

## INTRODUCTION

### MEDIUM AND LARGE HYDENT™

Copper and aluminum compression terminals and splices for terminating conductors from #8 AWG through 2000 kcmil.

The medium and large HYDENT™ line is designed for terminating and splicing medium and large conductors in electrical power applications.

C-1

## HYLUG™

### UNINSULATED COPPER COMPRESSION TERMINALS

UL LISTED 90° C,  
600 VOLTS TO 35 kV ♦

BURNDY's HYLUG™ terminals, types YA, YA-TC, YA-L, YA-L-TC, YA-2N, YA-2TC, YA-L-TC-FX, YA-L-2TC, and YA-2LN are designed for terminating copper conductors in a wide variety of electrical connections, including heavy-duty industrial, utility, commercial, and telecommunications applications.

The HYLUG™ terminals require simple cable preparation for an easily installed permanent and inspectable cable termination. The terminals are listed by UL (UL STD. 486A) and CSA certified to 600 volts, when applied with the proper tool and die combination. The terminals may be used in applications to 35kV. See each catalog page for UL 35kV listings.

### Features and Benefits

- Manufactured from seamless high conductivity electrolytic copper tubing with heavy duty wall thickness.
  - ◊ Provides maximum conductivity, low resistance and ductility for an excellent combination of electrical and crimp forming properties.
- Barrel diameter closely matches commercial (code) cable and Navy cable diameters.
  - ◊ Provides an excellent relationship of the conductor/connector combination to produce a high quality electrical connection with the recommended tooling.
- Electro-tin plated. Electro-lead plated. Burndy's proprietary brite finish.
  - ◊ Provides durable long-lasting corrosion resistance.
- Internally beveled barrel end.
  - ◊ Provides easy cable insertion.
- Each connector is clearly marked with the wire size and type, die index, and color coding.
  - ◊ Provides easy identification and proper tooling recommendation.
- Marked with the proper number and location of crimps.
  - ◊ Lowers installed costs. Provides for proper installations.
- Proper compression systems forms a homogeneous mass.
  - ◊ The result is an excellent electrical connection.
- Use up to 35 kV as indicated.
  - ◊ Suitable for high voltage applications.
- Expanded wire ranges when using Y644 HYPRESS™ Dieless "1" Crimp.
  - ◊ Provides ability to complete emergency repairs when connector and wire size do not match.
- Crimp areas clearly marked.
  - ◊ Provides correct number and location of crimps for proper installation.
- Hydraulic and Battery tooling crimp embossment.
  - ◊ Provides permanent die index number embossment on completed crimp for inspection purposes.

## COMPRESSION CONNECTORS

C-4

BURNDY's compression connectors are designed for reliable and controllable electrical connections. The complete installation is fully inspectable. They are high conductivity copper and operate cooler than the wire on which they are installed. The connectors withstand a wide range of electrical and environmental conditions, including current surges, temperatures, corrosion and vibrations, for a wide variety of applications. These features mean a consistently high quality connection at a low installed cost.

Copper compression connectors are manufactured from high-conductivity electrolytic copper. The connectors are normally tin-plated, lead-plated, or plated with proprietary BURNDY® brite finish to provide durable long-lasting corrosion resistance. The connector design has been matched to the cable size to provide the necessary physical strength requirements for reliable electrical performance.

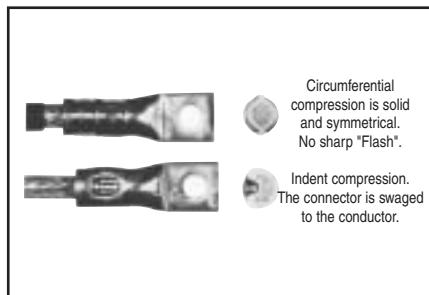

Aluminum compression connectors are manufactured from high conductivity, high purity wrought aluminum. They are designed with sufficient mass and are electro-tin plated to minimize corrosion due to galvanic action between dissimilar metals. The connector barrels are pre-filled with PENETROX®, BURNDY's oxide inhibiting compound.

PENETROX® contains homogeneously suspended metallic particles which penetrate the wire's oxides to establish excellent continuity between the individual strands and the connector barrel for a low-resistance connection. PENETROX® maintains an air-tight connection. Each barrel end is covered with a color-coded plastic dust cap which prevents foreign matter from entering the connector before it is used. The connector design has been engineered to match the cable size to provide the necessary physical strength requirements for reliable electrical performance.

## SELECTION AND USE

Copper compression connectors are recommended for use on copper conductors. Aluminum compression connectors are recommended for use on aluminum conductors. Dual-rated aluminum compression connectors may be used on both copper and aluminum conductors.

Two basic compression designs are available: Circumferential and indent.

After compression, virtually all the air is removed leaving a tight homogeneous mass of connector and conductor.

The circumferential crimp design is recommended for color coded connectors in low and high voltage applications. Die index number embossment provides an easy inspection where required to verify the use of the proper connector/die combination. It is also recommended for insulated connectors and for terminating flexible and welding cables.

The circumferential crimp design dies compress cable strands into polygonal shapes forming intimate contact with each other and the connector barrel. This compression forms a tight homogeneous mass with virtually no air pockets. The circumferential crimp provides an excellent electrical connection with high pull-out values. The circumferential crimp is ideal for high voltage applications leaving the connector barrel symmetrical, which is easier to insulate.

The indent type crimp can be used in virtually any application except polyvinylchloride (PVC) insulated terminals and splices. It is an excellent means of terminating flexible, extra flexible and welding cables. The indentor compresses the cable strands to form intimate contact with each other and the connector barrel. The result is an excellent electrical connection with high pull-out strength. Laboratory work testing curves established the proper depth and shape of indent for each type of connector and wire combination.

## TOOLING

Tooling systems are essential for proper installation of a compression connector. Since connectors and dies are designed as a unit for specific wire sizes, only the recommended tools and dies should be used. Most aluminum and copper HYLUG™ terminals and HYLINK™ splices are marked with a die index number and are color-coded to identify the correct installation die. Dies marked with the matching die index number and color can be used to install the connector.

BURNDY® tooling installs a wide range of connectors, is reliable, cost effective, and precision engineered for durable, long-lasting service and quality connections. The tools include small plier types, full cycle ratchet designs and hydraulically-powered HYPRESS™ heads and new Battery Actuated Tools. Some have permanent die grooves or adjustable dies, while others require a change of die sets or nest die for each connector size. BURNDY's recommended tools achieve crimp performance consistent with UL and other industry standards. Since several tools are suitable for most connectors, the most economical and practical tool can be chosen for each application.

## INDUSTRY STANDARDS

BURNDY's compression terminals, splices and tap connectors requiring third party testing and approval are listed by Underwriters' Laboratories, Inc. Many have also received CSA approval and are approved under MIL-T-7928 and other military standards. All conform to applicable sections of the National Electrical Code.

BURNDY® also offers connectors and splices which meet the (LOCA Seismic and Aging) requirements of IEEE standards 323, 383 and 344 for class 1E critical circuits for use in Nuclear Utility Applications. Certification to 10CFR50 and 10CFR21 available.

Detail catalog listings should be consulted to obtain the appropriate standards for each connector and splice.

### BURNDY® Telecommunications Connectors...

#### The industry's first choice in compression connections...

BURNDY® provides a complete selection of one and two hole compression's terminals, H-taps, C-taps, and other compression connection products specifically engineered to meet the demanding applications of both the Central Office and Wireless communications markets.

All of BURNDY's compression products are designed for reliable and controllable electrical connections. All connectors are made from high conductivity electrolytic copper and operate at cooler temperatures than the conductor on which they are installed. The connectors are normally tin-plated, lead-plated, or plated with a proprietary BURNDY® brite finish to provide the industry standard in long-lasting corrosion resistance.

The complete installation is fully inspectable and UL listed when installed with BURNDY® dies. Every die in the system is color-coded and provides die index embossment for complete inspectability.

#### The Circumferential Crimp...

Circumferential compression is solid and symmetrical. No sharp "Flash".

BURNDY's circumferential crimp provides a solid, homogenous connection, with high pull out values and is rated for high voltage applications, more than sufficient for the 48 V DC operating voltage common in the telecom market. In addition the circumferential crimp doesn't require the removal of the copper flash produced by other die systems. This not only saves time in installation but removes a potential safety hazard from the job.

All of the dies in the system are color-coded to match the connectors and feature die index and die number matching to the connector for ease of installation.

#### BURNDY® Tooling... the right choice for the job

BURNDY® tooling installs a wide range of connectors, is reliable, cost effective, and precision engineered for durable, long-lasting service and quality connections. BURNDY's compression tooling system ranges from full cycle ratchet hand tools to 12 and 15 ton hydraulically-powered HYPRESS™ heads. Hydraulic tools are available in self-contained, battery powered, and AC service electrically powered pump and remote head designs to meet all possible installation situations.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

† The MM<sup>2</sup> conductor size listed is for both Class 2 and Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts, consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only; PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.  
▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts, consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.  
▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts, consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only; PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

◆ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts, consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.  
▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts, consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only; PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.  
▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts, consult cable manufacturer for voltage stress relief instructions.

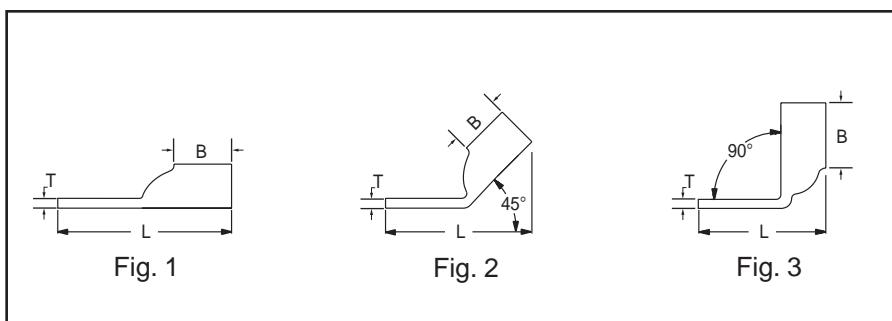

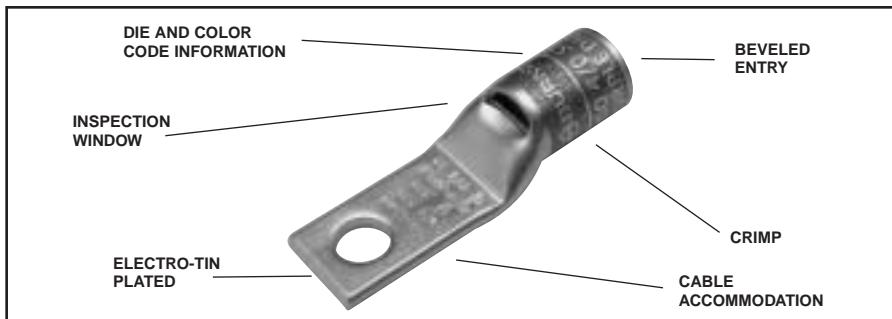

### ONE HOLE HYLUG™ CODE CONDUCTOR STANDARD BARREL NARROW TONGUE

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor size listed is for Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

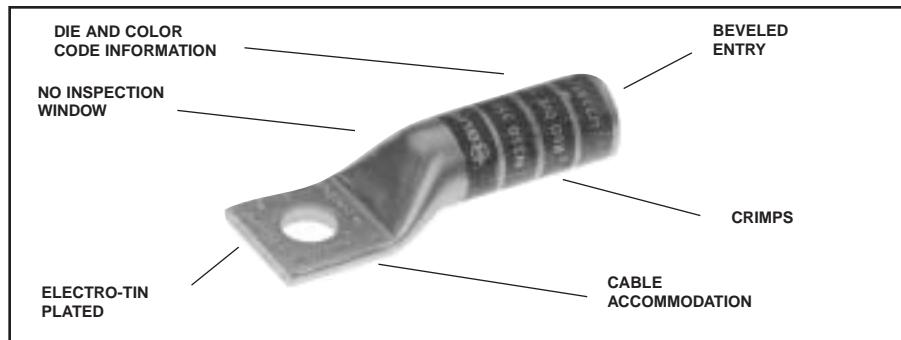

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### ONE HOLE HYLUG™ CODE CONDUCTOR LONG BARREL

#### TYPES YA, YA-TC

#### UNINSULATED COPPER COMPRESSION TERMINAL

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

† The MM<sup>2</sup> conductor size listed is for Class 2 and Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

• Available undrilled. Add suffix "U" to catalog number (example: YA25U).

