Engineered for Excellence

Technical innovation is central to what people have come to expect from the WAC Lighting brand. Advancements in light sources, materials engineering, electronics, and architecture have always allowed us to push the boundaries of engineering and inspire our designs. In engineering our products, no detail is too small to overlook. We are committed to superior design for function and aesthetics, solving difficult challenges, as well as building products to last.

Artisan Craft

Engaging designers and artisans, we continue to build inroads in the creation of art glass lighting that combines old world techniques with modern styles and colors. To respect the craft, we search worldwide for innovative artistic styles developed out of the creative liberties of the master glass blowers. To acknowledge local art cultures, we go to the sources for authenticity: Italy for works of Murano fused glass fashion; Germany for technically perfect crisp whites and clear glasswork; the North American Pacific northwest for brilliant colors and organic creativity. All the while, we incorporate cutting edge lighting technologies to showcase these works of art.

Paint with Light

The wonderful thing about light is that for the human experience, light generates curiosity, evokes emotions, helps us find our way, and defines our perception of beauty and grace. We are humbly the toolmakers of light. But in the hands of an imaginative artist, our simple tools create wonders of exceptional design that both serve our visual needs and enhance our appreciation of a space.

LAN CLUB Shanghai Restaurant

Customized canopy mounted LED009-WW framing projectors with butterfly gobo insert and 4" LEDme™ warm white recessed downlights

Proprietary Design

A well designed product meets the user's needs while solving problems cleverly and rewarding the user with freedom and enjoyment in unexpected ways. Our designers incorporate this standard in each and every project, surprising us with freshness and ingenuity. We welcome you to explore this new catalog for things that may surprise you too and join us in the pursuit of exceptional lighting.

Responsibility

Nearly 90% of WAC Lighting products, including components, are fabricated at our family owned, 750,000-square foot campus. We practice Responsible manufacturing. Zero-landfill, energy conservation, stringent sourcing, water recycling , daylight harvesting, and lead-free fabrication are just a few of the strategies we implement.

As you get to know us, allow us to hear from you so that we can better serve you in the future. Thank you.

Shown: Misticá Pendant, **MP-962-RF/BN** (p.12)

Pacific Northwest Collection

Inspired by mother nature's beauty, this collection of mouth blown art glass features unique pendant and sconce designs from a richly historic region. Bold textures and vivid colors incorporate artisan techniques inherent to the boutiques that created these original pieces that are representative of the American art glass culture.

Dramatic lighting fashion comes alive with meticulous attention to detail with speckled designs, jeweled drop finials, natural striations, delicate curves, mouth blown glass vessels, and striking color combinations.

Each is a work of art. One of a kind.

Made in the USA.

Industrial Collection

Avant Garde

Pendants

American artists of the Avant Garde period were pioneers in challenging the established art principles, expressing their pursuit of something new in living art and architecture alike. This movement was the hallmark to Modernism.

The Avant Garde series transcends this pursuit to sustainability in modern lighting.

Zeitgeist

An expression derived from the German words for time (Zeit) and spirit (Geist), Zeitgeist was commonly used in the 1920's to refer to "the spirit of the age." Modern living was both progressive and optimistic, referring to everything from jazz to feminism to city life.

Our Zeitgeist set of pendants, flush mounts, semi-flush mounts and sconces captures the same spirit of innovation in the use of form and sustainable technology.

Crystal Collection

Make a statement with elegant crystal integrating energy efficient LED technology with sophisticated taste and beauty. From a jellyfish with shimmering crystal beaded tentacles, to the jewelry finished Cascade, these crystal creations offer stunning accents for any space.

Selected as individual accent pieces or grouped together, our award-winning Beauty Spots create a custom lighting sculpture in a pattern or random array. Create drama by rendering a wonderful sparkle, a unique, bright splash of illumination or an eye catching pattern on the ceiling.

Crystal Collection

Dorian

Pendants

Whether on a lonely journey or swimming in schools, our Dorian pendants make an artistic statement that acknowledges the marvels under the sea. Hundreds of minute crystal beads positioned with originality resemble the organic motion of jellyfish tentacles as they delicately maneuver the surf. The Dorian pendant is mouth blown in the Pacific Northwest with thin layers of dichroic glass applied by hand to mimic the iridescent shimmer of these remarkable creatures.

European Collection

Highly coveted hand crafted Murano glass comes alive in graceful teardrop profiles, high style glass cane styles, stunning multi-colored originality and timeless elegance.

Combining ornate forms, modernistic touches and visual relief, Murano art glass originated with the world's finest glassmakers on a small island in the Adriatic Sea dating back to the ninth century. Couture, Carnival and Fiore pendants showcase rich old world Italian craftsmanship, art glass innovation, contemporary elements and alluring materials.

Inspired by idyllic natural elements of winter, cool captivating pendants feature clear, opal, frosted, etched and dichroic mouth blown art glass from fine glassmakers in Germany.

Inspired by ice crystals, skaters on a frozen lake and early winter morning icicles, distinctive German pendants are offered in conical, contoured and square forms and styles. From Clarity to Ambrosia, pendants are designed with a variety of unique effects including, multiple layers, Mayan lines, cased glass, glacial motifs, and embossed rings.

Shown: Tigra Pendant, **MP-933-AM/DB** (p.73)

Artisan Collection

Showcasing bold and beautiful artistry from small producers, our colorful montage of pendants and wall sconces fuses multi-colored art glass with unique patterns and techniques invented by the heart and soul of the artisan.

Vibrant art forms include the hand carved Cameo, the resplendent peacock feather of Coquette, multi-layered grain found in Zanzibar, crackled and crushed glass of Rhu and Micha, the drama of Tigra stripes, the impressive abstract of Flava, soda dipped bubble glass of Rhea, and the unprecedented panache of Aurora and Trista. It is the vision of the artisan that helps create these visual wonders, noted for their eye-catching colors and time honored craftsmanship.

Artisan Collection

Rhea

Pendants

The white Rhea is mouth blown cased glass with a soda dip resulting in a unique air bubble effect, giving the glass a textured look with a smooth, glossy surface.

The blue and umber Rhea are mouth blown cased glass, textured and mottled with various size and color frits, incorporating lightly saturated hues and subtle textures that vary in shade and intensity with changes in light.

Manhattan

A family of architectural grade decorative luminaires, Manhattan offers a clean, transitional look for the discriminating designer of public spaces. The stainless steel luminaires are available with both opal glass and opal acrylic diffusers. This complete design series includes grand pendants for large spaces, semi-flush and flush mount fixtures and ADA and large scale wall sconces. Energy efficient CFL lamps are offered as well as traditional light sources. Brushed nickel and bronze metalwork is applied.

Manhattan Pendant

Robust engineering coupled with a classical contemporary design makes the Manhattan perfect for the public spaces of offices and conference rooms.

Quick Connect™ Socket Sets

- Low Voltage Quick Connect™ socket sets include a 6 foot braided cable that may be cut in the field to the desired height
- Longer socket sets may be ordered separately up to 12 feet

Quick Connect™ Pendants

500 Series Line Voltage Socket Set

- Dimmable
- Bulb shield used to secure shade to socket
- Includes 120V, 50W halogen lam

PLD-HTK501 8ft
PLD-LTK501 8ft
PLD-JTK501 8ft

500 Series LEDme™ Socket Set

- Dimmable with Electronic Low Voltage (ELV) dimmer
- Threaded ring used to secure shade to socket
- 30,000 hour life
- Energy efficient
- No projected UV or IR light

QP-LED503 6ft
QP-LED503X12 12ft

500 Series Low Voltage Socket Set

- Dimmable
- Bulb shield secures shade to socket
- Includes 12V, 50W halogen bi-pin
- 20W and 35W lamps available to reduce glare (see p.412)

QP-501 6ft
QP-501X12 12ft

600 Series Socket Set

- Dimmable
- Height adjuster used to position lamp inside the shade
- Bulb shield included
- Includes 12V, 50W halogen lamp
- 20W and 35W lamps available to reduce glare (see p.412)

QP-601 6ft
QP-601X12 12ft

700 Series Socket Set

- Dimmable
- Support rods used to adjust height of the shade with the use of a collar
- Includes 12V, 50W xenon lamp

QP-701 6ft
QP-701X12 12ft

900 Series Low Voltage Socket Set

- Dimmable
- Includes collar with threaded set screw to allow for varying lamp positions inside the shade
- DO NOT rest glass on socket base
- Includes 12V, 50W xenon lamp
- MR16G can be used depending on shade selection
- 500 series LEDme™ socket set can be used with select 900 series pendants
- Pendant will sit on top of the socket as shown in the diagram

Wall Sconces

Customize residential and commercial décor with unique and stylish decorative wall sconces to illuminate hallways and rooms. Additional layers of light provided by sconces matched with general lighting from recessed down lights improve the aesthetic appeal of any space. Our sconces feature over 100 stunning looks and incorporate art glass colors from around the world. Sconces may be paired with pendants for superlative design continuity.

Three distinctive round finished metal back plates, including a curved arm and two original torch styles.

Many ADA compliant choices are offered in both low and line voltage. Energy efficient compact fluorescent choices are also available.

Quick Connect™ Fixtures

Shown: Forza Fixture, QF-LED173X3-BN/BN on Solorail™ (p.143)

Quick Connect™ Fixtures

Look to WAC Lighting's Quick Connect™ Fixtures for an assortment of contemporary track options in halogen, xenon, and LED light sources. Quick and easy to install, WAC Quick Connect™ Fixtures enable versatility of design concepts with mounting options to any of our Quick Connect™ system adapters including various canopies, rails, and low and line voltage track.

Functional yet fashionable, these luminaires have been developed for both residential and commercial applications. Customize to suit your needs with 120V Track, Linear Track, Solorail™, Duorail™, Flexrail1™, Flexrail2™ and canopy systems.

Contents

LEDme™ Fixtures	143
Low Voltage Fixtures with Shades	147
Low Voltage Fixtures	149

- Comparable to 35W MR16 lamp
- Dimming to 15% or better, depending on system power supply minimum loads
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- 30,000 hour potential life
- Replacement LED module may be ordered separately (p.411)
- 360° horizontal rotation and 90° vertical adjustment
- Die-cast aluminum construction

Forza
173

Orb
171

The uniquely designed Orb retains the same profile regardless of the aiming direction.

Example: **QF-LED173X3-BN**

	Model #	Extension 3" 6" 12"	Finish	CBCP at 20°
Orb	QF-LED171	X3, X6, X12	BN, CH, DB	1854

Quick Connect™ Canopies

Shown: Ingo Pendant, **QP913-RD/BN** (p.55) on **QMP-1RN-TR-BN** (p.156)

Quick Connect™ Pendant and Fixture Canopies

Our expanded family of canopies offers a variety of shapes, finishes and styles for monopoint and multipoint applications. These canopies support the use of any of our hundreds of Quick Connect™ pendants and fixtures.

Using just a one-watt minimum load, Quick Connect™ canopies are also engineered to accommodate LEDme™ pendants and fixtures for maximum dimming capability with integral electronic transformers and electronic low voltage dimmers.

Multipoint Canopies	157

Quick Connect™ Monopoint Canopies

Quick Adjust™ Pendant Canopy

- Integral electronic transformer
- Dimmable with Electronic Low Voltage (ELV) dimmer
- Quick Adjust™ cable (*patent pending*)
- Adjustable pendants can be lowered to meet your specifications
- For use with a 4" junction box, includes collar for shallow junction box
- No exposed hardware

Example: **MP-60E-BN**

Model #	Finish
MP-60E	BN, CH, DB
Min. Load: 1W	Max Load: 60W

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze

Quick Connect™ Adapter Canopy

- Integral electronic transformer
- Dimmable with Electronic Low Voltage (ELV) dimmer
- For use with a 4" junction box, includes collar for shallow junction box
- No exposed hardware

Example: **QMP-60ERN-DB**

Model #	Finish
QMP-60ERN	BN, CH, DB
Min. Load: 1W	Max Load: 60W

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze

Example: **QMP-G1RN-MR**

Model #	Finish
QMP-G1RN	FR, MR
Min. Load: 1W	Max Load: 50W

FR-Frosted, **MR**-Mirror

FR

MR

- Includes accent caps in Brushed Nickel, Chrome and Dark Bronze to match any of our socket sets

Quick Connect™ Canopies for use with Remote Transformers

Miniature Round Canopy with Wiring Compartment

- Order remote transformer separately, see p.409-410
- No exposed hardware

Example: **QMP-MI-TR-BN**

Model #	Finish
QMP-MI-TR	BN, CH, DB

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze

Round and Square Canopy for Junction Box

- Order remote transformer separately, see p.409-410
- No exposed hardware

Example: **QMP-1RN-TR-WT**

	Model #	Finish
Round	QMP-1RN-TR	BN, CH, DB, WT
Square	QMP-1SQ-TR	BN, CH, DB

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze, **WT**-White

Quick Connect™ Multipoint Canopies

Quick Connect™ Canopies

- Integral electronic transformer
- Dimmable with Electronic Low Voltage (ELV) dimmer
- For use with LED, xenon or halogen Quick Connect™ Pendants
- Includes accent caps in brushed nickel, chrome and dark bronze to match any of our socket sets
- Custom multi-light canopies may also be available upon request, please contact us for assistance

Example: **QMP-G3RN-FR**

Model #	Finish
QMP-G3RN	FR, MR
Min. Load: 3 × 1W	Max Load: 3 × 50W

FR-Frosted, **MR**-Mirror

Example: **QMP-G3RE-MR**

Model #	Finish
QMP-G3RE	FR, MR
Min. Load: 3 × 1W	Max Load: 3 × 50W

FR-Frosted, **MR**-Mirror

Shown: Rolls Quick Connect™ Fixture, **QF-190X3-BN/BN** with **G-119-AM** shade on Solorail™ (p.104)

Solorail™ Single Circuit Monorail System

Our low voltage monorail system can be shaped in the field and designed and cut to navigate curves for custom designs. The versatile Solorail™ accommodates hundreds of Quick Connect™ pendants and fixtures.

Designed with the thinnest profile in the industry, 1/2" tall and 3/8" wide, Solorail™ is engineered for rigorous usage in commercial, hospitality and retail applications. Featuring electroplated solid copper bus bars and CNC precision fabricated components, with a maximum capacity of 25 amperes; or 300 watts at 12 volts and 600 watts at 24 volts.

Duorail™ Two Circuit Monorail System

Offering the sleek look of a monorail, but engineered for more capacity and control, featuring two circuits that can be independently switched or dimmed. Duorail™ is the thinnest two-circuit low voltage system in the industry at just 3/4" tall and a 1/2" wide and maintains a maximum capacity of 50 amperes for demanding rail applications.

Each circuit uses up to 300 watts at 12 volts or 600 watts at 24 volts. For large applications both circuits can be switched together for up to 1,200 watts at 24 volts. Precision fabricated brass components and electroplated solid copper conductors ensure durability and reliability.

Available in chrome, brushed nickel and dark bronze. Easily shaped in the field to fit any space. An ideal modern upgrade on traditional track lighting for retail, residential and commercial interiors.

How to order Solorail™ System

Step 1 Measure the amount of rail needed and choose a finish. Our Monorail™ and Solorail™ systems are available in Brushed Nickel (BN), Chrome (CH) or Dark Bronze (DB) finishes.

Layout: Use rope, chalk or string on floor level, or a scale drawing with string to estimate rail needs. Broad curves work best (12" minimum radius). When working with curves, we recommend ordering up to 25% more rail than estimated to compensate for in-field design adjustments during installation. Rail should pass under or near a junction box.

Rail Sections

Example: **LM-T4-BN**

Model #	4' 8'	Finish
LM	T4, T8	BN, CH, DB
Includes two matching end caps.		

Step 2 Choose the Quick Connect™ pendants or fixtures (p.161-162) for the rail system. Make sure to order one Quick Connect™ adapter per pendant or fixture ordered (LM-QADP) for the finish chosen. For example, BN finish would be item LM-QADP-BN. Add up the total wattage needed in the system.

Quick Connect™ Adapter for Solorail™

The threaded male adapter makes compatibility a snap. Simply insert the metal fitting into the system adapter, hand tighten the collar and you're done!

Example: **LM-QADP-BN**

Model #	Finish
LM-QADP	BN, CH, DB
Order one per Quick Connect™ fixture or pendant used.	

Step 3 Choose the appropriate sized magnetic or electronic transformer with sufficient electrical load to accommodate the total wattage used for the system. Don't forget to take into consideration voltage drop for combined rail sections. Please consult voltage drop guidelines.

Power Feeds (use with remote transformers)

Single Power Feed

LM-CPC	BN, CH, DB	Ø 4 1/2"
25A max. Use with 3" standoff (LM-X3).		

Wall Power Feed

LM-WPC	BN, CH, DB	Ø 4 1/2"
25A max. Feeds power to end of the rail.		

Dual Power Feed

LM-DCPC	BN, CH, DB	Ø 5 1/2"
Two 25A max power feeds. Order with dead end "I" connector (LM-IDEC). Use with 3" standoff (LM-X3).		

Sloped Ceiling Feed

LM-SCP48 LM-SCP96	BN, CH, DB	48" 96"
25A max. Use with surface mounted transformer. Use at any angle, easily shortened. Includes two LM-RI couplers.		

Cable Power Feed

LM-PCS48 LM-PCS96	BN, CH, DB	Ø 4 1/2" x 48" Ø 4 1/2" x 96"
25A max. Use on sloped ceilings with remote transformers. Use with surface mounted transformer. Use at any angle, easily shortened.		

Wall Mount Power Feed Bracket

LM-OWP	BN, CH, DB
Can be mounted up to 24" from wall. Supported by aircraft cables. Use with remote transformers. Use two LM-OW (p.163) per 4 ft., three per 8 ft.	

Remote Transformers

Watt	12 Volts	Breakers	24 Volts	Breakers	L	W	H
300W	SRT-300M-12V	1	SRT-300M-24V	1	10 3/4"	4 1/4"	4 1/8"
600W	SRT-600M-12V	2	SRT-600M-24V	1	11 1/2"	6 1/8"	5 7/8"
	SRT-600M2-12V*	2					
1000W	SRT-1000M-12V	4	SRT-1000M-24V	2	13 3/4"	7 1/8"	5 3/4"

*Separate input leads for separate switching

Voltage Drop Guidelines (based on 10 gauge wire)

Model #	Run length	Distance to power feed
SRT-300M-12V	40' max	10ft max
SRT-600M-12V	2 x 40' max	10ft max
SRT-600M2-12V	2 x 40' max	10ft max
SRT-1000M-12V	4 x 40' max	10ft max
SRT-300M-24V	40' max	10ft max
SRT-600M-24V	40' max	10ft max
SRT-1000M-24V	2 x 40' max	10ft max

On a full load voltage drop can cause a system to exceed the 25A rating. Guidelines assist with layouts only. When installing a 12V system, ensure that a min. of 12V is supplied at power feeds. 10AWG wire should be used with remote transformers. Multi-tap output terminals (remote magnetic transformers) help make up for voltage drop before the power feed. Use a multimeter to verify no less than 11V is found at the end of the run and no more 25A is being drawn from the power feed.

How to order Solorail™ System

							LM-EN24-600M 50'

Step 4 Measure the height of the ceiling and determine the distance from the floor to the rail to calculate length of the standoffs needed to suspend the rail from the ceiling. Determine number of standoffs and connectors for the rail. Use a minimum of 3 standoffs per 8 foot section and 2 standoffs per 4 foot section

Rail Suspension

	Model #	Finish	Dimensions			Description	
			BN	CH	DB		
Standard Ceiling Standoff		LM-X3	✓	✓	✓	3"	Supports rail for flat ceilings and surfaces.
		LM-X4	✓	✓	✓	4 ¹ / ₂ "	
		LM-X5	✓	✓	✓	5 ³ / ₄ "	
T-Bar Ceiling Standoff		LM-TB3	✓	✓	✓	3"	Conceals a T-Bar clip under the canopy for standard 1" T-Bar ceilings.
		LM-TB4	✓	✓	✓	4 ¹ / ₂ "	
		LM-TB5	✓	✓	✓	5 ³ / ₄ "	
Sloped Ceiling Standoff		LM-XS5	✓	✓	✓	5 ³ / ₄ "	Supports rail for sloped ceiling. Accommodates angles up to 45°.
Aircraft Suspension Cable		LM-CS48	✓	✓	✓	48"	Supports monorail for flat or sloped ceilings.
		LM-CS96	✓	✓	✓	96"	
Extension Rod		LM-R12	✓	✓	✓	12"	Use with standoffs and power feeds. Use two per circuit with rod couplers to extend power feeds. Field cut to size and join with rod couplers.
		LM-R24	✓	✓	✓	24"	
		LM-R36	✓	✓	✓	36"	
		LM-R48	✓	✓	✓	48"	
Rod Coupler		LM-RI	✓	✓	✓	Ø 3/8" × 7/8" H	Use two per power feed, four per dual power feed, one additional coupler per rod needed when joining two rods in excess of 48".
Wall Mount Support Bracket		LM-OW	✓	✓	✓		Wall extenders allow rail to be mounted up to 24" from wall.

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze

Example: **LM-R12-BN**

How to order Solorail™ System

Step 5 Determine the hardware accessories to join the rail sections together in the configuration chosen.

Rail Connectors	Model #	Finish	Dimensions			Description
			BN	CH	DB	
Jumper Set	 LM-JS	✓	✓	✓	6"	Used to join two rails together.
"I" Dead-End Connector	 LM-IDEC	✓	✓	✓	5/8" x 2"	Connects two sections of rail with no electrical continuity.
"I" Connector	 LM-I	✓	✓	✓	5/8" x 2"	Connects two sections of rail with electrical continuity.
"X" Dead-End Connector	 LM-XDEC	✓	✓	✓	5/8" x 2" x 2"	Joins four monorails in an "X" without electrical continuity.
"L" Connector	 LM-L	✓	✓	✓	5/8" x 1 1/2" x 1 1/2"	90° monorail connection with electrical continuity
Ceiling To Wall Connector	 LM-CW	✓	✓	✓	5/8" x 1 3/8" x 1 3/8"	90° monorail connection in a vertical plane with electrical continuity
Variable Angle Connector	 LM-VA	✓	✓	✓	Ø 1" x 1 1/4" x 3 1/2"	Allows an angle adjustment up to 110° with electrical continuity at the connection.
"T" Connector	 LM-T	✓	✓	✓	5/8" x 1 3/8" x 1 3/8"	Connects two sections of a monorail in a "T" with electrical continuity

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze

Example: **LM-XDEC-BN**

Design Guidelines

Wattage	300W is the maximum load allowable for 12V systems. 600W is the maximum load allowable for 24V systems.	
Transformers	Surface mount electronic - well suited for small runs. Surface mount magnetic - high wattage capacity. Remote mount magnetic - larger capacities, minimize voltage drop if located within 10 feet of power feed.	
Mounting	Determine the ceiling type. Select standoffs that match the height of the power feed component. Minimum three supports for 8 foot section, two for 4 foot section. Custom length suspensions are possible by using cables or suspension rods with rod couplers.	
Joining Sections	A variety of designs can be achieved by using various connectors. Some are electrically conductive, others join rails mechanically but not electrically. Dead End Connectors allow you to connect runs together mechanically that exceed the max wattage per circuit.	
Shaping	Shaping rail before mounting on the ceiling allows you to determine the best location for standoffs. Use a bending machine for professional installations.	
		Model # HM-BM For perfect small radius bends. Clamps onto work benches or flat surfaces up to 2".
Cutting	May be field cut. See supplied instructions for further details.	
Quick Connect™	Quick Connect™ transformer attaches to rail and accepts all Quick Connect™ fixtures and pendants with LM-QADP.	
Useful Tips	System may be dimmed with a dimmer appropriate for the transformer type, ie: electronic or magnetic. Assistance is only a phone call away. Please call WAC Lighting to speak to a friendly lighting specialist at 800.526.2588 .	

Sample Layout

A	LM-EN12-150E	Electronic transformer
B	LM-T8	Rail section
C	LM-X4	Standoff (matches transformer height)
D	LM-I	"I" connector
E	LM-EC	End cap (2 supplied with every track)
F	LM-QADP	Quick Connect™ adapter
G	QP518	Quick Connect™ pendant
H	QF-182	Quick Connect™ fixture

Solorail™ Starter Kits

150W, 8ft Kit

Use with any combination of three 50W pendants or fixtures

Solorail™ Quick Connect™ Adapters, Pendants and Fixtures ordered separately. See p.161-162 for all Quick Connect™ options.

Example: **LM-SK-150E-DB**

Model #	Finish
LM-SK-150E	BN, CH, DB

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze

Kit Includes

- 2 4 foot rail sections
- 1 "I" connector
- 2 End caps
- 1 150W surface mount electronic transformer
- 3 4½" standoff supports

250W, 12ft Kit

Use with any combination of five 50W pendants or fixtures

Solorail™ Quick Connect™ Adapters, Pendants and Fixtures ordered separately. See p.161-162 for all Quick Connect™ options.

Example: **LM-SK-250E-BN**

Model #	Finish
LM-SK-250E	BN, CH, DB

BN-Brushed Nickel, **CH**-Chrome, **DB**-Dark Bronze

Kit Includes

- 3 4 foot rail sections
- 2 "I" connectors
- 2 End caps
- 1 250W surface mount electronic transformer
- 5 4½" standoff supports

Solorail™ 4 Light Pendant Kits (250W)

Solorail™ Pendant and Fixture Kits make custom decorative rail installations simple and accessible. Each kit contains over ten feet of rail, power supply and mounting components in designer finishes that complement the pendant or fixture designs. Solorail™ Kits use our standard rail and accommodate all Quick Connect™ pendant and fixtures with the use of Solorail™ Quick Connect™ Adapters (LM-QADP).

Choose from five different rail and pendant combinations.

Glass Pendant Options

LM-K517-WT/BN

LM-K541-AM/DB

LM-K590-WT/BN

LM-K591-WT/BN

LM-K592-AB/DB

Model #	Finish – Glass/Rail	Additional Pendants
LM-K517-WT/BN	White/Brushed Nickel	QP-G517-WT/BN
LM-K541-AM/DB	Amber/Dark Bronze	QP-G541-AM/DB
LM-K590-WT/BN	White/Platinum	QP-G590-WT/BN
LM-K591-WT/BN	White/Brushed Nickel	QP-G591-WT/BN
LM-K592-AB/DB	Amber/Bronze	QP-G592-AM/DB

Add one additional 50W pendant or remove one pendant and add two additional 50W fixtures to maximize use of the 250W system.

see p.412 for lower wattage lamp options

Kit Includes

- 3** 3½ foot rail sections
- 2** "I" connectors
- 2** End caps
- 1** 250W surface mount electronic transformer
- 4** 4½" standoff supports
- 4** Pendant adapters
- 4** Pendant sets, includes 50W halogen bi-pin lamps, other lamp sources available (p.412)

Solorail™ 5 Light Fixture Kits (250W)

Choose from seven different rail and fixture combinations.

Solorail™

Spot Light Options

LM-K8611-DB/WT

LM-K8811-BN/WT	Brushed Nickel/White	QF-8811-BN/WT
LM-K9411-PT/WT	Platinum/White	QF-9411-PT/WT
LM-K9415-PT/PT	Platinum/Platinum	QF-9415-PT/PT

Kit Includes	
3	3½ foot rail sections
2	1" connectors
2	End caps
1	250W surface mount electronic transformer
4	4½" standoff supports
5	Fixtures, includes 50W MR16 lamps, order specialty MR16 lamps separately (p.413)

Add additional fixtures or pendants by using lower wattage lamps, 20W and 35W lamps available. Do not exceed 250W.

How to order Duorail™ System

Step 1 Measure the amount of rail needed and choose a finish. Our Monorail™ and Solorail™ systems are available in Brushed Nickel (BN), Chrome (CH) or Dark Bronze (DB) finishes.

Layout: Use rope, chalk or string on floor level, or a scale drawing with string to estimate rail needs. Broad curves work best (12" minimum radius). When working with curves, we recommend ordering up to 25% more rail than estimated to compensate for in-field design adjustments during installation. Rail should pass under or near a junction box.

