SUSTAINABLE

Wave Lighting is excited to introduce our new line of LED fixtures representing the future of lighting. Our commitment to deliver sustainable products in today's green market has led us beyond incandescent bulbs, to magnetic and electronic fluorescent, and now on to LED.

Incandescents convert less than 10 percent of the energy they consume into light, losing the rest as heat. Fluorescent lamps contain mercury which is harmful for the environment. Wave Lighting's LED fixtures utilize a fraction of the energy that incandescents use, are RoHS compliant, and contain no mercury.

Our LED fixtures are a cost-effective option due to their long, maintenance free lifetime. Incandescent bulbs have an approximate lifespan of 1,000 hours, CFLs are estimated at 10,000 hours, while our LEDs can operate up to 50,000 hours. That is 50 x longer than the incandescent bulb and 5 x longer than the CFL.

Wave has added the *LIGHTWAVE* LED light source to many of our fixtures featuring a replaceable LED Light Engine. Our *LIGHTWAVE* LED Light Engine utilizes *Driver-On-Board* technology which eliminates the need for a seperate driver and simplifies replacement.

LED LIGHTWAVE light engine

Wave Lighting's Commercial LED luminaires are driven by a multi-volt LED system that is capable of up to 6,000 lumens. The exceptional performance of our Commercial LED system provides 97.3% of lumen output downward with maximum candela at 70% creating extremely high luminaire/post spacing. LED color options include 3000k, 4000k (standard) and 5000k. With IES distributions of Type 3 and Type 5, our Commercial LED is the perfect solution for energy savings, performance and maintenance free operation.

LED COMMERCIAL system

GU24

GU24 Technology is a socket and self ballasted lamp system, which was designed to replace the standard incandescent Edison screw shell base and meet Energy Star and Title 24 requirements. GU24 simplifies lamp and ballast replacement with its easy to use twist lock system.

Nearly our entire line of residential and light commercial fixtures is available in the energy efficient GU24 configuration which is Energy Star and Title 24 compliant when ordered with the lamp included. GU24 gives our customers an energy efficient option with a light source that is easy to replace.

GU24 base CFL

HID

Metal Halide continues to be a popular option because of the lamps' ability to provide natural white light while illuminating larger areas using less energy. Wave Lighting offers Metal Halide models with energy efficient electronic ballasts that bring lower wattages without sacrificing lumen output. High Pressure Sodium fixtures are also available and remain a best seller among post top fixtures.

TECHNOLOGY

ENERGY STAR® was introduced by the Environmental Protection Agency in 1992 as a voluntary market-based partnership to reduce greenhouse gas emissions through increased energy efficiency. Wave Lighting is an ENERGY STAR® partner committed to improving the energy efficiency of products for homes and businesses. All of our ENERGY STAR® qualified products meet the latest requirments for efficiency. For more information about ENERGY STAR®, visit www.energystar.gov. Look for the ENERGY STAR® icon for compliant products.

Wave Lighting is proud to offer a wide range of lighting fixtures that meet the Buy American Act (BAA) requirements. The BAA was created to stimulate the economy by specifying how government agencies purchase products. Look for the "Buy American Act Compliant" icon for qualifying fixtures.

Sea turtles are an endangered species. Between March and October, sea turtle hatchlings are confused by the artificial light from coastal dwellings and head toward pools and streets instead of the safety of the sea. Wave Lighting's turtle-friendly lighting directs light to the ground and is not disruptive to the hatchling turtles. These products are available with a LED powered wildlife friendly light source in addition to incandescent and GU24.

Light pollution from outdoor lighting wastes billions of dollars and vast quantities of natural resources. Our night sky friendly fixtures and retrofits focus light downward reducing light pollution and safeguarding our wildlife in their natural environment. Wave Lighting's Dark Sky Reflector increases the overall efficiancy of a fixture by concentrating its light to where it belongs. We are committed to fighting light pollution and restoring our star-filled skies.