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.  
▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

• Available undrilled. Add suffix "U" to catalog number (example: YA25U).  
◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

• Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

- Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

• Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

† The MM<sup>2</sup> conductor size listed is for Class 2 and Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

• Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.  
▲ See tooling section of this catalog for complete tool and die listings.

• Available undrilled. Add suffix "U" to catalog number (example: YA25U).  
◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### ONE HOLE HYLUG™ CODE CONDUCTOR LONG BARREL WITH INSPECTION WINDOW (Continued)

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.  
\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

▲ See tooling section of this catalog for complete tool and die listings.  
• Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

• Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

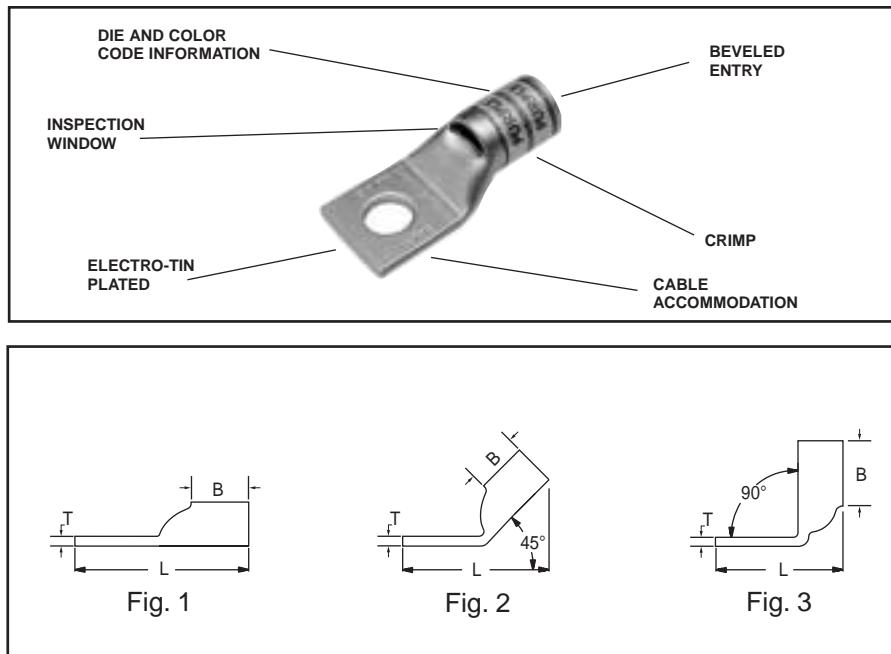

### ONE HOLE HYLUG™ FLEX CONDUCTOR STANDARD BARREL

**TYPES YA-L, YA-L-FX, YAV,

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor size listed is for both Class 2 and Class 5 conductors.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The 16 MM<sup>2</sup> is for both Class 2 and Class 5 conductors.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die

listings. Use ONLY color-coded die recommendations for

"FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The 120 MM<sup>2</sup> referenced here is for both Class 2 and Class 5.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™  
\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.  
◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™  
\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.  
◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The MM<sup>2</sup> conductor size referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

† Alternate Tooling includes Y8MRB-1, MY29-11

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

† Alternate Tooling includes Y8MRB-1, MY29-11

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

† Alternate Tooling includes Y8MRB-1, MY29-11

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The 120 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

† Alternate Tooling includes Y8MRB-1, MY29-11

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

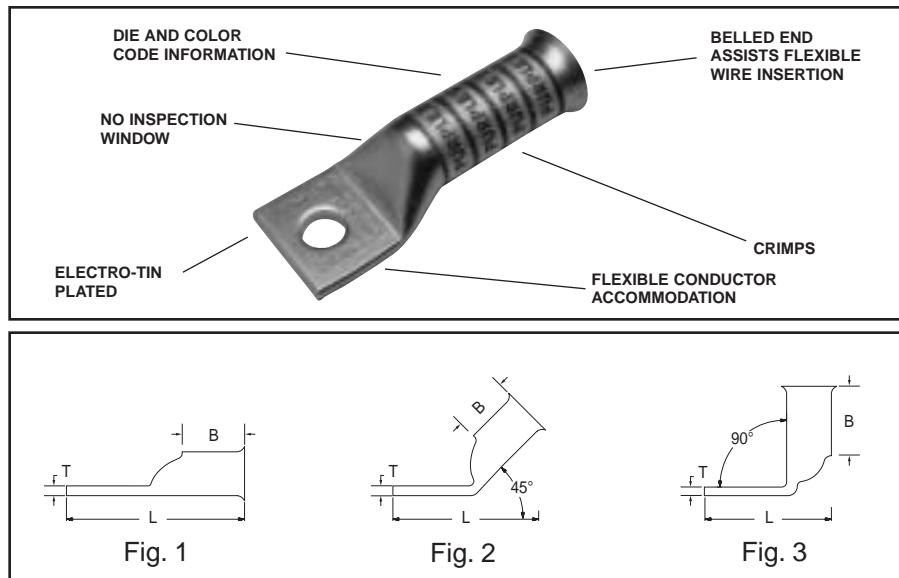

† Alternate Tooling includes Y8MRB-1, MY29-11

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

## ONE HOLE HYLUG™ FLEX CONDUCTOR LONG BARREL BELLED END

**TYPES YA-TC-FXB,  
YAV-TC-FXB**

UL Listed 90° C,  
600 Volts to 35 KV ♦

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™  
\*\* The MM<sup>2</sup> conductor sizes referenced here are for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

‡ P44RT for use with Y46 HYPRESS™ only.  
PUADP-1 adapter not required.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The 16 MM<sup>2</sup> and 120 MM<sup>2</sup> referenced here are for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

‡ P44RT for use with Y46 HYPRESS™ only.

PUADP-1 adapter not required.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

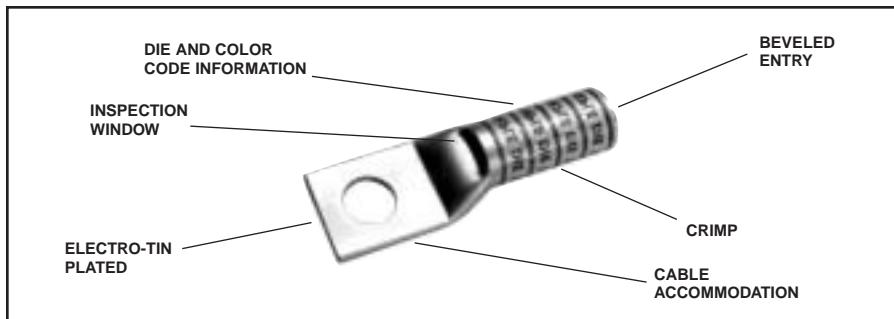

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

# ONE HOLE HYLUG™ FLEX CONDUCTOR LONG BARREL WITH INSPECTION WINDOW

## TYPES YAZ, YAZV

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The MM<sup>2</sup> conductor size referenced here is for both Class 2 and Class 5 conductor.\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™

\*\* The 120 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™. Catalog # PUADP-1 adapter is required to use "U" dies in Y46 series tools.

\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

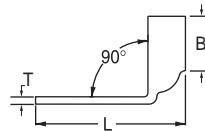

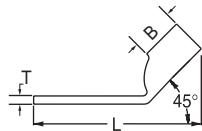

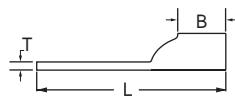

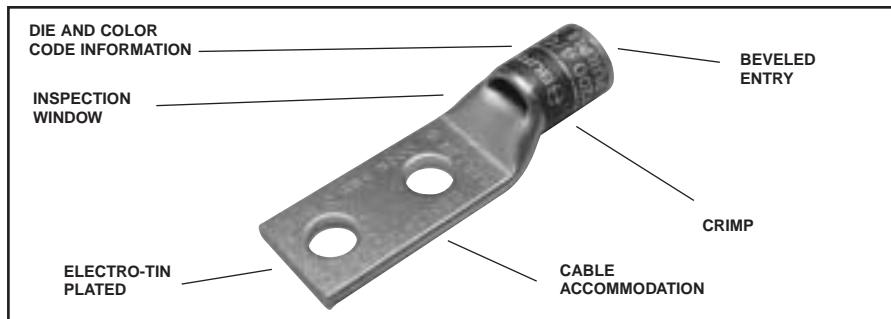

### TWO HOLE HYLUG™ CODE CONDUCTOR STANDARD BARREL

**TYPES YAV-2TC, YA-L2L,  
YA-2LN, AND YA-L-2TC**

#### COPPER COMPRESSION TERMINAL

-- Color code not assigned.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

† The MM<sup>2</sup> conductor size referenced here is for both Class 2 and Class 5.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 volts consult cable manufacturer for voltage stress relief instructions.

-- Color code not assigned.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 volts consult cable manufacturer for voltage stress relief instructions.  
\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

-- Color code not assigned.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

-- Color code not assigned.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor

-- Color code not assigned.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

-- Color code not assigned.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U" - dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

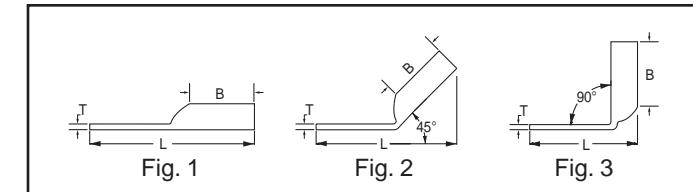

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

† The MM<sup>2</sup> conductor size listed here is for Class 2 and Class 5 conductor.

" Available undrilled. Add suffix "U" to catalog number (example: YA25U).

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U" -dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

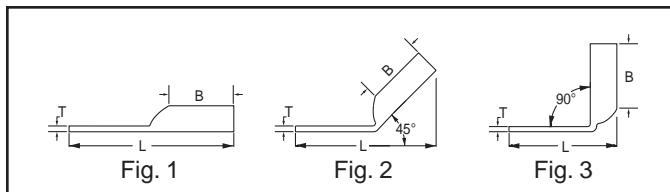

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

" Available undrilled. Add suffix "U" to catalog number

(example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U"-dies in Y46 HYPRESS™.

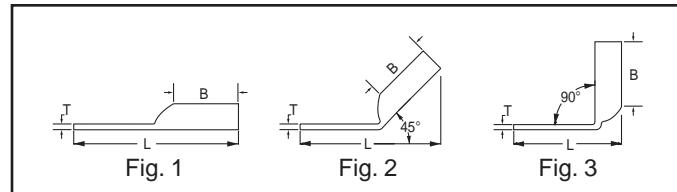

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adaptor not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

" Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U" -dies in Y46 HYPRESS™.

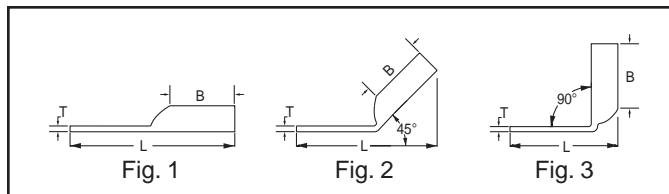

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adaptor not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

" Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U"-dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

† The MM<sup>2</sup> conductor size referred to here is for Class 2 and Class 5 conductor.