Rail Sections

Example: **LM2-T4-BN**

Model #	4' 8'	Finish
LM2	T4, T8	BN, CH, DB

Includes two matching end caps.

Step 2 Choose the Quick Connect™ pendants or fixtures (see p.161-162) for the rail system. Make sure to order one Quick Connect™ adapter per pendant or fixture ordered (LM-QADP) for the finish chosen. For example, BN finish would be item LM-QADP-BN. Add up the total wattage needed in the system.

Quick Connect™ Adapter for Duorail™

The threaded male adapter makes compatibility a snap. Simply insert the metal fitting into the system adapter, hand tighten the collar and you're done!

Example: **LM2-QADP-BN**

Model #	Finish
LM2-QADP	BN, CH, DB

Order one per Quick Connect™ fixture or pendant used.

Step 3 Choose the appropriate sized magnetic or electronic transformer with sufficient electrical load to accommodate the total wattage used for the system. Don't forget to take into consideration voltage drop for combined rail sections. Please consult voltage drop guidelines.

Power Feeds (use with remote transformers)

Two Circuit Power Feed

LM2-CPC	BN, CH, DB	Ø 4½"
----------------	-------------------	-------

Feeds two 25A max circuits. Use with 3" standoff (LM2-X3).

Four Circuit Power Feed

LM2-DCPC	BN, CH, DB	Ø 5½"
-----------------	-------------------	-------

Feeds Four 25A max power feeds. Order with dead end "I" connector (LM2-IDEC). Use with 3" standoff (LM2-X3).

Sloped Ceiling Feed

LM2-SCP48 LM2-SCP96	BN, CH, DB	48" 96"
--------------------------------------	-------------------	------------

Feed two 25A max circuits. Use with surface mounted transformer. Use at any angle, easily shortened. Includes two LM-RI couplers.

Cable Power Feed

LM2-PCS48 LM2-PCS96	BN, CH, DB	Ø 4½" x 48" Ø 4½" x 96"
--------------------------------------	-------------------	----------------------------

Feeds two 25A max circuits. Use on sloped ceilings with remote transformers.

Remote Transformers

Watt	12 Volts	Breakers	24 Volts	Breakers	L	W	H
300W	SRT-300M-12V	1	SRT-300M-24V	1	10¾"	4¼"	4½"
600W	SRT-600M-12V	2	SRT-600M-24V	1	11½"	6½"	5⅞"
	SRT-600M2-12V*	2					
1000W	SRT-1000M-12V	4	SRT-1000M-24V	2	13¾"	7⅞"	5¾"

*Separate input leads for separate switching

Voltage Drop Guidelines (based on 10 gauge wire)

Model #	Run length	Distance to power feed
SRT-300M-12V	40' max	10ft max
SRT-600M-12V	2 x 40' max	10ft max
SRT-600M2-12V	2 x 40' max	10ft max
SRT-1000M-12V	4 x 40' max	10ft max
SRT-300M-24V	40' max	10ft max
SRT-600M-24V	40' max	10ft max
SRT-1000M-24V	2 x 40' max	10ft max

On a full load voltage drop can cause a system to exceed the 25A rating. Guidelines assist with layouts only. When installing a 12V system, ensure that a min. of 12V is supplied at power feeds. 10AWG wire should be used with remote transformers. Multi-tap output terminals (remote magnetic transformers) help make up for voltage drop before the power feed. Use a multimeter to verify no less than 11V is found at the end of the run and no more 25A is being drawn from the power feed.

Flexrail1™

120V Monorail System

Offering a slender profile that is easy to assemble and customize, Flexrail1™ integrates art and technology into a flexible, line voltage system. The flexible upgrade to traditional track creates bold, eye-catching three dimensional configurations while challenging ceilings are transformed into dramatic scenes with selections from hundreds of low and line voltage Quick Connect™ pendants and fixtures.

This sturdy, yet distinctive system is engineered for the most demanding residential, retail and commercial applications where versatility, high performance and robust aesthetics are required.

Flexrail2™

Two circuit 120V Monorail System

WAC Lighting's Flexrail2™ is a flexible two-circuit line voltage rail system featuring a stunning contemporary look with a complete palette of lighting tools, enabling a multitude of choices from line and low voltage spots, floods, pendants, compact fluorescent wall washers, and HID accent lights.

The two circuits can be used independently (up to 1920 watts on each circuit) or jointly switched (up to a total of 3840 watts) for a single application. This enhanced capability fulfills the need for either additional controllability or greater carrying capacity. Flexrail2™ is perfect for residential, commercial, hospitality and retail environments.

Reflex

Flexrail1™

- ANSI Compliant Warm/Neutral LED Bins for finest color consistency possible
- 50,000 hour potential life
- Replacement LED module may be ordered separately (p.411)
- For optimal dimming use Electronic Low Voltage (ELV) dimmer
- Strong projected light output with no projected heat
- Die-cast aluminum construction
- Energy Star Qualified
- Easily changes from spot to flood with a different lens
- Accepts up to two lenses, see p.419-420 for lens options

Example: **HM1-9S-CW-DB**

Model #	Beam	Finish	CBCP

Flexrail1™ AR111/PAR36 Fixtures

- Die-cast aluminum construction
- Patented tool free locking mechanism for precise aiming
- Integral electronic transformer included

Flexrail1™

AR111 lamp features and benefits

- Provides whiter and brighter light
- Developed for color critical retail applications
- Crisp light from great distances or up close
- Screw terminal ensures secure connection
- Lamps available in 4° to 45° beam angles

Example: **HM1-846-DB**

Model #	Watt	Finish
HM1-936	50W max	DB, PT
HM1-936L	75W max	DB, PT

Lamp: 12V, 50W max, PAR36/AR111, order separately (p.413)
12V, 75W max, AR111, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

Flexrail1™ MR16 Fixtures

Flexrail1™

- Built in hot aiming adjustment
- Patented tool free locking mechanism for precise aiming
- Integral electronic transformer included
- Die-cast aluminum construction
- Clear lens included, see p.419-420 for lens options

Example: **HM1-846-DB**

Model #	Watt	Finish
HM1-846	50W max	DB, PT
HM1-846L	75W max	DB, PT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

- Die-cast aluminum construction
- Integral electronic transformer included
- Clear lens included, see p.419-420 for lens options

Example: **HM1-849-PT**

Model #	Watt	Finish
HM1-849	50W max	DB, PT
HM1-849L	75W max	DB, PT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

Flexrail1™ Quartz Fixture

- High output quartz lamp
- Die-cast aluminum construction
- Ideal for wall wash applications
- Includes a black vertical louver for glare control
- Rectangular light distribution

Example: **HM1-150-DB**

Model #	Finish
HM1-150	DB, PT

Lamp: 120V, 150W max, J-150-S included

DB-Dark Bronze, **PT**-Platinum

Flexrail1™ GU10 Fixture

- Uses GU10 lamps for a sleek look without the need for a transformer
- Die-cast aluminum construction
- Choose from decorative cased glass and metal shades

Example: **HM1-101-AM/DB**

Model #	Finish
HM1-101	AM/DB
	AM/PT
	DB/DB
	PT/PT
	WT/PT
	WT/DB

Lamp: 120V, 50W max, GU10 included

See chart at right for finishes

Flexrail1™ PAR Fixtures

- Die-cast aluminum construction
- Patented tool free locking mechanism for precise aiming

Flexrail1™

Example: **HM1-730-PT**

Model #	Lamp	Finish	L	W	H
HM1-720	120V, 50W max, PAR20	DB, PT	4½"	3¼"	7⅝"
HM1-730	120V, 75W max, PAR30	DB, PT	5"	4½"	8⅞"
HM1-738	120V, 150W max, PAR38	DB, PT	6½"	5½"	9¼"

Order lamp separately

DB-Dark Bronze, **PT**-Platinum

Flexrail1™

Flexrail1™ Power Feeds and Transformers

Quick Connect™ Adapter for Flexrail1™

The threaded male Adapter makes compatibility a snap. Simply insert the metal fitting into the system adapter, hand tighten the collar and you're done!

Example: **HM1-EN50-PT**

Model #	Finish
HM1-EN50	DB, PT

Order one per Quick Connect™ fixture or pendant used.

Rail Sections

Example: **HM1-T4-PT**

Model #	4' 8'	Finish
HM1	T4, T8	DB, PT

Includes two matching end caps.

DB–Dark Bronze, **PT**–Platinum

Design Guidelines

Layout	Use rope, chalk or string on floor level, or a scale drawing with string to estimate monorail needs. Broad curves work best (24" minimum radius). When working with curves, we recommend ordering up to 25% more rail than estimated to compensate for in-field design adjustments during installation. Rail should pass under or near a junction box.
Wattage	2400W down rated to 1920W in accordance with line voltage general guidelines.
Power	The rail should pass under or near a junction box supplying 120V. Stem and cable power feeds provide power and support for the rail. Flexible ceiling power feeds are used for custom length suspensions or sloped ceilings.
Mounting	Determine the ceiling type. Select standoffs that match the height of the power feed component. Minimum three supports for 8 foot section, two for 4 foot section. Custom length suspensions are possible by using cables or suspension rods with rod couplers.
Joining Sections	A variety of designs can be achieved by using various connectors. Some are electrically conductive, others join rails mechanically but not electrically. All rail connections must be made within a rail support. Dead End Connectors allow you to connect runs together mechanically that exceed the max wattage per circuit.
Shaping	Shaping rail before mounting on the ceiling allows you to determine the best location for standoffs. Use a bending machine for professional installations.

Model #
HM-BM

Make perfect small radius bends. Clamps onto work benches or flat surfaces up to 2".

Cutting	May be field cut. See supplied instructions for further details.
Luminaires	Line voltage and low voltage luminaires may be mixed on the same rail. Low voltage luminaires have integral transformers. System may be dimmed with a dimmer appropriate for the transformer type, ie: electronic or magnetic.
Quick Connect™	Quick Connect™ transformer attaches to rail and accepts all Quick Connect™ fixtures and pendants with low voltage HM1-EN50.
Useful Tip	Assistance is only a phone call away. Please call WAC Lighting to speak to a friendly lighting specialist at 800.526.2588 .

Flexrail1™ Accessories

Power Feeds

		Model #	Finish	Length	Description
		DB PT			
Stem Power Feed		HM1-PCT6	✓ ✓	6"	May be placed anywhere along the length of the rail over a junction box supplying 120 volts. Also serves as a support.
		HM1-PCT12	✓ ✓	12"	
		HM1-PCT24	✓ ✓	24"	
		HM1-PCT36	✓ ✓	36"	
		HM1-PCT48	✓ ✓	48"	
Flexible Ceiling Power Feed		HM1-PCC12	✓ ✓	12"	Used for power on sloped ceilings, custom suspension lengths or providing power to rail not placed directly under the junction box supplying 120 volts.
		HM1-PCC24	✓ ✓	24"	
		HM1-PCC36	✓ ✓	36"	
		HM1-PCC48	✓ ✓	48"	
		HM1-PCC96	✓ ✓	96"	

Rail Suspensions

		Model	Finish	Dimensions	Description
		DB PT			
Standard Ceiling Standoff		HM1-X6	✓ ✓	6"	Supports rail for flat ceilings and surfaces.
		HM1-X12	✓ ✓	12"	
		HM1-X24	✓ ✓	24"	
		HM1-X36	✓ ✓	36"	
		HM1-X48	✓ ✓	48"	
T-Bar Ceiling Standoff		HM1-TB6	✓ ✓	6"	Conceals a T-Bar clip under the canopy for standard 1" T-Bar ceilings.
		HM1-TB12	✓ ✓	12"	
		HM1-TB24	✓ ✓	24"	
		HM1-TB36	✓ ✓	36"	
		HM1-TB48	✓ ✓	48"	
Sloped Ceiling Standoff		HM1-XS6	✓ ✓	6"	Supports rail for sloped ceiling. Accommodates angles up to 45°.
		HM1-XS12	✓ ✓	12"	
		HM1-XS24	✓ ✓	24"	
		HM1-XS36	✓ ✓	36"	
		HM1-XS48	✓ ✓	48"	
Sloped Ceiling Adapter		SK145	✓ ✓	1½" × 2⅝"	Use with standoffs and "I" connectors for mounting on a sloped ceiling.
"I" Connector		HM1-I6	✓ ✓	6"	Connects two sections of rail with electrical continuity. Also serves as a support.
		HM1-I12	✓ ✓	12"	
		HM1-I24	✓ ✓	24"	
		HM1-I36	✓ ✓	36"	
		HM1-I48	✓ ✓	48"	
"I" Dead-End Connector		HM1-IDEC6	✓ ✓	6"	Connects two sections of rail with no electrical continuity. Also serves as a support.
		HM1-IDEC12	✓ ✓	12"	
		HM1-IDEC24	✓ ✓	24"	
		HM1-IDEC36	✓ ✓	36"	
		HM1-IDEC48	✓ ✓	48"	
Variable Angle Connector		HM1-VA6	✓ ✓	6"	Connects two sections of rail with electrical continuity. Connects at any angle up to 270°. Also serves as a support.
		HM1-VA12	✓ ✓	12"	
		HM1-VA24	✓ ✓	24"	
		HM1-VA36	✓ ✓	36"	
		HM1-VA48	✓ ✓	48"	
Field Shortening Adapter		HM-XADJ	✓ ✓	¾" × 1⅜"	Use for custom length standoffs or "I" connector rods to replace threaded ends.
Rod Coupler		XI	✓ ✓	½" × 1⅜"	Connects two standoffs or "I" connector rods together to form a longer drop.

Model #	Watt	Finish
HM-846	50W max	DB, PT
HM-846L	75W max	DB, PT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

- Die-cast aluminum construction
- Lockable aiming screws for precise control
- Integral electronic transformer included
- Clear lens included, see p.419-420 for lens options

Example: **HM-849-PT**

Model #	Watt	Finish
HM-849	50W max	DB, PT
HM-849L	75W max	DB, PT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

Flexrail2™ MR16 Fixtures

- Die-cast aluminum construction
- Ball and swivel aiming wand
- Integral electronic transformer included
- Accepts lenses with the use of a lens clip, see p. 419-420 for lens options

Example: **HM-816-DB**

Model #	Watt	Finish
HM-816	50W max	DB, PT
HM-816L	75W max	DB, PT

Lamp: 12V, 50W max, MR16G/MR11G, order separately (p.413)
12V, 75W max, MR16G, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

- Die-cast aluminum construction
- Integral electronic transformer included

Example: **HM-847-PT**

Model #	Watt	Finish
HM-847	50W max	DB, PT
HM-847L	75W max	DB, PT

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

- Die-cast aluminum construction
- Lockable aiming screws for precise control
- Integral electronic transformer included
- Clear lens included, see p.419-420 for lens options

Example: **HM-876-DB**

Model #	Watt	Finish
HM-876	50W max	DB, PT
HM-876L	75W max	DB, PT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

Flexrail2™ AR111 Fixture

- Die-cast aluminum construction
- Patented cast swivel stem and locking knob for precise aiming
- Integral electronic transformer included

Example: **HM-936-PT**

Model #	Watt	Finish
HM-936	50W max	DB, PT
HM-936L	75W max	DB, PT

Lamp: 12V, 50W, PAR36/AR111, order separately (p.413)
 12V, 75W, AR111, order separately (p.413)

DB-Dark Bronze, **PT**-Platinum

AR111 lamp features and benefits

- Provides whiter and brighter light
- Developed for color critical retail applications
- Crisp light from great distances or up close
- Screw terminal ensures secure connection
- Lamps available in 4° to 45° beam angles

Flexrail2™ Quartz Fixture

- High output quartz lamp
- Die-cast aluminum construction
- Ideal for wall wash applications
- Includes a black vertical louver for glare control
- Rectangular light distribution

Example: **HM-150-DB**

Model #	Finish
HM-150	DB, PT

Lamp: 120V, 150W max, J-150-S included

DB-Dark Bronze, **PT**-Platinum

Flexrail2™ Compact Fluorescent Fixtures

- Extruded aluminum construction
- Fully enclosed backing prevents light leaks
- Built in yoke and hub mounting system
- Two lockable aiming knobs
- Includes vertical louver for glare control
- Longer models have two mounting points for superior balance

- Ideal for retail, commercial and presentation applications where high foot candle levels and crisp white light are preferred
- Integral electronic ballast
- Durable abrasion resistant platinum or dark bronze powder coat finish
- Concealed wiring provides a clean appearance

Flexrail2™

Example: **HM-W218-PT**

Model #	Watt	Finish	L	W	H
HM-W218	2 × 18W	DB, PT	13"	6 ³ / ₈ "	8 ¹ / ₄ "
HM-W227	2 × 27W	DB, PT	16"	6 ³ / ₈ "	8 ¹ / ₄ "
HM-W239	2 × 39W	DB, PT	20"	6 ³ / ₈ "	8 ¹ / ₄ "
HM-W240	2 × 40W	DB, PT	26"	6 ³ / ₈ "	8 ¹ / ₄ "

Lamp: 120V, Twin Tube, 4-pin 2G11, order separately (p.415)

DB-Dark Bronze, **PT**-Platinum

Sections and Adapter

Quick Connect™ Adapter for Flexrail2™

The threaded male adapter makes compatibility a snap. Simply insert the metal fitting into the system adapter, hand tighten the collar and you're done!

Example: **HM-EN50-PT**

Model #	Finish
HM-EN50	DB, PT

Order one per Quick Connect™ fixture or pendant used.

Rail Sections

Example: **HM-T4-PT**

Model #	4'	8'	Finish
HM	T4, T8		DB, PT

Includes two matching end caps.

DB–Dark Bronze, **PT**–Platinum

Design Guidelines

Layout	Use rope, chalk or string on floor level, or a scale drawing with string to estimate monorail needs. Broad curves work best (24" minimum radius). When working with curves, we recommend ordering up to 25% more rail than estimated to compensate for in-field design adjustments during installation. Rail should pass under or near a junction box.
Wattage	2 × 2400W down rated to 1920W in accordance with line voltage general guidelines.
Power	The rail should pass under or near a junction box supplying 120V. Stem and cable power feeds provide power and support for the rail. Flexible ceiling power feeds are used for custom length suspensions or sloped ceilings.
Mounting	Determine the ceiling type. Select standoffs that match the height of the power feed component. Minimum three supports for 8 foot section, two for 4 foot section. Custom length suspensions are possible by using cables or suspension rods with rod couplers.
Joining Sections	A variety of designs can be achieved by using various connectors. Some are electrically conductive, others join rails mechanically but not electrically. All rail connections must be made within a rail support. Dead End Connectors allow you to connect runs together mechanically that exceed the max wattage per circuit.
Shaping	Shaping rail before mounting on the ceiling allows you to determine the best location for standoffs. Use a bending machine for professional installations.

Model #
HM-BM

Make perfect small radius bends. Clamps onto work benches or flat surfaces up to 2".

Cutting	May be field cut. See supplied instructions for further details.
Luminaires	Line voltage and low voltage luminaires may be mixed on the same rail. Low voltage luminaires have integral transformers. System may be dimmed with a dimmer appropriate for the transformer type, ie: electronic or magnetic.
Quick Connect™	Quick Connect™ transformer attaches to rail and accepts all Quick Connect™ fixtures and pendants with low voltage HM-EN50.
Useful Tip	Assistance is only a phone call away. Please call WAC Lighting to speak to a friendly lighting specialist at 800.526.2588 .

Sample Layout

120V Track

Designed for nearly every application and interior environment, our extensive 120V Track collection offers hundreds of luminaires that integrate cutting edge design and aerospace detailing with designer glass and metal finishes.

Versatile yet sturdy, the track systems can be surface mounted or suspended from the ceiling, liberating luminaires from the constraints of rigid mountings and enabling the lighting design to adapt to changing styles and spaces.

The family offers a broad range of lamp options including modern LEDme™ track luminaires that use the latest energy efficient LED technology available. Halogen styles, that are miniature and unobtrusive for a clean architectural look are also featured.

Complement any setting or space functionally and stylistically with track luminaires that are ideal for accent, general or wall washing applications.

120V Track Luminaires

Larc

Easily specify and aim multiple luminaires in a row without substantial field adjustments.

LARC spotlights are designed with a soft grip, conical profile and aesthetically concealed wiring to provide a sleek look perfect for specification projects.

The luminaires are constructed of durable die-cast aluminum for superior performance and easily re-lamped from the front via a threaded captive metal ring, which accommodates a variety of louvers and colored lenses. Captive accessory holders accommodate two filter mediums; optional lenses and accessories are available.

With aiming indicators, each spotlight is lockable and adjustable in the field without tools, with a 350° horizontal swing and a 90° vertical rotation.

The closed back and seamless designed housing eliminates light leaks.

Features

**Aiming:**

350° horizontal and 90° vertical aiming mechanism locks the head in place at the desired angle.

**Wiring:**

Clean design conceals the wiring within the track head arm to ensure that no unsightly cords are exposed.

**Design:**

Designed with a seamless housing to prevent light leakage from the rear of the fixture.

**Mounting:**

Track adapter offers a locking feature for secure support of the luminaire at two balance points.

120V Track Luminaires

Studio

Studio architectural grade spots are ideal for retail, hospitality, commercial and luxury residential applications where high performance, fit and finish are critical. Each offers directional aiming, a 350° horizontal range and 90° vertical tilt, with 10° indicators.

The clean design features concealed wiring, a seamless body to avoid light leaks, and a locking feature for positive support of the track head. The die-cast aluminum constructed luminaires feature a distinctive style in two abrasion resistant powder coat finishes.

Features

Aiming:

350° horizontal and 90° vertical aiming mechanism locks the head in place at the desired angle.

Wiring:

Clean design conceals the wiring within the track head arm to ensure that no unsightly cords are exposed.

Design:

These sleek luminaires are designed to prevent light leaks from the rear of the fixture.

Mounting:

Track adapter offers a locking feature for secure support of the luminaire at two balance points.

120V LEDme™ Track Luminaires

Galileo

120V Track

Modern lighting demands simplicity and painstaking attention to detail. The design challenge was to create a track luminaire that maintains a clean form without interruption to the visual line regardless of aiming direction.

Galileo takes inspiration from observatories that sweep the heavens with a 360° rotation without altering its profile. Available in three contemporary finishes, Galileo integrates form and function with state-of-the-art multi-chip LED technology. This 12W luminaire exceeds Energy Star requirements at up to 586 lumens; a direct replacement for a 50W halogen.

- Energy Star compliant
- Dimmable with Electronic Low Voltage (ELV) dimmer to 1%
- ANSI Compliant Warm/Neutral LED Bins for the finest color consistency possible
- Replaceable LED module (see p.411)
- 50,000 hour potential life

LED 12W Multi-chip

Example: **L-LED610S-CW-BK**

System	Model #	Beam	Finish	Lumens	CBCP
L, H, J	LED610S-CW	24°	BK, BN, WT	586	2160

120V LEDme™ Track Luminaires

Impulse

120V Track

Two technologies, one comprehensive design. Impulse uses either low voltage MR16 lamps or an integrated multi-chip LED spot. Robustly engineered from solid die-cast aluminum, this thermally efficient luminaire also offers architectural lighting options such as framing projector and barn-door louver attachments. Additional optical beam spread and color temperature selections make this an all-in-one choice for lighting professionals.

- Dimmable with Electronic Low Voltage (ELV) dimmer
- Accepts a framing projector or barn door accessory
- Excellent heat dissipation
- Die-cast aluminum construction

Low Voltage MR16

- Clear lens included, see p.419-420 for accessory options for optimal light control

120V LEDme™ Track Luminaires

Cartier

Cartier combines craftsmanship and old world styling with the flexibility and performance of modern track lighting. From the instrument-like engineering and hand finishes to the fine onyx crystal details, Cartier belongs in upscale spaces with sophisticated taste.

Utilizing state-of-the-art multi-chip LED technology, this 12W luminaire exceeds Energy Star requirements at over 600 lumens; a direct replacement for a 50W MR16.

- Energy Star compliant
- Dimmable with Electronic Low Voltage (ELV) dimmer
- 50,000 hour potential life
- ANSI Compliant Warm/Neutral LED Bins for the finest color consistency possible
- Replaceable LED module (see p.411)
- White interior to enhance light projection

Classic design with unique dual yoke construction

Elegant hand cut onyx crystal finial

12W Multi-chip

Example: **L-LED710S-CW-AN**

System	Model #	Beam	Finish	Lumens	CBCP
L, H, J	LED710S-CW	24°	AB, AN, SB/BK	625	2160
L, H, J	LED710F-CW	32°	AB, AN, SB/BK	587	1440

LED: 12W, 4000K color temp, CRI 80

L, H, J	LED710S-WW	24°	AB, AN, SB/BK	589	1944
L, H, J	LED710F-WW	32°	AB, AN, SB/BK	557	1440

LED: 12W, 3000K color temp, CRI 80

AB-Antique Bronze, **AN**-Antique Nickel, **SB/BK**-Satin Brass/Black

120V Track Luminaires

Rialto

120V Track

Old world charm meets high style with our Rialto family of track luminaires. Our antique bronze and nickel finishes combine a classic look and beveled design for a rich elegance that coordinates with many architectural styles. Perfect for accent, spot, general or wall wash lighting, Rialto adds flair and performance to your space.

- 360° horizontal rotation and 90° vertical aiming
- Fully enclosed back to prevent light leaks
- Track adapters in dark bronze and brushed nickel to match track finishes
- Low voltage and line voltage lamp options

Low Voltage MR16G

Example: **LHT-886-AN**

System	Model #	Watt	Finish
LHT, HHT, JHT	886	50W max	AB, AN
LHT, HHT, JHT	886L	75W max	AB, AN

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

AB-Antique Bronze, **AN**-Antique Nickel

Line Voltage PAR20, PAR30 and PAR38

Example: **LTK-793-AB**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	793	AB, AN	5 1/2"	4 1/4"	8 1/8"

Lamp: 120V, 50W max, PAR20, order separately

LTK, HTK, JTK	794	AB, AN	6 1/4"	5 1/2"	9 1/8"
----------------------	------------	---------------	--------	--------	--------

Lamp: 120V, 75W max, PAR30, order separately

LTK, HTK, JTK	795	AB, AN	7 3/8"	6 1/4"	10 1/4"
----------------------	------------	---------------	--------	--------	---------

Lamp: 120V, 150W max, PAR38, order separately

AB-Antique Bronze, **AN**-Antique Nickel

120V Track

120V Track Luminaires

Caribe

The rich look of our antique bronze and nickel finishes are highlighted in the Caribe track family of low and line voltage and compact fluorescent track luminaires. Handsome fixtures are designed with a striking, classic profile while creating a special ambiance. Ideal for accent, general or wall washing. Caribe offers energy efficient compact fluorescent lamp options for a broad range of residential and commercial lighting applications in today's interiors.

120V Track

120V Track Luminaires

- Fully enclosed back to prevent light leaks
- Front loading for convenient re-lamping
- Track adapters in dark bronze and brushed nickel to match track finishes
- Spun and cast aluminum construction
- Die-cast retaining ring holds up to two lenses

Low Voltage MR16G

Example: **LHT-874-AN** or **LHT-874LENS-AN**

System	Model #	Lens Option	Watt	Finish
LHT, HHT, JHT	874	LENS	50W max	AB, AN
LHT, HHT, JHT	874L	LENS	75W max	AB, AN

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

AB-Antique Bronze, **AN**-Antique Nickel

Lens option

Line Voltage PAR20, PAR30 and PAR38

Example: **LTK-797-AN** or **LTK-797LENS-AN**

System	Model #	Lens Option	Finish	L	W	H
LTK, HTK, JTK	797	LENS	AB, AN	5 3/4"	3 3/4"	8 3/8"

Lamp: 120V, 50W max, PAR20, order separately

LTK, HTK, JTK	798	LENS	AB, AN	6 1/4"	4 3/4"	9 1/8"
----------------------	------------	-------------	---------------	--------	--------	--------

Lamp: 120V, 75W max, PAR30, order separately

LTK, HTK, JTK	799	LENS	AB, AN	7 3/4"	6 1/8"	10 5/8"
----------------------	------------	-------------	---------------	--------	--------	---------

Lamp: 120V, 150W max, PAR38, order separately

AB-Antique Bronze, **AN**-Antique Nickel

Lens option

Compact Fluorescent Tri-tube

Example: **LTK-132E-AB** or **LTK-132ELENS-AB**

System	Model #	Lens Option	Finish
LTK, HTK, JTK	132E	LENS	AB, AN

Lamp: 120V, 32W max, CFL Tri-tube, order separately (p.415)

AB-Antique Bronze, **AN**-Antique Nickel

120V Track Luminaires

Radiant

Experience the warm charm and high style of our Radiant family of track luminaires. Hand finished in an abrasion resistant antique bronze, this collection features a transitional look for a rich elegance that complements many architectural styles. Designed to coordinate with today's kitchen and bath fixtures and cabinet hardware.