Wave Lighting offers night sky friendly outdoor lighting fixtures and retrofits for residential and commercial lighting applications.

World Leaders in Non-Corrosive Outdoor Lighting Technologies

WAVE LIGHTING *strives to exceed customer expectations as the lowest cost provider of residential and commercial lamp posts and outdoor lighting products with a special emphasis on new technologies in non-corrosive, energy efficient outdoor lighting. Our commitment to sustainability drives us to develop new and exciting products that meet today's energy consumption requirements and are built to last.*

EVERSTONE™
EverStone™ is a proprietary compression molded, non-metallic composite material that, when formed into our designs, provides a level of beauty and non-corrosive durability that is unavailable in traditional metallic lighting fixtures.
"Non-Corrosive Lights that Last."

MARLEX®
Marlex® is a non-metallic, injection molded polymer that offers long term, corrosion-resistant service at a very affordable price. This material is extremely UV stable and is an outstanding alternative to metallic fixtures of all types.

POST TOP GLOBES & ACORNS
Acrylic offers clarity and performance at an affordable price and is extremely UV resistant. Polycarbonate delivers beauty and durability, with the ability to accommodate higher temperatures and wattages and is extremely impact resistant.

COMMERCIAL LIGHTING FIXTURES
Wave Lighting proudly offers a wide vatiety of commercial HID lighting fixtures. All of our fixtures are constructed with the industry's finest Metal Halide or High Pressure Sodium ballasts and may be customized with a vast array of options from our Dark Sky Reflectors, glass refractors, to decorative finials. Wave Lighting's commercial product line provides safety and sucurity for all types of applications including parks, pedestrian walkways, and parking areas.

RESIDENTIAL AND COMMERCIAL LAMP POSTS
Wave Lighting is the leading supplier of residential and commercial lamp posts and accessories. Our extruded aluminum posts are available in round or fluted and for direct burial or surface mount applications. Post lengths range from 7'-14' with wall thicknesses from 0.05"-0.125". We also offer accessories ranging from traditional ladder rests, photocells, to our new NEC compliant convenience outlet with in-use rain shield.

EVERSTONE®
NON-CORROSIVE

Built From The Inside-Out To Last!

OceanSide® Approved products are specifically designed from the **INSIDE-OUT** to meet the rigors of Nature's harshest environment. **All Everstone™ products meet the high standards needed to be OceanSide® Approved.**

LIMITED LIFETIME WARRANTY ON HOUSING

Whether you live on the coast or inland, Wave Lighting has created an array of non-corrosive, decorative outdoor lighting fixtures that will withstand any extreme environment; from humid and salted coastal climates to frigid snowscapes to arid deserts.

OCEANSIDE® APPROVED

The OceanSide® icon indicates that this product meets an uncompromising set of standards for low-maintenance durability and harsh weather performance.

Our advanced engineering, pleasing designs and leading-edge technologies allow us to eliminate components that can fail due to rust, corrosion or exposure to extreme climates.

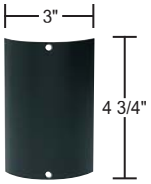
HH
2" x 4" Hand Hole Cover for 3" posts (includes mounting hardware)
SPECIFY: Black, **(B)** Bronze, or **(W)** White

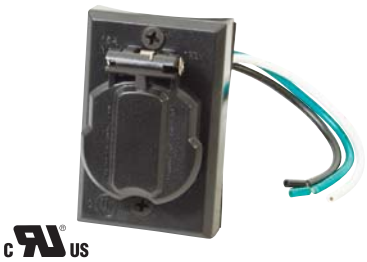


HH4
2" x 4" Hand Hole Cover for 4" posts (includes mounting hardware)
SPECIFY: Black, **(B)** Bronze, or **(W)** White

