Task / Linear Lighting

Energy-Efficient Under-Cabinet,
Workspace and Concealed Lighting
April 2016

CSL CREATIVE® SYSTEMS LIGHTING

CSL CREATIVE® SYSTEMS LIGHTING

The CSL Task/Linear Lighting lines continue to grow and provide solutions for undercabinet, workspace and concealed illumination needs.

With a variety of sizes, options, and light sources, our innovative undercabinet solutions can be installed wherever counter or workspace task lighting is needed. CSL's Task/Linear Lighting products reach beyond providing illumination by offering complete wiring, inter-connection and switching options.

CSL introduces edge-lit technology into its collection of Task Lighting solutions. This new lighting technology offers smoother LED illumination that reflects uniformly across the diffuser, providing a cost-saving LED light with no visible hot spots. Eco-Counter EdgeLit fixtures can easily be linked to illuminate a wide space using CSL's trademarked SpeedLink™ system.

* **XX** indicates two-letter finish code (**WT**, **SA** or **BZ**)

Fixture

- Integrated 120V system – no remote transformers or drivers
- Two color temperature options:
  - 2,700°K ± 50°K, 90CRI
  - 3,000°K ± 50°K, 90CRI
- 50,000 hour lamp life @ 70% lumen maintenance
- Incandescent and ELV dimmable
- Available in four lengths: 8", 16", 24", 32"
- Low profile – only ⅞" high
- No UV or infrared energy – objects will not discolor or fade over time
- SpeedLink™ system links a maximum of 600W
- On / Off switch
- Title 24 and EnergyStar certification pending
- UL/C-UL Listed for damp location

Housing/Heat Sink

- Extruded aluminum housing
- Cool operating temperature
- EdgeLit acrylic lens eliminates lamp image on surfaces
- See www.csllighting.com for current photometric data

Mounting

- Captive screws and SpeedLink™ technology (Hardwire, Portable, Linkable) make for quick installation. See pg 24 for SpeedLink™ options and desctiptions

Finishes

- **WT** White
- **SA** Satin Aluminum
- **BZ** Bronze

Wiring Modules

- ECL-MS controls multiple units from one switch. The Wiring Module / Switch may be connected to the end of the Eco-Counter Edge Lit fixture or mounted in a more convenient location and connected to the fixture with a SpeedLink interlink cable.

Fixture

- 120V portable/hardwire
- Warm LED color temperature:
  - 2,700°K ±100°K, 90 CRI
- 35,000-hour LED
- Dimmable with standard Incandescent dimmer (must meet minimum load of dimmer)
- Available in four lengths: 8", 16", 24", 32"
- 4.5W light engine per lamp
- SpeedLink system links a maximum of 600W
- UL/C-UL Listed for damp location

Housing/Heat Sink

- Metal construction
- Hinged, removable, UV coated, glass prismatic diffuser for maximum light distribution
- Trade-sized knockouts on back and top for through-wiring, wiremold, flex, Romex® or rigid conduit
- Internal connectors allow instant hardwiring without wire nuts
- On/Off switch

Mounting

- Captive screws and SpeedLink™ technology (Hardwire, Portable, Linkable) make for quick installation. See pg 24 for SpeedLink™ options and desctiptions

Finishes

- **WT** White

Fixture

- 120V hardwire and portable SpeedLink options
- Warm 120V, 35W Xenon, 2,900°K color temperature
- 9,000-hour lamp life
- Dimmable with standard Incandescent dimmer (must meet minimum load of dimmer)
- Available in five lengths: 8", 16", 24", 32", 40"
- SpeedLink system links a maximum of 600W
- Low profile – only 1½" high
- Linking and non-linking versions available
- On/Off switch
- UL/C-UL listed for damp location