" Available undrilled. Add suffix "U" to catalog number (example: YA25U).

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U" -dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

\*\* Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U"-dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

\* Available undrilled. Add suffix "U" to catalog number (example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

C-59

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U" -dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only. PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

" Available undrilled. Add suffix "U" to catalog number

(example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

▲ See tooling section of this catalog for complete tool and die listings.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.

" Available undrilled. Add suffix "U" to catalog number

\*\* P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

(example: YA25U).

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adaptor with "U" -dies in Y46 HYPRESS™.

\*\* P-RT die sets for use in Y46 HYPRESS™ only; PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

" Available undrilled. Add suffix "U" to catalog number

(example: YA25U).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.  
\*\* The MM<sup>2</sup> conductor size referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indenter system contact factory.  
◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

- \* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.
- \*\* The 16 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.
- \*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

- ▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.
- ◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.  
 \*\* The 120 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.  
 \*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.  
 ◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.

\*\* The 120 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.  
\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* The MM² conductor size referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM² conductor sizes listed are the recommendations for Class 5 conductor.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.  
\*\* The 16 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* The 120 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* The 120 MM<sup>2</sup> referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

Consult cable manufacturers for stress relief instructions.

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U"-dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor sizes referenced here are for both Class 2 and Class 5 conductors.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

‡ P-RT die sets for use in Y46 HYPRESS™ only, PUADP-1 adapter not required.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "-FX" connectors.

Consult shielded cable manufacturers for stress relief instructions.

Consult cable manufacturers for stress relief instructions.  
 ♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.  
 \* Use PUADP-1 adaptor with "U" - dies in Y46 HYPRESS™.

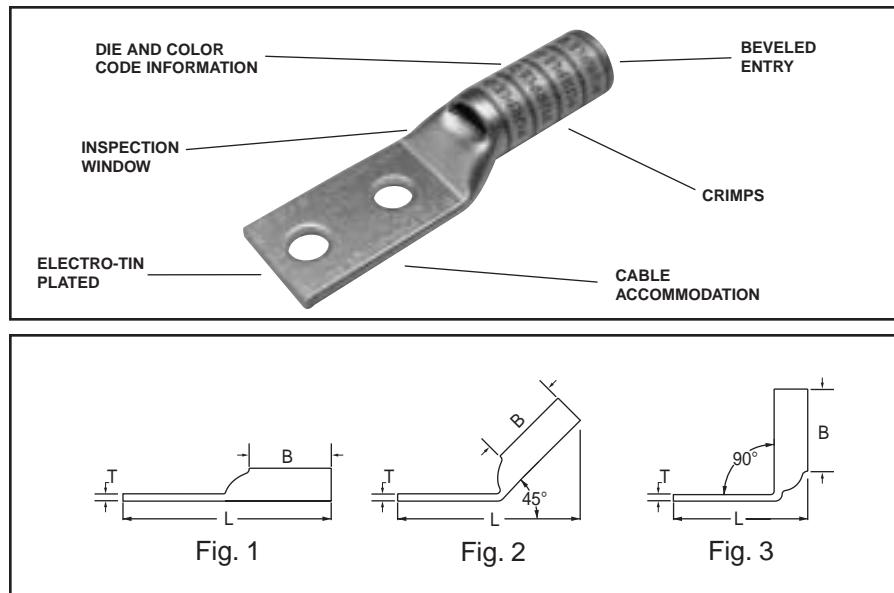

\*\* The MM<sup>2</sup> conductor sizes referenced here are for both Class 2 and Class 5 conductors.  
 \*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.  
 ‡ P-RT die sets for use in Y46 HYPRESS™ only. PUADP-1 adapter not required.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors.  
 Consult shielded cable manufacturers for stress relief instructions.

\* Use PUADP-1 adaptor with "U" -dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor size referenced here is for both Class 2 and Class 5 conductor.

\*\*\* The MM<sup>2</sup> conductor size listed are the recommendations for Class 5 conductor.

▲ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" -dies in Y46 HYPRESS™.

\*\* The MM<sup>2</sup> conductor size referenced here is for both Class 2 and Class 5 conductor.\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

◆ See tooling section of this catalog for complete tool and die listings. Use ONLY color-coded die recommendations for "FX" connectors. For nest/indentor system contact factory.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### E-LINE HYLUG™ EQUIPMENT LINE

#### TYPE YAE COPPER AND ALUMINUM COMPRESSION TERMINAL

UL Listed 90° C,  
600 Volts to 35 KV ♦

YA-E Equipment terminals are designed to provide replacements for original equipment mechanical or other compression terminals. These narrow tongue terminals are specially designed to fit in tight areas. Whether you're upgrading or replacing, YA-E connectors will

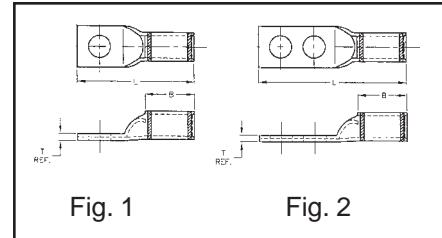

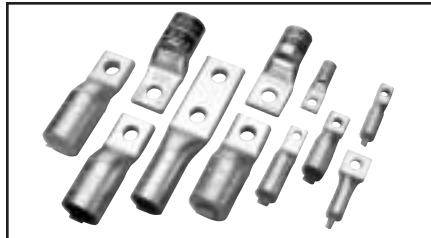

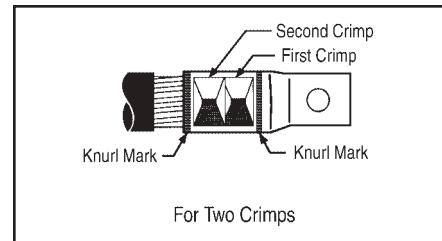

Fig. 1

Fig. 2

provide for any of your cable termination needs. When installed with our dieless tool, these terminals can accommodate a range of conductor sizes.

Available undrilled. Add suffix "U" to catalog number  
(example YA444NU).

\*\*\* The MM<sup>2</sup> conductor sizes listed are for Class 2 conductor.

For applications greater than 2000 Volts, consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.  
\*\* "P" dies for use with Y46 HYPRESS™ only. PUADP-1 adapter not required.

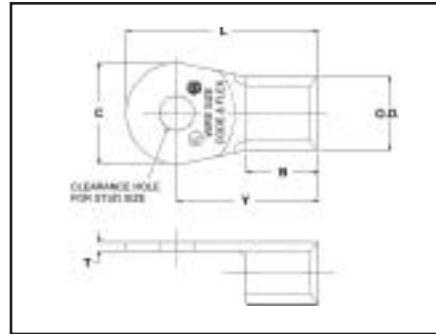

‡ Requires Y60BHU HYPRESS™

### TYPE YAD-M-E

**HYLUG™**

#### NON-INSULATED BRAZED BARREL COPPER TERMINALS

Type YAD-M-E is UL listed for code and flex stranded copper conductor AWG and kcmil sizes when crimped with BURNDY® nest and indentor dies. Used for the termination of power cables in commercial and industrial applications.

C-85

#### Features and Benefits

- Terminals utilize a brazed seam
  - ◊ Provides excellent high conductivity connections
- Electro-tin plated
  - ◊ Provides durable long lasting corrosion resistance
- Vibration resistance and tensile strength
  - ◊ Well within the limits of commercial specifications

**NOTES:**

† Permanent die in tooling.

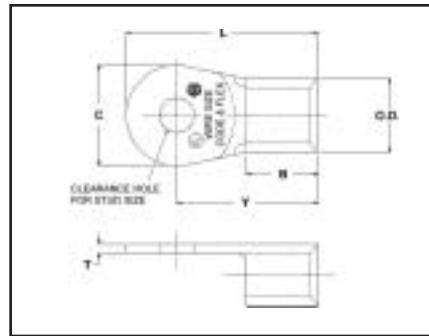

\*\* Y35P1 adapter required for all Y29PQ indentors.

\* PUADP-1 adapter required for Y46 when using nest and indentors.

‡ PT6515 adapter required when using Y45.

### TYPE YAD-M-E (Continued)

NOTES:

† Permanent die in tooling.

\*\* Y35P1 adapter required for all Y29PQ.. indentors.

\* PUADP-1 adapter required for Y46 when using nest and indentors.

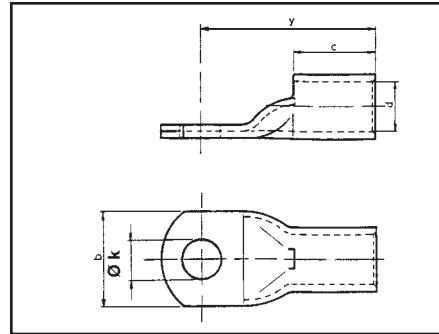

‡ PT6515 adapter required when using Y45.

## TYPE YAV

**HYLUG™**

### NON-INSULATED COPPER TUBULAR TERMINALS 0.3 - 1000 mm<sup>2</sup>

Made from electrolytic copper tube, electro tinned. Range of copper tube formed terminals taking wires from 0.3 - 1000 mm<sup>2</sup>. Heat resistant up to +125° C.

C-87

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* Type YASV series have inspection hole.

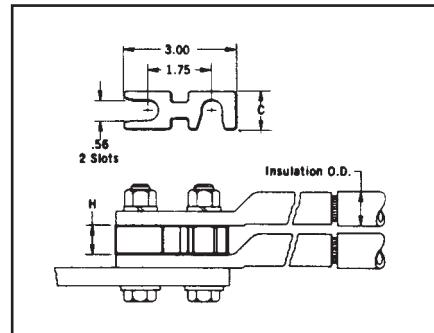

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 and Class 5 conductor.

### TYPE ASA-U

#### HYSTACK™

#### TERMINAL STACKING ADAPTOR FOR ALUMINUM AND COPPER TERMINALS

The HYSTACK™ adaptor is specially designed to allow standard terminals to be stacked on two or four hole NEMA transformer or equipment terminal pads. HYSTACK™ is tin-plated, high-conductivity aluminum to provide optimum corrosion resistance. Only three sizes accommodate terminals from 250 mcm through 1000 mcm to help keep costly inventories to a minimum.

C-93

#### ACCOMMODATES COPPER AND ALUMINUM COMPRESSION TERMINALS

| CONDUCTOR<br>MAX. | INSULATION<br>O.D. | CATALOG<br>NUMBER | C    | H    |
|-------------------|--------------------|-------------------|------|------|
| 250 mcm           | .868               | ASA250U           | 1.00 | .77  |
| 800 mcm           | 1.372              | ASA800U           | 1.00 | 1.13 |
| 1000 mcm          | 1.494              | ASA1000U          | 1.25 | 1.25 |

To stack 4 hole NEMA drilled terminals use 2 adaptors assembled side by side.

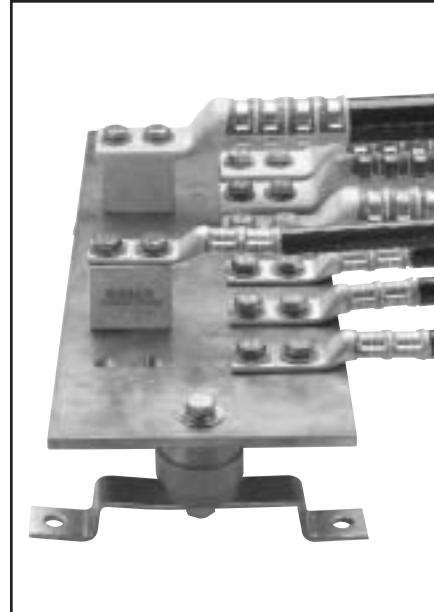

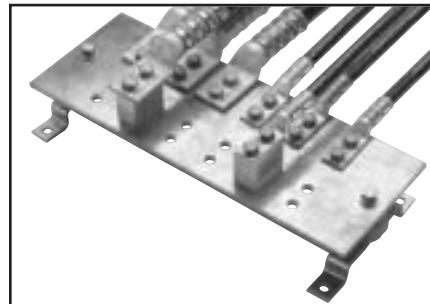

ASA-U stacking adaptors are recommended for use with any BURNDY® UL listed compression terminal, 2 or 4 hole NEMA pad aluminum and copper lugs, types YA, YA-L, YA-A, and for all 2-hole NEMA spaced lugs in the OVERHEAD and UNDERGROUND catalog sections.

