Custom Painted Stainless Steel Enclosures

New Part numbers have been created for custom painted stainless steel enclosures. These part number will add the necessary hanging hole to the doors of all enclosure models and drainage holes in the FS, FSD, FSDA, FSDAD, XM and XD enclosures. Hole seals will be included for the drainage holes to maintain the UL rating of the enclosure.

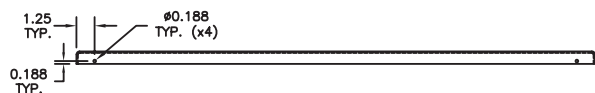

Appropriate Paint Set-up Fee and adders will be added to the list price of these enclosures.

Paint Level	Set-up Fee per Color
1	\$75
2	\$150
3	\$200
4	\$300

New Part Numbers have a C added to the end: SCE-12EL2406SSLPC

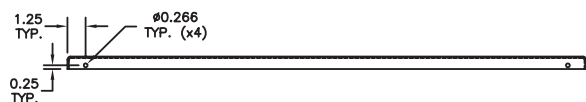

Paint Line Hanging Holes in Doors

SCE CONCEALED HINGE DOOR < 60" IN HEIGHT

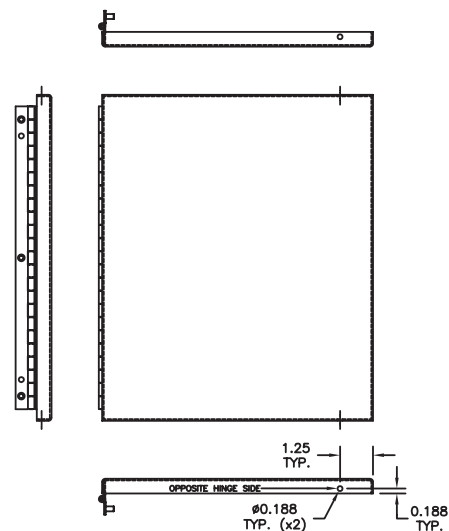

HOLES IN BOTH TOP & BOTTOM OF DOOR

SCE CONCEALED HINGE DOOR ≥ 60" IN HEIGHT

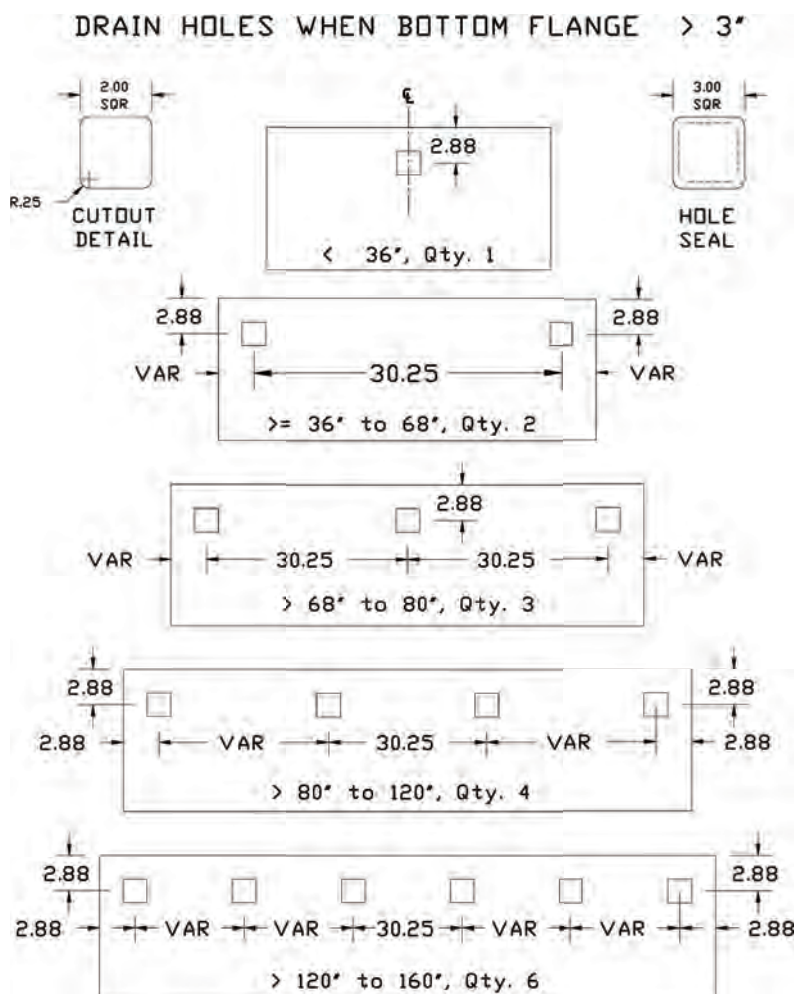

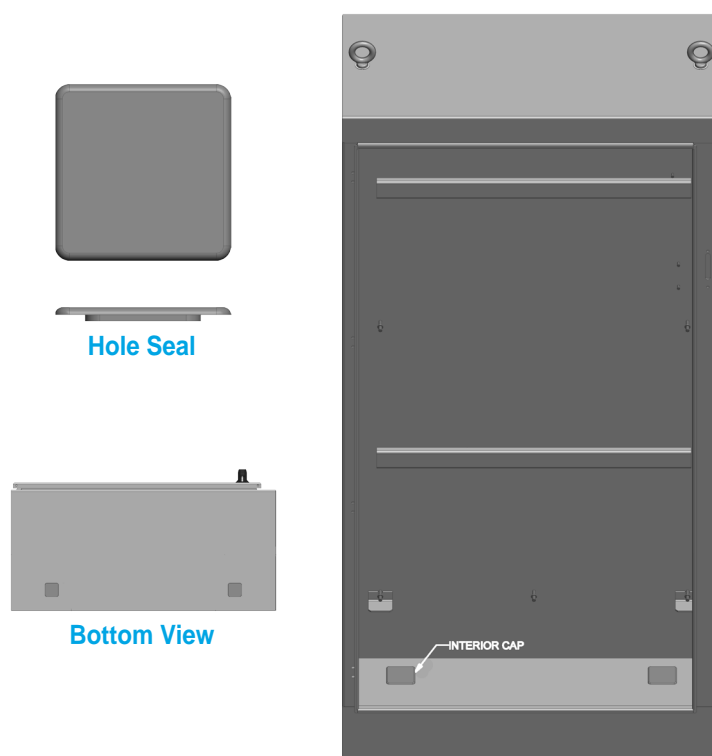

HOLES IN BOTH TOP & BOTTOM OF DOOR

REVISION**PUSHBUTTON ENCLOSURE MOUNTING STRAPS**

Ref. Page 40–53 & 198–205 of the 13th Edition Catalog

The New PB Mounting Strap design will have elongated mounting holes.