- Die-cast aluminum construction
- Fully enclosed back to prevent light leaks
- Screw and swivel yoke for precise aiming
- Low and line voltage lamp options

120V Track Luminaires

Low Voltage MR16G

Example: **LHT-856-AB**

System	Model #	Watt	Finish
LHT, HHT, JHT	856	50W max	AB, BK, BN, WT
LHT, HHT, JHT	856L	75W max	AB, BK, BN, WT

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

AB-Antique Bronze, **BK**-Black, **BN**-Brushed Nickel, **WT**-White

Line Voltage PAR20

Example: **LTK-773-AB**

System	Model #	Finish
LTK, HTK, JTK	773	AB, BK, BN, WT

Lamp: 120V, 50W, PAR20, order separately

AB-Antique Bronze, **BK**-Black, **BN**-Brushed Nickel, **WT**-White

Line Voltage PAR30 and PAR38

Example: **LTK-774-AB**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	774	AB, BK, BN, WT	5 3/16"	4 3/8"	7 3/4"

Lamp: 120V, 75W max, PAR30, order separately

LTK, HTK, JTK	775	AB, BK, BN, WT	6 7/8"	5 1/2"	9 1/4"
----------------------	------------	-----------------------	--------	--------	--------

Lamp: 120V, 150W max, PAR38, order separately

AB-Antique Bronze, **BK**-Black, **BN**-Brushed Nickel, **WT**-White

120V Track Luminaires

Radiant

120V Track

Low Voltage MR16G

Example: **LHT-856-BN**

System	Model #	Watt	Finish
LHT, HHT, JHT	856	50W max	AB, BK, BN, WT
LHT, HHT, JHT	856L	75W max	AB, BK, BN, WT

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

AB-Antique Bronze, **BK**-Black, **BN**-Brushed Nickel, **WT**-White

Line Voltage PAR20

Example: **LTK-773-WT**

System	Model #	Finish
LTK, HTK, JTK	773	AB, BK, BN, WT

Lamp: 120V, 50W, PAR20, order separately

AB-Antique Bronze, **BK**-Black, **BN**-Brushed Nickel, **WT**-White

Line Voltage PAR30 and PAR38

Example: **LTK-774-BK**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	774	AB, BK, BN, WT	5 ⁹ / ₁₆ "	4 ³ / ₈ "	7 ³ / ₄ "

Lamp: 120V, 75W max, PAR30, order separately

LTK, HTK, JTK	775	AB, BK, BN, WT	6 ⁷ / ₈ "	5 ¹ / ₂ "	9 ¹ / ₄ "
----------------------	------------	-----------------------	---------------------------------	---------------------------------	---------------------------------

Lamp: 120V, 150W max, PAR38, order separately

AB-Antique Bronze, **BK**-Black, **BN**-Brushed Nickel, **WT**-White

120V Track Premium Low Voltage

Droid

A stylish and versatile choice for your spot lighting needs, Droid features solid die-cast aluminum luminaires. The yoke and pivoting heads with silicon hot aiming sleeves allow for easy and precise adjustment to any desired angle. Ideal for residential, retail and hospitality applications.

- 350° horizontal rotation and 90° vertical aiming
- Silicon hot aiming sleeve
- Die-cast aluminum construction
- Clear lens included, for optimal light control
see p.419-420 for accessory options

819

817

815

Example: **LHT-817-PT/WT**

System	Model #	Finish
LHT, HHT, JHT	817	BK, PT/BK, PT/WT, WT

Lamp: 12V, 2 x 35W max, MR16, order separately (p.413)

Low Voltage MR16

Example: **LHT-815-BK**

System	Model #	Finish
LHT, HHT, JHT	815	BK, PT/BK, PT/WT, WT

Lamp: 12V, 50W max, MR16, order separately (p.413)

BK-Black, **PT/BK**-Platinum/Black, **PT/WT**-Platinum/White, **WT**-White

Example: **LHT-819-BK**

System	Model #	Watt	Finish
LHT, HHT, JHT	819	50W max	BK, PT/BK, PT/WT, WT
LHT, HHT, JHT	819L	75W max	BK, PT/BK, PT/WT, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

120V Track Premium Low Voltage

Dune

Dune features premium low voltage track luminaires compatible with several of WAC Lighting's systems and may be retrofit to the most popular tracks in the industry. Constructed of die-cast aluminum, Dune luminaires offer 350° horizontal rotation and 90° vertical tilt.

- Die-cast aluminum construction
- Screw on lens cap
- Loop back provides for easy aiming
- Clear lens included, for optimal light control
see p.419-420 for accessory options

Low Voltage MR11

Example: **LHT-1126-BK**

System	Model #	Finish
LHT, HHT, JHT	1126	BK, WT

Lamp: 12V, 35W max, MR11, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

Low Voltage MR16

Example: **LHT-826-BN**

System	Model #	Watt	Finish
LHT, HHT, JHT	826	50W max	BK, BN, WT
LHT, HHT, JHT	826L	75W max	BK, BN, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

120VTrack

120V Track Premium Low Voltage

- Flexible cable arm for easy aiming
- Available shield accessories
- Metal construction

Shown with MR16G and optional mesh bulb shield

Low Voltage MR16G

Example: **LHT-204-BK**

System	Model #	Watt	Finish
LHT, HHT, JHT	204	50W max	BK, BN, WT
LHT, HHT, JHT	204L	75W max	BK, BN, WT

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

Example: **MBS-11-BK**

	Model #	MR11	MR16	Finish
Mesh Shield	MBS	11, 16		BK, BN, WT
Solid Shield	SBS	11, 16		BK, BN, WT

BK-Black, **BN**-Brushed Nickel, **WT**-White

- Ball and hub style aiming
- 350° horizontal rotation and 90° vertical aiming
- Die-cast aluminum construction

Low Voltage MR16G/MR11G

Example: **LHT-816-BN**

System	Model #	Watt	Finish
LHT, HHT, JHT	816	50W max	BK, BN, WT
LHT, HHT, JHT	816L	75W max	BK, BN, WT

Lamp: 12V, 50W/75W max, MR16G/MR11G, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

120V Track Premium Low Voltage

- Features a translucent etched glass shade
- 350° horizontal rotation and 90° vertical aiming
- Die-cast aluminum construction
- Use with a specialty frost back MR16G lamp to illuminate the shade with a soft white glow, see p.413 for lamp options

Low Voltage MR16G

Example: **LHT-866-BN**

System	Model #	Watt	Finish
LHT, HHT, JHT	866	50W max	BK, WT
LHT, HHT, JHT	866L	75W max	BK, WT

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

BK-Black, **WT**-White

- Fully enclosed backing prevents light leaks
- Built in hot aiming adjustment
- Die-cast aluminum construction
- Clear lens included, for optimal light control see p.419-420 for accessory options

Low Voltage MR16

Example: **LHT-846-BK**

System	Model #	Watt	Finish
LHT, HHT, JHT	846	50W max	BK, WT
LHT, HHT, JHT	846L	75W max	BK, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, **WT**-White

120V Track Premium Low Voltage

- Available barn door accessory controls glare from lamp
- Abrasion resistant powder coated finish
- Metal construction
- Clear lens included, for optimal light control
see p.419-420 for accessory options

Low Voltage MR16

Example: **LHT-801-BK**

System	Model #	Watt	Finish
LHT, HHT, JHT	801	50W max	BK, WT
LHT, HHT, JHT	801L	75W max	BK, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

Barn Door

Model #	Finish
801BD	BK, WT

order separately

BK-Black, WT-White

- Choose from the glass and shield options below
- 360° horizontal rotation and 180° vertical aiming
- Die-cast aluminum construction

Shown with G114-WT glass

Low Voltage MR16G

Example: **LHT-814-WT**

System	Model #	Watt	Finish
LHT, HHT, JHT	814	50W max	BK, PT/BK, PT/WT, WT
LHT, HHT, JHT	814L	75W max	BK, PT/BK, PT/WT, WT

Lamp: 12V, 50W/75W max, MR16G, order separately (p.413)

BK-Black, PT/BK-Platinum/Black, PT/WT-Platinum/White, WT-White

Glass and Shield Options (order separately)

AM-Amber, BL-Blue, BN-Brushed Nickel, CH-Chrome, DB-Dark Bronze, GR-Green, RD-Red, WT-White

120V Track Low Voltage

- Recessed lamp position for minimal glare
- Screw and swivel yoke for precise aiming
- Metal construction
- Clear lens included, for optimal light control
see p.419-420 for accessory options

Low Voltage MR16

Example: **LHT-808-DB**

System	Model #	Watt	Finish
LHT, HHT, JHT	808	50W max	BK, DB, WT
LHT, HHT, JHT	808L	75W max	BK, DB, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, **DB**-Dark Bronze, **WT**-White

- Optional framing projector accessory
- Swivel yoke for precise aiming
- Die-cast aluminum construction
- Clear lens included, for optimal light control
see p.419-420 for accessory options

Low Voltage MR16

Example: **LHT-007-WT**

System	Model #	Watt	Finish
LHT, HHT, JHT	007	50W max	BK, BN, WT
LHT, HHT, JHT	007L	75W max	BK, BN, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

Framing Projector

Model #	Finish
008FP	BK, WT

order separately

120V Track Low Voltage

- Round fixture with mesh back vent
- Swivel yoke for precise aiming
- Clear lens included, for optimal light control see p.419-420 for accessory options

Low Voltage MR11

Example: **LHT-1109-BK**

System	Model #	Finish
LHT, HHT, JHT	1109	BK, WT

Lamp: 12V, 35W max, MR11, order separately (p.413)

BK-Black, WT-White

Low Voltage MR16

Example: **LHT-809-WT**

System	Model #	Watt	Finish
LHT, HHT, JHT	809	50W max	BK, BN, WT
LHT, HHT, JHT	809L	75W max	BK, BN, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, BN-Brushed Nickel, WT-White

- Square fixture with mesh back vent
- Swivel yoke for precise aiming
- Clear lens included, for optimal light control see p.419-420 for accessory options

Low Voltage MR11

Example: **LHT-1102-WT**

System	Model #	Finish
LHT, HHT, JHT	1102	BK, WT

Lamp: 12V, 35W max, MR11, order separately (p.413)

BK-Black, WT-White

Low Voltage MR16

Example: **LHT-802-BN**

System	Model #	Watt	Finish
LHT, HHT, JHT	802	50W max	BK, BN, WT
LHT, HHT, JHT	802L	75W max	BK, BN, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, BN-Brushed Nickel, WT-White

120V Track Low Voltage

- Close to ceiling, low profile at only 4" overall height
- Metal construction
- Clear lens included, for optimal light control
see p.419-420 for accessory options

Low Voltage MR16

Example: **LHT-160-WT**

System	Model #	Watt	Finish
LHT, HHT, JHT	160	50W max	BK, WT
LHT, HHT, JHT	160L	75W max	BK, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, **WT**-White

- Gimbal ring fixture creates an open look
- 350° horizontal rotation and 180° vertical aiming
- Metal construction
- Clear lens included, for optimal light control
see p.419-420 for accessory options

Low Voltage MR16

Example: **LHT-180-BN**

System	Model #	Watt	Finish
LHT, HHT, JHT	180	50W max	BK, BN, WT
LHT, HHT, JHT	180L	75W max	BK, BN, WT

Lamp: 12V, 50W/75W max, MR16, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

120V Track Low Voltage

- Locking tension knob for precise vertical aiming
- 350° horizontal rotation and 90° vertical aiming
- Metal construction

120V Track

AR111 lamp features and benefits

- Provides whiter and brighter light
- Developed for color critical retail applications
- Crisp light from great distances or up close
- Screw terminal ensures secure connection
- Available in 4° to 45° beam angles

Low Voltage AR111/PAR36

Example: **LHT-936-WT**

System	Model #	Watt	Finish
LHT, HHT, JHT	936	50W max	BK, WT
LHT, HHT, JHT	936L	75W max	BK, WT

Lamp: 12V, 50W max, AR111/PAR36, order separately (p.413)
12V, 75W max, AR111, order separately (p.413)

BK-Black, **WT**-White

Low Voltage AR111/PAR36

Example: **LHT-901-WT**

System	Model #	Watt	Finish
LHT, HHT, JHT	901	50W max	BK, WT

Lamp: 12V, 50W max, AR111/PAR36, order separately (p.413)
12V, 75W max, AR111, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

120V Track

120V Track Minature Line Voltage

- Uses GU10 lamps to achieve the sleek look of MR16 fixtures without the need for a transformer

101

102

Line Voltage GU10

Example: **LTK-101-AM/BK**

System	Model #	Finish
LTK, HTK, JTK	101	AM/BK, AM/WT, WT/BK, WT/WT
LTK, HTK, JTK	102	AM/BK, AM/WT, WT/BK, WT/WT

Lamp: 120V, 50W, GU10 included

AM/BK-Amber/Black, **AM/WT**-Amber/White, **WT/BK**-White/Black, **WT/WT**-White/White

Line Voltage GU10

Example: **LTK-105-WT**

System	Model #	Finish
LTK, HTK, JTK	105	BK, WT

Lamp: 120V, 50W, GU10 included

BK-Black, **WT**-White

Example: **LTK-104-BK**

System	Model #	Finish
LTK, HTK, JTK	104	BK, DB, WT

Lamp: 120V, 50W, GU10 included

BK-Black, **DB**-Dark Bronze, **WT**-White

Example: **LTK-103-DB**

System	Model #	Finish
LTK, HTK, JTK	103	BK, DB, WT

Lamp: 120V, 50W, GU10 included

BK-Black, **DB**-Dark Bronze, **WT**-White

120V Track Line Voltage

120V Track

- Patented tool free locking mechanism for precise aiming
- Fully enclosed backing prevents light leaks
- Die-cast aluminium construction

Line Voltage PAR20, PAR30 and PAR38

Example: **LTK-720-BK**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	720	BK, WT	4½"	3¼"	6¾"

Lamp: 120V, 50W, PAR20, order separately

LTK, HTK, JTK	730	BK, WT	5"	4½"	7¾"
----------------------	------------	---------------	----	-----	-----

Lamp: 120V, 75W, PAR30, order separately

LTK, HTK, JTK	738	BK, WT	6½"	5½"	9¼"
----------------------	------------	---------------	-----	-----	-----

Lamp: 120V, 150W, PAR38, order separately

BK-Black, **WT**-White

120V Track Line Voltage

- Die-cast aluminium construction
- Patented tool free locking mechanism for precise aiming
- Open back industrial look

120V Track

Line Voltage PAR20, PAR30 and PAR38

Example: **LTK-753-WT**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	753	BK, WT	4½"	3¼"	6¾"

Lamp: 120V, 50W, PAR20, order separately

LTK, HTK, JTK	754	BK, WT	5"	4½"	7¾"
----------------------	------------	---------------	----	-----	-----

Lamp: 120V, 75W, PAR30, order separately

LTK, HTK, JTK	755	BK, WT	6½"	5½"	9¼"
----------------------	------------	---------------	-----	-----	-----

Lamp: 120V, 150W, PAR38, order separately

BK-Black, **WT**-White

120V Track Line Voltage

- High output quartz lamp fixture
- Die-cast black louver for glare control
- Die-cast aluminum body

Line Voltage Quartz J-150-S

Example: **LTK-150-BK**

System	Model #	Finish
LTK, HTK, JTK	150	BK, WT

Lamp: 120V, 150W, J-150-S included

BK-Black, WT-White

- Sliding adjustable socket to accommodate lamp positioning
- Includes secondary support brace to hold fixture firmly to track
- Available barn door controls glare, order separately
- Accepts lenses with the use of a lens clip, see p.419-420 for lens options

Line Voltage Universal medium-based lamp

Example: **LTK-024-BK**

System	Model #	Finish	L	H
LTK, HTK, JTK	024	BK, WT	4 3/4"	30" max
LTK, HTK, JTK	048	BK, WT	4 3/4"	54" max

Lamp: 120V, 150W, G/A/BR/PAR16/PAR20/PAR30/PAR38, order separately

BK-Black, WT-White

Barn Door Accessory (order separately)

Model #	Lamp	Finish
PAR20BD	PAR20	BK, WT
PAR30BD	PAR30	BK, WT
PAR38BD	PAR38	BK, WT

Lens Clip Accessory (order separately)

Model #	Lamp	Finish
PAR20HLD	PAR20	BK
PAR30HLD	PAR30	BK
PAR38HLD	PAR38	BK

120V Track Line Voltage

- Available barn door order separately
- Fixed position socket
- Accepts lenses with the use of a lens clip, see p.419-420 for lens options

Line Voltage Universal medium-based lamp

Example: **LTK-178-BN**

System	Model #	Finish
LTK, HTK, JTK	178	BK, BN, WT

Lamp: 120V, 50W, G/A/BR/PAR20/PAR30/PAR38, order separately

BK-Black, **BN**-Brushed Nickel, **WT**-White

Barn Door Accessory (order separately)

Model #	Lamp	Finish
PAR20BD	PAR20	BK, BN, WT
PAR30BD	PAR30	BK, BN, WT
PAR38BD	PAR38	BK, BN, WT

Lens Clip Accessory (order separately)

Model #	Lamp	Finish
PAR20HLD	PAR20	BK
PAR30HLD	PAR30	BK
PAR38HLD	PAR38	BK

- Sliding adjustable socket to accommodate lamp positioning
- Available barn door controls glare, order separately
- Accepts lenses with the use of a lens clip, see p.419-420 for lens options

Line Voltage Universal medium-based lamp

Example: **LTK-188-DB**

System	Model #	Finish
LTK, HTK, JTK	188	BK, BN, DB, WT

Lamp: 120V, 50W, G/A/BR/PAR16/PAR20/PAR30/PAR38, order separately

BK-Black, **BN**-Brushed Nickel, **DB**-Dark Bronze, **WT**-White

Barn Door Accessory (order separately)

Model #	Lamp	Finish
PAR20BD	PAR20	BK, BN, DB, WT
PAR30BD	PAR30	BK, BN, DB, WT
PAR38BD	PAR38	BK, BN, DB, WT

Lens Clip Accessory (order separately)

Model #	Lamp	Finish
PAR20HLD	PAR20	BK
PAR30HLD	PAR30	BK
PAR38HLD	PAR38	BK

120V Track Line Voltage

- Metal construction
- 350° horizontal rotation and 90° vertical aiming
- Fully enclosed backing prevents light leaks

Line Voltage PAR20

Example: **LTK-725-WT**

System	Model #	Finish
LTK, HTK, JTK	725	BK, WT

Lamp: 120V, 150W, A/PAR20/R20, order separately

BK-Black, **WT**-White

- 350° horizontal rotation and 90° vertical aiming
- Fully enclosed backing prevents light leaks
- Phenolic baffle included to reduce glare

Line Voltage PAR30

Example: **LTK-703-WT**

System	Model #	Finish
LTK, HTK, JTK	703	BK, WT

Lamp: 120V, 100W, A/PAR30/BR30, order separately

BK-Black, **WT**-White

Line Voltage PAR38

Example: **LTK-705-WT**

System	Model #	Finish
LTK, HTK, JTK	705	BK, WT

Lamp: 120V, 150W, PAR38/BR40, order separately

BK-Black, **WT**-White

120V Track Line Voltage

- Front loading for convenient re-lamping
- Fully enclosed backing prevents light leaks
- Phenolic baffle included to reduce glare
- Locking tension knob for precise vertical aiming

Line Voltage PAR38

Example: **LTK-706-BK**

System	Model #	Finish
LTK, HTK, JTK	706	BK, WT

Lamp: 120V, 150W, PAR38/BR40, order separately

BK-Black, **WT**-White

- Front loading for convenient re-lamping
- Fully enclosed backing prevents light leaks
- Phenolic baffle included to reduce glare

Line Voltage PAR20 and PAR30

Example: **LTK-701-BK**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	701	BK, WT	6 1/8"	3 1/2"	8 1/2"

Lamp: 120V, 60W, A/PAR20/R20, order separately

LTK, HTK, JTK	704	BK, WT	7 3/16"	4 7/16"	9 1/16"
----------------------	------------	---------------	---------	---------	---------

Lamp: 120V, 100W, A/PAR30/BR30, order separately

BK-Black, **WT**-White

Line Voltage PAR20 and PAR30

Example: **LTK-717-WT**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	717	BK, WT	6"	3 1/16"	8 1/8"

Lamp: 120V, 60W, A/PAR20/R20, order separately

LTK, HTK, JTK	718	BK, WT	7 3/16"	4 1/2"	9 1/8"
----------------------	------------	---------------	---------	--------	--------

Lamp: 120V, 100W, A/PAR30/BR30, order separately

BK-Black, **WT**-White

120V Track Line Voltage

120V Track

- Front loading for convenient re-lamping
- Double yoke design for easy aiming
- 350° horizontal rotation and 90° vertical aiming

Line Voltage
PAR20, PAR30 and PAR38

Example: **LTK-763-BK**

System	Model #	Finish	L	W	H
LTK, HTK, JTK	763	BK, BN, WT	4 ³ / ₄ "	3 ³ / ₄ "	7 ³ / ₁₆ "

Lamp: 120V, 50W, PAR20, order separately

LTK, HTK, JTK	764	BK, BN, WT	5"	5 ³ / ₁₆ "	9 ¹ / ₄ "
----------------------	------------	-------------------	----	----------------------------------	---------------------------------

Lamp: 120V, 75W, PAR30, order separately

LTK, HTK, JTK	765	BK, BN, WT	5"	5 ³ / ₁₆ "	9 ¹ / ₄ "
----------------------	------------	-------------------	----	----------------------------------	---------------------------------

Lamp: 120V, 150W, PAR38, order separately

BK-Black, **BN**-brushed Nickel, **WT**-White

120V Track

120V Track Commercial Energy Efficient

- Extruded aluminum construction
- Fully enclosed backing prevents light leaks
- Built in yoke and hub mounting system
- Two lockable aiming knobs
- Includes vertical louver for glare control
- Longer models have two mounting points for superior balance
- Ideal for retail, commercial and presentation applications where high foot candle levels and crisp white light are preferred
- Integral electronic ballast
- Durable abrasion resistant platinum or dark bronze powder coat finish
- Concealed wiring provides a clean appearance

Compact Fluorescent Twin tube, 4-pin

Example: **LTK-W126E-HS-WT** with **L126-CL**

System	Model #	Lamp	Finish	L	W	H
LTK, HTK, JTK	W126E-HS	120V, 1 × 26W	BK, WT	9 ⁷ / ₈ "	6 ³ / ₈ "	8 ¹ / ₄ "
LTK, HTK, JTK	W218E-HS	120V, 2 × 18W	BK, WT	12 ¹⁵ / ₁₆ "	6 ³ / ₈ "	8 ¹ / ₄ "
LTK, HTK, JTK	W227E-HS	120V, 2 × 27W	BK, WT	16"	6 ³ / ₈ "	8 ¹ / ₄ "
LTK, HTK, JTK	W239E-HS	120V, 2 × 39W	BK, WT	20 ¹ / ₁₆ "	6 ³ / ₈ "	8 ¹ / ₄ "
LTK, HTK, JTK	W240E-HS	120V, 2 × 40W	BK, WT	25 ¹⁵ / ₁₆ "	6 ³ / ₈ "	8 ¹ / ₄ "

Lamp: Twin Tube, 4-pin 2G11, order separately (p.415)

Louver (order separately)

Model #	Finish
L126	BK, CL, WT
L218	BK, CL, WT
L227	BK, CL, WT
L239	BK, CL, WT
L240	BK, CL, WT

BK-Black, **CL**-Clear, **WT**-White

- Ideal for retail spot lighting applications
- Integral electronic ballast
- Front loading for convenient re-lamping

Metal Halide CDM PAR20, PAR30 and PAR38

Example: **LTK-763-39E-BK**

System	Model #	Lamp	Finish	L	W	H
LTK, HTK, JTK	763-39E	120V, 39W, CDM PAR20	BK, PT/BK, PT/WT, WT	5"	3 ⁷ / ₈ "	8 ³ / ₈ "
LTK, HTK, JTK	764-39E	120V, 39W, CDM PAR30L	BK, PT/BK, PT/WT, WT	5 ⁷ / ₈ "	5"	9 ¹ / ₄ "
	764-70E	120V, 70W, CDM PAR30L				
LTK, HTK, JTK	765-70E	120V, 70W, CDM PAR38	BK, PT/BK, PT/WT, WT	6"	6 ¹ / ₂ "	11 ⁵ / ₈ "

Order lamp separately

BK-Black, **PT/BK**-Platinum/Black, **PT/WT**-Platinum/White, **WT**-White

Framing Projectors

120V Track

Features and Benefits

- Uses two lenses to allow precise focus adjustment
- Can be used to project images, signs, and corporate logos
- Highlight artwork or wall decor

- Accepts "D" size Glass and Metal Gobos; consult WAC Lighting for info on purchasing gobos
- 180° Vertical tilt
- 355° Horizontal rotation

LED

20W Multi-chip

- ANSI Compliant Warm/Neutral LED Bins, for the finest color consistency possible
- 50,000 hour potential life

Example: **L-LED009-CW-WT**

System	Model #	Lumens	Finish
L, H, J	LED009-CW	82	BK, WT

LED: 20W, 4000K color temp, CRI 80

L, H, J	LED009-WW	80	BK, WT
----------------	------------------	----	---------------

LED: 20W, 3000K color temp, CRI 80

Metal Halide

ES16

Example: **LTK-009-39E-WT**

System	Model #	Finish
LTK, HTK, JTK	009-39E	BK, WT

Lamp: 39W, HID ES16

BK-Black, **WT**-White

Low Voltage

MR16

- FPA or EYF MR16 lamps recommended for optimal performance

Example: **LHT-009L-BK**

System	Model #	Finish
LHT, HHT, JHT	009L	BK, WT

Lamp: 12V, 75W max, MR16, order separately (p.413)

BK-Black, **WT**-White

120V Track Design Guidelines

Design Guidelines

Choose track system	WAC Lighting offers 4 track systems: L, H and J single circuit track systems and our J2 two circuit system.
Laying out the track design	Determine layout of track, choose appropriate connectors to achieve the look you desire. Mark along the ceiling to indicate the placement of the track. To ensure the track runs parallel to a wall, measure out from the wall to each end of your desired placement.
Power	For direct to ceiling mounting connect to J box using a live end connector in conjunction with a canopy plate. For suspension mounting, connect to J box using a suspension kit canopy. Your maximum load capacity per circuit is 1920W. Determine the total wattage of the fixture before laying out the remainder of the system.
Mounting	For direct to ceiling to mounting, screw directly into ceiling. For drop ceilings, use two T-bar clips for 2 foot or 4 foot track and three for 6 foot or 8 foot track. In order to suspend the track, determine your ceiling type, flat or sloped, and choose appropriate standoffs. Use three supports minimum for an 8 foot section and two for a 4 foot section. Custom length suspensions are possible with the use of cables or suspension rods.
Joining track sections	"I" connectors can be either conductive or non conductive. Non-conductive "I" connectors may be used to electrically separate two runs without any visible separation to the design. Other available connectors include an "X"connector, "L" connector, "T" connector, and a flexible track connector.
Quick Connect™	Quick Connect™ Fixtures and Pendants allow for an extensive selection of glass and metal elements to complement the 120V track design. All Quick Connect™ elements require the appropriate Quick Connect™ track adapter.
Useful Tips	Track is supplied with two end caps. Assistance is only a phone call away. If you need help or design ideas please call WAC Lighting to speak to a friendly technical support specialist at 800.526.2588 .

