FILL MATERIAL	ATTRIBUTES	APPLICATIONS	PRODUCTS
Horsehair	Durable, Scratch Free, Water & Moisture Resistant	Fine Sweeping on Smooth Surfaces. Not for use on Oily or Wet Surfaces.	Push Brooms Counter Dusters Radiator Brushes
Nylon	Synthetic - Durable, resistant to most acids and alkalis. Can be used near high temperatures.	Long wear makes nylon best suited for scrubbing and cleaning applications. Will soften in water.	Pot Brushes Spotting Brushes Scrubbing Brushes
Polypropylene	Synthetic - Durable, long life and is resistant to acid and fungus.	Excellent in dry or wet applications. Will not soften in water.	Street Brooms Push Brooms Upright Brooms Scrub Brushes
Polystyrene	Synthetic - Extremely durable synthetic, oil & liquid resistant, but not for use with sweeping compounds.	Flagged synthetic is great on smooth surfaces. Flagged tips allow more fine dust retention.	Push Brooms Truck Wash Brooms Counter Dusters
Tampico	Natural - Durable plant fiber that is heat, alkali & acid resistant.	Durable for sweeping, scrubbing and washing applications.	Push Brooms Counter Dusters Radiator Brushes Scrub Brushes Roof Brushes Masonry Brushes

PHENOSEAL®

does it clear!

Styrene Acrylic Water-based Sealant

Acrylic Latex Adhesive Caulk is a water-based caulk ideal for use wherever an invisible seal is desired. It provides the durability, flexibility and adhesion properties of a silicone or solvent-based clear without the odor or messy clean-up. It can be used for a wide variety of interior and exterior applications. It provides a weatherproof seal by preventing air and moisture from passing through cracks and joints.

Does It Clear!™ won't crack or discolor with age and may be scrubbed with most household cleansers. It provides maximum protection from moisture damage and mildew growth when cured. And it cleans up easily with soap and water. Plus it comes with a lifetime guarantee.

Ideal for caulking and sealing around:

- Tub/shower surrounds
- Vanities, bath fixtures, tiles
- Window & Door perimeters
- Siding & Trim
- Vents, ducts, pipes
- Sinks, countertops, backsplashes
- Toilets
- Boat and marine upkeep (only above waterline)
- Baseboards & Molding
- Thresholds

Adheres to:

- Ceramic tile
- Glass
- Marble
- Vinyl
- Laminate
- Fiberglass
- Wood
- Wallboard
- Porcelain
- Metal
- Plastic
- Concrete & Masonry

RED END PLUMBER'S

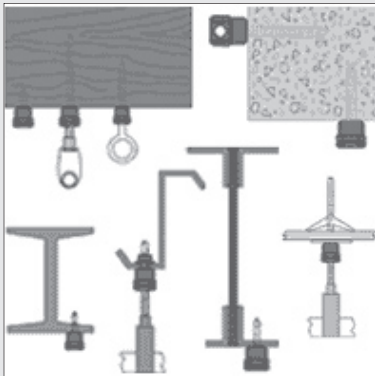

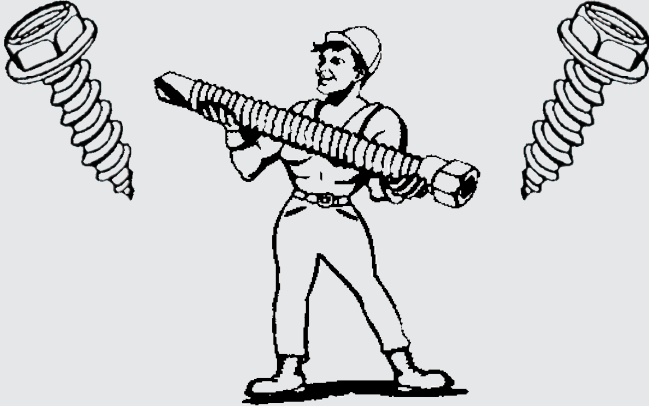

Used for working with 45° elbows to eliminate figuring.
Graduated one side, in black, inches to 1/16ths upper edges.
Other side in red, 45° scale inches to 1/16ths upper edge only.
Turning rule from black to red gives the corresponding 45° elbow measurement.

Example: Sketch at right shows 10" 45° offset; by turning rule at 10" graduation on standard inch side red graduation directly opposite indicates center-to-center fittings to be 14 1/8". Actual pipe length varies as allowances must be made for type of pipe and fitting used. All other size offsets are calculated in same manner. Where offset is longer than length of rule, add 45° scale measurement of extra distance to last scale on rule (101-13/16).

CARBIDE HOLE CUTTERS

If you're using a knock-out punch, you're wasting your time.

Do the job in seconds, not minutes - and save time with every accurate, burr-free hole. A built-in over-drill stopper means our Hole Cutter never crashes into work or damages the work piece. With a split-point pilot drill bit, you get fast penetration without walking - even in tough materials like stainless steel. No wrench required.
