# LED Tape Light

NSL offers a large variety of LED Tape Light ranging from 2.1 watts per foot to 5.8 watts per foot.

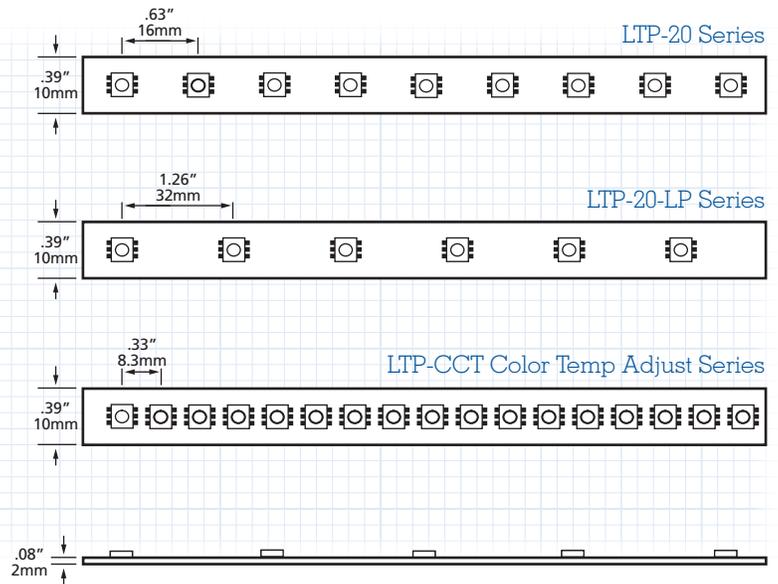

**DIMMABLE!**

LED Tape Light combines high light output associated with standard fixtures with unique flexibility allowing it to be concealed in the tiniest of coves, under cabinets or showcases. It is also available in an outdoor version for patios, decks, back lighting and many more applications. It delivers remarkable light output at just 2.1–5.8 watts per foot depending upon model chosen. Our extrusions are ideal for recessed or in cabinet applications. LED Strip is also available in RGB color change for dramatic effects!

## Features

- ✓ High brightness 5060 SMD LEDs (3528 for color adjust series)
- ✓ Field cuttable every 4" for LTP-20 High Power model and every 6.5" for LTP-20-LP low power model
- ✓ Low power consumption
- ✓ Available in 20' (6.1m) rolls
- ✓ LTP-CCT available in 16' (4.8m)
- ✓ Safe, 24V class 2 power supplies (sold separately)
- ✓ Fully dimmable with dimmable power supplies (sold separately)
- ✓ 120° viewing angle
- ✓ Available in Cool White (6500K), Warm White (3000K), RGB Color Change and Color Adjust (2500K – 7000K)
- ✓ Long life 50,000 hours
- ✓ High lumen output 325 lm/ft (304mm) for Cool White
- ✓ High lumen output 285 lm/ft (304mm) for Warm White
- ✓ Available in outdoor or indoor models
- ✓ 3 year limited warranty

## Color Adjust Tape Light

New LTP-CCT Color Adjust Tape Light allows you to change the color temperature of the tape light from Cool White (7000K) to Warm White (2500K) with our easy to use hand held remote controller. It is available in both indoor and outdoor models and can be run up to 16' maximum length. Color adjust feature allows you to change the mood of your surroundings easily. Ideal for task lighting such as under counters, coves and countless other applications, this versatile product can be ordered in custom lengths prepared within 24 hours at your request.

## Applications

- Aisle and stairway lighting
- Cabinet and cove lighting
- Deck and patio lighting
- Pathway lighting
- Building facades and outlines
- Back lighting
- Showcase lighting
- Linear decorative lighting