- Still supports the previous mounting pattern version for installation on pre-existing equipment
- Creates consistency throughout product lines – PB, PBH and CH enclosures
- Allows more Flexibility in enclosure installation

As inventory is depleted,
replenishments will be the new style
(starting in April 2016)

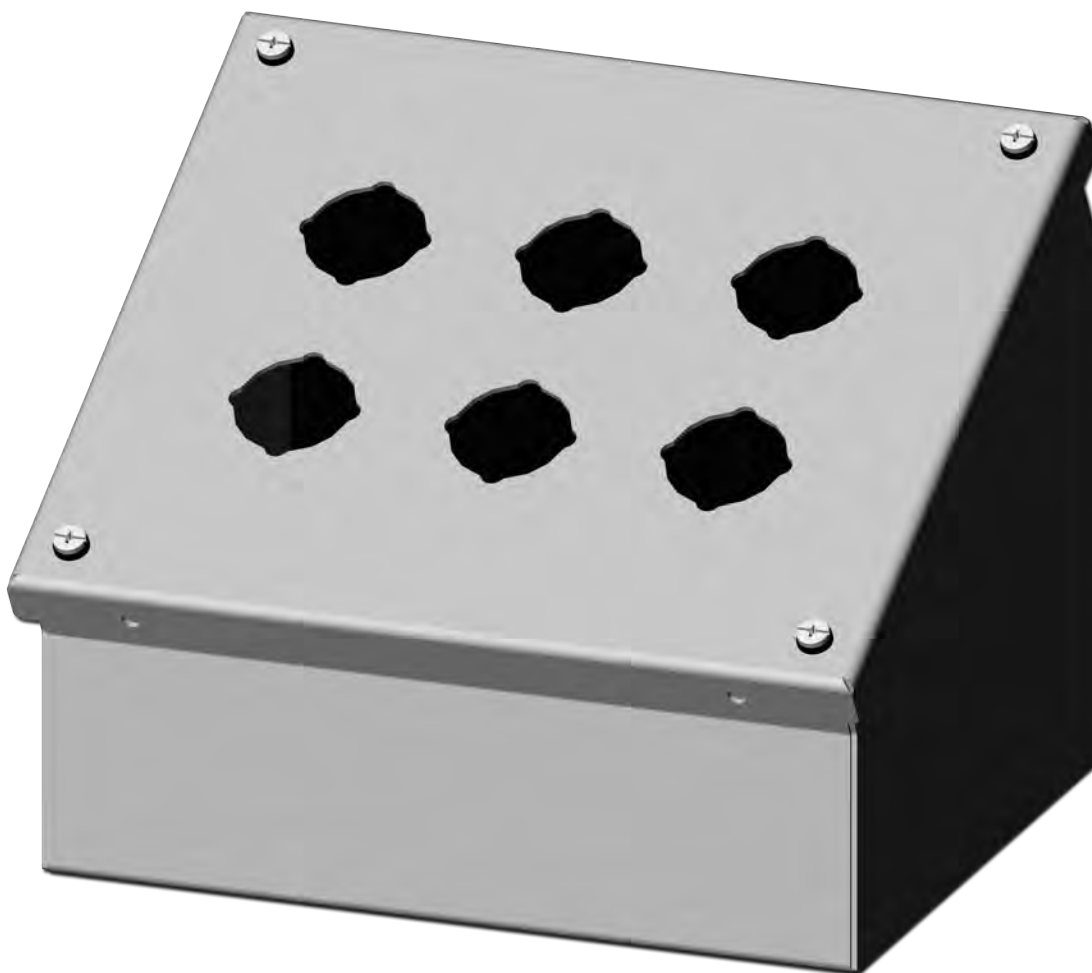

REVISION**SLOPING FRONT PUSHBUTTON ENCLOSURES**

Ref. Page 54-57 of the 13th Edition Catalog

The New PBA/PBAI design will include ELJ Mounting Feet and bolt pack in place of the mounting strap. Provisions for subpanel provided in enclosures larger than SCE-4PBA.

***Builds greater than 2545902 (12/11/2015)
will be the new style**

TECHNICAL DATA

VIEW A-A

NOTE:
* $B - .50$ [12,7] ONE COLUMN OF PUSHBUTTONS

STANDARD 4-WAY

Sloping Front 30.5 mm Pushbutton Enclosures

Application -

Designed to offer protection for all standard brands of oil-tight pushbuttons, switches, and pilot lights where slanted surfaces are desired. It offers protection from dust, dirt, oil and water. For installation information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

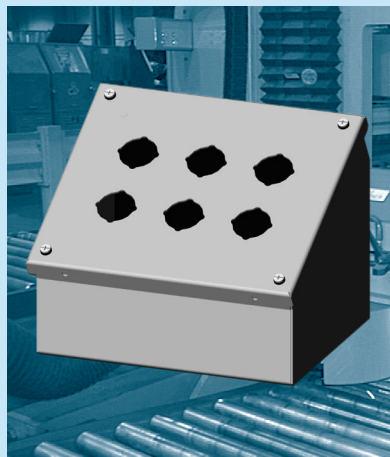

- 0.063" carbon steel.
- Continuously welded seams.
- Captivated cover screws thread into sealed wells.
- 4-way standard pushbutton holes accept all brands of oil-tight pushbuttons, switches, and pilot lights. Hole diameter is 1.20" (30.5mm).
- Immediate removal of cover is still permitted.
- Oil-resistant door gasket.
- Mounting feet included.

