

Quality Task Lighting from Vermont  
2015

Tucked into the northern Vermont hills, just down the road from the picturesque ski village of Stowe, House of Troy has been producing classic lighting since the mid 1940's. Though off the beaten path and far from the spotlights of the big cities, our reputation burns brightly. For nearly seventy years, House of Troy has offered lighting known for its craftsmanship and quality.

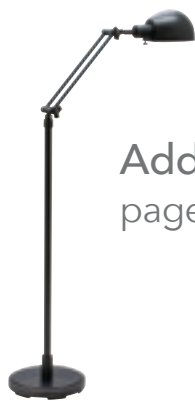

We began as metal workers, making products to illuminate fine art work. Over the years we expanded our line to include floor lamps, table lamps and wall lamps. We design our products around a light source creating fine task lamps which suit a need.

In 2013 we purchased Scatchard Stoneware and opened our pottery in Hyde Park Vermont. Using a high fire reduction process and proprietary glazes, we now offer decorative lamps with beautiful deep finishes that will stand the test of time.

# Scatchard Stoneware Collection

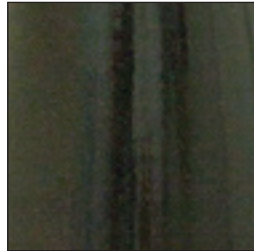

*Scatchard stoneware lamps are fired at 2300° for over 24 hours to create a durable surface and depth to the various glazes used in finishing. All are made in our VT pottery studio.*

# Stoneware Glazes

*The proprietary mix of clay and custom glazes, developed by George Scatchard through years of experimentation, in combination with the high fire reduction process creates a highly durable and beautiful stoneware product. Glazes are hand applied and may vary from lamp to lamp.*

# Product Finishes

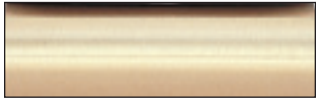

*Please refer to this section for color representations of finish. Stocked finishes are listed on specific product pages. If you would like a finish on a Vermont made product that is not stocked, call our customer service department for lead time and cost.*

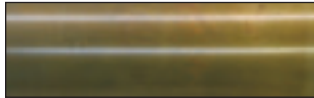

Polished Brass #61

Statuary Bronze #56

Satin Brass #51

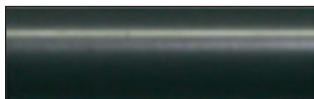

Weathered Brass #76

## Metallic Finishes:

We use the highest quality solid brass from which we hand cut our shades. Our **#61 Polished Brass** finish is then polished and buffed giving it a reflective quality. A coat of clear lacquer is then applied to protect and seal the finish for a lifetime of use. **#51 Satin Brass** is a matte, burnished brass, finished in a flat protective lacquer. For our **#56 Statuary Bronze** and **#76 Weathered Brass**, we use a translucent lacquer to give tone to the metal substrate.

Antique Brass #71

Oil Rubbed Bronze #91

## Hand Rubbed Patinas:

Our finish patinas are achieved by coloring solid brass with an application of acid oxide. **#71 Antique Brass** is an oxidized finish, darkened, then partially rubbed away, leaving dark highlights throughout. **#91 Oil Rubbed Bronze** is our darkest oxidized finish, its rich metallic tones are an industry standard. Our oxidized finishes are protected with a finish coat of matte lacquer. Oxidized finishes will have slight surface variations which are expected and desirable.

Gold #1

Pewter #31

Bronze #5

Mahogany Bronze #81

## Smooth Painted Finishes:

Our picture lights are of museum quality and we have developed painted finishes that most suit the frames they will highlight. All of our painted finishes are opaque. **#1 Gold**, our most popular picture light finish, has the look of pale gold leaf. **#5 Bronze**, is a rich, milk chocolate hue. **#31 Pewter** is a matte gray, gun metal finish. **#81 Mahogany Bronze** is a deep shade of brown, our darkest bronze painted finish.

# Product Finishes

Black #7

Chestnut Bronze (CHB)

White #9

Granite (GT)

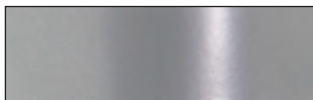

ABZ Architectural Bronze

BS Bittersweet

NB Navy Blue

PG Platinum Gray

## Powder Coated Finishes:

**#7 Black** and **#9 White** are a matte powder-coated finish. Our **CHB Chestnut Bronze** and **GT Granite** powder coats are textured, while **ABZ Architectural Bronze**, **BS Bittersweet**, **NB Navy Blue**, and **PG Platinum Gray** are glossy. The powder coating will ensure a lifetime of use, free from scratching and marring.