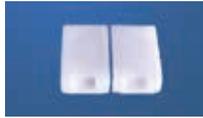

## Specifications

LED Type	High Brightness 5060 SMD LEDs, 3528 SMD for LTP-CCT color adjust
# of LEDs per foot (304mm)	18 for LTP-20 series, 9 for LTP-20-LP series, 36 for LTP-CCT color adjust
Viewing Angle	120°
LED Life	50,000 hours to 70% initial lumen output
Color Temperature	Warm White 3000K, Cool White 6500K, CCT Color Adjust Series 2500K – 7000K
Lumen Output 5060-60 series	325 Lumens per ft Cool White, 285 Lumens per ft Warm White
Lumen Output 5060-30 series	165 Lumens per ft Cool White, 145 Lumens per ft Warm White
Lumen Output LP-CCT series	300 Lumens per ft average
Efficacy	75 LPW Cool White, 66 LPW Warm White
Custom Cuttable	4" LTP-20 Series, 6.5" LTP-20-LP Series, 2" LTP-CCT Series
Operating Voltage	24V DC
Maximum Single Run	LTP-20 Series 20', LTP-20-LP Series 40', CCT Color Adjust Series 16', RGB series 20'
Power Consumption	4.3W/ft LTP-20 Series, 2.2 W/ft LTP-20-LP Series, 5.8W/ft CCT Series
LED Spacing	16mm for LTP-20 Series, 32mm for LTP-20-LP Series, 8.3mm CCT series
Approvals	ETL

## Accessories

**LTP-001-6R / LTP-001-12R**  
6' OR 12' Power feed connector for single color indoor. Add "-L" to code for opposite end, add "-CL" for through wall connections.  
**LTP-001-CCT-6**  
6' Power feed connector for CCT series indoor.

**LTP-002**  
In-line connector for single color indoor.  
**LTP-002-CCT**  
In-line connector for CCT series indoor.

**LTP-001-RGB-6R**  
72" Power feed connector for RGB indoor. Add "-L" for opposite end.

**LTP-002-RGB**  
In-line connector for RGB indoor.

**LTP-STP-6IN** 5.9' (15cm)  
**LTP-STP-2IN** 2' (5cm)  
**LTP-STP-2** 2' (61cm)  
**LTP-STP-12** 12' (3.65m)  
In line connector for single color indoor.

**LTP-001-RGB-6IN** 5.9' (15cm)  
**LTP-001-RGB-2IN** 2' (5cm)  
In line connector for RGB indoor.

**LTP-001-OD-6FT**  
72" Power feed connector for single color outdoor

**LTP-RGB-001-OD-6FT**  
72" Power feed connector for RGB outdoor

**LMSII-001**  
Terminal block and junction box for connection to additional lengths of power cable if needed.

**LV-FS-MC-004**  
Mounting clips

**LV-FS-EC-001**  
End caps

**LV-RF103EXSS**  
6' RF extension cable for RGB Tape Light  
**LTP-RGB-STP-OD-6IN**  
6' step connector for outdoor RGB Tape Light

**LTP-003-6DC**  
DC connector for LED Tape Light with 6" wire and DC connector

**LV-010-S**  
Clear U channel

**LV-LB-W3-FR†**  
Recessed aluminum extrusion and frosted PC cover

**LV-LB-D3-FR†**  
Surface mounted aluminum extrusion and frosted PC cover

**LV-LB-V3-FR†**  
Corner surface mounted aluminum extrusion and frosted PC cover

† Extrusions come in 39.37" (1 metre) lengths.  
End caps and mounting clips are available, sold separately.

## Indoor/Outdoor Dimmable Drivers

See page 57 - 58 for driver selection guide and details of use. See page 26 for list of compatible dimming systems.

### TRE24L40DC

Max recommended load 36W or 8' LED Strip, min 8W or 2' LED Strip  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

### TRE24L96DC

Max recommended load 90W or 20' LED Strip, min 8W or 2' LED Strip  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

## Non Dimmable Drivers

### LEDDR-24-120W

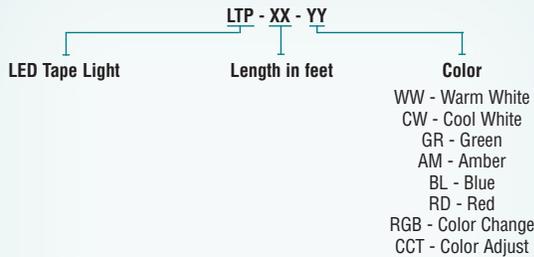

Indoor/Outdoor driver  
LED Tape Light: Max. recommended load 90W or 20' (6.1m) per single tap, 120W or 28' (8.53m) combined two secondary taps.  
CCT series: 16' (4.88m) per single tap, 22' (6.71m) combined two secondary taps.  
120W hardwire  
Input: 100 - 240V AC  
Output: 24V DC  
10" x 3 3/8" x 3 3/16" (254 x 85.7 x 80.9mm)

