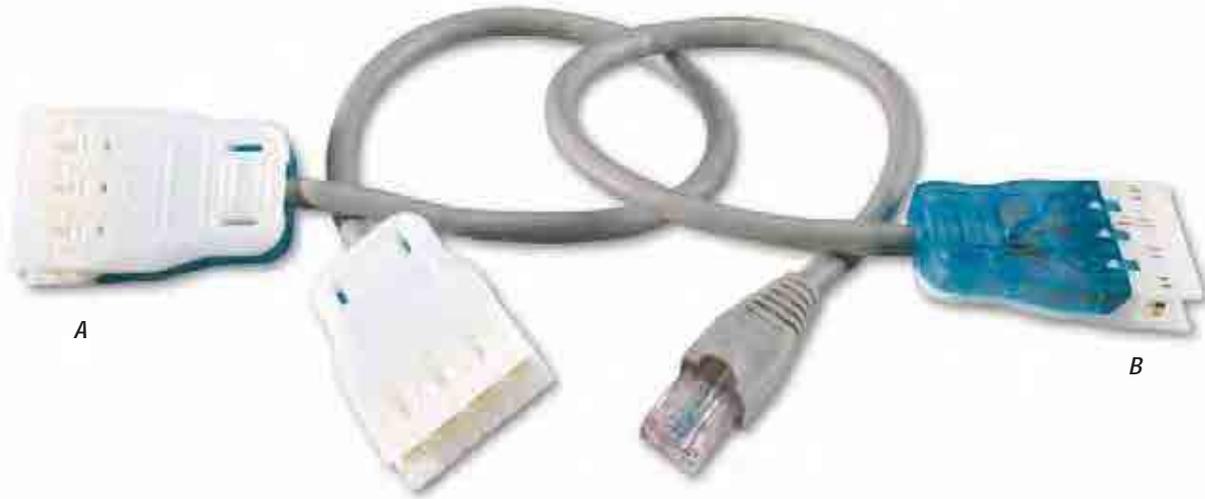

MATERIAL CHARACTERISTICS

- C-4 connector clips (sold separately or included in kitted versions) are fire-retardant UL 94V-0 plastic with solder-plated IDC's.

EXTREME® 6+ 110-STYLE PATCH CORDS and CONNECTOR CLIPS

Copper Components

eXtreme 6+ 110-Style Patch Cords

A, B Make your network connections with eXtreme 6+ 110-style Patch Cords, a quick solution for 110 to 110 and 110 to RJ45 applications (in both T568A and T568B wiring configurations). Cords are gray with gray boots and are offered in 1', 2', 3', 5', 7' and 10' lengths. All cords meet or exceed all Category 6 transmission requirements.

[C] eXtreme 6+ C-4 Clip, CAT 6 (bag of 10)	69104-IDC

GigaMax 5e 110-Style Wiring Products

WALL-MOUNT 110-STYLE WIRING PRODUCTS

Create compact, adaptable 110 termination fields for voice and data by mounting 110 wiring bases to the wall or a backboard. Bases come in 50-, 100- or 300-pair densities. The 50- and 100-pair bases may be ordered with or without standoff legs. All 300-pair bases include stand-off legs, label strip holders and white paper labels. A 50-pair 89D bracket configuration is also available (89D bracket sold separately, page L39).

Complete kits are available for 100- and 300-pair wall-mount units and 89D wiring base, and include bases, C-4 or C-5 connecting blocks, label holders and white paper labels.

All components are UL listed and exceed the latest TIA-568-B standards and Category 5e transmission requirements. Verified by independent testing.

Note: Category 5e and 6 110 wiring block legs are non-removable.

MATERIAL CHARACTERISTICS

- Horizontal cord managers and 110 wiring bases feature sturdy construction of fire-retardant plastic rated UL 94V-0. C-4 and C-5 connector blocks (sold separately or included in kitted versions) are fire-retardant UL 94V-0 plastic with solder-plated IDC's.

RACK-MOUNT 110-STYLE WIRING PRODUCTS

Rack-Mount 110-Style Wiring Products

Rack-Mount 110 Wiring Products attach to standard 19" wide racks to create compact, adaptable 110 termination fields for voice and data. Panels come in 100-, 200- or 300-pair densities and terminate 22-26 AWG solid copper wire. Cord management is provided by horizontal cord managers (sold separately).

Kits for 100-, 200- and 300-pair rack-mount panels include the panel, C-4 and C-5 connecting blocks, label strip holders and white paper labels.

Horizontal cord managers and 110 wiring bases feature sturdy single-piece construction of fire-retardant plastic rated UL 94V-0. Wiring bases are attached to 19" wide steel rack-mount panels, painted black. Screws are included for mounting the panels onto 19" racks. C-4 and C-5 connector blocks are fire-retardant UL 94V-0 plastic with solder-plated IDC's.

All components are UL Listed, and exceed Category 5e transmission requirements. Verified by independent testing.

GigaMax 5e 110-Style Connector Clips

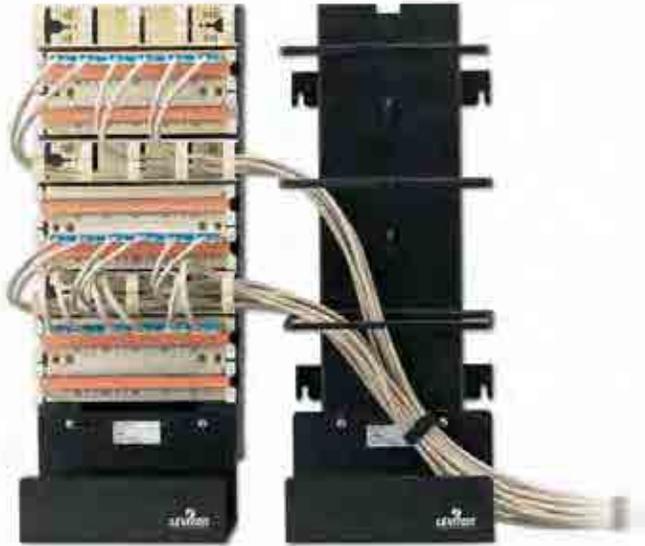

E These high-quality connector clips securely seat the wires on 110 wiring bases, providing a gas-tight IDC connection that maintains signal integrity for high performance applications. Available in three Category 5/5e pair-count sizes: C-3, C-4 and C-5. These clips withstand 200 reterminations, and are made of fire-retardant plastic rated UL 94V-0 with solder-plated insulation displacement connectors.

GigaMax 5e 110-Style Connector Clip

DESCRIPTION	CAT. NO.

GigaMax 5e 110-Style C-4 Connector Clips (bag of 10)	49104-IDC
GigaMax 5e 110-Style C-4 Connector Clips (bag of 50)	49104-I50
GigaMax 5e 110-Style C-5 Connector Clips (bag of 10)	49105-IDC

110-STYLE WALL-MOUNT FRAMES

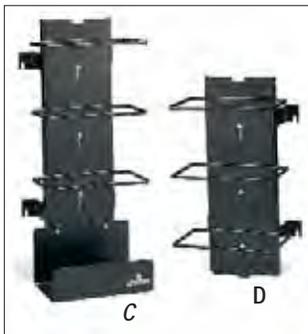

110-Style Wall-Mount Frames

A–D For 110 wall-mount applications, mounting frames provide additional options for cord/cable management, access, and density via a rear cable channel, side slots, horizontal cord managers and a bottom cable tray. Components are offered individually or in kits (see ordering information below for description of included parts).

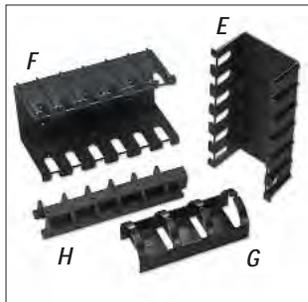

Begin with the basic mounting frames and vertical cord managers. Each has a 300-pair capacity—room for three 100-pair wiring bases, with 100-pair horizontal cord managers in between. The capacity for each mounting frame or vertical manager may be increased to 600 or 900 pairs with the addition of up to two 300-pair extension units.

Frames, trays and vertical cord managers are composed of sturdy steel, painted black; wiring bases, connector blocks and horizontal cord managers are fire-retardant plastic rated UL 94V-0. Kits include screws for attaching wiring bases and cord managers to the mounting frame. All components are UL Listed and exceed Category 5e transmission requirements. Verified by independent testing.

Wall-Mounting Frame 110-Style Wiring Products

DESCRIPTION	CAT. NO.
[A] 300-pair Basic Mounting-Frame Unit (sheet metal frame and bottom cable tray only).	41MB2-SMF

[E] 3" Deep Vertical Cable Channel	41CMS-300
[F] 5" Deep Vertical Cable Channel	41CMS-500
[G] Horizontal Cable Management Trough	41CMS-HCM
[H] Vertical Spool Manager Mounting Bracket	41CMS-VSM

66-Clip Connecting Blocks

A variety of M Blocks, including 25-pair and split 50-pair styles, provide versatile cross connect points in equipment and telecommunications rooms. Install individually or in pairs. Constructed of high-impact, fire-retardant UL 94V-0 plastic with phosphor bronze quick-connect insulation displacement 66-clips. Install individually or in pairs in a cross-connect system using jumper wires or bridging clips.

66-Clip Connecting Blocks

DESCRIPTION	CAT. NO.
[A] M Block: 25-pair (66M1-25) 10"H x 3 ⁵ / ₁₆ "W x 1 ³ / ₁₆ "D	40066-M25

Add-On Lock and Key

DESCRIPTION	CAT. NO.
Add security to an existing door for this enclosure—simply remove the black plastic plug on the door front, and replace with lock mechanism. Lock and Key	5L000-LOK

PLEASE NOTE: All STOCK configurations of this rack-mount enclosure are sold 'empty,' or without any mounting plates installed. Capacity is dependent upon configuration of mounting plates as shown in note. Rack-mount enclosures DO include grounding/strain relief, grommets, labels, 8 or 16 blank plastic mounting plates, and the appropriate number of cable management rings.

Note: For mounting plates and accessories. See pages L47-49.

FEATURES

- Includes 8 (3RU) or 16 (6RU) plastic blank mounting plates to inexpensively fill up any unused locations.
- Houses up to 12 (3RU) or 24 (6RU) mounting plates for assorted fiber or multimedia applications. See chart on page L48.

OPT-X® 1000 WALL-MOUNT FIBER OPTIC ENCLOSURES

Doors are L-shaped for maximum access to couplings through the open sidewall.

Door options:

- Split with single lock
- Split with two locks (custom option)
- Solid with single lock
- Solid without lock

Houses 2 (small), 4 (medium) or 12 mounting plates for assorted fiber or multimedia applications. See chart on page L47.

SEE FIBER DENSITY CHART, PAGE L48

Unique cable management ring is adjustable and stackable to simplify fiber loop installation, bend radius compliance, and future maintenance/additions. Stores 3 meters of 900 micron fiber per adapter.

Sidewall cutout gives completely unobstructed access to the mounting plates when door is open (covered when door is closed).

Opt-X 1000 Small Wall-Mount Enclosures 8.0"H x 13.0"W x 3.5"D

DESCRIPTION	CAT. NO.
Small, Empty with solid metal door, no lock, holds no splice trays	5W110-00N
Small, Empty with split metal door and one lock/key, holds no splice trays	5W120-00N
Small, Empty with solid metal door and lock/key, holds no splice trays	5W170-00N

Opt-X 1000 Medium Wall-Mount Enclosures 14.0"H x 12.0"W x 5.25"D

DESCRIPTION	CAT. NO.
Medium, Empty with solid metal door, no lock, holds 6 splice trays	5W310-00N
Medium, Empty with split metal door and one lock/key, holds 6 splice trays	5W320-00N
Medium, Empty with solid metal door and one lock/key, holds 6 splice trays	5W370-00N

Opt-X 1000 Large Wall-Mount Enclosures 17.0"H x 15.0"W x 5.25"D

DESCRIPTION	CAT. NO.
Large, Empty with solid metal door, no lock, holds 6 splice trays	5W710-00N
Large, Empty with split metal door and one lock/key, holds 6 splice trays	5W720-00N
Large, Empty with solid metal door and lock/key, holds 6 splice trays	5W770-00N

Add-On Lock and Key

DESCRIPTION	CAT. NO.
Add security to an existing metal enclosure door. Simply remove the black plastic plug on the door front, and replace with lock mechanism. Lock and Key	5L000-LOK

PLEASE NOTE: All STOCK configurations of this wall-mount enclosure are sold 'empty,' or without any mounting plates installed. Capacity is dependent upon configuration of mounting plates shown on page L48. The wall-mount enclosures DO include grounding/strain relief, grommets, labels, and the appropriate number of cable management rings. Large Wall-Mount Enclosure includes 8 blank plastic mounting plates.

Note: For mounting plates and accessories. See page L48.

Opt-X 500 1RU, 2RU and 3RU Fiber Optic Enclosures

Opt-X 500 Fiber Enclosures, 3 Rack Units High (3RU) 5.25"H x 19.0"W x 12.0"D

DESCRIPTION	CAT. NO.
[A] 1RU, empty with metal cover, no lock	5R1UA-A03
[B] 2RU, empty with metal cover, no lock	5R2UA-A06
[C] 3RU, empty with metal cover, no lock	5R3UA-A12

Opt-X 250 1RU Fiber Optic Panel

Opt-X 250 Fiber Panel 1.75"H x 19.0"W x 7.7"D

DESCRIPTION	CAT. NO.
1RU, empty with no metal cover, no lock	5R1UE-A03

SPECIFICATIONS AND FEATURES

Opt-X 500 Fiber Enclosure

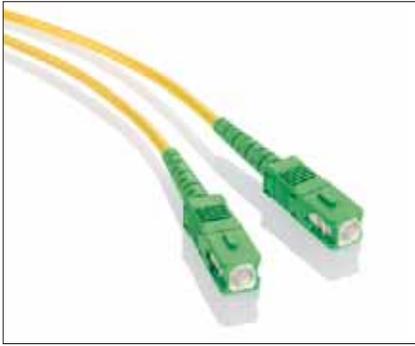

- One-piece removable cover protects and conceals patch cords and allows for complete accessibility to the back of the enclosure.
- Mounting brackets allow for installation on any rack space.
- Stores 3 meters of 900 micron tight buffered fiber per adapter.
- Multiple bend radius and cable management features including 2 cable tie down features in front, and 4 in back, protect and organize cables.

Opt-X 250 Fiber Panel

- Perfect for small to medium installations with excellent flexibility at a competitive price.
- Utilizes minimum rack space while providing space for up to three (3) adapter plates or splice trays (more splice trays if no obstructions).
- Two fiber management rings easily attach to low profile mounting clips for customized positioning. Includes multiple bend radius and cable management features.
- Open back allows easy access and management in all directions.
- Mounting brackets allow panel to be installed on any rack space.

FIBER OPTIC CABLE ASSEMBLIES

Fiber Optic Cable Assemblies

Leviton offers an extensive line of high quality fiber optic cable assemblies, including laser optimized versions as well as pigtails for frame and workstation. Strenuously tested for return and insertion loss, and held to strict internal quality standards, these cable assemblies are developed to exceed TIA 568-B.3 standards.

Choose from standard & hybrid combinations of connectors, in single-mode and multimode, for cable assemblies and pigtails in ST, SC, FC, LC and MT-RJ styles. Laser optimized assemblies are available in a 50µm core style with a variety of connection configurations including combinations of MT-RJ, ST, SC and LC connectors and provide 10-gig performance for higher bandwidth requirements at greater distances.

We also provide custom lengths and configurations manufactured to your exact specifications—simply call customer service for more information. PLEASE NOTE: CUSTOM LENGTHS MAY REQUIRE A WAITING PERIOD. All cables are OFNR* rated and meet all applicable TIA/EIA and industry standards.

*OFNP-rated cables are available as a special order. See below.

FIBER OPTIC FAN-OUT KIT

R Protect your bare fiber and prepare loose-tube cable for direct termination to connectors with these simple 6- or 12-strand kits. Available in 24" or 36" lengths. Kits separate 250 µm fibers and route them into color-coded 900 µm buffer tubes. No proprietary tools required. Can be used with any manufacturers loose-tube cabling, and any industry standard connectors.

Fiber Optic Fan-Out Kit

DESCRIPTION	CAT. NO.
[R] 24" Fiber Optic Fan-Out Kit, 6-fiber	49887-06S
24" Fiber Optic Fan-Out Kit, 12-fiber	49887-12S

ACTIVE ZONE CABLING

Telecommunications Enclosures for Active Zone Cabling

Leviton's telecommunications enclosures add flexibility and manageability to cabling infrastructure. Active ceiling enclosures install flush with the drop ceiling for a clean, unobtrusive look. Recessed panels in doors may be fitted with a ceiling tile. Fully hinged, drop down doors support installed equipment and open to face the technician for safe, easy access. Manufactured of aluminum, all ceiling enclosures are plenum rated and include two edge-protected cable access ports with fire rated foam sealing kits.

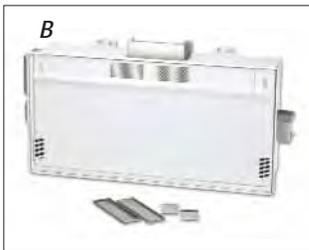

2' x 2' Active Ceiling Enclosure

A Accommodates one removable assembly with total 2RU of active electronics and up to 5RU (2U+1U+2U) of 19" rack-mount patch panels and wire management. Units are AC Power ready and include a 9 CFM fan with transformer capable of providing more than 100 air changes per hour. UL Listed.

2' x 2' Active Ceiling Enclosure 12.0"H x 24.0"W x 24.0"L

DESCRIPTION	CAT. NO.
[A] Active Ceiling Enclosure, 2' x 2'	Z1000-AC2

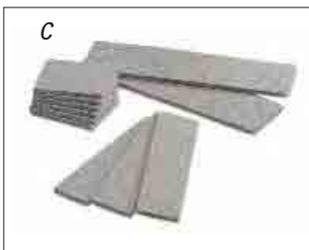

2' x 4' Active Ceiling Enclosure

B For hubs, switches and patch panels in high density areas, these enclosures house two removable rack-mount assemblies each with 4RU (total 8RU) of mounting space for active components and up to 10RU divided (2U+1U+2U) of 19" rack-mount patch panels and wire management. Units are AC Power ready and include a 9 CFM fan with transformer capable of providing more than 100 air changes per hour. UL listed.

Telecommunications Enclosures for Passive Zone Cabling

These easy-to-install enclosures provide flexible consolidation point placement in the floor or ceiling. Manufactured of aluminum, enclosures are plenum rated and include fire-rated foam sealing kits.

2' x 2' Passive Ceiling Enclosure

A For consolidation points within the ceiling, these enclosures accommodate up to 5RU (2U+1U+2U) of 19" rack-mount patch panels and or wire management. Enclosures install flush with the drop ceiling and recessed panels in doors may be fitted with a ceiling tile for a clean, unobtrusive look. Fully hinged, drop down doors support installed equipment and open to face the technician for safe, easy access. UL listed.

2' x 2' Passive Ceiling Enclosure

DESCRIPTION	CAT. NO.
[A] Passive Ceiling Enclosure, 2' x 2'	Z1000-PC2

2' x 2' Passive Raised Floor Enclosure

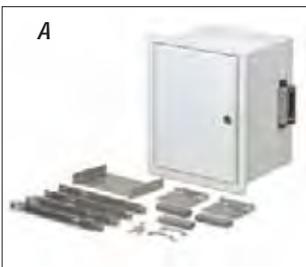

For consolidation points in air handling spaces under 8" deep raised floors, this enclosure holds two 4RU (8U total) racks to accommodate any combination of standard 19" rack-mountable patch panels or wire management. Rotating patch panel mounting locations provide easy access to rear of patch panels for easy terminations. UL listed.

2' x 2' Passive Raised Floor Enclosure

DESCRIPTION	CAT. NO.
Passive Raised Floor Enclosure, 8" depth	Z1000-PF2

WIRELESS ACCESS POINT ENCLOSURES

Wireless Access Point Enclosures

WIRELESS ACCESS POINT CEILING ENCLOSURES, 10" AND 5"

A-B Mount these enclosures into standard 2' x 2' ceiling tiles for a clean look and easy access. Each unit is designed to house a variety of wireless access points. Single edge-protected access port includes a fire-rated foam sealing kit, making it suitable for air handling spaces. Doors are fully hinged and lockable. The enclosure is painted white to blend with ceiling tiles. Multiple door faceplates, including a blank one, are sold separately to accommodate a variety of wireless equipment. UL listed.

WIRELESS ACCESS POINT CEILING ENCLOSURE, 4" DEEP

C This ceiling mount enclosure accommodates one wireless access point or bridge. The removable door mounted bracket supports equipment up to 10¹/₂" wide by 5¹/₂" deep by 1⁷/₈" high. Fully hinged door is lockable for security and is stamped with two obround holes centered 5" apart allowing antennas to extend below the drop ceiling. UL listed.

Wireless Access Point Ceiling Enclosures

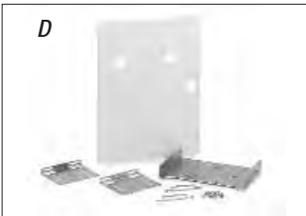

DESCRIPTION	CAT. NO.
[A] Wireless Access Point Ceiling Enclosure, 10" Depth, w/o Faceplate	W1000-WCE
[B] Wireless Access Point Ceiling Enclosure, 5" Depth, w/o Faceplate	W1000-WC5

Versi-Duct Slotted Duct Cable Management System

Leviton's unique Versi-Duct Slotted Duct System provides a versatile simple solution for fiber and copper cable organization and management. The horizontal duct is available in both one rack (1RU-1.75") or two-rack (2RU-3.5") unit sizes to accommodate both small and large cable systems. Vertical slotted ducts come in a 35" half or 80" full rack height version. Both the horizontal and vertical slotted ducts come in a Front Only or Front & Back configurations with cable-concealing covers and an assortment of accessories. Versi-Duct is the ideal system for efficient, adaptable rack and frame cable management.

Versi-Duct Slotted Duct Cable Management Systems

DESCRIPTION	CAT. NO.
[A] Vertical Front & Rear Duct, 80" high	4980L-VFR
[B] Vertical Front-only Duct, 80" high	4980L-VFO
[C] Vertical Front & Rear Duct, 35" high	4935L-VFR

[H] Horizontal Front-only Duct, 1RU	491RU-HFO
[I] Vertical Channel Divider	49265-DV1
[J] Slack Loop Storage Organizer, extended (2")	49265-SL2
[K] Bend-radius Compliant Funnel, rear only	49265-FN4
[L] Duct Cover Hinge, 4 per package	49265-HNG
[M] Extended Cover, Front-only 2RU	49265-EX3
[N] Extended Cover, Front-only 1RU	49265-EX1
[O] Slack Loop Storage Organizer	49265-SL1
[P] Cable Retainer	49265-WR1
[Q] Mounting Bracket, 2 per package	49265-BRK

FEATURES

Versi-Duct

- Versatile accessories solve a variety of cable management challenges
- Suitable for copper and fiber applications
- Slack loop control feature
- Helps maintain proper cable bend radii
- Offered in Front & Back and Front Only versions (for both vertical and horizontal ducts)
- Horizontal Duct offered in 1RU (1.75") and 2RU (3.50") sizes
- Horizontal Duct offered in 35" and 80" lengths
- Cable concealing covers with optional hinges

RACK AND FRAME CABLE MANAGEMENT

Horizontal Cable Management

Create a first class cabling infrastructure and reduce network administration time using Leviton's Horizontal Cable Management System. Options include cable management bars, patch cord organizers, slack organizers, and the patent-pending Front Hinge Bracket.

Cable Management Bars

DESCRIPTION	HEIGHT	RINGS	CAT NO.

[H] Front Hinge Bracket	3RU		49400-FHB

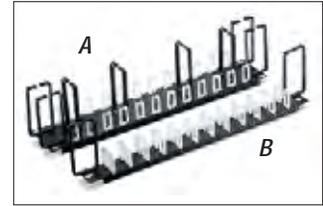

Rack Cable Management and Accessories

CORD ORGANIZERS

Two-Position Cord Organizer combines horizontal and vertical distribution rings with individual routing clips for patch cord organization between patch panels. One-Position Cord Organizer is 1RU with vertical distribution rings and individual routing clips.

Cord Organizers

DESCRIPTION	CAT. NO.
[A] Two-Position Organizer Panel (19" wide, 2RU)	49252-P02
[B] One-Position Organizer Panel (19" wide, 1RU)	49252-P01

COMBO FRONT/REAR MANAGEMENT

Manage front and rear cables/cords in a 2RU standard rack space. Oversized front rings meet larger-capacity requirements for patch cords. Rear management maintains bend radius of cables routed from vertical channels. Retention rings and fixed anchor points for 'loose-fit' or tie-wrapped bundles.

Combo Front/Rear Management

DESCRIPTION	CAT. NO.
[C] Combo Front/Rear Manager (19" wide, 2RU)	49252-PCM

RECLOSEABLE CABLE BARS

Manage cable vertically and horizontally on relay racks and cabinets. 19" metal-clad horizontal bar with attached loops (Hook and Loop-Style) screws into rack to manage cables horizontally.

Recloseable Cable Bars

DESCRIPTION	CAT. NO. 3RU
[D] Metal Clad Horizontal Bar (for 19" Racks, 1RU)	41150-019

THE WRAP BAR

Mounts to the rear of standard TIA/EIA racks to support cable bundles and help maintain bend radius near cable terminations. Fixed anchor points for 'loose-fit' tie wrapped cables.

The Wrap Bar

DESCRIPTION	CAT. NO.
[E] Tie Wrap Bar (19" wide, 1.0" high, 1.5" deep)	49258-TWB

SPACEMAKER CABLE MANAGER

Mounts to front or rear of standard TIA/EIA racks to support cable bundles and help maintain bend radius. Allows retrofit of current configurations without the need to move existing patch panels. Using existing panel screws, simply loosen screws, slide in SpaceMaker, and re-tighten screws.

Spacemaker Cable Manager

DESCRIPTION	CAT. NO.
[F] SpaceMaker Cable Manager (19" wide, 1RU, 2RU, 3RU)	41188-SM1

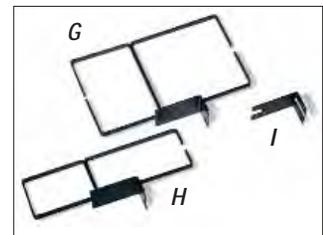

VERTICAL MANAGEMENT COMPONENTS

Flexible front and rear vertical management. "Open-ring" system can be changed as needed for total customization and on-site adaptability. An optional tie bracket and divider panel can be added to provide cord and cable separation between racks.

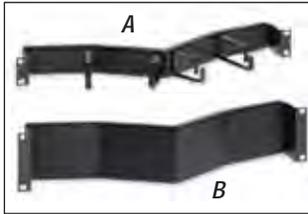

Vertical Management Components

DESCRIPTION	CAT. NO.
[G] 3" Vertical Manager Ring (4-pair cable capacity: 180 rear, 250 front)	49260-MR3
[H] 6" Vertical Manager Ring (4-pair cable capacity: 360 rear, 500 front)	49260-MR6
[I] Tie Bracket to secure vertical manager ring to adjacent rack	49261-BKT

RACK AND FRAME CABLE MANAGEMENT

Angled Panel Cable Management

Angled panels and accessories provide improved access to 110 punch down fields and allow the option to increase rack density. Angled Cable Management Accessories, suitable for Category 5e, 6, or 10G Angled Patch Panels, provide enhanced cable management and organization via the Angled Cable Management Bar, Vertical Transition Rings, 1RU and 2RU Angled Blank Panel Inserts, and Transitional Covers. Recessed Angled and Angled styles available.

RECLOSABLE TIE-WRAPS

A Hook & Loop tie-wrap that easily reopens for moves, adds and changes, this general purpose Hook & Loop strap is available in 5", 8" and 12" lengths 1/2" wide.

Recessed Angled Panel Cable Management Accessories

DESCRIPTION	CAT. NO.
[A] Recessed Angled Horizontal Patch Cord Organizer, 1RU	4W254-LPM
Recessed Angled Horizontal Patch Cord Organizer, 2RU	4W254-BCM
1RU Recessed Angled Blank Panel Inserts	4W254-BA1
[B] 2RU Recessed Angled Blank Panel Inserts	4W254-BA2

Rack Cable Management and Accessories

RACK AND PANEL ACCESSORIES

The Hinged Wall-Mount Bracket is designed for use in installations where space is constrained or racks are not used. Available in 2RU, 3RU, and 4RU sizes.

Blank Panels provide a seamless look until additional rack space is needed for future expansion.

Rack and Panel Accessories

110 CHANNELMAX® SYSTEM

Route and manage cables and cross connect wires in 110-style installations with the 110 ChannelMax System. 3" and 5" Cable Channels, provide two to three times the space of typical 110 blocks with legs, and the non-proprietary design works with all standard 110 blocks. Vertical Spool Managers and Horizontal Cable Management Troughs organize and support cables while allowing easy access for re-configuration. Vertical Spool Manager works with Wire Distribution Spools, PN 40054-DSS, sold separately.

110 ChannelMax® System

DESCRIPTION	CAT. NO.

LableWare

LabelWare is the perfect tool to create TIA/EIA-606-A compliant labels for cabling infrastructure components. Laser print surface on pre-cut, perforated 8.5" x 11" sheets provides simple application with permanent legibility. User-friendly software includes label templates designed specifically for Leviton patch panels, patch cords, 110 wiring products and wallplates. The context sensitive Help Module includes step-by-step instructions to easily create and customize complex label builds in minutes. The Build Editor allows integration of fonts and symbols from your word processing software. Download LabelWare software at www.levitonvoicedata.com/labelware.

LABELING ACCESSORIES

QuickPort® Shutters and Icons

Leviton's field-installable QuickPort Shutters protect connectors from dust and debris with a unique, one-piece hinged door. Suitable for commercial and residential applications. Shutters feature labels and recessed windows and fit on Leviton Category 6, 5e, 5, and 3 and 8-Position Voice Grade connectors, when used in a QuickPort wallplate or housing. Optional label kits are available. *NOTE: SHUTTERS DO NOT WORK WITH CONNECTOR INTERFACE BEZELS.*

110 Punchdown Tool

WIRE PUNCHDOWN/TERMINATION TOOL

A A versatile punchdown/termination tool with changeable blades (sold separately) that enables installers to make reliable connections on a variety of wire termination blocks. Terminate/punch down wire with one simple push on the handle. An adjustable impact setting allows you to terminate wire with less effort than other impact tools. Handle can be fitted with several interchangeable custom blades to cover many termination types: 110 IDC, 66 IDC, Krone, BIX (Northern Telecom BIX system), and an awl (woodscrew starter punch). A spare blade can be kept in a storage chamber in the handle.

B-E These special application blades are for use with the Wire Punchdown Tool for terminating 22, 24 or 26 gauge wire. Krone and BIX blades feature scissor-action trim

D814 Wire Puchdown/Termination Tool and D814 Tool Blades

DESCRIPTION	CAT. NO.
[A] Wire Punchdown/Termination Tool (Blade Sold Separately)	49553-814
[B] 110 IDC Blade	49553-110
[C] 66-IDC Blade	49553-066
[D] BIX® Blade	49553-BIX
[E] Krone® Blade	49553-KRN
AWL (Woodscrew starter punch)	49553-AWL

MULTI-PAIR TERMINATION TOOL

F The Multi-pair Termination Tool is designed for use with Leviton's Category 6 110-style wiring products. The high-impact, spring-loaded handle, makes it easy to terminate multiple pairs with just one punch. Use "Blade In" and "Blade Out" options for daisy chain or full termination. Category 5e and 6 heads are available separately. Handle works with both Category 5e and 6 heads.

Multi-Pair Termination Tools and Accessories

DESCRIPTION	CAT. NO.

MASTER COMPRESSION TOOL

G The Multi-pair Termination Tool is designed for use with Leviton's Category 6 110-style wiring products. The high-impact, spring-loaded handle, makes it easy to terminate multiple pairs with just one punch. Use "Blade In" and "Blade Out" options for daisy chain or full termination. Category 5e and 6 heads are available separately. Handle works with both Category 5e and 6 heads.

Master Compression Tool

DESCRIPTION	CAT. NO.
[G] Master Compression Tool	40989-CPT

Compression Connectors are sold on page L4.

FIBER OPTIC TOOLS

Opt-X Fiber Tool Kits

OPT-X LIGHT TOOL KIT

A All the essential tools for quick field-termination of fiber optic connectors. Includes 100X inspection scope, scribe, polishing fixture, polishing pad, 900µm buffer remover tool, jacket stripper, Thread-Lock® tightening tool, and scissors.

OPT-X PRO TOOL KIT

B Use with any SC, ST, or FC Thread-Lock connectors. Includes Thread-Lock Versa-Cleave® Tool, 200X inspection scope, Thread-Lock tightening tool, one 250µm and one 900µm buffer remover, polishing pad, safety glasses, scissors, jacket stripper, polishing fixture, and music wire.

OPT-X FAST-CURE TOOL KIT

C Use with single-mode or multimode Fast-Cure adhesive connectors - SC, ST, FC, or LC. Includes 200X inspection scope, one 250µm and one 900µm buffer remover, polishing pad, standard 2.5mm and LC 1.25mm polishing fixtures, LC scope adapter, fiber crimp tool, safety glasses, scissors, jacket stripper, music wire and lapping film. Adhesive/Accelerator Kit sold separately on page K5.

OPT-X MT-RJ ACCESSORY KIT

Adds MT-RJ capability to existing tool kits.

Fiber Optic Tools

THREAD-LOCK® VERSA-CLEAVE® TOOL

A-C Diamond blade cleaves fiber perfectly every time, eliminating the need for a craft-sensitive scribe procedure. The ergonomic stop-watch design fits comfortably in the hand, works with any style or brand of mechanical 2.5mm ferrule connector, and cleaves with a simple push of the button. The integrated debris cup catches and retains fiber debris for safe disposal. Versa-Cleave can be ordered separately, or as part of the Opt-X® Pro Tool Kit

Thread-Lock Versa-Cleave

[C] Versa-Cleave Adapter for MT-RJ Frame-Station Connector	49886-VFA

SAFETY PAD

D Provides a flexible, shatterproof, non-slip surface perfect for terminating all Leviton Fiber Optic Connectors.

Safety Pad

DESCRIPTION	CAT. NO.
[D] Safety Pad	49886-SPD

INSPECTION SCOPES

E, F Leviton's 100x and 200x Inspection Scopes allow techs to view multimode and singlemode end-face polishes safely, and reduce the chances of over-polishing (a side-effect of many coaxial inspection scopes). 200x Scope features oblique viewing technology, ergonomic grip, 200X magnification and full laser eye protection through wavelengths of 850-1550 nanometer. Both scopes feature rugged construction that stands up to jobsite abuse.

Inspection Scopes

DESCRIPTION	CAT. NO.
[E] 100x Inspection Scope	49886-SCP
[F] 200x Inspection Scope	49886-FSP

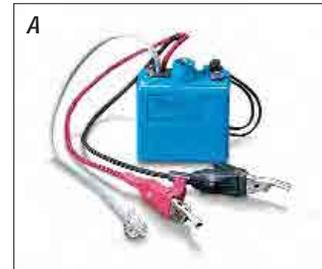

Tone Test Set

A Use the Leviton Tone Test Set in low voltage wire applications to test for continuity, check for shorts or opens, and provide talk battery for a communication line on a vacant pair. Connect toner across a wire pair and set to transmit either a continuous 1000 Hz or alternating 500/1000 Hz tone. Use with the Speaker Probe (below) to trace pairs and locate broken pairs/cables in walls.

Also identifies Tip and Ring polarity, and line condition for CLEAR LINE with dial tone, BUSY LINE and RINGING LINE. Features "O" ring seals on the case, test leads for water resistance, support leash, tri-color, and nylon-braided tinsel wire test leads. Telco-standard, 6A-type alligator clips with piercing pins securely grip 66-clips, screw heads, screw bodies, and wire-wrapped or threaded terminals. A 6-position, 2-conductor plug lead is also provided for connection to modular jacks.

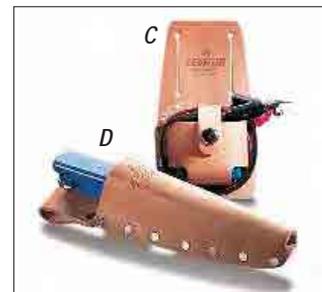

Inductive Speaker Probe

B The streamlined inductive speaker probe detects audible frequency tones quickly for accurate tracing and identification of wires, cables, and metallic circuits. Use with the tone test set (above) to trace and isolate pairs in virtually any type of wire application, without damage to the insulation. Identifies single wires or individual pairs in multiple-pair cables at terminals or closures; identifies station wiring or cables to specific equipment in closets or on distribution frames; and identifies the ends of drop wires. Probe can also be used to locate prewiring, or opens in wires, after wall covering is installed. Features both needlepoint and duckbill tips and a non-locking slide switch.

