Philips

Luminaire service guide

About this guide

This guide was created to provide a service program to ensure that we fully support your shelf-stocking requirements and provide you with reliable lead times to address the demanding timelines of construction and retrofit lighting projects. Indoor lighting products available through this guide are Philips Chloride, Philips Color Kinetics, Philips Day-Brite, Philips Lightolier and Philips Vaya brands. Outdoor lighting products available are Philips Color Kinetics, Philips Gardco, Philips Hadco, Philips Stonco, and Philips Vaya brands. This program allows you to select the product and corresponding lead time to meet the needs of your specific customer's project.

In this Service Guide, you will find all Stock and Quick Ship 10 Day items as well as stock locations.

To support this service program, we have developed the following categories:

- **Stock products** will be shipped in 48hrs from our warehouses*.
- **Quick Ship 10 products** will be assembled to order and ship within 2 weeks from our factories*.

* Service time is calculated from the time the order is entered until it is shipped.

Service

Philips

Luminaire service guide

Our commitment to you

Our delivery commitment is backed by a significant investment in finished goods and component inventory. If any unforeseen issues arise or if order volume exceeds maximum order quantity, we will do our best to meet your needs and confirm an acceptable ship date.

Standard lead time products will ship within 4 to 8 weeks, while lead times for special, made to order and custom configured products for all Philips luminaire brands* can be confirmed by contacting the order desk.

Lead time is from the time the order is entered and received by our warehouse. Our goal is to enter orders within one business day of receipt.

To enable fast order entry, orders must be received with complete and correct catalog numbers and reference to the source of pricing (i.e. quote number or pricing program). It is recommended that you reference "Service Guide" on your orders for product in this guide to speed the order entry process.

In order to avoid delays, it is recommended that stock orders be "stand alone" so that they may be shipped within the promised time-frame.

To ensure we satisfy all our customers optimally and meet the committed lead times, maximum order quantities may apply. If the order exceeds the set threshold, Philips will contact you to work out a feasible schedule for your large order. It is always advised to work with your Philips representative to give advance notice of your large order.

Stock availability

Philips Lighting maintains stock levels of our luminaires at multiple warehouses. Our warehouses are located in multiple regions across the US in order to provide our customers with quick access to the inventory you require. Look for the code in the "Stocked In" column of this Service Guide.

* This pertains also to brands and product categories not represented in this particular guide.

In case you have questions, please contact your sales representative or Customer Service.

Philips Contact Center: 1-855-486-2216

We understand that customer demand may change unexpectedly. Therefore, all items in our Service Guide are now returnable, per our standard return policy terms and conditions.

- Visit **www.philips.com/warranties** for details on our standard terms and conditions

Terms and Conditions

Freight Terms: Individual order minimum of $1,000;
$100 shipping and handling fee for orders less than $1,000.
1% 10th Prox 2nd, Net 25th Prox 2nd for Stock Orders
1% 10th Prox, Net 25th Prox for Drop Ship/Project Business

Indoor

In addition to the Stock & Quick Ship 10 indoor luminaires that are covered on the following pages, we do offer standard lead-time and custom made-to-order products. Lead-time for many standard products is four to six weeks, but all lead-times can be confirmed by contacting the order desk.

For additional details on these products, and other luminaires not included in this guide, you may refer to our e-catalog at www.philips.com/luminaires.

Outdoor

In addition to the Stock & Quick Ship 10 outdoor luminaires that are covered on the following pages, we do offer standard lead-time and custom made-to-order products. Lead-time for many standard products is 6 weeks, but all lead-times can be confirmed by contacting the order desk. Most of the products included in this guide offer additional configurations, available with a standard lead time.

Philips also offers a variety of outdoor luminaires and poles that are not included in the Service Guide. For additional details on our Urban, Roadway, Poles, and more, please reference our eCatalog at www.philips.com/luminaires.