**NOTE:** Above maximum and minimum lengths are for LTP-20 Series. You may **double these when using LTP-20-LP Series and multiply x .8 when using with LTP-CCT Color Temp Adjust Series.**

**For a complete list of RGB controllers, color temperature controllers and control accessories please see page 59.**

# LED eSTRIP

LED eStrip is our most versatile linear lighting product.  
Now with 3014 type LEDs, LED eSTRIP is brighter and better than ever!

*Now Available in  
RGB Color Change and  
High Power (50% Brighter) versions!*

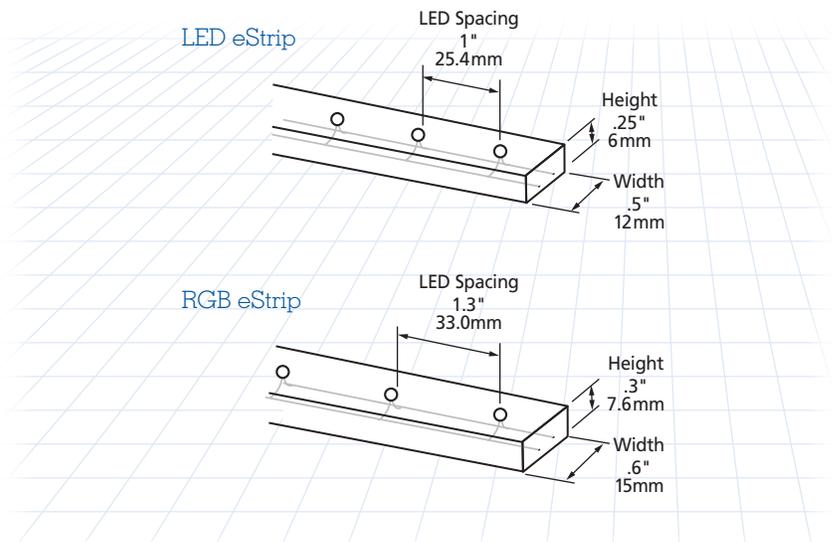

**DIMMABLE!**

LED eSTRIP (eSTRIP) is an indoor / outdoor flexible light strip that is an economical alternative to neon. Made with ultra bright 3014 type LEDs encased in a durable PVC flexible extrusion, eSTRIP provides a clean neon look at a fraction of the price and 1/10th the energy consumption. LED eSTRIP is ETL approved and is **fully field cuttable** making it very simple to install. A variety of mounting accessories and power supplies further enhance ease of installation. Safe 24 Volt operation and low energy consumption make eSTRIP a very practical product.

## Features

- ✓ 40,000 hour life
- ✓ Safe low voltage (24V)
- ✓ Virtually maintenance free
- ✓ Ultra low power consumption
- ✓ Crushproof to 100psi
- ✓ Field cuttable
- ✓ Inter-connectable
- ✓ Highly flexible (min. bend radius 1.5")
- ✓ Indoor/outdoor use
- ✓ Impact resistant
- ✓ Six brilliant colors plus RGB Color Change
- ✓ Dimmable
- ✓ 2 year limited warranty

## Applications

- Building outlines
- Coves
- Stairway and aisle lighting
- Signage
- Backlit panels
- Decks
- Edgelit glow
- Emergency lighting
- Pathway lighting
- Billboards
- Highlighting architectural features
- Over/Under cabinets