PHOTO CONTROLS & OUTLETS

320
120V for 3" Post with Ezee Change Plug, 1 3/8" Dia. mounting hole required
Up to 300W Inc.,
39W Fluor., 100W H.I.D.
SPECIFY: Black or **(W)** White

688
120V Button Photo Control
11/16" Dia. mounting hole required
Up to 300W Inc.,
39W Fluor., 100W H.I.D.
SPECIFY: Black or **(W)** White



338
120V Grounded Convenience Outlet
1 3/8" Dia. mounting hole required
SPECIFY: Black or **(W)** White

CAST ALUMINUM BRACKETS

WB5
Contemporary Wall Bracket pre-wired w/20" pigtail for easy installation with 3" Post Mount Fixture
Max. Globe size: 16". I.D. =3"
H = 6", W = 4 1/2", E = 12 1/2"
Powdercoated Finish
SPECIFY: (BK) Black **(WH)** White or **(BZ)** Bronze

PB5
Contemporary Wall Bracket pre-wired w/20" pigtail for easy installation with 3" Post Mount Fixture. PB5-CAP Included. Designed to mount to 3" Posts with minimum .125 wall thickness
Max. Globe size: 16". I.D. =3"
H = 9 1/2", W = 4 1/2", E = 16 1/2"
Powdercoated Finish
SPECIFY: (BK) Black **(WH)** White or **(BZ)** Bronze

PB5-CAP
Cap for 3" Post I.D. =3"
Powdercoated Finish
SPECIFY: (BK) Black **(WH)** White or **(BZ)** Bronze

PB5-2
Contemporary Wall Bracket pre-wired w/20" pigtail for easy installation with 3" Post Mount Fixture. PB5-CAP Included. Designed to mount to 3" Posts with minimum .125 wall thickness
Max. Globe size: 16". I.D. =3"
H = 9 1/2", W = 4 1/2", E = 29"
Powdercoated Finish
SPECIFY: (BK) Black **(WH)** White or **(BZ)** Bronze

PB5-3
Contemporary Wall Bracket pre-wired w/20" pigtail for easy installation with 3" Post Mount Fixture
Designed to mount to 3" Posts with minimum .125 wall thickness
Max. Globe size: 14". I.D. =3"
H = 9", W = 4 1/2", E = 29"
Powdercoated Finish
SPECIFY: (BK) Black **(WH)** White or **(BZ)** Bronze

See Safety Note on page 55

CAST ALUMINUM FITTERS

4Kv Medium Base Porcelain Socket
Specify Option: (MG) Mogul Socket

1784
Style A Cast Fitter for Globes & Acorns with 8" Neck
H = 11", W = 10 1/4", I.D. = 3"

1785
Style B Fitter for Globes & Acorns with 8" Neck
H = 10 1/2", W = 10 1/4", I.D. = 3"

Powdercoated Finish - **SPECIFY: (BK)** Black, **(BZ)** Bronze or **(WH)** White

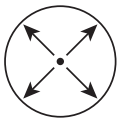
REFRACTORS

1000135
for Mogul Base Socket, Type V Distribution
H = 6 5/8", Dia. = 6 1/8", Top I.D. = 5 1/4", Bottom I.D. = 3 1/4"

Type III

1000137
for Mogul Base Socket, Type III Distribution
H = 6 5/8", Dia. = 6 1/8", Top I.D. = 5 1/4", Bottom I.D. = 3 1/4"

Type V



1000138
for Medium Base Socket, Type V Distribution
H = 4 7/8", Dia. = 4 3/4", Top I.D. = 4", Bottom I.D. = 3"

CAST ALUMINUM DECORATIVE BASE COVERS

FOR MOST 3" DIAMETER POSTS

FOR MOST 4" DIAMETER POSTS

Decorative Base Covers come as a two piece system, and can be installed over existing Surface Mounted Posts. **3BC9** and **4BC9** are one piece system.

3BC1
Dia.: 13 1/8"
Height: 24 1/8"

3BC2
Dia.: 11 1/2"