### TYPE CUSA

#### HYSTACK™

#### TERMINAL STACKING ADAPTOR

This HYSTACK™ adaptor is specially designed to get terminals to the back end of a bus bar or other areas that require terminals to be elevated off the mounting surface. This HYSTACK™ is made from high conductivity copper and tin-plated to provide optimum corrosion resistance. It will accommodate #10 AWG through 750 kcmil HYLUGS™.

| Catalog<br>Number | Stud Hole<br>Size | Stud Hole<br>Spacing | Length | Width | Height |
|-------------------|-------------------|----------------------|--------|-------|--------|
| CUSA442TC38       | 3/8"              | 1"                   | 1.75"  | 1.12" | 1.50"  |
| CUSA442NTC        | 1/2"              | 1 - 3/4"             | 2.50"  | 1.12" | 1.50"  |

#### Reference: Catalog number TMH332.

This TMH332 Kit has just the right hardware when using the CUSA442TC38 HYSTACK™ on a 1/4" bus bar with a 4/0 through 750 kcmil HYLUG™.

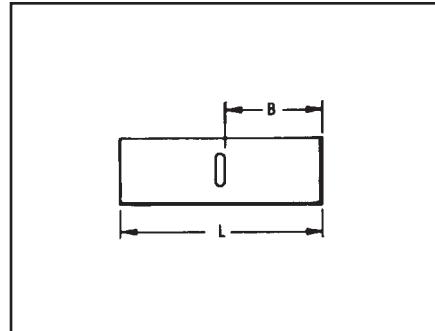

### TYPE YS-L

#### HYLINK™ SPLICE STANDARD BARREL

#### COPPER COMPRESSION

UL Listed 90° C,  
600 Volts to 35 KV ♦

C-94

#### Features and Benefits

- Standard barrel length.
  - ◊ Ideal for limited space applications while providing ample barrel length for proper crimp.
- Four (4) center conductor stops.
  - ◊ Provides a center wire stop for proper conductor insertion.

▲ See tooling section of this catalog for complete tool and die listings.

■ The maximum size for the Y35 is 400 kcmil insulated code cable.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

■ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

\*\* P44RT for use with Y46 HYPRESS™ only. PUADP-1

adaptor not required.

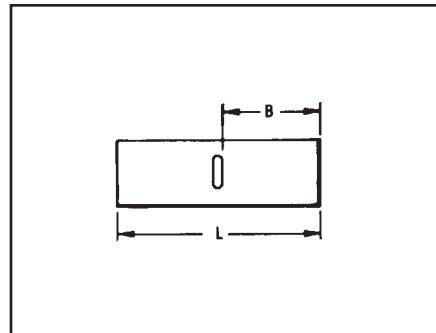

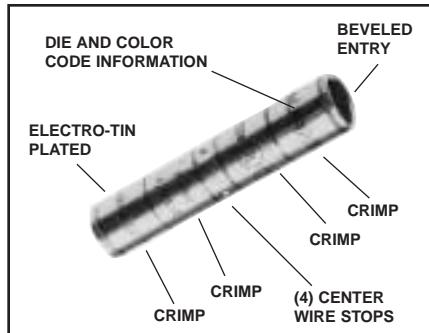

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

### TYPE YS

#### HYLINK™ SPLICE - LONG BARREL

#### COPPER COMPRESSION SPLICE

UL Listed 90° C,  
600 Volts to 35 KV ♦

C-95

#### Features and Benefits

- Long barrel length.  
◊ Ideal for 600 volt heavy duty applications.  
Also may be used at higher voltages up to 35KV.
- Four (4) center conductor stops.  
◊ Provides a center wire stop for proper conductor insertion.
- High pull out force.  
◊ Provides added security for much greater mechanical and electrical properties.

① Not color coded.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

\*\* P44RT for use with Y46 HYPRESS™ only. PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 2 conductor.

■ The maximum size for the Y35 is 400 kcmil.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

† Requires Y60BHU HYPRESS™ with L48RT die set.

### TYPES Y-R

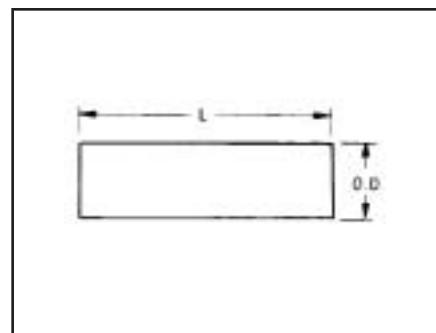

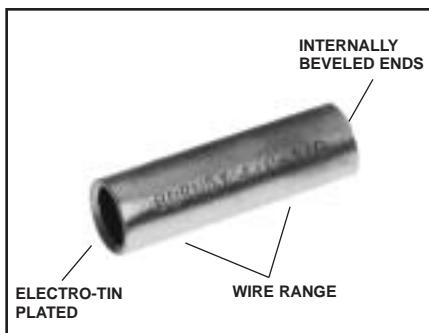

#### REDUCING ADAPTER

#### FOR COPPER

600 Volts to 35 KV◆

C-96

The Y-R reducing adapter has been designed to allow large size, long barrel, copper long barrel HYDENT™, HYSPLICE™ and HYTEE™ terminals, splices, and "T" taps to be used on smaller conductor sizes. To use, simply insert the reducer into the barrel, insert the wire into the reducer adapter and crimp the outer barrel using its recommended tooling.

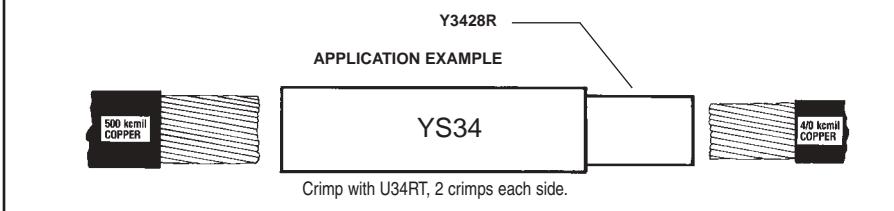

#### Features and Benefits

- Wide range of conductors are accommodated.  
◊ Lowers inventory requirements and affords maximum versatility.
- Same die set for all legs of the connection.  
◊ Permits the same tool and die combination normally used on the compression barrel.
- Length fits the long barrel connector design (YS, YA).
- ◊ Can be used on all long barrel connectors. Field cut to fit shorter length compression barrels (YS-L, YA-L).
- Manufactured from high conductivity electrolytic copper and electro-tin plated.  
◊ Provides maximum conductivity low resistance and ductility for an excellent combination of electrical and crimp forming properties, and provides long lasting corrosion resistance.

UL Listed 90° C,  
600 Volts to 35 kV◆

HYLINK™ type YS-LB splices are designed for flexible and extra flexible copper conductors used in mining machines, locomotives, welding cables and other flexible cable applications. The seamless, high conductivity copper, electro-tin plated belled barrel provides for easy insertion of flexible stranded conductors and the nest indentor die system provides an excellent electrical and mechanical connection.

C-97

### Features and Benefits

- Belled barrel ends.
  - ◊ Provides easy cable insertion into the splice barrel and smooth cable strain relief during cable flexing and movement.
- Standard length barrel.
  - ◊ Permits easy passage around pulleys yet is long enough for easy crimping.

† Use Y35P3 adaptor with Y34PR indentor.

\* Use PUADP-1 adaptor with U-DIES in Y46 HYPRESS™.

‡ Number of Crimps.

▲ See Tooling section in this catalog for complete tool and die listings.

① Not color coded

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### TYPES YS-T AND YSP-T

#### HIGH-VOLTAGE HYLINKS™

#### UNINSULATED HIGH VOLTAGE COPPER COMPRESSION SPLICE

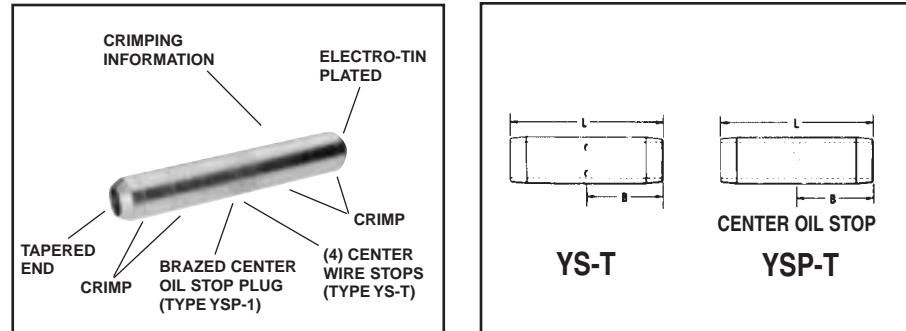

#### STANDARD BARREL - TAPERED ENDS

UL Listed 90° C,  
600 Volts to 35 KV◆

Seamless types YS-T and YSP-T high conductivity copper electro-tin plated compression HYLINK™ high-voltage splices with standard barrel and tapered ends are ideally suited for higher voltage applications from 5KV through 35 KV.

Type YS-T splice connector has four center wire stops for proper conductor insertion.

Type YSP-T splice connector has a brazed in place center plug to prevent the passage of oil between two oil filled conductors or between conductors without oil and conductors with oil and acts as a center wire stop for proper conductor insertion.

C-99

#### Features and Benefits

- Tapered connector ends per EEI standard TD160.
  - ◊ Suitable for use on voltages 5KV through 35KV to aid in preventing corona emission and simplify taping thus lowering installed cost.
- Type YS-T four center wire stops.
  - ◊ Provides a center wire stop for proper conductor insertion.
- Type YSP-T has a center plug permanently brazed in place.
  - ◊ Prevents oil within oil-filled conductors from passing through the splice connector and provides a center strip for proper conductor insertion.

\* Use adapter PUADP-1 with "U" Dies in Y46 HYPRESS™. Y46 HYPRESS™ uses the same nest indentor and adaptor as the Y35, Y39 and Y750, but with the PUADP-1 adaptors.

■ The maximum size for the Y35 is 400 kcmil.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### TYPE YS-FXB

#### HYLINK™ - SPLICE - BELLED LONG BARREL

UL Listed 90° C,  
600 Volts to 35 KV ◆

C-100

#### Features and Benefits

- Long barrel length.  
◊ High voltage terminations.
- Four (4) center conductor stops.  
◊ Provides a center wire stop for proper conductor insertion.
- High pull out force.  
◊ Provides added security for greater mechanical and electrical properties.
- Bellied cable entry.  
◊ A funnel type entry provide easy insertion of extra flexable cables plus offers mechanical strain relief for individual strands.

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™.

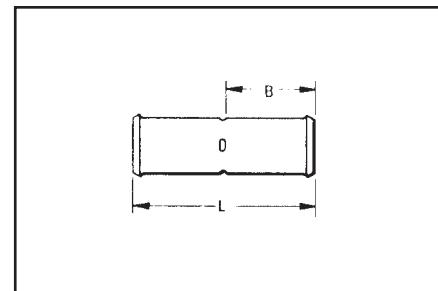

\*\* P44RT and P46RT dies sets are for use with Y46 HYPRESS™ only. PUADP-1 adapter not required.

\*\*\* The MM<sup>2</sup> conductor sizes listed are the recommendations for Class 5 conductor.

† 16mm<sup>2</sup> and 120mm<sup>2</sup> referenced are for both Class 2 and Class 5

■ The maximum size for the Y35 is 373.7 kcmil.