Finish -

ANSI-61 Gray powder coat inside and out. Optional sub-panels are powder coated white.

Continuous Hinge Enclosures

Application -

Designed to offer protection for all standard brands of oil-tight pushbuttons, switches, and pilot lights where slanted surfaces are desired. It offers protection from dust, dirt, oil and water. For installation information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

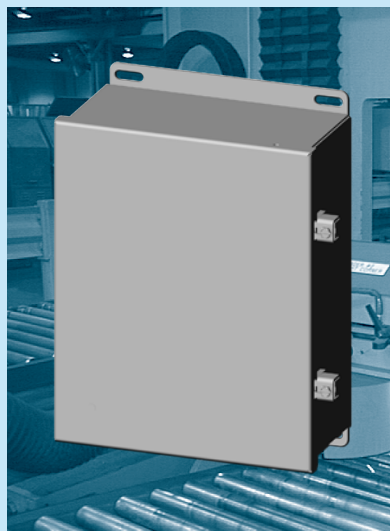

- 0.063" carbon steel.
- Seams continuously weled and ground smooth, no holes or knockouts.
- Continuous hinge with stainless steel pin.
- Stainless steel external screw clamps are quick and easy to operate.
- Oil resistant gasket.
- Standoffs provided for mounting optional sub-panels.
- Ground stud on door and body.

Finish -

ANSI-61 Gray powder coat inside and out. Optional sub-panels are powder coated white.

304 & 316 Stainless Steel Continuous Hinge Enclosures

Application -

Designed to offer protection for all standard brands of oil-tight pushbuttons, switches, and pilot lights where slanted surfaces are desired. It offers protection from dust, dirt, oil and water. For installation information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

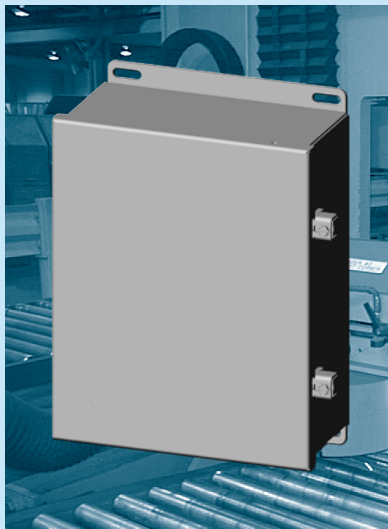

- 0.075" stainless steel Type 304 & 316/316L.
- Seams continuously weled and ground smooth.
- Stainless steel continuous hinge.
- Stainless steel external screw clamps are quick and easy to operate.
- Oil resistant gasket.
- Standoffs provided for mounting optional sub-panels.
- Ground stud on door and body.

Finish -

#4 brushed finish on all exterior surfaces. Optional sub-panels are powder coated white.

Enviroline® Series Wall-Mount Enclosures with 3-Point Hardware

Application -

Designed to house electrical and electronic controls, instrumentation and components in indoor or outdoor locations. For outdoor applications a drip shield is recommended. For installation information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

- 0.075" carbon steel.
- Seams continuously welded and ground smooth.
- Flange trough collar around all sides of door opening.
- Collar studs provided for mounting optional sub-panels.
- Mounting holes in back of the enclosure for wall mounting.
- Mounting hardware, sealing washers and hole plugs included.
- Concealed hinges.
- Removable and interchangeable doors.
- Black zinc die cast keylocking/padlocking handles.
- 3-point latching mechanism.
- Black quarter turn latches as required.
- Removable print pocket.
- Oil and water resistant gasket.
- Ground stud on door and body.

Finish -

ANSI-61 Gray powder coat inside and out. Optional sub-panels are powder coated white.

Enviroline® Series Free-Standing Two-Door Enclosures

Application -

Designed to house a variety of electrical and electronic controls and instruments. Provisions for optional surface mounting or rack mounting of almost any type of equipment. Provides protection from dust, dirt, water and oil. The enclosures are extra deep for applications requiring more interior space.

Construction -

- 0.104" carbon steel.
- Removable and interchangeable doors.
- Concealed hinge.
- Seams continuously welded and ground smooth.
- Strong, rigid construction with stiffeners welded on backs of single access boxes.
- Lifting eyes for easy handling.
- Black zinc die cast keylocking/padlocking handle.
- 3-point latching mechanism.
- Latch rods have ramp shoes for easier door closing.
- Flange trough collar around all sides of door opening.
- Removable center post.
- Removable print pocket provided on door with w-point latch.
- Mounting channels welded horizontally on sides of interior body at top, bottom and middle for mounting optional panels or rack mounting angles.
- Oil resistant gasket.
- Ground stud on door.
- Provisions for light kit.

Finish -

ANSI-61 gray finish Inside and outside. Optional sub-panels are powder coated white.

Accessories - See pages 116-123

SECTION A-A

XD Heavy Duty Free-Standing Enclosures with External Disconnects Installed

Application -

Designed to house the main power supply in external enclosure on the right side of main enclosure, keeping the live side of the power supply separate from the primary electrical equipment. Provides protection from dirt, dust, oil and water and can house most standard type disconnects. For Installation information consult our Installation Manual at www.saginawcontrol.com.

Construction -

- 0.125" carbon steel.
- Seams continuously welded and ground smooth.
- Flange trough collar around all sides of door opening.
- Body stiffeners in large enclosures for extra rigidity.
- Heavy duty lifting eyes anchor into reinforced top.
- Removable center posts permit easy panel installation.
- Concealed hinge.
- Black zinc diecast padlocking handles.
- 3-point latching mechanism.
- Large removable print pockets.
- Oil-resistant gasket.
- Removable panels mount on collar studs.
- Defeater on master door requires a screwdriver to open.
- Mechanical interlock activated by the External Disconnect prevents main door of the enclosure from being closed unless the EXD enclosure is first closed.
- Mechanical interlock activated by master door prevents slave doors from being opened first. Doors can be closed in any order.
- Ground stud on door and body.
- Provisions for light kit.