## Specifications

Dimensions	.25" X .5" (6mm x 12mm), .3" x .6" (15mm x 7.6mm) for RGB eStrip
PVC body color	Clear
LED spacing	1" (25.4mm), 1.3" (33mm) for RGB eStrip
Colors	Amber, Red, Blue, Green, Cool White, Warm White, RGB
Voltage	24V DC
Cutting Lengths	6" (152.4mm), 8" (198mm) for RGB eStrip
Power Consumption	0.96 watts/ft, 2.2 watts/ft for RGB and High Power versions
Average LED Life	40,000 hours
Maximum length	90' (27.4 m), 40' (12m) for RGB and High Power version
Min/Max Surface Temperature for Mounting	-40°C – 40°C (-40°F – 104°F)

## Color Specifications

Color		Product Code
Amber	590 nm	LES-XX-AM
Red	630 nm	LES-XX-RD
Blue	465 nm	LES-XX-BL
Green	525 nm	LES-XX-GR
Cool White	5800K (± 200K)	LES-XX-CW
Warm White	3000K (± 200K)	LES-XX-WW

## Indoor/Outdoor Dimmable Drivers

See page 57 - 58 for driver selection guide and details of use. See page 26 for list of compatible dimming systems.

### TRE24L40DC

Max 37.5' (11.4 m)  
Min 8 Watts, 8' LED Strip (2.44 m)  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

### TRE24L96DC

Max 90' (27.4 m)  
Min 8 Watts, 8' LED Strip (2.44 m)  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

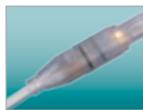

## Non Dimmable Drivers

### LEDDR-24-120W

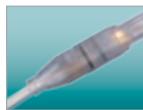

Indoor/Outdoor driver  
120W hardware  
Max 90' (27.4 m) per single tap  
Max 120' (36.5 m) combined 2 secondary taps  
Input: 100 - 240V AC  
Output: 24V DC  
10" x 3 3/8" x 3 3/16" (254 x 85.7 x 80.9mm)

**NOTE: For High Power or RGB eStrip, maximum lengths shown must be multiplied by .45 due to higher power consumption.**

## Accessories Single Channel (including High Power)

**LES-001-6BR**  
1.5' Power connector for burial connections, 1/4" x 1/2" (6mm x 12mm). Comes with end cap.  
**LES-001-6CL**  
6' Power connector for through wall connections

**LES-001-12BR**  
12' Power connector for burial connections, 1/4" x 1/2" (6mm x 12mm). Comes with end cap.  
**LES-001-12CL**  
12' Power connector for through wall connections

**LES-STP-2CL**  
2' Step cord (shown) for through wall connections  
**LES-STP-2BR**  
2' Step cord for burial connections

**LES-STP-12BR**  
12' Step cord (shown) for burial connections  
**LES-STP-12CL**  
12' Step cord for through wall connections

**LES-FLEX-CL**  
Step cord (shown) for through wall connections  
**LES-FLEX-BR**  
Step cord for burial connections

**LMSII-001**  
Terminal block and junction box for connection to additional lengths of power cable if needed.

**LES-BFLN**  
L type connector, 1/4" X 1/2" (6mm x 12mm)

**LES-002**  
In-Line connector set, male and female, 1/4" X 1/2" (6mm x 12mm)

**LES-BFTD**  
T type connector, 1/4" X 1/2" (6 x 12mm), male connector in bottom

**LES-003-2**  
Cutting end cap, 0.25" X 0.5" (6mm x 12mm)  
**LES-003-3**  
Molded end cap (not shown)

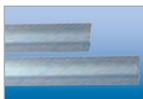

**LES-BFTR**  
T type connector, 1/4" X 1/2" (6 x 12mm), male connector in right or left

**LES-005**  
Wood nail clips, 1/4" X 1/2" (6mm x 12mm)

**LES-008**  
Tie wrap and mounting saddle

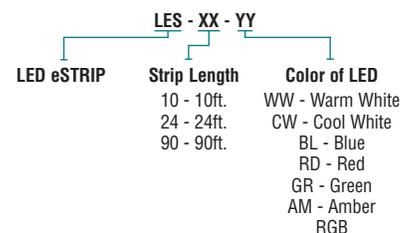

**LES-010**  
4' plastic mounting channel, indoor use  
**LES-010-S**  
Predrilled with screws  
**LES-010-T**  
With double sided tape

NOT SHOWN: **LES-BFXN** - X type connector, 1/4" X 1/2" (6mm x 12mm)

Call us for complete photometric data.  
eStrip is now bright enough for under cabinet applications!

