 **VEOLIA**  
ENVIRONMENTAL  
SERVICES

TECHNICAL SOLUTIONS

Dear Valued Veolia Customer:

For nearly 15 years, the men and women of Veolia have been working hard to develop and implement cost-effective recycling solutions for large and small quantities of lighting and electronic waste with our RecyclePak® program. What started out as a few products being sold to one customer, our RecyclePak® product line has grown into arguably the best selling prepaid universal waste recycling product in the market.

As one of the world's largest environmental companies, Veolia's work touches nearly every part of the environment. Our solutions are designed to strike a balance between development of human activities and environmental protection. Customers like you expect innovative, safe, compliant and cost-effective solutions to your environmental challenges. We hear you...loud and clear.

Many of our customers are long-standing because they trust that Veolia constantly invests in its people, new technologies, facilities and service capabilities to improve their performance and compliance. We've upheld this promise. In addition to the numerous new products you will find in this catalog, Veolia recently opened a new 35,000 square foot facility dedicated to the manufacturing and distribution of those products as well as opening a state-of-the-art recycling facility in Massachusetts that will increase our capacity of recycling fluorescent lamps over 50%.

Our commitment to our original goal remains un-waivered. With our latest development in this direction, we are pleased to introduce our new PAK Recycling and Disposal Catalog, which makes available our newest, improved and innovative products. This catalog not only includes all of our award-winning RecyclePak® products for recycling universal waste, but also includes products for regulated medical waste as well as environmental supplies, including poly pails, boxes, liners, spill kits and much more.

I invite you to give our products a try or perform a full risk-management review on us. Inspect our permits, operating procedures and regulatory compliance history. I am confident you will like what you see. That's what we call **Compliance with Confidence®**.

"Creative solutions for our environment" is Veolia's commitment to its customers. We are happy to see that our customers maintain long relationships with us and consistently refer us to their friends and colleagues. We hope you enjoy the catalog. If, by chance, you have a need not listed in this catalog, please give us a call. We'd be happy to help develop a custom recycling solution around you.

Thank you for your business and continuous support.

Scott Thibodeau

## RECYCLING MADE EASY WITH RECYCLEPAK®

RecyclePak® makes recycling easy. The prepaid recycling program ensures complete compliance while reducing the risk of contamination by storing hazardous materials at your facility. When the container is full, simply ship it out, it's prepaid!

One price includes everything you need to begin recycling -- packaging, prepaid freight from your facility, processing and certificates of recycling. Best of all recycling is provided by the largest environmental services' company in the world. This offers you the most liability protection!