Tone Test Set, Inductive Speaker Probe — Individual Items and Combinations

DESCRIPTION	CAT. NO.
[A] Tone Test Set (includes 9 volt battery)	49560-TTS
[B] Inductive Speaker Probe only (includes 9 volt battery; one duckbill tip; and one needlepoint tip)	49561-SSP
[C] Leather Belt Holster for Tone Test Set	49560-LCC
[D] Leather Belt Holster for inductive speaker probe	49561-LCC
Spare duckbill and needlepoint tip set	49561-TIP
Kit containing tone test set with belt holster, and inductive speaker probe with belt holster	49562-TSK
Kit containing 5 tone test sets with belt holsters, and 5 inductive speaker probes with belt holsters	49562-KIT

Optional leather belt holsters.

Crimping Tool for Coaxial Connectors

E For use in crimping coaxial connectors onto RG-59 or RG-6 cables. Rugged metal construction with cushioned handles. Carded package for display in merchandising racks.

Crimping Tool for Coaxial Connectors

DESCRIPTION	CAT. NO.
[E] Crimping Tool for Coaxial Connectors	40988-000

UTP Stripping Tool

F Use this versatile tool to strip unshielded twisted pair (UTP) cable. Carded package for display in merchandising racks.

UTP Stripping Tool

DESCRIPTION	CAT. NO.
[F] Stripping Tool	49660-00C

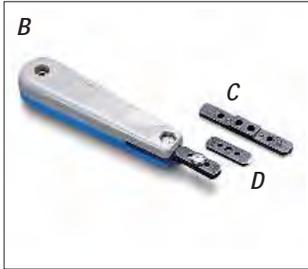

Craftsman's Handset

A This handset is used by installers, repair technicians, and other authorized personnel for basic line testing and essential on-site temporary communications. Line-powered to provide either DTMF (Touch Tone) or dial pulse output. Features all standard 'butset' line tests, including polarity check, line monitoring, and signaling.

Craftsman's Handset

DESCRIPTION	CAT. NO.
[A] Craftsman's Handset	49575-CTS

Termination Tool (66-BT)

B This 'pocket friendly' tool quickly punches down 20 through 26 gauge unstripped wire in devices using 66-clip terminals. It adjusts to accommodate variation in wire size and blade sharpness. Replaceable blades reverse to let you terminate and cut wire in a single stroke, or terminate without.

Replacement Stem for Termination Tool (66-BT02)

C The replaceable stem for the termination tool blade.

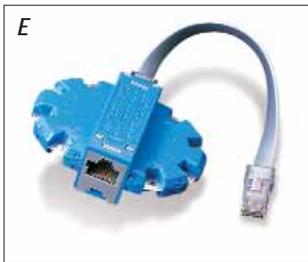

Replacement Blade for Termination Tool (66-BT01)

D This blade reverses so wires can be terminated and cut, or terminated without cutting. It also adjusts to accommodate variation in wire size or blade sharpness.

Termination Tool, Replacement Stem and Replacement Blade

DESCRIPTION	CAT. NO.
[B] Termination Tool (66-BT)	46666-0BT
[C] Replacement Stem for Termination Tool (66-BT02)	46666-BTS
[D] Replacement Blade for termination Tool (66-BT01)	46666-BTB

Note: Numbers in parentheses refer to industry product designation.

Modular Plug Breakout Adapter

E For testing any 6- or 8-position modular jack with the Tone Test Set or Craftsman's Handset. Includes contacts to connect, via alligator clip leads, to any test apparatus or Lineman's Test Set. Can be used in series with any cable with a 6- or 8-conductor modular plug.

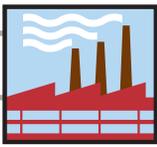

Modular Plug Breakout Adapter

DESCRIPTION	CAT. NO.
[E] Modular Plug Breakout Adapter	40070-MDP

STRAIGHT BLADE PLUG AND CONNECTOR FEATURES

Industrial Grade Straight Blade Plugs and Connectors

A COMPLETE LINE OF PLUGS AND CONNECTORS THAT STANDS UP TO THE HARSHTEST ENVIRONMENTS

The Leviton line of straight blade plugs and connectors includes: Black & White™ Industrial Grade devices that resist impact, corrosion and chemicals; Hospital Grade devices that meet the highest standards for dependable, long-term performance; Wetguard® for water and moisture resistance; Dustguard® to resist dust and dirt; Python™, with an innovative interlocking design; rugged nylon flanged inlets and outlets; and integrated inlets and outlets with weather resistant covers.

Hospital Grade
Superior design, heavy-duty, impact-resistant, all nylon construction for long-lasting performance and reliability in the demanding healthcare environment.
8215-C shown

Angle Plugs and Connectors
For hospital and industry use where power cords must lay close to walls and floors: 8 plug positions.
8215-CAT shown

Wetguard®
Specifically developed for wet or damp locations. EPTR thermoplastic rubber body and rugged design resist water, alkalis, grease, oils and solvents.
14W48 shown

Python™
Hinged design provides speedy, simple wiring and installation, delivers top performance, stands up to rough-duty applications.
5456-VY shown

Flanged Inlets and Outlets
Fit flush on equipment mounting panels and require only 2 mounting screws for easy panel assembly.
5278-C shown

Leviton's 15 and 20 Amp nylon plugs and connectors offer superior performance and long-lasting reliability features; from ergonomic design details to rugged construction that resists impact, punishing application environments, chemicals and corrosives.

Features and Benefits

- UL 498 Listed; meets latest Federal Specifications WC-598; CSA Specification C22.2 No. 42 Certified
- Cord clamp with removable strain relief insert accepts cables rated from 10-3 ST to 18-3 SVT (.245"-.700")
- One-piece, rivetless triple-wipe brass connector contacts offer enlarged contact surface area
- Husk is constructed of ST801 Super Tough Nylon for superior impact resistance in rugged environments
- Beveled back edges prevent body from catching on corners and rough surfaces
- Ergonomic, fluted body design with radial gripping edge is ideal for gripping and pulling

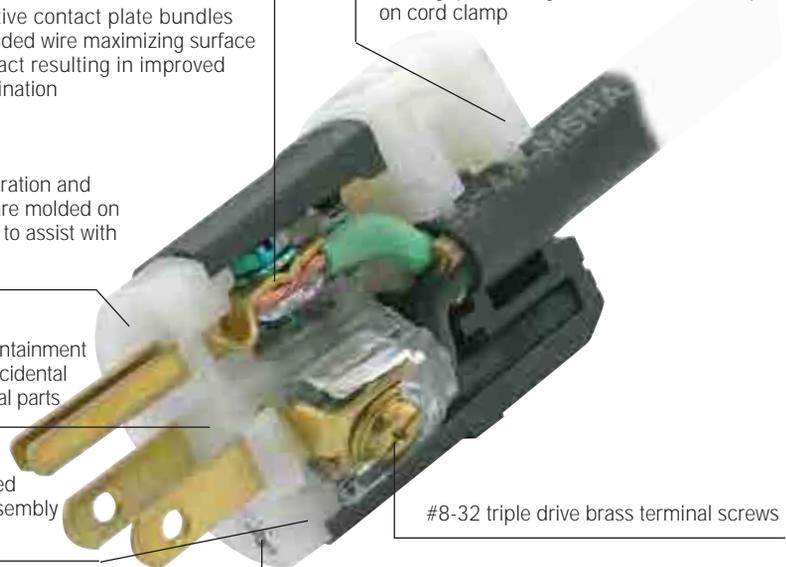

Positive contact plate bundles stranded wire maximizing surface contact resulting in improved termination

NEMA configuration and device rating are molded on front of device to assist with identification

Dead front solid containment barrier prevents accidental contact with internal parts

Wiring module keyed to body for easy assembly and a tight fit

External cord grip utilizes deep triple drive steel screws that are backed out and positioned inside shrouded pockets. External clamps accepts wire mesh grips. Catalog and NEMA numbers printed on cord clamp

5266-C

#8-32 triple drive brass terminal screws

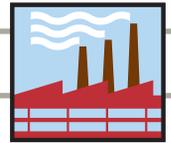

Three "U" type fast-threading, triple drive, steel screws secure wiring module to body

Wire clamps move in individual chamber — provide positive crimp lock without cutting wire strand

Captive, color-coded brass #8 terminal screws

Individual deep-funnelled chamfered wire wells. Clear housing allows inspection of wire termination and provides molded-in wire strip gage

Industrial Grade Straight Blade Plugs and Connectors

Hospital Grade —15 AMP 125V 2-Pole, 3-Wire Grounding

DESCRIPTION	CAT. NO. PLUG NEMA 5-15P 	CAT. NO. CONNECTOR NEMA 5-15R 
Hospital Grade, Black & White Body	8215-C	8219-C

Flanged Inlet, White Nylon Body	15678-C	—
Flanged Outlet, White Nylon Body	—	15679-C

For Weather Resistant Plug and Connector Boots, see page M4.

SPECIFICATIONS AND FEATURES

Hospital Grade

- Unmatched quality and performance confirmed by rigorous UL 498 testing
- Clearly identified by green dot

Industrial Grade

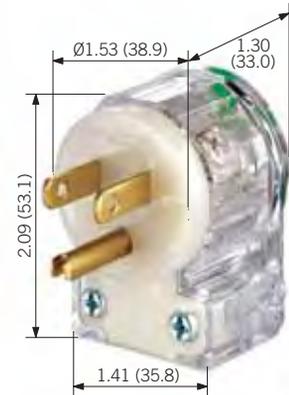

- Rugged construction resists impact, sunlight, chemicals and rough use
- All contacts are solid one-piece brass for better conductivity
- Triple-wipe, heavy-duty power contacts set in deep pockets to resist damage
- Captive, color-coded brass #8 terminal screws
- Unique cord clamp accepts wide range of cord sizes (.245"-.700"), providing secure grip without damaging cord jacket: SVT 18-3 to SO 14-3 with strain relief insert, up to ST 10-3 when strain relief insert is removed.
- Power Indication™ devices equipped with green neon bulb rated at 30,000 hours (24/7) for 3.5 years

TESTING AND CODE COMPLIANCE

- Meet NEMA WD 1 & 6, ANSI requirements
- UL Listed & meets UL Fed. Spec. requirements: Industrial Plugs & Connectors (File #13393); Hospital Grade (UL 498, File #E-13393)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Limited 10-Year Warranty

MATERIAL CHARACTERISTICS

Environmental: Flammability, Rated V2
Operating Temperature: -40°C to 65°C

Weather-Resistant Boots

Our outstanding Industrial Grade boots feature a triple-seal design to protect straight blade and locking plugs and connectors against the harmful effects of dirt and moisture in harsh environments. Boots are available in black or high-visibility yellow. The fluted surface and grip-ring design provide a non-slip grip even in wet conditions.

DESCRIPTION	CAT. NO.
Weather-Resistant Straight Blade Plug Boot, Black Rubber. For 15A & 20A Straight Blade Industrial Nylon Plugs	6017
Weather-Resistant Straight Blade Plug Boot, High Visibility Yellow Rubber. For 15A & 20A Straight Blade Industrial Nylon Plugs	6017-Y
Weather-Resistant Straight Blade Connector Boot, Black Rubber. For 15A & 20A Straight Blade Industrial Nylon Connectors	6018
Weather-Resistant Straight Blade Connector Boot, High Visibility Yellow Rubber. For 15A & 20A Straight Blade Industrial Nylon Connectors	6018-Y

SPECIFICATIONS AND FEATURES

Wetguard

- IEC IP66 and IP 67 Rated, in accordance with IEC 529 as evaluated by UL and CSA
- NEMA Type 3, 3S, 4, 4X, 6 and 6P Ratings in accordance with UL 50 and CSA 94
- Outstanding resistance to wet and damp environments, extreme temperature variations, acids, alkalis, grease, oils and solvents
- Effective “tongue and groove” construction seals out water, moisture, dirt when plugs are mated with connectors
- Innovative strain-relief grips cables securely, keeps out water and moisture
- Cord clamp range: 18/3–10/3SO (.375"–.655")

- Non-magnetic stainless steel fast-threading assembly screws won't interfere with sensitive equipment
- Connector “hood” closure cap seals device when not in use

Dustguard

- IEC/IP44 Rated
- Developed to withstand dusty and dirty environments, cracking and fading, temperature extremes
- Rugged wiring modules have high performance 1-piece brass triple-wipe contacts, solid brass plug blades
- Self centering cord clamp accepts wide range of conductors, 18-3 SVT–12-3SO (.240"–.655")

TESTING AND CODE COMPLIANCE

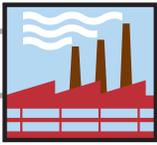

- Meet NEMA WD 1 & 6, ANSI requirements
- UL Listed & meets Fed. Spec. requirements: Wetguard (File #13393), Dustguard (File #E-13393)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Limited 10-Year Warranty

SPECIFICATIONS AND FEATURES

- Glass-filled thermoplastic cover and plate provide outstanding impact resistance and durability
- UL 94 VO Flammability Rating
- IP 64 Suitability rating protects against dust particles and splashing water
- NEMA Type-3R enclosure Rating ensures protection against rain, sleet and damage from external ice formations
- Available with standard wire wells or with slots that accept fork terminals
- Dual gaskets, one under plate and one under lid, for weather-resistant fit
- Stainless steel external hardware resists corrosive effects of moisture
- Large thumb-tab makes it easy to open cover with gloved hand
- Mounts to panels or FS/FD boxes
- UL Listed and CSA Certified for wet locations with cover closed

TESTING AND CODE COMPLIANCE

- UL Listed (File #-13397)
- CSA Certified (File #LR-16347)
- NOM Certified (#057)
- IP 64 Suitability Rating (protected against dust and splashing water)
- NEMA Type-3R Enclosure Rating when properly installed (protected against rain, sleet and damage from external ice formations)
- Backed by a Limited 2-Year Warranty

SPECIFICATIONS AND FEATURES

- Rugged cord clamp for secure cable grip accommodates cord diameters from .625" to 1.375" and does not tear conductor jacket
- Made of tough, heavy-duty nylon for long service life
- Devices feature heavy-sectioned dead-front right-angle
- Pressure-clamp terminal design
- Terminals accept up to #4AWG stranded conductors
- Four-way positioning front module
- Solid brass blades for maximum conductivity

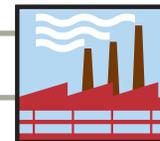

TESTING AND CODE COMPLIANCE

STRAIGHT BLADE PLUG AND CONNECTOR FEATURES

Commercial Grade Straight Blade Plugs and Connectors

LEVITON OFFERS A LARGE SELECTION OF 15, 20, 30 AND 50 AMP COMMERCIAL GRADE STRAIGHT BLADE PLUGS AND CONNECTORS, AVAILABLE IN A WIDE VARIETY OF FEATURES.

Leviton's Commercial Grade Straight Blade Plugs and Connectors are rugged performers. They are moisture, chemical and abuse-resistant. And they're ideal for indoor and outdoor use.

- EPTR rubber-backed plugs and connectors stand up to rough use, protect against dirt and moisture
- Deep-slotted, backed-out terminal screws draw backwire clamps securely over stripped leads for maximum conductivity

Built-in cord grip adjusts automatically for use with No. 18-2 through No. 12-3 cords

Triple-drive head screws — $\frac{3}{16}$ " (4.76mm.) Standard, Phillips, Robertson

NEMA Configuration and rating molded into front module for easy identification

Husk and module keyed for easy alignment during wiring

PVC Grounding Plug
Resists moisture and chemicals; suited for outdoor cords.
515PV shown

PVC Grounding Connector
Unique dimpled body design provides secure grip; resists abuse.
515CV shown

PVC Angle Grounding Plug
Speed-thread assembly screws tighten with just a few quick turns; impact-resistant.
515AN shown

Armored Grounding Plug
Ideal for shops, garages and rough-duty work with hard floors.
520PA shown

Armored Grounding Connector
Two-piece strain-relief clamp center cord for neat installation; able to take hard punishment.
615CA shown

Rubber Grounding Connector
Provides protection against rough use, dirt, moisture and temperature extremes.
515CR shown

Dual Power Vinyl Angle Plug
Thermoplastic body for long life; interchangeable blade configurations.
930 shown

Motor Base Inlet
Contains heavy gauge brass blades and thermoplastic housing.

Straight Blade Plugs and Connectors

SPECIFICATIONS AND FEATURES

- Triple-drive head screws — Standard, Phillips, Robertson
- NEMA configuration number & rating molded on face of device for easy identification
- Rubber body is dirt and moisture resistant
- Deep-slotted, backed out terminal screws draw backwire clamps securely for maximum conductivity
- Husk & module keyed for easy alignment during wiring
- Built-in cord grip adjusts automatically for use with No. 18-3 through No. 12-3 cords (.245"-.655")
- Motor Base Inlet accepts No. 10 max. copper or copper clad wire

PVC Plugs & Connectors

- Rugged PVC body resists moisture and chemicals; suited for outdoor cords

- Unique dimpled body design provides a secure grip
- Speed-thread assembly screws tighten with just a few quick turns

Armored Plugs & Connectors

- Ideal for shops, garages and rough-duty work with hard floors
- Two piece strain-relief clamp center cord for neat installation

Rubber-Back Plugs & Connectors

- Designed to stand up to rough use
- No internal metal parts exposed
- Elastomeric husk provides added protection against dirt and moisture entry into the back wire port
- Designed to operate in the widest possible temperature range

TESTING AND CODE COMPLIANCE

- Meet NEMA requirements
- UL Listed (File #E-13393)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Limited 10-Year Warranty

MATERIAL CHARACTERISTICS

Environmental: Flammability, Rated V2 per UL 94
Operating Temperature: -40°C to 65°C.

Straight Blade Plugs and Connectors

SPECIFICATIONS AND FEATURES

- Triple-drive head screws — Standard, Phillips, Robertson
- NEMA configuration number & rating molded on device for easy identification
- Dirt and moisture resistant
- Deep-slotted, backed out terminal screws draw backwire clamps securely for maximum conductivity
- Husk & module keyed for easy alignment during wiring
- Built-in cord grip adjusts automatically for use with No. 18-3 through No. 12-3 cords (.245"–.655")

PVC Plugs & Connectors

- Rugged PVC body resists moisture and chemicals; suited for outdoor cords
- Unique dimpled body design provides a secure grip
- Speed-thread assembly screws tighten with just a few quick turns

Armored Plugs & Connectors

- Ideal for shops, garages and rough-duty work with hard floors
- Two piece strain-relief clamp center cord for neat installation

TESTING AND CODE COMPLIANCE

- Meet NEMA requirements
- UL Listed (File #E-13393)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Limited 10-Year Warranty

Travel Trailer Vinyl Angle Plug, for use with 7313 Receptacle Cord Dia. Range .687"–.875"	830-T	Black	ANSI Std. C73.13 TT-30P

SPECIFICATIONS AND FEATURES

- Tough thermoplastic shell for long life
- Shell and bottom are hinged in front for ease of assembly
- Solid brass blades with color-coded terminals simplify wiring
- Each dual combination plug supplied with 30A blades and flat 50A blade
- Dead front right angle construction
- Interchangeable blades eliminate need for stocking different devices
- Built-in rejection feature prevents closure if blades are incorrectly positioned
- Versatile cord clamp suitable for use with Nos. 14, 12, 10, 8 and 6 AWG round cord and Nos. 10/3 SRDT, 8/2-10/1 SRDT and 6/2-8/1 flat wire
- Wiring stripping gauge molded into plug cover

TESTING AND CODE COMPLIANCE

LOCKING DEVICE FEATURES

Industrial Grade Locking Devices

LOCKING DEVICES FOR THE ENTIRE SPECTRUM OF INDUSTRIAL APPLICATIONS

Leviton's Industrial Grade Locking Devices are built to provide unparalleled quality and superior performance in the most severe industrial settings. The Locking Devices line represents a broad selection of plugs and connectors, locking receptacles, flanged inlets and outlets, California-style devices, midget locking devices, power interrupting devices, and non-NEMA devices. Leviton combines the best materials available with superior production standards to produce a broad selection of Locking Devices of unmatched flexibility and dependability.

Internal wiring chambers isolate individual conductors to prevent flashover, arcing, and stray strands of wire

Transparent wiring chambers provide a means of visual inspection of conductors and terminals

Color-coded terminal screws

External cord clamp utilizes deep triple drive steel screws that are backed out and positioned inside shrouded pockets. External clamp accepts wire mesh grips

Cleat on contacts cuts oxidation when plug blades enter contact surfaces

Cable gage identifies maximum cord size allowed with strain relief insert

One-piece, rivetless, .035" thick brass contacts offer enlarged contact surface areas, improved conductivity, low resistance, low heat and long life

- UL 498 Listed
- Federal Specification WC-596 Listed
- CSA Specification C22.2 No. 42 Certified

Ergonomically designed fluted body with radial gripping ridge creates an ideal surface for gripping, turning and pulling

Combination #10-32 deep slotted/ Phillips brass screws easily torque to 10-14 in.-lbs.

Color-coded terminal screws

Deep slotted/ Phillips/Robertson steel screws secure wiring module (12-14 in.-lbs) to body

Molded-in strip gage provides correct measurement for proper strip length of conductor

NEMA configuration, agency certifications and device rating are molded on front of device to assist with identification

Solid brass blades are fitted and held tightly and securely in place

Dead front construction prevents accidental contact with internal parts

Wiring module keyed to body for easy assembly

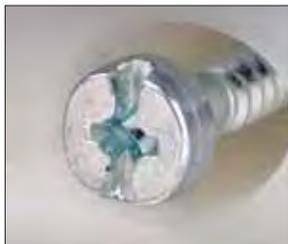

Speed drive screws for faster assembly

Super Tough Nylon resists damage from severe impact, abrasion and chemical attack

Terminal identification letters on back cover ensure quick and accurate termination

Positive crimp contact plate bundles stranded wire maximizing wire/clamp surface contact

Shrouded pockets in cord clamp prevents slippage of screwdriver blade when tightening clamp screws.

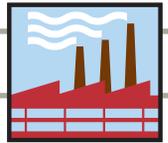

Wire clamps move within individual chambers to provide positive clamp lock without cutting wire strands.

Captive terminal screws eliminate nuisance dropping and searching for missing screws.

Deep-funnelled, large wire wells guide conductors into termination position.

Flanged Inlets and Outlets
Built to endure hard use with rugged nylon flanges that assure a smooth, flush fit and outstanding resistance to cracking and breaking.
2316 shown

Weather-Resistant Boots
Feature triple seal action to protect locking plugs and connectors from the harmful effects of dirt and moisture in harsh operations.
6034 shown

Midget Locking Devices
ML1, ML2 and ML3 Locking devices covering the entire spectrum of industrial applications where restrained space considerations are a factor.
ML1-C shown

Wetguard
Specifically developed for wet or damp locations. EPTR thermoplastic rubber body and rugged design resists water, acids, alkalis, grease, oils and solvents.
24W47 shown

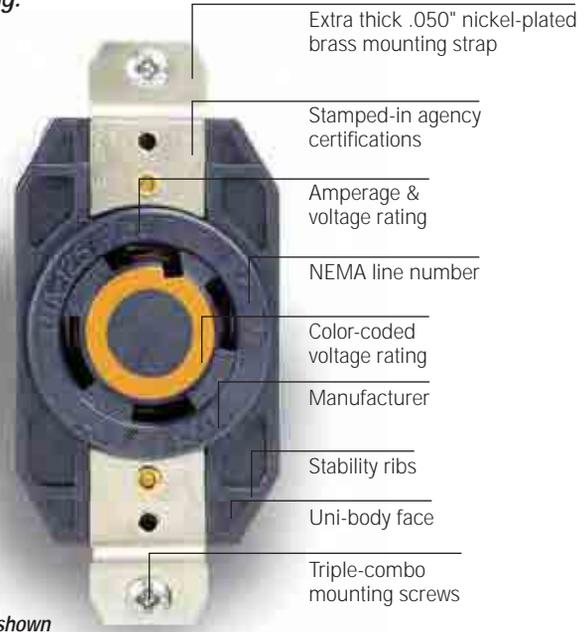

V-MAX[®] LOCKING FLUSH RECEPTACLES

Engineered for maximum performance with a UL 94 V-0 Flammability Rating.

Color-Coded Voltage Ratings		
125V	250V	277V AC
125/250V	3ø250V	3ø480V

LIFETIME WARRANTY

2710 shown

Seam between front cover and back cover is far from contact arcing

Oversized #10 brass Phillips/Robertson/Straight Slot drive terminal screw

Molded-in terminal identification letters

Multi-termination design

Accepts #8*#14 solid or stranded conductors

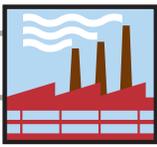

Contacts deeply seated in thick walled faced

One-piece .040" thick brass, high-copper content contacts with nickel-plated clamp type terminals

Mechanically-secured all-brass ground path

WETGUARD® LOCKING AND CORROSION RESISTANT DEVICE FEATURES

Industrial Grade Locking and Corrosion Resistant Devices

Clear back cover on wiring module for easy inspection of wired terminals

Rubber body is molded to bondable nylon substrate to maximize sealing capability

LIFETIME WARRANTY

27W47 shown

Innovative strain relief system and compression nut provide a watertight seal and prevent cord slippage

Heavy-duty, one-piece nickel-plated brass contacts for maximum conductivity

Combination Phillips/standard assembly screws (Robertson/Slotted for Canada)

Nickel-plated brass blades, contacts, wiring screws and lugs resist corrosion

EPTB rubber parts resist water and most acids, alkalis, grease, oil, and solvents. Offers UV stability and resists fungal growth

NEMA configuration number and rating molded onto device face

Cord Ranges
.375" min., 1.125" max.

26W47 shown

Deep-fluted finger grips make for a firm grip when tightening nut

Extra large, deep wiring wells for quick, easy insertion of stranded conductors

Module and husk keyed for alignment

Non-magnetic stainless steel body assembly screws prevent electromagnetic interference

Wetguard Products are Engineered to Meet or Exceed UL and IEC Watertight Standards

- UL 498 Listed
- Federal Specification WC-596 Listed
- CSA Specification C22.2 No. 42 Certified
- Meets IP and NEMA Watertight Standards

Leviton's Corrosion Resistant Devices are specifically designed for extremely damp and corrosive environments. They offer additional corrosive resistance because the metal parts (blades, contacts, terminals and screws) are nickel-plated. They have also passed the ASTM (B117.13) 500 hour Salt Spray (Fog) Test.

Solid brass plug blades held tightly in individual module configurations

Non-magnetic stainless steel assembly screws will not interfere with sensitive navigational equipment

Captive, brass #8 terminal screws are color coded for easy wiring identification

Plug blades avoid contaminants in interior chamber

52CM-69C shown

All current-carrying metal parts (blades, contacts, terminals and screws) are electroless nickel-coated

Heavy-duty, impact-resistant, super tough ST801 all-nylon body construction, with sure grip fluted design

Nylon plug and connector body is distinguished by a bright yellow color for easy identification as corrosion resistant

WEATHER RESISTANT BOOTS AND COVERS FOR CORROSION RESISTANT DEVICES

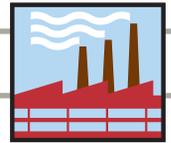

Weather-resistant boots and covers for plugs and connectors are available for 15A, 20A, 30A and 50A straight and locking plugs and connectors. The tough, rubber triple-seal design protects devices against the harmful effects of dirt and moisture. Thermoplastic covers for 15A, 20A and 30A flush receptacles have close-fitting, spring-loaded lids to protect outlets against the elements in harsh environments. Boots and covers are listed after their appropriate device.

52CM-66C shown

Wiring module keyed to body for easy assembly and tight fit

Wire clamp provides positive crimp lock without cutting wire strands

Mill-slotted, stainless steel cord clamp screws set in deep-funnelled wells

SPECIFICATIONS AND FEATURES

Locking Flush Receptacles

- Rugged nylon body and cover for outstanding resistance to impact and harsh chemicals
- Double-wipe phosphor-bronze power contacts

Locking Plugs and Connectors

- Super tough Nylon body resists damage from severe impact, abrasion and chemicals
- Ergonomic, fluted body design with radial grip ridge is ideal for gripping, turning and pulling
- Cord clamp does not have to be disassembled from body for wiring—accepts all wire mesh strain reliefs
- One-piece, rivetless .035" thick brass connector contacts and solid brass plug blades provide maximum conductivity and long service life
- Power Indication™ 15A Locking Plugs & Connectors equipped with green neon bulb rated at 30,000 hours (24/7) for 3.5 years

Flanged Inlets and Outlets

- Rugged nylon flange fits flush and won't crack in high-abuse applications
- Individual deep-funneled chamfered wire wells guide each wire into rectangular chambers
- Wire clamps provide positive crimp lock without cutting wire strands

Dustguard Plugs and Connectors

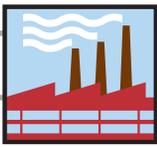

- IEC IP44 Rated
- Developed to withstand dusty and dirty environments, cracking and fading, temperature extremes
- Rugged wiring modules have high performance single-piece brass triple-wipe contacts, solid brass plug blades

TESTING AND CODE COMPLIANCE

- All receptacles, plugs, connectors, inlets and outlets are designed to meet NEMA WD-6, and ANSI C-73, and to meet/exceed UL 498 standards
- UL Fed. Spec. Listed WC-596 – Plugs, Connectors and Flanged Inlets (File #E-13393), Receptacles and Flanged Outlets (File #E-13399)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Lifetime Warranty

Cord Clamp Range—Black & White Plugs and Connectors: .385"–.780" #16–#10 AWG

SPECIFICATIONS AND FEATURES

V-O-Max® Locking Flush Receptacles

- UL 94 V-O Flammability Rating, the best rating of any material used in Industrial Locking Flush Receptacles available today
- Extra-thick .050" nickel-plated brass mounting strap for high-abuse applications
- Designed for maximum durability: One-piece .040" brass, high copper-content contacts with nickel-plated clamp-type terminals
- Color-coded voltage rating on face for easy identification

Locking Plugs and Connectors

- Super tough Nylon body resists damage from severe impact, abrasion and chemicals
- Ergonomic, fluted body design with radial grip ridge is ideal for gripping, turning and pulling

- Cord clamp does not have to be disassembled from body for wiring—accepts all wire mesh strain reliefs
- One-piece, rivetless .035" thick brass connector contacts and solid brass plug blades provide maximum conductivity and long service life
- Power Indication™ 20A Locking Plugs & Connectors equipped with green LED rated at 100,000 hours (24/7) for 11.5 years

Flanged Inlets and Outlets

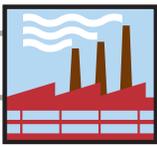

- Rugged nylon flange fits flush and won't crack in high-abuse applications
- Individual deep-funneled chamfered wire wells guide each wire into rectangular chambers
- Wire clamps provide positive crimp lock without cutting wire strands

TESTING AND CODE COMPLIANCE

- All receptacles, plugs, connectors, inlets and outlets are designed to meet NEMA WD-6, and ANSI C-73, and to meet/exceed UL 498 standards
- UL Fed Spec. Listed WC-596 – Plugs, Connectors and Flanged Inlets (File #E-13393), Receptacles and Flanged Outlets (File #E-13399)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Lifetime Warranty

Weather-Resistant Boots for 20A Locking Plugs and Connectors are listed on page N27

Cord Clamp Range—Black & White Plugs and Connectors: .385"–.780" #16–#10 AWG

Wallplates and Covers

302 STAINLESS STEEL SINGLE RECEPTACLE	WEATHER-RESISTANT FLIP LID COVER FOR 20A INLETS/OUTLETS AND 20A RECEPTACLES	WEATHER-RESISTANT THERMOPLASTIC COVER FOR RECEPTACLES
1.60" Dia. Opening	IP64 Rated—Includes Gasket and Screws	Self-Closing Lid—Includes Gasket and Screws
84020-40	WP2 for Inlets/Outlets 7420-CR for Receptacles	4980-GY

For complete wallplate selection, see Section E.

SPECIFICATIONS AND FEATURES

V-O-Max® Locking Flush Receptacles

- UL 94 V-O Flammability Rating, the best rating of any material used in Industrial Locking Flush Receptacles available today
- Extra-thick .050" nickel-plated brass mounting strap for high-abuse applications
- Designed for maximum durability: One-piece .040" brass, high copper-content contacts with nickel-plated clamp-type terminals
- Color-coded voltage rating on face for easy identification

Locking Plugs and Connectors

- Super tough Nylon body resists damage from severe impact, abrasion and chemicals

- Ergonomic, fluted body design with radial grip ridge is ideal for gripping, turning and pulling
- Cord clamp does not have to be disassembled from body for wiring—accepts all wire mesh strain reliefs
- One-piece, rivetless .035" thick brass connector contacts and solid brass plug blades provide maximum conductivity and long service life

Weather-Resistant Boots for 30A Locking Plugs and Connectors are listed on page N27

Cord Clamp Range—Black & White Plugs and Connectors 3-Wire: .385"–.860" #16–#8 AWG
4-Wire: .595"–1.150" #14–#8 AWG

Wallplates and Covers

302 STAINLESS STEEL SINGLE RECEPTACLE	WEATHER-RESISTANT FLIP LID COVER FOR 30A INLETS/OUTLETS AND 30A RECEPTACLES	WEATHER-RESISTANT THERMOPLASTIC COVER FOR RECEPTACLES
1.60" Dia. Opening	IP64 Rated—Includes Gasket and Screws	Self-Closing Lid—Includes Gasket and Screws
84020-40	WP2 for Inlets/Outlets 7420-CR for Receptacles	4980-GY

For complete wallplate selection, see Section E.

