HARD HATS

A true work of art, the Dax is our most innovative, stylish and ultra-protective hard hat.

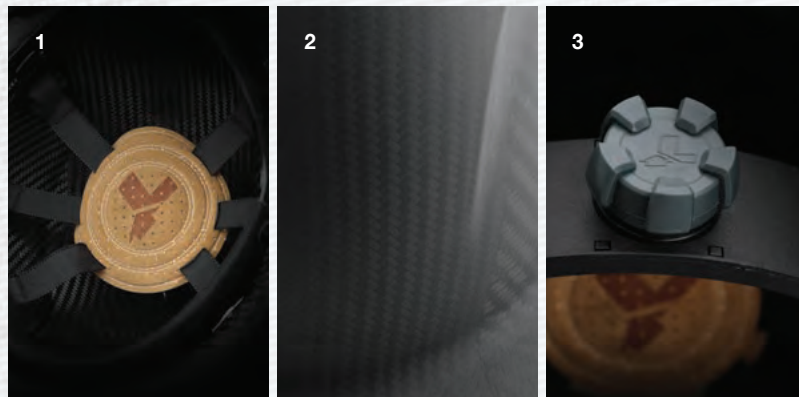

DAX CARBON

- 1  Carbon Fiber - Reinforced shell for superior impact protection
- 2  Grip - Rubber hand grip for easy use
- 3  6 point - Suspension system for a secure, comfortable fit
- 4  Triple Reinforced - crown for superior impact protection
- 5  Ratcheting Fitment Dial - to adjust size, oversized to grip and use with gloves on

DAX CARBON

1. Perforated Clarino® synthetic leather comfort dome with molded EVA foam insert for additional shock absorbing protection
2. Fiber reinforced resin shell for superior impact protection
3. Oversized ratcheting fitment dial to adjust size, easy to grip and use with gloves on
4. Rubber lid grip
5. Moisture wicking foam backed microfiber liner reduces sweat build-up
6. 6 point suspension system for a secure, comfortable fit
7. Triple reinforced crown for superior impact protection
8. Meets ANSI Z89.1-2014 REQUIREMENTS FOR TYPE 1 CLASS C

GLOVES

THE LIFT LAB

PRO SERIES GLOVES

Pro Series Gloves are designed and engineered to be task specific in nature. There are options ideal for industries ranging from industrial, heavy construction to DIY and light duty work. High quality materials and form fitting construction ensure extended use and easy operation.

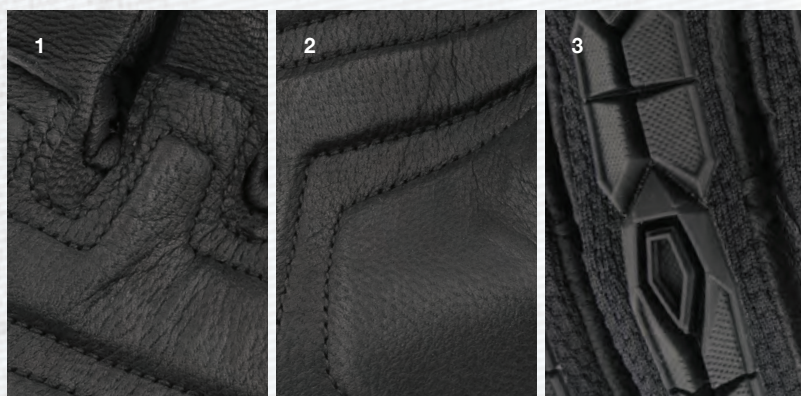

TACKER

- 1  TPR Knuckle Guard - Enhanced finger coverage for added protection
- 2  Perforated Leather - Perforated genuine leather provides rugged strength and breath-ability
- 3  Touch Screen Finger Tip - Coated with advanced touch conductive material to enable you to flawlessly use a touch screen device
- 4  TPR Strap Closure - Velcro TPR closure for a secure fit
- 5  Leather EVA Padded Palm - Made to protect you from rough surfaces and other hazardous elements

TACKER

The Tacker glove is made a heavy duty, genuine leather and designed for superior abrasion resistance.