## Product Codes

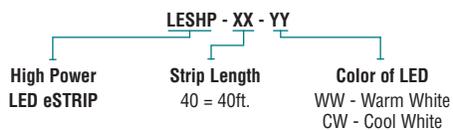

New High Power eStrip with twice the lumen output of our regular eSTRIP!

HIGH POWER eSTRIP is brighter than neon, half the cost and easier to install. It's flexible nature and field cutability make this product easy to maintain and provides a true neon look at a fraction of the installed price of neon. Outdoor rated, dimmable power supplies means no "through wall" wiring when installing. Call us today for a demo of this remarkable product. See specifications on page 6.

See page 6 for specifications.  
See page 57 - 58 for driver selection.

#### High Power eStrip Product Codes

RGB eSTRIP utilizes RGB LEDs allowing you to produce dramatic color change effects for building outlines, architectural features or anywhere eye catching color change display lighting is needed.

### RGB eStrip Accessories

**LES-BTFN**  
Female connector

**LES-BTMN**  
Male connector

**LES-BTSN**

# LED Globe Light

**NSL**

LED Globe Light is a Marquee style decorative string light designed for the toughest of weather conditions.

**DIMMABLE!**

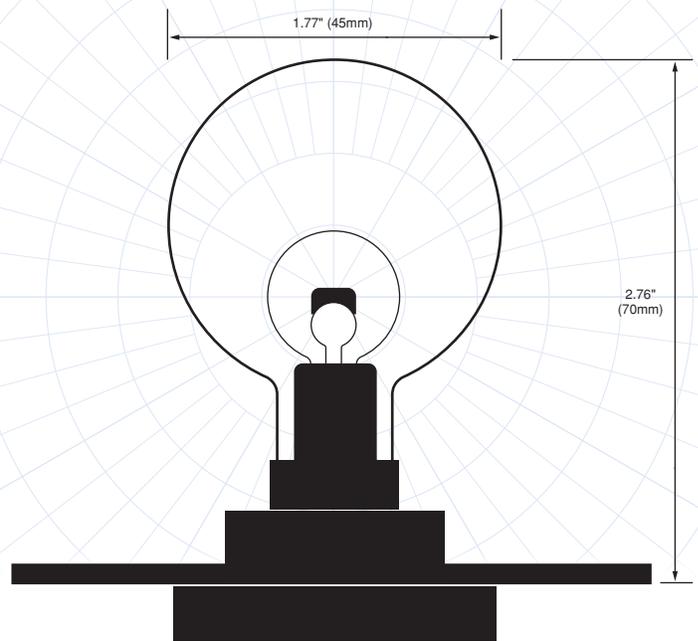

LED Globe Light utilizes super bright LED's to provide the ultimate in decorative string lighting for a multitude of applications. It can be supplied pre-assembled 12" (30.4cm) spacing or with loose lamp assemblies for custom spacing. Operating on safe 24V class 2 power supplies LED Globe Light is low in power consumption and high in lumen output assuring you an extremely effective decorative lighting project.

## Features

- ✓ Low power consumption
- ✓ Safe class 2, 24V power supply
- ✓ Field cuttable
- ✓ Multiple lamp spacings available
- ✓ Durable construction for indoor and outdoor use
- ✓ Available in Cool White and Warm White
- ✓ Optional Red, Blue, Green & Amber LEDs are also available

## Applications

- Building outlines
- String across patios, walk ways, streets and public areas
- Under soffits
- Bridges
- Architectural features
- Coves
- Window decorations
- Decks and patios

Shown Actual Size

## Specifications

Electrical	24V DC, .5W
LED Life	50,000 hours
LED Colors	Cool White 6000K, Warm White 2700K Red, Blue, Green and Amber also available upon request
Lumen Output	50 lumens
Efficacy	100 Lumens per Watt
Cable	PVC black SPT2, 16AWG outdoor rated
Operating Temperature	-25°C to 65°C
Maximum length	150' (45.6M) Not to exceed 180 lamps
Wiring	Directly wired to class 2, 24V power supply

## Power Supply Selection

		Max # of Globes
<b>Dimmable Indoor/Outdoor</b>

# LED Wedge Light

**NSL**

LED Wedge Light is a robust all-weather product, ideal for building outlines and other decorative lighting applications.