SPECIFICATIONS AND FEATURES

V-O-Max® Locking Flush Receptacles

- UL 94 V-0 Flammability Rating, the best rating of any material used in Industrial Locking Flush Receptacles available today
- Extra-thick .050" nickel-plated brass mounting strap for high-abuse applications
- Designed for maximum durability: One-piece .040" brass, high copper-content contacts with nickel-plated clamp-type terminals
- Color-coded voltage rating on face for easy identification

Locking Plugs and Connectors

- Super tough Nylon body resists damage from severe impact, abrasion and chemicals

- Ergonomic, fluted body design with radial grip ridge is ideal for gripping, turning and pulling
- Cord clamp does not have to be disassembled from body for wiring—accepts all wire mesh strain reliefs
- One-piece, rivetless .035" thick brass connector contacts and solid brass plug blades provide maximum conductivity and long service life

Flanged Inlets and Outlets

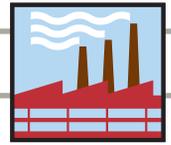

- Rugged nylon flange fits flush and won't crack in high-abuse applications
- Individual deep-funneled chamfered wire wells guide each wire into rectangular chambers
- Wire clamps provide positive crimp lock without cutting wire strands

TESTING AND CODE COMPLIANCE

- All receptacles, plugs, connectors, inlets and outlets are designed to meet NEMA WD-6, and ANSI C-73, and to meet/exceed UL 498 standards
- UL Fed Spec. Listed WC-596 – Plugs, Connectors and Flanged Inlets (File #E-13393), Receptacles and Flanged Outlets (File #E-13399)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Lifetime Warranty

SPECIFICATIONS AND FEATURES

Wetguard

- IEC IP66 and IP 67 Rated, in accordance with IEC 529 as evaluated by UL and CSA
- NEMA Type 4, 4X, 6 and 6P Ratings in accordance with UL 50 and CSA 94
- EPTR rubber parts provide outstanding resistance to wet and damp environments, extreme temperature variations, acids, alkalis, grease, oils and solvents
- Interlocking "tongue and groove" construction seals out water, moisture, dirt when plugs are mated with connectors

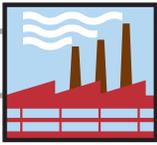

- Multi-point sealing system utilizes nut, strain relief washer and rubber bushing to form a watertight cord grip seal
- Non-magnetic stainless steel fast-threading assembly screws won't interfere with sensitive equipment
- Connector "hood" closure cap seals device when not in use

TESTING AND CODE COMPLIANCE

- Meet NEMA WD 1 & 6, ANSI requirements
- UL Listed & meets Fed. Spec. requirements: (File #13393)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Lifetime Warranty

SPECIFICATIONS AND FEATURES

Plugs and Connectors

- All current-carrying metal parts (blades, contacts, terminals and screws) are electroless nickel-coated
- Captive, brass #8 terminal screws are color coded for easy wiring identification: green (ground), brass (hot) and silver (neutral)
- Super tough nylon plug and connector body is bright yellow for easy corrosion resistant identification
- Connector power contacts are heavy-duty, solid, one-piece brass, triple-wipe, set in deep pockets to resist rough use

- Heavy-duty, impact-resistant, super tough ST801 all-nylon body construction; fluted body design provides sure grip
- Wire clamp moves in individual chamber to provide positive crimp lock without cutting wire strands

TESTING AND CODE COMPLIANCE

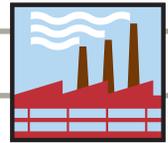

- Plugs and connectors pass the ASTM B117-13 five-hundred hour Salt Spray (Fog) Test with no visible corrosion
- Designed to meet or exceed UL Fed Spec. Listing WC-596. UL Listed (File #E-13399 for Receptacles; File #E-13393 for Plugs and Connectors)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Meets NEMA WD1 & WD6 requirements
- NEMA configuration and rating molded on front
- Backed by a Limited 10-Year Warranty

20 AMP 277V AC 2-Pole 3-Wire Grounding

DESCRIPTION	CAT. NO.	NEMA CONFIG.
V-0-MAX® Single Locking Flush Receptacle	23CM-30	L7-20R

20 AMP 125/250V 3-Pole 4-Wire Grounding

DESCRIPTION	CAT. NO.	NEMA CONFIG.
V-0-MAX® Single Locking Flush Receptacle	24CM-10	L14-20R

20 AMP 3Ø 250V 3-Pole 4-Wire Grounding

DESCRIPTION	CAT. NO.	NEMA CONFIG.
V-0-MAX® Single Locking Flush Receptacle	24CM-20	L15-20R

20 AMP 3Ø 480V 3-Pole 4-Wire Grounding

DESCRIPTION	CAT. NO.	NEMA CONFIG.
V-0-MAX® Single Locking Flush Receptacle	24CM-30	L16-20R

Cord Clamp Range—
 20A St. Blade/3-Wire Locking Plugs and Connectors: .240"–.700" #18–#10 AWG
 20A 4-Wire Locking Plugs and Connectors: .595"–.895" #14–#10 AWG

SPECIFICATIONS AND FEATURES

Plugs and Connectors

- All current-carrying metal parts (blades, contacts, terminals and screws) are electroless nickel-coated
- Captive, brass #8 terminal screws are color coded for easy wiring identification: green (ground), brass (hot) and silver (neutral)
- Super tough nylon plug and connector body is bright yellow for easy corrosion resistant identification
- Connector power contacts are heavy-duty, solid, one-piece brass, triple-wipe, set in deep pockets to resist rough use
- Heavy-duty, impact-resistant, all-nylon body construction; fluted body design provides sure grip
- Wire clamp moves in individual chamber to provide positive crimp lock without cutting wire strands

TESTING AND CODE COMPLIANCE

- Plugs and connectors pass the ASTM B117-13 five-hundred hour Salt Spray (Fog) Test with no visible corrosion
- Designed to meet or exceed UL Fed Spec. Listing WC-596. UL Listed (File #E-13399 for Receptacles; File #E-13393 for Plugs and Connectors)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Meets NEMA WD1 & WD6 requirements
- NEMA configuration and rating molded on front
- Backed by a Limited 10-Year Warranty

MATERIAL CHARACTERISTICS

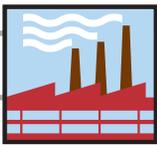

Environmental: Flammability Rated V2 per UL94, V-0-MAX® Receptacles Rated V0
 Operating Temperature: -40°C (without impact) to 60°C maximum continuous

Weather-Resistant Boots for 20A Locking Plugs and Connectors are listed on page N27

Cast Aluminum Grey Flip Lid Cover, IP64 rated	7770

Cord Clamp Range—50A CR Locking Plugs and Connectors: .650"–1.125" #10–#4 AWG

SPECIFICATIONS AND FEATURES

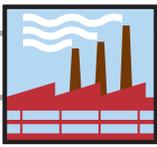

- All current-carrying metal parts (blades, contacts, terminals and screws) are electroless nickel-coated
- Color coded wire entrance holes for simple and easy wiring
- Nylon plug and connector body are bright yellow for easy corrosion resistant identification
- Nylon housing for excellent impact resistance and secure gripping
- Boots are IP55 Rated
- Longer contacts inside connector assure stronger, tighter fitting contact points
- Backed by a lifetime warranty
- External cord clamp with cable insert accommodates from smallest to largest wire size
- Covers are IP64 rated for wet location with cover closed

84004-40	84020-40	WP2 for Inlets/Outlets 7420-CR for Receptacles

For complete wallplate selection, see Section E.

SPECIFICATIONS AND FEATURES

Locking Flush Receptacles

- Rugged nylon body and cover for outstanding resistance to impact and harsh chemicals
- Double-wipe phosphor-bronze power contacts

Locking Plugs and Connectors

- Super tough Nylon body resists damage from severe impact, abrasion and chemicals
- Ergonomic, fluted body design with radial grip ridge is ideal for gripping, turning and pulling
- Cord clamp does not have to be disassembled from body for wiring—accepts all wire mesh strain reliefs
- One-piece, rivetless .035" thick brass connector contacts and solid brass plug blades provide maximum conductivity and long service life

Flanged Inlets and Outlets

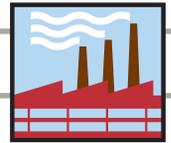

- Rugged nylon flange fits flush and won't crack in high-abuse applications
- Individual deep-funneled chamfered wire wells guide each wire into rectangular chambers
- Wire clamps provide positive crimp lock without cutting wire strands

TESTING AND CODE COMPLIANCE

- All receptacles, plugs, connectors, inlets and outlets are designed to meet NEMA WD-6, and ANSI C-73, and to meet/exceed UL 498 standards
- Most non-NEMA locking devices are not UL Listed and are intended for replacement use only. Consult your Leviton representative for more information on UL Listing for Non-NEMA devices
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Lifetime Warranty

SPECIFICATIONS AND FEATURES

- Offer a smaller form factor for limited-space applications
- Locking Plugs and Connectors feature heavy-duty construction for top performance in the environmental extremes of grueling industrial settings
- Flanged Inlets and Outlets are built to endure hard use with rugged nylon flanges that assure a smooth, flush fit and outstanding resistance to cracking and breaking

TESTING AND CODE COMPLIANCE

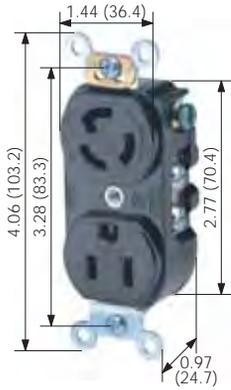

- All receptacles, plugs, connectors, inlets and outlets are designed to meet NEMA WD-6, and ANSI C-73, and to meet/exceed UL 498 standards
- UL Fed. Spec. Listed WC-596 – Plugs, Connectors and Flanged Inlets (File #E-13393), Receptacles and Flanged Outlets (File #E-13399)
- CSA Certified (File No. LR-406)

Operating Temperature: -40°C to 60°C

Industrial Grade Locking Devices

4792

Combination Locking and Straight Blade Duplex Receptacle

15 AMP 125V 2-Pole 3-Wire Grounding Back and Side Wired

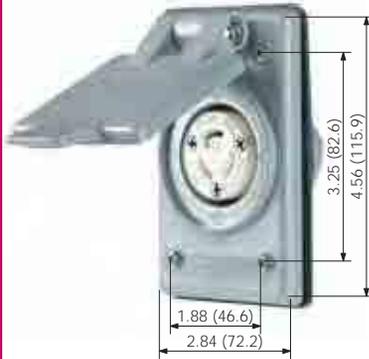

DESCRIPTION	CAT. NO.	NEMA CONFIG.
Duplex Combination Locking & Straight Blade Receptacle with Common Feed	4792	L5-15R
Duplex Combination Locking & Straight Blade Receptacle with 2 Hot Feeds, 1 Neutral Return	4794-1R	
Duplex Combination Locking & Straight Blade Receptacle with Split Feed — 2 Hot Feeds, 2 Neutral Returns	4795-2R	5-15R

Integrated Power Inlets and Outlets with Weather-Resistant Covers

- Engineered to IP 64 and NEMA 3R Protection Ratings
- Suitable for Industrial Indoor and Outdoor Use

Integrated Power Inlets and Outlets with Weather-Resistant Covers

Gray, Glass-Filled Thermoplastic Cover and White, Nylon Device

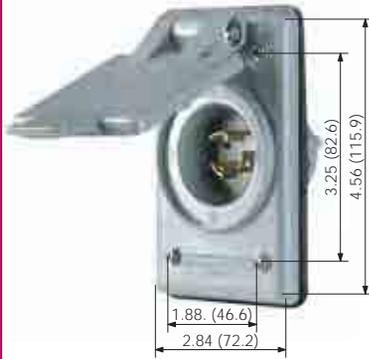

4715-FWP

DESCRIPTION	CAT. NO. FLANGED INLET	CAT. NO. FLANGED OUTLET
Standard Wire Wells, 15A-125V 2-Pole, 3-Wire	4716-CWP <small>NEMA L5-15P</small>	4715-CWP <small>NEMA L5-15R</small>
Slots for Fork Terminals, 15A-125V 2-Pole, 3-Wire	4716-FWP <small>NEMA L5-15P</small>	4715-FWP <small>NEMA L5-15R</small>
Standard Wire Wells, 15A-250V 2-Pole, 3-Wire	4586-CWP <small>NEMA L6-15P</small>	4585-CWP <small>NEMA L6-15R</small>

Note: For straight blade configurations, please see page M7.

Wallplates

4716-FWP

302 STAINLESS STEEL DUPLEX RECEPTACLE	THERMOPLASTIC DUPLEX RECEPTACLE
 84003-40	 80703-E

For complete wallplate selection, see Section E.

SPECIFICATIONS AND FEATURES

Combination Devices

- Impact-resistant black thermoplastic nylon face and body
- Smooth face does not collect dirt
- Large, triple-wipe brass "T" contacts for superior contact and conductivity
- Triple-combination terminal screws
- Back and side wire options accept #10-#14 AWG stranded or solid wire

Integrated Devices

- Glass-filled thermoplastic cover and plate provide outstanding impact resistance and durability
- Dual gaskets, one under plate and one under lid, for weather-resistant fit
- Stainless steel external hardware resists corrosive effects of moisture
- Large thumb-tab makes it easy to open cover with gloved hand
- Mounts to panels or FS/FD boxes
- UL Listed and CSA Certified for wet locations with cover closed

TESTING AND CODE COMPLIANCE

Combination Devices

- UL Listed (File #E-13393)
- CSA Certified (File #LR-406)
- NOM Certified (#057)
- Backed by a Limited 10-Year Warranty

Integrated Devices

- UL Listed (File #E-13397)
- CSA Certified (File #LR-16347)
- NOM Certified (#057)
- IP 64 Suitability Rating (protected against dust and splashing water)
- NEMA Type 3R Enclosure Rating when properly installed (protected against rain, sleet and damage from external ice formations)
- Backed by a Limited 2-Year Warranty

MATERIAL CHARACTERISTICS

Combination Devices

Environmental: Flammability, Rated V2
Operating Temperature: -40°C (without impact) to 60°C maximum continuous

Integrated Devices

Environmental: VO Flammability Rating per UL 94
Operating Temperature: -40°C to 60°C

Pin & Sleeve Devices

Series 309-1 and 309-2 IEC Configuration

Pin & Sleeve Devices Index

PIN & SLEEVE DEVICE FEATURES

Industrial Grade North American Watertight Pin & Sleeve Devices IEC 309-1 & 309-2

The Watertight Line: North American-Rated Devices

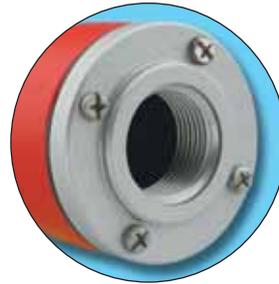

Superior Connection...Superior Protection

Features and Benefits

- Rugged housing, made of superior performance Valox 357, provides maximum corrosion protection and makes the device resistant to impact and abuse; greater resistance to temperature extremes, V-0 flame rated and superior UV stability.
- Contact carrier resists arcing and internal heat build-up; 60 and 100 amp contact/pin carriers are made of reinforced nylon for even greater strength and temperature resistance.
- Solid brass terminal screws on 20A, 30A & 60A devices provide maximum clamping pressure.
- Stainless steel terminal screws and terminals on 100A devices provide corrosion resistance in caustic environments.
- Dependable, clean brass construction for long life, reliable electrical contact, maximum conductivity, and corrosion resistance.
- Watertight Chloroprene onion skin grommet provides a precise, reliable seal at the cable entry point.
- Ground, neutral and phase terminals are clearly identified by color coding or letters and numbering on both front & back side.
- Multiple contact points assure a continuously reliable electrical connection.

UL Rated for both 50 and 60 Hz Applications.

2 YEAR LIMITED
WARRANTY

Accepts liquid-tight conduit with adapter accessory—See page O21

Industrial Grade North American Watertight Pin & Sleeve Devices

Super Tough Housing

- Provides maximum protection from abuse and environment
- Heavy-wall molding of Valox 357 resists impact, heat, flame and chemicals
- Superior performance in low-to-high ambient temperature extremes (-40°C to 60°C)
- Excellent UV stability for superior outdoor performance (UL1682)
- V-0 flammability rating
- Fully insulated
- Color-coded by voltage for easy identification

Pin & Contact Carrier 60 & 100 Amp

- Protects pins & contacts, holding them firmly in place
- Pin Carrier and Contact Carrier constructed of glass fiber reinforced nylon for maximum impact resistance and maximum protection of pins and contacts
- Superior arc-tracking resistance
- Excellent heat-resistance and flame-resistance
- Chamfered wire entry makes wiring easier

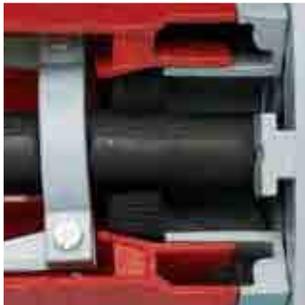

External Cord Clamp

- Protects terminals from strain
- Accommodates a wide variety of cord sizes
- Excellent impact strength
- Excellent UV stability for superior outdoor performance (UL1682)
- V-0 flammability rating

Pin & Contact Carrier 20 & 30 Amp

- Pin Carrier and Contact Carrier constructed of nylon for maximum impact resistance and maximum protection of pins and contacts
- Terminal screws are aligned on a single plane for easier access
- Internal hinged cord clamp adds strain-relief and swings aside when wiring terminals
- Large diameter combination head terminal screws

Internal Cord Clamp

- Secondary method for eliminating strain on terminals and conductors
- True IEC 309-1 & 309-2 acceptance
- Constructed of sturdy thermoplastic for tough environments
- Removes easily for user convenience

Pins

- Designed for manageable insertion/withdrawal force
- Clean brass construction resists corrosion, provides superior contact and low electrical resistance
- Rounded tips reduce insertion force and decrease wear on the contact surface area

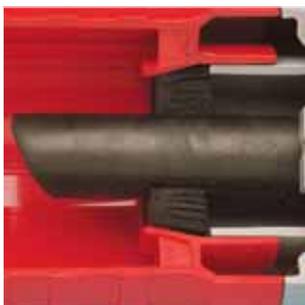

Spring Loaded Cover, Cover Arm, & Locking Rings

- Rings lock plug to connector
- Spring loaded cover closes automatically
- "Performance grade" Stainless Steel cover spring for superior corrosion-resistance and long life
- Excellent UV stability for outdoor use
- V-0 flammability rating
- Interior arm design in 60 and 100 amp helps eliminate breakage

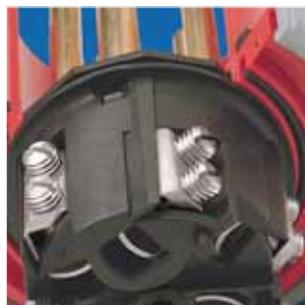

Sleeves (Contacts)

- Designed for manageable insertion/withdrawal force
- Clean brass construction resists corrosion, provides superior contact and low electrical resistance
- Self-adjusting, machine-calibrated contacts for accurate contact pressure designed for superior wiping and cleaning action
- Made from high performance Swedish Industrial Standard (SIS) Brass 5170-04
- Positioned at sleeve entrance, stainless steel spring enables pin cleaning at earliest point of entry

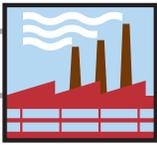

Gasket/Grommet

- Prevents moisture, dust, and contaminants from entering housing or pin/contact carrier
- Solid Chloroprene for positive seal and excellent chemical/corrosion-resistance
- Onion skin design on grommet provides precise watertight fit, eliminating the need to choose from multiple grommets that may not fit the cable jacket precisely

Terminal Screws

- Engineered to provide maximum holding power and lowest electrical resistance
- Accepts a wide range of conductors
- Double screws ensure secure connection
- Direct bearing pressure terminals for 20, 30 and 60 Amp ratings; pressure clamp termination for 100 Amp devices
- Stainless steel terminal screws and terminals for top performance on 100 Amp

Performance Specifications – UL 1682 & 1686

Electrical

Dielectric Voltage	Devices rated ≤ 300V: 2000V for 1 min. Devices rated >300V: 3000V for 1 min.								
Insulation Resistance	500 V for 1 min. Insulation Resistance ≥ 5 megohms								
Ground Path Current	Apply high current for short time (See Table 1) and maintain continuity								
Overload	150% of rated current and 100% of rated voltage for 50 cycles (Power factor 0.75–0.80)								
Current Interrupting	Certified for current interrupting at full-rated current and voltage								
Temperature Rise	Max 30°C rise at full rated current (after overload)								
Resistance to Arcing	Continuation of overload for additional 200 cycles								
Endurance with Load	<table border="1"> <thead> <tr> <th>Device</th> <th># Cycles with Load</th> </tr> </thead> <tbody> <tr> <td>20A</td> <td>5000 Rated Current, Voltage</td> </tr> <tr> <td>30A, 60A</td> <td>1000 Rated Current, Voltage</td> </tr> <tr> <td>100A</td> <td>250 Rated Current, Voltage</td> </tr> </tbody> </table> (Power Factor 0.75 – 0.80)	Device	# Cycles with Load	20A	5000 Rated Current, Voltage	30A, 60A	1000 Rated Current, Voltage	100A	250 Rated Current, Voltage
Device	# Cycles with Load								
20A	5000 Rated Current, Voltage								
30A, 60A	1000 Rated Current, Voltage								
100A	250 Rated Current, Voltage								

Mechanical

Mold Stress Relief	70°C for 7 hrs								
Humidity	32°C, 93% humidity, 168 hrs								
Cable Secureness	Pull force and apply torque for 1 minute (See Table 2)								
Impact	Drop from 30" 8 times after conditioning to -25°C, for 6 hrs								
Crush	250 lbs for 1 min after -25°C for 6 hrs								
Withdrawal Force	Pull for one minute (See Table 3)								
Strength of Insulating Base and Support	110% of specified tightening torque on terminal screws								
Endurance	<table border="1"> <thead> <tr> <th>Device</th> <th>Total # Cycles (connect & disconnect)</th> </tr> </thead> <tbody> <tr> <td>20A</td> <td>5000</td> </tr> <tr> <td>30A, 60A</td> <td>2000</td> </tr> <tr> <td>100A</td> <td>500</td> </tr> </tbody> </table>	Device	Total # Cycles (connect & disconnect)	20A	5000	30A, 60A	2000	100A	500
Device	Total # Cycles (connect & disconnect)								
20A	5000								
30A, 60A	2000								
100A	500								
Polarization Integrity	Matching devices will not mate so that ground is energized even when polarization feature is removed and 40-lb insertion force applied								

Environmental

Flammability	V2 or better on 20 and 30 amp devices per UL 94 or CSA 22.2 No 0.6 ; V-0 on 60 & 100 amp devices
Resistance to Corrosion Moisture Resistance per UL 1682	Ferrous parts immersed in 10% ammonium chloride solution Watertight: Device immersed for 24 hrs in 5 cm of 25°C water Splashproof: 1" dia. water stream at 15 PSI from 10 ft. for 5 minutes
UV Resistance	Exposed plastic materials are UV stabilized

460P7W

460C12W

Short-Time Grounding Test Currents

Device Rating, Amperes	Minimum Size Equipment Grounding Conductor (Copper)		Time, Seconds	Test Current, Amperes
	AWG	(mm ²)		
20	12	(3.3)	4	470
30	10	(5.3)	4	750
60	10	(5.3)	4	750
100	8	(8.4)	4	1180

Ground-path integrity is of critical importance to safe operation of industrial equipment. Leviton pin and sleeve devices are tested by applying a test current through their ground path that far exceeds the device rating. All devices are properly wired and connected to line current at rated values. Then the ground path is subjected to a dramatic, sudden increase in current for 4 seconds. In all cases, the ground pin, sleeve, and terminals of the devices must sustain the test current, continue to function properly, and show no evidence of damage or deterioration in any electrical or mechanical elements of the ground path. Test current values and test parameters are displayed in the above chart.

Cord Secureness Test Values

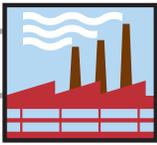

Device Rating Amperes	Force		Torque		Maximum Displacement	
	lb	N	ft-lb	N • M	inches	mm
20	30	133	0.4	0.54	≤3/32	2.38
30	75	333	0.5	0.68	≤3/32	2.38
60	150	667	1.0	1.4	≤3/32	2.38
100	150	667	2.0	2.7	≤3/32	2.38

Heavy cord stress is typical of industrial applications. To assure you of top performance, Leviton pin and sleeve devices are subjected to a punishing series of tests to confirm they can absorb heavy cord pulls. The cord conductors wired to devices are simultaneously twisted and pulled. Values for the applied twisting torque and force of pull are shown above. In all cases, the cord displacement is less than 3/32 inches.

Minimum Withdrawal Force

Device Rating, Amperes	Minimum Withdrawal Force	
	lb	N
20	5	22
30	6	27
60	15	67
100	20	89

In industrial settings, inadvertent disconnection of power can be troublesome at best, dangerous at worst, and unacceptable in any case. To verify that Leviton pin and sleeve plugs and connectors remain securely connected, they are tested to establish the minimum force required for withdrawal. In establishing these minimum withdrawal forces, the plugs and connectors are properly mated, but not locked with locking rings or other mechanical means. The pins and sleeves provide the only resistance to the force of withdrawal. In all cases, the values in the table above show the minimum force required to separate the plugs and connectors.

MECHANICAL INTERLOCK FEATURES

PowerSwitch® Mechanical Interlocks

- 20 Amp Non-Fused & Fused
- 30 Amp Non-Fused & Fused
- 60 Amp Non-Fused & Fused
- 100 Amp Non-Fused

PowerSwitch Mechanical Interlock devices incorporate a disconnect safety switch and IEC receptacle in a non-metallic watertight enclosure. The interlock mechanism prevents making and breaking of power under load. "The switch cannot be actuated to the *ON* position until an IEC compatible plug is fully inserted, and the plug cannot be removed until the switch is in the *OFF* position."

The complete IEC 309-1 and 309-2 system of plugs, connectors, inlets and mechanical interlock devices can be used for both retrofit and new installations enhancing safety and performance in critical power connections.

MECHANICAL INTERLOCK FEATURES

Industrial Grade North American Watertight Mechanical Interlocks

2 YEAR LIMITED WARRANTY

Liquid-tight conduit fitting can be installed for top or bottom feed

- One fitting supplied:
- 20-30 Amp – 3/4"
 - 60 Amp – 1 1/4"
 - 100 Amp – 1 1/2"

Stainless steel screws are captive and will not fall out when cover is opened

Impact, UV and chemical-resistant Valox enclosure rated to UL and IEC watertight standards

- Type 3R, 4X & 12K
- IP67

Fused Models Accept "Class J" Time-Delay Fuses

Red "pistol grip" handle provides visual confirmation of switch's status

Integrated lockout handle meets OSHA safety regulations

Handle with padlock installed

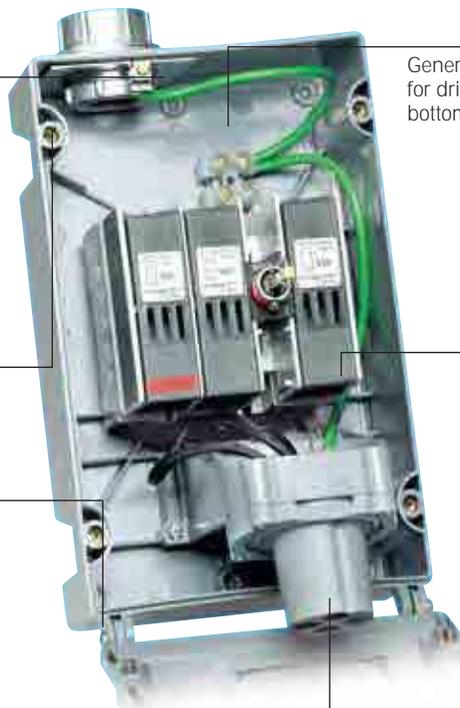

Circuit identification pad for means of identifying specific equipment loads

Color-coded receptacle cover indicates voltage rating of device and seals against water and other contaminants when not in use

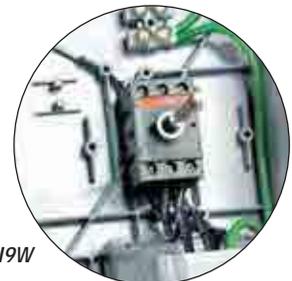

Pre-wired grounding plate connects to metal conduit grounding system

Brass threaded inserts will not strip, provide higher torque, and form tighter seal between back box and cover

Rugged hinge mechanism pivots 180° for easy access during installation and maintenance

Generous wiring space for drip loop or top to bottom wiring

420MI9W

Compact non-fused mechanical interlocks are easy to wire

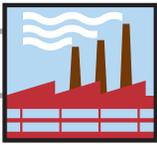

- Disconnect switch with integrated fuse holder offers proven performance in a compact package
- Fused cartridges accept "Class J" fuses (not included)
 - One factory installed auxiliary contact (normally opened – 10 Amp). Additional auxiliary contact available (normally closed — 10 Amp)
 - Easily accessible neutral and ground terminal blocks

Pre-wired IEC receptacle accepts all manufacturer's IEC 309-2 plugs

International-Rated Devices

Leviton offers international-rated pin and sleeve devices available in 16, 32, 63 and 125 Amps. These IEC 309-1 and 309-2 compliant devices are ideal for use overseas where voltage and amperage requirements differ from North American standards, but where rigorous performance, quality, and reliability criteria need to be met.

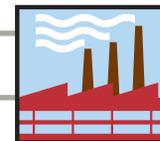

16, 32 and 63 Amp devices have an environmental classification of splashproof (IP44), and 125 Amp devices are classified as watertight (IP67).

Industrial Grade Pin & Sleeve Devices

Making the Right Connection is as Easy as Matching Colors and Telling Time!

Leviton's pin and sleeve devices are easy to use. Matching amperage and voltage requirements is literally as easy as matching colors and telling time.

The amperage rating is related to the size of the device; devices of the same amperage are the same size.

The voltage rating is related to the location of the ground sleeve on the female device and the number of conductors. This location is based on a clock face with the key-way at the 6 o'clock position.

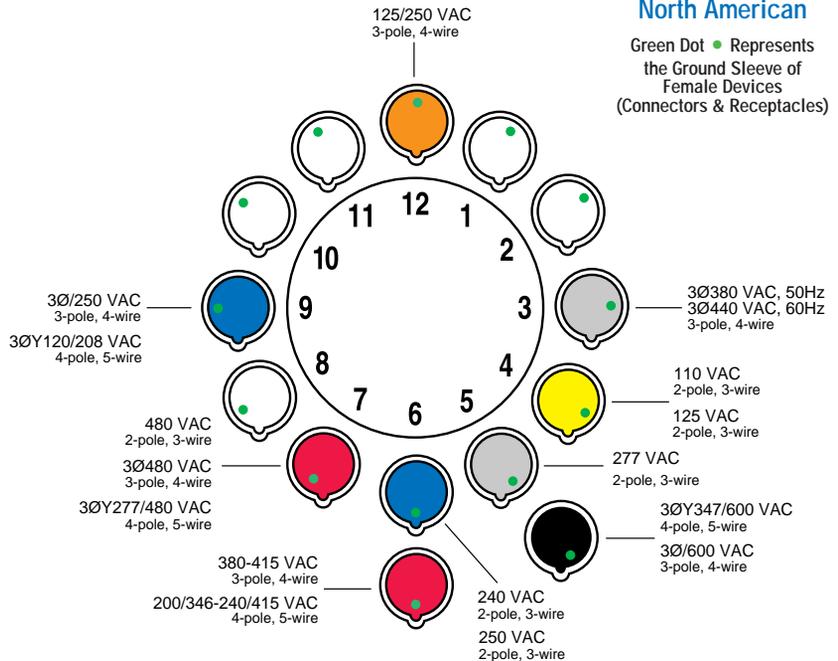

The ground sleeve is positioned at a specific hour location, depending on the device's voltage rating.

The clock position for plugs and inlets is a mirror image of the position for matching connectors and receptacles.

For quick visual identification, voltage ratings are also color-coded and the housings of interconnecting units are always the same color. All 125VAC devices are yellow; 250VAC are blue, etc. Matching up interconnecting devices is as easy as matching colors.

North American

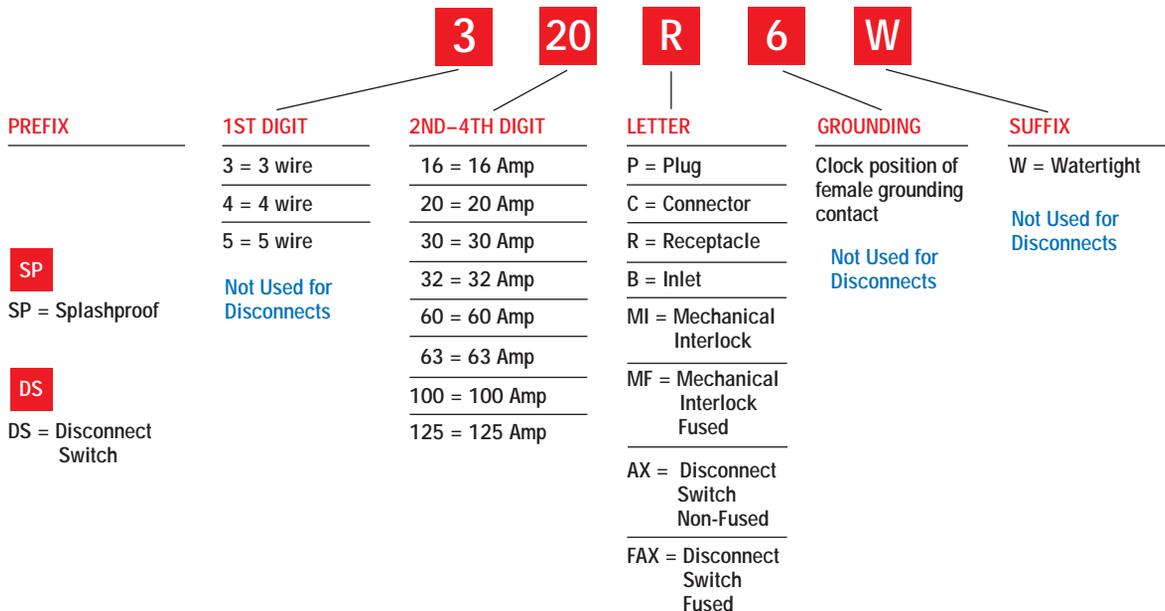

Green Dot • Represents the Ground Sleeve of Female Devices (Connectors & Receptacles)

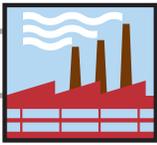

Rated Voltage	Color
110V-130V	Yellow
125V-250V	Orange
200V-250V	Blue
277V, 380V, 440V	Grey
346V-480V	Red
500V and above	Black

Catalog Numbering System

Leviton's catalog numbering system is easy to use. Each letter or number provides a description of the product. Simply follow the six-part code below, made up of letters and numbers. Each catalog number contains the number of conductors, amperage rating, device type, clock position of the ground sleeve, and environmental rating. For example, the catalog number below refers to a 3-wire, 20 amp receptacle with a grounding sleeve located at the 6 o'clock position and an environmental classification of watertight.

SAFETY DISCONNECT SWITCH FEATURES

Industrial Grade Watertight Safety Disconnect Switches UL 98 & UL 508 Listed, CUL per CSA Specification, C22.2 No. 14 Certified

2 YEAR LIMITED
WARRANTY

Liquid-tight conduit fitting can be installed for top or bottom feed

- One fitting supplied:
- 30 Amp – 3/4"
 - 60 Amp – 1 1/4"
 - 100 Amp – 1 1/2"

Stainless steel screws are captive and will not fall out when cover is opened

- Impact UV and chemical-resistant Valox enclosure rated to UL and IEC watertight standards
- Type 3R, 4X & 12K
 - IP67

**Fused Models Accept
"Class J" Time-Delay Fuses**

Pre-wired grounding plates (top and bottom of enclosure) connect to metal conduit grounding system

Brass threaded inserts will not strip, provide higher torque, and form tighter seal between back box and cover

Rugged hinge mechanism pivots 180° for easy access during installation and maintenance

DS60-FAX

Red "pistol grip" handle provides visual confirmation of switch's status

Integrated lockout handle meets OSHA safety regulations

**Watertight Safety Disconnect Switches Include —
30 Amp Fused, 60 & 100 Amp (Fused & Non-Fused)**

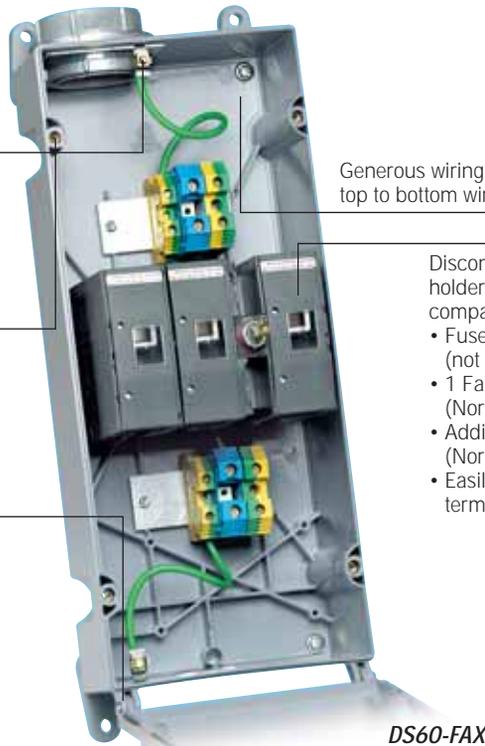

**Meets 2002 NEC® Requirements
430.102 (A) and 430.102 (B)**

Circuit identification pad for means of identifying specific equipment loads

Handle with padlock installed

Generous wiring space for top to bottom wiring

DS60-FAX

- Disconnect switch with integrated fuse holder offers proven performance in a compact package
- Fused cartridges accept "Class J" fuses (not included)
 - 1 Factory installed Auxiliary Contact (Normally Open – 10 Amp)
 - Additional Auxiliary Contact Available (Normally Closed – 10 Amp)
 - Easily accessible neutral and ground terminal blocks

TECHNICAL INFORMATION

Industrial Grade Watertight Safety Disconnect Switches UL 98 & UL 508 Listed, CUL per CSA Specification, C22.2 No. 14 Certified

Engineered to IP67
Watertight Standards

2 YEAR LIMITED
WARRANTY

Watertight Safety Disconnect Switches

- Heavy Duty Safety Disconnects
- Enclosures are TYPE 3R, 4X & 12K, IP67
- Listed to UL 508 for Non-Fused and UL 98 for Fused
- Certified to CSA Standard C22.2 number 14
- Classified to IEC Standard 947-3
- CE marking per low-voltage directives 73/23/EEC, 93/68/EEC

STAGE PIN DEVICE FEATURES

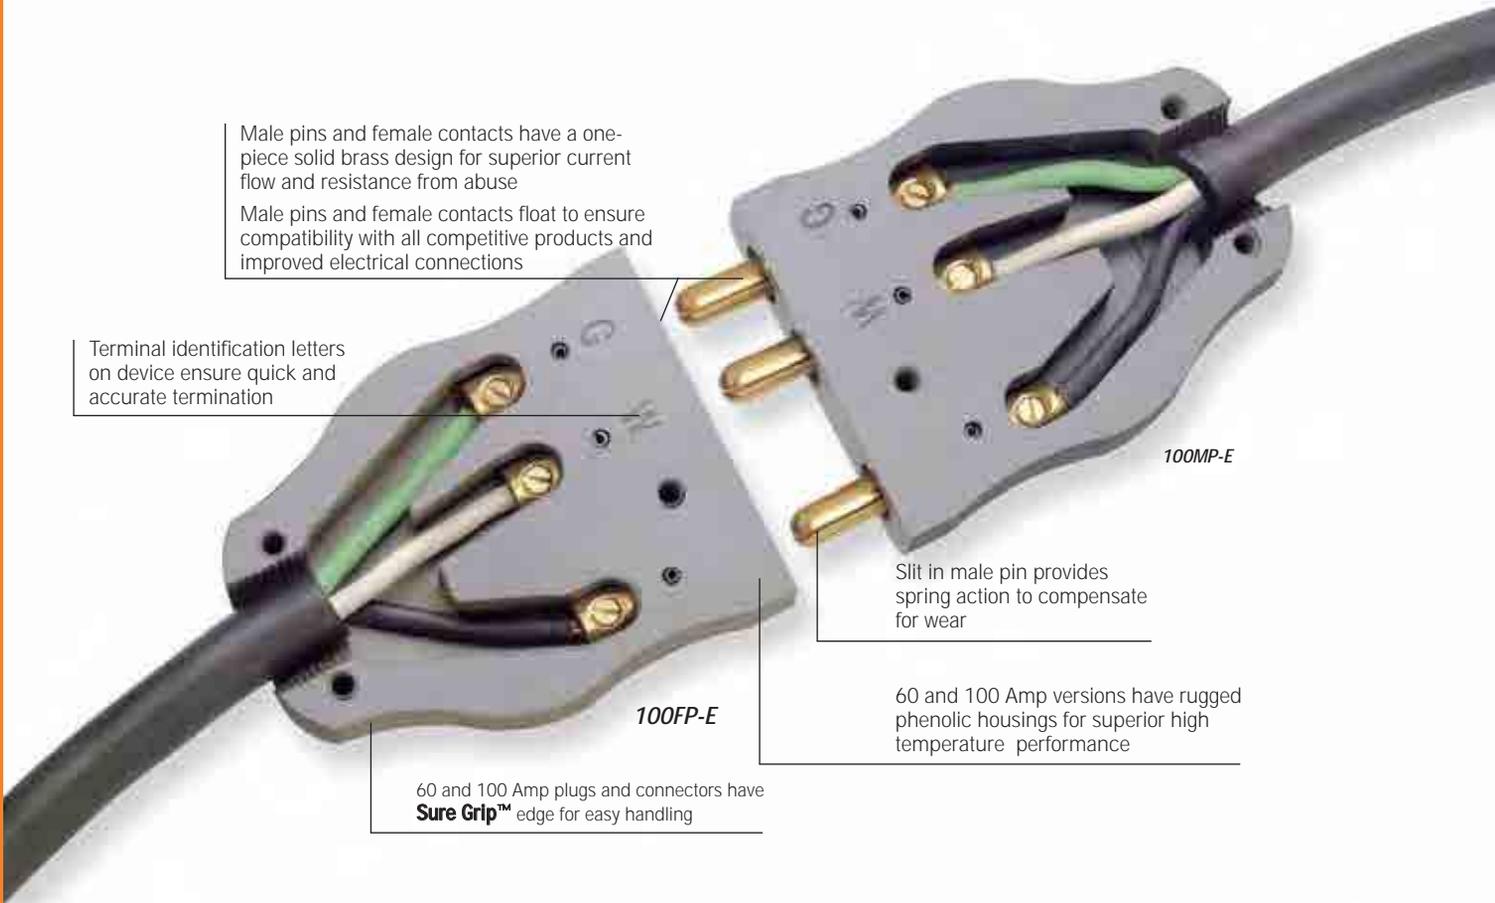

Commercial Grade Stage Pin Devices

Stage Pin Devices — Conforms to USITT (United States Institute for Theater Technology) S3 Standard for Stage Pin Connectors

Male pins and female contacts have a one-piece solid brass design for superior current flow and resistance from abuse
Male pins and female contacts float to ensure compatibility with all competitive products and improved electrical connections

Terminal identification letters on device ensure quick and accurate termination

100MP-E

Slit in male pin provides spring action to compensate for wear

60 and 100 Amp versions have rugged phenolic housings for superior high temperature performance

100FP-E

60 and 100 Amp plugs and connectors have **Sure Grip™** edge for easy handling

20MP-CL

20 Amp version is available with a clear cover to allow for visual inspection of proper termination of conductors. Other colors available include white, blue, green, yellow, red and orange. Consult factory for availability.