▲ See tooling section of this catalog for complete tool and die listings.

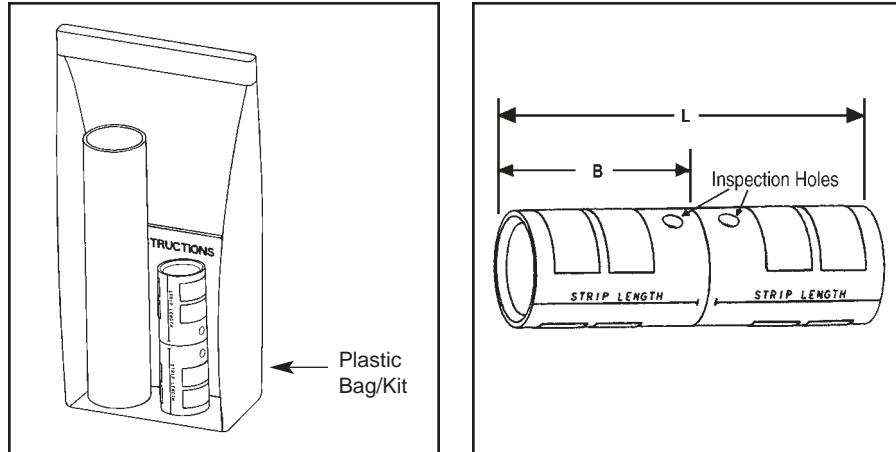

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### TYPE YS-TC

#### HYSPLICE™

In-line Splice Kits for  
Telecommunications  
Applications

YS-TC kits are for splicing cables and covering the connection with either **clear** or **black** heat shrink. Splices are constructed from seamless, high conductivity electrolytic copper tubing for maximum conductivity and tin-plated to resist corrosion. Each YS-TC splice is provided with inspection holes and cable stops. The YS-TC family also features the BURNDY® color code system. Select your choice of **black** or **clear** heat shrink kits.

\* Clear Heatshrink – UL224 VW1 Listed – passes TELCORDIA GR-347-CORE “Abrasion and Cut Test”. (Up to 750 kcmil Class B code cable. Contact factory for 750 flex cable applications.)

‡ Black Heatshrink – UL94VO – passes TELCORDIA GR-347-CORE “Abrasion and Cut Tests”. All connectors are UL486A Listed.

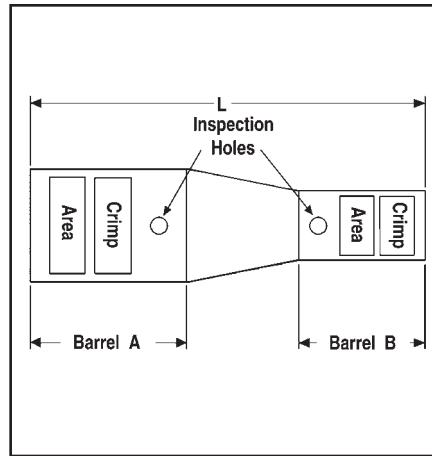

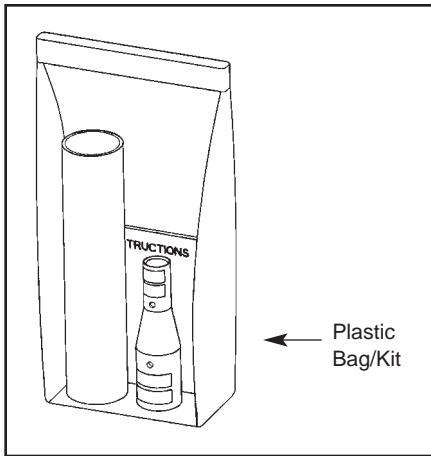

### TYPE YSR-TC

#### HYREDUCER™

##### In-line Reducer Splice Kits for Telecommunications Applications

C-102

YSR-TC reducing splice kits provide for splicing two different cable sizes with inspection holes. The larger conductor is inserted first and butts against the center of the connector where the smaller barrel begins. Constructed from seamless, high conductivity electrolytic copper tubing for maximum conductivity, and tin plated to resist corrosion. The YSR-TC family also features the BURNDY® color code system. Select your choice of **black** or **clear** heat shrink kits.

\* These kits were developed in conjunction with TYCO ELECTRONICS, Power System Division and will have TYCO markings on them.

† Provided with 2 heat shrink tubings. One will overlap the other. Install the smaller first and larger second.

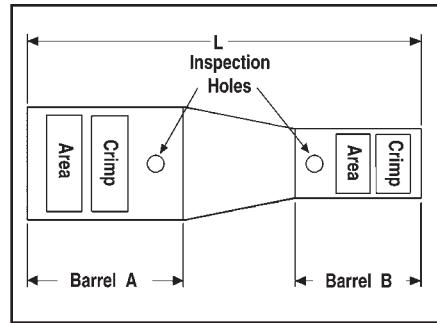

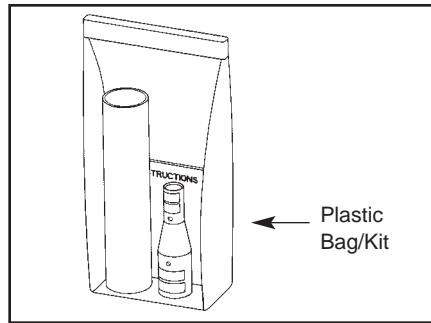

\*\* Clear Heatshrink – UL224 VW1 Listed – passes TELCORDIA GR-347-CORE “Abrasion and Cut Test”. (Up to 750 kcmil Class B code cable. Contact factory for 750 flex cable applications.)

‡ Black Heatshrink – UL94VO – passes TELCORDIA GR-347-CORE “Abrasion and Cut Tests”. All connectors are UL486A Listed.

\* These kits were developed in conjunction with TYCO ELECTRONICS, Power System Division and will have TYCO markings on them.

† Provided with 2 heat shrink tubings. One will overlap the other. Install the smaller first and larger second.

\*\* Clear Heatshrink – UL224 VW1 Listed – passes TELCORDIA GR-347-CORE "Abrasion and Cut Test". (Up to 750 kcmil Class B code cable. Contact factory for 750 flex cable applications.)

‡ Black Heatshrink – UL94VO – passes TELCORDIA GR-347-CORE "Abrasion and Cut Tests". All connectors are UL486A Listed.

### TYPE YC-L

#### THIN-WALL COPPER C-TAP

UL Listed to 600 Volts

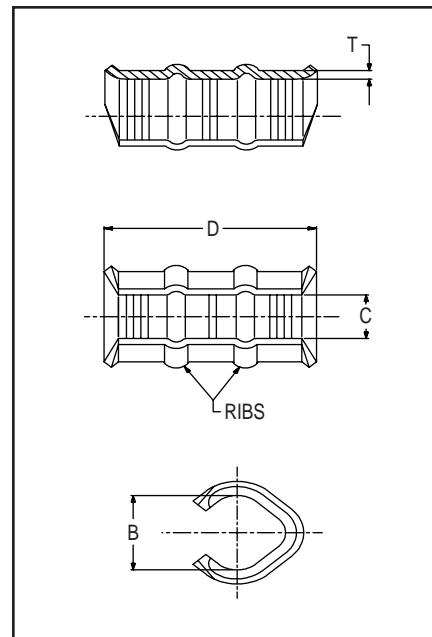

Type YC-L is a thin-wall high conductivity copper connector for making copper tap and parallel connections from #14 to 3/0 AWG.

C-104

#### Features and Benefits

- Manufactured from high conductivity wrought copper.
  - ◊ Provides low resistance and excellent electrical conductivity.
- Range-taking connector.
  - ◊ Lowers inventory requirements.
- Reinforced ribs.
  - ◊ Provides maximum pull-out values.
- Compact size.
  - ◊ Easy to tape and insulate connection.
- Economical.
  - ◊ Provides low installed cost.

▲ See tooling section of this catalog for complete tool and die listings.

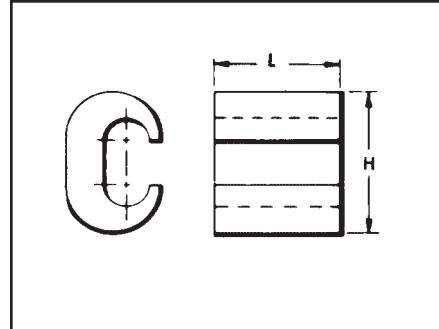

\* Use PUADP-1 adapter with "U" dies in Y46 HYPRESS™  
For Tin plating add "TN" suffix (example = YC10L12TN)

### TYPES YC-C

#### COPPER CRIMPIT™

UL Listed 90° C,  
600 Volts to 35kV◆

Type YC-C copper CRIMPIT™ connector is a range-taking C shape compression connector for making tap or parallel copper connections from #12 sol. to 4/0 strand conductor.

C-105

#### Features and Benefits

- Range-taking connector.  
◊ Lowers inventory requirements.
- Compact size.  
◊ Easy to tape and insulate connection.
- Manufactured from high conductivity wrought copper.  
◊ Provides low resistance and excellent electrical conductivity.
- Economical  
◊ Provides low installed cost.

#### Copperweld-Copper Conductors

- 8A - Use CRIMPITS™ accommodating 6 str. Copper
- 6A - Use CRIMPITS™ accommodating 4 Str. Copper
- 4A - Use CRIMPITS™ accommodating 2 Str. Copper
- 2A - Use CRIMPITS™ accommodating 1/0 and 2/0 Copper

† Not UL Listed.

‡ Number of Crimps.

▲ See tooling section of this catalog for complete tool and die listings.

\* Use PUADP-1 adapter when using "U" dies in the Y46 HYPRESS™.

\*\* Multiple crimp die set. Makes more than one crimp per tool compression. Figure ( ) indicates number of compressions.

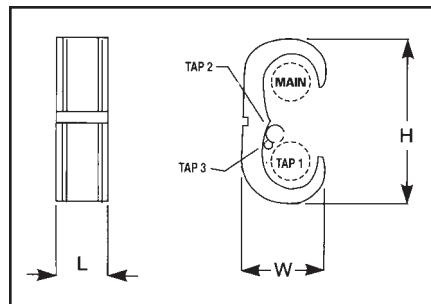

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### TYPE YCHC

#### C-TAP COPPER CRIMPIT™

C-106

#### Features and Benefits

- Wide range of run/tap combinations including Class B code I and locomotive flexible conductor combinations. All (B/B, B/I, I/I) combinations are recommended.
  - ◊ Each connector accommodates many cable combinations, allowing maximum flexibility for the design and installation of a system.
- Color-coded on the connector that matches the die.
  - ◊ Provides matched system for fast and easy installation.
- Each connector has a recommended insulating cover available. Flame retardant type CF-FR covers meet oxygen index 28 and UL94 V-O requirements.
  - ◊ A complete insulated UL listed installation is provided.
- Die index embossed on connector after completion of crimp.
  - ◊ Permanent inspectability of installed connector is insure consistently reliable and dependable connections.

**NOTE:** To properly use tap 2 and/or tap 3 conductors in YCHC connector a conductor from the tap 1 cable range must be included in the tap 1 groove.

‡ To obtain covers made of polyethylene remove suffix-FR (example: CFO). CFO is not flame retardant.

\* Use PUADP-1 adaptor with "U" dies in Y46.

▲ See tooling section of Master Catalog for complete tool and die listings.

♦ For applications requiring flame retardant cover, use CFBG-FR cover and YH8C8C connector by ordering YH8C8CWC.

