

WEATHERPROOF

TABLE OF CONTENTS

TAYMAC has been a market leader in indoor and outdoor electrical products for over 20 years. We are headquartered in Gilbert, Arizona, with international offices in China. Our product line includes specification grade commercial and residential weatherproof-while-in-use lines of safety outlet enclosures as well as a complete line of outdoor weatherproof products. All of our products are designed and tested to meet or exceed UL, ETL, OSHA and NEC requirements.

Since the beginning, we have emphasized innovation in product design. This focus has kept us on the cutting edge of new product development. Every year we introduce new and unique products to the industry and we currently have over 100 patents and patents pending. We also custom manufacture products to meet exact specifications.

TayMac has an established national distribution channel in the retail and wholesale of our entire product line through electrical supply stores, national electrical products companies, garden and pool stores, and all major home centers.

RECESSED COVERS

RECESSED IN-USE DEVICE COVERS

- More Stylish and Safe Than Ordinary Outlets
- Accepts Paint and Wallpaper
- Weatherproof While-In-Use
- **NEMA 3R** Compliant
- Hides Unsightly Plugs
- Tamper Resistant
- **UL LISTED** & Meets OSHA and NEC® Requirements

RECESSED COVERS

TayMac recessed receptacle covers are designed to hide electrical outlets while creating a clean wall surface and increased safety. The cover is made from a specially engineered material that can easily be painted or wallpapered. TayMac recessed covers are suitable for interiors and exteriors, both commercial or residential, and have a weatherproof rating while in use. Recessed makes work areas safe while keeping a clean and sleek design. The neutral bone (off-white) color can easily be painted or wallpapered to match any setting.

BENEFITS OF RECESSED COVERS

- Assures that household items such as small kitchen appliances, power tools, holiday lights, and garden lights remain plugged in.
- Furniture and decorative art can be placed flush against the wall without the ends of cords getting crushed or bent.
- Offers parents greater protection for their young children with the unique latching cover.
- Increases safety in commercial locations with busy foot traffic, such as airport terminals, hotel lobbies, and restaurants.
- Prevents office computers and machines from accidentally becoming unplugged.

The clean design of this kitchen was enhanced by TayMac Recessed units.

TayMac Recessed conceals easily with matching paint to maintain the integrity of the architectural design.