SINGLE POLE CAM-TYPE CONNECTOR FEATURES

Commercial & Industrial Grade Single Pole Cam-Type Connectors

Cam Connectors for Commercial and Industrial Use

Leviton offers a wide variety of single pin cam-type cable connectors and panel mount receptacles that supply temporary electrical power distribution for multiple indoor and outdoor applications. The heavy-duty connectors are the standard for the following markets:

- Entertainment and Movie Industry
- Concerts and Theme Parks
- Carnival Equipment
- Conventions.

Other applications include:

- Motor and Generator Splices
- Mining and Construction Sites
- Commercial and Navy Shipbuilding & Repair
- Other temporary power applications.

Leviton manufactures the highest quality single pin connectors available. Our connectors are completely compatible with competitive cam-type products and can be retrofitted to existing locations and power distribution systems. We offer a variety of quick connect/disconnect connectors for various amperage ratings in a multitude of cable sizes. Connectors are available in two styles:

- Field detachable
- Vulcanized

We also offer ball nose and taper nose configurations.

Quality Product and Diversification

In addition to high product quality comes diversity when doing business with Leviton. Leviton offers many varieties of entertainment cable and the ability to produce specialty cord sets for the entertainment/power distribution marketplace.

Leviton Cam-Type Connectors

Features and Benefits

- Intermateable and compatible with competitive cam-type products—can be retrofitted to existing locations and power distribution systems
- Locking and reinforcing ring won't melt, break or crack
- Shatter and crack proof—high durometer thermoplastic elastomer (TPE) or neoprene rubber
- Color-coded insulating sleeves—fast and easy phase identification
- Prevents arcing or burning—no movement of contact surfaces
- Self compensating for wear—slit and cam in male contact provides spring action for longer usage
- Quick connect/disconnect—twist and pull provided by double cam male and cam button in female
- High conductivity—positive, vibration-proof connection provided by double cam design
- Wide range of applications—usable with a wide range of cable and amperage ratings
- Meets NEC Code, UL Listed and CSA Certified. NEMA 3R-Rated for use in outside locations

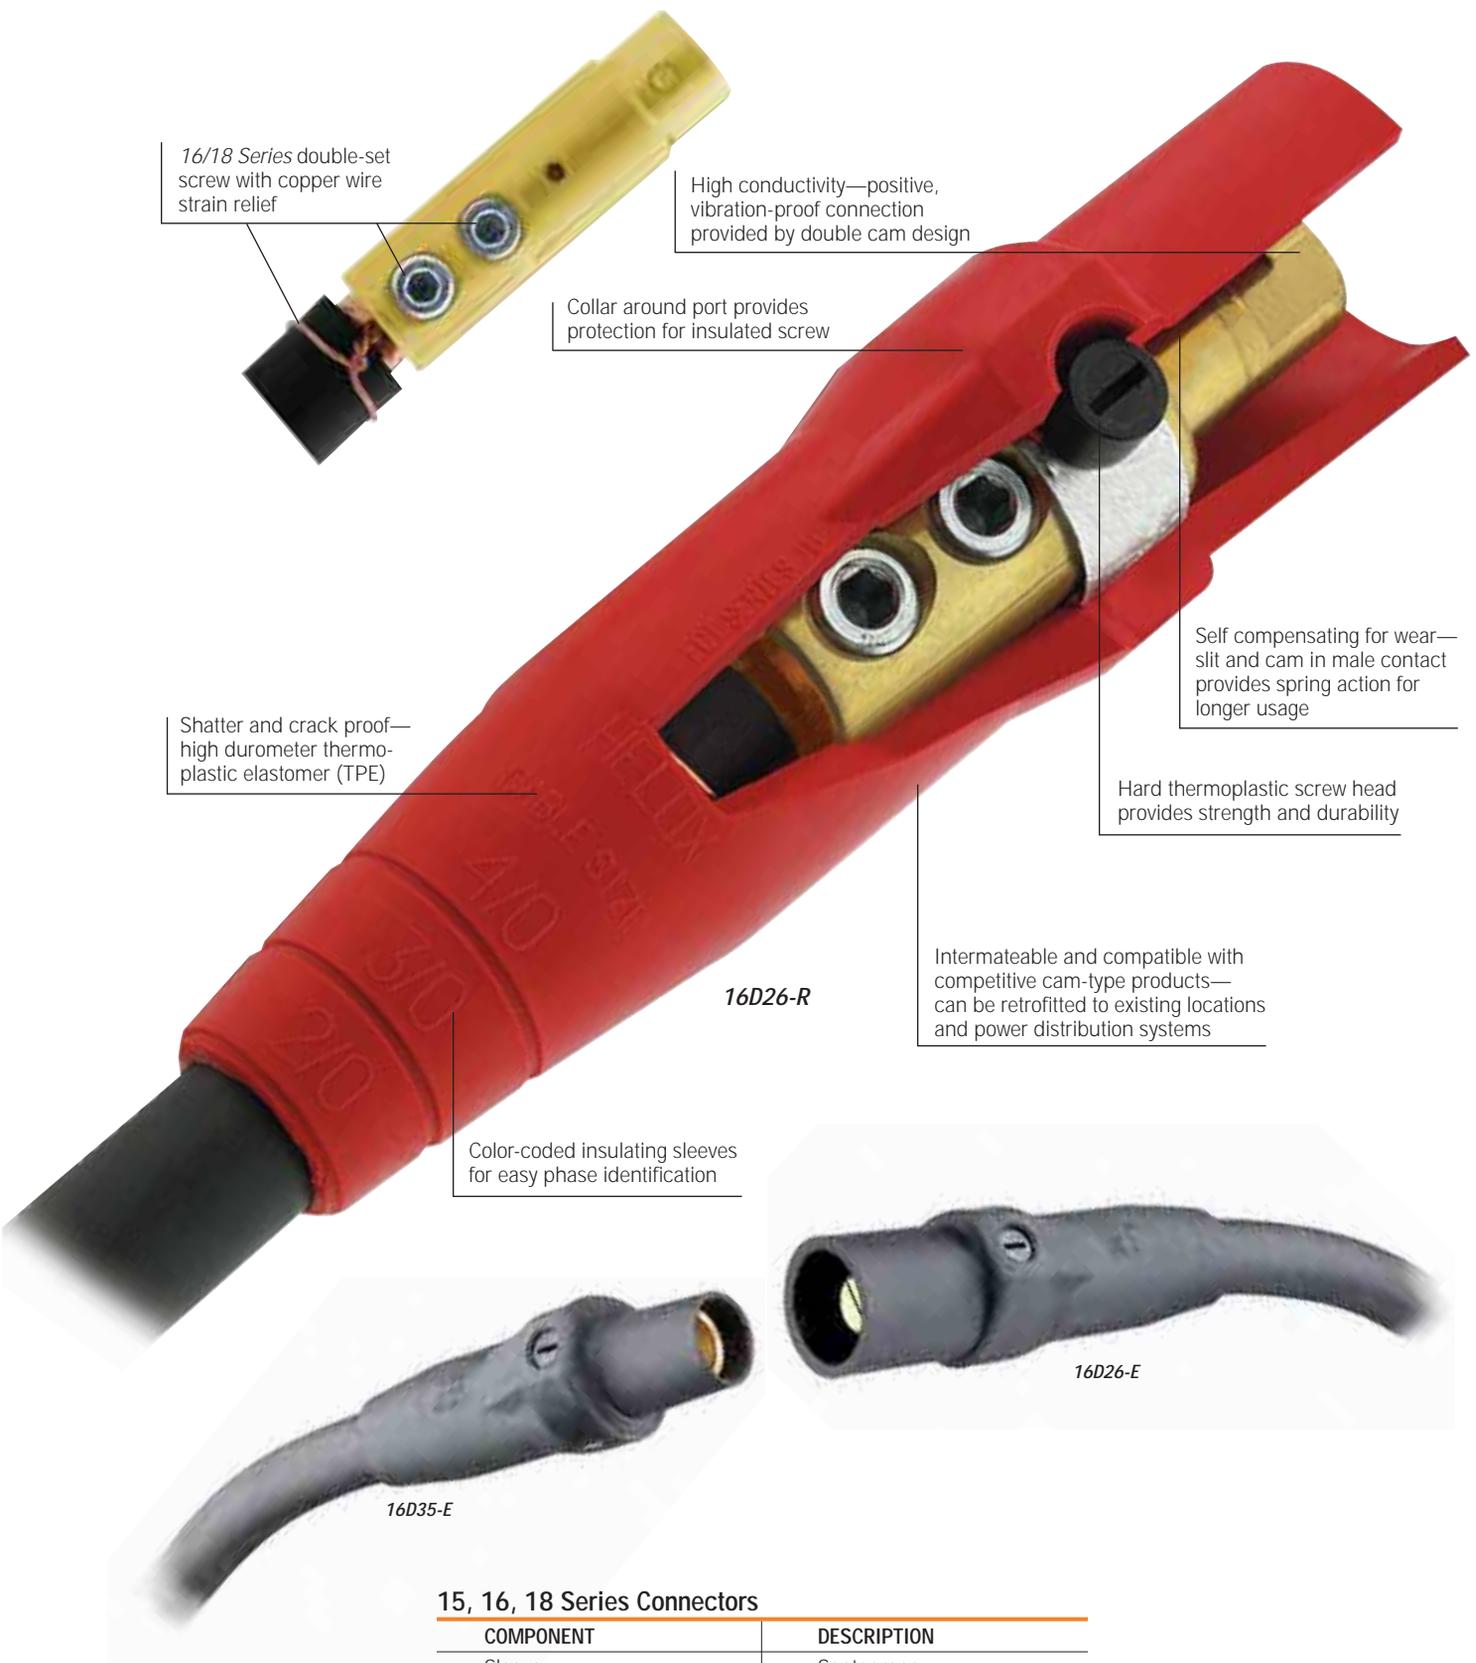

Experience the Difference

Our cam-type connectors are designed for easy assembly and disassembly without special tools. An insulated screw is used to tightly secure the contact inside the insulating sleeve, making assembly, disassembly and field repairs effortless. The connectors use plastic locking and reinforcement rings molded into insulating sleeves and receptacles. Under severe stress and load conditions, plastic locking and reinforcement rings will not melt, break or crack. Other quality differences include:

- Reusable sleeves and contacts
- Preservation of cable length
- Snug fit due to Helox shape of connection as well as cable cutoffs that accommodate a wide range of cable sizes
- Hard thermoplastic elastomer screw head provides strength and durability
- Collar around port provides protection for insulated screw
- Quick check for cable-to-contact connection

SINGLE POLE CAM-TYPE CONNECTOR FEATURES

Commercial Grade Single Pole Cam-Type Connectors

16/18 Series double-set screw with copper wire strain relief

High conductivity—positive, vibration-proof connection provided by double cam design

Collar around port provides protection for insulated screw

Shatter and crack proof—high durometer thermoplastic elastomer (TPE)

SPECIFICATIONS AND FEATURES

- The Leviton 22 series Cam-Type connectors are specified in the United Facility Guide Specification (4FGS-16145).
- Leviton's Cam-Type positive latching connectors and receptacles are the standard used by Navy bases and shipyards in supplying 480 volts AC 3-phase power to ships at dockside. Our latching connector series has been thoroughly and successfully tested by ETL Laboratories to meet Navy specifications, including interchangeability with competition. Our latching connector series provides heavy duty, completely insulated connectors that are vibration-resistant and positively lock into place. Leviton latching connectors will not vibrate, twist or turn

loose, ensuring high conductivity and maximum efficiency. Leviton contacts can be retrofitted to existing locations and power distribution systems. Our male contacts are designed to provide 40% more surface contact with the female vs. competitive products. The additional efficiency will help ensure greater conductivity while preventing burnout.

- The connectors and all components are completely interchangeable with competitive cam-type products.

TESTING AND CODE COMPLIANCE

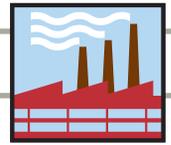

- ETL Tested, Report #521300
- Waterproof (when vulcanized) and fire-resistant for outside usage

Wire Mesh Safety Grips

INDEX

Wire Mesh Safety Grips

Overview	.02
Technical Reference	.03
Selecting Pulling and Support Grips	.04-06
Pulling Grips	.07-014
Strain-Relief Grips	.015-018
Support Grips	.019-026

WIRE MESH SAFETY GRIP FEATURES

Industrial Grade Wire Mesh Safety Grips

A LARGE SELECTION OF WIRE MESH PULLING, STRAIN-RELIEF AND SUPPORT GRIPS

Leviton Wire Mesh Safety Grips are built tough to provide the strength, reliability and gripping force required for today's demanding wire management applications. They are designed to distribute stress over a large area so they can securely hold, pull or support the wire, rope, tubing or fiber optic cable to which they are applied.

Leviton Wire Mesh Safety Grip products offer a wide selection of style, weave, attachment and wire options designed to meet the highest standards for strength, flexibility, durability and longevity.

Leviton Wire Mesh Safety Grips are flexible holding devices used to pull cable, rope, or tubing into place; to support it after it has been installed, to prevent cable pullout; or to provide strain-relief that reduces the arc of bend at points of wire connections or terminations.

1. Pulling Grips

Pulling Grips are reusable tools for pulling insulated conductors or bare wires, cable, nylon and wire rope, fiber optic cable etc. Both flexible eye and rotating eye attachments are available.

2. Strain-Relief Grips

Strain-Relief Grips are used to connect cable or flexible conduit to electrical enclosures and equipment. This prevents pullout and bending due to tension at the inner conductors at the point of termination.

3. Support Grips

Support Grips distribute the weight of the vertical or sloping runs of electrical and fiber optic cable, metal rods, tubing or hose over the entire length of the grip so that the cable is not subject to damage. A variety of hangers and bales are available. These grips are also available in stainless steel for additional corrosion-resistance. Consult factory for availability.

Agency Approvals

UL Listings and CSA Certifications are indicated on the appropriate product catalog pages. File numbers, are listed below.

AGENCY	CONTROL NUMBER	FILE NUMBER
Underwriters Laboratories, Inc.	965U 16G5	E-173944 E-176347
Canadian Standards Association	—	LR-702185

Standards

Leviton Wire Mesh Safety Grips meet the following standards:

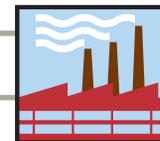

NEC 300-19—Supporting cables in vertical raceways.

NEC 351-2—Liquid-tight flexible metal conduit installations.

NEC 400-7—Flexible cord installations.

NEC 400-10—Strain-relief at joints and terminals.

JIC H 13.11—Prevention of flexible hose failure.

Industrial Grade Wire Mesh Safety Grips

Technical Reference

Hazardous Locations

The following product categories are suitable for use in hazardous locations per Class I, Div. 2; Class II, Div. 1 & 2; and Class III, Div. 1 & 2 requirements.

PRODUCT CATEGORY	TYPE
Deluxe Cord Grips	Aluminum fitting Nylon fitting Non-metallic

Flammability

Non-metallic Deluxe Cord Grips will not support combustion. The ratings are listed below.

COMPONENT	RATING
Wire Mesh Grip	94HB ¹
Fitting	94V ²

¹A test method used by U.L. to determine a rate of burning and/or extent and time of burning of self-supporting plastics in a horizontal position (ASTM D 635-88, IEC 707-1981, ISO/DIS 1210.2).

²A test method used by UL for measuring the comparative extinguishing characteristics of solid plastics in a vertical position (IEC 707-1981, ISO/DIS 1210.2).

Wet Locations

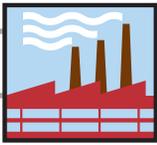

The strain-relief grips listed below are suitable for use in wet locations so long as a listed sealing ring is used between the box and the fitting.

PRODUCT CATEGORY	TYPE
Deluxe Cord Grip	Aluminum fitting Nylon fitting Non-metallic

	Safety Springs	Spring steel

¹Stainless steel available on request. Contact your Leviton Representative.

WIRE MESH SAFETY GRIP SELECTION

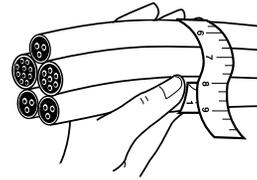

Industrial Grade Wire Mesh Safety Grips

Selecting Proper Sized Pulling and Support Grips

How to Select Proper Grip Size

Example: For five cables bundled together, each with a diameter of 0.42":

- 1) Locate "5 Cables" column.
- 2) Read down column to range (0.38"-0.48").
- 3) Read across line to Grip Diameter Range (1.00-1.25).

Grip size is based on the outside diameter or circumference of the cable(s). Use Selection Table 1 to determine the Grip Diameter Range for one or more cables of equal diameter. Use Selection Table 2 to determine the Grip Diameter Range for cables of different diameters bundled together. (Note: In this case, the bundle must be measured.) For your convenience, the Reference Tables provide approximate values for flexible cord and AWG or MCM wire.

Grip Selection Table for One or More Cables of Equal Diameter

- 1) Read across top line for number of cables in one grip.
- 2) Read down for diameter of each cable.
- 3) Read across line to Grip Diameter Range column

TABLE 1

WIRE MESH SAFETY GRIP SELECTION

Industrial Grade Wire Mesh Safety Grips

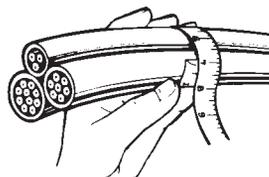

Selecting Proper Sized Pulling and Support Grips

How to Select Proper Grip Size

Example:

For three different diameter cables bundled together with a measured circumference of 6.35".

- 1) Read down Inches (Decimal) column for 6.35" (6.29-7.86 in.).
- 2) Read across line to Grip Diameter Range (2.00-2.50).

Grip Selection Table for Cables of Different Diameters

Grip Circumference Range refers to the circumference of all cables held together.

- 1) Determine Grip Circumference Range by measuring circumference of bundle of cables to be held (as shown in illustration).
- 2) Read down to locate correct range.
- 3) Read across line to Grip Diameter Range Column.

TABLE 2
Grip Circumference Range—for Cables of Different Diameter

INCHES (FRACTIONAL)	INCHES (DECIMAL)	GRIP DIAMETER RANGE
2 ⁵ / ₃₂ –1 ¹¹ / ₆₄	0.78–1.17	.250–.375
1 ¹¹ / ₆₄ –1 ³⁷ / ₆₄	1.17–1.57	.375–0.50
1 ³⁷ / ₆₄ –1 ¹⁵ / ₁₆	1.57–1.94	0.50–.625
1 ¹⁵ / ₁₆ –2 ³ / ₈	1.94–2.37	0.62–0.75
2 ³ / ₈ –3 ⁵ / ₃₂	2.37–3.15	0.75–1.00
3 ⁵ / ₃₂ –3 ¹⁵ / ₁₆	3.15–3.94	1.00–1.25
3 ¹⁵ / ₁₆ –4 ²³ / ₃₂	3.94–4.72	1.25–1.50
4 ²³ / ₃₂ –5 ³³ / ₆₄	4.72–5.51	1.50–1.75
5 ³³ / ₆₄ –6 ¹⁹ / ₆₄	5.51–6.29	1.75–2.00

	750		1.16	1.25
	1000		1.32	1.40

WIRE MESH SAFETY GRIP SELECTION

Industrial Grade Wire Mesh Safety Grips

Selecting Proper Sized Pulling and Support Grips

Strength Information

The approximate breaking strength of any Leviton Wire Mesh Safety Grip is based on working load information established by our engineering laboratories. In making these determinations, it is not possible to cover all applications and operating conditions. Variables such as diameter, gripping surface, number of items gripped, tension, movement, attachments, abrasion, corrosion, prior use and abuse must be assessed by the user. Greater safety factors should be utilized when the conditions of application are vague or unknown.

For specific applications where strength and holding power are important, consult Leviton's Technical Services Department. To determine the recommended working load safety factor for listed cable grips, divide the approximate breaking strength by 5 for pulling grips and by 10 for support grips. Leviton maintains a 6 Sigma Safety Factor for this recommended working load (using average break strengths obtained on new grips under lab test conditions).

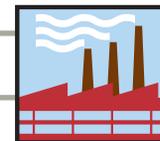

Example: For pulling grips— $33,000 \div 5 = 6,600$ lbs. which is the workload factor.

Example: For support grips— $10,080 \div 10 = 1,008$ lbs. which is the workload factor.

All warranties concerning product quality or performance are based on wire mesh safety grips that are properly stored and handled by the user, and grips that are maintained and inspected at a proper frequency in keeping with their use and condition.

Grip Cable Range—Fraction—Decimal—Millimeter Conversion

INCHES (FRACTIONAL)	INCHES (DECIMAL)	METRIC (mm)
$1/4$ – $23/64$	0.25–0.36	6.35–9.13
$3/8$ – $31/64$	0.37–0.49	9.52–12.30
$1/2$ – $39/64$	0.50–0.61	12.70–15.48
$5/8$ – $47/64$	0.62–0.74	15.88–18.65
$3/4$ – $63/64$	0.75–0.99	19.05–25.00
1– $1^{15}/64$	1.00–1.24	25.40–31.35
$1^{1/4}$ – $1^{31}/64$	1.25–1.49	31.75–37.70
$1^{1/2}$ – $1^{63}/64$	1.50–1.99	38.10–50.40
2– $2^{31}/64$	2.00–2.49	50.80–63.10
$2^{1/2}$ – $2^{63}/64$	2.50–2.99	63.50–75.80
3– $3^{31}/64$	3.00–3.49	76.20–88.50
$3^{1/2}$ – $3^{63}/64$	3.50–3.99	88.90–101.20

Industrial Grade Wire Mesh Safety Grips

PULLING GRIPS

Leviton Pulling Grips are reusable tools for pulling bare conductors, insulated wires, synthetic rope, wire rope, and fiber optic cable. These grips do not damage the cable, as the tension remains uniform throughout the length of the grip. The mesh responds to fit either a single cable or a bundle of cables.

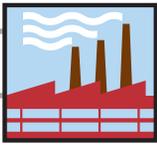

Leviton Pulling Grips may be used for pulling cable on overhead or underground applications, for stringing service or communication lines into factories, for pulling wire through conduit, and for underground electrical pulls.

Leviton Pulling Grips are woven in galvanized steel for greater strength and longer life. Leviton also offers Pulling Kits that come in a vinyl mat with pockets that can be rolled and tied.

Pulling Grip Eye Options

DESCRIPTION	PAGE NO.	ATTACHMENT INFORMATION
Bale Eye—Medium Duty, Single/Double Weave	Q9	
Bale Eye—Medium and Heavy Duty, Single/Double Weave	Q10	Bale Eye Attachment flexes to follow line of pull with plastic tubing on bale.
Flexible Eye—Junior Duty, Single Weave	Q8	
Flexible Eye—Light Duty, Single Weave	Q8	
Flexible Eye—for Fiber Optic, Multi-Weave	Q9	Flexible Rope Eye Bale has no plastic tubing for better flexibility.
Flexible Eye—High Duty, Multi-Weave	Q13	
Slack Grips, Closed Mesh, Double Weave	Q14	
Slack Grips, Split Lace Mesh, Double Weave	Q14	Offset Flexible Eye For easy attachment of the pulling line.
Slack Grips, Split Rod Mesh, Single Weave	Q14	
Rotating Eye—Heavy Duty, Double Weave	Q11	
Rotating Eye—Heavy Duty, Multi-Weave	Q12	Rotating Eye For use in changing wire rope in large cranes and derricks.

Note: To determine workload safety factor, divide approximate break strength by 5.
See page Q6 for strength information

WIRE MESH PULLING GRIPS

Industrial Grade Wire Mesh Safety Grips

L8503

Junior Duty Series Grips are indispensable tools for electricians with small job requirements. They are used to connect insulated wire bundles to pulling tape or to pull wire rope through conduit.

Pulling Grips—Fiber Optic Series

Fiber Optic Pulling Grips are used for installation of fiber optic communication lines. They easily install on cables and are reusable. Applications include underground, overhead, through-conduit and/or enclosure type pulls.

Leviton fiber optic pulling grips are two-in-one reusable grips: the same tool features both a flexible eye and a swivel eye. The rounded, flexible eye attaches easily to pulling lines, and allows smoother passage through tight spaces than needle-eye designs.

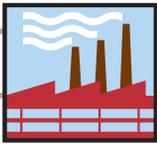

Flexible/Swivel Eye Fiber Optic Grips Multi Weave

CAT. NO.	CABLE DIA. RANGE (INCHES)	APPROX. BREAK STRENGTH*	LENGTH (INCHES)		
			BALE (DIM. A)	MESH (DIM. M)	NOSE DIA.

Industrial Grade Wire Mesh Safety Grips

Pulling Grips

These grips feature a double weave of galvanized steel strands for greater strength and added mesh contact with the cable. Leviton Double Weave Pulling Grips are designed to handle longer or heavier pulling jobs such as installation of underground cables, communication lines, and service lines.

Double Weave Pulling Grips have a forged steel compact rotating eye which can be attached to a swivel.

WIRE MESH PULLING GRIPS

Industrial Grade Wire Mesh Safety Grips

L8624

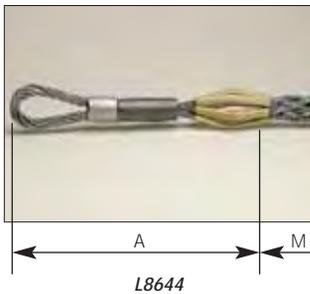

Pulling Grips—Multi-Weave Grips ^{SE}

Leviton Multi-Weave Pulling Grips are constructed of high strength galvanized steel strands and are designed for pulling aluminum or copper bare conductor, wire rope and insulated cables. These grips are used in applications such as distribution line stringing and overhead transmission.

Multi-Weave Pulling Grips are available with a flexible or rotating eye which can be attached to a swivel. The forged steel flexible eye will thread through sheaves and blocks without binding, but is not a swivel and will not turn under tension. The rotating eye can turn to relieve pulling torque when tension is relaxed.

Multi-Weave, Rotating Eye

Note: It is recommended that a swivel be used for release of torque during a pull. Use a connecting link when a swivel is not needed. Do not run grips or swivels over bullwheels while under tension. Do not use Multi-Weave for pulling rope. When higher loads are required, use Leviton's high strength-style pulling grips. See installation instructions supplied with grip for recommended swivels, links and clamps or accessories listing.

**To determine workload safety factor, divide approximate break strength by 5. See page Q6 for strength information.*

Industrial Grade Wire Mesh Safety Grips

Pulling Grips—High Strength Grips

High Strength Pulling Grips are designed for situations where load and safety considerations require an extra high strength grip. They are most commonly used for attaching pulling lines to conductors, conductors to running boards, and conductor-to-conductor connections. These grips can be used for pulling bare or insulated conductor, wire rope or synthetic rope.

A feed tube is used when assembling synthetic rope¹ into the High Strength Pulling Grip and is required on the two largest grip sizes.

L8665	1.50–2.10	1.38–1.90	66,500	24	89	Aluminum	.750

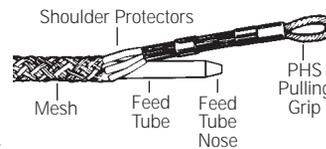

¹For rope, select smallest size grip which meets required workload.

*To determine workload safety factor, divide approximate break strength by 5. See page Q6 for strength information.

Recommended Rope Assembly Using High Strength Feed Tube

- 1) Insert feed tube into High Strength Pulling Grip.
- 2) Insert rope end fully into feed tube.
- 3) Hold rope in feed tube by pinning rope to the ground with end of tube. Pull mesh down onto feed so feed tube nose is protruding through shoulder protectors as shown.
- 4) Push mesh to end of feed tube and pull feed tube through mesh. When tube is pulled, the mesh gripping action will hold rope in place.
- 5) Position rope so that its end is inside the shoulder protectors. Remove slack from mesh by smoothing mesh tight to rope.
- 6) Apply clamps to mesh end.

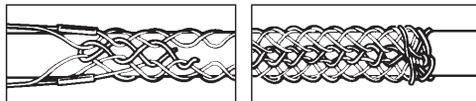

Split-Lace/Split-Rod Attachments (for use where end of cable is not accessible—applies to slack grips only)

Beginning at the end of the grip closest to the bale fitting, thread the lacing through the first two loops of the split, pulling the lace through until the ends are centered evenly. Cross the laces and thread them through the next two loops, and so on down the grip, being careful not to pull the lacing too tight.

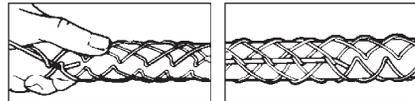

Spacing of the laced closure should be approximately the same as the mesh weave. When the end of grip is reached, twist the lacing strands tightly together, wrapping the ends of the lace around the grip, and twisting again to secure. Excess length may be cut off.

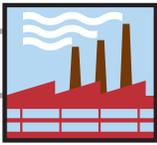

Split grips with rod closing are economical, since they are quickly installed, and are reusable. Simply wrap the grip around the cable and thread the rod through the loops, using a corkscrew motion. To remove, pull the rod out, and the grip is ready for re-use.

Split-Lace

Split-Rod

WIRE MESH PULLING GRIPS

Industrial Grade Wire Mesh Safety Grips

PULLING GRIPS—SLACK GRIPS

Slack Grips are reusable grips used for pulling slack in underground cable preparatory to final placement. They may also be used for cable removal. Slack Grips feature an offset eye for easy attachment to the pulling line. See attachment information for split lace and split rod on page Q13.

WIRE MESH STRAIN-RELIEF GRIPS

Industrial Grade Wire Mesh Safety Grips

Wire Mesh Safety Grips

STRAIN-RELIEF GRIPS

Strain-Relief Grips are used to connect cord or cable to electrical enclosures and equipment. These grips prevent pullout due to tension and limit the arc of bend at the point of entry; strain is distributed over the length of mesh rather than concentrated at one point or transferred to the internal termination.

Wide-Range Grips

Wide-Range Grips are recommended for use in wiring of enclosures, power boxes, machine tools, and power centers. They include an insulated bushing (dust-tight).

Cord Sealing Grips

Cord Sealing Grips with Mesh are nylon devices used to connect electrical cables to boxes, cabinets, push-buttons, enclosures, etc. They are liquid-tight devices that are highly resistant to impact and corrosion. Non-metallic cord sealing grips will not support combustion. The ratings are: Wire Mesh Grip-94 HB and Fitting-94V-2. Cord Sealing Grip products are suitable for use in wet locations so long as a listed sealing ring is used between the box and the fitting.

WIRE MESH STRAIN-RELIEF GRIPS

Industrial Grade Wire Mesh Safety Grips

Deluxe Cord Grips

Deluxe Cord Grips are woven of stainless steel mesh with an anodized aluminum body for corrosion resistance. They are offered in Single/Double Weave construction to help absorb direct pull, resist flexing and binding, and eliminate strain. Aluminum fittings are offered in a variety of NPT thread sizes. They are recommended for indoor or outdoor use where moisture may be present in the wiring of pendant stations, processing equipment, hand tools, and extension cord sets. They are UL Listed and CSA Certified. Deluxe Cord Grips are suitable for use in hazardous locations per Class I, Div. 2; Class II, Div. 1 and 2; and Class III, Div. 1 and 2. They are also suitable for use in wet locations as long as a listed sealing ring is used between the box and the fitting.

Liquid-Tight Grips

Liquid-Tight Grips are woven stainless steel mesh with an anodized aluminum body for corrosion-resistance. They are used to connect liquid-tight flexible metal conduit to electrical enclosures to prevent conduit pullout. Each fitting is supplied with an insulated throat to ensure conductor insulation and protect against damage caused by flexing, heat expansion or contraction.

Liquid-Tight Grips are recommended in the wiring of motors and any electrical enclosure where liquid-tight conduit is subject to motion or strain. UL Listed and CSA Certified.

Connection Wire Mesh Grips

Connection Wire Mesh Grips provide additional strain-relief for plugs and connectors used on portable equipment in commercial and institutional applications, and industrial plant and construction site areas which incur abnormally high abuse. Grips are made of galvanized steel.

Connection Wire Mesh Grips

CAT NO.	CABLE DIA. RANGE (INCHES)	EYE DIMENSIONS (A) (INCHES)	MESH LENGTH (M) (INCHES)
L8001	.30-.43	1 1/16	4 3/4
L8002	.40-.56	1 1/16	6
L8003	.52-.73	1 1/16	7

L8005	.82-1.00	1 5/16	8 1/2
L8006	.94-1.25	1 5/16	10 1/2

Industrial Grade Wire Mesh Safety Grips

SUPPORT GRIPS

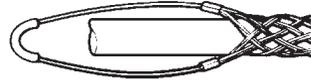

Support Grips are designed to hold the weight of cable on vertical or sloping runs. They may be used indoors or outdoors to support electrical and fiber optic cable, metal rods and tubing.