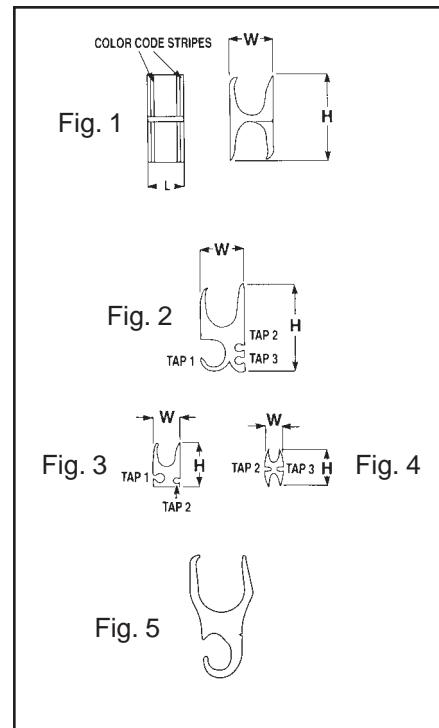

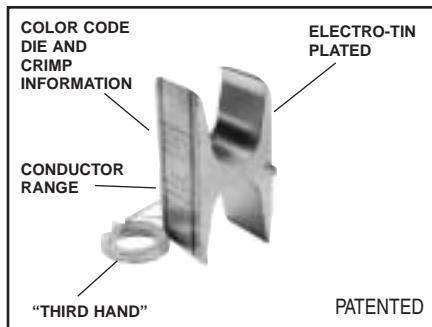

### TYPE YH

#### H-TAP COPPER CRIMPIT™

#### Features and Benefits

- Accommodates a wide range of run/tap copper cable combinations including both flexible and code combinations. All (B/B, B/I, I/B, I/I) combinations acceptable.
  - ◊ Each connector has many copper cable combination applications allowing maximum flexibility for the design and installation of a system.
- Tap grooves function independently of each other. Use of one tap is required. Balance may be used or left empty.
  - ◊ Provides maximum design and installation flexibility.
- Color code on the connector matches installation die.
  - ◊ Provides matched system for fast and easy installation.

① Use CFN-FR for single tap installation and CFR-FR for multiple tap installation

• Use PUADP-1 adaptor with "U" dies in Y46.

**NOTE:** To obtain connector and cover packaged together, add suffix "-WC" to connector catalog number (example: YH2929-WC includes (1) YH2929 and (1) CFD-FR in a polybag).

† To obtain covers made of polyethylene remove suffix -FR (ex. CFO) CFO is not flame retardant.

▲ See tooling section of this catalog for complete tool and die listings.

③ 750 Flex, main, is the only wire that may be used with a 350 FLEX TAP in the YH4444 connector.

① Use CFN-FR for single tap installation and CFR-FR for multiple tap installation

- Use PUADP-1 adaptor with "U" dies in Y46

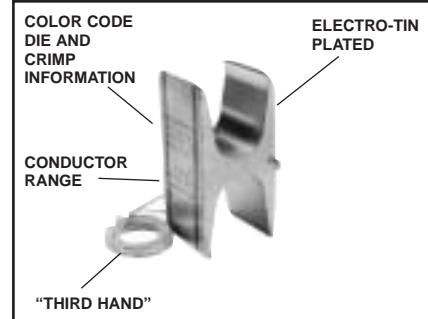

**NOTE:** To obtain connector and cover packaged together, add suffix "-WC" to connector catalog number.

Example YH2929-WC includes (1) YH2929 and (1) CFD-fr in a polybag.

† To obtain covers made of polyethylene remove suffix -FR (ex. CFO) CFO is not flame retardant.

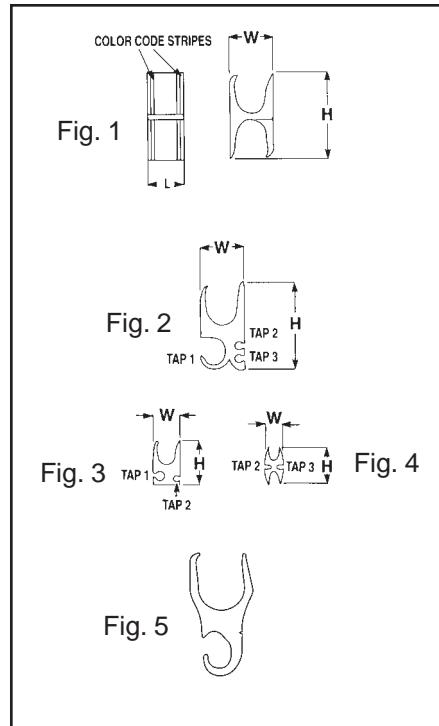

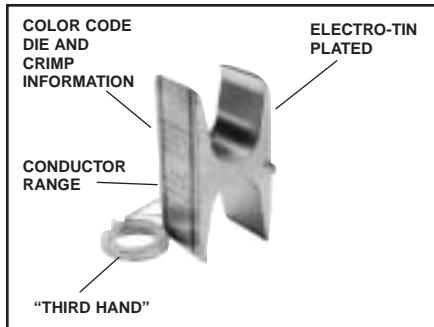

▲ See tooling section of this catalog for complete tool and die listings.

\* Will accommodate 750 Flex (Main) to 350 Flex (TAPI). Please consult factory regarding UL listings with metric conductor.

#### COPPER SPLIT COMPRESSION WYE TAP CONNECTOR

C-110

Type YSH heavy duty connectors are designed for insulated underground wye splices. The split H copper CRIMPIT™ connector is longer than our standard H copper CRIMPIT™ and is suitable for use on high voltage (15 kV) power cables with copper conductors. The connectors can not be used with oil filled or mass impregnated cables since no oil stop is provided. The connector is installed with standard BURNDY® HYPRESS™ tools and is made of tin-plated electrolytic copper.

| Expanded TAP 1 Components |             |
|---------------------------|-------------|
| Expanded Catalog Number   | TAP 1 Range |
| YSH-294C-E                | #4          |
| YSH-292C-E                | #2          |
| YSH-2925-E                | 1/0         |

#### Features and Benefits

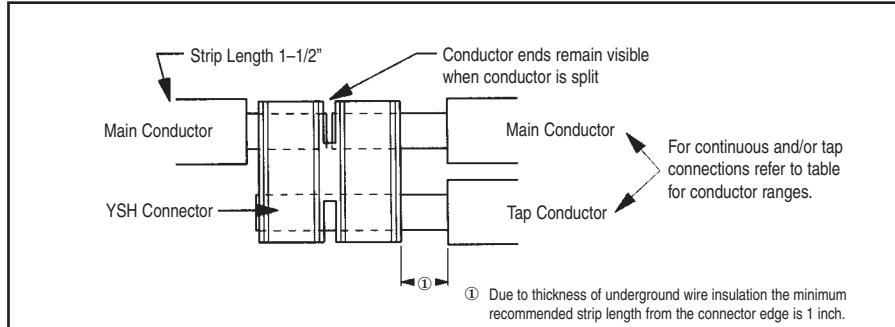

- Accommodates a wide range of run/tap copper cable combinations including both flexible and code combinations. All (B/B, B/I, I/B, I/I) combinations acceptable.
- ◊ Each connector has many copper cable combination applications allowing maximum flexibility for the design and installation of a system.
- Tap grooves function independently from each other. Use of one tap is required. Balance may be used or left empty.
- ◊ Provides maximum design and installation flexibility.
- Color code on the connector matches installation die.
- ◊ Provides matched system for fast and easy installation.
- Die index embossed on connector after completion of crimp.
- ◊ Permanent inspectability of installed connectors to ensure consistently reliable and dependable connections.
- Insulation is not provided. Insulation can be obtained from Raychem (800-272-9243) type HVSY Splice kits for 15 kV installations.
- ◊ A complete IEEE 404 15 kV installation is provided.

\* Use PUADP-1 adaptor with "U" dies in Y46. The Y46 and P dies result in a smooth crimp surface and is recommended for voltages above 600V.

▲ See tooling section of this catalog for complete tool and die listings.

† Number of crimps per connector. "U"-dies require double crimps.

## TYPE CF-FR

### H-TAP - FLAME RETARDANT COVER

UL Listed to 600 Volts

600 VOLT 90° C

C-111

#### Features and Benefits

- One-piece design.
  - ◊ No extra parts or hardware required.
- Slips over connector and latches securely shut.
  - ◊ Fast, easy, reliable insulation of H-Tap compression.
- Eliminates tapping.
  - ◊ Economical, fast, easy installation.
- Flash barriers.
  - ◊ Protects against electrical flashover.
- CF-FR flame retardant design.
  - ◊ Self-extinguishing retardant properties.
- Minimum 28 oxygen index.
  - ◊ Self-extinguishing retardant properties.
- UL 94 V-O rated.
  - ◊ Self-extinguishing retardant properties.

\* Use CFR-FR WHEN MULTIPLE TAPS ARE USED.

† Two-piece design packaged together.

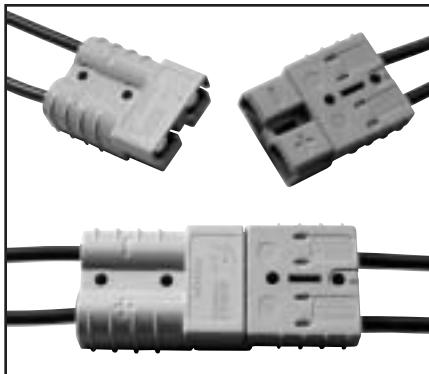

### TYPE PP & YP

#### QikPwr™ SEPARABLE POWER CONNECTORS

C-112

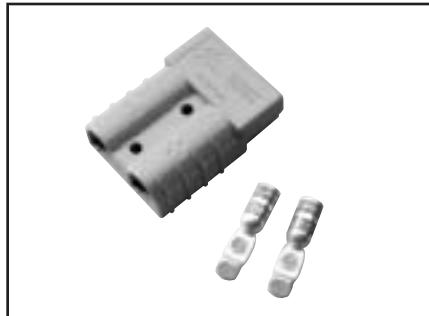

QikPwr™ Separable Power Connectors are designed to allow for quickly mating and unmating two-pole applications. Available for use in 50, 175, and 350 Amp applications. Rated for up to 600 volt continuous AC or DC operations. Each contact is Silver-Plated to ensure high conductivity. Housings are UL94VO rated.

For sizes and colors not shown, contact our world class customer service department.

### TYPES YST

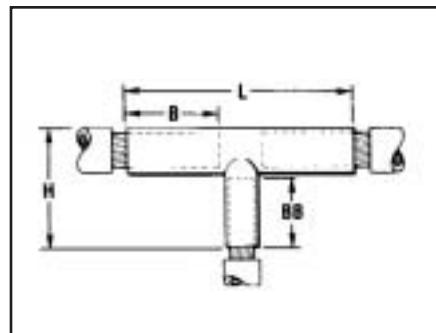

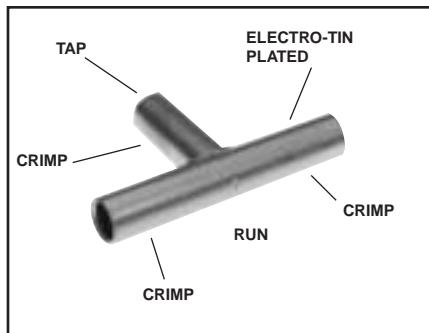

#### UNINSULATED "T"

#### COPPER HYTEE™ COUPLER

UL Listed 90° C,  
600 Volts to 35 KV◆

Type YST copper compression tee is designed for connecting a run conductor with a perpendicular tap conductor.

YST connectors are commonly used in junction boxes and manholes to make a radial tap off a main run. They are needed in many industrial, utility generation and commercial applications. The most common cable combinations are listed below. BURNDY® Type Y-R reducers can be used to accommodate most cable combinations.

C-113

#### Features and Benefits

- Manufactured from seamless high conductivity electrolytic copper tubing with heavy duty wall thickness.
- Provides maximum conductivity, low resistance and ductility for an excellent combination of electrical and crimp forming properties.
- Long barrel design on all three (3) legs.
- Provides for an additional crimp or indent with almost twice the pull out strength properties as a standard length barrel plus a connection that will operate cooler under heavy loading.
- Long barrel permits the use of the Y-R reducers.
- Affords total flexibility and versatility for virtually any conductor combination.
- Electro-tin plated.
- Provides durable long-lasting corrosion resistance.
- Barrel diameter closely matches commercial (code) cable and Navy cable diameters.
- Provides an excellent relationship of the conductor/ connector combination to produce a high quality electrical connection with the recommended tooling.