Housing/Heat Sink

- Rolled steel, painted post manufacturing with molded plastic end caps
- Non-yellowing U.V-coated glass prismatic diffuser for maximum light distribution and U.V. protection
- Removable hinged diffuser for east and safe lamp replacement
- Patented cooling system provides longer lamp life than other models
- Repositioned cooling slots
- Trade-sized knockouts on back and top for through-wiring, Wiremold, flex, Romex, or rigid conduit

Mounting

- Installs easily with two easy-to-access captive screws
- Knockouts on ends (non-linking only), back and top for through-wiring, Wiremold, flex, Romex or rigid conduit

Finishes

- **WT** White
- **SS** Stainless Steel
- **BZ** Bronze

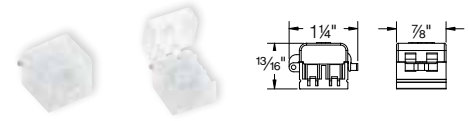
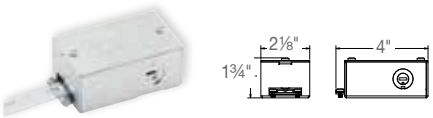
- 10 AWG max.
- Clear, high-grade polycarbonate
- Snaps into INV4STE, INV4WWE, INV4CE



INVPW1	Terminal Block with Cover
INVPW1-10	Terminal Block with Cover, 10-pack

End-Feed Wiring Compartment

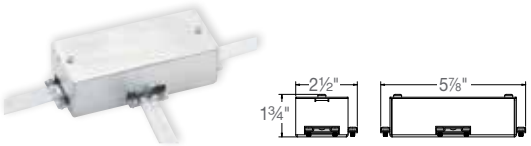
4"l x 28"w x 1¾"h
- Joins connection from transformer to Eco-Invizlite cable within box at start of run
- 16-gauge galvanized steel
- Meets UL2108 UL Codes



INVWC1	End-Feed Wiring Compartment

Metal Three-Way Wiring Compartment

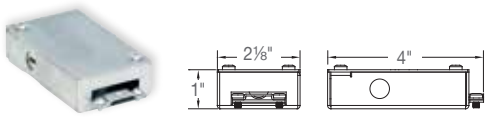
5⅞"l x 2½"w x 1¾"h
- Multi-use wiring compartment for start of run, or for "L" or "T" connection within run
- 16-gauge galvanized steel
- Meets UL2108 UL Codes



INVWC2	Metal Three-Way Wiring Compartment

Low-Profile Wiring Compartment

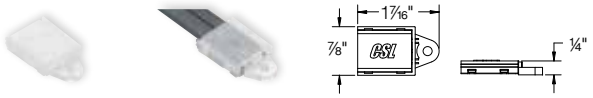
4"l x 2⅛"w x 1"h
- Joins connection from transformer to Eco-Invizlite cable within box at start of run
- 16-gauge galvanized steel
- Low-profile, 1" high
- Meets UL2108 UL Codes



INVWC3	Low-Profile Wiring Compartment

Dead End Cap

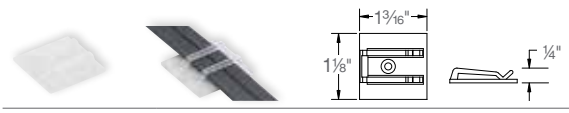
1⁷⁄16"l x ⅞"w x ¼"h
- Dead end termination
- Snaps over end of cable without tools
- Double-sided tape and mounting ear with screw included for installation
- Clear, high-grade polycarbonate
- Snaps into INV4STE, INV4WWE, INV4CE



INVDE1	Dead End Cap
INVDE1-10	Dead End Cap, 10-pack

Cable Clip

1⁷⁄16"l x 1⅛"w x ¼"h
- Secures cable to surface between sockets set far apart
- Installs with pre-attached, double-sided tape, or screws down through pre-drilled screw hole
- Clear, high-grade polycarbonate



INVCL-10	Cable Clip, 10-pack
INVCL-100	Cable Clip, 100-pack