Disconnect switch (or circuit breaker) and operating mechanism are not furnished with enclosure.

Finish -

ANSI-61 gray powder coated inside and out. Sub-panels are powder coated white.

Heavy Duty Free-Standing Stainless Steel Enclosures For Flange-Mounted Disconnects

Application -

Designed to house electrical equipment and provide protection from dirt, dust, oil and water and to house most standard type disconnects. For installation information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

- 0.125" stainless steel Type 304.
- Seams continuously welded and ground smooth.
- Flange trough collar around all sides of door opening.
- Body stiffeners in large enclosures for extra rigidity.
- Heavy duty lifting eyes anchor into reinforced top.
- Removable center posts permit easy sub-panel installation.
- Stainless Steel concealed hinges.
- Black zinc die cast coinproof/padlocking handle on main door with black zinc die cast padlocking handle on slave doors.
- 3-point latching mechanism.
- Panel supports.
- Large removable print pockets.
- Oil-resistant gasket.
- Removable sub-panels mount on collar studs.
- Master door is far right-hand door on all enclosures.
- Defeater on master door requires a screwdriver to open.
- Mechanical interlock activated by master door prevents slave doors from being opened first. Doors can be closed in any order.
- Ground stud on door.

Disconnect switch (or circuit breaker) and operating mechanism are not furnished with enclosure.

Finish -

#4 brush finish on all exterior surfaces.
Sub-panels are powder coated white.

FREE-STANDING STAINLESS STEEL ENCLOSURES FOR FLANGE-MOUNTED DISCONNECTS

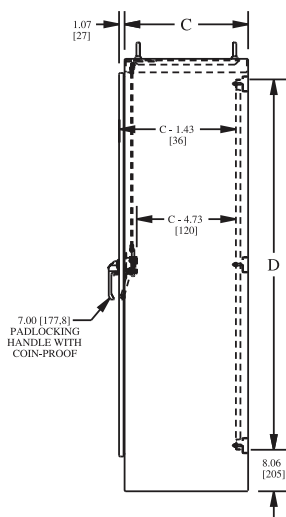

TECHNICAL DATA

FOUR-DOOR ENCLOSURE

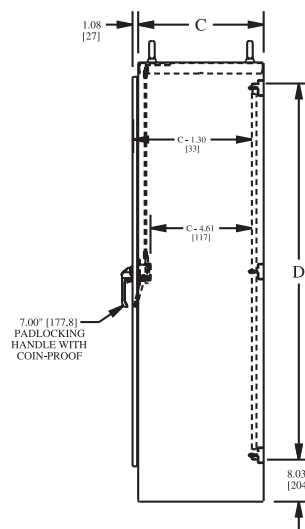

STANDARD DISCONNECTS:
 $F = 11.88$ [301,7] when $A = 72.00$ [1828,8]
 $F = 17.38$ [441,4] when $A = 84.00$ [2133,6]
 $F = 20.38$ [517,6] when $A = 90.00$ [228,6]

U TYPE (Universal) DISCONNECTS:
 $F = 17.63$ [447,8]

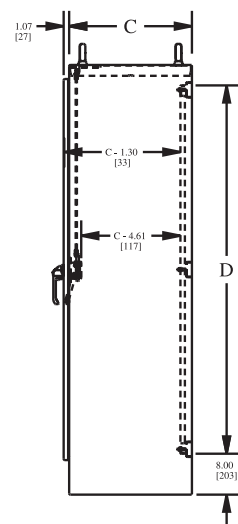

FIVE-DOOR ENCLOSURE

F = 17.63 [447,8]

SIX-DOOR ENCLOSURE

 $F = 17.63$ [447,8]

Stainless Steel Desk Consoles

Application -

Intended for indoor use to provide a degree of protection to personnel against access to hazardous parts also to provide a degree of protection for the equipment inside the enclosure against ingress of solid foreign objects and falling dirt, to provide a degree of protection with respect to harmful effects on the equipment due to the ingress of water, splashing water. Designed for use in a standing or sitting position with single and dual access and top that opens for easy accessibility. For installation information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

- 0.075" stainless steel Type 304 & 316/316L.
- Seams continuously welded and ground smooth.
- 25 Degree Sloped top.
- Door props on sloped door to hold in the open position.
- Oil and water resistant gasket.
- Flange trough collar around all sides of door opening.
- Concealed hinge.
- Removable doors.
- Removable print pocket.
- Ground studs on door and body.
- Rubber pads with provision for leveling pads on bottom of enclosure.
- Black, quarter turn latches on top door.
- Keylocking black 3-point flush swing handle in front door of single access, front and rear doors on dual access.
- Optional tamper-resistant inserts or padlocking handles are available.
- Mounting studs welded on interior back for mounting optional sub-panels on single access console.
- Mounting channels welded on sides of interior body for mounting optional sub-panels on dual access console.
- Mounting hardware included for (1) optional sub-panel.

Finish -

#4 brushed finish on all exterior surfaces. Optional sub-panels are powder coated white.

Skirt Panels

Application -

Designed for use with standard floor stand kits, to restrict access or conceal the area under the enclosure. Louvered skirts available to conceal transformers or other devices in this area while allowing air circulation. Heavy gauge construction. Each skirt panel will fit a range of enclosure widths. Installed by drilling holes in floor stand kit (not included). Skirt Kit includes two panels and mounting hardware. For technical information, consult our Installation Manual at www.saginawcontrol.com

Material -

- Carbon Steel, Powder Coated ANSI-61 Gray
- "SS" - Type 304 Stainless Steel, #4 Brushed Finish on all exterior surfaces

Industry Standards - (IS17)

SKIRT PANEL INSTALLATION INFORMATION

1. INSTALL LEG KIT ON ENCLOSURE.
2. CENTER SKIRT PANEL BETWEEN LEGS WITH THE SHORTER FLANGE ON TOP.
3. USING THE SKIRT PANEL AS A TEMPLATE, DRILL A # 7 HOLE, $\varnothing 0.201"$ AND TAP FOR A 1/4-20 SCREW.

