Wire Connector Brochure

**IDEAL Connectors
are available in:**

Box: For smaller jobs.

Store ´N Pour™ Jar:
Easy-pour design
keeps connectors
clean and your shelf
organised.

Connector Kits: These re-usable divider boxes
contain a selection of our most popular wiring
connectors.

Point of Sale Merchandisers: Keep a look out
for one of our eye-catching merchandisers at
your local electrical trade counter.

CONTENTS:

IDEAL Wire Connectors

Our comprehensive range contains the connectors you need for an easier, more efficient job. That's why day in and day out, professionals like you are choosing

IDEAL. THE BRAND ELECTRICIANS TRUST.

IDEAL connectors provide safe, dependable solutions for every wiring application.

Designed to exacting European safety standards and fully compliant with UK Wiring Regulations, IDEAL manufactures a connector that's right for every job.

For over 95 years, IDEAL INDUSTRIES has been supplying quality electrical products to professional installers around the world.

IDEAL ®

Wire Connectors

For ultimate comfort and optimum wire range

When you've got an installation where you'll be making connections all day, the Twister® PRO is the connector you want. The SureGrip™ design ensures improved torque while the comfortable swept wings ease hand fatigue. You'll feel the difference immediately.
Patented SureGrip™ overmoulding provides improved leverage and more torque
Better grip and more leverage for faster connections

Accepts solid and stranded wires

Exceptional wire range and capacity; up to max. 4 x 4.0 mm²

Min. 3 x 0.5 mm²
Max. 4 x 4.0 mm²

FAST FACT:

A patented square wire spring bites on the first 360° turn ensuring a secure connection that will not relax over time.

BS 7671:2008 (17th Edition) Compliant   C E

Made in U.S.A.
of U.S. and global components

The No. 1 wiring connector

The Twister® easily handles the most common wiring tasks. A patented, expanding square-wire spring always ensures a quick, safe connection.

A cost-effective solution, the Model 341 Twister® connector accepts both stranded and solid wire from 0.5 mm² up to 6.0 mm² allowing one connector to do the job traditionally done by separate 5A, 15A and 30A terminal blocks.
105°C flame retardancy rating to UL 94V-2

Durable polypropylene shell expands for progressive tightening, a feature that ensures dependable connections
Swept-wing design for improved comfort

Accepts solid and stranded wires

Twister®

FAST FACT:

The small profile of the Model 340 Twister® means it easily fits inside standard connector enclosures.

Connected and protected

Designed specifically for above ground, interior/exterior connections exposed to damp/wet and corrosive environments. WeatherProof™ connectors are pre-filled with a non-hardening, silicone-based sealant that protects against moisture and corrosion.

**Easy to apply, pre-filled twist-on wire connectors**

Swept wing design is built for comfort and efficiency

UL Listed to 486D/IP55 for use in damp or wet above-ground locations

WeatherProof™

FAST FACT:

The silicone-based sealant protects electrical connections, eliminating the need for heat-shrink or water-proof enclosures in many applications.

Strip, Push, Connect. The fastest way to make a connection

The In-Sure™ Push-In wire connector can reduce installation time by up to 50% compared to more traditional connection methods such as terminal blocks. In-Sure™ connectors are the perfect replacement for crimped splices. In addition the most popular 2, 3 & 4 port models are rated to 32 Amps.
The fastest, easiest, push-in connector on the market.
Clear shell allows visual inspection of the connection

Test port for continuity testing

Push-in design reduces repetitive motion fatigue

2 to 8 wire connections for 0.75mm² - 4.0mm² solid and 1.5 mm² - 2.5 mm² stranded conductors

In-Sure™

FAST FACT:

The In-Sure™ Push-In has a low insertion force for fast, easy connections. Great for junction boxes.

Made in U.S.A.

A great alternative to the butt-splice

The SpliceLine™ in-line wire connector provides a crimp-free, solderless butt-splice. BS 7671:2008 (17th Edition) compliant, the two-port model accepts up to 4.0 mm^2 solid copper wire, allowing one connector to do the job of multiple butt-splices. Its end-to-end connection is also a great solution for pre-fab operations.

Transparent polycarbonate shell allows for visual inspection of connection

Slim design easily fits through holes in metal back boxes

Slim design easily fits through back box knockouts

Check port for continuity testing

SpliceLine™
IN-LINE WIRE CONNECTORS

FAST FACT:

Perfect for lengthening short wires, the SpliceLine™ is 3X faster than traditional butt-splices.

Maximum performance for data and telecom networks

Designed for low voltage telecommunications cables, IDC connectors (Jelly Beans) provide a simple, economical and reliable means of jointing solid copper wires. They do not require the insulation to be stripped, making the connection quick and easy.

IDEAL's range of RJ-11 and RJ-45 modular plugs can be used with your choice of cabling and are capable of supporting the latest ISO and EIA/TIA cable system performance categories. Compatible with standard crimp tools all plugs work with 0.2 mm^2 (24 AWG) solid or stranded conductors and round or flat cables.

CAT 6 / ISO Class E RJ-45 Modular Plugs complete the line and are designed for high speed applications. The unique 3-piece design features wire management components to maintain the cable integrity, helping to ensure optimal performance and easy installation.

Insulation Displacement Connectors (IDC)

Moisture-resistant sealant protects wires from corrosion. Use with solid copper single-conductor wire

CAT 6 RJ-45 Modular Plugs

Crimps with a standard RJ-45 crimp die. 50 micron gold contacts, 8-position, 8-contact. Suitable for solid or stranded conductors – 0.26mm^2 – 0.33mm^2

PLUGS & CONNECTORS

Satellite and CATV drops made easy

Compression F-Connectors are replacing crimp and screw-on style connectors thanks to their ease of installation and superior performance. The RTQ™ range features a nickel-plated brass construction for superior corrossion resistance and are suitable for indoor and outdoor use.
IDEAL also has a full range of compression tools that work with these and most other brands of compression connector.

RTQ™ F-Connectors

Suitable for use on PF100/ CT100/RG-6 & RG-6 Quad cable types. An inner O-ring provides a robust weather proof connection - indoors or outdoors.

NEW
Push-On F-Connector - RG-6

No compression or crimp tool required. Simply pushes on to stripped cable

NEW

NJX™ F-Connectors

High performance compression connectors for applications that do not require weatherproof connectivity.

Push-On

FAST FACT:

Push-On F-Connectors provide secure connections without the need for any tool.

Compression connectors for CCTV cameras, A/V equipment and instrumentation

Installing one-piece compression BNC and right angle connectors just got easier. No more uncertainty when inserting the cable into the connector.
No more collapsed centre pins. No more wasted connectors and rework time on the job.
With the patented InSITE™ technology feature, now standard on our BNC and right angle (90°) compression connectors, field termination of these blind entry connectors is simpler, faster and now provides a higher performance connection for all applications from CCTV to HD video.

NEW

INSITE™ BNC Connectors

Clear 360° window for confident cable insertions.
Nickel-plated, brass-construction for superior corrosion resistance.
Moisture-inhibiting design. 75 Ohm nominal impedance and gold-plated pin contact area.
Available in plenum versions

INSITE™

FAST FACT:

Insertion of the cable into the connector until the folded braiding is visible eliminates measuring, jacket marking and guesswork.