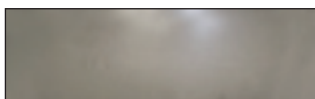

Chrome #62

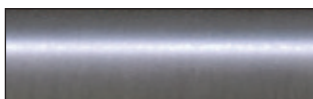

Satin Nickel #52

## Plated Finishes:

Our two plated finishes give our classic shades a more contemporary feel. As well as protecting them from surface marring. **#62 Chrome** has a highly polished, mirror-like appearance, while our **#52 Satin Nickel** is burnished after plating for a softer, matte finish.

Satin Pewter (SP)

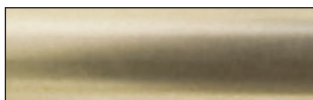

Antique Silver (AS)

Polished Nickel (PN)

Polished Silver (PS)

Raw Brass (RB)

## Distributed Product Finishes Only:

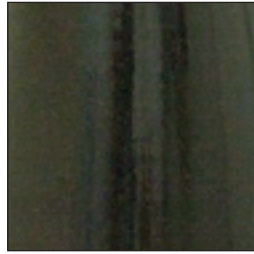

Several of the finishes in our line are only offered on products we distribute, thus they cannot be duplicated for custom applications. The **SP Satin Pewter**, **AS Antique Silver**, **PN Polished Nickel**, **PS Polished Silver** and **RB Raw Brass** are all available on products as shown only.

# Stoneware Glazes

*The proprietary mix of clay and custom glazes, developed by George Scatchard through years of experimentation, in combination with the high fire reduction process creates a highly durable and beautiful stoneware product. Glazes are hand applied and may vary from lamp to lamp.*

# Custom Direct Mount Lighting

## Customizing House of Troy Picture Lights.

We are often asked for custom versions of existing products, especially picture lights. Picture Lights are easily adapted to lighting book cases and display areas. We have developed hardware to mount through any hard surface. These products are designed as cord and plug items and will require a receptacle to plug them into behind the soffit. Call our Customer Service department at 800-428-5367 for assistance in designing your direct mount product.

CD-T24-81

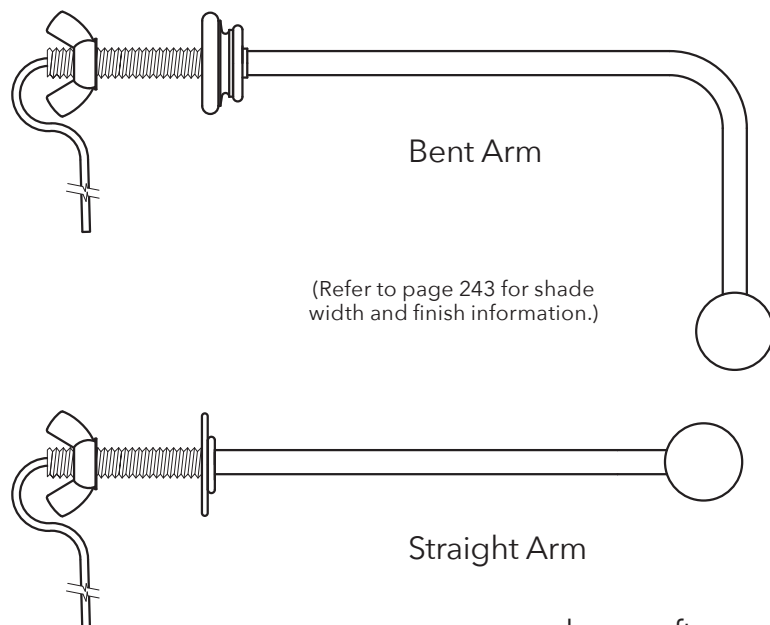

CD-SL16-51

Illuminate bookshelves with our Slim-line Library Lighting. The slim lamp profile is designed for interiors where reduced lamp visibility is desired.