ENVIRO-THERM® THERMAL MANAGEMENT

Air Conditioners

Enviro-Therm® Air Conditioners are designed with an internal closed loop system to provide protection from dust, oil and water. For indoor and outdoor application. Rugged, energy efficient, and reliable cooling system. For more details and Installation Information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

- Heavy gauge steel/stainless steel
- Internal components are corrosion resistant
- Coils are designed as filterless units, fin spacing and hydrophobic Nano coating to help reduce chance of clogging
- Washable, Reusable 8 layer aluminum mesh filters included
- Captive screw fastened filter cover
- Compressor Heater
- Enclosure Heater for low ambient temperatures
- Easy Mounting Flange hangers for installation included
- High temp alarm
- High performance ball bearing fans
- Door activated switch wiring provisions
- Cage clamp terminal connector

Electrical -

- cULus Listed
- CE
- Surge protected and EMI compliant - IEC61000 and CE requirement

Finish -

Powder coated steel cover RAL 7035 River Texture over Aluzinc coated steel.
SS units: #4 brushed finish 304 Stainless Steel cover and frame.

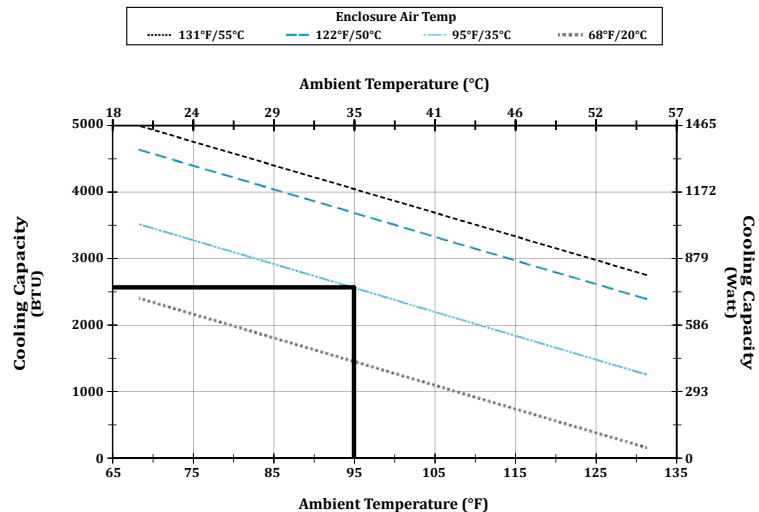

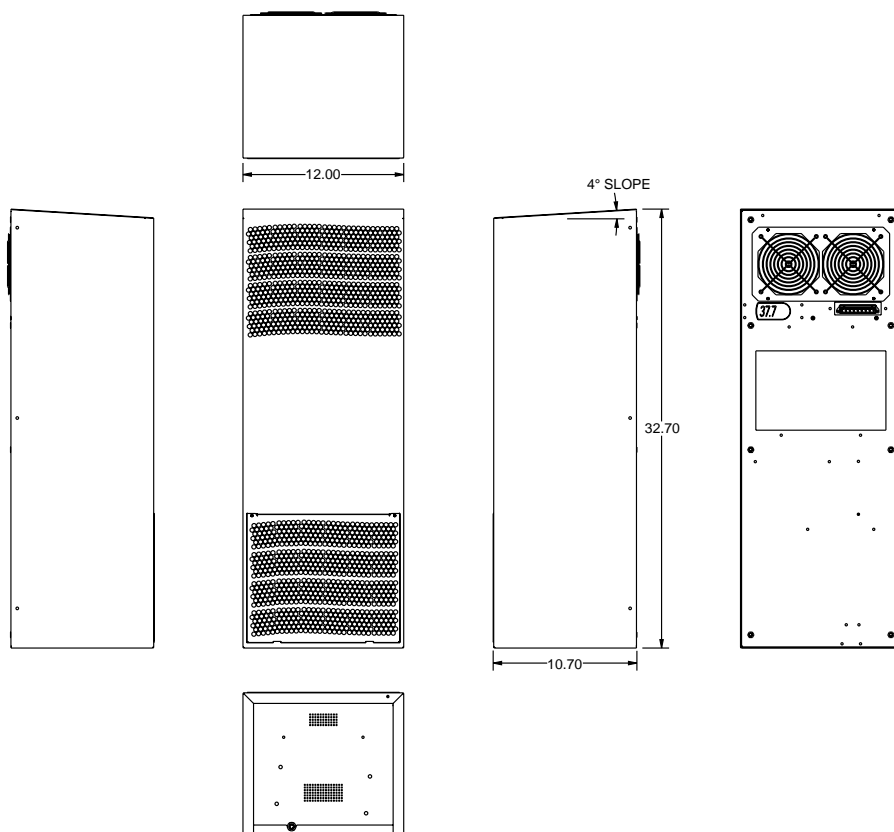

Figure 1: Mounting Pattern. This technical drawing shows a rectangular mounting pattern with overall dimensions of 12.00 inches in width and 32.70 inches in height. The pattern is divided into two main functional areas: an 'INTERNAL AIR INLET & ELECTRICAL CONNECTIONS' section at the top and an 'INTERNAL AIR OUTLET' section below it. The inlet section has a width of 10.43 inches and a height of 7.87 inches. The outlet section has a height of 9.25 inches. The pattern includes a mounting hole specified as $\phi .312 (x8)$. Various other dimensions are provided to define the internal layout and margins, such as 1.26, 7.09, 1.97, 6.30, and 16.09 inches. The bottom margin is .98 inches.