\* Use adapter PUADP-1 with "U" Dies in Y46 HYPRESS™.

■ The maximum size for the Y35 is 400 kcmil.

• Contact factory for conductor combinations not shown.

▲ See tooling section of this catalog for complete tool and die listings.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### T-CONNECTOR

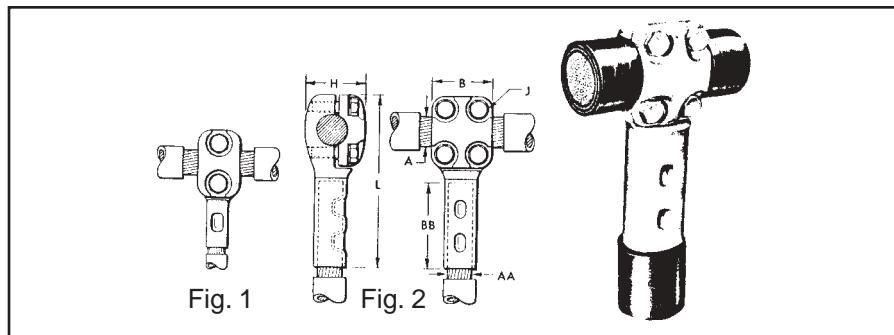

#### TYPE NYT

#### CABLE RUN — CABLE TAP

UL Listed 90° C,  
600 Volts to 35 KV ♦

C-114

A "T" connector designed to provide a clamp-type element on the run and a permanent HYPRESS™ connection on the tap. Recommended for use on ring buses or for applications where occasional disconnects from the run conductor are desired without disturbing the tap connection. Tin plated. For proper installation of tap cable, see table below.

\* Y48B HYPRESS™ with Y48PR indentor.

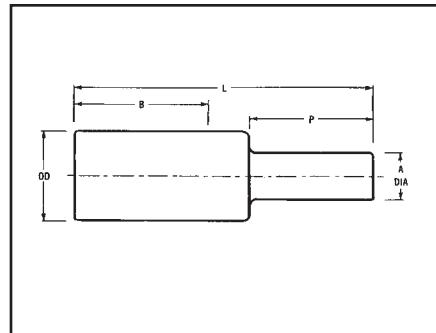

♦ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

NOTE: Circumferential dies may be used. For information contact BURNDY®.

### TYPE YE-P, YE-P-FX

#### HYPLUG™ FOR COPPER CONDUCTOR

Type YE-P copper compression adapters are designed for reliable termination of **copper** conductor when the current capacity of the conductor is downsized, but larger conductor is utilized. Typical applications are for voltage drop protection when oversized conductors are used or flex conductor is used. These adapters facilitate the termination into existing mechanical set screw connectors for various stranded copper cables.

C-115

1 For sizes above 4/0 the MD6-6R2 must be used.

④ To use "U" Dies in Y46 HYPRESS™, Catalog number PUADP-1 die adaptor is required.

### TYPE YA-A AND YA-A-TN

**HYLUG™**

**UNINSULATED  
ALUMINUM COMPRESSION  
TERMINAL**

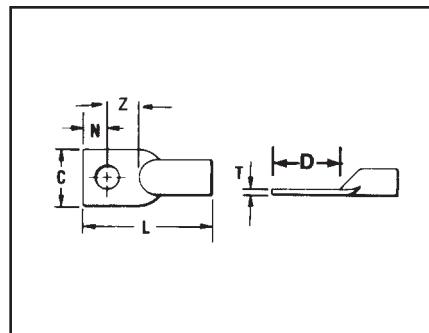

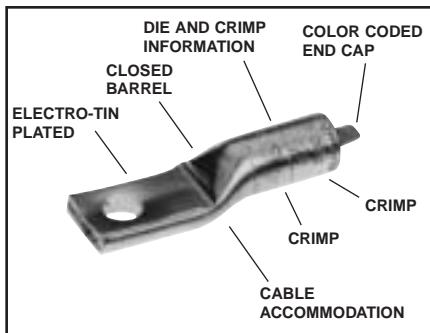

C-118

#### 1-HOLE DESIGN

UL Listed 90° C,  
600 Volts to 35 KV◆

Type YA-A aluminum tin-plated compression HYLUG™ terminals are dual-rated and designed for use on both aluminum and copper conductors from #12 sol. through 2000 kcmil.

They are designed for heavy duty applications to 35KV. YA-A terminals are pre-filled with PENETROX®, and assembled with color-coded end caps. Available with one, two, and four-hole NEMA tongues, the aluminum HYLUG™ terminals are designed for a permanent trouble-free electrical termination.

#### Features and Benefits

- Manufactured from high conductivity, wrought aluminum with heavy duty wall thickness.
    - Provides maximum conductivity, low resistance and ductility for an excellent combination of electrical and crimp forming properties.
  - Electro-tin plated.
    - Provides durable long lasting corrosion resistance.
  - Internally bevelled barrel.
    - Provides easy cable insertion.
  - Meets UL486B 90° C requirements.
    - Provides a quality electrical dual connection.
  - Connector is clearly marked with wire size, die index, color-code and the proper number and location of crimps.
    - Provides easy identification and tooling recommendation for a proper compression which forms a homogeneous mass resulting in an excellent electrical connection.
- Factory pre-filled with PENETROX® oxide inhibiting compound.
    - Oxide inhibiting compound contains homogeneously suspended metallic particles to penetrate the wires' oxides, establish electrical continuity and forms an airtight connection.
  - Color-coded end caps inserted in barrel end.
    - Prevents foreign materials from entering and contaminating the connector prior to usage plus identifies the proper color-coded die for a reliable connection.

\* Use PUADP-1 adaptor with "U" dies in Y46 Hypress™.  
\*\* P44ART for use with Y46 HYPRESS™ only. PUADP-1 adapter not required.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### Y644M DIELESS HYPRESS™ RANGE-TAKING CAPABILITIES

The following size HYDENT™ lugs and two way splices, when crimped with the Y644M DIELESS HYPRESS™ tool, produce the following range taking capabilities:

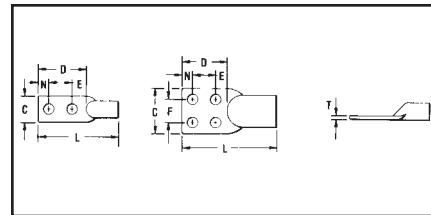

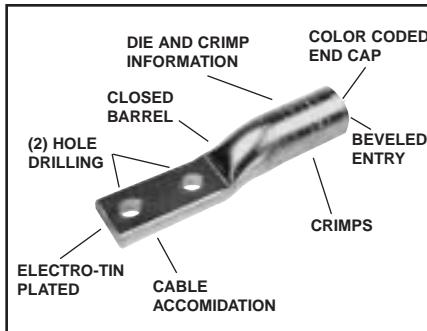

| ALUMINUM CONNECTORS |                     |                    |                     |                    |                     |
|---------------------|---------------------|--------------------|---------------------|--------------------|---------------------|

**TYPE YA-A****HYLUG™****UNINSULATED ALUMINUM COMPRESSION TERMINAL****2-HOLE AND 4-HOLE DESIGNS**

C-120

UL Listed 90° C,  
600 Volts to 35 KV◆

Type YA-A 2- and 4-hole pads inhibit connector rotation and increase area contact. These

aluminum terminals have the same design features and benefits as the 1-hole YA-A with an added stud hole for a more secure termina-

nation to various types of equipment pads. They are dual-rated for use on both aluminum and copper conductors.

- See tooling section of this catalog for complete tool and die listings.

† Use Y60 BHU HYPRESS™ with L46ART and L48ART die sets.

90° C Rated.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.

\*\* P39ART and P44ART die sets for use with Y46 HYPRESS™ only. PUADP-1 adapter not required.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### Y644M DIELESS HYPRESS™ RANGE-TAKING CAPABILITIES

The following size HYDENT™ lugs and two way splices, when crimped with the Y644M DIELESS HYPRESS™ tool, produce the following range taking capabilities:

## TYPE YA-A-KIT

### TRANSFORMER LUG KIT

Each kit contains the UL listed and CSA certified AL9CU rated aluminum compression connectors and tongue mounting hardware needed to terminate aluminum or copper cables in "dry type" transformers. The KVA rating gives an approximate cross reference to the appropriate kit.

CONNECTOR

C-121

### Features and Benefits

- UL listed AL9CU dual rated compression terminals and CSA certified.
  - ◊ Ensure the transformer feeders and taps are terminated properly.
- Plated steel cap screws and hex nuts with captive conical washers or individual Belleville washers.
  - ◊ Terminal to bus connections are made using proper hardware resulting in true torque to pressure performance.
  - Compensates for dissimilar metal expansion and contraction.
- Hardware packed in plastic bag.
  - ◊ No lost hardware prior to installation.

### TYPE AYP, AYPO

#### HYPLUG™

#### FOR ALUMINUM AND COPPER CONDUCTOR

UL Listed 90° C,  
600 Volts to 35 KV◆

C-122

Types AYP and AYPO aluminum compression adapters are designed for reliable termination of aluminum and copper conductor in mechanical connectors. Typical applications include mechanical connectors in molded case circuit breakers, panel board equipment and meter sockets.

AL9CU

#### Features and Benefits

- All-aluminum electro-tin plated design.
    - ◊ Eliminates possible bi-metallic corrosion and provides the shortest connector length design possible.
  - Shortest connector length design possible.
    - ◊ Permits easy installation in equipment with limited working space.
  - Solid electro-tin plated aluminum plug.
    - ◊ Proper electrical connection made easily. Eliminates "how tight is tight" problem.
  - Smooth surface on the solid EC aluminum electro-tin plated plug.
    - ◊ Provides greater area contact establishing excellent electrical conductivity.
  - Solid plug has same diameter as current carrying equivalent copper wire.
    - ◊ Permits use of larger aluminum wire to connect equipment.
  - Offset plug design available in sizes 2/0 through 750 kcmil.
    - ◊ Provides flexibility and maximizes the use of limited space eliminating interference between conductors and equipment.
- ◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.
- Electro-tin plated.
    - ◊ Resists corrosion.
  - Factory prefilled with the proper amount of PENETROX® joint compound.
    - ◊ PENTROX®, BURNDY's oxide inhibiting compound with conductive metallic particles penetrates aluminum oxide between strands and forms an air-tight connection.
  - EPDM rubber covers are supplied with each connector.
    - ◊ Eliminates taping.
  - Only (5) die sets install the complete line from #6 to 750 kcmil.
    - ◊ Lowers inventory requirements and saves money.
  - Supplied in a plastic convenience pack.
    - ◊ The cover and connector are kept together and free of foreign material until used.
  - Connectors are clearly marked with catalog number, wire size, and color coded die index.
    - ◊ Provides clear, easy to use information to lower installed cost.

Scratch brush aluminum conductor before installation.  
▲ See tooling section of this catalog for complete tool and die listings.

\*\* For MY29-3 use aluminum index plate at 1/0 setting for sizes #6 through 1/0 or at 4/0 setting for sizes 2/0 through 4/0.

+ Not UL listed.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.

□ Also accommodates compressed and compact conductors (except for 700 kcmil in 750 kcmil barrel).