## Slim-line™ Styles

Mounting Options

Arm Styles

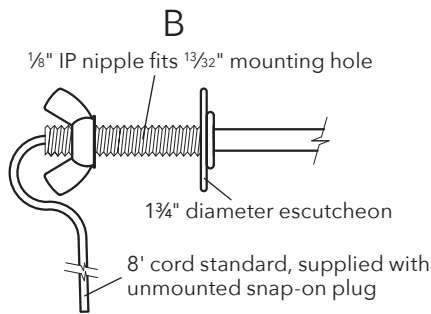

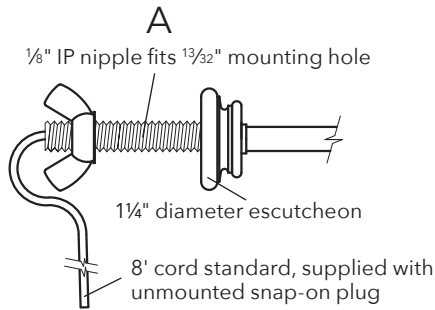

CD-DL10 -OB

Classic style lamps are an effective way to enhance traditional decor in either a residential or commercial setting.

(Refer to page 137 for shade width and finish options.)

# Questions & Answers

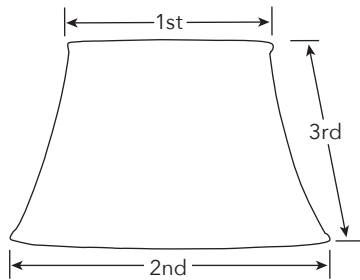

The following are answers to some of the most frequently asked questions about our products which should assist with your selection process.

**Q. How do you measure the extension of a swing arm?**

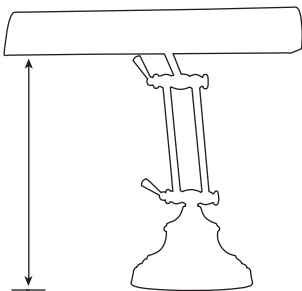

**Q. How are lamp shades dimensioned in the catalog?**

A. Top x Bottom x Side (slant).

**Q. How do you measure the height of a Desk/Piano Lamp?**

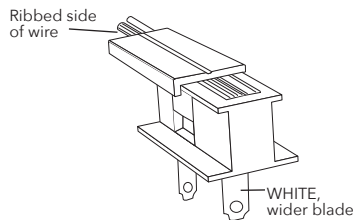

**Q. What size picture light should I use?**

A. Measure the width of the image and use a Classic picture light approximately one half the size, or a Slim-line picture light approximately two thirds the size of the image.

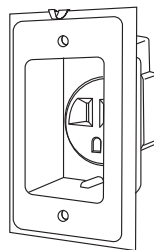

**Q. Can I modify a cord length and add a polarized plug?**

A. Yes. We offer a UL approved snap-on-plug that can be attached to any standard UL approved SPT-2 cord. Instructions are included with plug.

**Q. Is there a way to eliminate seeing the cord?**

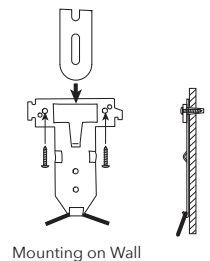

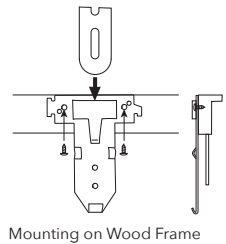

- Install a recessed outlet (sometimes called a "clock outlet") behind the artwork.

- Use a Cord Cover.
- Paint the cord to match the wall color.
- Place furniture, plants or other décor to hide cord.

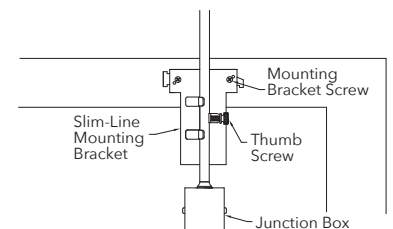

**Q. How do you install a picture light?**

A. All House of Troy picture lights come with mounting hardware and may be attached to either the picture frame or the wall. The only tools necessary are a screw driver and something to start a screw-hole, such as a small nail or awl.

**Q. How do you install a Slim-line Picture Light?**

A. Snap the Picture Light arms into the Mounting Brackets. This will take a bit of force, but will not damage the arms. Slide the arms up or down to attain the desired shade location in relation to the frame.