Leviton Support Grips are woven with tinned bronze wire. For applications requiring a greater degree of corrosion resistance, stainless steel wire is available on special order. For information regarding selection of the proper-sized support grip, see pages Q4 and Q5.

Style

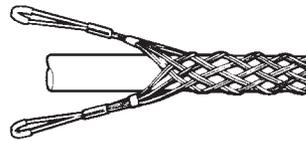

SINGLE "U" EYE

For use when cable is vertical and for applications where cable bends or where a single attachment is more advantageous for positioning.

DOUBLE "U" EYE

For use when cable is vertical and extends through the grip without bending. Eyes may be fastened to open hooks, but should not be more than 15° from the axis of vertical cable. When eyes are supported equally, this attachment offers a fully balanced load.

OFFSET EYE

Similar to single eye applications, but for use when offset positioning is required.

LOCKING (UNIVERSAL) BALE

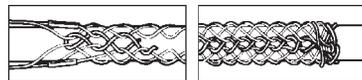

Adjustable and self-locking, this attachment fits around a beam, pipe or other continuous structural object. The bale wraps around the object and is securely anchored in the bar.

Split Lace/Split Rod

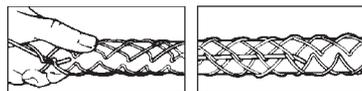

SPLIT LACE

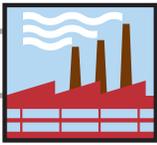

Beginning at the lead end of the grip, thread the lacing through the first two loops of the split, pulling the lace through until the ends are centered evenly. Cross laces and thread through the next two loops, and so on down the grip, being careful not to pull the lacing too tight. The spacing of the lace closure should be approximately the same as that of the mesh weave. When the end of grip is reached, twist the lacing strands tightly together; wrap the ends of the lace around the grip and twist again to secure. Excess length may be cut off.

SPLIT ROD

Split grips with rod closing install quickly and they are economical and reusable. Simply wrap the grip around the cable and thread the rod through the loops, using a corkscrew motion. To remove, pull the rod out; and the grip is ready for re-use.

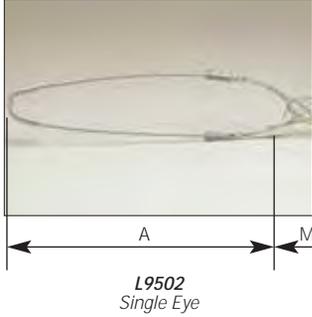

WIRE MESH SUPPORT GRIPS

Industrial Grade Wire Mesh Safety Grips

Support Grips—Standard Closed Mesh

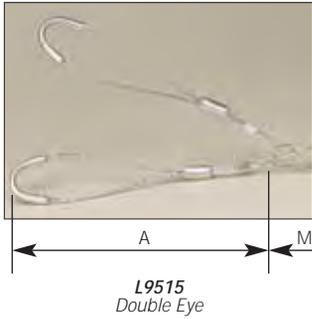

Standard Closed Mesh Support Grips are designed for loads up to 500 lbs. and vertical runs of no more than 100 feet. Heavy-duty closed mesh support grips are designed for loads in excess of 500 lbs. They are available in a variety of eye styles and cable ranges for supporting electrical cable, metal rods and tubing. Closed mesh support grips are used when the end of the cable is accessible. Mesh is made of tinned bronze material.

WIRE MESH SUPPORT GRIPS

Industrial Grade Wire Mesh Safety Grips

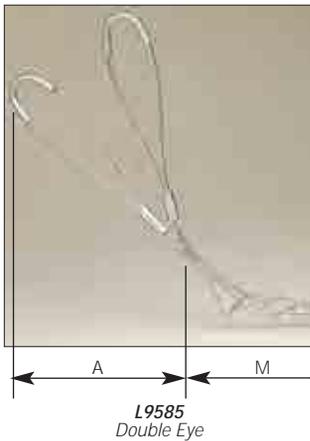

Support Grips—Standard Split Lace

Split Lace Support Grips are designed for loads up to 500 lbs. and vertical runs of no more than 100 feet. Heavy-duty split lace support grips are available on page Q23. They are available in a variety of eye styles and cable ranges for supporting electrical cable, metal rods and tubing. Split lace grips are utilized when the end of the cable cannot be feasibly accessed and the support grip is intended for permanent installation. Mesh is made of tinned bronze material. For attachment information see page Q19.

Industrial Grade Wire Mesh Safety Grips

Support Grips—Fiber Optic Grips

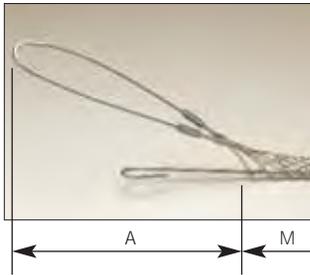

All Leviton Fiber Optic Support Grips are designed to wrap securely around fiber optic cable without damaging it. They are designed to reduce stress on cable in vertical, sloping, or horizontal positions. Single-eye or locking-bale style grips afford lasting support for a wide variety of applications where fiber optic cable is used.

*To determine workload safety factor, divide approximate break strength by 10. See page Q6 for strength information.

Surge Protection, Power Distribution and Uninterruptible Power Supply Devices

INDEX

Industrial Surge Protective Devices

Overview	R2
Four-Outlet Plug-Ins	R3
5100 Series	R3
Surge Strips	R4
Surge Protection Modules	R5
Surge Protection Panels	R6, R7
74000 Series	R6
57000 Series	R7
52000 Series	R8
47000 and 52000-7M3 Series	R9
42000 and 32000 Series	R10
Low Voltage Communications SPD's	
3400 and 3800 Series	R11
Surge Counter: 51000 SMC	R11
Equipment Cabinet SPD's	R12
3800 Series	R12
Surge Protection Receptacles	R13
Decora Series	
Four-In-One Series	R14

Commercial Surge Protection Devices

S1000 and S2000 Series Surge Strips	R15
4950 Series Surge Strips	R15
5500 and 5505 Series PDU's with Surge Protection	R16

Rack-mounted Power Distribution Devices

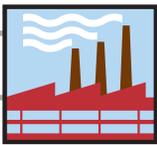

4505 Series 19" Rack Mount PDU's	R17
P1000 Series PDU's	R17
Metered Series PDU's	R18
Switched Series PDU's	R19

Residential Surge Protection Devices

Meter Socket Surge Adapter	R20
Secondary Surge Arrestors	R20
General Purpose Plug-Ins	R21
51000 Series Surge Protection Panels	R21
3950 Series Module Bracket	R22
5950 Series Surge Modules	R22

Uninterruptible Power Supplies

Sine and Online Series UPS Systems	R23
Pro, Slim and Strip Series UPS Systems	R23, R24

SURGE PROTECTION DEVICE FEATURES

Industrial Grade Surge Protection Devices

LEVITON'S SURGE PROTECTIVE DEVICES (SPD'S) ARE DESIGNED TO REDUCE THE RANDOM ENERGY SURGES OF VOLTAGE TRANSIENTS AND ELECTRICAL NOISE ON THE POWER SUPPLY LINE.

Volatile transients and noise are present in utility power lines, data networks, telephone lines, closed circuit and cable tv feeds, and any other power or control lines connected to electronic equipment.

Leviton's Surge Protection Devices can be used individually or as part of a coordinated application strategy, called Network Protection, to protect sensitive electronic equipment, in industrial, commercial and residential locations, from the stress and degradation inflicted by voltage transients. Leviton Surge Protection Devices are listed to UL 1449 Second Edition Standards.

Leviton's outstanding Surge Protection Devices divert damaging voltage transients, or surges, away from electronic equipment. Transients are diverted away from sensitive microcircuitry, providing protection against catastrophic failure, costly downtime and data disruptions.

Features and Benefits

- Provides seven-mode protection
- User-replaceable modules
- Real-time diagnostics monitor power and suppression status for each mode
- Diagnostic display panel of 74000/75000 units indicates "Fault", "Alert" and "Protection" status
- Provides surge magnitude, time and date of each surge event
- Surge event history downloadable via RS-232 connection

74120-7M3

Panel Mounted
Provides complete protection on all phases even if one module fails; modular design allows easy replacement of modules. NC, NO contacts for remote status indication.
57120-M3 shown

Receptacles
15-20 Amp single, duplex and four-in-one versions with 3-level MOV phase to neutral, phase to ground and neutral to ground protection.
8280-IGB shown

Stand-Alone Low-Voltage SPD
Provides surge protection for low-voltage data and communications lines.
5350-PT8 shown

Plug Strips
Available in a variety of grades, its real time diagnostics monitor power and suppression status.
5300-PS shown

PDU
Mounts on 19" equipment rack; available with or without rocker-style ON/OFF switch; Resettable circuit breaker protects against overloading and power supply failure.
5500-190 shown

UPS
New product line offers the latest technology and features available in Uninterruptible Power Supply devices.
U1000-AKP shown

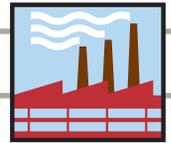

Communication Modules
Provide surge protection for DC-powered low-voltage data network products.
3803-485 shown

Multi-Phase Panel Protector
Provides multiple-phase surge protection; 3-phase units are suitable for WYE and Delta AC systems. NC, NO contacts for remote status indication.
42120-D43 shown

WALL MOUNTED SURGE PROTECTION

Industrial Grade Surge Protection Devices

Four-Outlet Plug-In Surge Protection Devices — 15 AMP 120V 50, 60 Hz AC

5100 Series

DESCRIPTION	CAT. NO.	COLOR	APPLICATION
15A Four-Outlet Heavy-Duty DPI	5100-P	Beige	PC's and peripherals, electronic cash registers, digital sound systems, video equipment and microwave ovens

Clamping Performance

SPECIFICATION	5100
Max. single-pulse transient current (8x20µs, Amps peak)	26kA
Rated single-pulse transient energy (10x1000µs, Joules)	320 Joules
EMI/RFI noise rejection @ 50 Ohms 5kHz-100MHz	10-20dB
Cat. A ringwave (6kV, 200A,100kHz)	370V
Cat. B ringwave (6kV, 500A,100kHz)	420V
Cat B impulse (6kV, 3kA, 8x20µs)	490
UL 1449 ratings (8x20µs @ 500A) (L-N/L-G, N-G)	330/500/400V
Maximum continuous operating voltage	135V

SPECIFICATIONS AND FEATURES

- Connect directly to standard NEMA 5-15 wall receptacles
- Diagnostic LED's indicate power & protection status
- Three mode protection for Normal & Common protection: L-N,L-G, N-G
- On-board thermal fusing & overcurrent protection via resettable 15A breaker
- Filtration reduces high frequency noise
- Maximum continuous operating voltage

5100 Series

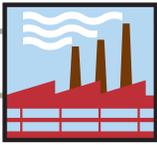

- Non-inductive design for compatibility with UPS & SPS or transformer systems
- Multi-component suppression circuitry

TESTING AND CODE COMPLIANCE

- UL 1449 Listed (File #E-146315)
- Meets ANSI/IEEE C62.41 standards for both Categories A & B
- CSA Certified (File #LR-94773)
- Lifetime Limited Downline Warranty for device & equipment plugged into it

MATERIAL CHARACTERISTICS

Operating Temperature: -10°C to 60°C
Storage Temperature: -35°C to 60°C

SURGE PROTECTION PLUG STRIPS

SPECIFICATIONS AND FEATURES

Plug Strips

- Available in Industrial Specification Grade, Commercial Specification Grade & General Purpose Classifications
- Clamping profile tightly tracks AC sine wave
- Real-time diagnostics monitor power & suppression status
- Six protected outlets
- Resettable circuit breaker & internal fusing
- May be wall-mounted
- Equipped with a 6-foot, 14-3AWG power cord

TESTING AND CODE COMPLIANCE

5300-HPS

- UL Listed 544 (File #118936)
- UL Listed (File Nos. #1449, 1363, 1283)
- CSA Certified (File #LR-94773)
- Meets ANSI/IEEE C62.41 standards for both Categories A & B

Plug Strips

- Lifetime Limited Downline Warranty for device & equipment plugged into it

51020-WMT

SPECIFICATIONS AND FEATURES

Wired-In Surge Protection Module —5100 Series

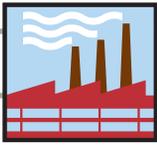

- For use by OEMs who wish to include 120/240V surge protection as an equipment feature
- Available with DIN-rail mounting
- Provides surge protection to branch circuits
- Staged multi-component surge suppression circuitry provides clamping envelope that follows AC sine-wave contour
- Primary and secondary suppression circuits are automatic resettable fuse protected
- Diagnostic circuitry, with LEDs, to indicate surge protection status & acoustic alert if surge protection is lost
- If surge protection is lost, power is still provided to load until SPD module is replaced

TESTING AND CODE COMPLIANCE

- Recognized to UL Standard 1449, Edition 2.5
- CSA Certified
- Backed by a Limited Five-Year Warranty

MATERIAL CHARACTERISTICS

Operating Temperature: -40°C to 70°C
Storage Temperature: -20°C to 85°C

SURGE PROTECTION PANELS

Remote Supervisor

DESCRIPTION	CAT. NO.
Remote Supervisor	52000-RS

SPECIFICATIONS AND FEATURES

57000 Series

- For installation at main distribution panels
- Hybrid suppression circuitry with built-in redundancy provides complete protection on all phases even if one module fails
- Modular design allows easy replacement of modules with the use of tools & without the need to shut down AC system power
- Provides Normal Mode (phase to neutral) & Common Mode (neutral to ground) protection for WYE-configured 3-phase AC systems
- Dry contacts for remote monitoring

57000 Series

- "Series connection" parallel operated (Kelvin/feed-through) rated for 100 Amps maximum continuous line current using #3 AWG conductors
- Optically coupled remote-monitoring port allows use of the optional Remote Supervisor (Cat. No. 52000-RS)

- Dual-stage fuse protection for primary & secondary surge suppression circuits
- Housed in NEMA-12 case with hinged cover, surface or flush mountable
- Noise rejection -20 to -40dB

Remote Supervisor

- For use with any Cat. No. 57000 or 52000 panel-mounted SPD
- Monitors up to 6 (series alarm daisy-chained) panel-mounted SPDs
- Single key-hole surface mounting using just 2 screws
- Annunciator light shows steady GREEN when monitored panel-mounted SPDs are normal, & FLASHING RED in case of protection failure or power interruption
- 75dB acoustic beep tone draws attention to a potential failure
- Jack provided for simple connection to input port via #20 to #22 two-conductor twisted pair, with a wire run up to 5,000 ft. in length

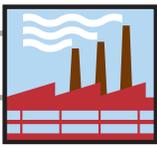

TESTING AND CODE COMPLIANCE

57000 Series

- UL 1449 Listed Edition 2.5 (File #E-146315)
- CSA Certified (File #LR-94773)
- 200 kA rated (M3S versions rated 100kA)
- Meets ANSI/IEEE C62.41 & C62.45 Categories A, B & C
- UL 945-V flame retardant thermoplastic (Front Bezel)
- Backed by a Limited 10-Year Warranty

MATERIAL CHARACTERISTICS

Operating Temperature: -10°C to 60°C
Storage Temperature: -20°C to 85°C

Remote Supervisor

DESCRIPTION	CAT. NO.
Remote Supervisor	52000-RS

SPECIFICATIONS AND FEATURES

52000 Series

- For installation at branch panels for protection in industrial & commercial facilities
- Hybrid suppression circuitry
- Features AC sine wave tracking and redundant protection
- Modular design allows easy replacement of modules without use of tools or the need to shut down the AC system
- Real-time diagnostics monitor power & suppression status for each phase & allow use of optional Remote Supervisor
- Dry contacts for remote monitoring
- Provides Normal Mode (phase to neutral) &

- Common Mode (neutral to ground) protection for WYE-configured 3-phase AC systems
- "Optional Series Connections" (Kelvin/feed-through) rated for 100 Amps maximum continuous line current using #3 AWG conductors
- Fuse protection for each module
- Housed in NEMA-12 case hinged cover, surface or flush mountable

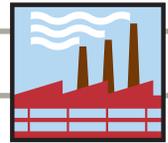

TESTING AND CODE COMPLIANCE

52000 Series

- UL 1449 Listed Edition 2.5 (File #E-146315)
- CSA Certified (File #LR-94773)
- Meets ANSI/IEEE C62.41 and 62.45 requirements for Categories A, B, C
- Backed by a Limited 10-Year Warranty

DESCRIPTION	CAT. NO. W/O SURGE COUNTER	CAT. NO. W/ SURGE COUNTER	VOLTAGE RATING 3Ø WYE (4-Wire & Ground)
7-Mode Panel Mount Type 1 Enclosure (4-Wired + Ground)	37120-007	—	120/208V AC
7-Mode Panel Mount w/NEMA Type 1 Enclosure (4-Wire + Ground)	37277-4X7	—	277/480V AC

SPECIFICATIONS AND FEATURES

47000 & 52000-7M3 Series

- Provides low-clamping, high surge current capability
- Verifies fail-safe conditions for MOVs under steady-state overvoltage
- 200 kA rated per mode
- Parallel wired to facilitate connection to any service ampacity
- Provides Normal Mode (phase to neutral) & Common Mode (neutral to ground) protection for WYE-configured 3-phase AC systems
- Available with NEMA Type 4X enclosure for outdoor/uncontrolled environments

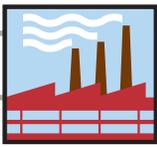

TESTING AND CODE COMPLIANCE

47000 & 52000-7M3 Series

- UL 1449 Listed Edition 2.5 (File #E-146315)
- CSA Certified (File #LR-94773)
- Meets ANSI/IEEE C62.41 and 62.45 requirements for Categories A, B, C
- Backed by a Limited 10-Year Warranty

MATERIAL CHARACTERISTICS

Operating Temperature: -10°C to 60°C
Storage Temperature: -20°C to 85°C

SPECIFICATIONS AND FEATURES

32000 & 42000 Series

- 32000 Series compatible with Decora Home Automation devices
- Dry contacts for remote monitoring (NO-C-NC)
- Provide multiple-phase surge protection in commercial & industrial environments
- Compact design permits close installation to panel & provides a short parallel suppression path
- 3-phase units are suitable for WYE & Delta AC systems
- Easily surface-mounted or flush mountable with use of flush collar accessory 42001 FMC
- Real-time diagnostics monitor power & surge suppression status of each phase by means of indicator light & acoustic alarm
- Equipped with normally open/normally closed dry contacts rated 5 Amps 120/240V AC via 3 color-coded AWG leads rated 600V AC for remote monitoring

TESTING AND CODE COMPLIANCE

32000 & 42000 Series

- UL 1449 Listed Edition 2.5 (File #E-146315)
- CSA Certified (File #LR-94773)
- Meets ANSI/IEEE C62.41 and 62.45 requirements for Categories A, B, C
- Backed by a Limited 10-Year Warranty

3400 and 3800 Series Low Voltage Communication

Surge Protection Modules

DESCRIPTION	CAT. NO.	RATING	APPLICATION
3-Pin Header Connector, Surface Mount	3803-DHP*	9.6V DC	For programmable logic devices and other computer-related data network products operating on "Blue Hose" networks
6-Pin Header Connector, Surface Mount	3803-485*	9.6C DC	For programmable logic other devices and computer related data network products operating on Allen Bradley DH-485 data networks
5-Pin Header Connector Surface & DIN-Rail Mount	3803-SPX	13.6V DC	For products operating on SERIPLEX control bus networks
DB-9 Connector, Surface & DIN-Rail Mount	3803-CAN	25V DC	For products operating on Honeywell control bus
3-Pin Header Connector, Surface Mount	3803-MOD	9.6V DC	For products operating on Modbus and Modbus Plus networks
3-Pin Header Connector, Surface Mount	3420-009*	9.6V DC	For products operating on 4-20ma Signal Loop networks, 9V DC
3-PIN Header Connector, Surface Mount	3420-035*	38.5V DC	For products operating on 4-20ma Signal Loop networks, 38V DC
4-Position Terminal Block Surface & DIN-rail Mount	3860-GEF	100V DC	For products operating on GE Fanuc Control Bus networks
RJ-45 Connector, Surface & DIN-Rail Mount	3861-ETH	19.8V DC	For products operating on Ethernet PLC ports and CAT 3 networks
BNC Connector, Surface & DIN-Rail Mount	3862-CON	9.18V DC	For ControlNet networks
5-Pin Header Connector Surface & DIN-Rail Mount	3863-DEV	19.8V DC	For DeviceNet networks
Hospital Grade Din-Rail Mountable Surge Protected Duplex Receptacle w/LED & Audible Alarm	3880-DIN	120V	For plug-in surge protection in equipment cabinets

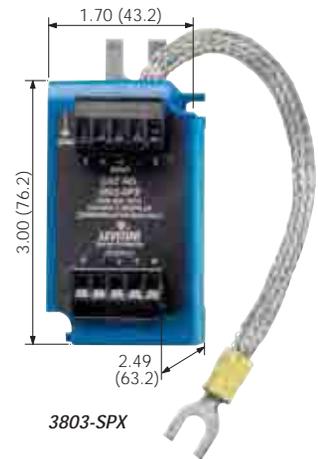

Surge Counter: 51000-SMC

DESCRIPTION	CAT. NO.
Plug-in Surge Counter	51000-SMC

*The Rockwell Automation Encompass Program references complementary products from third party manufacturers committed to providing quality products and services that enhance the Rockwell Automation Solution products and solve the industrial automation needs of mutual customers.

3803-485

3803-SPX

3880-DIN

51000-SMC

SPECIFICATIONS AND FEATURES

3400 & 3800 Series

- Designed for mounting in standard equipment cabinets
- For use on Allen Bradley & "Blue Hose" devices
- Two options for ground connection
- Low clamping voltage
- Withstands surges at programmable logic devices in harsh electromagnetic or geographic areas
- Provide transient voltage surge suppression for a selection of programmable logic devices & other computer-related data network products

51000-SMC Surge Counter

- Plug-in design provides fast, simple way to determine if surges are present
- 3 settings indicate different sensitivity thresholds based on IEEE C62.41 impulse & ringwave waveforms
- Key operated to prevent tampering
- Excellent tool for determining if you need surge protection in an office environment.

TESTING AND CODE COMPLIANCE

3400 & 3800 Series

- UL 497B Listed (#E175161)
- CSA Certified (#LR-94773)
- Meets ANSI/IEEE C-62.41 requirements
- Backed by a Limited 10-Year Warranty

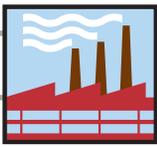

51000-SMC

- Meets UL Standard 1436

MATERIAL CHARACTERISTICS

Operating Temperature: -40°C to 60°C (3803-DHP, 3803-485, 3803-MOD, 3420-009, 3420-035); -10°C to 85°C (3803-SPX, 3803-CAN, 3860 Series)

Storage Temperature: -40°C to 90°C (3803-DHP, 3803-485, 3803-MOD, 3420-009, 3420-035); -20°C to 85°C (3803-SPX, 3803-CAN, 3860 Series)

*UL 1449 Suppressed Voltage Ratings (SVR) Assigned at 6" length with 6k/500A per UL1449 (2nd Ed.)
†Maximum Continuous Operating Voltage.

SPECIFICATIONS AND FEATURES

- 3800 Series**
- MOV-based suppression circuitry provides optimum clamping
 - Provides Normal Mode protection for line-to-neutral & common mode; line-to-ground & neutral-to-ground
 - Noise rejection @ 5kHz-5MHz: -35db
 - 3800: 135V (MCOV); 3840: 250V (MCOV)
 - 3800-DIN, 3800-OWM: Terminal block accepts 22 AWG to 12 AWG conductors
 - Consult factory on additional ratings on 3812, 3824 & 3848

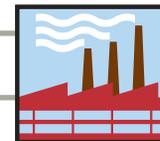

- 3880-DIN & 3801-DIN**
- Ideal for mounting in equipment cabinets where convenient plugin surge protection is desired
 - Green LED indicates surge protection loss
 - Audible alarm w/integral disable (quiet) switch
 - Power continues to be provided to loads in the event of protection loss
 - Terminal Block accepts #22-#12 AWG conductors

TESTING AND CODE COMPLIANCE

- UL 1449 Listed Edition 2.5(E146315/DC-E175161)
- CSA Certified (#LR-94773)
- Meets ANSI/IEEE C-62.41 & C-62.45 Categories A, B & C (B & C ONLY for Cat Nos. 3880-DIN & 3801-DIN)
- Backed by a Limited 10-Year Warranty

General Data

SPECIFICATION	DATA APPLICABLE TO ALL
Rated line voltage	120V (VRMS)
Max. continuous operating voltage	150V
Max. single-pulse transient current (8x20µs, Amps peak)	24000A (L-N) 12000A (L-G) 12000A (N-G)
Rated single-pulse transient energy (10x1000µs, impulse)	320 Joules
Noise rejection @ 5kHz-5MHz	-35dB

Clamping Performance

SPECIFICATION	DATA APPLICABLE TO ALL
UL Standard 1449 (2nd Edition) permanently-wired test (8x20µs, 3000A); CSA and NOM Certified	(L-N): 400V Peak (L-G): 400V Peak (N-G): 400V Peak

Note: For Acenti Sixplex and Duplex Surge Protective Receptacles, see page A5

SPECIFICATIONS AND FEATURES

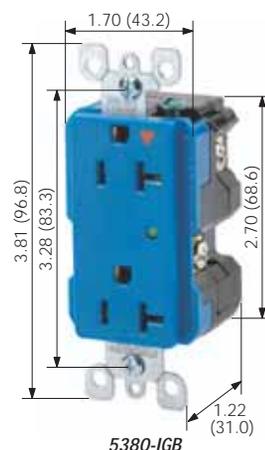

- Provides hard-wired point-of use surge protection for electronic equipment in industrial, commercial and residential applications
- 3-Level surge protection for phase to neutral, phase to ground and neutral to ground
- All receptacles are back and side wired
- Hospital Grade versions (indicated by green dot on receptacle face) are suitable for high-abuse health care, industrial and commercial applications
- Isolated Ground versions (indicated by orange color or orange triangle on receptacle face) provide a pure ground path for use with isolated grounding systems
- Monitor/Indicator LED is ON continuously when protection is active and OFF when protection circuit is deactivated due to excessive transients
- All Hospital Grade devices and Cat. Nos. 7280 and 7380 Industrial devices also provide an audible tone alert that sounds if protection is lost
- EMI/RFI filtering
- Decora styling complements any interior and coordinates with Leviton's popular line of Decora devices

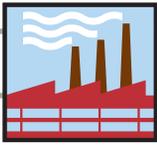

TESTING AND CODE COMPLIANCE

- UL Listed Standard 1449 (Edition 2.5)
- CSA certified
- Meets ANSI/IEEE C62.41 standards for both Categories A & B
- All SPD receptacles are backed by a Limited 10-Year Warranty

†Portable boxes are not UL Listed. UL Listing does not apply when Four-In-One receptacles are used with portable boxes for extension cord applications.

SPECIFICATIONS AND FEATURES

Four-In-One Surge Protection Receptacles

- Replaces standard duplex receptacle with four surge-protected receptacles
- Ideal for locations where surge-protected receptacles are needed and plug-in devices can't be used
- 3-Level surge protection for phase to neutral, phase to ground and neutral to ground
- Hospital Grade versions (indicated by green dot on receptacle face) are suitable for high-abuse health care, industrial and commercial applications
- Isolated Ground versions (indicated by orange color or orange triangle on receptacle face) provide a pure ground path for use with isolated grounding systems

- Monitor/Indicator LED is ON continuously when protection is active and OFF when protection circuit is deactivated due to excessive transients

Four-In-One Adapter Plates & Portable Box

- Adapter plates not required with most standard wallboxes; provides popular "flush fit" look for any installation
- Portable Box designed for all Four-In-One Receptacles (not UL Listed for extension cord applications)
- Four-In-One Portable Box accepts #16/3 AWG Type SJ to #12/3 AWG Type SO COPPER Only

TESTING AND CODE COMPLIANCE

- UL 1449 Edition 2.5
- Meets ANSI/IEEE C-62.41 & C-62.45 standards for both Categories A & B requirements
- CSA Certified (#152105)
- Backed by a Limited 10-Year Warranty

Four-In-One Adapter Plates

- UL Listed (File #E-13397 – Cat. No. 3254)

*COLOR

Colors available as listed above. For IG devices, Basic Cat. No. denotes Orange device. Add suffix to basic catalog numbers as follows: Ivory (-I), White (-W), Gray (-GY), Blue (-B, -BU or -BLU), Black (-E), Orange (-OR), Red (-R), Yellow (-Y)

SPECIFICATIONS AND FEATURES

Plug Strips

- Ground pin to outside for more transformer configurations
- Diagnostic LEDs for surge protection, polarity and ground verification
- Resettable circuit breaker
- Power line carrier compatible
- Audible alarm indicates loss of protection
- Four non-skid rubber feet on the bottom

Computer Grade Plug Strips

- Provides excellent surge suppression & EMI/RFI noise attenuation for microprocessor-driven electronic equipment
- Three-stage protection: line-to-neutral, line-to-ground, neutral-to-ground
- Built-in overload circuit-breaker switch with reset button
- Indicator lights confirm unit is operating & properly grounded
- Clamping voltage: 330V all modes

Plug-Ins

- Provide excellent surge suppression & EMI/RFI noise attenuation for microprocessor-driven electronic equipment
- Indicator lights confirm unit is operating & properly grounded
- Audible alarm indicates protection is no longer active
- Clamping voltage: 330V all modes

General Data

SPECIFICATION	5500-190, 5505-190, 5500-15N, 5500-15L, 5500-NL	5500-192, 5500-20N, 5500-20L, 5500-2NL
Rated line voltage (VRMS)	120V	120V
Load current	15A	20A
Max. continuous operating voltage	135V	135V
Operating frequency range	50, 60Hz	50, 60 Hz

Performance Data

SPECIFICATION	5500 SERIES	5505 SERIES
Max. single-pulse transient current (8x20μs, Amps peak)	52kA	10kA
Rated single-pulse transient energy (10x1000μs, Joules)	1440 Joules	540 Joules
Noise Rejection @ 100kHz – 30MHz	-5 to -40dB	-5 to -40dB
UL 1449 (2nd Ed) Impulse 6kV/500A	330/330/330	400/400/400

SPECIFICATIONS AND FEATURES

19" Rack Mount PDU's with Surge Protection

- Mounts on 19" equipment racks to provide point-of-use surge suppression for electronic equipment
- Clamping profile tightly tracks AC sine wave
- 6 protected duplex receptacles-5 in back, 1 in front
- Available with easy-access ON/OFF rocker-style switch, or without switch to avoid unnecessary equipment switching
- Resettable circuit breaker protects against over-loading & power supply failure
- Provided with 12-ft line cord with either NEMA 5-15P, L5-15P, 5-20P or L5-20P plug

TESTING AND CODE COMPLIANCE

19" Rack Mount PDU's with Surge Protection

- UL Recognized Component tested to UL 1449 standards Edition 2.5
- Covered by a Lifetime Limited Downline Warranty

MATERIAL CHARACTERISTICS

Operating Temperature: -10°C to 60°C
Storage Temperature: -35°C to 60°C

E (1.75"L x 17.5"W x 4.5"D)

F (30"L x 1.8"W x 1.75"D)

SPECIFICATIONS AND FEATURES

4505 Series PDUs

- Mounts horizontally on 19" racks or cabinets
- 10 receptacles
- Resettable circuit breaker protects against overloading
- Most models available with locking plug
- 3-Year product warranty

P1000 Series

- Available in vertical zero-U or horizontal rack-mount styles
- Available in 120V or 208V options
- LED indicators for power and grounding/polarity
- All models feature circuit breaker protection to prevent current overloads

- 208V PDUs come with 2-pole circuit breakers for added safety
- 18AWG cold-rolled steel enclosure powder coated black
- Included mounting hardware allows attachment to most common cabinets and racks
- 120V/30A PDUs and all 208V PDUs come with DP-rated cords
- 3-Year product warranty

TESTING AND CODE COMPLIANCE

4505 Series

- Meets UL Standard 1363

P1000 Series

- Certified to UL 1363 or UL 60950-1, RoHS compliant

C & D (1.75"L x 17.25"W x 5"D)

SPECIFICATIONS AND FEATURES

Metered Series PDUs

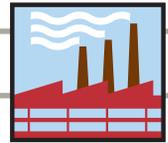

- LED display provides visible warning when current draw is close to maximum capacity thus avoiding circuit overload
- True RMS current monitoring prevents overloads in high-density computing environments
- Included mounting hardware allows attachment to most common cabinets and racks
- Available in vertical zero-u and horizontal rack-mount styles
- Available in 120V and 208V options
- A wide variety of input and output options ensures the flexibility to adapt to varying power requirements

TESTING AND CODE COMPLIANCE

- Meets the UL 60950-1 requirements for branch circuit protection

C & D (1.75"L x 17"W x 7"D)

A & B (63.5"L x 1.75"W x 2.25"D)

SPECIFICATIONS AND FEATURES

Switched Series PDUs

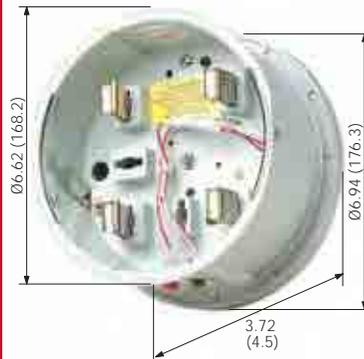

- Remote individual outlet management allows shut down of unused outlets and remote rebooting of attached equipment
- Full featured network management provided via Web, SNMP, and Telnet allows remote access, configuration and management
- Power sequencing prevents in-rush current and avoids circuit overload
- Provides SNMP alerts when power or environmental conditions exceed thresholds
- Firmware is easily upgraded via network download to installed units for future product enhancements
- External probe available separately for environmental monitoring

*MOV's rated at 150V. UL assigns a derated MCOV of 132V for surge arrester applications

54175-SSA

55175-ASA

SPECIFICATIONS AND FEATURES

Meter Socket Surge Adapter

- Single 53mm MOV per line design (Line 1-Neutral, Line 2-Neutral) provides a higher energy capacity than smaller size (20mm) MOV's
- Superior to multiple small MOV configurations where the protection is only as good as the weakest MOV in the chain
- Rated for 65,000 peak amps maximum surge current
- Nominal clamping voltage per line: 800V
- Diagnostic LED's: Green indicates surge protection is active, Red indicates protection is no longer active

- Designed for 120/240 volt single-phase ringless or ring-type meters
- Rugged housing constructed of high-impact, non-conductive fiberglass-reinforced polycarbonate
- Available in popular jaw configurations, featuring spring-loaded, high-pressure copper-plated contacts for maximum conductivity

Secondary Surge Arresters

- Units come with 18" pigtail leads
- Constructed of high-impact, non-conductive, fiberglass-reinforced polycarbonate
- Compact design for easy installation

TESTING AND CODE COMPLIANCE

- Surge arrester performance tested to IEEE C62.11 (10,000 amps/4 x 10 µs), IEEE C62.11, C62.41 & C62.45 Category C Standards
- UL Listed Surge Arrester (465V Discharge voltage @ 1500 amps) (#E146315)
- CSA Certified (#LR94773)
- Backed by a Limited 10-Year Warranty

MATERIAL CHARACTERISTICS

Operating Temperature: -10°C to 60°C
Storage Temperature: -20°C to 85°C

SPECIFICATIONS AND FEATURES

General Purpose Plug-Ins

- RFI filtering
- 3-stage protection: hot-to-neutral, hot-to-ground, neutral-to-ground
- Built-in fuse protection
- Monitor lights ON indicates circuit is powered and protected

51110 Series

- 51110-PTC provides protection for 2 telco lines and 2 coax feeds
- 51110-CT8 provides protection for 4 telco lines and 2 coax feeds
- Compatible with Decora Home Controls (see Section B)

51120 Series

- Standard J-Box metal enclosures with pre-punched knockouts; 51120-3R features NEMA 3R enclosure
- Compatible with Decora Home Controls (see Section B)

TESTING AND CODE COMPLIANCE

- UL Listed 1449 Edition 2.5
- Meets ANSI/IEEE C62.41 & C62.45 requirements for Categories A, B & C
- Backed by a Limited 10-Year Warranty
- 51110 Series: CUL/US Certified
- 51120 Series: UL Listed and CSA Certified

MODULAR SURGE PROTECTION STRIPS

Residential Grade Surge Protection Devices

3950-BKT

Snap-In Surge Protection Modules

Snap-In Modules for Structured Media Enclosure Surge Module Bracket

Leviton's snap-in surge protective modules provide customized surge protection for all low-voltage communication and data lines in the Structured Media Enclosure. All Series 5950 modules can snap-in to the Cat. No. 3950-BKT Surge Module Bracket. The bracket, allows you to add and change modules to fit specific protection needs. Choose from a selection of protection modules for Digital Satellite Systems, Ethernet systems, Cable TV, Telephone/Fax/Modem and DSL/ADSL equipment. All devices attached to the modules are covered under the Leviton \$50,000 Connected Equipment Warranty.