1. Genuine leather reinforcements on the palm, saddle, fourchettes and fingertips for impact and vibration absorption
2. EVA padded palm for impact and vibration absorption
3. TPR knuckle impact protection
4. Embossed airprene comfort cuff
5. Touch screen finger tip
6. Machine washable genuine leather for maximum abrasion resistance
7. TPR wrist closure

The Apex Gel is our #1 selling knee pad that works as hard as you do!

APEX GEL

- 1 TPR - Knee cap maximizes traction and stability on all surfaces
- 2 Apex Gel - Insert forms to patella and knee cap, maximizing stabilization and protection
- 3 Ballistic Nylon - construction resists abrasion for increased durability
- 4 Two Strap Design - fully adjustable for any knee

APEX Gel

1. Hinged upper support strap is removable and prevents binding
2. Fully adjustable two strap design resists slipping
3. Textured TPR knee cap maximizes traction and stability on all surfaces
4. Internal gel insert forms to patella and knee cap, maximizing stabilization and protection
5. Ballistic nylon construction resists abrasion for increased durability
6. Designed to prevent "roll-off" on hard surfaces

COOLING TOWEL

1. Evaporation cooling system, just wet it, ring it then wear it.
2. Constructed from lightweight poly blend.
3. Helps regulate temperature to protect against heat exhaustion and heat induced stressed.

COLOR	PART #
GREEN	ACL-18G

NECK BAND

1. Evaporation cooling system
2. Quick release snap for improved user safety
3. Constructed from lightweight multi-fiber polymer embedded fabric
4. Helps regulate temperature to protect against heat exhaustion and heat induced stressed.

MERCHANDISING

This section contains two vertical panels providing product details for DAX and BRIGGS hard hats. The top panel is for the DAX Hard Hat, featuring a black background with green accents. It includes a "FULL BRIM" section with a small image of the hat, a "CAP" section with a small image, and a circular graphic showing "COMFORT ODOME MAXIMUM IMPACT ABSORPTION". Text highlights "BRIM GRIP EXCLUSIVE DESIGN PROVIDES A SECURE FEEL" and "FIBER REINFORCED RESIN" and "CARBON FIBER". The bottom panel is for the BRIGGS Hard Hat, featuring a black background with orange accents. It includes a "FULL BRIM" section with a small image of the hat, a "CAP" section with a small image, and a circular graphic showing "COMFORT ODOME MAXIMUM IMPACT ABSORPTION". Text highlights "VENTS ENHANCED BREATHABILITY FOR COMFORT & WEARABILITY" and "SNATCH FITMENT EASY ON THE FLY ADJUSTABILITY". Both panels feature the brand name in large, bold letters and a small logo at the bottom.

LIFT CUSTOM FORCE

WE'LL DESIGN FOR YOU.

DO YOU HAVE A PRODUCT IDEA?

We provide access to our product development lab to co-develop a product that 100% meets your needs: YOUR idea, OUR developers, and with the legendary LIFT quality built in from the start, so it'll last past the finish.

ABOUT THE LAB

LIFT Custom Force is a product problem-solver that enables you to come up with a custom solution to your specific safety product needs. Do you need a glove that performs better than anything currently available for your specific application or do you need a protective eyewear that is comfortable, but has a unique feature that you haven't found yet in the market?

HOW THE PROGRAM GOT STARTED

Backed by over 30 years of safety innovation, LIFT is proud to announce it's Custom Force program.

In October of 2006 Lift Safety was approached by Precision Drilling to design and develop a glove that would reduce or potentially eliminate one of the more common work related injuries...HAND and FINGER INJURIES. Over the course of 16 months, a series of prototypes, and more than 25,000 hours of field testing resulted in a glove that went beyond Precision Drilling's expectations. In July 2008 Precision Drilling received their first production shipment and implemented the Rigger Glove into their safety program.

ARE YOU INTERESTED?

Ask your LIFT Safety team member for more information.

GLOVE SIZING GUIDE

Place your hand on the chart and choose the sizing bar that sits closest to the outer edge of your right hand.

In 1985 two gentlemen developed a strategy that would forever change and revolutionize the sport of motocross. Over the last quarter of a century EVS Sports has become the leader in innovation and advanced technology, developing head to toe products for the majority of today's extreme sports athletes. What started out as one knee brace has evolved into an extensive line of knees braces, neck supports, helmets, chest/back protection and a long list of protective gear products to keep any athlete safe when doing what they love. We pour the same amount of dedication and determination into our products as you do into becoming the best that you can possibly be.