Sample Layout

A	SK18	Track suspension rod
B	LLE	Live end connector
C	LT2	2 foot Section of LHT Track
D	LL-LEFT	"L" Connector (Left)
E	L-9S-WW	LEDme™ LED track head
F	L-ENDCAP	End Cap

Selecting Connectors (example using H Track)

- In order to select the appropriate connectors to maintain electrical continuity, start at your power source and walk the length of the track. If you turn left, use a left connector. If you turn right, use a right connector.

= Electrical Continuity

Polarity is just a matter of matching ends

The 2 wire side of an "H" Track has an indicator groove running its length

- Using a left connector, the track would run with the groove along the outside
- Using a right connector, the track would run with the groove along the inside

Low Cost Energy Code Compliance Made Easy

- Easy to install and assures compliance to California Title 24 or ASHRAE 90.1 requirements
- Energy code track installations are subject to wattage limitations based upon the size and usage of the space
- To order appropriate current limiter, select the model number which corresponds to the H, L, J or J2 track systems and the maximum allowable wattage
- May be mounted as a standard canopy, used in place of an "I" connector or as a live-end

Available Finishes

		H	L	J	J2
BK	Black	✓	✓	✓	✓
BN	Brushed Nickel	✓	✓	✓	
DB	Dark Bronze	✓	✓	✓	
WT	White	✓	✓	✓	✓

Overall Dimensions: 7½" x 5" x 1¼"

How It Works

- If the track is overloaded the current limiter circuit breaker will trip and shut down power to the track
- May be reset when the overall sum of fixture wattages are reduced below the circuit breaker rating
- It's that easy to ensure energy efficient usage of track installations

Model	H Track	L Track	J Track	J2 Track	Circuit Breaker	Wattage
Single Live End 	THL-HLE-1A	TLL-LLE-1A	TJL-JLE-1A	TJL-J2LE-2-1A	1 x 1A	1 x 120W

120V Single Circuit Track Sections and Components

Quick Connect™ Adapter

The threaded male adapter makes inter-system compatibility a snap. Simply insert the metal fitting into the system adapter, hand tighten the collar and you're done!

Example: **EN-LQ50AR-WT**

Model #	Finish
EN-LQ50AR	BK, BN, DB, WT
EN-HQ50AR	BK, BN, DB, WT
EN-JQ50AR	BK, BN, DB, WT
Min. Load: 1W	Max Load: 50W

Order one per Quick Connect™ fixture or pendant used.

Track Sections

L Track

L System Adapter

H Track

H System Adapter

J Track

J System Adapter

- May be field cut and easily installed on a variety of surfaces
- Available extension accessories (see below)
- Use compatible Quick Connect™ pendants and fixtures with each system (example H track with H system track heads or EN-HQ50AR adapters)
- End caps and mounting hardware included

Example: **LT2-BN**

System	2'	4'	6'	8'	Finish
L, H, J	T2, T4, T6, T8	BK, BN, DB, WT			

Includes two matching end caps.

Track Suspension Accessories

All Track Suspension Kits

Model #	18"	24"	36"	48"	Finish
SK	18, 24, 36, 48	BK, BN, DB, WT			

Includes track bracket, rod and ceiling canopy.

Example: **SK18-WT**

Suspension Kit Extensions

Model #	18"	24"	36"	Finish
R	18, 24, 36,	BK, BN, DB, WT		

48" 72"† 96"‡

R	48, 72, 96	BK, BN, DB, WT		
----------	-------------------	-----------------------	--	--

Extends track from ceiling.

Example: **R18-WT**

Wall Mount Suspension Bracket

Model #	Finish
TBKT	18" BK, BN, DB, WT

Extends 24" from wall.

Use two per 4' length, three per 8' length.

Example: **TBKT-BN**

BK–Black, **BN**–Brushed Nickel, **DB**–Dark Bronze, **WT**–White

Low Voltage Track Extension

Model #	6"	12"	18"	24"	Finish
X	6, 12, 18, 24	BK, BN, DB, WT			

36" 48" 72"† 96"‡

X	36, 48, 72, 96	BK, BN, DB, WT			
----------	-----------------------	-----------------------	--	--	--

Extends track heads. Specify extension, fixture and finish. Only available as complete unit.

Example: **X18-HHT-809-WT**

H Line Voltage Track Extension

Model #	18"	24"	36"	48"	Finish
H	18, 24, 36, 48	BK, BN, DB, WT			

Extends H System line voltage track heads.

Example: **H18-BK**

Rod Coupler

Model #	Finish
RI	BK, BN, DB, WT

Join two rods for suspensions longer than 48".

Example: **RI-BK**

* Use two suspension kits for 2' and 4' tracks, three kits for 6' and 8' tracks. For power to 2-wire systems add a live end (LLE), flexible connector (LFLX), or straight line power connector (LI-PWR). For power to 3-wire (H-System) or wide 2-wire systems (J-System), connect with HLE or JLE, HI-PWR or JI-PWR, HFLX or JFLX.

† Shipped as two 36" rods with threaded coupler to be joined in the field.
‡ Shipped as two 48" rods with threaded coupler to be joined in the field. Lengths longer than 96" not recommended as a voltage drop may occur.

120V Single Circuit Track Components

Components	Model #	Finish				Dimensions	Description		
		BK	BN	DB	WT				
Monopoint Canopy Adapter	 L/JMP HMP	LMP JMP HMP	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	Ø 4 ³ / ₈ " Ø 4 ³ / ₈ " 5 ³ / ₈ " × 5 ³ / ₈ "	Mount a single H, L or J system track fixture to an octagon box. When used with a low voltage track head the transformer box will protrude off of the face of the monopoint.	
Canopy Plate		CP	✓	✓	✓	✓	4 ¹ / ₂ " × 4 ¹ / ₂ "	Covers a standard 4 inch octagon box. Use with: LL-LEFT, LL-RIGHT, LLE, LFLX, LI-PWR, HLE, HFLX, HL-LEFT, HL-RIGHT, HT, HX, HI-PWR, JLE, JL-LEFT, JL-RIGHT, JFLX, JT, JX, JI-PWR.	
Floating Canopy Connector		LFC HFC JFC	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	4 ¹ / ₂ " × 4 ¹ / ₂ " × 1 ¹ / ₂ " 4 ¹ / ₄ " × 4 ¹ / ₄ " × 1 ³ / ₈ " 4 ⁵ / ₈ " × 4 ⁵ / ₈ " × 1 ³ / ₈ "	Connects to octagon box. Track can be powered anywhere along the length of the track.	
Live End Connector		LLE HLE JLE	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	4 ¹ / ₄ " × 1 ³ / ₈ " × 3/4" 4 ¹ / ₄ " × 1 ³ / ₈ " × 3/4" 4 ³ / ₄ " × 1 ¹ / ₄ " × 3/4"	Used for direct wiring from conduit through the ceiling.	
Live End BX Connector		LBXLE HBXLE JBXLE	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	6" × 1 ³ / ₈ " × 1 ¹ / ₄ " 5 ³ / ₄ " × 1 ³ / ₈ " × 1 ¹ / ₄ " 6 ¹ / ₄ " × 1 ³ / ₈ " × 1 ¹ / ₄ "	Live end connector, use with surface mounted BX or non-metallic sheathed cable. Also provides through the ceiling connection.	
"I" Power Connector		LI-PWR HI-PWR JI-PWR	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	6 ³ / ₄ " × 1 ³ / ₈ " × 3/4" 7" × 1 ³ / ₈ " × 3/4" 7 ¹ / ₈ " × 1 ³ / ₈ " × 3/4"	Power entry point at the connection of two tracks.

Suspension Loop		L-LOOP H-LOOP J-LOOP	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	1 ³ / ₈ " × 1 ³ / ₈ " × 3" 1 ³ / ₈ " × 1 ³ / ₈ " × 3" 1 ³ / ₈ " × 1 ³ / ₈ " × 3"	3 inch electrical loop accepts chain hung fixtures up to 35lbs max. Contains compartment for electrical connections.	
15' Cord, Male Plug (w/Switch)		LCORDSET	✓				✓	15'	Maximum capacity: 7A, 800W, 120V.
15' Cord, Male Plug		HCORD	✓				✓	15'	
T-Bar Drop Ceiling Attachment		TBARCLIP						1 ¹ / ₂ " × 1 ¹ / ₄ "	Attaches track to T-bar drop ceilings. Use two for 2 foot or 4 foot tracks, three for 6 foot or 8 foot tracks.
Sloped Ceiling Adapter		SK14	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓			Max capacity: 7A, 800W, 120V. Use with suspension kits to accommodate sloped ceilings.
Suspension Adjustment Collar		SK05	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓	✓ ✓ ✓			Used when suspension rod is field cut to custom lengths.

BK-Black, BN-Brushed Nickel, DB-Dark Bronze, WT-White

Example: LFLX-DB

120V Two Circuit Track Sections and Accessories

Track Sections

- Each Circuit is rated at 20A and allows the control of two individual sets of fixtures (1920W per circuit)
- Enables the use of two separately switched circuits on one section or run of track
- Compatible with all JHT and JTK series track luminaires
- Saves on installation costs by eliminating the need for long separate feed runs
- J2-T4 includes 3 JCLIP adapters
- J2-T8 includes 6 JCLIP adapters
- J2-T12 includes 9 JCLIP adapters

J2 Track

J2 System Adapter with JCLIP

Example: **J2-T4-WT**

System	4'	8'	12'	Finish
J2	T4, T8, T12			BK, WT

Includes two matching end caps.

Circuit No. 1 – Lower Circuit

- Insert fixture into the track
- Rotate adapter 90° until arrow points to the polarity line on the track

Circuit No. 2 – Upper Circuit

- Lift the copper tab marked "P" with a screw driver
- Insert supplied JCLIP under the tab
- Insert fixture into the track
- Rotate adapter 90° until arrow points to the polarity line on the track

One Feed Circuit – Two Switches

Two switches on one feed circuit provides the convenience and flexibility of using two sets of fixtures on a single run of track. Two sets of fixtures may be used to light two areas or for two applications, such as spot lighting and wall washing, all on a single run of track from a single feed point. Two-circuit track is also an economical way to light two areas from a single feed point, eliminating the need to run additional wiring and creating additional holes in the ceiling or wall. One feed circuit is typically limited to 120V 20A (2400W × 0.8 = 1920W).

Two Feed Circuits – Two Switches

Two switches with two feed circuits provide the same benefits of convenience and economy with the added benefit of doubling the electrical load capacity to 3840W (2 × 2400W × 0.8 = 3840W). This is ideal where long runs with many fixtures are anticipated or for applications where many high-wattage fixtures are to be used. Rated 3 wire, two circuit 120V/240V, 60Hz, single phase with grounded neutral.

Track Suspension Accessories

All Track Suspension Kits

Model #	18"	24"	36"	48"	Finish
SK	18, 24, 36, 48				BK, WT

Includes track bracket, rod and ceiling canopy.
Example: **SK18-WT**

Suspension Kit Extensions

Model #	18"	24"	36"	48"	72"†	96"‡	Finish
R	18, 24, 36,						BK, WT
R	48, 72, 96						BK, WT

Extends track from ceiling.
Example: **R18-WT**

Rod Coupler

Model #	Finish
RI	BK, WT

Join two rods for suspensions longer than 48".
Example: **RI-BK**

BK–Black, **WT**–White

Low Voltage Track Extension

Model #	6"	12"	18"	24"	36"	48"	72"†	96"‡	Finish
X	6, 12, 18, 24								BK, WT
X					36, 48, 72, 96				BK, WT

Extends track heads. Specify extension, fixture and finish. Only available as complete unit.
Example: **X18-HHT-809-WT**

Wall Mount Suspension Bracket

Model #	Finish
TBKT	18" BK, WT

Extends 24" from wall.
Use two per 4' length, three per 8' length.
Example: **TBKT-BN**

Wire Way Cover

Model #	Finish
J2-WCOV	BK, WT

Wire way cover for suspended track. Conceals electrical feed wires from stem to track live end.
Example: **J2-WCOV-WT**

* Use two suspension kits for 4' tracks, three for 8' tracks and four for 12' tracks. For power to J2 systems add a live end (J2LE), flexible connector (J2FLX), or straight line power connector (J2-PWR).

† Shipped as two 36" rods with threaded coupler to be joined in the field.
‡ Shipped as two 48" rods with threaded coupler to be joined in the field. Lengths longer than 96" not recommended as a voltage drop may occur.

120V Two Circuit Track Components

Components	Model #	Finish	Dimensions		Description	
			BK	WT		
2-Circuit Track Conversion Clip		JCLIP	✓ ✓ ✓	✓ ✓ ✓		Locks connectors into 2 circuit mode. Order one for each luminaire on second circuit. For use with J system 2-circuit track only. J2-T4 includes 3 JCLIP adapters, J2-T8 includes 6 JCLIP adapters, J2-T12 includes 9 JCLIP adapters.
Live End Connector		J2-LE	✓ ✓ ✓	✓ ✓ ✓	4¾"	Used for direct wiring from conduit through the ceiling.
"I" Connector		J2-I	✓ ✓ ✓	✓ ✓ ✓	4½"	Joins two sections of track with electrical continuity.
Live End BX Connector		J2-BXLE	✓ ✓ ✓	✓ ✓ ✓	5⅞"	Live end connector, use with surface mounted BX or non metallic sheathed cable. Also provides through the ceiling connection.
"I" Power Connector		J2-IPWR	✓ ✓ ✓	✓ ✓ ✓	7"	Power entry point at the connection of two tracks.
"L" Connector (Left)		J2-LLEFT	✓ ✓ ✓	✓ ✓ ✓	4¼" × 4¼"	Joins two track sections to make power feedable 90° left-hand polarity turns.
"L" Connector (Right)		J2-LRIGHT	✓ ✓ ✓	✓ ✓ ✓	4¼" × 4¼"	Joins two track sections to make power feedable 90° right-hand polarity turns.
"T" Connector		J2-T	✓ ✓ ✓	✓ ✓ ✓	7" × 4¼"	Joins three track sections in a "T" configuration. Power feedable on H and J only. T connector with opposite polarity is custom ordered.
"X" Connector		J2-X	✓ ✓ ✓	✓ ✓ ✓	7" × 7"	Joins four track sections in an "X" configuration. Power feedable on H and J only.
"I" Dead End Connector		J2-IDEC	✓ ✓ ✓	✓ ✓ ✓	3½"	Joins two sections of track without electrical continuity.
Flexible Track Connector		J2-FLX	✓ ✓ ✓	✓ ✓ ✓	11½"	Connects two track sections at angles from 60° to 180°. Use as a transition from wall-to-wall, wall-to-ceiling, or ceiling-to-ceiling. Power feedable with electrical continuity.
Octagon Box Cover		J2-UCP	✓ ✓ ✓	✓ ✓ ✓	4⅞" × 4⅞"	Octagon box cover, used with J2-IPWR, J2-LE, J2-LRIGHT, J2-LLEFT, J2-T and J2-X for octagon box feed.
T-Bar End Feed		J2-TBLE	✓ ✓ ✓	✓ ✓ ✓	4⅞" × 4⅞"	Feeds track from above when T-Bar is directly above track.
T-Bar Drop Ceiling Attachment		T-BARCLIP			1½" × 1¼"	Attaches track to T-bar drop ceilings. Use two for 4 foot tracks, three for 8 foot or four for 12 foot tracks.
Sloped Ceiling Adapter		SK14	✓ ✓ ✓	✓ ✓ ✓		Max capacity: 7A, 800W, 120V. Use with suspension kits to accommodate sloped ceilings.
Suspension Adjustment Collar		SK05	✓ ✓ ✓	✓ ✓ ✓		Used when suspension rod is field cut to custom lengths.

BK-Black, **WT**-White
Example: **J2-TBLE-BK**

Linear Track and Cove

Linear Track System

The innovative Linear Track System is the perfect solution for accent, cove and task applications.

As a miniature track system with a $\frac{3}{8}$ " profile, Linear replaces traditional track with a low voltage option that disappears on a ceiling.

Choose from any of our Quick Connect™ pendants and fixtures, the Linear system can be suspended from the ceilings for a dramatic display without noticeable transformers.

For under cabinet lighting, the Linear Track may be regressed for a built-in look. Ideal for illuminating hard to light areas.

The low profile track can be used with miniature fixtures that deliver high light output using small evenly spaced elements.

Linear Track can achieve various levels of illumination for cove lighting as well. Many LED and xenon options are available. Space closer together or farther apart for a custom lit cove to your desired brightness. Directional cove fixtures are available as well for additional control.

LEDme™ Fixtures

- Dimming to 15% or better, depending on system power supply minimum loads
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- 50,000 hour potential life
- Strong projected light output with no projected heat
- 360° horizontal rotation and 90° vertical adjustment
- Die-cast aluminum construction

---------------	---------------	-----	-----	-----

Lamp: 12V/24V, 50W max, MR16, order separately (p.413)

BK-Black, **WT**-White

LED Cove and Niche Lighting Fixtures

- 1W LED luminaire replaces a 10W xenon lamp
- Integral drivers allow for direct replacement of xenon fixtures direct retrofit for existing 12V and 24V track systems
- 120° beam spread permits spacing at 4 inch centers
- 50,000 potential lamp life
- Available in 3000K and 4000K
- Dimmable to 10% with Electronic Low Voltage (ELV) dimmer

SBH-314-C-WT

SBH-316-C-BK

LEDme™

Example: **SBH-314-W-BK**

Model #	Temp	Finish
SBH-314-W	3000K	BK, WT
SBH-314-C	4000K	BK, WT

LED: 12V, 1W*, CRI 80, 55 lumens

Model #	Temp	Finish
SBH-316-W	3000K	BK, WT
SBH-316-C	4000K	BK, WT

LED: 12V, 1.5W*, CRI 80, 80 lumens

SBH-314-24-W	3000K	BK, WT
SBH-314-24-C	4000K	BK, WT

LED: 24V, 1W*, CRI 80, 55 lumens

SBH-316-24-W	3000K	BK, WT
SBH-316-24-C	4000K	BK, WT

LED: 24V, 1.5W*, CRI 80, 80 lumens

BK-Black, **WT**-White

**Power consumption may vary depending on the efficiency of the power supply being used*

- Direct retrofit for existing 12V and 24V track systems
- Small low profile style, perfect for concealed spaces such as under cabinets and coves
- Using a number of small evenly spaced light sources is ideal for producing smooth lighting
- Accepts both LED and xenon lamps
- Dimmable
- All lamps ordered separately, see p.412 for lamp options

SBH-210-BK with LED Festoon lamp

Lamp Festoon Fixture with Reflector

Example: **SBH-210-BK**

Model #	Finish
SBH-210	BK, WT

Lamp: 12V/24V, 10W max, Xenon Festoon
LED: 12V/24V, 0.6W max, 3200K LED Festoon

BK-Black, **WT**-White

Cove and Niche Lighting Fixtures

- Small low profile styles, perfect for concealed spaces such as under cabinets and coves
- Using a number of small evenly spaced light sources is ideal for producing smooth lighting
- All lamps ordered separately, see p.412 for lamp options

Single Lamp Fixture

Example: **SBH-101-WT**

Model #	Finish
SBH-101	BK, WT

Lamp: 12V, 5W max, Xenon Wedge Base
24V, 7.5W max, Xenon Wedge Base

BK-Black, **WT**-White

Double Lamp Fixture with Adjustable Reflector

Example: **SBH-102-WT**

Model #	Finish
SBH-102	BK, WT

Lamp: 12V, 5W max, Xenon Wedge Base
24V, 7.5W max, Xenon Wedge Base

BK-Black, **WT**-White

Swivel Fixture with Reflector

Example: **SBH-105-WT**

Model #	Finish
SBH-105	BK, WT

Lamp: 12V/24V, 20W max, Xenon Bi-Pin

BK-Black, **WT**-White

Rigid Loop Fixture with Reflector

Example: **SBH-110-WT**

Model #	Finish
SBH-110	BK, WT

Lamp: 12V/24V, 10W max, Xenon Rigid Loop

BK-Black, **WT**-White

Linear Quick Connect™ Pendants and Fixtures

Refer to page numbers for specifications and ordering information. Order one **SADP** per pendant or fixture used. Pendants and fixtures are not relative in size to one another.

Linear Track Quick Connect™ Adapter

Choose from any of our Quick Connect™ pendants and fixtures on p. 277-278, the Linear system can be suspended from the ceilings for a dramatic display without noticeable transformers.

Quick Connect™ Adapter for Linear Track

The threaded male adapter makes inter-system compatibility a snap. Simply insert the metal fitting into the system adapter, hand tighten the collar and you're done!

Example: **SADP-BK**

Model #	Finish
SADP	BK, BN, WT
Min. Load: 1W	Max Load: 50W

Order one per Quick Connect™ fixture or pendant used.

Track and Design Guidelines

Polycarbonate Track Sections

It's small size makes Linear track easy to hide. Grooves hold track in a channel when recessed. Continuous copper conductors ensure a permanent secure installation. Maybe field cut.

Example: **ST4-BK**

Model #	45 3/4"	93 3/4"	Finish
S	T4, T8		BK, WT

Includes one end cap and mounting hardware.

BK-Black, **BN**-Brushed Nickel, **WT**-White

Extruded Aluminum Track Sections

Start Section

Example: **STC4-S-WT**

Model #	Finish
STC4-S	BK, BN, WT

Designed to include track, track carrier, live end, end cap for ST track and end caps for track carrier. May be field cut.

Middle and End Section

Example: **STC4-M-WT**

Model #	Finish
STC4-M	BK, BN, WT

Designed to include track, track carrier, I connector, end cap for track and end cap for track carrier. May be field cut.

BK-Black, **BN**-Brushed Nickel, **WT**-White

Design Guidelines

Layout	Determine light level: Medium cove or counter top – 10W/ft Bright cove or counter top – 20W/ft, Display lighting – 20-50W/ft Total the run length: 20ft max for 12V, 35ft max for 24V <i>Definition of a "run" is a live end and track section.</i>
Wattage	12V –240W is the maximum draw allowable. 24V –480W is the maximum draw allowable.
Transformers	Surface mounted electronic is recommended for shorter runs. Remote magnetic and electronic transformers are also available. Use magnetic transformers for larger capacities and to minimize voltage drop. All switching is on primary side of transformer. Magnetic transformers require magnetic dimmers. Electronic transformers require electronic dimmers.
Mounting	Track mounts to surfaces with screws or may be placed in a rigid aluminum carrier for cable suspension or wall mounting.
Joining Sections	Use "I" connectors, "L" connectors and the flexible jumper set connector to create custom track layouts. A live end is always the means of powering track.
Quick Connect™	Quick Connect™ transformer attaches to track and accepts all Quick Connect™ fixtures and pendants with low voltage SADP adapter
Useful Tips	12 AWG wire minimum stranded wire is best. Assistance is only a phone call away. If you need help or design ideas please call WAC Lighting to speak to a friendly lighting specialist at 800.526.2588 .

*Separate input leads for separate switching

Voltage Drop Guidelines (based on 10 gauge wire)

Model #	Run length	Distance to power feed
SRT-300M-12V	40' max	10ft max
SRT-500M-12V	2 × 40' max	10ft max
SRT-600M-12V	2 × 40' max	10ft max
SRT-600M2-12V	2 × 40' max	10ft max
SRT-1000M-12V	4 × 40' max	10ft max
SRT-300M-24V	40' max	10ft max
SRT-600M-24V	40' max	10ft max
SRT-1000M-24V	2 × 40' max	10ft max

On a full load voltage drop can cause a system to exceed the 25A rating. Guidelines assist with layouts only. When installing a 12V system, ensure that a min. of 12V is supplied at power feeds. 10AWG wire should be used with remote transformers. Multi-tap output terminals (remote magnetic transformers) help make up for voltage drop before the power feed. Use a multimeter to verify no less than 11V is found at the end of the run and no more 25A is being drawn from the power feed.

BK-Black, WT-White

Reduces buzzing sound from surface mount magnetic transformers. Wire in series on the 120V input line. Select the correct model based on the wattage of the transformer.

Covers a standard 4" junction box. Starting point for up to four separate track runs. A live end connector (SLE) is required for each track section to be powered (order separately). Mounting hardware included. Requires two TBARCLIP's for T-bar installation.

Built in on/off switch. Installs at end of a track or remotely. Knockouts at each end for track sections. Live end connector (SLE) required to power each track section.

InvisiLED® Tape Light

InvisiLED® Tape Light

Sophisticated custom lighting made simple for homes, hotels, restaurants and more, our energy efficient InvisiLED® LED tape lighting systems present enormous possibilities for any space.

From decks, pools and fountains, to stairs, wall niches, coves and under cabinets, our versatile tape systems run the gamut of potential application spaces.

Easy to install, highly customized and virtually invisible, InvisiLED® is the ultimate flexible lighting system. Custom color control and high quality light are delivered with precision and quality.

InvisiLED® Pro 24V

InvisiLED® Pro is a professional grade, warm white tape light that delivers optimal color consistency and brightness.

A powerful 200 lumens per foot makes this system ideal for task oriented lighting applications, while dimming capabilities allow for the creation of a more ambient, accent light.

A versatile system, InvisiLED® Pro maintains high quality light for a variety of applications and spaces.

InvisiLED® Tape Light

InvisiLED® Pro 24V

- 3000K and 4500K color temperatures
- 200 lumens per foot
- 3W per foot
- 50,000 hours of potential life
- Operates on 24V
- Dimmable with Electronic Low Voltage (ELV) dimmer
- 24V – minimum run length of 1' and maximum of 33'
- May be field cut every 2" at the end of a run
- UL listed for damp locations

InvisiLED® Tape Light

Components

Class 2 Power Supply	Remote 	EN-2460-RB2-T EN-24100-RB2-T	60W 100W	6' lead wire included. Requires a minimum load of 1W. Max run 60W: 25' Max run 100W: 33'
	Plug-in 	EN-2460-P-AR-T EN-24100-P-AR-T	60W 100W	
Lead Wire		LED-TC-P-2 LED-TC-P-12	2' 12'	Alternative length of lead wires for plug-in or remote power supply. May be field cut for use with a remote power supply.
Joiner Cable		LED-TC-IC2 LED-TC-IC6 LED-TC-IC12 LED-TC-IC72	2" 6" 12" 72"	Connects two sections of InvisiLED® Pro.
4-Way "X" Connector		LED-TC-X	3¾" × 3¾" × 5/16"	"X" connector has one male and three female connectors and can be used to easily customize your design layout. <i>Total run length power consumption cannot exceed transformer load when "X" connector is used.</i>
3-Way "Y" Connector		LED-TC-Y	3 1/16" × 3 1/16" × 5/16"	"Y" connector has one male and two female connectors and can be used to easily customize your design layout. <i>Total run length power consumption cannot exceed transformer load when "Y" connector is used.</i>
"L" Connector		LED-TC-L	1 3/8" × 1 5/16" × 1/4"	"L" connector has male and female connectors and is used to create 90° right angles.
End cap		LED-TC-EC	1/2" × 1/4" × 3/16" 1/2" × 1/2" × 1/8"	Includes 1 cut end cap and 1 male end cap. Use to terminate every run to protect against contaminants.
Mounting Clips (10 pack)		LED-T-CL	1/2"	For installation on surfaces that are difficult to adhere to. Two mounting clips per foot are recommended for straight runs.
Retrofit Channel		LED-T-RC	36" × 2" × 2"	Use to construct a miniature cove or light baffle in which tape may be concealed. May also be mounted to the channel as a way to change the direction of the projected light.

InvisiLED® Classic 12V and 24V

WAC Lighting's original tape light, InvisiLED® Classic is still as relevant now as when first conceived. The versatile 12 or 24 volt tape lights come in four rich colors as well as warm white and are perfect for unique accent lighting applications.

Available in three lengths and with optional cables and connectors, this highly customized system brings life and color to places normally left dull and boring.