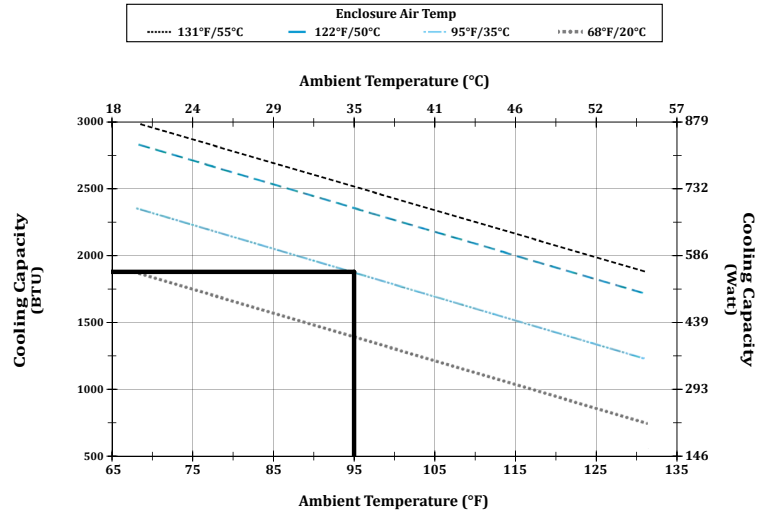

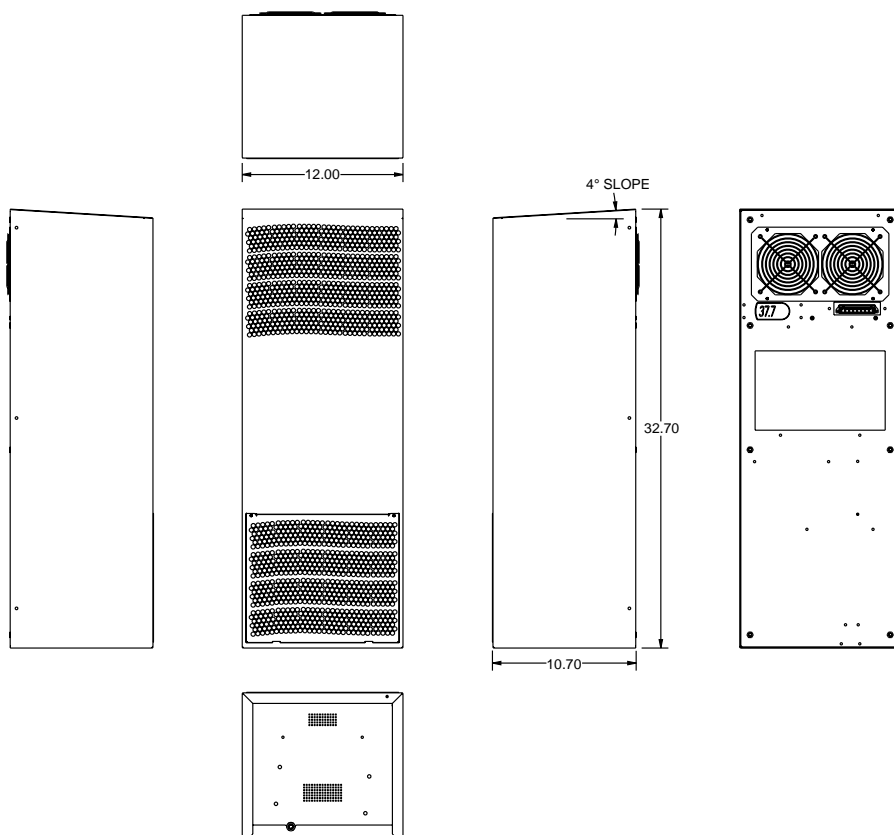

Figure 1: Mounting Pattern. The diagram shows a rectangular mounting pattern with the following dimensions and features:

- Overall Dimensions:**
 - Width: 12.00
 - Height: 32.70
- Internal Features and Dimensions:**
 - INTERNAL AIR INLET & ELECTRICAL CONNECTIONS:** Located at the top, with a width of 10.43 and a height of 7.09. It includes a top offset of .79 and a side offset of .47.
 - INTERNAL AIR OUTLET:** Located below the inlet section, with a height of 6.30.
 - Offsets and Spacing:**
 - Top offset from the inlet: 1.26
 - Offset between inlet and outlet: 1.97
 - Offset from the outlet to the bottom: 16.09
 - Left side offset from the bottom: 9.25
 - Bottom offset from the mounting pattern: .98
 - Mounting Pattern:** Indicated by a circle with a crosshair at the bottom left corner, with a dimension of $\phi .312$ (x8) for the mounting holes.

ENVIRO-THERM® THERMAL MANAGEMENT

Air Conditioners

Enviro-Therm® Air Conditioners are designed with an internal closed loop system to provide protection from dust, oil and water. For indoor and outdoor application. Rugged, energy efficient, and reliable cooling system. For more details and Installation Information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

- Heavy gauge steel/stainless steel
- Internal components are corrosion resistant
- Coils are designed as filterless units, fin spacing and hydrophobic Nano coating to help reduce chance of clogging
- Washable, Reusable 8 layer aluminum mesh filters included
- Captive screw fastened filter cover
- Compressor Heater
- Enclosure Heater for low ambient temperatures
- Easy Mounting Flange hangers for installation included
- High temp alarm
- High performance ball bearing fans
- Door activated switch wiring provisions
- Cage clamp terminal connector

Electrical -

- cULus Listed

ENVIRO-THERM® AIR CONDITIONERS
TECHNICAL DATA

MOUNTING PATTERN

ENVIRO-THERM® AIR CONDITIONERS

Powder coated steel cover RAL 7035 River Texture over Aluzinc coated steel

Type 4X units have #4 brushed finish 304 Stainless Steel cover and frame

Internal components are corrosion resistant

Closed Loop Cooling System

Hermitically sealed Reciprocating Compressor on units up to 5,100 BTU/hr

Hermitically sealed Rotary Compressor on units greater than 5,100 BTU/hr

Specially designed Active Condensate System using PTC heater element

Coils are designed as filterless units, fin spacing and Hydrophobic Nano Coating to help reduce chance of clogging