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

### Y644M DIELESS HYPRESS™ RANGE-TAKING CAPABILITIES

The following HYPLUG™ lugs and two way splices, when crimped with the Y644M DIELESS HYPRESS™ tool, produce the following range-taking capabilities:

| ALUMINUM CONNECTORS |                     |                    |                     |                    |                     |

### TYPE YS-A

#### HYLINK™

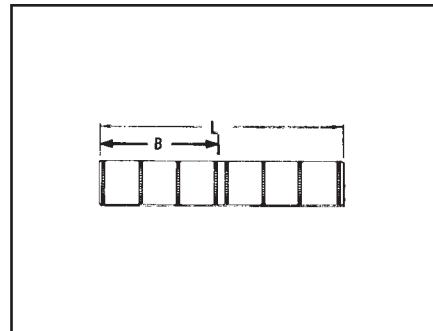

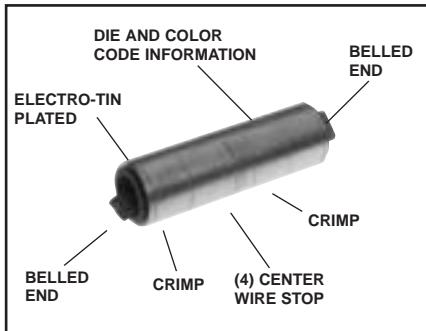

#### UNINSULATED ALUMINUM COMPRESSION SPLICE

UL Listed 90° C,  
600 Volts to 35 KV◆

C-124

Type YS-A is a high-conductivity aluminum tin-plated compression butt splice for use on all combinations of aluminum to aluminum, aluminum to copper, and copper to copper conductor combinations.

They are designed to accommodate conductors from #12 str. through 1,000 kcmil in standard and heavy duty applications. Prefilled with PENETROX® oxide inhibiting compounds and assembled with color-coded end caps, the connectors provide a permanent trouble-free electrical splice with flexibility and low installed cost.

#### Features and Benefits

- Manufactured from high-conductivity wrought aluminum with heavy duty wall thickness.
  - ◊ Provides high-conductivity/low resistance and ductility for an excellent combination of electrical and crimp forming properties.
- Electro-tin plated.
  - ◊ Provides durable long lasting corrosion resistance.
- Internally bevelled barrel.
  - ◊ Provides easy cable entry.
- Solid center stop and prefilled with PENETROX® oxide inhibiting compound.
  - ◊ Provides stop for proper conductor insertion and an aid in forcing the PENETROX® between the individual wire strands.

- Color-coded end caps.
  - ◊ Provides easy wire size and die code identification plus prevents foreign materials from entering and contaminating the connector prior to usage.
- Connector is clearly marked with wire size, die index and the proper number and location of crimps.
  - ◊ Provides easy identification and tooling recommendation. Proper compression forms a homogeneous mass resulting in an excellent electrical connection.

◆ See tooling section of this catalog for complete tool and die listing.

① No color code assigned.

‡ UL Listed for Aluminum only. Not CSA Certified.

\* Use PUADP-1 adaptor with "U" dies in Y46 HYPRESS™.

■ The largest size for the Y35 is 400 kcmil.

◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.

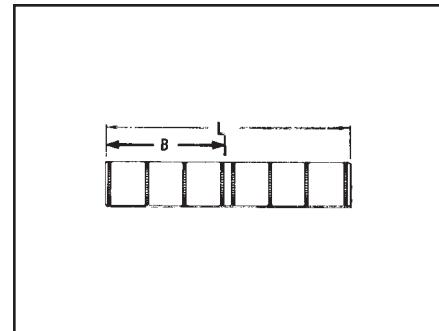

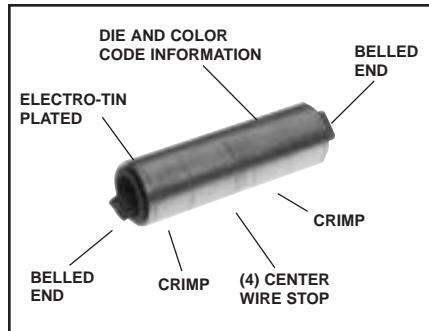

• Also accommodates compressed and compact conductors (except for 700 kcmil in 750 kcmil barrel).

### TYPE YS-AT

#### HIGH VOLTAGE UNINSULATED ALUMINUM COMPRESSION SPLICE

C-126

Type YS-AT is a high-conductivity aluminum electro-tin plated compression butt splice with tapered ends for high voltage applications up to 35 KV.

The YS-AT provides the same benefits as the YS-A with the addition of tapered ends for easy installation of high voltage insulating kits. Tapered ends aid in preventing corona emission and insulation breakdown. Recommended for high voltage splice applications.

#### Features and Benefits

- Tapered ends for applications through 35KV.
  - ◊ Permits easy taping and aids in preventing corona emission and insulation breakdown.
- Heavy wall aluminum tubing.
  - ◊ For use with combinations of AL-AL, AL-CU, CU-CU

† Contact BURNDY® for conductor sizes not shown.

\* Use PUADP-1 adapter for "U" dies.

\*\* P39ART and P44ART for use with Y46 HYPRESS™ only.

PUADP-1 adapter not required.

■ The maximum size for the Y35 is 400 kcmil.

▲ See tooling section of this catalog for complete tool and die listings.

- Also accommodates compressed and compact conductors (except 700 kcmil in 750 kcmil barrel).

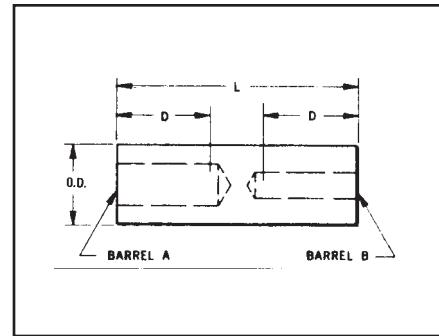

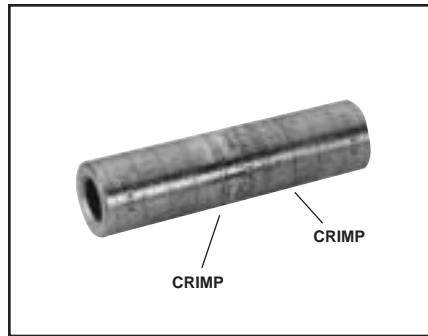

### TYPE YRB

#### HYREDUCER™

#### FOR ALUMINUM TO COPPER AND ALUMINUM TO ALUMINUM

UL Listed 90° C,  
600 Volts to 35 KV◆

HYREDUCER™ type YRB reducer butt splice is designed to splice two different conductor sizes and is UL listed for aluminum to copper and aluminum to aluminum applications. The outside diameter is held constant to minimize installation dies and is factory prefilled with PENETROX®.

C-127

#### Features and Benefits

- Constant outside diameters. Electro tin-plated.
  - ◊ Minimizes installation dies and provides a smooth profile for easy taping. Provides durable long lasting corrosion resistance.
- Factory prefilled with BURNDY's PENETROX® oxide inhibiting compound.
  - ◊ Contains Homogeneously suspended conductive metallic particles which penetrate oxides between conductor strands and forms an air tight connection.
- Connectors are clearly marked with catalog number, wire size, and color-coded die index.
  - ◊ Provides clear, easy to use information to lower installed costs.
- Each barrel end has a plastic end cap.
  - ◊ Keeps the connector barrels free of foreign materials.

† Contact BURNDY® for conductor sizes not shown.  
▲ See tooling section of this catalog for complete tool and die listings.  
‡ Number of crimps.  
\* Use PUADP-1 adaptor with "U" dies shown in Y46 HYPRESS™.

■ The maximum size for the Y35 is 400 kcmil.  
◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.  
• Also accommodates compressed and compact conductors (except 700 kcmil in 750 kcmil barrel).

### TYPES YFD, YFN, YFO AND YFR

#### H-CRIMPIT™

#### UNINSULATED ALUMINUM COMPRESSION TAP CONNECTOR

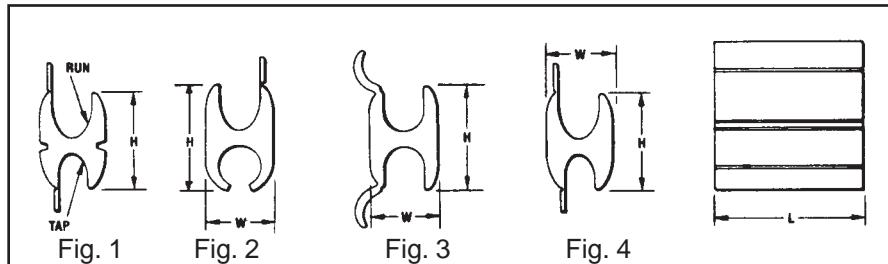

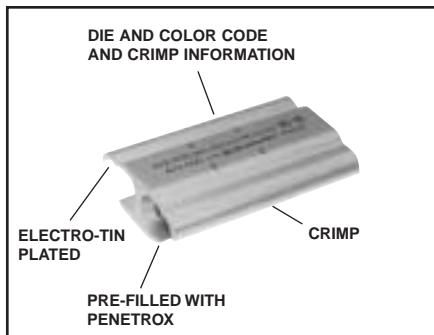

C-128

#### FOR ALUMINUM TO COPPER AND ALUMINUM TO ALUMINUM

UL Listed 90° C,  
600 Volts to 35 kV◆

H-CRIMPIT™ compression tap connectors Types YFD, YFN, YFO and YFR are for use with aluminum to aluminum and aluminum to copper connections.

The H-CRIMPIT™ is ideal for making both parallel and tap compression connections in risers and gutters. It should only be installed with hydraulic tools.

#### Features and Benefits

- Each connector is factory sealed in polyethylene.
- ◊ Maintains the connector free of dirt and foreign materials prior to being used.
- When installed the connector has a smooth profile.
- ◊ Easy to tape or to install an insulating crimp cover (See Types CFA and CFA-FR) thereby lowering installed costs.
- Connectors are color-coded to match installation die.
- ◊ Easy die selections lower installed cost.
- UL 486B Listed.
- ◊ Provides a quality electrical connection.

#### NOTES:

1. Material: Aluminum.
2. For Conductor combinations of AL to AL or AL to CU.
3. Catalog Number PUADP-1-Adaptor is required to use "U" type dies in Y46 tools.
4. Other conductors not listed in table can be accommodated as long as the conductor diameter falls within diameter range specified.

- ▲ See tooling section of this catalog for complete tool and die listings.
- † Do not use U-YFN die set with P-UADP-1 adapter in Y46 HYPRESS™. Use P-YFN only.
- ◆ For applications greater than 2000 Volts consult cable manufacturer for voltage stress relief instructions.
- \* CSA listed.

### TYPES CFA AND CFA-FR

#### H-CRIMPIT™ INSULATING COVERS

#### H-CRIMPIT™ FLAME RETARDANT INSULATING COVERS

#### FOR O, D3, N, AND KR DIE SIZE H-TAP COMPRESSION CONNECTORS

UL Listed to 600 Volts

Type CFA insulating covers are made of high impact, high density polyethylene to insulate H-tap CRIMPIT™ compression connectors. Overlapping flash barriers protect both seams against possible electrical flashover. End fingers remain closed or wrap closely around conductors. Multiple latches lock cover closed securely.

Type CFA-FR flame retardant insulating covers are made of high impact, high density polypropylene with a minimum 28 oxygen index. This cover incorporates all the features of the CF design plus the benefit of self-extinguishing flame retardant properties. Material is UL 94V-O rated.

Both CFA and CFA-FR types are suitable for indoor and outdoor use. Pliable in cool weather application.

\* Two piece design packaged together.

C-129

#### Features and Benefits

- One-piece design.
  - ◊ No extra parts or hardware required.
- Slips over connector and latches securely shut.
  - ◊ Fast, easy, reliable insulation of H-Tap compression connectors.
- Eliminates taping.
  - ◊ Economical, fast, easy installation.
- Flash barriers.
  - ◊ Protects against electrical flashover.
- CFA-FR flame retardant design.
  - Minimum 28 oxygen index.
  - UL 94 V-O rated.
  - ◊ Self-extinguishing flame retardant properties.