InvisiLED® Tape Light

InvisiLED® Classic 12V and 24V

- 3500K color temperature
- 2W per foot
- 50,000 hours of potential life
- 12V – minimum run length of 1' and maximum of 25'
- 24V – minimum run length of 1' and maximum of 40'
- Dimmable with Electronic Low Voltage (ELV) dimmer
- May be field cut every 2" at the end of a run
- UL listed for damp locations

12V: 4-pin

24V: 5-pin

Example: **LED-T-2IN-WT**

Class 2 Power Supply	Remote	EN-1260-RB2-T	EN-2460-RB2-T EN-24100-RB2-T	60W 100W	6' lead wire included. Requires a minimum load of 1W. Max run 60W: 25' Max run 100W: 40'
	Plug-in	EN-1260-P-AR-T	EN-2460-P-AR-T EN-24100-P-AR-T	60W 100W	
Lead Wire		LED-T-P-2 LED-T-P-12	LED-TC-P-2 LED-TC-P-12	2' 12'	Alternative length of lead wires for plug-in or remote power supply. May be field cut for use with a remote power supply.
Joiner Cable		LED-T-IC2 LED-T-IC6 LED-T-IC12 LED-T-IC72	LED-TC-IC2 LED-TC-IC6 LED-TC-IC12 LED-TC-IC72	2" 6" 12" 72"	Connects two sections of InvisiLED®.
4-Way "X" Connector		LED-T-X	LED-TC-X	3¼" × 3¼" × 5/16"	"X" connector has one male and three female connectors and can be used to easily customize your design layout.
3-Way "Y" Connector		LED-T-Y	LED-TC-Y	3¼" × 3¼" × 5/16"	"Y" connector has one male and two female connectors and can be used to easily customize your design layout.
"L" Connector		LED-T-L	LED-TC-L	1⅜" × 1⅜" × ¼"	"L" connector has male and female connectors and is used to create 90° right angles.
End cap		LED-T-EC	LED-TC-EC	½" × ¼" × 3/16" ½" × ½" × ⅛"	Includes 1 cut end cap and 1 male end cap. Use to terminate every run to protect against contaminants.
Mounting Clips (10 pack)		LED-T-CL	LED-T-CL	½"	For installation on surfaces that are difficult to adhere to. Two mounting clips per foot are recommended for straight runs.
Retrofit Channel		LED-T-RC	LED-T-RC	36" × 2" × 2"	Use to construct a miniature cove or light baffle in which tape may be concealed. May also be mounted to the channel as a way to change the direction of the projected light.

InvisiLED® Palette

InvisiLED® Palette is a color changing tape light that smoothly transitions through the entire visible color spectrum for a unique and custom lighting effect. The colors progress in a constant, softly flowing manner with adjustable speed and brightness to adapt to any environment.

The color transformation can be paused at any point and be switched to a soothing warm white light when a general ambient effect is required.

The optional DMX Controller offers even greater potential for custom lighting capabilities. Brightness, frequency, dimming, flashing, custom colors and more can be programmed with acute accuracy.

InvisiLED® Tape Light

The Torto™ ceiling fan provided by Fanimation.

InvisiLED® Palette

- Select from any color to visibly change an interior design
- Run a program to change the speed and brightness
- 1.5W per foot
- 50,000 hours of potential life
- DMX and wireless controller options
- Master/slave options on controller
- Operates on 24V
- May be cut every 6" at the end of a run
- Minimum run length of 1' and maximum of 40'

Stop at any point for a custom color effect.

	Model #	Length	Qty
Order Individually	LED-TC-1-RGB	1 Foot	1
	LED-TC-5-RGB	5 Feet	1
Order in Bulk	LED-TC-1-40-RGB	1 Foot	40

Color Changing Controller

Components

Class 2 Power Supply	Remote	EN-2460D-C	60W	Supplies power with hard wiring. 6' long lead wire included. Requires a minimum load of 1W for consistent operation.
	Plug-in	EN-2460D-C-P	60W	6' long input and output wires. Requires a minimum load of 1W for consistent operation.
Wireless Controller (optional)		LED-TO24-WS	4" x 2½" x 5/8"	Wireless connection to Master Controller. (see p.292 for full description of functions).
Controller (required)		LED-TC-CTR-MSD	6' wire	Switch for master, slave and DMX functions. A new controller is needed for every 40' extension along with a separate 120V power supply. (see diagram above for full descriptions of functions).
Signal Wire		LED-TC24-SW60 LED-TC24-SW120	60" 120"	Extends distance between Master Controller and Slave Controller. (DMX connection)
Joiner Cable		LED-TC-IC2 LED-TC-IC6 LED-TC-IC12 LED-TC-IC72	2" 6" 12" 72"	Connects two sections of InvisiLED®.
4-Way "X" Connector		LED-TC-X	3¾" x 3¾" x 5/16"	"X" connector has one male and three female connectors and can be used to easily customize your design layout.
3-Way "Y" Connector		LED-TC-Y	3¾" x 3¾" x 5/16"	"Y" connector has one male and two female connectors and can be used to easily customize your design layout.
"L" Connector		LED-TC-L	1⅜" x 1⅝" x ¼"	"L" connector has male and female connectors and is used to create 90° right angles.
End cap		LED-TC-EC	½" x ¼" x 3/16" ½" x ½" x 1/8"	Includes 1 cut end cap and 1 male end cap. Use to terminate every run to protect against contaminants.
Mounting Clips (10 pack)		LED-T-CL	½"	For installation on surfaces that are difficult to adhere to. Two mounting clips per foot are recommended for straight runs.
Retrofit Channel		LED-T-RC	36" x 2" x 2"	Use to construct a miniature cove in which tape may be concealed, or as a way to change the direction of the projected light.

InvisiLED® Daylight to Sunset

Our Daylight to Sunset InvisiLED® is a color changing tape light that offers the unique ability to change the atmosphere of any interior space with the push of a button. Relax as the light segues from cool white to warm amber, mimicking the sun's gentle passage through the sky.

Adjustable brightness and speed controls allow one to achieve any desired ambiance. Pause the effect at any point and bask in the light of your favorite time of day in perpetuity.

The optional DMX Controller offers even greater potential for custom lighting capabilities. Brightness, frequency, dimming, flashing, custom colors and more can be programmed with acute accuracy.

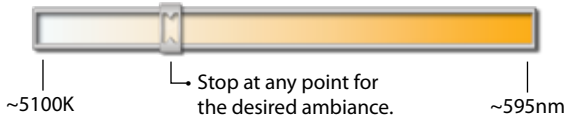

InvisiLED® Tape Light

InvisiLED® Daylight to Sunset

- Choose a color from daylight to sunset to set the desired ambiance of any room
- Run a program to change the speed and brightness
- DMX and wireless controller options
- 50,000 hours of potential life

- 1.5W per foot
- Operates on 24V
- May be field cut every 6" at the end of a run
- Minimum run length of 1' and maximum of 40'

InvisiLED® 24V Outdoor

WAC Lighting's answer to any and all outdoor accent lighting applications. Available in our Classic 24V five color system or our color changing Palette, InvisiLED® Outdoor brings color and life to any landscaping project.

The latest in energy efficient LED technology is water sealed in silicone cased tape, while still delivering crisp, quality light and effortless navigation of curves.

InvisiLED® Tape Light

InvisiLED® 24V Outdoor

- IP-68 rated, allows for submersion up to five feet
- DMX and wireless controller options for Palette system
- Power supply is UL listed for wet locations
- Classic: 2W per foot
- Palette: 1.5W per foot

- Low profile ½" W × ⅛" H
- Four mounting options
- May be field cut every 2" at the end of a run
- Minimum run length of 1' and maximum of 40'

Example: **LED-TO24-1-AM**

Classic Outdoor

	Model #	Color	Color Temp
1 foot	LED-TO24-1	AM Amber	590-595nm
5 feet	LED-TO24-5	BL Blue	465-470nm
10 feet	LED-TO24-10	GR Green	515-520nm
		RD Red	625-630nm
		WT White	3500K

Palette Outdoor

	Model #
1 foot	LED-TCO-1-RGB
5 feet	LED-TCO-5-RGB
10 feet	LED-TCO-10-RGB

Wireless Controller Functions

Outdoor Classic and Palette Components

Power Supply		EN-O24100-RB2-T	100W	Supplies power with hard wiring. 6' long lead wire included. Requires a minimum load of 1W for consistent operation.
Joiner Cable		LED-TO24-IC6 LED-TO24-IC12 LED-TO24-IC72 LED-TO24-IC120	6" 12" 72" 120"	CLASSIC – Connects 2 sections of tape <i>ONLY</i> . PALETTE – Extends distance between Power Supply and Master and/or Slave Controller <i>ONLY</i> .
4-Way "X" Connector		LED-TO24-X (Classic) LED-TO24-X-RGB (Palette)	11 ½" × 11 ¾" × ¾" 6 ⅞" × 6 ¾" × ¾"	"X" connector has one male and three female connectors and can be used to easily customize your design layout.
3-Way "Y" Connector		LED-TO24-Y (Classic) LED-TO24-Y-RGB (Palette)	7 ½" × 7 ½" × ¾" 4 ¾" × 4 ¾" × ¾"	"Y" connector has one male and two female connectors and can be used to easily customize your design layout.
End cap		LED-TO24-EC	5/8" × 5/8" × 3/8"	Use to terminate every run to protect against contaminants. Seal cut end with silicone after adding end cap.
Mounting Clip 1 (10 pack)		LED-TO24-C1	1 ⅛" × 3/8" × 1/4"	For installation on non-flat surfaces where there is no edge contact. 2 clips per ft are recommended for straight runs.
Mounting Clip 2 (10 pack)		LED-TO24-C2	7/8" × 3/8" × 1/4"	For installation on non-flat surfaces, allows for contact on one edge. 2 clips per ft are recommended for straight runs.
Mounting Clip 3 (10 pack)		LED-TO24-C3	5/8" × 5/8" × 1/4"	For installation on non-flat surfaces, allows for contact on both edges. 2 clips per ft are recommended for straight runs.
Retrofit Channel		LED-TO24-CH1 LED-TO24-CH5	12" × 5/8" × 1/4" 60" × 5/8" × 1/4"	Rigid, non-flexible channel for mounting to a straight, solid surface.

Outdoor Controller Components

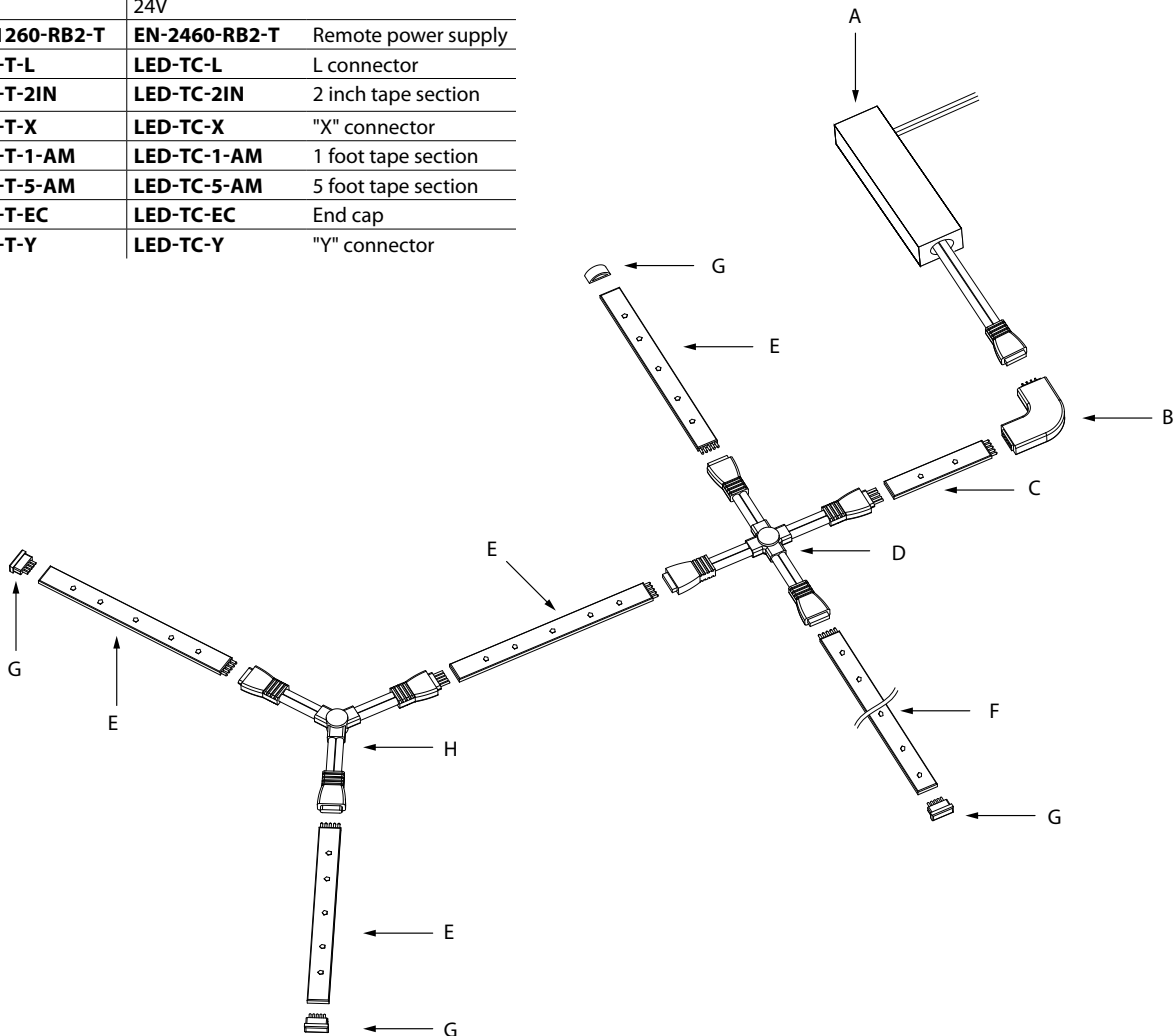

Wireless Palette Controller		LED-TO24-WS	4" × 2 ½" × 5/8"	Wireless connection to Master Controller. (see diagram above for full description of functions).
Master Controller		LED-TO24-CM	4" × 2" × 1 ½"	Powers one run up to 40'. Connects and controls all slave controllers for runs over 40'.
Slave Controller		LED-TO24-CS	4" × 2" × 1 ½"	Connects to Master Controller for runs over 40'. Uses a separate 120V power supply. Powers up to another 40', a new Slave Controller is needed for every 40' extension.
Signal wire		LED-TO24-SW60 LED-TO24-SW120	60" 120"	Extends distance between Master Controller and Slave Controller.
RGB Joiner Cable		LED-TO24-IC6-RGB LED-TO24-IC12-RGB LED-TO24-IC72-RGB LED-TO24-IC120-RGB	6" 12" 72" 120"	Use to connect two sections of Palette tape.

Design Guidelines

Layout	Determine the necessary quantities of 5 foot, 1 foot and 2 inch sections that are needed. Determine the number of separately powered runs needed. How many power supplies are needed? 12V- Requires a minimum run length of 1 foot and is limited to a maximum run of 25 feet per 60W Class 2 power supply. May experience some visible loss of intensity between 15 feet and 25 feet due to voltage drop. 24V- Offers a 100W power supply, allowing for a minimum run of 1 foot and a maximum run of 40 feet for Classic, 33 feet for Pro.
Power	Easy to install by simply powering the power supply and connecting the male and female sections and connectors creating straight lines, any angled turns, or lengthwise curves. Use end caps to seal the end of each run. Female and male end caps are available. Terminate each cut segment with a cut end cap. Terminate the uncut end of the section with a male end cap.
Joining Sections	Choose the necessary connectors to achieve your desired effect. Joiner cables can also be used for carrying power between sections of a run and creating connections at any angle. 12V- May be cut in field every 2 inches. 24V- May be cut in field every 2 inches. (See indicated markings on the adhesive side). CAUTION: Cut sections may not be rejoined to start a new section.
Mounting	Behind each section is a 3M® construction adhesive. Peel back the covering and press firmly onto smooth surfaces. If a 1 inch by 1 inch or greater cove is not built-in, a Retrofit Channel may be necessary to conceal the strip or to provide an extended surface for mounting or redirecting the light. Mounting clips and screws are available to reinforce secure mounting to porous surfaces. Sections snap into mounting clips without the use of the adhesive thus permitting sections to be easily changed.
Tips	Dimming is generally recommended with Electronic Low Voltage (ELV) dimmers. Call WAC Lighting for specific recommendations. Assistance is only a phone call away. Please call WAC Lighting to speak to a friendly technical support specialist at 800.526.2588 .

F	LED-T-5-AM	LED-TC-5-AM	5 foot tape section
G	LED-T-EC	LED-TC-EC	End cap
H	LED-T-Y	LED-TC-Y	"Y" connector

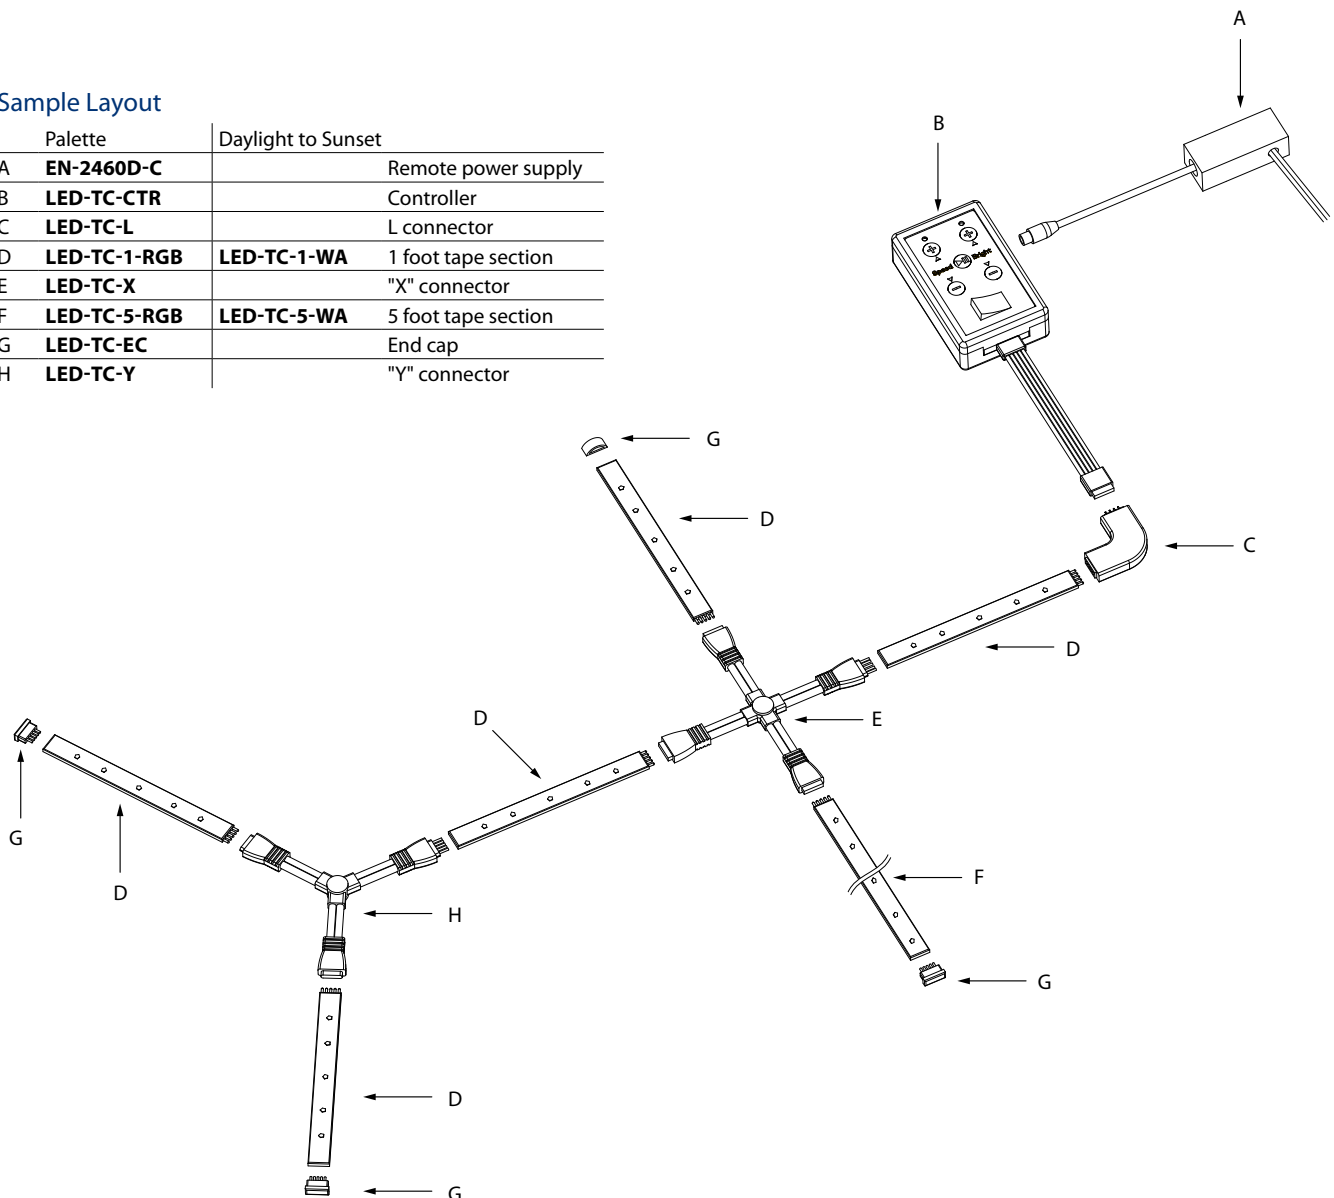

Design Guidelines

Layout	Determine the necessary quantities of 5 foot and 1 foot sections that are needed. Determine the number of separately powered runs needed. How many power supplies are needed? A minimum run length of 1 foot is required and is limited to a maximum run of 40 feet per 60W Class 2 power supply.
Power	Easy to install by simply powering the power supply and connecting the male and female sections and connectors creating straight lines, any angled turns, or lengthwise curves. Use end caps to seal the end of each run. Female and male end caps are available. Terminate each cut segment with a cut end cap. Terminate the uncut end of the section with a male end cap.
Joining Sections	Choose the necessary connectors to achieve your desired effect. Joiner cables can also be used for carrying power between sections of a run and creating connections at any angle. May be cut in field every 6 inches. (See indicated markings on the adhesive side). CAUTION: Cut sections may not be rejoined to start a new section.
Mounting	Behind each section is a 3M® construction adhesive. Peel back the covering and press firmly onto smooth surfaces. If a 1 inch by 1 inch or greater cove is not built-in, a Retrofit Channel may be necessary to conceal the strip or to provide an extended surface for mounting or redirecting the light. Mounting clips and screws are available to reinforce secure mounting to porous surfaces. Sections snap into mounting clips without the use of the adhesive thus permitting sections to be easily changed.
Tips	Dimming is generally recommended with WAC Lighting controller. Call WAC Lighting for other specific recommendations. Assistance is only a phone call away. Please call WAC Lighting to speak to a friendly technical support specialist at 800.526.2588 .

Sample Layout

Palette	Daylight to Sunset	
A EN-2460D-C		Remote power supply
B LED-TC-CTR		Controller
C LED-TC-L		L connector
D LED-TC-1-RGB	LED-TC-1-WA	1 foot tape section
E LED-TC-X		"X" connector
F LED-TC-5-RGB	LED-TC-5-WA	5 foot tape section
G LED-TC-EC		End cap
H LED-TC-Y		"Y" connector

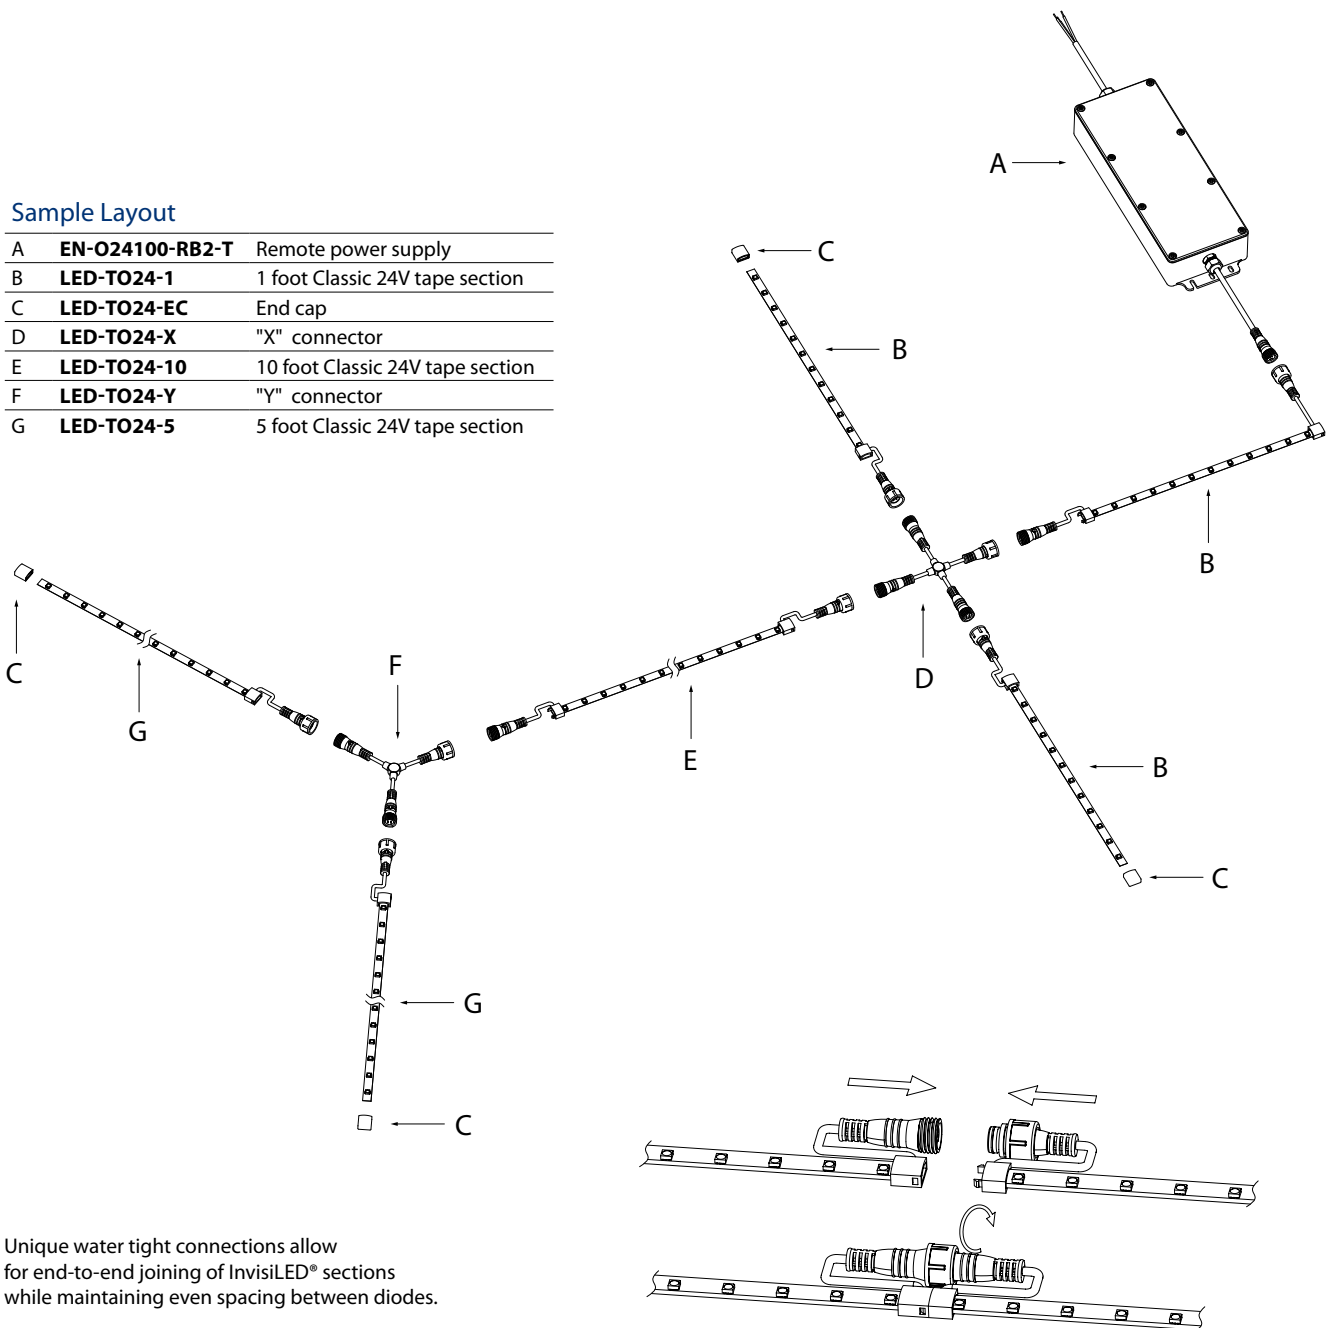

Design Guidelines

Layout	Determine the necessary quantities of 1 foot, 5 foot and 10 foot sections that are needed. Requires a minimum run length of 1 foot and is limited to a maximum run of 40 feet per 100W power supply. Depending on length of run, determine how many power supplies are needed.
Power	Easy to install by simply powering the power supply and connecting the male and female sections and connectors creating straight lines, any angled turns, or lengthwise curves. Use end caps with silicone for a water tight seal at the end of each run.
Mounting	Four mounting options available for wood, concrete and many other outdoor applications.
Joining Sections	Choose the necessary connectors to achieve your desired effect. A Joiner Cable can be used for carrying power between sections of a run and creating connections at any angle. May be cut to length every 2" (see indicated markings on back of InvisiLED® section) or at the end of every run (cut sections may not be rejoined to start a new section and must be sealed with silicone after adding end cap).
	Assistance is only a phone call away. Please call WAC Lighting to speak to a friendly technical support specialist at 800.526.2588 .