Washable, Reusable 8 layer aluminum mesh filters included

Captive screw fastened filter cover

Integrated compressor heater for low ambient temperatures and up to 2000 watts of enclosure heat

R134a Refrigerant – Chlorine-free and harmless to the environment

Easy Mounting Flange hangers for installation included

Digital Touchpad Programmable Controller, viewable and accessible from inside enclosure

Controller preset 95°F to cool – adjustable 68°F to 122°F

Preset at 41°F to heat – adjustable -4°F to 122°F

Temperature differential hysteresis 5.4°F

High temp alarm preset 131°F

High performance ball bearing fans

Door activated switch wiring provisions provided for easy installation

Cage clamp terminal connector

Enviro-Therm® Heat Exchangers

Enviro-Therm® Heat Exchangers are designed for High-Efficiency and High-Performance Air-to-Air Heat Transfer. Designed with an internal closed loop system to provide protection from dust, oil and water. For indoor and outdoor application. Rugged, energy efficient, and reliable cooling system. For more details and Installation Information, consult our Installation Manual at www.saginawcontrol.com.

Construction -

- Powder coated steel Cover RAL 7035 River Texture over Aluzinc coated steel
- Aluzinc coated steel internal parts
- Counter-flow core
- Filter-less design – low maintenance Counterflow heat exchangers are finless, reducing the chances of clogging, and are easy to clean
- Threaded mounting studs provided for simple installation
- Digital Touchpad Programmable Controller
- Controller preset 95°F to cool – adjustable 68°F to 122°F
- Temperature differential hysteresis 5.4°F
- High temp alarm preset 131°F
- High performance ball bearing fans
- Door activated switch wiring provisions provided for easy installation
- Cage clamp terminal connector
- Two-year warranty

SCE-HE24W120V

THERMAL MANAGEMENT

Breather Vent

Designed for indoor or outdoor applications to handle the large negative pressure differential caused in a tightly sealed enclosure in extreme weather conditions or wash down applications that draw water into the enclosure. Adding a Breather Vent will equalize this pressure differential. Installed on the side of your enclosure as a breather or installed on the bottom as a drain and vent.

Breather vents are made of corrosion and UV resistant Polycarbonate material.

UL Recognized 1, 3, 3R, 3RX & 12

Touch Safe Heater

PTC (Positive Temperature Coefficient)

Din rail clip design for 35mm Din Rail.

Designed for protection from low temperatures, condensation and corrosion.

Touch Safe with 2 screw terminal for standard AWG 14 wire. 110 - 240V AC or DC. For installation information, consult our Installation Manual at www.saginawcontrol.com.

IS24 - Industry Standards

UL Component Recognized

Fan Heater

Compact design that heats up dynamically and is quiet during operation. Din rail clip design for 15mm, 35mm and C-Din Rail. 14" heater cable, 10" Fan cable. 100 - 240 V 50/60 HZ Heater and 24V Integrated fan.

IS24 - Industry Standards

UL Component Recognized

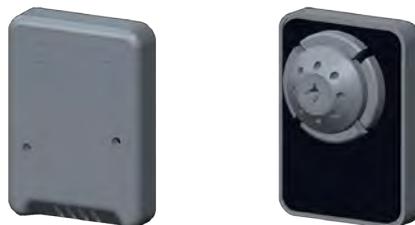

Changeover Thermostat

Designed to regulate air temperature in enclosures, can operate with heaters, fans or warning lights. Used to switch from heating to cooling. Switches one common contact immediately from one state (NC) to the other (NO) and vice versa. Has a set point range of 32°F to 140°F.

LED Strip Light

Application -

LED Strip Lights have a compact design to provide interior lighting for smaller enclosures.

Construction -

- Magnets provided for quick installation to any surface inside the enclosure, also provided with clips that can be mechanically fastened.
- Wire connector for direct power supply wiring.
- Feed in / Feed out Push Fit Connector on each end of fixture.
- Daisy chain multiple lights continuously up to 16 lights AC or 8 lights DC.
- Combined AC and DV voltage range in one light 24 VDC to 265 VAC 50/60 HZ.
- ON/OFF switch or motion sensor available.
- 6500K Cool White
- 400 Lumens

WORK STATION ACCESSORIES

Work Station Plinth Base

Designed to install under an enclosure to provide space for cables to enter from below and raise the enclosure up off the floor. Plinth bases are stackable to acquire desired height off the floor. Made of heavy gauge steel and finished with black textured powder coat. "SS" parts are made of type 304 stainless steel with #4 brushed finish.

SERVICE PARTS

Replacement LED Bulbs

Replacement bulbs for the LED light fixtures.

Touch Up Pens

Touch up paint pen for small scuffs and scratches.

Defeater Kit

This Defeater Kit is required for use with the Mechanical Defeater when using Siemens and ABB Flange Mounted Disconnect.

Replacement Hinge Pin

Hinge pins for standard SCE small and large concealed hinges.

Bolt Packs

Standard Bolt Packs for wall-mounting, subpanels, and grounding for standard SCE enclosures.

Gasket

Mullion gasket for center channel of multidoor enclosures.

BULK PARTS

Oil Tight Hole Seals - Bulk Package

Extra push button holes can be sealed against dust, dirt, oil, and water with a SCE hole seal. Seals will cover most pushbutton hole sizes. Hole seals come with oil-resistant gasket, #10-32 x 3/8" stud, zinc plated wing nut and plated steel back plate. Available with ANSI-61 gray powder coated finish.

IS20 - Industry Standard

UL recognized 3, 3R, 4, 4X & 12

Hole Seals - Bulk Package

Extra pushbutton holes can be sealed against dust, dirt, oil and water. Hole seals are made of corrosion and UV resistant fiberglass, and supplied with gasket and backing nut.

UL recognized 3, 4, 4X, 12, 6P
IEC tested to IP66 and IP68

Mini Quarter Turn Lever Knob - Bulk Package

Black Keylocking Lever Knob for Miniature Quarter Turns.