**DIMMABLE!**

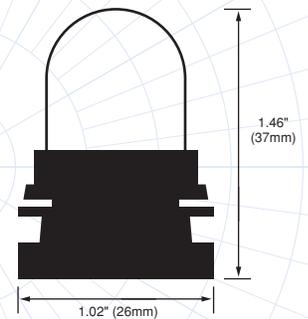

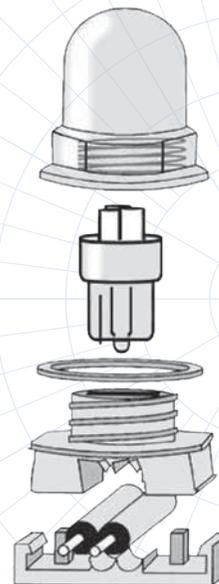

LED Wedge Light utilizes a 3 chip LED wedge base lamp mounted on outdoor rated SPT2 wire. It's high brightness, low power consumption and long life make it the perfect choice for decorative lighting applications both indoors and outdoors. Available in 6" (15.2cm) standard lamp spacing, LED Wedge Light can be cut to any length at any place on the wire. Custom spacing is also available. LED Wedge Light operates on safe class 2, 12V power supplies.

## Features

- ✓ Low power consumption
- ✓ Safe class 2, 12V power supply
- ✓ Field cuttable
- ✓ Multiple lamp spacings available
- ✓ Durable construction for indoor and outdoor use
- ✓ Available in Cool White and Warm White
- ✓ Optional Red, Blue, Green & Amber LEDs are also available

## Applications

- Building outlines
- Under soffits
- Bridges
- Architectural features
- Covers
- Window decorations
- Decks and patios

# LED Hard Strip

**NSL**

LED Hard Strip is a energy efficient linkable linear strip in an aluminum casing. These LED's are cool to the touch and provide 120° beam spread. Available in 3 sizes.

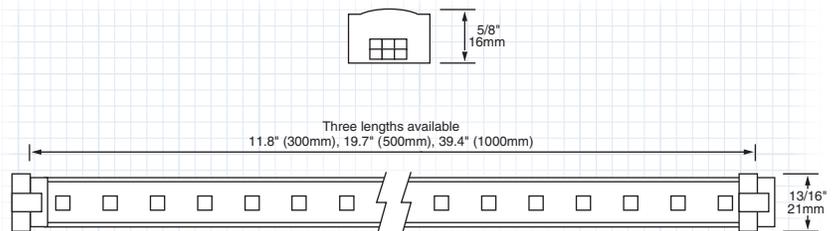

LED Hard Strips Series combines high output LED's in a unique linkable extrusion ideal for under cabinet, showcases, and in cabinet applications. LED Hard Strips is available in 3 sizes and 4 mounting options providing seamless, even distribution of light delivering outstanding light output and low power consumption.