Sample Layout

A	EN-O24100-RB2-T	Remote power supply
B	LED-TO24-1	1 foot Classic 24V tape section
C	LED-TO24-EC	End cap
D	LED-TO24-X	"X" connector
E	LED-TO24-10	10 foot Classic 24V tape section
F	LED-TO24-Y	"Y" connector
G	LED-TO24-5	5 foot Classic 24V tape section

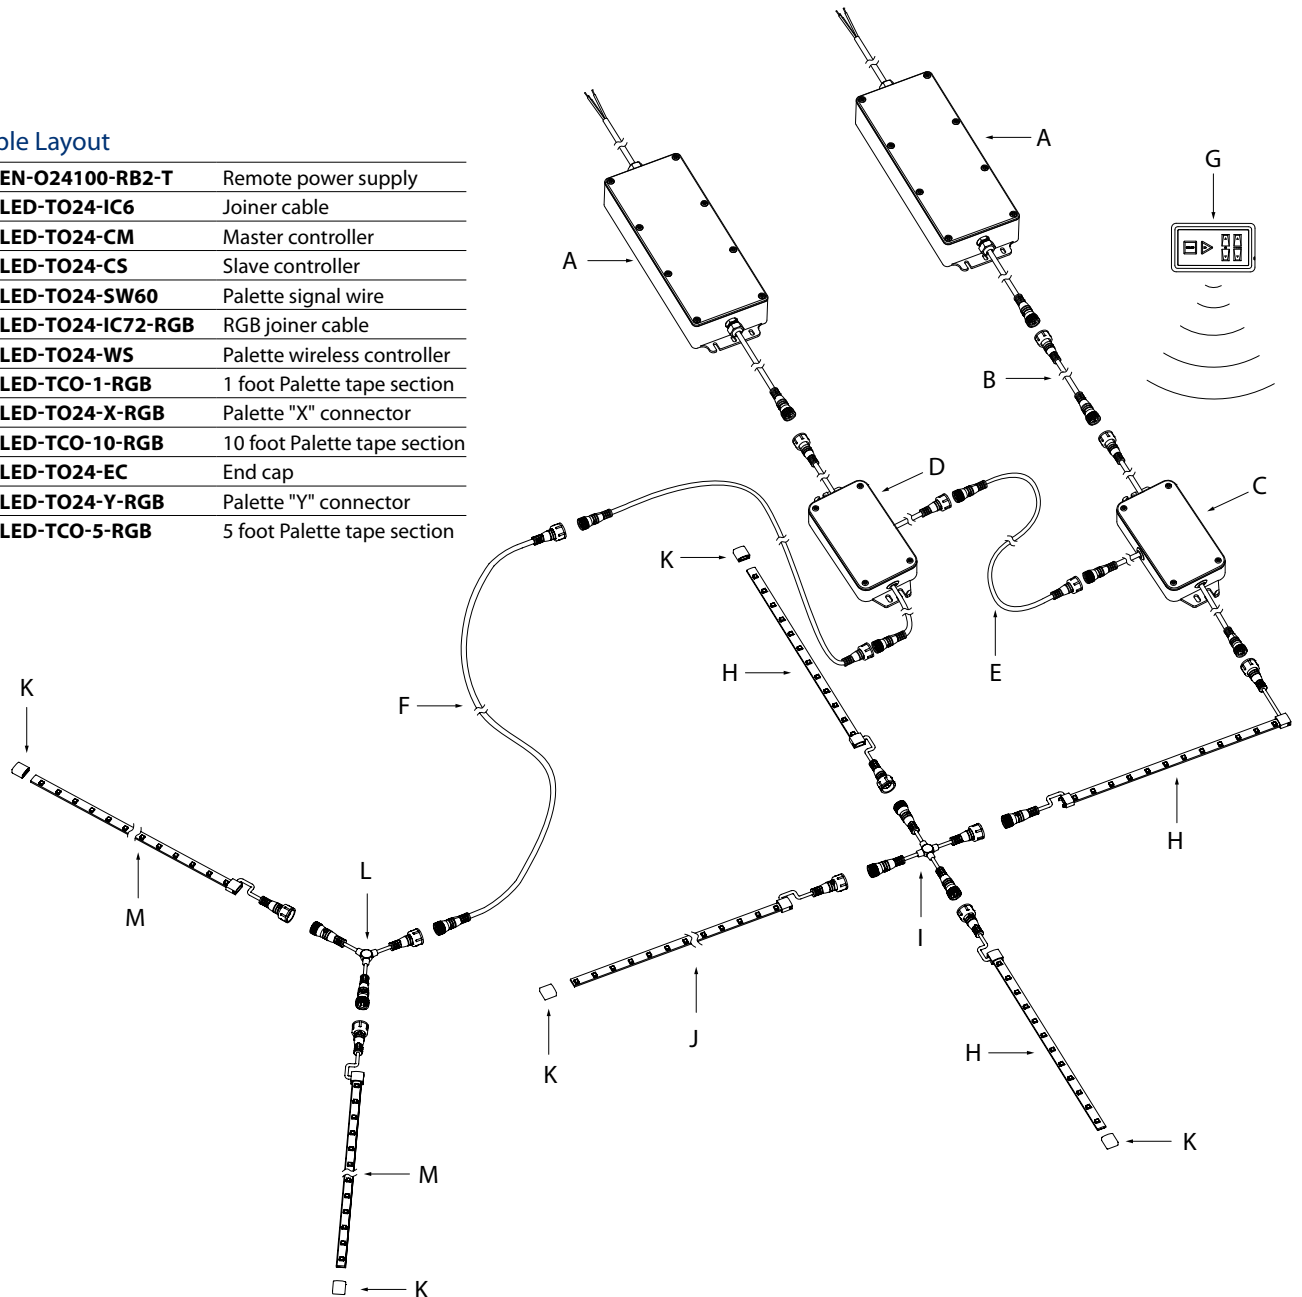

Unique water tight connections allow for end-to-end joining of InvisiLED® sections while maintaining even spacing between diodes.

Design Guidelines

Layout	Determine the necessary quantities of 1 foot, 5 foot and 10 foot sections that are needed. Requires a minimum run length of 1 foot and is limited to a maximum run of 40 feet per 120V Power Supply. Depending on length of run, determine how many power supplies are needed.
Controller(s)	For runs over 40 feet, determine the type of color changing effect you want to achieve, synchronized effect or individual effect. For a synchronized effect the Master Controller needs to connect to a Slave Controller (a separate Slave Controller is needed for every additional 40 foot run). Use a Palette Signal Wire (LED-TO24-SW) to extend the distance between Master and Slave Controllers. For individual changing effects use multiple Master Controllers. Every additional Controller, Master and/or Slave, requires its own 120V Power Supply. Use Wireless Controller to remotely adjust the color changing effect (see page 2 for controller functions).
Power	Connect Power Supply to Master Controller, use a Joiner Cable (LED-TO24-IC) to extend distance between the Power Supply and the Controller. One Power Supply and one Controller is need for every 40 feet of tape light (see controller(s) above for different configurations).
Joining Sections	Use an RGB Joiner Cable (LED-TO24-ICX-RGB) to extend the distance between the Master and/or Slave Controller and the start of the run. Choose the needed connectors to achieve your desired effect. Connect male and female ends creating straight lines, any angled turns, or lengthwise curves. May be cut to length every 6" (see indicated markings on back of InvisiLED® section) or at the end of every run (cut sections may not be rejoined to start a new section and must be sealed with silicone after adding end cap).
Mounting	Four mounting options available for wood, concrete and many other outdoor applications. Assistance is only a phone call away. Please call WAC Lighting to speak to a friendly technical support specialist at 800.526.2588 .

Cabinet and Niche Lighting

Integrating function and form, WAC Lighting's cabinet lighting solutions provide shadow-free, unobtrusive illumination on work surfaces, shelves and counter tops while adding distinction and style to kitchens, retail displays and other spaces. With handsome metal finishes that complement today's appliances and fixtures, energy efficient, discreet cabinet lighting is the perfect choice for homeowners, home builders, designers and architects.

WAC Lighting's cabinet and niche lighting offers a variety of low maintenance light source options. LED, fluorescent and xenon light bars provide cool operation with shadow-free even lighting over wide areas of counter space

Our Linear track features a thin profile that can be recessed for a built-in look or surface mounted vertically or horizontally. Miniature Downlights offer recessed illumination that deploys a soft warm light. Button Lights utilize energy efficient LED and other lamp options for powerful illumination surface mounted or recessed.

LEDme™ Button Light

Designed for recessed or surface mounted installations, versatile LEDme™ Button Lights deliver strong light output with the latest energy efficient LED technology. Offering a long lasting 50,000 hour life while eliminating re-lamping and saving energy costs. Thermally efficient LEDme™ Button Lights do not project heat or UV radiation and are ideal for illuminating sensitive perishables or apparel, artwork and collectibles.

Cabinet and Niche Lighting

LEDme™ Button Light

- Die-cast aluminum construction
- Simple, quick and easy installation
- Recessed or surface mounting
- Replaceable LED module, see p.411
- 50,000 hour potential life
- LEDs included
- 72 inch lead wire included

LEDme™ Button Light

Example: **HR-LED85-CB**

Model #	Finish
HR-LED85	BK, BN, CB, CH, DB, WT

LED: 3W*, 3000K color temp

**Power consumption may vary depending on the efficiency of the power supply being used*

Select a LEDme™ Driver to power up to 4 button lights at once

- Reliable electronic constant current LED power supply
- “Plug and Play” terminal blocks for secure wiring up to four button lights
- Surge protection and integral short circuit protection
- For Multiple Terminal Box Accessory, see p. 410

- Works in *BOTH* series wiring and home-run wiring
- See instructions for in-series and home-run wiring

LEDme™ Button Light Driver

Power Supply	Watt	Power up to	L	W	H
LED-350MA03-RB	3W	1 × LED85	5 5/8"	1 5/8"	1 1/8"
LED-350MA09-RB	9W	3 × LED85	7 1/8"	3 1/8"	1 5/8"

Low Voltage Button Lights

Offering a low profile and shallow installation depth for tight spaces, xenon and halogen button lights are perfect for lighting shelves, under and inside cabinets, etageres, curios and displays. Constructed of all steel, button lights can be surface mounted or recessed for a built in look.

Cabinet and Niche Lighting

Low Voltage Button Lights

- All steel construction
- Cutout template included for recessed installations
- Supplied with 72 inch wires
- Low profile and shallow installation depth

- Recessed or surface mounting
- Lamp included
- Must be used with a Class 2 power supply

Frosted Lens Accessory (order separately)
LENS-45-FR

BK-Black, WT-White

LEDme™ Miniature Recessed

- Rated for use in ceilings and wall niches
- Dimming to 5% with an Electronic Low Voltage (ELV) dimmer
- Less than 1/6" thick, super low profile die-cast aluminum trim
- 25° cutoff angle for comfortable general and task lighting
- Order driver separately

- Replaceable LED module, see p.411
- ANSI Compliant Warm/Neutral LED Bins for the finest color consistency possible
- 50,000 hour potential life
- Narrow flood beam spread

Round Spot

Example: **HR-LED231R-W-WT**

Model #	Finish
HR-LED231R-W	BN, GM, WT

LED: 3W*, 3000K color temp, CRI 80, 100 lumens

Model #	Finish
HR-LED231R-C	BN, GM, WT

LED: 3W*, 4500K color temp, CRI 75, 123 lumens

BN-Brushed Nickel, **GM**-Gun Metal, **WT**-White

*Power consumption may vary depending on the efficiency of the power supply being used

Square Spot

Example: **HR-LED271R-W-BN**

Model #	Finish
HR-LED271R-W	BN, GM, WT

LED: 3W*, 3000K color temp, CRI 75, 100 lumens

Model #	Finish
HR-LED271R-C	BN, GM, WT

LED: 3W*, 4500K color temp, CRI 75, 123 lumens

Adjustable Round

- Adjustable models have a home docking position to ensure light is projected directly down when needed.

Example: **HR-LED231R-W-GM**

Model #	Finish
HR-LED232R-W	BN, GM, WT

LED: 3W*, 3000K color temp, CRI 80, 100 lumens

Model #	Finish
HR-LED232R-C	BN, GM, WT

LED: 3W*, 4500K color temp, CRI 75, 123 lumens

BN-Brushed Nickel, **GM**-Gun Metal, **WT**-White

*Power consumption may vary depending on the efficiency of the power supply being used

Adjustable Square

Example: **HR-LED271R-W-WT**

Model #	Finish
HR-LED272R-W	BN, GM, WT

LED: 3W*, 3000K color temp, CRI 75, 100 lumens

Model #	Finish
HR-LED272R-C	BN, GM, WT

LED: 3W*, 4500K color temp, CRI 75, 123 lumens

- For Multiple Terminal Box Accessory, see p. 410

- ONLY for home-run wiring
- Magnetic Low Voltage Driver

- Works in BOTH series wiring and home-run wiring

LEDme™ Dimmable Driver

Power Supply	Watt	Power up to	L	W	H

BK-Black, **WT**-White

**Power consumption may vary depending on the efficiency of the power supply being used*

- Direct retrofit for existing 12V and 24V track systems
- Small low profile style, perfect for concealed spaces such as under cabinets and covers
- Using a number of small evenly spaced light sources is ideal for producing smooth lighting
- Accepts both LED and xenon lamps
- Dimmable
- All lamps ordered separately, see p.412 for lamp options

SBH-210-BK with LED Festoon lamp

Lamp Festoon Fixture with Reflector

Example: **SBH-210-BK**

Model #	Finish
SBH-210	BK, WT

Lamp: 12V/24V, 10W max, Xenon Festoon
LED: 12V/24V, 0.6W max, 3200K LED Festoon

BK-Black, **WT**-White

Cove and Niche Lighting Fixtures

- Small low profile styles, perfect for concealed spaces such as under cabinets and coves
- Using a number of small evenly spaced light sources is ideal for producing smooth lighting
- All lamps ordered separately, see p.412 for lamp options

Single Lamp Fixture

Example: **SBH-101-WT**

Model #	Finish
SBH-101	BK, WT

Lamp: 12V, 5W max, Xenon Wedge Base
24V, 7.5W max, Xenon Wedge Base

BK-Black, WT-White

Double Lamp Fixture with Adjustable Reflector

Example: **SBH-102-WT**

Model #	Finish
SBH-102	BK, WT

Lamp: 12V, 5W max, Xenon Wedge Base
24V, 7.5W max, Xenon Wedge Base

BK-Black, WT-White

Swivel Fixture with Reflector

Example: **SBH-105-WT**

Model #	Finish
SBH-105	BK, WT

Lamp: 12V/24V, 20W max, Xenon Bi-Pin

BK-Black, WT-White

Model #	Finish
SBH-110	BK, WT

Lamp: 12V/24V, 10W max, Xenon Rigid Loop

BK-Black, WT-White

Linear System Track and Accessories

Polycarbonate Track Sections

Example: **ST4-BK**

Model #	45 $\frac{3}{4}$ "	93 $\frac{3}{4}$ "	Finish
S	T4, T8	BK, WT	

Includes one end cap and mounting hardware

Aluminum Track Sections

Start Section

Example: **STC4-S-WT**

Model #	Finish
STC4-S	BK, BN, WT

Includes track, track carrier, live end, end cap for ST track and end caps for track carrier. May be field cut.

Quick Connect™ Adapter

Example: **SADP-BK**

Model #	Finish
SADP	BK, BN, WT

Min. Load: 1W Max Load: 50W

Order one per Quick Connect™ fixture or pendant used.

Middle and End Section

Example: **STC4-M-WT**

Model #	Finish
STC4-M	BK, BN, WT

Includes track, track carrier, I connector, end cap for track and end cap for track carrier. May be field cut.

Accessories	Model #	Finish			Dimensions	Description
		BK	BN	WT		
Junction Box Canopy	 SFC	✓	✓		4 $\frac{5}{8}$ " × 4 $\frac{5}{8}$ " × 2 $\frac{1}{2}$ "	Mounts over junction box with knockouts on all four sides for track sections. Live end connectors are required for each track section to be powered. Mounting hardware included.
Live End Connector	 SLE	✓	✓		2 $\frac{3}{8}$ " × $\frac{3}{4}$ " × $\frac{3}{8}$ "	Accepts wires from transformer and connects to track.
BX Live End Connector	 SBXLE	✓	✓		3" × 1 $\frac{5}{8}$ " × 1"	Live end connector with cover and standard knockout for BX or non-metallic sheathed cable connectors.
"I" Connector	 SI	✓	✓		2 $\frac{1}{8}$ " × $\frac{3}{4}$ " × $\frac{3}{8}$ "	Straight line connector. Joins two sections of track.
"L" Connector	 SL	✓	✓		1 $\frac{7}{8}$ " × 1 $\frac{7}{8}$ " × $\frac{3}{8}$ "	Joins two sections of track at 90°.
Jumper Set	 SJS4 SJS	✓	✓		4" × $\frac{3}{4}$ " × $\frac{3}{8}$ " 12" × $\frac{3}{4}$ " × $\frac{3}{8}$ "	12 inch flexible connector connects two sections of track. Wire may be field cut.
End Cap	 SEC	✓	✓		1" × $\frac{3}{4}$ " × $\frac{3}{8}$ "	Order additional end caps when the track is cut into two or more sections in the field.
Light Baffle	 SLB4 SLB8	✓	✓		4' × 1 $\frac{7}{8}$ " × 1 $\frac{7}{8}$ " 8' × 1 $\frac{7}{8}$ " × 1 $\frac{7}{8}$ "	Shields the track and fixtures from view. Extruded aluminum construction. May be cut or painted in the field. Ideal for under cabinets, shelves and display cases.
T-Bar Drop Ceiling Attachment	 TBARCLIP					Attaches track to T-bar drop ceilings. Use two for 4 foot tracks, four for 8 foot tracks, and six for 12 foot tracks.
Standard Ceiling Standoff	 SRK-X18 SRK-X24 SRK-X36 SRK-X48	✓	✓	✓	18" 24" 36" 48"	Supports rail for flat ceilings and surfaces.
Sloped Ceiling Standoff	 SRK-XS18 SRK-XS24 SRK-XS36 SRK-XS48	✓	✓	✓	18" 24" 36" 48"	Supports rail for sloped ceiling. Accommodates angles up to 45°.
Cable Suspension Kit	 SRK-TC	✓	✓		Ø 4 $\frac{1}{2}$ " × 48"	Used in conjunction with track carrier. Allows for track suspension up to 48 inches. Includes two canopies, two 48 inch suspension cables and one power feed wire.

BK-Black, **BN**-Brushed Nickel, **WT**-White

Linear System Transformer and Lamp Options

Remote Transformers

Watt	12 Volts	Breakers	24 Volts	Breakers	L	W	H
300W	SRT-300M-12V	1	SRT-300M-24V	1	10¾"	4¼"	4⅛"
500W	SRT-500M-12V	2	SRT-500M-24V	1	11½"	5¼"	5⅛"
600W	SRT-600M-12V	2	SRT-600M-24V	1	11½"	5¼"	5⅛"
1000W	SRT-1000M-12V	4	SRT-1000M-24V	2	13¾"	7⅞"	5¾"

*Separate input leads for separate switching

Voltage Drop Guidelines (based on 10 gauge wire)

Model #	Run length	Distance to power feed
SRT-300M-12V	40' max	10ft max
SRT-500M-12V	2 × 40' max	10ft max
SRT-600M-12V	2 × 40' max	10ft max
SRT-600M2-12V	2 × 40' max	10ft max
SRT-1000M-12V	4 × 40' max	10ft max
SRT-300M-24V	40' max	10ft max
SRT-600M-24V	40' max	10ft max
SRT-1000M-24V	2 × 40' max	10ft max

On a full load voltage drop can cause a system to exceed the 25A rating. Guidelines assist with layouts only. When installing a 12V system, ensure that a min. of 12V is supplied at power feeds. 10AWG wire should be used with remote transformers. Multi-tap output terminals (remote magnetic transformers) help make up for voltage drop before the power feed. Use a multimeter to verify no less than 11V is found at the end of the run and no more 25A is being drawn from the power feed.

Debuzzing Coil

Surface Mount Electronic Transformers

J-Box				Integral Wiring Component									
Model #	Dimensions	Watt	Model #	Finish	L	W	H	Watt	Model #	Finish	L	W	H

LM-DBC12/24-600 12V/24V, 600W	Ø 4⅜"												
Reduces buzzing sound from surface mount magnetic transformers. Wire in series on the 120V input line. Select the correct model based on the wattage of the transformer.		Covers a standard 4" junction box. Starting point for up to four separate track runs. A live end connector (SLE) is required for each track section to be powered (order separately). Mounting hardware included. Requires two TBARCLIP's for T-bar installation.						Built in on/off switch. Installs at end of a track or remotely. Knockouts at each end for track sections. Live end connector (SLE) required to power each track section.

LEDme™ Light Bars

LEDme™ Light Bars bring out the best in bold, eye-catching residential, retail and light commercial displays. Ideal for kitchen counters, curios, etageres and cabinets. Undercabinet LEDme™ light bars are long lasting with a life of 50,000 hours. The thermally efficient fixtures are crafted for lighting heat sensitive perishables and UV sensitive apparel, artwork and collectibles.

Cabinet and Niche Lighting

LEDme™ Light Bars

- True 1 inch profile
- CRI around 85
- 3000K color temperature
- 50,000 hour potential life
- On center spacing of LED's is maintained when two light bars are joined together
- Minimal hardware at ends give the look of one continuous run when multiple light bars are joined together
- Aluminum construction
- Replaceable LED module, see p.411
- ANSI Compliant Warm/Neutral LED Bins for the finest color consistency possible
- "I" connector included
- Not dimmable

Cabinet and Niche Lighting

Example: **BA-LED2-WT**

Length	Model #	Finish	Watt	Lumens
8"	BA-LED2	BB, SN, WT	3.6W	125
12"	BA-LED4	BB, SN, WT	6.2W	250
18"	BA-LED6	BB, SN, WT	9.8W	375
24"	BA-LED8	BB, SN, WT	12.7W	501
30"	BA-LED10	BB, SN, WT	16.4W	626

BB-Bronze, **SN**-Satin Nickel, **WT**-White

- May be hard-wired with 120 volts or used with a power cord
- Subsequent fixtures may be powered with "I" Connector or Interconnect Cable carrying 120 volts
- May be individually switched and/or wired to a wall box

Power Cord

Model	Length
BA-PC6-WT	6'

Supplies power in any application.

"I" Connector

Model
BA-I-WT

Interconnection for seamless end to end transitions. Included with each light bar.

Interconnect Cable

Model	Length
BA-IC12-WT	12"
BA-IC24-WT	24"
BA-IC36-WT	36"

Links two light bars using a single power connection.

Premium Line Voltage Xenon Light Bars

Utilizing long lasting xenon lamps, under cabinet luminaires are equipped with on/off, high/low dimmer switches that may also be left on the "high" setting and dimmed from an incandescent wall dimmer. Operating without a transformer, the luminaire is supplied with an "I" connector for direct fixture to fixture modular use. Available in bronze, satin nickel and white finishes, these light bars are just one inch tall and pre-wired to power through knockouts and poke home connectors for end to end connections. Can be front, center or rear mounted for various under cabinet applications. Offered in lengths ranging from 6 to 36 inches.

Cabinet and Niche Lighting

Premium Line Voltage Xenon Light Bars

- Frosted borosilicate glass lenses for true white light
- Individual reflectors
- On center spacing of lamps is maintained when two light bars are joined together
- Built in hi/lo setting
- Dimmable with standard incandescent dimmers
- No transformer required
- Steel construction

Example: **BA-LIX-1-WT**

Length	Model #	Finish	Watt
6"	BA-LIX-1	BB, SN, WT	1 × 25W
12"	BA-LIX-2	BB, SN, WT	2 × 25W

Model
BA-I-WT

Interconnection for seamless end to end transitions. Included with each light bar.

Interconnect Cable

Model	Length
BA-IC12-WT	12"
BA-IC24-WT	24"
BA-IC36-WT	36"

Links two light bars using a single power connection.

Fluorescent Light Bars

Less than one inch deep, T5 Fluorescent Light Bars offer a concealed, low profile light source while combining energy efficiency with cool operation. Engineered with one-piece polycarbonate diffuser for even light distribution, the light bar is supplied with an on/off switch and an "I" connector for direct fixture-to-fixture use. Knockouts provided on top and rear for hard wiring.

- Integral electronic ballast
- Continuous snap-in Lexan™ diffuser
- Available in single lamp options up to 58 inches long for easy above or under cabinet installations
- 3000K color temperature lamp included
- Less than 1 inch profile

Example: **BA-BF-08-BB**

Length	Model #	Finish	Watt

Model	Length
BA-BF-IC12-WT	12"
BA-BF-IC24-WT	24"
BA-BF-IC36-WT	36"

Links two light bars using a single power connection.

T5 Fluorescent Strip Lights

Engineered with an aluminum body and snap-in polycarbonate lens for smooth light distribution, T5 Fluorescent Strips are designed for end to end connections of multiple units. The luminaires include the lamp along with on/off switch, power cord, "I" connector and mounting accessories.

- Extruded aluminum body with snap-in polycarbonate lens
- End to end connection of multiple units
- Includes power cord, I-connector and mounting accessories
- Lamp included
- On/Off Switch

Example: **BA-FT08-WT**

Length	Model #	Finish	Watt

Power Cord (included)

Jumper Cable

Model	Length
BA-FT-IC12-WT	12"
BA-FT-IC24-WT	24"
BA-FT-IC36-WT	36"

Links two light bars using a single power connection.

Recessed Downlights

Bridging the delicate balance between lighting control, performance and aesthetics, WAC Lighting's comprehensive series of recessed downlights are designed and engineered for the most challenging residential, hospitality, retail and commercial spaces. Designed with an array of lamp types including energy efficient options, our recessed luminaires offer precise visual cutoff, glare free color quality and full range dimming capabilities to create a variety of moods and effects. Apertures ranging from two to eight inches provide diverse lighting techniques for a multitude of tasks. Popular among designers and architects, our Multiple Spots feature individual aiming elements for vast spaces and broad applications.