Snap-In Modules

SPECIFICATION	CAT. NO.
Satellite System/Cable TV Protection Module—4 Standard F-connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec	Beige—5951-SA Gray—5951-SAT Ice—5951-SAC
Ethernet Protection Module (10 Base-T Applications)—Two RJ45 connectors to protect two pair of transmit/receive lines. 10-Amp automatic Resettable PTC fuses. Max. operating voltage: 16.6V DC. Breakdown Voltage Range: 2.62-19.2 Volts/Sec	Beige—5952-ET Gray—5952-ETH Ice—5952-ETC
Cable TV System Protection Module—Two Standard F-type connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec	Beige—5953-PC Gray—5953-PCG Ice—5953-PCC
Telephone/Fax/Modem Protection Module—Three RJ11, 4-wire/2-pair connectors. 3-Position splitter allows for connection to a common line. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec	Beige—5954-AT4 Gray—5954-PT4 Ice—5954-CT4
DSL/ADSL Subscriber Equipment Protection Module—Three RJ11, 4-wire/2pair connectors. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec	Beige—5955-DT Gray—5955-DTG Ice—5955-DTC
Cat. 5 Ethernet Module Two RJ45 Connectors with Ground Pin for Ethernet - Cat. 5	Beige—5957-0CS Grey—5957-C5G
Two Line Telephone Module One Input, One Output RJ11 Connector for 4-Wire POTS	Beige—5958-AT4 Grey—5958-PT4
Four Line Telephone Module One Input, One Output RJ45 Connector for 8-Wire POTS	Beige—5959-BT8 Grey—5959-GT8
Surge Module Bracket	3950-BKT

On-Line, Pure Sine Wave	1000VA / 700W	Rack-mount, 1U	(6) 5-15R	5 Min	11 Min	U1000-DRM

SPECIFICATIONS AND FEATURES

Sine Series Uninterruptible Power Supply

- Line-Interactive technology provides rapid transfer time (<4ms) and voltage regulation for minor sags and swells
- True sine-wave output less than 3% THD
- Selectable output voltage: 100V, 110V, 115V, 120V, or 127V
- Advanced Battery Management (ABM) extends battery life by up to 50%
- Included UPSMON software provides monitoring and control capability
- Energy-saving sleep mode reduces power consumption
- AC Surge Protection and Noise Filtering
- User-replaceable, sealed, maintenance-free lead acid batteries

On-Line Series Uninterruptible Power Supply

- On-Line Double Conversion technology with zero transfer time
- Provides true sine-wave output at less than 3% THD
- LED Display gives "Minutes Remaining" indicator based on actual load
- Selectable output voltage: 100V, 110V, 115V, 120V or 127V
- Advanced Battery Management (ABM) extends battery life by up to 50%
- Optional Extended Battery Packs provide additional back up time
- Included UPSMON software provides monitoring and control capability
- Energy-saving sleep mode reduces power consumption
- AC Surge Protection and Noise Filtering

- User-replaceable, sealed, maintenance-free lead acid batteries
- Includes interface for Emergency Power Off (EPO)

TESTING AND CODE COMPLIANCE

Sine Series Uninterruptible Power Supply

- UL 1778 & cUL Listed
- FCC compliant
- ISO 9001 Certified
- 2-Year Limited Product Warranty (covers parts, labor, and battery)
- 2-Year Limited Connected-Equipment Warranty

LAMPHOLDERS

A VARIETY OF INCANDESCENT AND FLUORESCENT STYLES IN A RANGE OF RATINGS AND MATERIALS

Leviton offers a complete selection of outlet box, incandescent, fluorescent and specialty lampholders, in various ratings and materials. The following pages offer a variety of types and styles.

PORCELAIN MEDIUM BASE LAMPHOLDER

With a choice of mounting and wiring options, these lampholders are ideal for a wide range of commercial and residential incandescent fixtures.

Cat. No. 8101 shown

FLUORESCENT LAMPHOLDER FOR MEDIUM BI-PIN LAMPS

Features Lamp-Lock design for quick relamping. Models dedicated for energy-efficient T-8 lamps available.

Cat. No. 13653-WP shown

COMPACT FLUORESCENT LAMPHOLDERS

Available for all popular 2-pin and 4-pin lamp bases, with a variety of mounting options. Color-coded for easy wattage identification.

Cat. No. 26725-426 shown

OUTLET BOX LAMPHOLDER

Available in keyless, pull chain and outlet models, all featuring easy twist-lock mounting.

Cat. No. 8827-CW4 shown

LONG TWIN-TUBE 2G11 BASE LAMPHOLDERS

Choice of mounting and wiring options to reduce fixture assembly time.

Cat. No. 13453 shown

CANDELABRA BASE LAMPHOLDER

Keyless lampholders for chandeliers and other fixtures, featuring various hickeys or double snap-in spring clips.

Cat. No. 10014-800 shown

PORCELAIN MOGUL BASE LAMPHOLDER

A complete selection of high-quality porcelain moguls with leads or screw terminals.

Pulse-rated models available. Cat. No. 8756 shown

METAL SHELL LAMPHOLDER

Medium base, electrolier lampholders available in a variety of attractive finishes. Cat. No. 9346-PG shown

Bottom Snap-In CFLs for 18–20 Ga Panels
26725-426 Shown

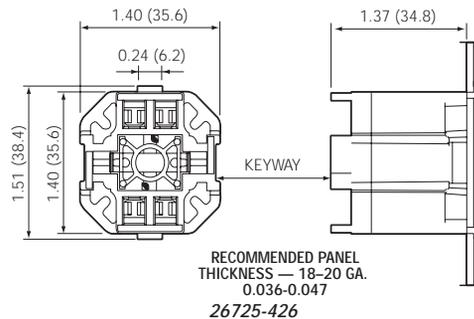

RECOMMENDED PANEL OPENING

SPECIFICATIONS AND FEATURES

- “Smart” CFL Lampholders are color-coded for easy wattage identification
- Bottom Snap-In versions for easier panel assembly available for 16 Ga. and 18–20 Ga. panels
- All 4-pin lampholders have internal rejection feature that prevents insertion of 2-pin lamps
- Metal-spring lamp-retainer clip provides positive lamp retention
- Two wiring ports per contact speed harness wiring
- Wire-routing options for top or bottom side of mounting panel for easier assembly
- Bodies are white thermoplastic (with color-coding as indicated)
- Quick-connect push-in wiring terminals accept No. 18 AWG solid or twisted-and-overtinned leads, stripped 3/8 inch

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

15 AMP 125 and 250V • 20 AMP 125 and 250V

Industrial Grade Straight Blade Receptacles

Back and Side Wired (Basic Cat. No. Omits Blown Device*)

DESCRIPTION	CAT. NO./COLOR 15A/125V	CAT. NO./COLOR 15A/250V	CAT. NO./COLOR 20A/125V	CAT. NO./COLOR 20A/250V

For complete wallplate selection, see Section E.

SPECIFICATIONS AND FEATURES:

- **Back & Side Wired Duplex**
- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely fasten face
- Single-piece brass mounting strap on LEVSPEC® devices, multi-piece steel strap on other devices
- Large, impervious, brass "T" contacts for superior contact and conductivity
- Back-and-side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Agion™ finish to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back-wiring for superior contact and conductivity

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399) (UL Federal Specification WC-598)

COLOR:

Basic Cat. Nos. shown above denote Brass device, except for Isolated Ground (-IG) devices. Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Brown (-B) for IG devices only, add (-B), Almond (-A), Light Almond (-T), Gray (-G or -GY), Black (-E), Red (-R) and Blue (-B/U) for IG devices only, add (-BIG)

ADAPTERS

Residential Grade Devices

LEVITON OFFERS A VARIETY OF ELECTRICAL ACCESSORIES FOR RESIDENTIAL USE, INCLUDING TAPS, SURFACE OUTLETS, ADAPTERS, NIGHT LIGHTS AND SAFETY ITEMS USED FOR CHILD PROTECTION.

Switch Tap

13 AMP 125V 2-Pole 2-Wire Non-Grounding

DESCRIPTION	CAT. NO.	COLOR	NEMA CONFIG.
Plug-In Switch Tap	1469	I, W	1-15R

1469-W

69-W

607-W

698-W

1403-W

Plug-In Outlet Adapters

15 AMP 125V 2-Pole 2-Wire Non-Grounding

DESCRIPTION	CAT. NO.	COLOR	NEMA CONFIG.
Single-to-Triple 3 round or flat plugs accepted	63	I, W	1-15R
Single-to-Triple Right Angle, 3 round or flat plugs accepted★	65	I, W	
Single-to-Triple, Swivel, 3 flat plugs accepted	69	I, W	
Cube Tap, Vinyl, 3 round or flat plugs accepted	531	I, W	

15 AMP 125V 2-Pole 3-Wire Grounding

DESCRIPTION	CAT. NO.	COLOR	NEMA CONFIG.
3-Wire, Grounding Duplex-to-Six, 6 small or 4 large plugs accepted	49686	I, W	5-15R
3-Wire, Grounding Single-to-Triple, 3 straight or angle plugs acceptedH	697	I, W	
3-Wire, Grounding Single-to-Triple, Vinyl, 3 straight or angle plugs accepted	699	Orange only	
3-Wire, Grounding Single-to-Triple, 3 straight plugs accepted	694	Orange, Green	
Triple Cube Adapter	692	I, W	

15 AMP 125V 2-Pole 2-Wire to 2-Pole 3-Wire Grounding

DESCRIPTION	CAT. NO.	COLOR	NEMA CONFIG.
Adapter, 2-Wire to Grounding, 1 straight or 1 angle plug accepted★	274	Gray	5-15R
2-Wire to Grounding, 3 straight plugs accepted★	698	I, W	

Note: All Leviton #274 and #698 adapters use the outlet wallplate screws for grounding.

Medium Base Lampholder Outlet Adapters

660 WATT 125V 2-Pole 2-Wire

DESCRIPTION	CAT. NO.	COLOR	NEMA CONFIG.
Outlet-to-Lampholder★	61	I, W	1-15R
Lampholder-to-Outlet	125	I, W	
Keyless Lampholder and 2 Outlets	1403	I, W, E	
Single Lampholder-to-Twin Lampholder (660W-250V)	128	I	

660 WATT 125V Max. Total 2-Pole 2-Wire

DESCRIPTION	CAT. NO.	COLOR	NEMA CONFIG.
Pull Chain Lampholder and 2 Outlets. Pull chain controls lamp socket ONLY. Outlet continuously live.	1406	I, W, E	1-15R

CSA Certified except where indicated by★

SPECIFICATIONS AND FEATURES

Plug-In Switch

- Provides ON/OFF switching at outlet location

Plug-In Outlet Adapters

- Convenient expansion of outlet capacity

TESTING AND CODE COMPLIANCE

Leviton's Energy Smart Living Program

Leviton offers a broad range of energy-efficient lighting devices for homes and businesses. From dimmers, timers and motion sensors to night-lights and more, Leviton has the electrical products you need to save energy and conserve resources. Look for the Energy Smart Living logo, your assurance of an environmentally friendly lighting product. For more information, visit our website at www.leviton.com.

DESCRIPTION	CAT.NO	COLOR
Electro-Luminescent Guide Light 1 pack .03W 115V	16509-1PK	W
Electro-Luminescent Guide Light 2 pack .03W 115V	16509-2PK	W

Utility Lights

DESCRIPTION	CAT.NO	COLOR
6" Battery-Operated Fluorescent Light—With 4W replaceable bulb. Requires 4 AA batteries (not included). 6V DC Jack for use with AC/DC adapter (Sold separately)	6511-6	(White base only)
6" Battery-Operated Closet Utility Light with ON/OFF switch (2 pack)—Requires 3 AA batteries (not included)	6516-2PK	(White base only)

Child Protection Devices

Outlet Cover Night Light .25 WATT

DESCRIPTION	CAT.NO	COLOR
Cool neon light on top outlet, cover on bottom outlet	48500	(White base only)

Outlet Caps

DESCRIPTION	CAT.NO	COLOR
Outlet Caps—12 Pack	12777	White only

Tamper Resistant Receptacles 15 AMP 125V 2-Pole 3-Wire Grounding

DESCRIPTION	CAT. NO.	COLOR	NEMA CONFIG.
Tamper Resistant Receptacle	5321	I, W	5-15R

Electrical Accessories

DESCRIPTION	CAT.NO	COLOR
Insulated Staples— ⁵ / ₈ " long, for use with 18/2 or smaller cord (40 Pieces)	12533	White
Plastic Staples—for ¹ / ₂ " 14/2 & 12/2 NM Cable (50 Pieces)	12536	White
Wiring Fasteners—Includes ¹ / ₂ " Plastic Staples, Coax Cable Fasteners and ¹ / ₂ " X 1" Metal Staples (47 Mixed Pieces)	12537	White/Black/ Metal Mix
NM Cable Fittings— ³ / ₈ " dia. for 14/2, 14/3 & 12/3 NM Cable (4 Pack)	12538	—
8" Cable Ties—Holds wires, cables, bundles and hoses; comes in assorted lengths and colors	12540	White, BL (Black) NE (Neon)

SPECIFICATIONS AND FEATURES

- Guide Lights**
 - Energy-efficient with soft, comforting light
 - Compact Neon model keeps second outlet free
 - No bulb to replace in LED models
- Utility Lights**
 - Battery operation adds light without wiring anywhere extra light is needed
 - Includes adhesives for easy, anywhere mounting
- Outlet Caps**
 - Insert into unused outlets to serve as a barrier
 - Can be easily removed by adults when needed for lights and appliances
- Tamper Resistant Receptacle**
 - Exclusive design helps prevent insertion of anything but a properly rated plug
 - Floating shutters behind outlet faces block clear access to energized contacts

TESTING AND CODE COMPLIANCE

- UL Listed (File #E-84313 – Cat. Nos. 48500; File #E-7416 – Cat. No. 12777; File #E-13399 – Cat. No. 5321)
- CSA Certified (File #LR-64317 – Cat. No. 48500; File #LR-406 – Cat. No. 5321)
- NOM Certified (#057)
- Backed by a Limited Two-Year Warranty

SPECIFICATIONS AND FEATURES

Decorative Wood and Metal Wallplates

- Genuine wood available in Oak, Cherry, Whitewash and Unfinished
- Metal available in Antique Brass, Satin Chrome White Vinyl and Stepped Brass
- Sturdy impact-resistant construction for long-lasting performance
- Modern design with oversized silhouette for complete coverage
- Clean attractive appearance
- Smooth surface is easy to keep clean
- Mounting screws included—Metal plates feature matching-color screws

TABLE OF CONTENTS with Quick Reference Index

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.

15 AMP 125 and 250V - 20 AMP 125 and 250V

Industrial Grade Straight Blade Receptacles

For complete wallplate selection, see Section E.

SPECIFICATIONS AND FEATURES

Back & Side Wired Duplex

- Impact-resistant thermoplastic nylon cover and body
- Smooth face does not collect dirt
- Four corner latches securely hold face
- Single-piece brass mounting strap on LEVSPEC[®] devices, multi-piece steel strap on other devices
- Large, wipe-wipe, brass "T" contacts for superior contact and conductivity
- Back-and-side-wiring options
- Brass terminal screws to reduce conductor oxidation
- Break-off tabs for easy two-circuit conversion
- Azlon barrier to prevent accidental contact between terminal screw heads and metal box
- Exclusive V-shaped, serrated back wiring clips for superior contact and conductivity

TESTING AND CODE COMPLIANCE

- UL Listed 498 (UL File #13399) (UL Federal Specification WC-598)

- Meets NEMA WD-1, 6, and ANSI standards
- Backed by a Limited 10-Year Warranty
- SPEC[®] ASS devices backed by a Limited 2-Year Warranty

***COLOR:**

Basic Cat. Nos. shown above denote Brown device, except for Isolated Ground (-IG) devices. Basic Cat. No. denotes Orange. Isolated Ground Receptacle is distinguished by an orange triangle on its face. For other color selections, add suffix to the catalog number as follows: Ivory (-I), White (-W), Brown (for IG devices only, add -B), Almond (-A), Light Almond (-T), Gray (-G or -GY), Black (-E), Red (-R) and Blue (-BU, for IG devices only, add -BIG)

INDUSTRY STANDARDS, RELEVANT DEFINITIONS, PERTINENT PRODUCT DATA, REPRESENTATIVE DIMENSIONAL DRAWINGS AND GENERAL PRODUCT REFERENCES ARE INCLUDED IN THIS SECTION.

List of Abbreviations Used In Leviton Catalogs

ANSI

American National Standards Institute, Inc.
11 West 42nd St., New York, NY 10036

An independent organization that identifies industrial and public requirements for national consensus standards and coordinates and manages their development, resolves national standards problems, and ensures effective participation in international standardization.

Various U.S. Government Agencies often adopt ANSI Standards. For example, the Department of Defense has made mandatory the use of ANSI Standard Y32.9-1972, "Graphic Symbols for Electrical Wiring and Layout Diagrams used in Architecture and Building Construction." Such Standards are often developed by specialized technical societies for ANSI. The Standard referred to above was prepared by the Institute of Electrical and Electronics Engineers (IEEE) and the American Society of Mechanical Engineers (ASME).

GSA

General Services Administration Federal Supply Service
Crystal Mall Bldg. 4, Washington, D.C. 20406

The U.S. Government administration responsible for the approval of Federal Specifications used in the purchase of products by all Federal Agencies.

The two most relevant Federal Specifications for Electrical Wiring Devices are:

W-C-596, for Electrical Power Connector, Plug, Receptacle and Cable Outlet

W-S-896, for Toggle and Lock, Flush Mounted Switches

Leviton devices that comply with these specifications, as verified by Underwriters Laboratories Inc., are also listed in this catalog.

NEC

National Electrical Code
Published by the NFPA (see listing)

The purpose of the Code is the practical safeguarding of persons and property from hazards arising from the use of electricity. This Code is sponsored by NFPA under the auspices of ANSI. It is revised every three years. OSHA (see listing) has adopted the NEC as the code to follow in order to comply with OSHA requirements.

NEMA

National Electrical Manufacturers Association
2101 L St. NW, Washington, D.C. 20003

An organization of electrical manufacturers that establishes standards for manufacture and tests for performance and reliability of electrical products. NEMA tests are often the basis or prerequisite for approval by the Federal Government and/or by Underwriter's Laboratories, Inc.

NFPA

National Fire Protection Association
Battery March Park, Quincy, MA 02269

An organization devoted to promoting the science and improving the methods of Fire Protection. Membership is open to anyone interested. Every three years, the NFPA produces a new edition of the NEC (see listing). The NFPA also provides many other useful publications dealing with fire prevention.

OSHA

Occupational Safety and Health Administration
(U.S. Department of Labor), 200 Constitution Ave. NW,
Washington D.C. 20210 (plus regional offices)

That part of the U.S. Department of Labor responsible for assuring that employers provide safe and healthful working conditions and equipment for employees, and that employees properly avail themselves of these conditions.

In addition to specific regulations published in the Federal Register, OSHA has also adopted the National Electrical Code in part for existing installations and equipment and completely for new construction.

Note: OSHA does not approve products. Compliance with OSHA regulations is contingent on two factors: The approval or listing of the product by an authorized testing laboratory, such as UL (see listing), and the proper installation and/or use of the product in accordance with OSHA guidelines.

UL

Underwriters Laboratories Inc.
Northbrook, IL; Melville, NY; Santa Clara, CA

"An independent, not-for-profit organization testing for public safety." Tests by UL are the basis for acceptance by various government agencies. Listing by UL denotes initial testing and periodic retesting to assure continuing conformance to standards.

NOM

Norma Oficial Mexicana
(Mexican Official Standard) SECOFI
Avenida Puente de Tecamachalco #6
Col. Lomas de Tecamachalco 53950
Naucalpan, Edomex Mexico

Industry Standards for Electrical Wiring Devices

National Electrical Code Requirements for Wiring Devices

National Electrical Code NFPA No. 70-1996 (Selected Articles)

ARTICLE 90 — Introduction

ARTICLE 100 — Definitions

ARTICLE 110 — Requirements for Electrical Installations

- 110-18 Arcing Parts
- 110-21 Marking

ARTICLE 200 — Use and Identification of Grounded Conductors

- 200-9 Means of Identification of Terminals
- 200-10 Identification of Terminals

ARTICLE 210 — Branch Circuits

- 210-4 Multiwire Branch Circuits
- 210-6 Branch Circuit Voltage Limitations
- 210-7 Receptacles and Cord Connectors
- 210-8 Ground Fault Protection for Personnel
- 210-21 Outlet Devices
- 210-24 Branch Circuit Requirements
- 210-50 Required Outlets, General
- 210-52 Dwelling Unit Receptacle Outlets
- 210-60 Guest Rooms
- 210-63 Rooftop Heating, Air Conditioning and Refrigeration Equipment Outlet
- 210-70 Lighting Outlets Required

ARTICLE 220 — Branch Circuit, Feeder and Service Calculations

- 220-4 Branch Circuits Required

ARTICLE 250 — Grounding

- 250-45 Equipment Connected by Cord and Plug
- 250-50 Equipment Grounding Conductor Connections
- 250-51 Effective Grounding Path
- 250-59 Cord and Plug Connected Equipment
- 250-74 Connecting Receptacle Grounding Terminal to Box

ARTICLE 310 — Conductors for General Wiring

- 310-15 Ampacities

ARTICLE 380 — Switches

- 380-1 Scope
- 380-2 Switch Connections
- 380-8 Accessibility and Grouping
- 380-9 Faceplates for Flush-Mounted Snap Switches
- 380-14 Rating and Use of Snap Switches
- 380-15 Marking

ARTICLE 410 — Lighting Fixtures, Lampholders, Lamps, Receptacles

- 410-29 Cord-Connected Showcases
- 410-56 Receptacles, Cord Connectors and Attachment Plugs
- 410-57 Receptacles in Damp or Wet Locations
- 410-58 Grounding-Type Receptacles, Adapters, Cord Connectors and Attachment Plugs

ARTICLE 422 — Appliances

- 422-22 Disconnection of Cord- and Plug-Connected Appliances

ARTICLE 511 — Commercial Garages, Repair and Storage

- 511-10 Ground Fault Circuit Interrupter Protection for Personnel

ARTICLE 517 — Health Care Facilities

- 517-3 Definitions
- 517-12 Wiring Methods
- 517-13 Grounding of Receptacles and Fixed Electric Equipment
- 517-16 Receptacles with Insulated Grounding Terminals
- 517-18 General Care Areas
- 517-19 Critical Care Areas
- 517-19(e) Additional Protective Techniques
- 517-20 Wet Locations
- 517-21 Ground Fault Circuit Interrupter Protection for Personnel
- 517-31 Emergency System
- 517-44 Sources of Power
- 517-61 Wiring and Equipment
 - (a) Within Hazardous (Classified) Anesthetizing Locations
 - (b) Above Hazardous (Classified) Anesthetizing Locations
 - (c) Other-Than-Hazardous (Classified) Anesthetizing Locations
- 517-62 Grounding
- 517-64 Low-Voltage Equipment and Instruments

ARTICLE 518 — Places of Assembly

- 518-3(b) Temporary Wiring Receptacles

ARTICLE 550 — Mobile Homes and Mobile Home Parks

- 550-5(c) Attachment Plug Cap
- 550-8 Receptacle Outlets

ARTICLE 555 — Marinas and Boatyards

- 555-3 Receptacles
- 555-7 Grounding

ARTICLE 625 — Electrical Vehicle Charging System Equipment

- 625-22 (New Article) GFCI Protection for Cord- and Plug-Connected Electric Vehicle Supply Equipment

ARTICLE 680 — Swimming Pools, Fountains and Similar Installations

- 680-4 Definitions
- 680-5 Transformers and Ground Fault Circuit Interrupters
- 680-6(a) Receptacles
- 680-6(b) Lighting Fixtures, Lighting Outlets, Switching Devices and Ceiling Fans
- 680-7 Cord- and Plug-Connected Equipment
- 680-40 Outdoor Installations
- 680-41 Indoor Installations
- 680-51 Lighting Fixtures, Submersible Pumps and Other Submersible Equipment
- 680-62 Cord- and Plug-Connected Equipment
- 680-62 Therapeutic Tubs (Hydrotherapeutic Tanks)
- 680-62(a) Ground Fault Circuit Interrupter
- 680-62(c) Methods of Bonding

Associations, Organizations and Standards

The following listings define the common acronyms used for a variety of organizations.

Standards Development Organizations

Primarily involved in the development and/or promulgation of standards

NFPA	National Fire Protection Agency
IEC	International Electrotechnical Commission
IEEE	Institute of Electrical and Electronics Engineers
ANSI	American National Standards Institute
CANENA	Consejo de Armonizacion de Normas Electrotecnicas de Norte America (Council for Harmonization of Electrotechnical Standardization of North America)
SAE	Society of Automotive Engineers
ISA	Instrument Society of America
SME	Society of Manufacturing Engineers
ISO	International Standards Organization
ASME	American Society of Mechanical Engineers

Codes and Standards

Installation codes and product safety, performance and interchangeability standards.

NEC	National Electrical Code
NOM	Normas Oficiales de Mexicanas (Official Mexican Standard)
NMX	Normas Mexicanas
CEC	Canadian Electrical Code
CEE	European Electrotechnical Committee

Industry Associations

For the purpose of standardization, trade, and professional development, etc.

NMDA	National Marine Distributor Association
NEMA	National Electrical Manufacturers Association
ABYC	American Boat and Yacht Council
EIA/TIA	Electronics Industry Association/Telecommunications Industry Association
NAED	National Association of Electrical Distributors
NAW	National Association of Wholesalers
BICISI	Building Industry Consulting Services International
IBI	Intelligent Building Institute

EPRI	Electric Power Research Institute
NEMRA	National Electrical Manufacturers Representative Association
IAEI	International Association of Electrical Inspectors
IFMA	International Facilities Management Association
BOMA	Building Owners Management Association
SEMI	Semi-Conductor Equipment and Material International
CEMRA	Canadian Electrical Manufacturers Representatives Association
NMRA	National Marine Representative Association
EFI	Electro-Federation Incorporated
NECA	National Electrical Contractors Association
IECA	Independent Electrical Contractors Association
ECOC	Electrical Contractors of Canada
CANAME	Camara Nacional de Manufacturas Electricas (Mexico)

Certification Agencies

Primarily involved in certification of products or manufacturers to standards developed by the certification agency or by others.

UL	Underwriters Laboratories Inc.
CSA	Canadian Standards Association
ANCE	National Association of Normalization and Certification of the Electrical Sector (Mexico)
TUV	TUV Rheinland of N.A., Inc.
VDE	Verband Deutscher Elektrotechniker (Germany)
BSI	British Standards Institute
FM	Factory Mutual
NRTL	National Recognized Testing Laboratories
OSHA	Occupational Safety and Health Administration
FCC	Federal Communications Commission
DESC	Defense Electronic Supply Center
IAPA	Independent Accident and Protection Association (Canada)
CE	European Compliance (This is not a certification agency, but CE is the European Compliance Mark)
ETL	ETL Testing Laboratories

European Agencies: IEC and CEE

The IEC

The IEC is the International Electrotechnical Commission. Formed in 1906, it is a worldwide organization primarily involved in the international standardization of electrical standards and equipment. As of 1994, 48 countries are represented in the IEC. IEC member countries produce and consume the majority of the world's electrical energy. They also manufacture and use the majority of the world's electrical products.

The IEC works towards standardization of the following areas:

- Universal technical language; including definitions, and electrical symbols
- Systems for ratings, testing requirements and methods of testing
- Electrical system characteristics; including voltages, frequencies and tolerances
- Dimensional requirements and tolerances
- Universal electrical safety requirements

The CEE

The CEE is the European Electrotechnical Committee. The CEE works on safety standards, definitions for conformity and certifications for electrical equipment. Cooperation between the CEE and the IEC has led to worldwide publications for standards pertaining to electrical equipment.

Certification and Markings

Certification marks indicate a product has been tested to the requirements of a specific certification agency. Manufacturers may choose a particular product identity (e.g. Specification Grade) even though no outside certification agency is involved. The following table illustrates the variety of certification markings typically used for 15A and 20A Straight Blade Receptacles.

Typical Product Certification Marks — 15 & 20 Amp Straight Blade Receptacles. Products with these markings must meet the specific testing standards indicated.

Certification Mark	UL498	CSA, C22.2, No. 42M	UL 498 Hospital Grade	CSA, C22.2, No. 42M, Hosp. Grade	DESC W-C-596F	Certification Agency
Spec Grade*	No Product Testing Required — Manufacturer's Term Only					Manufacturer Only
	X					Underwriters Laboratories Inc. Recognized Component for OEM use.
	X					Underwriters Laboratories Inc.
		X				Canadian Standards Association
	X		X			Underwriters Laboratories Inc.
		X		X		Canadian Standards Association
	X				X	Underwriters Laboratories Inc. and Defense Electronic Supply Center
	X		X		X	Underwriters Laboratories Inc. and Defense Electronic Supply Center

*Includes variations such as Industrial Spec. Grade, Premium Spec. Grade, etc.

NOTE: The C-UL listing mark is applied to products for the Canadian market evaluated by UL to Canadian safety standards. The C-UL US listing mark indicates compliance with both U. S. and Canadian safety standards.

Cross References

The cross-reference guides supplied by manufacturers are convenient for determining compatible devices but they are not official confirmation of compliance to any standard or testing criteria. Similarly, common catalog numbers used by different manufacturers in no way imply compliance to any standard or testing criteria.

UL, CSA and NEMA Standards Pertaining to Leviton Devices

UL Standards Pertaining to Leviton Devices

UL20	General-use switches
UL50	Enclosures for electrical equipment
UL94	Flammability testing for materials
UL486E	Equipment and wiring terminals
UL498	Plugs, connectors, receptacles, inlets, outlets, taps and adapters
UL508	Industrial equipment (including motor control switches)
UL514A	Metallic boxes/covers/wallplates
UL514C	Non-metallic boxes/covers/wallplates
UL817	Cordsets
UL943	GFCI's
UL1363	Temporary power taps
UL1436	Outlet circuit testers
UL1449	Surge suppression devices
UL1567	Switches and receptacles used with AL wire
UL1682 & 1686	Pin & Sleeve devices
UL1776	High-pressure cleaning equipment
FS	Federal Spec receptacles
WC596F	
FS	Federal Spec switches
WS896	

Note: Straight blade and locking NEMA configurations are defined by UL 1681 and NEMA WD 6.

Each UL standard consists of requirements that cover three characteristics of the product being reviewed:

- | | |
|------------------------|--|
| 1. Construction | Material properties and general design |
| 2. Performance | Mechanical and electrical testing |
| 3. Markings | Identification of manufacturer, applicable ratings, etc. |

CSA Standards Pertaining to Leviton Devices

C22.2, No. 0.17	Polymeric materials
C22.2, No. 42	General-use receptacles, attachment plugs
C22.2, No. 55	Special-use switches
C22.2, No. 111	General-use switches
C22.2, No. 182.1	Industrial-type, special-use attachment plugs, receptacles and connectors. Pin and sleeve devices
C22.2, No. 182.2	Industrial locking type

NEMA Standards Pertaining To Leviton Devices — In Accordance With NEMA Standard WD-1

WD 1-1.01	CORD CONNECTOR A cord connector is a portable receptacle which is provided with means for attachment to a flexible cord and which is not intended for permanent mounting. <i>NEMA Standard 7-13-1967</i>
WD 1-1.02	GROUNDING CONDUCTOR (SYSTEM GROUND) A grounded conductor is a circuit conductor (normally current carrying) which is intentionally connected to earth ground. (It is identified as the white conductor.) <i>NEMA Standard 7-13-1967</i>
WD 1-1.03	GROUNDING CONDUCTOR (EQUIPMENT GROUND) A grounding conductor is a conductor which connects noncurrent-carrying metal parts of equipment to earth ground to provide an intentional path for fault current to ground (It is bare, or, when covered, is identified as the green or green with yellow stripes conductor.) <i>NEMA Standard 7-13-1967</i>

WD 1-1.04 **LAMPHOLDER**
A lampholder is a device which is intended to support an electric lamp mechanically and to connect it electrically to a circuit.
NEMA Standard 7-13-1967

WD 1-1.05 **MALE BASE (INLET)**
A male base is a plug which is intended for flush or surface mounting on an appliance or equipment and which serves to connect utilization equipment to a connector.
NEMA Standard 7-13-1967

WD 1-1.06 **OUTLET**
An outlet is a point on the wiring system at which current is taken to supply utilization equipment.
NEMA Standard 7-13-1967

WD 1-1.07 **PLUG**
A plug is a device with male blades which, when inserted into a receptacle, establishes connection between the conductors of the attached flexible cord and the conductors connected to the receptacle.
NEMA Standard 7-1-1967

WD 1-1.08 **POLARIZATION (PLUGS AND RECEPTACLES)**
Polarization is a means of assuring the mating of plugs and receptacles of the same rating in only the correct position.
NEMA Standard 7-1-1967

WD 1-1.09 **POLE**
The term "pole" as used in designating plugs and receptacles refers to a terminal to which a circuit conductor (normally current carrying) is connected.
In switches, the number of poles indicates the number of conductors being controlled.
NEMA Standard 7-1-1967

WD 1-1.10 **RECEPTACLE**
A receptacle is a device with female contacts which is primarily installed at an outlet or on equipment and which is intended to establish electrical connection with an inserted plug.
NEMA Standard 7-1-1967

WD 1-1.11 **SLANT SYMBOL (/)**
The "slant" line (/) as used in wiring device ratings indicates that two or more voltage potentials are present simultaneously between different terminals of a wiring device.
NEMA Standard 7-1-1967

- WD 1-1.12** **SWITCH**
A switch is a device for making, breaking, or changing the connections in an electric circuit.
- A. Single-pole Switch (Single-pole, Single-throw)**
A switch which makes or breaks the connection of one conductor.
 - B. Double-pole Switch (Double-pole, Single-throw)**
A switch which makes or breaks the connection of two conductors of a single branch circuit.
 - C. Three-way Switch (Single-pole, Double-throw)**
A switch which changes the connection of one conductor and which is normally used in pairs to control one utilization equipment from two locations.
 - D. Four-way Switch (Double-pole, Double-throw Reversing)**
A form of double-pole switch which is used in conjunction with two three-way switches to control one utilization equipment from three or more locations.
NEMA Standard 7-13-1967

WD 1-1.13 **TERMINAL (ON A WIRING DEVICE)**
A terminal is a fixed location on a wiring device where a conductor is intended to be connected.
NEMA Standard 7-13-1967

WD 1-1.14 **WIRE (PLUGS AND RECEPTACLES)**
The term "wire" as used in designating plugs and receptacles indicates the number of either normally current-carrying or equipment grounding connected conductors.
NEMA Standard 7-13-1967

High-Abuse Wiring Devices — UL Listed Hospital Grade

Why was it developed?

Hospital Grade Listed devices were developed to provide maximum safety in high-abuse applications where constant strenuous use of the device is common. These highest reliability devices are built to protect against possible human negligence and keep the devices safe and functional.

What are the applications for Hospital Grade, High Abuse Devices?

Rough use occurs not just in hospitals, but every place where people can't or won't be cautious with devices...the cleaning person who yanks the floor waxer plug down the hall, the mechanic who pulls the drill plug from the wall, or the child who removes the electric lawn-mower plug from 40 feet away!

In addition, Leviton realized that devices in rough use situations are often exposed to many corrosive liquids, such as cleaning fluids, rug shampoos, chlorinated water, sprays, salt air and chemical fumes. Our corrosion resistant devices permit use in environments where these conditions are common.

Demanding Tests for UL Hospital Grade Listing

Leviton has designed a line of wiring devices that withstand impact, wear, crushing, and corrosive environments that would destroy ordinary heavy-duty devices. Leviton's comprehensive line of Hospital Grade and Industrial Grade plugs, connectors and receptacles include devices that have passed a series of demanding UL Hospital Grade tests. This assures the end-user of top performance in the harshest industrial environments. Here are examples of how Leviton devices meet or exceed the requirements of the most rigorous testing!

Receptacles

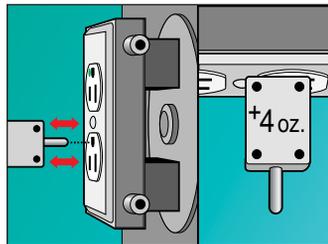

Abrupt Removal of Plug Test

A steel-bodied test plug with brass blades is inserted into the receptacle. A 10-pound weight dropped from at least 24 inches yanks the plug out of the receptacle. This test is done eight times with the receptacle rotated into different positions to create the greatest stress on its face and contact. After this, the grounding contact must retain a four ounce, 0.184" diameter grounding pin, with the receptacle face down, for one minute. "There shall be no breakage of the receptacle that interferes with the receptacle function or the integrity of the enclosure. The receptacle shall maintain the grounding path integrity through the receptacle."