## Features

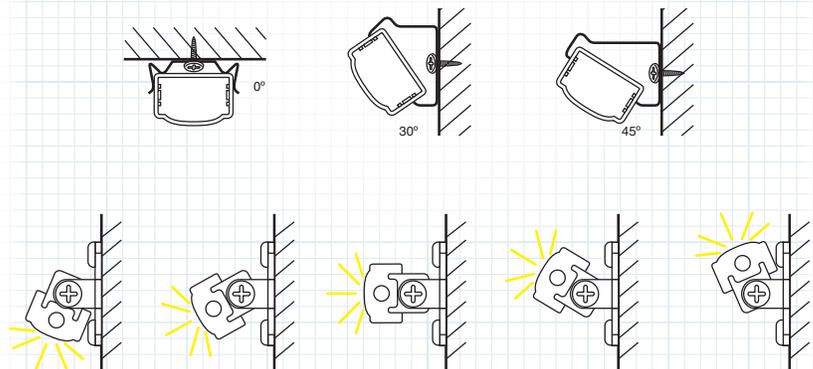

- ✓ Use high brightness 0.5W SMD PLCC-2 LEDs as lighting source
- ✓ Even light distribution with 120° viewing angle
- ✓ 24V DC
- ✓ 3 sizes – 30cm, 50cm, and 100cm
- ✓ Convenient connector between two strips
- ✓ Diffused frosted lens to reduce glare

## Applications

- Under Counter
- Display Cases
- Cabinet Interiors
- Work Stations
- Linear interior decorative lighting

# LED Thin Star

**NSL**

An elegantly thin fixture that provides excellent task lighting capabilities with a slim profile.

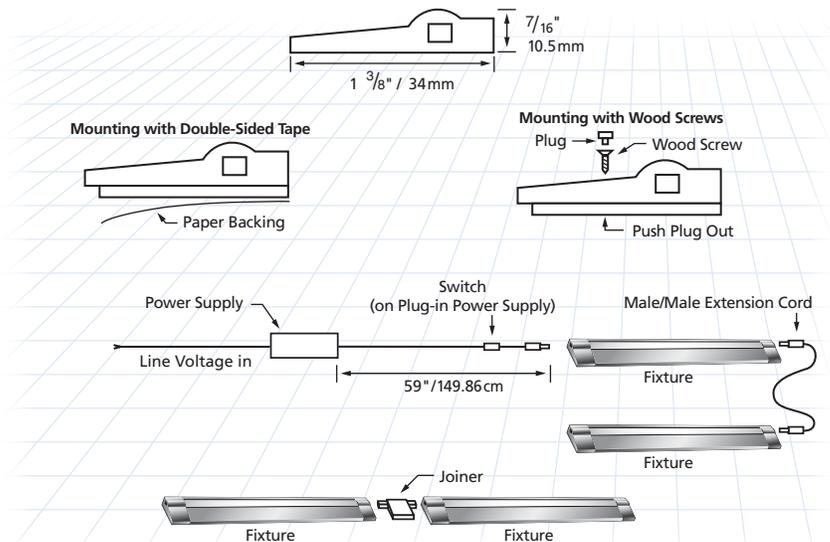

**DIMMABLE!**

LED Thin Star by NSL provides excellent LED lighting for under cabinets, showcases, in cabinets, and many other applications. This light weight fixture can be mounted to any surface, is low in power consumption and provides high quality light. LED Thin Star is available in two different lengths which can be joined together providing seamless light in the lengths you require.

## Features

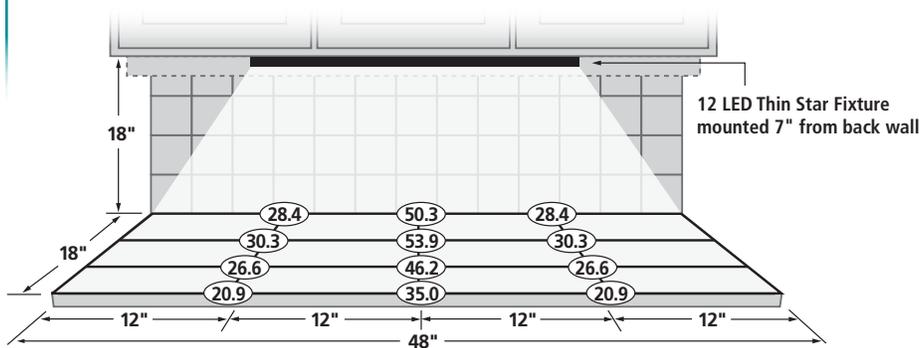

- ✓ Available in:
  - 6 LED (11" / 281mm)
  - 12 LED (21.8" / 553mm)
- ✓ 40,000 hour lamp life
- ✓ Low power consumption of 3.5W and 7.0W per respective lengths
- ✓ QPS listed for indoor surface mount locations
- ✓ Available in White, Black, Bronze and Brushed Aluminum finishes
- ✓ Warm White 3000K color temperature
- ✓ Safe 24V class 2 operation
- ✓ Easy installation with double sided tape or mounting screws provided with fixture
- ✓ Quick connect joiners in various lengths for easy wiring
- ✓ Ultra slim profile
- ✓ 3 year limited warranty
- ✓ Dimmable