Recipient of the Innovation Green Design Award, LEDme™ Downlights are engineered for precise thermal and optical performance and use state of the art LED technology. Clean architectural designs include Invisible Trim™ styles that offer seamless solutions with minimal edge detail that sit flush with the ceiling line to create a sophisticated architectural look.

LEDme™ Multiple Spots

- Die-cast aluminum heads, steel trims and housings
- Powder coat finish
- Full scale dimming to 1%
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- Dimming luminaire patent: pending

- 50,000 hour potential life
- IC Rated
- Available in two different beam angles, Spot (10°) and Flood (25°)
- ANSI Compliant Warm/Neutral LED Bins for the finest color consistency possible
- 90° vertical tilt, 350° horizontal rotation

Example: **MT-LED118-WT** trim with **MT-LED118S-WWHS-WT** housing

Recessed Downlights

Metal Halide Multiple Spots

- First metal halide reflector lamp to integrate high output, excellent light quality and superb energy efficiency in a compact highly distinctive package equivalent in size to an MR16 halogen
- Provides improved discharge arc offering excellent color stability and color rendering
- Offered with trims in white with black interior or white with white interior

- Offered in white Invisible Trim™ styles that may be finished into the ceiling for a clean design
- 25° tilt adjustment
- Individually adjustable lighting elements offered with minimal extension below the ceiling plane
- Best choice for retail or other applications where color rendering and energy efficiency are important and there is minimal on-off operation

- Non-IC Housings and trim kit may be ordered separately as needed to minimize job site damage or loss
- Requires 3" clearance from insulation on all sides where applicable
- All fixtures operate on all voltages from 120V through 277V
- Invisible Trim™ design includes patented spackle trim to ensure smooth ceiling finish and a clean look
- Integral electronic ballasts

Example: **MT-316-WT/WT** trim with **MT-316MH-20** housing

Low Voltage MR16 Multiple Spots

- Low voltage Multiple Spots may be installed in new construction or in grid ceilings
- Individually adjustable lighting elements offered with minimal extension below the ceiling plane
- Offered with trims in white with black interior or white with white interior
- Offered in white Invisible Trim™ styles that may be finished into the ceiling for a clean design
- 25° tilt adjustment

- Non-IC Housings and trim kit ordered separately as needed to minimize job site damage or loss
- Requires 3 inch clearance from insulation on all sides where applicable
- Each lamp is powered with a dedicated 60W transformer for continual independent operation
- Electronic low voltage dimmers are recommended for use with low voltage luminaires
- Invisible Trim™ design includes patented spackle trim to ensure smooth ceiling finish and a clean look

Example: **MT-316-WT/WT** trim with **MT-316HS** housing

	Trim Options			Invisible Trim™ Options			Housing

Low Voltage AR111 Multiple Spots

- Non-IC Housings and trim kit ordered separately as needed to minimize job site damage or loss
- Requires 3 inch clearance from insulation on all sides where applicable
- Each lamp is powered with a dedicated 75W transformer for continual independent operation
- Electronic low voltage dimmers are recommended for use with low voltage luminaire
- Invisible Trim™ design includes patented spackle trim to ensure smooth ceiling finish and a clean look

Example: **MT-136-WT/WT** trim with **MT-136HS** housing

2" LEDme™

Configurable housings and integral drivers make 2" LEDme™ Downlights an ideal recessed light

- Aperture: 1"
- Cutout: 2½"
- Dimming to 5%
- Replaceable LED Module and lens
- ANSI Compliant Warm/Neutral LED Bins, for finest color consistency possible
- 50,000 hour potential life
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- 4 inch minimum plenum height required
- Less than ⅛" thick, super low profile die-cast aluminum trim
- Powder coated finish
- Narrow flood beam spread
- 25° cutoff angle for comfortable general and task lighting (for open reflector Model #s)
- Sold as new construction, may be re-configured in field for Remodel

Open Reflector – Round

Integral Configurable Housing

- IC Rated new construction and Remodel in one
- Integral electronic transformer, LED included
- Sold as new construction, may be re-configured in the field for Remodel

New Construction Housing

Remodel Housing

1 IC-Rated HR-LED309-NIC-W

Input: 120V
Output: 6W max
Current: 450mA/5.8W
Color Temp: 3000K
Lumens: 250
CRI: 80

3 Non-IC HR-LED309-N-W

Input: 120V
Output: 10W max
Current: 700mA/8W
Color Temp: 3000K
Lumens: 350
CRI: 80

5 IC-Rated HR-LED309-RIC-W

Input: 120V
Output: 6W max
Current: 450mA/5.8W
Color Temp: 3000K
Lumens: 250
CRI: 80

7 Non-IC HR-LED309-R-W

Input: 120V
Output: 10W max
Current: 700mA/8W
Color Temp: 3000K
Lumens: 350
CRI: 80

2 HR-LED309-NIC-C

Input: 120V
Output: 6W max
Current: 450mA/5.8W
Color Temp: 4500K
Lumens: 277
CRI: 75

4 HR-LED309-N-C

Input: 120V
Output: 10W max
Current: 700mA/8W
Color Temp: 4500K
Lumens: 400
CRI: 75

6 HR-LED309-RIC-C

Input: 120V
Output: 6W max
Current: 450mA/5.8W
Color Temp: 4500K
Lumens: 277
CRI: 75

8 HR-LED309-R-C

Input: 120V
Output: 10W max
Current: 700mA/8W
Color Temp: 4500K
Lumens: 400
CRI: 75

- Cutout: 3 7/8"
- IC-Rated: Suitable for direct contact with insulation
- Non-IC: 3" clearance on all sides when insulation is present
- Full scale dimming to 1%
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- Potential life of up to 50,000 hours
- Provided push-in wire connector for easy installation
- Rated for branch wiring
- UL and CUL Listed
- Accommodates ceiling thickness up to 1"
- Replaceable LED module available, see p.411
- ANSI compliant Warm/Neutral LEDs for the finest color consistency possible

- Cutout: 3 7/8"
- IC-Rated: Suitable for direct contact with insulation
- Non-IC: 3" clearance on all sides when insulation is present
- Full scale dimming to 1%
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- Potential life of up to 50,000 hours
- Provided push-in wire connector for easy installation
- Rated for branch wiring
- UL and CUL Listed
- Accommodates ceiling thickness up to 1"
- Replaceable LED module available, see p.411
- ANSI compliant Warm/Neutral LEDs for the finest color consistency possible

- Less than 1/8" thick, super low profile die-cast aluminum trim
- Deep regression of light source allows for very low glare with a 40° visual cutoff angle

- Recessed depth from LEDs to trim edge is 2 3/8"
- Abrasion resistant powder coat paint or plated metal finish
- Narrow flood beam spread

1 Electronic Non-IC New Construction Housing

HR-302E
Input: 120V
Output: 12V/50W max

- Cutout: 3 7/8"
- Integral Electronic Transformer
- Dimmable with electronic low voltage dimmers
- 3" clearance on all sides when insulation is present
- J-Box and transformer accessible through ceiling
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in "shallow" joist installations

2 Magnetic Non-IC New Construction Housing

HR-302M
Input: 120V
Output: 12V/50W max

- Cutout: 3 7/8"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- J-Box and transformer accessible through ceiling
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in "shallow" joist installations

3 Electronic Non-IC Remodel Housing

HR-301E
Input: 120V
Output: 12V/50W max

- Cutout: 3 7/8"
- Integral Electronic Transformer
- Dimmable with electronic low voltage dimmers
- 3" clearance on all sides when insulation is present
- J-Box and transformer accessible through ceiling
- Suitable for chain wiring
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in "shallow" joist installations

4 Magnetic Non-IC Remodel Housing

HR-301M
Input: 120V
Output: 12V/50W max

- Cutout: 3 7/8"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- J-Box and transformer accessible through ceiling
- Suitable for chain wiring
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in "shallow" joist installations

- Die-cast aluminum construction with
- Heavy gauge retention clips secure lens firmly to lamp
- Abrasion resistant powder coat paint or plated metal finish
- Variety of decorative and performance trim options
- Smallest general trim available for both commercial and residential lighting projects
- Clear lens included, see p.419-420 for replaceable lens options

Perfectly flush to ceiling every time

Re-lamp without removing entire trim from ceiling

1. Simply twist trim to unlock and pull reflector out with lamp
2. New lamp easily clips in from the top of the reflector, a no hassle answer to replacing tough to access recessed lights

Basic Baffle – 25° Adjustment From Vertical

1 Non-IC Remodel Housing

HR-800
Input: 120V
Output: 12V/35W max

- Cutout: 3"
- For cabinet use only
- Remote Electronic Class II Transformer required (sold separately)
- Thermal protection in transformers only
- 3" clearance on all sides when insulation is present
- UL and CUL Listed
- Total depth of 4", one of the lowest profile recessed units available
- Low profile housing with snap-out style mounting clips
- Handles mounting surfaces up to 3/4" thick

2 Non-IC Remodel Housing

HR-806
Input: 120V
Output: 12V/35W max

- Cutout: 3"
- Remote Electronic or Magnetic Transformer required (sold separately)
- Features integral thermal protector
- 3" clearance on all sides when insulation is present
- UL and CUL Listed
- Low profile housing with snap-out style mounting clips
- Handles mounting surfaces up to 3/4" thick
- Suitable for use in "shallow" joist installations

3 Electronic Non-IC Remodel Housing

HR-801
Input: 120V
Output: 12V/50W max

- Cutout: 3"
- Integral Electronic Transformer
- Advanced auto-reset, soft start and short circuit protection
- 3" clearance on all sides when insulation is present
- Suitable for chain wiring
- UL and CUL Listed
- J-box and transformer accessible through ceiling opening
- Suitable for damp locations
- Low profile housing with snap-out style mounting clips
- Handles mounting surfaces up to 3/4" thick
- Suitable for use in "shallow" joist installations

4 Electronic Non-IC New Construction Housing

HR-802
Input: 120V
Output: 12V/50W max

- Cutout: 3"
- Integral Electronic Transformer
- Advanced auto-reset, soft start and short circuit protection
- Dimmable with electronic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Suitable for chain wiring
- UL and CUL Listed
- J-box and transformer accessible through ceiling opening
- Suitable for damp locations
- Handles mounting surfaces up to 3/4" thick
- Suitable for use in "shallow" joist installations

- Die-cast aluminum construction
- Retention clips secure lens firmly to lamp
- Abrasion resistant powder coat paint or plated metal finish
- Wide range of trim colors and designs

- Smallest general trim available for both commercial and residential lighting projects
- Clear lens included, see p. 419-420 for replaceable lens options

Metal Trim

Model #	Finish	Trim	Lamp	Housings
HR-836	BK	Black	MR16, 35W max	1, 2
	BN	Brushed Nickel	MR16, 50W max	3, 4
	CB	Copper Bronze		
	WT	White		

Metal Trim with Step Baffle

Model #	Finish	Baffle/Trim	Lamp	Housings
HR-834	BN	Black/Brushed Nickel	MR16, 35W max	1, 2
	CB	Black/Copper Bronze	MR16, 50W max	3, 4
	WT	Black/White		
	WT/WT	White/White		

Beveled Die-Cast Trim

Model #	Finish	Trim	Lamp	Housings
HR-833	BN	Brushed Nickel	MR16, 35W max	1, 2
	WT	White	MR16, 50W max	3, 4

Slot Trim – 25° Adjustment From Vertical

Model #	Finish	Trim	Lamp	Housings
HR-837	BK	Black	MR16, 35W max	1, 2

New Construction Housing

Remodel Housing

1 IC-Rated
HR-LED418-NIC-W
 Input: 120V
 Output: 11W max
 Current: 450mA/11W Color
 Temp: 3000K
 Lumens: 380
 CRI: 80

3 Non-IC
HR-LED418-N-W
 Input: 120V
 Output: 18W max
 Current: 700mA/15W
 Color Temp: 3000K
 Lumens: 480
 CRI: 80

5 IC-Rated
HR-LED418-RIC-W
 Input: 120V
 Output: 11W max
 Current: 450mA/11W
 Color Temp: 3000K
 Lumens: 380
 CRI: 80

7 Non-IC
HR-LED418-R-W
 Input: 120V
 Output: 18W max
 Current: 700mA/15W
 Color Temp: 3000K
 Lumens: 480
 CRI: 80

2 HR-LED418-NIC-C
 Input: 120V
 Output: 11W max
 Current: 450mA/11W
 Lumens: 457
 Color Temp: 4500K
 CRI: 75

4 HR-LED418-N-C
 Input: 120V
 Output: 18W max
 Current: 700mA/15W
 Lumens: 600
 Color Temp: 4500K
 CRI: 75

6 HR-LED418-RIC-C
 Input: 120V
 Output: 11W max
 Current: 450mA/11W
 Lumens: 457
 Color Temp: 4500K
 CRI: 75

8 HR-LED418-R-C
 Input: 120V
 Output: 18W max
 Current: 700mA/15W
 Lumens: 600
 Color Temp: 4500K
 CRI: 75

- Cutout: 4 3/8"
- Full scale dimming to 1%
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- Potential life of up to 50,000 hours
- Replaceable LED module
- ANSI compliant Warm/Neutral LEDs for the finest color consistency possible
- IC-Rated: Suitable for direct contact with insulation
- Non-IC: 3" clearance on all sides when insulation is present
- Rated for branch wiring
- Residential Energy Star Rated
- UL and CUL Listed
- Accommodates ceiling thickness of up to 1"

- Cutout: 4 3/8"

Refer to opposite page for full spec information. LEDs included with housing.

New Construction Housing – Round Spackle Trim

1 IC-Rated HR-LED418-NIC-ROW

Input: 120V
Output: 11W max
Current: 450mA/11W
Color Temp: 3000K
Lumens: 380
CRI: 80

2 HR-LED418-NIC-ROC

Input: 120V
Output: 11W max
Current: 450mA/11W
Lumens: 457
Color Temp: 4500K
CRI: 75

3 Non-IC HR-LED418-N-ROW

Input: 120V
Output: 18W max
Current: 700mA/15W
Color Temp: 3000K
Lumens: 480
CRI: 80

4 HR-LED418-N-ROC

Input: 120V
Output: 18W max
Current: 700mA/15W
Lumens: 600
Color Temp: 4500K
CRI: 75

Remodel Housing – Round Spackle Trim

5 IC-Rated HR-LED418-RIC-ROW

Input: 120V
Output: 11W max
Current: 450mA/11W
Color Temp: 3000K
Lumens: 380
CRI: 80

6 HR-LED418-RIC-ROC

Input: 120V
Output: 11W max
Current: 450mA/11W
Lumens: 457
Color Temp: 4500K
CRI: 75

7 Non-IC HR-LED418-R-ROW

Input: 120V
Output: 18W max
Current: 700mA/15W
Color Temp: 3000K
Lumens: 480
CRI: 80

8 HR-LED418-R-ROC

Input: 120V
Output: 18W max
Current: 700mA/15W
Lumens: 600
Color Temp: 4500K
CRI: 75

New Construction Housing – Square Spackle Trim

9 IC-Rated HR-LED418-NIC-SQW

Input: 120V
Output: 11W max
Lumens: 380
Color Temp: 3000K
CRI: 80
Current: 450mA/11W

10 HR-LED418-NIC-SQC

Input: 120V
Output: 11W max
Lumens: 457
Color Temp: 4500K
CRI: 75
Current: 450mA/11W

11 Non-IC HR-LED418-N-SQW

Input: 120V
Output: 18W max
Lumens: 480
Color Temp: 3000K
CRI: 80
Current: 700mA/15W

12 HR-LED418-N-SQC

Input: 120V
Output: 18W max
Lumens: 600
Color Temp: 4500K
CRI: 75
Current: 700mA/15W

Remodel Housing – Square Spackle Trim

13 IC-Rated HR-LED418-RIC-SQW

Input: 120V
Output: 11W max
Lumens: 380
Color Temp: 3000K
CRI: 80
Current: 450mA/11W

14 HR-LED418-RIC-SQC

Input: 120V
Output: 11W max
Lumens: 457
Color Temp: 4500K
CRI: 75
Current: 450mA/11W

15 Non-IC HR-LED418-R-SQW

Input: 120V
Output: 18W max
Lumens: 480
Color Temp: 3000K
CRI: 80
Current: 700mA/15W

16 HR-LED418-R-SQC

Input: 120V
Output: 18W max
Lumens: 600
Color Temp: 4500K
CRI: 75
Current: 700mA/15W

- Cutout: 4 3/8"
- Full scale dimming from 100% to 1%
- Optimal dimming with Electronic Low Voltage (ELV) dimmer
- Potential life of up to 50,000 hours
- Replaceable LED module
- ANSI compliant Warm/Neutral LEDs for the finest color consistency possible
- IC-Rated: Suitable for direct contact with insulation
- Non-IC: 3" clearance on all sides when insulation is present
- Rated for branch wiring
- Residential Energy Star Rated
- UL and CUL Listed
- Accommodates ceiling thickness of up to 1"

1 Electronic Non-IC New Construction Housing

HR-8402E
Input: 120V
Output: 12V/50W max

- Cutout: 4⁹/₁₆"
- Integral Electronic Transformer
- Dimmable with electronic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

2 Magnetic Non-IC New Construction Housing

HR-8402H
Input: 120V
Output: 12V/50W max

HR-8402HF
Input: 277V
Output: 12V/50W max

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

3 Magnetic Non-IC New Construction Housing

HR-8402HL
Input: 120V
Output: 12V/75W max

HR-8402HFL
Input: 277V
Output: 12V/75W max

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 8" joist installations

4 Magnetic IC, Airtight Ready Housing New Construction Housing

HR-8403H
Input: 120V
Output: 12V/50W max

HR-8403HF
Input: 277V
Output: 12V/50W max

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold Separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

5 Electronic Non-IC Remodel Housing

HR-8401E
Input: 120V
Output: 12V/50W max

- Cutout: 4⁹/₁₆"
- Integral Electronic Transformer
- Dimmable with electronic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Suitable for chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

6 Magnetic Non-IC Remodel Housing

HR-8401H
Input: 120V
Output: 12V/50W max

HR-8401HF
Input: 277V
Output: 12V/50W max

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Suitable for chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

- Die-cast aluminum construction with
- Heavy gauge retention clips secure lens firmly to lamp
- Abrasion resistant powder coat paint or plated metal finish
- Variety of decorative and performance trim options
- Transformer and junction box accessible from below the ceiling
- Clear lens included, see p.419-420 for replaceable lens options

Perfectly flush to ceiling every time

Re-lamp without removing entire trim from ceiling

1. Simply twist trim to unlock and pull reflector out with lamp
2. New lamp easily clips in from the top of the reflector, a no hassle answer to replacing tough to access recessed lights

1 Electronic Non-IC New Construction Housing

- Cutout: 4⁹/₁₆"
- Integral Electronic Transformer
- Dimmable with electronic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

2 Magnetic Non-IC New Construction Housing

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

3 Magnetic Non-IC New Construction Housing

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 8" joist installations

4 Magnetic IC, Airtight Ready Housing New Construction Housing

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold Separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

5 Electronic Non-IC Remodel Housing

- Cutout: 4⁹/₁₆"
- Integral Electronic Transformer
- Dimmable with electronic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Suitable for chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

6 Magnetic Non-IC Remodel Housing

- Cutout: 4³/₈"
- Integral Magnetic Transformer
- Dimmable with magnetic low voltage dimmers
- 3" clearance on all sides when insulation is present
- Suitable for chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

- Durable stamped metal construction
- Retention clip secures lens firmly to lamp
- Abrasion resistant powder coat paint or plated metal finish

- Wide range of trim colors and design
- Clear lens included, see p.419-420 for replaceable lens options

1 Non-IC New Construction Frame-In Kit

R4VI
Input: 120V

- Cutout: 3 $\frac{3}{4}$ "
- Allows for higher wattage lamps and deep reflector trims
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 IC New Construction Airtight Ready Housing

R4VI-B-ICA
Input: 120V

- Cutout: 3 $\frac{3}{4}$ "
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

3 Non-IC Remodel Housing

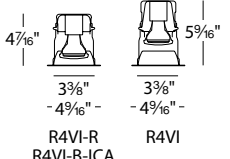

R4VI-R
Input: 120V

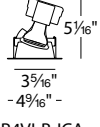

- Cutout: 4"
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in 2" x 6" joist installations

- One piece spun aluminum construction with an anodized aluminum interior reflector for superior light output and photometric efficiency
- Abrasion resistant powder coat paint or plated metal finish
- Full reflector trims provide proper lamp position, low glare and superior performance photometrics

1 Non-IC New Construction Shallow Airtight Ready Housing

R-400S-N-A
Input: 120V

- Cutout: 4 $\frac{7}{16}$ "
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 Non-IC Remodel Shallow Airtight Ready Housing

R-401S-R-A
Input: 120V

- Cutout: 4 $\frac{7}{16}$ "
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

3 IC New Construction Airtight Ready Housing

R-402S-N-ICA
Input: 120V

- Cutout: 4 $\frac{7}{16}$ "
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in 2" x 6" joist installations

- Durable stamped metal construction
- Retention clips hold trim firmly to housing
- Abrasion resistant powder coat paint or plated metal finish
- Wide range of trim colors and designs
- PAR lamps offer superior color rendering, as compared to standard incandescent lamps

1 IC New Construction 1 x 13W Shallow Airtight Ready Housing

R-F403S-N-ICA

Input: 120V
Lamp: PL-T 13W

- Cutout: 4⁷/₁₆"
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 IC Remodel 1 x 13W Shallow Airtight Ready Housing

R-F404S-R-ICA

Input: 120V
Lamp: PL-T 13W

- Cutout: 4⁷/₁₆"
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in "shallow" joist installations
- J-Box and transformer accessible through ceiling

3 Non-IC New Construction 1 x 13W Shallow Airtight Ready Housing

R-F405S-N-A

Input: 120V
Lamp: PL-T 13W

- Cutout: 4⁹/₁₆"
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

4 Non-IC Remodel 1 x 13W Shallow Airtight Ready Housing

R-F406S-R-A

Input: 120V
Lamp: PL-T 13W

- Cutout: 4⁷/₁₆"
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in "shallow" joist installations
- J-Box and transformer accessible through ceiling

- Durable stamped metal construction
- Fingered retention clips hold trim firmly to housing
- Abrasion resistant powder coat paint or plated metal finish

- Wide range of trim colors and designs
- Offer superior color rendering, as compared to standard incandescent lamps

1 IC New Construction Airtight Ready Housing

R5VI-ICA
Input: 120V

- Cutout: 5 1/4"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 IC New Construction Shallow Airtight Ready Housing

R5VI-S-ICA
Input: 120V

- Cutout: 5 1/4"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

3 Non-IC New Construction Frame-In Kit

R5VI
Input: 120V

- Cutout: 5 1/4"
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Allows for higher wattage lamps and deep reflector trims
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

4 IC Remodel Airtight Ready Housing

R5VI-R-ICA
Input: 120V

- Cutout: 5 1/4"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations

5 IC Remodel Shallow Airtight Ready Housing

R5VI-S-R-ICA
Input: 120V

- Cutout: 5 1/4"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

- One piece spun aluminum construction with an anodized aluminum interior reflector for superior light output and photometric efficiency
- Trims retained to socket via spring clips
- Abrasion resistant powder coat paint or plated metal finish
- Snap-in socket holders secure and position lamps
- Ideal for residential and light commercial applications
- Full reflector trims, low glare and photometrics not found in competing products
- Multiple wattage options

1 IC/Non-IC New Construction Airtight Ready Housing

R-500-N-UA

Input: 120V

- Cutout: 5⁷/₁₆"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations

2 IC/Non-IC Remodel Airtight Ready Housing

R-501-R-UA

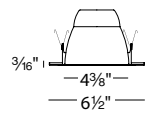

Input: 120V

- Cutout: 5³/₈"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

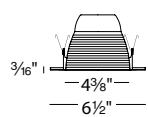

- Durable stamped metal construction
- Secured within lamp housing by steel spring clips
- Provided with foam rubber gasket around outer perimeter
- Abrasion resistant powder coat paint or plated metal finish
- Ideal for residential and light commercial applications

- Full reflector trims, low glare and photometrics not found in competing products
- Snap-in socket holders secure and position lamps
- Multiple wattage options

Shower Light with Glass Lens – UL Listed for wet locations

 	Model #	Finish	Trim	Lamp			Housings
	R-522	WT	White	A19, 40W	Non-IC		1, 2

Compatible Housings

- 1 IC/Non-IC, New Construction, Airtight Ready Housing
R-500-N-UA
- 2 IC/Non-IC, Remodel, Airtight Ready Housing
R-501-R-UA

Refer to opposite page for full spec information. Order lamp separately.

1 Non-IC New Construction
1 × 13W Quad 4-Pin Frame-In Kit

R5VF-113Q
 Input: 120V/277V
 Output: 13W max

- Cutout: 5 1/4"
- Electronic Ballast
- 3" clearance on all sides when insulation is present
- Vertical lamp position allows for high angle cutoff and efficiency
- Rated for branch wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 Non-IC New Construction
1 × 26/32W Tri-Tube 4-Pin Frame-In Kit

R5VF-126/32T
 Input: 120V
 Output: 32W max

- Cutout: 5 1/4"
- Electronic Ballast
- 3" clearance on all sides when insulation is present
- Vertical lamp position allows for high angle cutoff and efficiency
- Rated for branch wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

Trims

5" Premium Compact Fluorescent

- One piece spun aluminum construction with an anodized aluminum interior reflector for superior light output and photometric efficiency
- Trims retained to socket via spring clips
- Snap-in socket holders secure and position lamps
- Abrasion resistant powder coat paint or plated metal finish

- 5" CFL downlights are best for design jobs where ceiling aesthetics and light output are both a priority
- Provides smooth, broad area illumination without shadows
- Multiple wattage options
- All fixtures operate on all voltages from 120V through 277V

- 2** Non-IC, Remodel, New Construction, 1 x 26/32W Tri-Tube 4-pin, Frame-In Housing
R-5VF-126/32T

Refer to p. 361 for full spec information. Order lamp separately (p. 415).