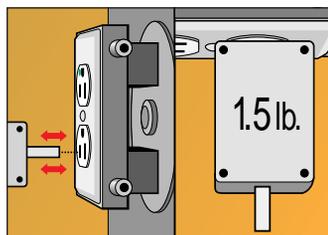

Ground Pin Test

The grounding contact of the receptacle is conditioned by 20 insertions with a 0.204" diameter oversized pin. "After conditioning, a 0.184" diameter pin shall be inserted in the grounding contact and shall be capable of supporting at least four ounces for one minute."

Power Blade Retention Test

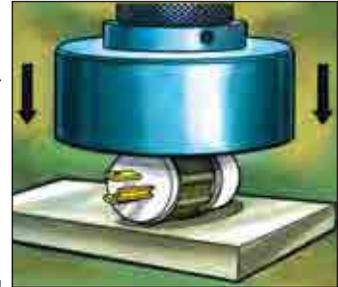

A test plug with oversized blades of .075" is inserted into the current-carrying opening of the connector for 20 conditioning cycles. After the conditioning cycles, "the contact shall be capable of supporting for one minute 1 1/2 lbs, secured to a single .055" thick solid steel blade without holes."

Plugs and Connectors

500 lb. Crush Test

A wired plug or connector is placed between two steel plates and subjected to a force which is steadily increased to 500 pounds. "There shall be no breakage, deformation or other effect that may interfere with the function of the device." Leviton knows that in real industrial environments, plugs and connectors are crushed by forces exceeding 500 lbs. Leviton performs the crush test with force of 2500 lbs to ensure that our devices withstand the really heavy hits on the job.

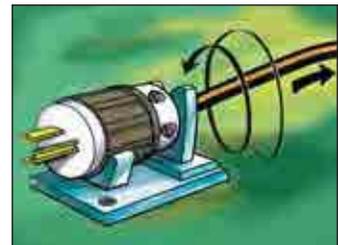

Impact Test

A wired plug or connector is subjected to impact from a 10 lb. weight dropped from a height of 18 inches. "There shall be no breakage, deformation or other effect that may interfere with the function of the device." Plugs and connectors are subjected to severe impacts in industrial settings. Therefore, Leviton exceed the UL requirement by dropping the weight from a height of 36 inches.

Cord Pull Test

The cord must remain securely fastened after straight pulls of 30 pounds, and rotating pulls (in a 3-inch circle) of 10 pounds for two hours. "Displacement of conductors, insulation, and outer jacket of the flexible cord AWG 18 SVT shall not exceed 1/32 inch. There shall be no cuts, rips, or tears in cord insulation."

Heavy-duty cord stress is typical abuse for industrial plugs and connectors. Leviton increases the weight in the straight cord pull test to 175 lbs. with AWG 14 ST and in the rotating pull test to 20 lbs, ensuring positive strain relief under industrial conditions.

Mechanical Drop Test

A sample wired plug or connector is suspended horizontally by its attached cord and released so that it impacts a hard wood surface 45 inches below the point of suspension — repeated for 1300 cycles. "There shall be no breakage, deformation or other damage which would interfere with the functioning of the device."

Glossary of Electrical Wiring Device Terms

General Terms

Adapter — An accessory used for interconnecting non-mating devices or converting an existing device for modified use.

Ballast — A transformer that steps down AC line voltage to voltage that can be used by fluorescent or other types of lighting. Ballasts may be electromagnetic or electronic.

Cord Connector — A portable receptacle designed for attachment to or provided with flexible cord, not intended for fixed mounting.

Flanged Inlet — A plug intended for flush mounting on appliances or equipment to provide a means for power connection via a cord connector.

Flanged Outlet — A receptacle intended for flush mounting on appliances or equipment to provide a means for power connection via an inserted plug.

Fluorescent Starter — A device with a voltage-sensitive switch and a capacitor that provides a high-voltage pulse to start a fluorescent lamp. Rated in watts.

Lampholder — A device with contacts that establishes mechanical and electrical connection to an inserted lamp.

Plug — A device with male contacts intended for insertion into a receptacle to establish electrical connection between the attached flexible cord and the conductors connected to the receptacle.

Receptacle — A device with female contacts designed for fixed installation in a structure or piece of equipment and which is intended to establish electrical connection with an inserted plug.

Switch — A device for making, breaking, or changing the connections in an electric circuit.

Wallplate — A plate designed to enclose an electrical box, with or without a device installed within the box.

Adapter Variations

Cube Tap — An adapter that converts one receptacle opening into multiple openings.

Current Tap — An adapter designed for medium base lampholders which has one or two receptacle openings. Available with or without integral switch.

Duplex — An adapter that provides two female receptacle openings when plugged into a single receptacle opening.

Grounding — An adapter that converts a two-wire receptacle opening into a two-pole, three-wire grounding receptacle opening.

Lampholder — A threaded adapter that converts the thread size of the lampholder in which it is inserted so that the lampholder can accept an incandescent lamp bulb of a different size thread.

Molded-On — An adapter that is factory molded to a length of flexible cord.

Series — An adapter wired in series to a flexible cord containing an in-line switch used to control electrical equipment plugged into the adapter.

“W” Type — Same as “Y” type, except having three cord connectors arranged in the form of the letter “W”.

“Y” Type — An adapter in the form of a letter “Y”, having two cord connectors on one end and a male plug on the other end.

Cord Connectors

Angle — A connector that allows the attached flexible cord to exit at right angles.

Corrosion Resistant — A connector constructed of special materials and/or suitably plated metal parts that is designed to withstand corrosive environments. Corrosion resistant devices must pass the ASTM B117-13 five-hundred hour Salt Spray (Fog) Test with no visible corrosion.

Dust Proof — A connector designed so that dust will not interfere with its operation. The IP Suitability Rating designates the degree of protection a device offers against the ingress of foreign objects (e.g. IP 20).

Explosion Proof — A connector constructed to meet the requirements of hazardous locations as defined by the National Electrical Code, NFPA-70.

Hospital Grade — A connector designed to meet the performance requirements of high-abuse areas typically found in health care facilities. These connectors are tested to the Hospital Grade requirements of Underwriters Laboratories Inc. Standard 498.

Locking — A connector designed to lock an inserted plug with a matching blade configuration when the plug is rotated in a clockwise direction. The plug can only be removed by first turning it in a counter-clockwise direction.

Midget — A connector designed with a smaller body diameter than standard connectors with a similar rating.

Molded On — A connector that is factory molded to a length of flexible cord.

Pin and Sleeve — A connector with hollow, cylindrical sleeve-type contacts.

Straight Blade — A non-locking connector into which mating plugs are inserted at a right angle to the plane of the connector face.

Weatherproof — A connector specially constructed so that exposure to weather will not interfere with its operation.

Flanged Inlets

Corrosion Resistant — An inlet constructed of special materials and/or suitably plated metal parts that is designed to withstand corrosive environments. Corrosion resistant devices must pass the ASTM B117-13 five-hundred hour Salt Spray (Fog) Test with no visible corrosion.

Flush-Mounted — An inlet intended to be installed flush with the surface of a panel or a piece of equipment.

Locking — An inlet designed to lock an inserted matching connector when the connector is rotated in a clockwise direction. The connector can only be removed by first turning it in a counter-clockwise direction.

Midget — An inlet designed with a smaller body diameter than standard connectors with a similar rating.

Pin and Sleeve — An inlet with round pin-type contacts intended to mate with a connector having hollow cylindrical female contacts.

Straight Blade — A non-locking inlet into which mating connectors are inserted at a right angle to the plane of the connector face.

Surface-Mounted — An inlet designed to be surface mounted on a panel or piece of equipment.

Watertight — An inlet specially constructed so that water will not enter under specified test conditions. The IP Suitability Rating designates the degree of protection a device offers against the ingress of moisture and water (e.g. IP 55, IP 44).

Weatherproof — An inlet specially constructed to protect it from the effects of weather in outdoor locations.

Flanged Outlets

Corrosion Resistant — An outlet constructed of special materials and/or suitably plated metal parts that is designed to withstand corrosive environments. Corrosion resistant devices must pass the ASTM B117-13 five-hundred hour Salt Spray (Fog) Test with no visible corrosion.

Flush-Mounted — An outlet intended to be installed flush with the surface of a panel or a piece of equipment.

Locking — An outlet designed to lock an inserted plug with a matching blade configuration when the plug is rotated in a clockwise direction. The plug can only be removed by first turning it in a counter-clockwise direction.

Midget — An outlet designed with a smaller body diameter than standard devices with a similar rating.

Pin and Sleeve — An outlet with hollow cylindrical female contacts intended to mate with a plug having round pin contacts.

Straight Blade — A non-locking outlet into which mating straight-blade plugs are inserted at a right angle to the plane of the outlet face.

Surface-Mounted — An outlet designed to be surface mounted on a panel or piece of equipment.

Watertight — An outlet specially constructed so that water will not enter under specified test conditions. The IP Suitability Rating designates the degree of protection a device offers against the ingress of moisture and water (e.g. IP 55, IP 44).

Weatherproof — An outlet specially constructed so that exposure to weather will not interfere with its operation.

Fluorescent Starters

Automatic Reset — A starter that automatically restarts a new replacement fluorescent lamp after the circuit is energized.

Direct Current — A thermal-type starter designed for use on direct current (DC) circuits.

Glow Discharge — A starter that provides a rapid lamp start-up and will continue to try to start a failed fluorescent lamp, causing the lamp to flicker until it is replaced.

Manual Reset — A starter that automatically deactivates a failed fluorescent lamp to eliminate flickering. A reset button provides a means of activating the circuit after lamp replacement.

Lampholders

Bayonet — Designed for incandescent lamps having an unthreaded metal shell with two diametrically opposite keyways that mate with the keyways on the lampholder. Pushing down on the bulb and turning it clockwise in the lampholder locks the bulb in place.

Candelabra — A small screw-base threaded lampholder designed for candelabra-base incandescent lamps commonly used in chandeliers, night lights, and ornamental lighting.

Circline — A four-contact, double-ended lampholder designed for use with tubular, circular fluorescent lamps.

Compact Fluorescent — A lampholder designed for the Compact Fluorescent Lamps (CFLs) that are increasingly being used to replace incandescent lamps for energy efficiency.

Dimmer — An electronic device with either a round knob, slide lever or finger-tip controlled buttons used to dim/brighten incandescent lighting. Available in a variety of wattages; fluorescent version also available.

Glossary of Electrical Wiring Device Terms

Double-Contact Recessed — Designed for high-output fluorescent lamps.

Edison Base — An internally-threaded lampholder, with the inner shell approx. 1" in diameter. Designed for widely-used standard medium base lamps.

Electrolier — Similar to the Edison Medium Base lampholder, but with a smaller outer diameter.

Incandescent — Designed for use with all manufactured incandescent lamps, most of which have threaded bases.

Intermediate — A lampholder with a threaded screw shell designed for intermediate base lamps that have a 1³/₃₂" threaded base (smaller than the standard 1" dia. medium base). Mostly used in decorative lighting.

Key — A lampholder with a flat or round "key" knob that operates an internal switching mechanism ("Keyless" lampholders do not provide an internal switching mechanism).

Lumiline — A specially designed lampholder for tubular Lumiline-type incandescent lamps, typically used in bathrooms and retail display cases.

Medium Base — Same as the Edison base lampholder. An internally-threaded lampholder, with the inner shell approx. 1" in diameter. Designed for widely-used standard medium base lamps.

Miniature — Designed for the smallest available incandescent lamps with a screw-in base, approx. 3/8" dia. Widely used in flashlights and toys, etc.

Mogul — The largest screw-in type lampholder, designed for mogul incandescent lamps with a screw base of approx. 1 1/2" dia. Used in street lights and numerous commercial/industrial applications.

Medium Bi-Pin — A fluorescent lampholder with two contacts, used in pairs. For type T-8 tubular fluorescent lamps, approx. 1" in diameter.

Miniature Bi-Pin — Similar to medium bi-pin lampholders, but designed for type T-5 tubular fluorescent lamps, approx. 5/8" in diameter.

Outlet Box — Medium-base incandescent lampholder designed for mounting in 3 1/4" or 4" electrical boxes. Available with or without pull-chain mechanism, and with or without built-in receptacle.

Pull-Chain — An incandescent lampholder with an internal switching mechanism that is activated by pulling down on a beaded chain or cord.

Push-Through — An incandescent lampholder with an insulated lever that is pushed from either side to activate an internal ON/OFF switching mechanism.

Slimline Single-Pin — A fluorescent lampholder with a single contact designed for Slimline fluorescent lamps such as the T-12 (1 1/2" dia.), T-8 (1" dia.), and the smaller version T-6 (3/4" dia.).

Snap-In — An incandescent or compact fluorescent lampholder with factory-assembled spring clips that securely snap into a panel cutout without requiring additional fasteners.

Surface-Mounted — A lampholder of any type that mounts on a flat or plane surface.

Plugs

Angle — A plug that allows the attached flexible cord to exit at right angles.

Corrosion Resistant — A plug constructed of special materials and/or suitably plated metal parts that is designed to withstand corrosive environments. Corrosion resistant devices must pass the ASTM B117-13 five-hundred hour Salt Spray (Fog) Test with no visible corrosion.

Dust Proof — A plug designed so that dust will not interfere with its operation. The IP Suitability Rating designates the degree of protection a device offers against the ingress of foreign objects (e.g. IP 20).

Explosion Proof — A plug constructed to meet the requirements of hazardous locations as defined by the National Electrical Code, NFPA-70.

Hospital Grade — A plug designed to meet the performance requirements of high-abuse areas typically found in health care facilities. These plugs are tested to the Hospital Grade requirements of Underwriter's Laboratories Inc. Standard 498.

Locking — A plug designed to lock into a matching connector or receptacle configuration when the plug is rotated in a clockwise direction. The plug can only be removed by turning it in a counter-clockwise direction.

Midget — A plug designed with a smaller body diameter than standard plugs with a similar rating.

Molded On — A plug that is factory molded to a length of flexible cord.

Pin and Sleeve — A plug with round pin contacts.

Straight Blade — A non-locking plug that is inserted at a right angle to the plane of the matching device face.

Weatherproof — A plug specially constructed so that exposure to weather will not interfere with its operation.

Receptacles

AL/CU — 30A, 50A or 60A receptacles designated for use with aluminum or copper circuit conductors, identified by "AL/CU" stamped on the device. Receptacles without this designation must never be used with aluminum circuit conductors.

Clock Hanger — A single, recessed receptacle with a specialized cover plate that provides a hook or other means of supporting a wall clock.

CO/ALR — 15A or 20A receptacles designated for use with aluminum or copper circuit conductors, identified by "CO/ALR" stamped on the device. Receptacles without this designation must never be used with aluminum circuit conductors.

Corrosion Resistant — A receptacle constructed of special materials and/or suitably plated metal parts that is designed to withstand corrosive environments. Corrosion resistant devices must pass the ASTM B117-13 five-hundred hour Salt Spray (Fog) Test with no visible corrosion.

Display — Receptacle with a special cover plate intended for flush mounting on raised floors or walls.

Duplex — Two receptacles built with a common body and mounting means; accepts two plugs.

Dust Proof — A receptacle designed so that dust will not interfere with its operation. The IP Suitability Rating designates the degree of protection a device offers against the ingress of foreign objects (e.g. IP 20).

Explosion Proof — A receptacle constructed to meet the requirements of hazardous locations as defined by the National Electrical Code, NFPA-70.

Fan Hanger — A single receptacle with a specialized cover plate that provides a hook or other means of supporting a wall fan.

Four-In-One or "Quad" — A receptacle in a common housing that accepts up to four plugs. Four-In-One receptacles can be installed in place of duplex receptacles mounted in a single-gang box, providing a convenient means of adding receptacles without rewiring.

GFCI (Ground Fault Circuit Interrupter) — A receptacle with a built in circuit that will detect leakage current to ground on the load side of the device. When the GFCI detects leakage current to ground, it will interrupt power to the load side of the device, preventing a hazardous ground fault condition. GFCI receptacles must conform to UL Standard 943 Class A requirements, and their use is required by the National Electric Code NFPA-70 in a variety of indoor and outdoor locations.

Hospital Grade — A receptacle designed to meet the performance requirements of high-abuse areas typically found in health care facilities. These receptacles are tested to the Hospital Grade requirements of Underwriters Laboratories Inc. Standard 498.

Interchangeable — A receptacle or combination of receptacles with a common mounting dimension that may be installed on a single or multiple-opening mounting strap.

Isolated Ground — Receptacles intended for use in an Isolated Grounding system where the ground path is isolated from the facility grounding system. The grounding connection on these receptacles is isolated from the mounting strap.

Lighted (Illuminated) — A receptacle with a face that becomes illuminated when the device is connected to an energized electrical circuit.

Locking — A receptacle designed to lock an inserted plug with a matching blade configuration when the plug is rotated in a clockwise direction. The plug can only be removed by first turning it in a counter-clockwise direction.

Pin and Sleeve — A receptacle with cylindrical sleeve-type contacts.

Safety or Tamper-Resistant — A receptacle specially constructed so that access to its energized contacts is limited. Tamper-resistant receptacles are required by the National Electric Code NFPA-70 in specific pediatric care areas in health care facilities.

Single — A receptacle that accepts only one plug.

Snap-In — A receptacle with factory-assembled spring clips that securely snap into a panel cutout without requiring additional fasteners.

Split-Circuit — A duplex receptacle that allows each receptacle to be wired to separate circuits. Most duplex receptacles provide break-off tabs that allow them to be converted into split-circuit receptacles.

Straight Blade — A non-locking receptacle into which mating plugs are inserted at a right angle to the plane of the receptacle face.

Surface-Mounted — Any receptacle that mounts on a flat or plane surface.

Surge-Suppression — A receptacle with built-in circuitry designed to protect its load side from high-voltage transients and surges. The circuitry will limit transient voltage peaks to help protect sensitive electronic equipment such as PC's, modems, audio/video equipment, etc.

Triplex — A receptacle with a common mounting means which accepts three plugs.

Weatherproof — A receptacle specially constructed so that exposure to weather will not interfere with its operation.

Switches

AC/DC — A switch designated for use with either Alternating Current (AC) or Direct Current (DC)

AC Only — A switch designated for use with Alternating Current (AC) only.

Dimmer — A switch with electronic circuitry that provides DIM/BRIGHT control of lighting loads.

Glossary of Electrical Wiring Device Terms

Door — A momentary contact switch, usually installed on a doorjamb, that is activated when the door is opened or closed.

Double-Pole, Single-Throw (DPST) — A switch that makes or breaks the connection of two circuit conductors in a single branch circuit. This switch has four terminal screws and ON/OFF markings.

Double-Pole, Double-Throw (DPDT) — A switch that makes or breaks the connection of two conductors to two separate circuits. This switch has six terminal screws and is available in both momentary and maintained contact versions, and may also have a center OFF position.

Feed-Through — An in-line switch that can be attached at any point on a length of flexible cord to provide switching control of attached equipment.

Flush-Mounted — A switch designed for flush installation with the surface of a panel or equipment.

Four-Way — A switch used in conjunction with two 3-Way switches to control a single load (such as a light fixture) from three or more locations. This switch has four terminal screws and no ON/OFF marking.

Horsepower Rated — A switch with a marked horsepower rating, intended for use in switching motor loads.

Interchangeable — A switch or combination of switches with a common mounting dimension that may be installed on a single or multiple-opening mounting strap.

Lighted Handle — A switch with an integral lamp in its actuator (toggle, rocker or pushbutton) that illuminates when the switch is connected to an energized circuit and the actuator is in the OFF position.

Locking — A switch equipped with a locking mechanism that requires a key to operate the switching functions.

Low-Voltage — A switch rated for use on low-voltage circuits of 50 volts or less.

L-Rated — A switch specially designated with the letter "L" in its rating that is rated for controlling tungsten filament lamps on AC circuits only.

Maintained Contact — A switch where the actuator (toggle, rocker, pushbutton or key mechanism) makes and retains circuit contact when moved to the ON position. The contacts will only be opened when the actuator is manually moved to the OFF position. Ordinary light switches are maintained contact switches.

Manual Motor Controller — A switch designed for controlling small DC or AC motor loads, without overload protection.

Mercury — A type of switch that uses mercury as the contact means for making and breaking an electrical circuit.

Momentary Contact — A switch that makes circuit contact only as long as the actuator (toggle, rocker, pushbutton or key mechanism) is held in the ON position, after which it returns automatically to the OFF position. This is a "Normally Open" switch. A "Normally Closed" switch will break circuit contact as long as it is held in the OFF position, and then automatically return to the ON position. Available in "Center OFF" versions with both Momentary ON and Momentary OFF positions.

Pendant — A type of switch designed for installation at the end of a length of portable cord or cable.

Pilot Light — A switch with an integral lamp in its actuator (toggle, rocker or pushbutton) that illuminates when the switch is connected to an energized circuit and the actuator is in the ON position.

Pull — A switch where the making or breaking of contacts is controlled by pulling downward or outward on the actuator mechanism.

Push Button — A switch with an actuator mechanism that is operated by depressing a button.

Rotary — A switch where rotating the actuator in a clockwise direction makes the circuit connection, and then rotating the actuator in either the same or opposite direction breaks the connection.

Single-Pole, Double-Throw (SPDT) — A switch that makes or breaks the connection of a single conductor with either of two other single conductors. This switch has 3 terminal screws, and is commonly used in pairs and called a "Three-Way" switch.

Single-Pole, Single-Throw (SPST) — A switch that makes or breaks the connection of a single conductor in a single branch circuit. This switch has two screw terminals and ON/OFF designations. It is commonly referred to as a "Single-Pole" Switch.

Slide — A switch with a slide-action actuator for making or breaking circuit contact. Dimmer switches and fan speed controls are also available with slide-action mechanisms for lighting and fan speed control.

Surface-Mounted — Any switch that mounts on a flat or plane surface.

Three-Position, Center OFF — A two circuit switch, either maintained or momentary contact, where the OFF position is designated as the center position of the actuator.

Three-Way — A switch, always used in pairs, that controls a single load such as a light fixture from two locations. This switch has three terminal screws and has no ON/OFF marking.

Time Delay — A switch with an integral mechanism or electronic circuit that will automatically switch a load OFF at a predetermined time interval.

Timer — A switch with an integral mechanism or electronic circuit that can be set to switch an electrical load ON at a predetermined time.

Toggle — A switch with a lever-type actuator that makes or breaks switch contact as its position is changed.

T-Rated — A switch specially designated with the letter "T" in its rating that is rated for controlling tungsten filament lamps on direct current (DC) or alternating current (AC) circuits.

Wallplates

Combination — A multiple-gang wallplate with openings in each gang to accommodate different devices.

Decora® — Wallplates with Decora-size openings for compatibility with Leviton's entire line of Decora devices. Available in a variety of multiple-gang configurations. Screwless-design snap-on versions also available.

Flush — A wallplate designed for flush-mounting with wall surfaces or the plane surfaces of electrical equipment.

Gang — A term that describes the number of devices a wallplate is sized to fit (i.e. "2-gang" designates two devices).

Midway — Wallplates that are approx. 3/8" higher and wider than the standard size that can be mounted onto larger volume outlet boxes and/or used to hide wall surface irregularities. These wallplates are approx. 1/4" deep to ensure a proper fit when used with protruding devices.

Oversized — Wallplates that are approx. 3/4" higher and wider than the standard size and are used to conceal greater wall irregularities than those hidden by Midway wallplates. These wallplates are approx. 1/4" deep to ensure a proper fit when used with protruding devices.

Modular — Individual-section wallplates with different openings that can be configured into a multi-gang plate.

Multi-Gang — A wallplate that has two or more gangs.

Tandem — A wallplate with individual gangs arranged vertically one above the other.

Weatherproof (with Cover Closed) — A UL Listed cover that meets specific test standards for use in wet and damp locations with the cover closed.

Weatherproof (with Cover Open) — A UL Listed cover that meets specific test standards for use in wet and damp locations with the cover open or closed.

Surge Suppression

Clamping Voltage — The peak voltage that can be measured after a Surge Protective Device has limited or "clamped" a transient voltage surge.

Clamping voltage must be determined by using IEEE Standard C62 testing and evaluated by UL Standard 1449.

Joule Rating — The measurement of a Surge Protective Device's ability to absorb heat energy created by transient surges. Note that the Joule rating is not a part of IEEE or UL Standards. It is not as significant a specification as Clamping Voltage, Maximum Surge Current and other parameters recognized by these agencies.

Transient Voltage Surges — High-speed, high-energy electrical disturbances present on AC power lines and data and communication lines, generated by utility switching, motor-load switching and lightning strikes.

Response Time — The interval of time it takes for a surge protective device to react to a transient voltage surge. Note that this parameter is not a part of IEEE or UL Standards and is only based on estimations made by manufacturers.

Surge Protective Device — See "Transient Voltage Surge Suppressor (TVSS)" definition.

Transient Voltage Surge Suppressor (TVSS) — A device designed to protect sensitive electronic equipment such as computers and computer peripherals, logic controls, audio/video equipment and a wide range of microprocessor-based (computer chip) equipment from the harmful effects of transient voltage surges. Also referred to as a Surge Protective Device (SPD).

Maximum (Peak) Surge Current — The peak surge current a Surge Protective Device can withstand, based on IEEE Standard C62.45 test waveforms.

MOV (Metal Oxide Varistor) — The primary component used in most Surge Protective Devices to clamp down transient voltages.

UL 1449 Listing — The industry standard for Surge Protective Devices. A Surge Protective Device must have a UL 1449 Surge Suppression rating on its label in order to verify that the device has been tested with IEEE standardized waveforms. Devices without this identification should not be considered reliable surge protective devices.

Switches

Types of Switches

Switches used in branch circuit wiring are rated in two general categories: AC ONLY and AC/DC. Originally, the electrical power furnished to residences and businesses by utility companies was Direct Current or DC. Because DC current was always flowing at full value, the making or breaking of a circuit created a rather strong arc during switch operation. For this reason, the contacts had to be widely gapped and the operation had to be "quick make, quick break" to avoid excessive pitting or welding of the contact points.

Alternating current operates between zero and full power 120 times per second. Because of the oscillating characteristic of AC power, the arc from an AC circuit is self-extinguishing on the "break" of the current. This means a slower breaking action is possible on an AC switch, as opposed to the breaking action required of a switch made for use with continuous full-power DC. The pulsating nature of AC can, however, cause a "chattering" or very fast series of "makes" and "breaks" if the circuit is closed too quickly. For this reason an AC ONLY switch works with a somewhat slower "fast make" and "break" than an AC/DC switch.

Because the make and break actions of an AC/DC switch must be fast, it can be rather noisy, and must use contact metals capable of enduring such comparatively violent action while still offering acceptable electrical conductivity. An alloy of copper is most often used.

Silver and its oxides are better conductors than copper and its oxides. Silver is much softer than copper and therefore cannot be used in the AC/DC switch. However, silver can be used in the AC ONLY switch because of its gentler "fast make" characteristic, especially when silver is alloyed with cadmium oxide, a good conductor that's quite hard.

Switch Ratings

AC ONLY switches are often called AC Quiet switches because they can be made to operate very quietly, unlike AC/DC switches. AC ONLY switches are rated at their full current value for lighting, including tungsten filament, quartz metal-halide, and fluorescent; and 80% current value or full horsepower rating value for motor (inductive) loads.

AC/DC switches used for incandescent lighting should have a "T" rating (tungsten-filament rating). The "T" rating assures end-users of the longevity of the switch through the surge currents of a "make" action across a tungsten filament. Such capacity is already inherent in the design of AC Quiet switches.

AC/DC switches are rated at only 50% of their current capacity for motor loads. A 20 amp AC/DC switch could be used to control a 10 amp motor load, while a 20 amp AC/DC Quiet switch can operate a 16 amp motor load.

In the past, MERCURY switches were available that operated by making and breaking contact within a hermetically sealed capsule containing a pool of mercury. MERCURY switches were actually silent in operation. However, due to health concerns about mercury, these switches are no longer manufactured and sold. MERCURY switches may still be in service in some installations

Horsepower Ratings

Switches marked with Horsepower (HP) Ratings are suitable for controlling the motor loads of the HP ratings shown on the switch, as well as loads with a lower HP rating.

To qualify for an HP rating, a switch is tested at six times the full motor load current corresponding the HP rating marked on the switch. For DC motor load controllers, the test is made at 10 times the full motor load current corresponding to the DC HP rating marked on the switch. The test is conducted on six samples and consists of 50 On-Off operations at the load. For a 3/4 HP rating at 120/240 VAC, two sets of six samples each are tested in addition to the regular overload endurance, heating and insulation tests. The test circuit characteristics are:

	For 3/4 HP Rating @ 120 VAC	For 3/4 HP @ 240 VAC
Closed Circuit Volts	120 VAC	240 VAC
Current	82.8 amps	41.4 amps
Power-Factor	0.40 - 0.50	0.40 - 0.50

Note: The current at 240 VAC is 1/2 that at 120 VAC

All switches must be in good operating condition after the tests have been completed. There must be no excessive arcing, welding or burning of the contacts nor arc-over to ground (the switch frames are grounded during the Stalled Rotor Test).

Dimmers

A common misconception about box-mounted dimmers is that they are simply variable resistors (rheostats) that absorb power to dim the lights. In fact, a rheostat would be too bulky, inefficient and heat producing to ever be practical as a wall-mounted dimmer. In the 1950's, the advent of solid state technology and a type of semi-conductor called the TRIAC fostered the development of full-range dimmers and fan speed controls that were versatile, efficient and compact enough to fit in a standard wallbox.

Leviton has always taken an active role in the development lighting control technologies. Leviton introduced the Trimatron™ Rotary Dimmer that was only half as deep as conventional dimmers, allowing easier installation and wiring in a crowded wallbox. Today, Leviton offers innovative all-digital lighting controls that feature scene lighting and multi-location control capabilities for sophisticated residential and commercial installations. Leviton's complete line of controls for incandescent, low-voltage and fluorescent lighting includes Decora-style and architectural specification grade devices, as well as traditional rotary devices. There is also a wide selection of Fan Speed Controls

See Section C for information on Leviton's comprehensive line of Lighting and Fan Speed Controls.

Receptacles

Types of Receptacles

Receptacles generally are made to accommodate either of two types of plugs. *Straight-Blade* plugs are pushed in and pulled straight out. *Locking* plugs are pushed in and rotated slightly in a clockwise direction to a position where they cannot be pulled straight out. They must be rotated counterclockwise back to the insertion position in order to be withdrawn. This locking action is intended to prevent accidental disconnection of the circuit by pulling the plug straight out unintentionally.

Grounding

Originally, residential electrical circuitry was "2-pole, 2-wire" and did not have an equipment grounding means at the receptacle. The only grounding point was at the service entrance, where the neutral (white) conductor was grounded. The receptacle slot for the neutral wire, according to NEMA configuration 1-15R, must be longer than the slot for the phase or hot wire (typically black or red). This enables certain items of equipment, like TV sets and home appliances, to have their external metal parts or casing grounded through the white neutral connection. Such equipment uses a polarized plug where the neutral plug blade is wider than the hot plug blade, ensuring that it mates properly with the NEMA 1-15R configuration receptacle. Receptacles designed for 2-pole, 2-wire circuits do not have mounting straps that are connected to a grounding terminal. Leviton still offers 2-pole, 2-wire receptacles for replacement use only in existing non-grounding systems.

Experience proved that a single grounding point through the neutral conductor was not sufficiently safe. Conditions could occur where fault currents and differences in potential lead to shocks, overheating, equipment burnout and fire. Therefore, the 2-pole, 3-wire circuit was developed. A third conductor, called the grounding conductor, does not carry current during normal circuit operation. It is connected to the neutral bus bar at the service entrance and runs along with the current-carrying neutral and hot conductors. The grounding conductor is connected only to outlet boxes, chassis and other non-current carrying components that may carry current in case of damage or defects in the wiring system. It is sometimes referred to as the "equipment grounding conductor."

The grounding contacts on the 2-pole, 3-wire receptacles are most commonly shaped like a "U", which is how the term "U-ground" evolved. The grounding contacts on these receptacles are securely fastened to the mounting strap. In Leviton receptacles, the grounding contacts are permanently riveted to the mounting strap, and in most Leviton Hospital Grade and Industrial Grade receptacles they are an integral part of the strap. Many Leviton receptacles offer dual ground connection options to help ensure that the receptacle is properly connected to the grounding system: An integral green grounding screw for direct connection to the green or bare grounding wire, and a patented Groundamatic® self-grounding clip riveted to the strap to provide automatic ground connection when the receptacle is mounted in a properly grounded metal wallbox.

Isolated-Ground Receptacles

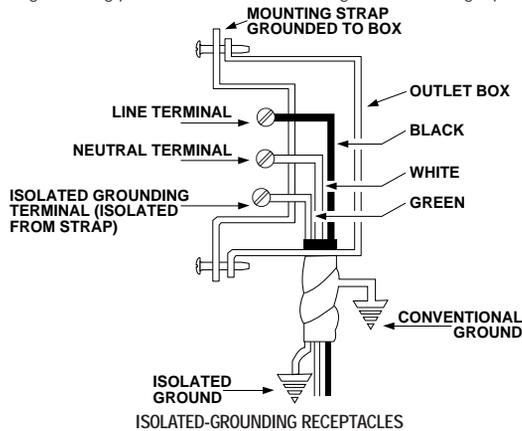

Although the conventional grounding system provides safety for personnel and equipment, it may be a source of electrical interference that can cause problems in modern electronic equipment. Because the conventional grounding network runs through an entire facility, it can unintentionally function as a pick-up of transient electrical signals or "noise."

TECHNICAL INFORMATION

These transient signals will then be introduced to equipment through the ground connection. Microprocessor-based equipment, including computers, cash registers, medical equipment and audio/video equipment, may malfunction as a result of this noise.

Isolated-Grounding Receptacles can help eliminate problems caused by electrical interference in a conventional ground system. The ground contacts on Isolated-Ground Receptacles are electrically isolated from the mounting strap and therefore they are isolated from the conventional ground system. The green ground screw is connected to a pure ground path that is separate from a facility's grounding network. The isolated ground network is relatively free of electrical noise because it is not a facility-wide grounding path and it's connected to ground at a single point.

Mounting Straps

There are basically two kinds of mounting straps for receptacles. The "through" type passes between the receptacle body and cover. The "wrap-around" type acts as a cradle for the receptacle, surrounding its side, ends and bottom surfaces.

Power Contact Design

The "contact" does more than make contact with the plug blade — It must grip the plug blade for maximum electrical conductivity and mechanical strength. Leviton receptacles feature double-wipe contacts that grip both sides of each blade, including the U-ground contacts that are often single-wipe in receptacles made by other manufacturers. Leviton Hospital Grade and Industrial Grade receptacles feature triple-wipe contacts for added strength and durability in high-abuse applications. Leviton contacts are made of the copper alloys that offer maximum strength and electrical conductivity.

Wiring of Leviton Receptacles

Side Wiring
Loop wire around terminal screw. Screw head locks wire against terminal. For copper or copper/clad aluminum conductors.

Quickwire™ Connection
Insert wire into wire well. Wire is automatically clamped by spring action, insuring good electrical connection. For copper conductors only.

Quickwire™ and Screw
Option of (1) side wiring or (2) Quickwire connection. NOTE: For continuous wiring, both sets of terminals (screw and Quickwire) can be used together.

Back & Side Wiring
Option of (1) side wiring or (2) back wiring: Insert wire into well. Tighten screw, thus clamping wire against terminal. Back wiring for copper or copper/clad aluminum conductors.

Two-Circuit Conversion
To power each outlet of a duplex receptacle separately, simply break off the tab between the two terminals.

Ground Fault Circuit Interrupters (GFCI's)

The Need for Ground Fault Protection

Circuit breakers and fuses protect equipment and building structures from overheating and fire caused by short circuits and high-current overloads. However, the current level needed to trip a breaker is many times greater than the amount of current needed to deliver a powerful, and possibly lethal electrical shock. For example, the hot conductor in an electrical device can become exposed through a break in its insulation, and it may end up touching the device's metal enclosure. The leakage current that now flows through the metal enclosure will be conducted to ground through any available path — including the body of a human being that happens to touch the faulty device. This condition is called a Ground Fault, and the current flowing through the person to ground can be life threatening, though there is usually nowhere near enough current to trip a circuit breaker.

How a GFCI Works

When there is a ground fault condition, all of the current flowing through the "hot" conductor is not returning through the neutral conductor. A Ground Fault Circuit Interrupter (GFCI) monitors the difference in current flow between hot and neutral conductors. If the GFCI senses even a very tiny difference in current flow between the conductors (a ground fault), it interrupts the flow of electrical current through the device by opening its internal double-pole contacts. According to UL Standard 943 Class A, the GFCI must trip when there is a ground fault of 5 milliamperes ($\pm 1\text{mA}$). The GFCI must also trip within approximately 25 milliseconds.