(No cam included)

Lifting Lugs - Bulk Package

Lifting lugs are designed to be mounted to the left and right side of a standard wall-mount type enclosure for easy handling of fully wired enclosures. Mounting hardware is included. UL Recognized sealing washers supplied to maintain UL ratings of Type 3R, 4, 4X and 12.

GENERAL ACCESSORIES

Folding Shelf

Folding shelves can be installed on the inside or outside of large enclosures. They are designed to support test equipment and programmers. Locks in the horizontal position. When not in use, shelf can be folded down. Made of heavy gauge steel and powder coated. For installation information, consult our Installation Manual at www.saginawcontrol.com.

Provided with UL Recognized sealing washer to maintain Environmental Rating of the enclosure.

Mechanical Interlock

For use on two-door enclosures with SCE concealed hinges and with both doors hinged on the left.

Oil Tight Hole Seals

Extra push button holes can be sealed against dust, dirt, oil, and water with a SCE hole seal. Seals will cover most pushbutton hole sizes. Hole seals come with oil-resistant gasket, #10-32 x 3/8" stud, zinc plated wing nut and plated steel back plate.

IS20 - Industry Standard

UL recognized 3, 3R, 4, 4X & 12
IEC 60529 IP56

Accessory Columns and Bases

Designed to allow enclosures to be floor mounted. Columns can be mounted to either size base. Columns have flanges at each end and a gasketed access plate. Bases are to be bolted to the floor. Gasket and mounting hardware included. For technical information, consult the Installation Manual at www.saginawcontrol.com. "SS" parts are stainless steel Type 304 with #4 brush finish.

THERMAL MANAGEMENT

Fan Package

Designed for use in enclosures that require cooling but have limited space. Consists of a washable aluminum filter, steel air plenum, removable stainless steel grille, single phase fan, and approximately 14 inches of lead wire. Grille has captivated thumb nuts for easy access to the filter from the outside. Fans are available in 24 V DC. Air plenum is ANSI-61 gray powder coated. For installation information, please consult our Installation Manual at www.saginawcontrol.com. UL listed motor.

MOUNTING PANELS

Sub-Panels

Construction -

Sub-panels are constructed from carbon steel. Size determines steel thickness.

Finish -

Powder coated white.

Options -

Configuration A - Add (SS) to the end of the sub-panel part number. (Example: SCE-12P10SS). Sub-panels are made of 316/316L stainless steel.

Configuration B & C - Add (SS) to the end of the sub-panel part number for 304 stainless steel (Example: SCE-30P30SS). Add (SS6) to the end of the sub-panel part number for 316/316L stainless steel (Example: SCE-30P30SS6).

Stainless Steel Sub-Panels

Construction -

Sub-panels are constructed from stainless steel. Size determines steel thickness.

Finish -

Configuration A - (Example: SCE-12P10SS) Sub-panels are made of 316/316L stainless steel with #4 brushed finish.

Configuration B & C - (Example: SCE-30P30SS) Sub-panels are made of 304 stainless steel with #4 brushed finish.

Options -

Configuration B & C - Add (6) to the end of the sub-panel part number for 316/316L stainless steel (Example: SCE-30P30SS6).

Available within 10 working days if not in stock

Enviroline® Junction Enclosure (ELJ) Sub-Panels

Designed to be used with Enviroline® Series Junction Enclosures. Made of heavy gauge steel and powder coated white. GALV panels made of galvanealed steel.

Dead Front Panel For Two Door Enclosures with Center Channel

Designed for installation into Enviroline® Series two-door enclosures with center channel, to be installed in the front of an enclosure and to swing out of the enclosure. Kit consists of heavy gauge brackets, hinges, and mounting hardware. Installed by detaching door hinge from enclosure and installing swing out panel kit to the existing holes. Hinge is supplied with the enclosure. Made of steel and powder coated white. Kit contains one panel and all hardware for one dead front behind one door.

Provided with UL Recognized sealing washer to maintain Environmental Rating of the enclosure.

FREE-STANDING ENCLOSURE ACCESSORIES

Panels (Full & Half Length) For Single-Door Enclosures

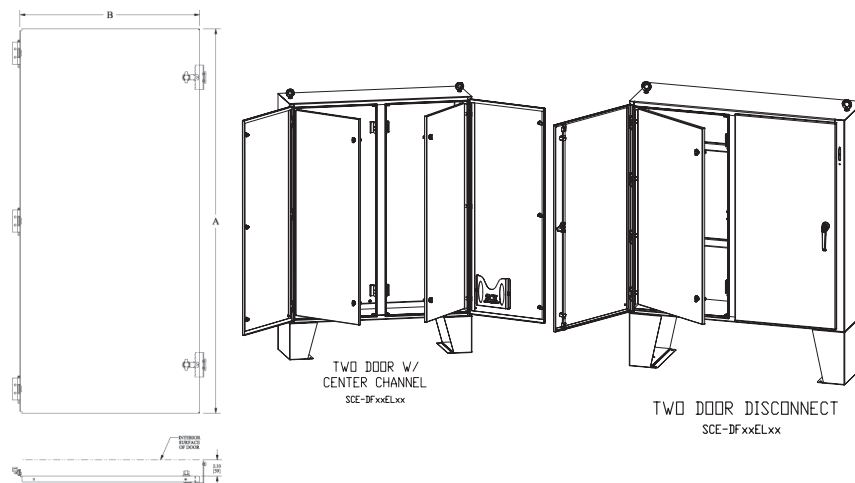

Panels for single-door enclosures can be positioned anywhere along the horizontal mounting channels. Half-length panels can be located in the upper or lower portion of the enclosure. Mounting hardware is included. Made of heavy gauge steel and powder coated white. GALV panels made of galvanized steel.

Panels (Full & Half Length) For Two-Door Enclosures

Panels for two-door enclosures can be positioned anywhere along the horizontal mounting channels. Half-length panels can be located in the upper or lower portion of the enclosure. Mounting hardware is included. Made of heavy gauge steel and powder coated white. GALV panels made of galvanized steel.