Recessed Downlights

1 IC New Construction 1 x 13W Airtight Ready Housing

R-F502-N-ICA
Input: 120V
Output: 13W max

- Cutout: 5¹/₁₆"
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

2 IC Remodel 1 Airtight Ready Housing

R-F503-R-ICA
Input: 120V
Output: 13W max

- Cutout: 5¹/₁₆"
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

3 Non-IC New Construction 1 x 26W Airtight Ready Housing

R-F504-N-A
Input: 120V
Output: 26W max

- Cutout: 5¹/₁₆"
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

4 Non-IC Remodel 1 x 26W Airtight Ready Housing

R-F505-R-A
Input: 120V
Output: 26W max

- Cutout: 5¹/₁₆"
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

- Durable stamped metal construction
- Secured within lamp housing by steel spring clips
- Provided with foam rubber gasket around outer perimeter
- Abrasion resistant powder coat paint or plated metal finish
- Snap-in socket holders secure and position lamps

- 5" CFL downlights are best for design jobs where ceiling aesthetics and light output are both a priority
- Multiple wattage options

Output: 100W

- Cutout: 6 7/8"
- Integral Magnetic Ballast
- Proven core and coil magnetic ballast
- 3" clearance on all sides when insulation is present
- Vertical lamp position allows for high angle cutoff and efficiency
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

- Cutout: 6 7/8"
- Integral Electronic Ballast
- 3" clearance on all sides when insulation is present
- Vertical lamp position allows for high angle cutoff and efficiency
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

1 Non-IC New Construction Frame-In Kit Vertical Lamp Position

R6VF-113Q

Input: 120V/277V
Output: 13W

- Cutout: 6⁷/₈"
- Electronic Ballast
- 3" clearance on all sides when insulation is present
- Uses full reflector style trims
- Vertical lamp position allows for high angle cutoff and efficiency
- Rated for branch circuit wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 Non-IC New Construction Frame-In Kit Vertical Lamp Position

R6VF-126/32T

Input: 120V/277V
Output: 26W/32W

- Cutout: 6⁷/₈"
- Electronic Ballast
- 3" clearance on all sides when insulation is present
- Uses full reflector style trims
- Vertical lamp position allows for high angle cutoff and efficiency
- Rated for branch circuit wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

3 Non-IC New Construction Frame-In Kit Vertical Lamp Position

R6VF-113Q-EM

Input: 120V/277V
Output: 13W

R6VF-126/32T-EM

Input: 120V/277V
Output: 26/32W

- Cutout: 6⁷/₈"
- Electronic Ballast
- Integral 90 min EM battery pack complies with all current emergency egress codes
- Uses full reflector style trims
- Vertical lamp position allows for high angle cutoff and efficiency
- 3" clearance on all sides when insulation is present
- Rated for branch circuit wiring
- UL Listed
- J-Box and transformer accessible through ceiling

- One piece spun aluminum construction
- Secured within lamp housing by steel spring clips
- Snap-in socket holders secure and position lamps
- Abrasion resistant powder coat paint or plated metal finish
- Full reflector trims provide regressed lamp position, low glare and superior photometrics
- Multiple wattage options

1 IC New Construction Airtight Ready Housing

— min 12"
max 25"

R-F605D-N-ICA

Input: 120V
Output: 13W max

- Cutout: 6⁷/₁₆"
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

2 IC Remodel Airtight Ready Housing

R-F606D-R-ICA

Input: 120V
Output: 13W max

- Cutout: 6⁷/₁₆"
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

3 Non-IC New Construction Airtight Ready Housing

— min 12"
max 25"

R-F60 7D-N-A

Input: 120V
Output: 32W max

- Cutout: 6⁷/₁₆"
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

4 Non-IC Remodel Airtight Ready Housing

R-F608D-R-A

Input: 120V
Output: 32W max

- Cutout: 6⁷/₁₆"
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when used with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- Energy Star Qualified
- UL and CUL Listed
- Suitable for damp locations

- Durable stamped metal construction
- Secured within lamp housing by steel spring clips
- Provided with foam rubber gasket around outer perimeter
- Abrasion resistant powder coat paint or plated metal finish
- Full reflector trims provide proper lamp position, low glare and superior performance photometrics
- Multiple wattage options

Housings

1 IC New Construction Enclosed Airtight Ready Housing

R6VI-B-ICA
Input: 120V

- Cutout: 6 7/8"
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

1 IC New Construction Airtight Ready Housing

- Cutout: 6⁷/₈"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 IC New Construction Shallow Airtight Ready Housing

- Cutout: 6⁷/₈"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

3 Non-IC New Construction Frame-In Kit

- Cutout: 6⁷/₈"
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Allows for the use of higher wattage lamps and deep reflector trims
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

4 IC New Construction Enclosed Airtight Ready Housing

- Cutout: 6⁷/₈"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

5 IC Remodel Housing

- Cutout: 6⁷/₈"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

6 IC Remodel Shallow Airtight Ready Housing

- Cutout: 6⁷/₈"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Meets Title 24 and WESC airtight codes when used with RGK gasket kit (sold separately)
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- Suitable for use in 2" x 6" joist installations

- One piece spun aluminum construction
- Secured within lamp housing by steel spring clips
- Abrasion resistant powder coat paint or plated metal finish
- Provides smooth, broad area illumination without shadows
- Full reflector trims provide proper lamp position, low glare and superior performance photometrics
- Multiple wattage options

1 Non-IC New Construction Airtight Ready Housing

R-600D-N-A
Input: 120V

- Cutout: 6⁷/₁₆"
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when use with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 IC New Construction Airtight Ready Housing

R-602D-N-ICA
Input: 120V

- Cutout: 6⁷/₁₆"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when use with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations

3 Non-IC New Construction Shallow Airtight Ready Housing

R-660S-N-A
Input: 120V

- Cutout: 6⁷/₁₆"
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when use with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

4 Non-IC Remodel Airtight Ready Housing

R-601D-R-A
Input: 120V

- Cutout: 6⁷/₁₆"
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when use with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

5 IC Remodel Airtight Ready Housing

R-603D-R-ICA
Input: 120V

- Cutout: 6⁷/₁₆"
- See individual trims for max wattage
- Suitable for direct contact with insulation
- Certified airtight per ASTM E283, when use with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations

6 Non-IC Remodel Shallow Airtight Ready Housing

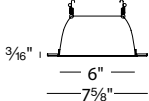

R-661S-R-A
Input: 120V

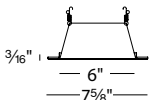

- Cutout: 6⁷/₁₆"
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Certified airtight per ASTM E283, when use with RGK gasket kit (sold separately)
- Rated for branch and chain wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling
- Suitable for use in 2" x 6" joist installations

- Durable stamped metal construction
- Secured to lamp holder bracket by steel springs
- Provided with foam rubber gasket around outer perimeter
- Abrasion resistant powder coat paint or plated metal finish
- Full reflector trims provide proper lamp position, low glare and superior performance photometrics
- Multiple wattage options

1 Non-IC Double Lamp Horizontal Housing

- Cutout: 8 1/8"
- Electronic Ballast
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Pre-wired test switch with surface mounting cover plate
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

2 Non-IC Double Lamp Horizontal Housing/Emergency Backup

- Cutout: 8 1/8"
- Electronic Ballast
- Integral 90 min EM battery pack complies with all current emergency egress codes
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Pre-wired test switch with surface mounting cover plate
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

3 Non-IC Single Lamp Horizontal Housing

- Cutout: 8 1/8"
- Electronic Ballast
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Pre-wired test switch with surface mounting cover plate
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

4 Non-IC Single Lamp Horizontal Housing Emergency Backup

- Cutout: 8 1/8"
- Electronic Ballast
- Integral 90 min EM battery pack complies with all current emergency egress codes
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Pre-wired test switch with surface mounting cover plate
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

5 Non-IC Single Lamp Vertical Housing

- Cutout: 8 1/8"
- Electronic Ballast
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Vertical lamp position allows for high angle cutoff and efficiency
- Pre-wired test switch with surface mounting cover plate
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

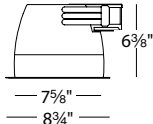

6 Non-IC Single Lamp Vertical Housing Emergency Backup

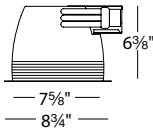

- Cutout: 8 1/8"
- Electronic Ballast
- Integral 90 min EM battery pack complies with all current emergency egress codes
- See individual trims for max wattage
- 3" clearance on all sides when insulation is present
- Vertical lamp position allows for high angle cutoff and efficiency
- Pre-wired test switch with surface mounting cover plate
- Rated for branch wiring
- UL and CUL Listed
- Suitable for damp locations
- J-Box and transformer accessible through ceiling

- Durable stamped metal construction
- Precision spun aluminum reflectors, with high grade specular finish
- Precision steel dimpled friction springs securely hold reflector in mounting frame
- Abrasion resistant powder coat paint finish
- Full reflector trims provide proper lamp position, low glare and superior performance photometrics
- Designed for new construction, solid or suspended ceilings
- Multiple wattage options

Refer to p. 389 for full spec information. Order lamp separately (p. 415).

Recessed Downlights

Display Spot Lights

Shown: MF-866-WT/WT (p.398)

Display Spot Lights

Great for spot, accent or wall washing, Display Spot Lights are the perfect choice for installation on beams and concrete ceilings that are not suitable for recessed fittings.

Low voltage styles are available in a wide range of sizes, styles and finishes for various residential and commercial applications. A multitude of mounting options provides flexibility in lighting installations.

Triple Spot Lights.....	400
Flexible Spot Lights.....	401
Clamp Mount Spot Lights.....	403

LEDme™ Display Spot Light

- Die-cast aluminum construction
- Available in three different color temperatures
- Choose from three different beam spreads
- Replaceable LED modules, see p.411
- Simple, quick and easy installation
- 50,000 hour potential life
- Includes LED lens optic as ordered and 6' lead wire

- Flexible neck for challenging lighting situations
- Vents provide thermal management for extended LED life

- Threaded rod allows for mounting in varying applications
- Adjustable from 4 to 18 inches, may be cut in field for custom lengths

Example: **LED-SL-101-WW-S-BN**

Model #	Color Temp	Beam			Finish	Lumens	CBCP at		
		8°	25°	40°			8°	25°	40°
LED-SL-101-WW	3000K	S, F, W	BK, BN, CH	100	3438	1617	696		
LED-SL-101-NW	4500K	S, F, W	BK, BN, CH	110	3797	1872	807		
LED-SL-101-CW	6000K	S, F, W	BK, BN, CH	120	6987	1779	804		

LED: 3W

BK-Black, **BN**-Brushed Nickel, **CH**-Chrome

Lens Accessories (order separately)

Model #	Beam
SL-LENS-	S, F, W

- Reliable constant current LED power supply
- Surge protection
- Short circuit protection

LEDme™ Driver

Model	Watt	Power up to	L	W	H
LED-700MA12-P	12W	4 LED-SL-101	5"	3"	1 5/8"

Single Spot Lights

- Integral electronic transformer
- Can be wall or ceiling mounted
- Canopies can be custom fit with any of our low voltage track heads
- Available extensions from 6 to 96 inches (*must be ordered as a complete unit, see table below*)
- Clear lens included, see p.419-420 for lens options

ME-808

LP-007

Low Voltage MR16

Example: **ME-808-BK**

Electronic Transformer

Model #	Finish	Ø	L	W	H
ME-808	BK, WT	4½"	3¾"	2¾"	6¼"
ME-007	BN, BN, WT	4½"	4¼"	2¼"	6½"

Lamp: 12V, 50W max, MR16, order separately (p.413)

Magnetic Transformer

LP-808	BK, WT	4"	3¾"	2¾"	6¼"
LP-007	BN, BN, WT	4"	4¼"	2¼"	6½"

Lamp: 12V, 50W max, MR16, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

Framing Projector (order separately)

Model #	Finish
008FP	BK, WT

For use with ME-007 and LP-007.

Example: **ME-808X18-BK**

Extensions

Model #	6"	12"	18"	24"	Finish
X	6, 12, 18, 24	BK, WT, BN			
	36"	48"	72"†	96"‡	
X	36, 48, 72, 96	BK, WT, BN			

Extends track heads. Specify extension, fixture and finish. Only available as complete unit.

† Shipped as two 36" rods with threaded coupler to be joined in the field.
‡ Shipped as two 48" rods with threaded coupler to be joined in the field.
Lengths longer than 96" not recommended as a voltage drop may occur.

Single Spot Lights

- Integral electronic transformer
- Clear lens included, see p.419-420 for lens options

ME-826

ME-866

Low Voltage MR16

Example: **ME-826-WT**

Model #	Finish
ME-826	BN, BN, WT
ME-866	WT/PT, WT/WT

Lamp: 12V, 50W max, MR16, order separately (p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White, **WT/PT**-White/Platinum, **WT/WT**-White/White

- Base does not cover a standard junction box, best for display functions
- Remote transformer ordered separately, see p.409
- Clear lens included, see p. 419-420 for lens options

Low Voltage MR16

Example: **ME-1126-BK**

Model #	Finish
MI-1126	BN, WT

Lamp: 12V, 35W max, MR11, order separately (p.413)

BK-Black, **WT**-White

Display Spot Lights

Triple Spot Lights

- Integral electronic transformer
- Clear lens included, see p.419-420 for lens options

PAN-826

PAN-866

Low Voltage MR16

Example: **PAN-826-PT**

Model #	Finish
PAN-826	PT, WT

Lamp: 12V, 3 x 50W max, MR16, order separately (p.413)

PT-Platinum, **WT**-White

Low Voltage MR16

Example: **PAN-866-WT/WT**

Model #	Finish
PAN-866	WT/PT, WT/WT

Lamp: 12V, 3 x 50W max, MR16, order separately (p.413)

WT/PT-White/Platinum, **WT/WT**-White/White

Flexible Spot Lights

- Mounts easily to standard junction boxes
- Shown with optional mesh bulb shield
- Integral electronic transformer

ME-204

- Integral wiring compartment, does not fit over junction box
- Shown with optional solid bulb shield
- Remote transformer ordered separately, see p.409

MI-204

- Opposite side access required for installation
- Shown with optional mesh bulb shield
- Remote transformer ordered separately, see p.409

MM-204

Low Voltage MR16

Example: **MM-204-WT**

Model #	Finish
ME-204	BK, BN, WT
MI-204	BK, BN, WT
MM-204	BK, BN, WT

Lamp: 12V, 50W max, MR11G/MR16G, order separately (see p.413)

BK-Black, **BN**-Brushed Nickel, **WT**-White

Bulb Shields (order separately)

Example: **MBS-16-BK**

	Model #	MR11	MR16	Finish
Mesh Shield	MBS	11, 16	BK, BN, WT	
Solid Shield	SBS	11, 16	BK, BN, WT	

BK-Black, **BN**-Brushed Nickel, **WT**-White

Flexible Spot Lights

- Mounts easily to standard junction boxes
- Feature adjustable socket depth, allowing for a snug fit with a variety of lamp choices
- Optional barn door accessory for glare control (order separately)
- Lens options available with lens clip accessory, see p.419-420

MO-024

MO-048

Line Voltage Universal medium-based lamp

Example: **MO-024-WT**

Model #	Length	Finish
MO-024	24" max	BK, WT
MO-048	48" max	BK, WT

Lamp: 120V, 150W max, A/BR/G/PAR16/PAR20/PAR30/PAR38, order separately

BK-Black, **WT**-White

Lens Clip Accessory (order separately)

Model #	Lamp	Finish
PAR20HLD	PAR20	BK
PAR30HLD	PAR30	BK
PAR38HLD	PAR38	BK

Barn Door (order separately)

Model #	Lamp	Finish
PAR20BD	PAR20	BK, BN, WT
PAR30BD	PAR30	BK, BN, WT
PAR38BD	PAR38	BK, BN, WT

Clamp Mount Spot Lights

Low Voltage Telescoping Neck

- Includes 2" clamp and 6' cord with plug
- See p.406 for alternate clamp options
- See p.419-420 for lens options

Low Voltage MR16

Example: **DL-007-BK**

Model #	Finish
DL-007	BK, WT

Lamp: 12V, 50W max, MR16
order separately (see p.413)

BK-Black, **WT**-White

Framing Projector (order separately)

Model #	Finish
008FP	BK, WT

For use with DL-007 only.

Low Voltage Adjustable

- Includes 2" clamp and 6' cord with plug
- See p.406 for alternate clamp options
- See p.419-420 for lens options

Low Voltage MR16

Example: **DL-167-BK**

Model #	Finish
DL-167	BK

Lamp: 12V, 50W max, MR16
order separately (see p.413)

BK-Black

Clamp Mount Spot Lights

Low Voltage Adjustable Gooseneck

- Includes 2" clamp and 6' cord with plug
- See p.406 for alternate clamp options
- See p.419-420 for lens options

Low Voltage MR11/MR16

Example: **DL-214-BK**

Model #	Finish
DL-214	BK, WT

Lamp: 12V, 50W max, MR11/MR16
order separately (p.413)

BK-Black, **WT**-White

Low Voltage Adjustable Gooseneck

- Sliding adjustable socket to accommodate lamp positioning
- Includes 2" clamp and 6' cord with plug
- See p.406 for alternate clamp options
- See p.419-420 for lens options

Line Voltage Universal medium-based lamp

Example: **DL-024-WT**

Model #	Finish
DL-024	BK, WT

Lamp: 120V, 150W max, BR30/PAR20
PAR30/PAR38, order separately

BK-Black, **WT**-White

Clamp Mount Spot Lights

Line Voltage Telescoping Wall Wash

- High output quartz lamp fixture
- Die-cast aluminum fixture with die-cast louver for glare control
- Includes 2" clamp and 6' cord with plug
- See p.406 for 4" clamp options

Line Voltage Quartz J-150-S

Example: **DL-150-WT**

Model #	Finish
DL-150	BK, WT

Lamp: 120V, 150W max, J-150-S
order separately

BK-Black, **WT**-White

Line Voltage Telescoping Neck

- Phenolic baffle included to reduce glare
- Includes 2" clamp and 6' cord with plug
- See p.406 for 4" clamp options

Line Voltage PAR20

Example: **DL-701-WT**

Model #	Finish
DL-701	BK, WT

Lamp: 120V, 60W max, PAR20/R20/A19
order separately

BK-Black, **WT**-White

Clamp Mount Spot Lights

Line Voltage Telescoping Neck

- Sliding adjustable socket to accommodate lamp positioning
- Includes 2" clamp and 6' cord with plug
- See below 4" clamp options
- See p. 419-420 for lens options

Line Voltage Universal medium-based lamp

Example: **DL-188-WT**

Model #	Finish
DL-188	BK, WT

Lamp: 120V, 150W max, BR30/PAR20
PAR30/PAR38, order separately

BK-Black, **WT**-White

4 Inch Clamps

Pipe Clamp

- For pipes ½" to 2½"

Example: **DLC-P-WT**

Model #	Finish
DLC-P	BK, WT

BK-Black, **WT**-White

4" Clamp

- For flat surfaces from 2" to 4" wide

Example: **DLC-4-WT**

Model #	Finish
DLC-4	BK, WT

BK-Black, **WT**-White

4" Clamp for DL-167 only

- For flat surfaces from 2" to 4" wide

Example: **DLC-4A-BK**

Model #	Finish
DLC-4A	BK

BK-Black,

Transformers

Produced in our family owned manufacturing campus, SMART Electronic Transformers incorporate abnormal short circuit protection, trouble shooting diagnostics and full scale dimming all in a compact size.

Available in electronic and magnetic versions ranging from 60 to 1000 watts, our standard electronic transformer features auto reset, soft start and short circuit protection technologies.

Combined Class 2 units in a single package offer one source to wire multiple runs of low voltage units such as under cabinet and display luminaires.

Electronic Features

- Auto-reset feature automatically cycles the transformer in a safe diagnostic mode until the short circuit is remedied
- Extended short circuit protection for a minimum of 8 hours under the duress of a short circuit
- Unique short circuit protection from both normal and abnormal short circuits
- Diagnostic features communicate the likely source of the installation problem
- Soft start feature gradually applies voltage on cold lamps to extend lamp life (lamps will light in under 1½ seconds)
- Electronic Low Voltage (ELV) dimmers recommended for best performance
- Class 2 transformers are intrinsically safe by limiting secondary currents to 5 Amps per circuit
- Available from 60 watts to 300 watts
- Meets NEC 411 low voltage directive
- Compliant with the highest level of safety and performance standards, UL 2108 and UL 60950

Magnetic Features

- Multi-tap secondary output terminals help compensate for voltage drop
- Secondary screw terminals for easy and secure installation
- Auto reset primary overload protection
- Manual reset secondary short circuit protection
- Electronic Low Voltage (ELV) dimmers recommended for best performance
- Epoxy and gravel encapsulated for vibration control and quiet operation
- Available from 300 watts to 1000 watts
- Meets NEC 411 low voltage directive
- Compliant with the highest level of safety and performance standards, UL 2108 and UL 60950

Remote Electronic Transformers

Enclosed Electronic Transformers

- Use for all initial installations to ensure safe and primary side connections in a wiring compartment
- Dimming with Electronic Low Voltage (ELV) dimmers

EN-12100-RB-AR
EN-12150-RB-AR

EN-1260-RB-AR
EN-1275-RB-AR

Class 2 Enclosed Electronic Transformers

- Secondary wiring for Class 2 transformers does not require conduit sheathed cable or clamp wiring techniques
- Intrinsically safe, Class 2 transformers permit no greater than a 5 amp current be drawn
- Non-metallic sheathed cable may be used for secondary wiring in walls and ceilings
- Drop down to a smaller gauge wire if space in fixture does not permit secure connection directly with the non-metallic sheathed cable
- Powers most cabinet fixtures

Class 2 Enclosed Electronic Transformers

Model	Input	Output	Min Load	L	W	H
EN-1260-RB2-N	120V	12V, 1 × 60W	1W	6 $\frac{5}{8}$ "	1 $\frac{5}{8}$ "	1 $\frac{1}{8}$ "
EN-1260-RB2	120V	12V, 1 × 60W	20W	6 $\frac{5}{8}$ "	1 $\frac{5}{8}$ "	2 $\frac{5}{8}$ "

- *U.L. Listed Class 2 Component

Components and Remote Magnetic Transformers

Components

Large Electronic Transformer Enclosure

Model	L	W	H
ETB	6¼"	3"	1⅝"

Holds one EN-12100-R-AR, EN-12150-R-AR or EN-24150-R-AR electronic transformer.

Small Electronic Transformer Enclosure

Model	L	W	H
METB	6⅝"	1⅝"	1⅞"

Holds one EN-1260-R-AR, EN-1275-R-AR or EN-1260-R2 electronic transformer.

Multiple Terminal Block

Model	L	W	H
MTB-01	3¼"	1¾"	⅞"

12.5A max accommodates up to 6 output connections for 14 AWG wires. Terminal block is used to easily wire together multiple output connections for a neat under cabinet installation without the use of open splices. Perfect for wiring up to 3 button lights at 20W or 6 button lights at 10W.

Magnetic Transformers

- Larger and generally have greater capacities than electronic models
- Allow for greater wiring distances from transformer to the powered equipment
- Multi-taps from 12V up to 15V or from 24V up to 30V, compensate for voltage drop
- Feature "push-to-reset" circuit breakers
- Transformers shown on this page comply with UL2108 standards for low voltage installations

12 Volt Magnetic Transformer

Wattage	Model	Breakers	L	W	H
300W	SRT-300M-12V	1	10¾"	4¼"	4⅞"
500W	SRT-500M-12V	2	11½"	5¼"	5⅞"
600W	SRT-600M-12V	2	11½"	5¼"	5⅞"
600W	SRT-600M2-12V*	2	12½"	6⅞"	5⅞"
1000W	SRT-1000M-12V	4	13¾"	7⅞"	5¾"

24 Volt Magnetic Transformer

Wattage	Model	Breakers	L	W	H
300W	SRT-300M-24V	1	10¾"	4¼"	4⅞"
500W	SRT-500M-24V	1	11½"	5¼"	5⅞"
600W	SRT-600M-24V	1	11½"	5¼"	5⅞"
1000W	SRT-1000M-24V	2	13¾"	7⅞"	5¾"

*Permits two separately switched circuits at 300W each.

Debuzzing Coil

Our magnetic surface mounted transformers have a built in debuzzing coil which substantially reduces buzzing. However, if the buzzing noise is still noticeable, a separate debuzzing coil may be wired in series on the 120V input line to further reduce the noise. Select the correct debuzzing coil based on the wattage of the transformer.

Model	Output	Diameter
LM-DBC12-150	12V, 150W	2⅝"
LM-DBC12/24-300	12V/24V, 300W	4⅜"
LM-DBC12/24-600	12V/24V, 600W	4⅜"

LED Replacement Modules

WAC Lighting LEDme™ products offer interchangeable LED modules for replacement or upgrade as technologies advance in the future. We recommend ordering extra replacement modules when ordering products for projects as is typically done for all lamp types.

Product	Wattage	Color Temp	Model #
LEDme™ 2" Downlights	1 × 3W	3000K	RM1X3-30-DL
	1 × 3W	4500K	RM1X3-45-DL
LEDme™ 2" Miniature Recessed	1 × 3W	3000K	RM1X3-30-DL
	1 × 3W	4500K	RM1X3-45-DL
LEDme™ 3" Downlights	3 × 3W	3000K	RM3X3-30-DL
	3 × 3W	4500K	RM3X3-45-DL
LEDme™ 4" Downlights	6 × 3W	3000K	RM6X3-30-DL
	6 × 3W	4500K	RM6X3-45-DL
LEDme™ Multiple Spots	6 × 3W	3000K	RM6X3-30-DL
	6 × 3W	4500K	RM6X3-45-DL
LEDme™ Reflex	3 × 3W	3000K	RM3X3-30-TK
	3 × 3W	4500K	RM3X3-45-TK
	6 × 3W	3000K	RM6X3-30-TK
	6 × 3W	4500K	RM6X3-45-TK
LEDme™ Galileo, Cartier, Impulse	1 × 10W	4000K	RM1X10-40-TK
LEDme™ Quest, Genesis, Über	3 × 1W	3000K	RM3X1-30-QP
LEDme™ Forza, Orb	3 × 3W	3000K	RM3X3-30-QF
Light Bars	2 × 1W	3000K	RM2X1-30-BA
	4 × 1W	3000K	RM4X1-30-BA
Button Light	3 × 1W	3000K	RM3X1-30-HR
Display Light	1 × 3W	3000K	RM1X3-30-SL
	1 × 3W	4500K	RM1X3-45-SL
	1 × 3W	6000K	RM1X3-60-SL

LED Festoon Lamps

- Direct replacement for xenon festoon lamps with an energy efficient, directional and cooler operating option
- Emits a directional light that may be aimed by rotating the lamp within the socket

LED Festoon Base – Linear Track and Linear Under Cabinet Fixtures

Wattage	Color Temp	Model #	Volt	Lumens	Avg. Life	Base	Length	Beam
0.6W	3200K	LED-FS-60	12V	19	50,000 hrs	Festoon	1¾"	30°
0.6W	3200K	LED-FS-60-24V	24V	19	50,000 hrs	Festoon	1¾"	30°

Lamps/Pack: 1

Suggestion: As the load is significantly reduced, ensure that the total load is greater than the minimum load requirements of the transformer where applicable.

Halogen Lamps

Low Voltage JC Bi-pin – Quick Connect™ Pendants, Sconces

Specialty Performance MR16 Halogen Lamps

120V Track, Flexrail1™, Flexrail2™, Linear Track, Recessed Downlights, Surface Mount Spots, Display Spot Lights and Quick Connect™ Pendant and Fixtures

Extended Life MR16, Ushio Low Voltage Ultraline™ Titan

- Up to 18,000 hour lamp life, 6 times longer than standard MR16 lamps
- Minimizes the amount of installation maintenance
- Reduces lamp costs by eliminating up to 3 lamp replacements over lifetime
- Consistent color throughout lamp

Lamp Performance

Foot Candle: The amount of light which would be emitted inside a one foot by one foot space by one candle; roughly equivalent to one common household candle. Recommended light levels Kitchen (50 fc), Living Room (35 fc), Bedroom (25 fc), Office (50 fc).

Aiming Angle: The aiming angle is the degree of the center beam from either the vertical or horizontal plane, depending on which lighting application is being used. A zero degree aiming angle represents a light source directly overhead, where as a 45 degree angle usually represents a light source for task lighting or wall washing.

CBCP: The intensity of the light which is produced at the center of the beam. Once we know the CBCP we can use this number to get the foot candles at the surface we want to light. To get the foot candle measurement on our surface we divide our measurement of center beam candle power by the distance from the light source to the surface squared (D). For example, if our CBCP number was 3300, and the distance from the light source to the surface was 9 feet, we would have 41 candles of illumination on our surface.

The formula is $FC = \frac{CBCP}{D^2}$

- A- Aiming angle
- D- Distance from fixture to floor*
- FC- Initial footcandle level at the center of the beam
- L- Listing at the point that the candlepower drops off to 50% of maximum*
- MC- Maximum candlepower
- W- Listing at the point that the candlepower drops off to 50% of maximum*
(*Measured in feet)

WE BELIEVE A WORLD OF DIFFERENCE
CAN BE MADE BY THE CHOICES
EACH PERSON MAKES AND THAT
THIS FREEDOM, FROM WHICH WE
BENEFIT, CARRIES WITH IT GREAT
RESPONSIBILITY. IN EACH SUCCESS,
REMEMBER THE PEOPLE WITHOUT
EDUCATION OR OPPORTUNITY.
REMEMBER OUR CHILDREN, WHO
WILL INHERIT A PLANET LESS
PLENTIFUL. LET YOUR CHOICES REVEAL
A MORE RESPONSIBLE YOU.