GFCI receptacles are rated for 15 or 20 amp circuits. They are used in place of standard box-mounted duplex receptacles. GFCI receptacles can also be feed-through wired to provide ground fault protection to feed-through wired receptacles downstream.

See Section H for information on Leviton's comprehensive line of Ground Fault Circuit Interrupter Devices.

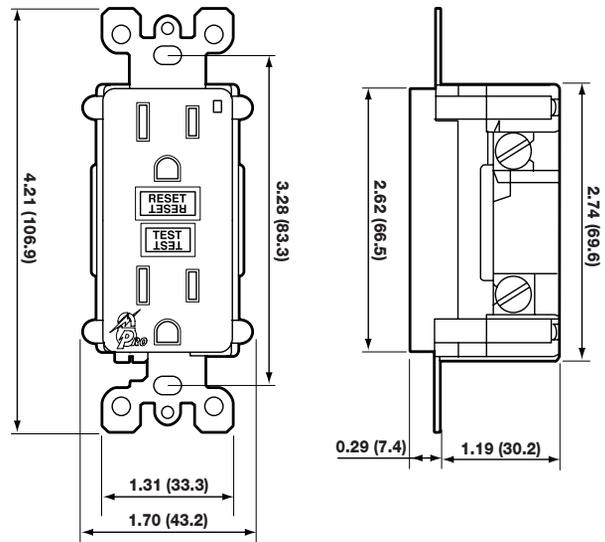

UL 2006 Code Requirements (Effective July 28, 2006)

- If a miswiring (line-load reversal) occurs during installation, the GFCI must not be capable of supplying power to either the GFCI's face or to feed-through terminals
- GFCIs must provide a visual and/or audible indication OR be able to render themselves incapable of delivering power when they no longer offer ground fault protection based on a failure to pass their internal test

Note that the National Electrical Code strongly recommends monthly testing of all GFCIs.

Leviton SmartLockPRO® GFCI with Lockout Action

The TEST and RESET functions on Leviton's SmartLock GFCI work together so that a tripped GFCI cannot be reset if the GFCI circuit is no longer providing ground fault protection. The RESET button is blocked if GFCI protection has been compromised, eliminating the possibility of end-users incorrectly assuming that a reset GFCI is providing ground fault protection when it actually is not.

SmartLockPRO® GFCI RECEPTACLE
7599 Series

Enclosure Type Designations

Enclosures serve the dual purpose of protecting personnel from incidental contact with the enclosed electrical equipment and protecting the enclosed equipment against specified environmental conditions. Enclosures are rated for use in specific environmental conditions by NEMA, UL, CSA and the IEC. The major rating systems used are the NEMA Type Numbers and the IEC Enclosure Classification Designation.

The IEC Enclosure Classification Designation — IP Suitability Ratings

The IP Suitability Ratings are a system for classifying the degree of protection provided by enclosures of electrical equipment. The higher the number in the rating, the greater the degree of protection provided by the enclosure. Note that the rating will ONLY apply to properly installed equipment. The chart below defines the numerals in the IP Code.

1. The First Numeral indicates the degree of protection for persons against access to hazardous parts inside the enclosure and/or against the ingress of solid foreign objects
2. The Second Numeral indicates the degree of protection of equipment inside enclosures against damage from the ingress of water.

Elements of the IP Code

Code Letters	Meaning for the Protection of Equipment	
	First Number	Second Number
Ingress Protection	Against Ingress of Solid Foreign Objects	Against Ingress of Water with Harmful Effects
IP	0 – Non protected	0 – Non protected
	1 – \geq 50 mm diameter	1 – Vertically dripping
	2 – \geq 12.5 mm diameter	2 – Dripping (15 °tilted)
	3 – \geq 2.5 mm diameter	3 – Spraying
	4 – \geq 1.0 mm	4 – Splashing
	5 – Dust-protected	5 – Jetting
	6 – Dust-tight	6 – Power jetting
		7 – Temporary immersion
	8 – Continuous immersion	

Note: > denotes greater than or equal to.

Example: IP 54 Suitability Rating = Ingress Protection/Dust-protected/Splashing

Enclosure Types for Non-Hazardous Locations

NATIONAL ELECTRICAL MANUFACTURERS ASSOCIATION

NEMA Standards Publication No. 250-1991
Enclosures for Electrical Equipment (1000 Volts max.)

Type Designation	Intended Use and Description
	An enclosure is a surrounding case constructed to provide a degree of protection to personnel against incidental contact with the enclosed equipment and to provide a degree of protection to enclosed equipment against the specified environmental conditions.
Type 1	Enclosures are intended for indoor use primarily to provide a degree of protection against limited amounts of falling dirt.
Type 2	Enclosures are intended for indoor use primarily to provide a degree of protection against limited amounts of falling water or dirt.
Type 3	Enclosures are intended for outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust, and damage from external ice formation.

UNDERWRITERS LABORATORIES INC.

UL50
Standard for Enclosures for Electrical Equipment (10th Edition)

Type Designation	Intended Use and Description
	Enclosure — A surrounding case constructed to provide a degree of protection against incidental contact with the enclosed equipment and to provide a degree of protection to the enclosed equipment against specified environmental conditions. A complete enclosure shall be provided for all live parts that may be housed in it. The enclosure shall be tight and, unless designed for a specific installation, such as a cast metal junction or pull box intended to be installed in poured concrete, shall be provided with means for mounting.
Type 1	Indoor use primarily to provide a degree of protection against limited amounts of falling dirt.
Type 2	Indoor use primarily to provide a degree of protection against limited amounts of falling water or dirt.
Type 3	Outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust and damage from external ice formation.

CANADIAN STANDARDS ASSOCIATION

CAN/CSA C22.2 No. 94-M91
Special Purposes Enclosures

Type Designation	Intended Use and Description
	Enclosures — provide a degree of protection against accidental contact with the enclosed equipment, and to the enclosed equipment against specified environmental conditions.
	No CSA equivalent.
Type 2	An enclosure for indoor use, constructed so as to provide a degree of protection against dripping and light splashing of non-corrosive liquids, and falling dirt.
Type 3	An enclosure for either indoor or outdoor use, constructed so as to provide a degree of protection against rain and snow, undamaged by the external formation of ice on the enclosures.

Enclosure Types for Non-Hazardous Locations

NATIONAL ELECTRICAL MANUFACTURERS ASSOCIATION

NEMA Standards Publication No. 250-1991
Enclosures for Electrical Equipment (1000 Volts max.)

Type Designation	Intended Use and Description
Type 3R	Enclosures are intended for outdoor use primarily to provide a degree of protection against rain, sleet, and damage from external ice formation.
Type 3S	Enclosures are intended for outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust, and to provide for operation of external mechanisms when ice laden.
Type 4	Enclosures are intended for indoor or outdoor use primarily to provide a degree of protection against windblown dust and rain, splashing water, hose-directed water, and damage from external ice formation.
Type 4X	Enclosures are intended for indoor or outdoor use primarily to provide a degree of protection against corrosion, windblown dust and rain, splashing water, hose directed water, and damage from external ice formation.
Type 5	Enclosures are intended for indoor use primarily to provide a degree of protection against settling airborne dust, falling dirt, and dripping noncorrosive liquids.
Type 6	Enclosures are intended for indoor or outdoor use primarily to provide a degree of protection against hose-directed water, the entry of water during occasional temporary submersion at a limited depth, and damage from external ice formation.
Type 6P	Enclosures are intended for indoor or outdoor use primarily to provide a degree of protection against hose-directed water, the entry of water during prolonged submersion at a limited depth, and damage from external ice formation.
Type 12	Enclosures are intended for indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping noncorrosive liquids.
Type 12K	Enclosures with knockouts are intended for indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping noncorrosive liquids.
Type 13	Enclosures are intended for indoor use primarily to provide a degree of protection against dust, spraying of water, oil, and noncorrosive coolants.

UNDERWRITERS LABORATORIES INC.

UL50
Standard for Enclosures for Electrical Equipment
(10th Edition)

Type Designation	Intended Use and Description
Type 3R	Outdoor use primarily to provide a degree of protection against rain, sleet, and damage from external ice formation.
Type 3S	Outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust, and to provide for operation of external mechanisms when ice laden.
Type 4	Indoor or outdoor use primarily to provide a degree of protection against windblown dust and rain, splashing water, hose-directed water, and damage from external ice formation.
Type 4X	Indoor or outdoor use primarily to provide a degree of protection against corrosion, windblown dust and rain, splashing water, hose-directed water and damage from external ice formation.
Type 5	Indoor use primarily to provide a degree of protection against settling airborne dust, falling dirt, and dripping noncorrosive liquids.
Type 6	Indoor or outdoor use primarily to provide a degree of protection against hose-directed water, the entry of water during occasional temporary submersion at a limited depth, and damage from external ice formation.
Type 6P	Indoor or outdoor use primarily to provide a degree of protection against hose-directed water, the entry of water during prolonged submersion at a limited depth, and damage from external ice formation.
Type 12	Indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping noncorrosive liquids.
Type 12K	Indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping noncorrosive liquids.
Type 13	Indoor use primarily to provide a degree of protection against dust, spraying of water, oil, and noncorrosive coolant.

CANADIAN STANDARDS ASSOCIATION

CAN/ CSA C22.2 No. 94-M91
Special Purposes Enclosures

Type Designation	Intended Use and Description
Type 3R	An enclosure for either indoor or outdoor use, constructed so as to provide a degree of protection against rain and snow, undamaged by the external formation of ice on the enclosure.
Type 3S	An enclosure for either indoor or outdoor use, constructed so as to provide a degree of protection against rain, snow and windblown dust, the external mechanism(s) remain operable while ice covered.
Type 4	An enclosure for either indoor or outdoor use, constructed so as to provide a degree of protection against rain, snow, windblown dust, splashing and hose-directed water; undamaged by the external formation of ice on the enclosure.
Type 4X	An enclosure for either indoor or outdoor use, constructed so as to provide a degree of protection against rain, snow, windblown dust, splashing and hose-directed water; undamaged by the external formation of ice on the enclosure.
Type 5	An enclosure for indoor use, constructed so as to provide a degree of protection against dripping and light splashing of noncorrosive liquids and settling dust, lint, fibers, and flyings.
Type 6	An enclosure for either indoor or outdoor use, constructed so as to provide a degree of protection against the entry of water during occasional temporary submersion at a limited depth; undamaged by the external formation of ice on the enclosure.
Type 6P	An enclosure for either indoor or outdoor use, constructed so as to provide a degree of protection against the entry of water during prolonged submersion at a limited depth; undamaged by the external formation of ice on the enclosure; resists extended corrosion.
Type 12	An enclosure for indoor use, constructed so as to provide a degree of protection against circulating dust, lint, fibers, and flyings; dripping and light splashing of noncorrosive liquids; not provided with knockouts.
Type 12K	An enclosure for indoor use, constructed so as to provide a degree of protection against circulating dust, lint, fibers, and flyings; dripping and light splashing of noncorrosive liquids; and provided with knockouts.
Type 13	An enclosure for indoor use, constructed so as to provide a degree of protection against circulating dust, lint, fibers, and flyings; seepage and spraying of noncorrosive liquids including oils and coolants.

NEMA and IEC Enclosure Classifications

Comparing NEMA Enclosure Type Numbers and IEC Enclosure Classification Designations (IP Suitability Rating)

IEC

IEC Publication 529, "Classification of Degrees of Protection Provided by Enclosures", defines the IP (Ingress Protection) Suitability Rating. The IP Suitability Rating is a system for classifying the degree of protection provided by enclosures of electrical equipment. The higher the number in the rating, the greater the degree of protection provided by the enclosure. The first numeral of the code indicates the degree of protection for persons against access to hazardous parts inside the enclosure and/or against the ingress of solid foreign objects. The second numeral indicates the degree of protection of equipment inside enclosures against damage from the ingress of water. For a more detailed explanation of the IP Suitability Code, refer to page U-12.

The IP Suitability Rating defined by IEC 529 does not specify any degree of protection against mechanical damage of equipment, risk of explosions, or conditions such as moisture (i.e. condensation), corrosive vapors, fungus, or vermin.

NEMA

NEMA Standards Publication 250 defines the NEMA Enclosure Type Numbers. Unlike the IEC Enclosure Classification Designations, NEMA Standards Publication 250 does tests for environmental condition such as corrosion, rust, icing, oil and coolants. For this reason and because the tests and evaluations for other characteristics are not identical, the IEC Enclosure Classification Designations cannot be exactly equated with NEMA Enclosure Type Numbers.

The table below provides an equivalent conversion from NEMA Enclosure Type Numbers to IEC Enclosure Classification Designations. Note that the NEMA Types meet or exceed the test requirements for the associated IEC Classifications. Therefore, this table cannot be used to convert from IEC Classifications to NEMA Types.

Converting NEMA Type Numbers to IEC Classification Designations

(Note: This table cannot be used to convert IEC classification designations to NEMA type numbers)

NEMA Enclosure Type Number	Equivalent IEC Enclosure Classification Designation
1	IP10
2	IP11
3	IP54
3R	IP14
3S	IP54
4 and 4X	IP56
5	IP52
6 and 6P	IP67
12 and 12K	IP52
13	IP54

Materials Used in Wiring Devices

The following is an overview of the materials commonly used in wiring devices. Note that specific brand names of materials used in Leviton devices are subject to change due to a variety of factors. These changes will never compromise the quality, performance and durability features of our wiring devices. Leviton is committed to maintaining the positive qualities of the materials being replaced and choosing new materials with superior qualities as they become available.

Brass

The type of brass commonly used in wiring devices is referred to as standard or "70/30" brass. It is an alloy of 70% copper and 30% zinc that provides the strength and conductivity needed for power and ground contacts, wiring terminals and terminal screws. It is also used for some mounting straps and wallplates.

The Olin Corporation offers a series of alloys sometimes referred to as

High Performance Brass or "Olin Brass." Olin brass is a copper alloy consisting of more than 90% copper. It is more resilient than 70/30 brass and used by Leviton to form the power contacts in some Industrial Grade and Hospital Grade devices.

Phosphor Bronze

Phosphor Bronze, an alloy of copper and tin, is superior in strength to 70/30 brass. The advantage of using phosphor bronze parts is that they can be thinner than comparable parts made of standard brass without any loss in strength. For example, Leviton uses a phosphor bronze alloy of 95% copper and 5% tin to form power contacts in some Industrial Grade receptacles. Phosphor bronze power contacts at .031" outperform brass power contacts of a thicker gauge.

Beryllium Copper

An alloy of copper and .5% beryllium is used to form some of the components in Leviton Industrial Grade devices. Beryllium Copper provides excellent strength, durability, electrical conductivity. It also retains its resiliency at elevated temperatures. These properties make Beryllium Copper ideal for the contact arm in heavy-duty switches.

Silver-Cadmium Oxide

Although pure silver is an excellent conductor (superior to copper), it cannot be used for switch contacts. Over time, arcing caused by actuation would weld the silver contacts together. Silver-cadmium oxide, an alloy of 90% silver and 10% cadmium oxide, is widely used by Leviton to form switch contacts. Microscopic particles of cadmium oxide in the silver will decompose due to the heat buildup, preventing the contacts from welding together.

Zinc-Plated Steel

In addition to being strong and durable, zinc-plated steel provides a higher degree of corrosion resistance than standard cold-rolled steel. Leviton uses zinc-plated steel mounting straps in many of their devices. Leviton also offers zinc-plated steel wallplates for power receptacles, available with either a brass or aluminum finish.

Nickel-Plated Metals

Nickel-plating adds a high degree of corrosion resistance to either brass or steel. All the metal parts in Leviton Corrosion Resistant devices (blades, contacts, terminals, mounting straps and screws) are nickel-plated for maximum corrosion resistance. In some cases, cupronickel screws are used, which provide a high degree of corrosion resistance.

Leviton uses an electroless nickel-plating process. The standard plating process uses an electrical charge to coat the metal with nickel. This can produce uneven results, leaving some areas of the metal more coated than others. The more effective electroless process involves submerging the metal in a chemical bath where salts decompose and deposit nickel on the metal substrate. Every surface of the metal is evenly coated. Leviton uses this electroless process to ensure that their Corrosion Resistant wiring devices provide maximum performance in extremely damp and corrosive environments.

Stainless Steel

Type 430 Standard Stainless Steel

Type 430 stainless steel is resistant to the corrosive effects of moisture. Leviton offers a wide selection of wallplates made from this material. Leviton's Raintight-While-In-Use Covers are supplied with stainless-steel mounting screws to help ensure a long service life in wet applications. Note that Type 430 Stainless Steel does have magnetic properties that may interfere with magnetic-sensitive equipment.

Type 302/304 Non-Magnetic Stainless Steel

Type 302/304 Non-Magnetic Stainless Steel is suitable for applications where sensitive equipment may be affected by magnetic material. For example, navigational equipment in marine applications and MRI equipment in health care environments are susceptible to magnetic interference. In addition to being non-magnetic, Type 302/304 stainless Steel is more corrosion resistant than Type 430 stainless steel. Types 302 and 304 differ in composition, but there is virtually no difference between them in terms of non-magnetic and corrosion-resistant properties.

Leviton offers a complete selection of wallplates made of Type 302/304 Non-Magnetic Stainless Steel. These wallplates are ideal for any application where magnetic interference must be avoided. Leviton's Corrosion Resistant wiring devices feature non-magnetic stainless steel assembly screws to ensure their suitability in marine applications. For health care applications where non-magnetic devices are desired, Leviton's Corrosion Resistant devices should also be used.

CO/ALR Devices

Aluminum is used for residential wiring in Europe because it is a good conductor and considerably cheaper than copper. Houses with aluminum wiring were built in the United States, but the practice stopped at least twenty years ago. It was discovered that poor connections between aluminum wire and steel or brass terminal screws led to serious fires. There are still homes with aluminum wiring, and the National Electrical Code stipulates that only CO/ALR devices are to be used in these applications.

Aluminum wire tends to oxidize over time, and the oxide layer does not conduct electricity. This results in a poor connection with the wiring device terminal screws, particularly if they are steel. The connections gradually heat up to the point where fires are started inside the walls. For this reason, all standard wiring devices contain the warning, "For use with copper or copper-clad wire ONLY. Do not use with aluminum wire." The only exception to this are CO/ALR wiring devices.

Leviton offers a selection of CO/ALR devices for use with aluminum wire. In CO/ALR devices, the terminal screws are plating with the element Indium. Indium is an extremely soft metal that forms a gas-sealed connection with the aluminum wire, eliminating problems caused by oxidation.

Thermoset and Thermoplastic Material

There are significant benefits in using thermoplastics in wiring devices instead of thermosets. Each type of thermoplastic also has particular characteristics that may make it ideally suited for a specific application.

Thermosets

Thermoset components are manufactured by compression molding, where powdered material is molded by heat and pressure. Thermoset materials cannot be remolded. The major types of thermoset materials are Phenolic, Urea and Melamine. Phenolic is primarily used for dark colors, while Urea is used for lighter colors.

All thermoset materials provide dimensional stability when used in wiring devices. Phenolic is also a flame-resistant material. Thermosets do not provide a high degree of resistance to impacts, chemicals and solvents, and therefore they are not suitable for heavy-duty applications. Thermosets are not used in Leviton Industrial Grade devices. Urea is still widely used to manufacture wallplates.

Thermoplastics

Thermoplastic components are manufactured by injection molding where pellets of the material are heated to a liquid which can flow into a mold. Unlike thermosets, thermoplastics can be remolded. These materials are the preferred choice for heavy-duty applications because they provide superior resistance to impacts, chemicals and solvents compared to thermosets. The following is a list of the major types of thermoplastic materials, along with some well-known brand names.

- Nylon: Zytel® 101 Type 66 and Zytel Supertough ST 801 Type66
- Polycarbonate: Lexan®, Calibre®, Makrolon®
- Polyester: Valox®, Rynite®
- ABS
- Acrylic
- Polypropylene

Zytel® and Rynite® are registered trademarks of the Dupont Co.
Lexan® and Valox® are registered trademarks of the General Electric Co.
Calibre® is a registered trademark of the Dow Chemical Co.
Makrolon® is a registered trademark of Bayer, Inc.

Chemical Resistance of Materials Commonly Used in Wiring Devices*

CHEMICALS	Nylon	Melamine	Phenolic	Urea	Polyvinyl Chloride	Poly-carbonate	Rubber	Polyester	Poly-propylene
Acids	C	B	B	B	A	B	B	A	A
Alcohol	A	A	A	A	A	A	B	A	A
Caustic Bases	A	B	B	B	A	C	C	B	A
Gasoline	A	B	A	C	A	B	B	A	A
Grease	A	A	A	A	A	B	B	A	A
Kerosene	A	A	A	A	A	B	A	A	A
Oil	A	A	A	A	A	B	A	A	A
Solvents	A	A	A	A	C	C	C	B	B
Water	A	A	A	A	A	A	B	A	A

A – Completely resistant — Good to excellent for general use.
B – Resistance is fair to good — Recommended for limited service.
C – Slow attack. No recommended for use.

Thermoplastic Enhancements

UV Stability

Thermoplastics provide varying degrees of UV (Ultraviolet Light) stability. For example, standard grade nylon will lose tensile strength and durability when exposed to sunlight and weathering. Discoloring will also occur. There are additives that will increase the UV stability of thermoplastics. UV Stabilized thermoplastics should be used when a device is intended for extensive outdoor use. For example, Leviton uses UV-stabilized Lexan in their Raintight-While-In-Use Cover, with excellent results.

Glass-Reinforced Thermoplastics

Several types of thermoplastics are available in glass-reinforced versions, including Rynite®, Lexan®, Valox® and nylon. Glass reinforcement increases the rigidity of the material and also raises the operating temperature. For example, Leviton Momentary and Maintained Contact Switches feature glass-reinforced thermoplastic construction, making these switches ideally suited for rugged applications.

Telephone Wiring Devices Codes and Standards

Industry Standards

At Leviton, our concern since deregulation has been the proliferation of poor quality devices and equipment being attached to the network. These devices meet few of the customary standards for mechanical integrity and combustibility and have caused a number of problems for those who have installed them.

The responsibility for ensuring that no sub-standard devices are connected to the network rests on everyone's shoulders. In fact, the FCC recently issued a Public Notice strongly reminding manufacturers, carriers and customers that the manufacture and installation of sub-standard devices and equipment will not be tolerated — and that a substantial fine is the penalty for noncompliance. Recently, organizations such as the Federal Communications Commission (FCC), Underwriter's Laboratories (UL), the Canadian Standards Association (CSA), and the Telecommunications Industry Association (TIA) have been developing standards for premise wiring systems. Additionally, Article 800 of the National Electrical Code (NEC), published by the National Fire Protection Association (NFPA), mandated "listing" of equipment connected to telecommunications networks. Leviton has always played a role in the standards-making process and will continue to do so. We wholeheartedly support this new standards environment.

Industry Basics: Drawing the Line

The dividing line between public network and customer premises is called the demarcation point. Equipment, including wiring, on the network side of the demarcation point is the property and responsibility of the local telephone company (telco). Equipment and wiring on the customer side is the responsibility of the customer, who may procure equipment, materials, and service from the provider of their choice. A subscriber network interface (SNI) often called a "demarcation jack", is recommended to be installed at the demarcation point. A standard registered jack is often used at this point so that the network and the premise wiring system can be quickly separated from each other. The location of the SNI depends on local rules and on such factors as the number of units in the facility, access, and the type and age of connecting hardware. The SNI may be inside the building or outside.

FCC Part 68 Requirements

The equipment standards outlined in FCC Part 68 were developed long before divestiture to assure consumers, manufacturers and carriers that terminal equipment and wiring could be connected without degrading the network. Part 68 describes minimum requirements for the mechanical or physical properties of wiring devices such as the amount of gold on jack contacts, electrical performance, dimensional integrity, material properties, and spring characteristics of contacts. Only equipment meeting FCC Part 68 standards may be manufactured and connected to the network. The vast changes that have occurred in the industry because of evolving deregulation have made it necessary to modify Part 68. To this end, FCC Wiring Docket 88-57 was issued in 1990. There have been numerous attempts to change this docket; however, as of this writing, the following guidelines are true:

- Since 1984, Part 68 specified that all connections to the network be made through the standard plugs and standard telephone company-provided jacks described in Subpart F or Part 68. Now, Docket 88-57 permits customers to connect to the carrier's jack or wiring.
- The demarcation point has been redefined to be not more than 12 inches from the protector, or when no protector is present, 12 inches from the point of entry to the premises. In the past, the demarcation point could extend into the customer premise hundreds of feet, if necessary, depending on the wiring application. The new 12-inch ruling limits the carrier's access to the customer premise.
- The carriers are not responsible for customer wiring unless they have an agreement for such responsibility. Because the customer can now install a jack at the network interface, the customer is responsible for any wiring errors and malfunctions that occur.

- The "extraordinary procedures," acceptance testing, and carrier notification for wiring clause has been eliminated. The carrier is no longer required to take steps to protect the network from harm when there is a violation of Part 68 a failure during testing of newly installed wiring, or when harm has actually occurred. Once again, because the carriers now have less access to the customer premise, they will also have less responsibility in maintaining the network.
- Customer-provided, as well as carrier-provided plugs and jacks must meet Subpart F of Part 68 when newly installed on or after January 1, 1991. Prior to this ruling, Part 68 could be interpreted to require that only the jack at the network interface conform to Part 68.

Beware of the Number Game

FCC Part 68, Subpart F, specifies that contacts in the telephone jacks must have 50 micro-inches of gold over 100 micro-inches of nickel. Some manufacturers claim .5 microns of gold plating on their jack contacts. At 39.37 micro-inches per micron, that's only 19.7 micro-inches — less than half of what is required to meet FCC Part 68 specifications. If jack contacts have not been plated with the right thickness or quality of gold, corrosion at these critical points can cause signal degradation, equipment failure, and even damage to the public telephone network. Data networks are more at risk because even slight imperfections result in transmission error or data loss.

Reduce Risks — Specify Leviton

There are no two ways about it. The risk to your operation and equipment is so great that it only makes sense to insist on top-quality station products. When you specify Leviton jacks, you're assured maximum contact life with minimum resistance. We start with durable phosphor-bronze contacts and plate them with a full 50 micro-inches of lubricated hard gold over 100 micro-inches of nickel (or the electrical performance equivalent as specified in FCC Part 68 requirements). Jack openings are built within precise tolerances. High-quality thermoplastic rated UL 94V-0 resists distortion from changes in temperature and humidity, physical stress, and aging. Spring contacts are engineered to maintain positive contact pressure over the life of the device.

Telecommunications Industry Association Standards

If FCC regulations protect the telephone network from harm and UL requirements protect the consumer from harm, who is responsible for providing performance standards for the telecommunications industry? Recently, the FCC asked the Telecommunications Industry Association (TIA), a sister organization of the Electronic Industries Association (EIA), to take on this task, and they accepted the challenge. The TIA was asked to define minimum standards for such things as how to wire a building, what kind of wire to use, and so on. The following standards went into effect in 1991.

- **Pathway Standard (EIA/TIA 569-A):** This standard for installing pipe and conduit in commercial buildings is now available through TIA and the American National Standards Institute (ANSI).
- **Residential/Light Commercial Wiring (EIA/TIA 570):** A draft of this standard, which applies to premises with up to four telephone lines, has been reviewed by ANSI and TIA committees and released.
- **Commercial Wiring Standard (EIA/TIA 568-A):** The Commercial Wiring Standard applies to premises with more than four telephone lines. This draft has also been reviewed and released by ANSI and TIA committees. At time of printing, the standards are undergoing major revisions and are currently up for ballot.

We're the "Standards" People

Because Leviton is an active participant in the formation of North American codes and standards, you can be assured that our product development activities fully support this emerging standards environment. In fact, we have prepared several publications which describe standard practices and provide installation guidelines for contractors. Many Leviton distributors also sponsor training programs dealing with telecom wiring. And, of course, Leviton's Applications Engineering Group is always ready to assist you with any questions you may have about standards and codes, standard practices, or any installation problem.

Wire Color Codes and Jack Pin Designations

Electrical Network Connection

From 1 to 25 single or multiple-pair circuits bridged to the network or other connected equipment.

Mechanical Arrangement

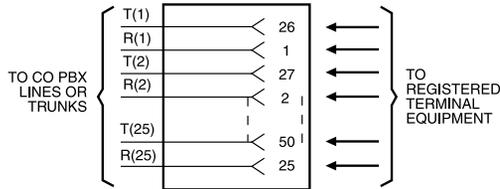

Circuits are provided on numbered tip and ring positions on a miniature 50-pin ribbon connector (Amphenol-type). Pins 1 (ring) and 26 (tip) are considered position 1. Pins 2 (ring) and 27 (tip) of the ribbon connector are position 2. This pairing continues through twenty-five pairs.

Typical Usage

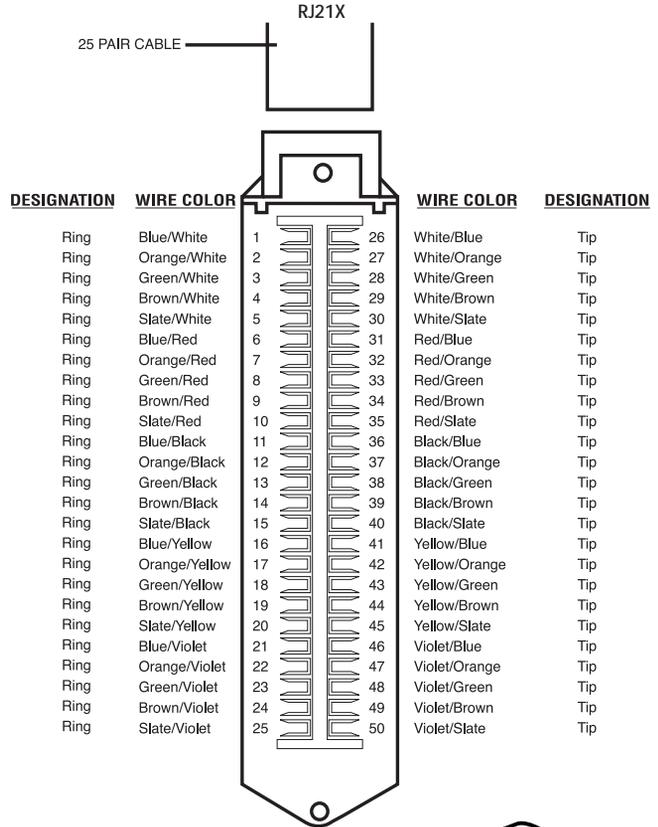

Many key and PBX systems specify the RJ21X, or 'Amphenol-type' as the network interface device. Many of these systems also use the RJ21X as a connector for stations or telephone sets, wired from the KSU or PBX Main Distribution Frame.

Note: Sometimes an RJ11 or RJ14C can be installed in place of an RJ21X. While many smaller systems that require only a few lines may show the RJ21X as the 'official' jack required under registration, less complex jacks such as the RJ11 or RJ14C can often be specified (perhaps in multiples). If the system requires only a few lines but the RJ21X is specified on the registration label, under FCC Part 68 you may specify the RJ11C, RJ14C, RJ25C, or RJ61X instead.

Many Leviton jacks can be used for the RJ21X configuration where 'intermixing' is permitted. Substitution of these special jacks is often both economical and practical. Contact Leviton Telcom Applications Engineering for information about versions to meet your requirements.

25-PAIR COLOR CODING/ISDN CONTACT ASSIGNMENTS

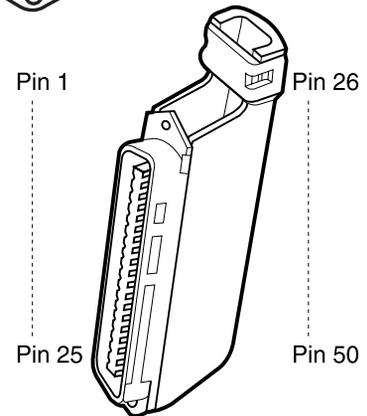

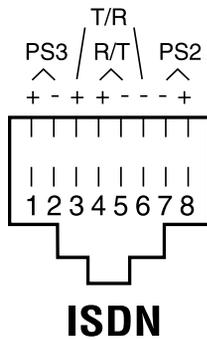

ISDN Assignment of Contact Numbers as specified by ISO Document 8877: 1987 (E)

Contact assignments for plugs and jacks:

CONTACT NUMBER	TE	NT	POLARITY
1	Power source 3	Power sink 3	+
2	Power source 3	Power sink 3	-
3	Transmit	Receive	+
4	Receive	Transmit	+
5	Receive	Transmit	-
6	Transmit	Receive	-
7	Power sink 2	Power source 2	-
8	Power sink 2	Power source 2	+

Note: For use in TE to TE interconnections, power source/sink 3 shall conform to the requirements specified in CCITT Recommendation 1.430, section 9.2 for power source/sink 2.

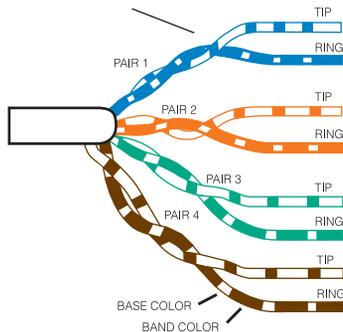

WIRE COLOR CODES

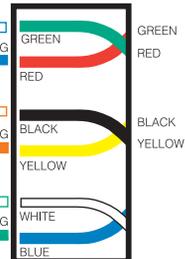

Standard 4-Pair Wiring Color Codes		
PAIR 1	T	White/Blue
	R	Blue/White
PAIR 2	T	White/Orange
	R	Orange/White
PAIR 3	T	White/Green
	R	Green/White
PAIR 4	T	White/Brown
	R	Brown/White

Note: For 6-wire jacks use pair 1, 2 and 3 color codes. For 4-wire jacks use pair 1 and 2 color codes.

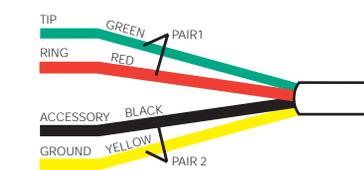

A. Band-Striped Twisted-Pair Wire

B. Solid-Color Twisted-Pair Wire

C. Quad Wire* (Solid-Color, Non-Twisted Wire)

***CAUTION**
Quad wire is no longer acceptable for installation in multi-line environments. If encountered during a retrofit, quad wire should be replaced with 100Ω UTP. Connecting new quad to installed quad will only amplify existing problems and limitations associated with quad wire; leaving existing quad in place and connecting 100Ω UTP to it may also be ineffective, as the quad wire may negate the desired effect of the UTP.

Access Everything Leviton on One, Easy-to-Use Website

Clean, modern and easy to navigate, our redesigned website consolidates all Leviton product group sites into a single domain—leviton.com. Whether you're an electrical professional or consumer, you'll find everything Leviton has to offer at your fingertips, from our database-driven product catalog to company news, services and customer support.

leviton.com at a glance:

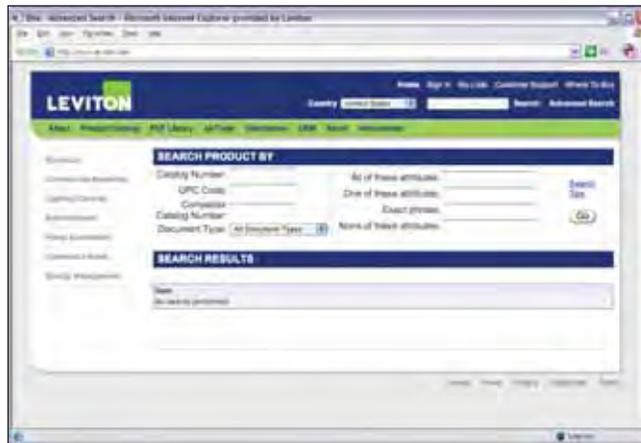

- Pull-down menus link to our complete catalog for all Leviton products
- Powerful, user-friendly search capability
- New Distribution, OEM and Retail sections target your market
- Clean, modern and easy to navigate design
- One comprehensive website where you can browse between product families without having to go to multiple websites
- And much more...

Start at the Leviton Home Page, your portal to the wide world of leviton.com

Select your area of interest

Find what you're looking for with our powerful search engine

Explore the Product Catalog and create lists for your next project

100,000,000+ homes,
20,000+ products,
100+ years,
1 brand...

LEVITON  [®]

Leviton Manufacturing proudly presents our new look. A concise visual expression to help better communicate the qualities that make us the unique, one-of-a-kind industry leader customers and distributors have come to know and trust over the past one hundred years. This trust is at the core of our success, and we pledge our continued devotion to the pursuit of excellence every day, in everything we do.