## Applications

- Shelves
- Display cases
- Under cabinets
- Above cabinets
- Accent lighting
- Work stations
- Podiums and consoles

## Countertop Photometrics Data

(X.X) Illuminance in footcandles

## Dimmable Drivers

See page 57 - 58 for driver selection guide and details of use. See page 26 for list of compatible dimming systems.

### TRE24L40DC

Max. recommended load 36 watts or 60 Thin Star LEDs  
 Min. recommended load 8 watts or 18 Thin Star LEDs  
 (see number of LEDs per fixture in specs)  
 6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

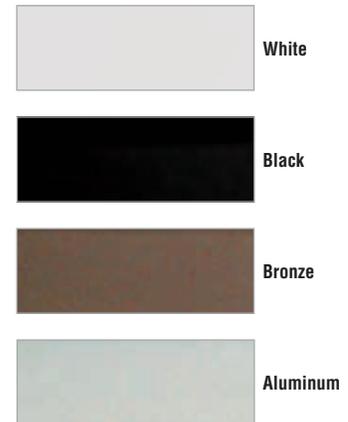

## Non Dimmable Drivers

### LTH-24-65W

65W plug in  
 Maximum 10 pcs LED-TS-1U, maximum 5 pcs LED-TS-2U or any combination up to 60 LEDs  
 Input: 100 - 240 V AC  
 Output: 24 V DC  
 4 3/4" x 2 1/2" x 1 1/2" (120mm x 58mm x 38mm)

Specifications	LTH-6-YY	LTH-12-YY

# LED Mini Star II

**NSL**

This award winning product is a sleek and powerful fixture ideal for in cabinet, under cabinet and showcase lighting.

**DIMMABLE!**

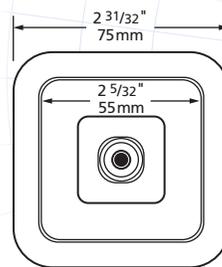

Replaceable LED Module

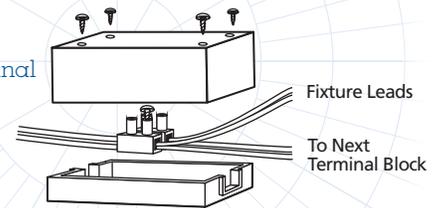

LED Ministar II is a powerful yet compact LED surface mount fixture designed for use in a wide variety of indoor applications. LMS II contains a replaceable 3.26W LED module made with 6 LG5630 LEDs and is fully dimmable with our dimmable LED power supplies. The LMS II delivers more light than a typical 18W Xenon fixture providing energy savings of more than 80%. The color temperature of 3000K provides warm, even light. The sleek profile makes the Mini Star II virtually invisible in most applications.

## Features

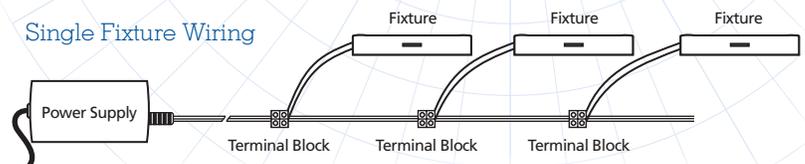

- ✓ Light weight, ultra slim profile
- ✓ Dimmable with certain power supplies
- ✓ Replaceable LED modules
- ✓ Long life 40,000 hours
- ✓ Comes with terminal block connector and cover for connection to low voltage power supply
- ✓ Available in 4 finishes White, Black, Bronze and Brushed Aluminum
- ✓ Safe 24V class 2 operation
- ✓ 3 year limited warranty
- ✓ Easy to install

Terminal Block

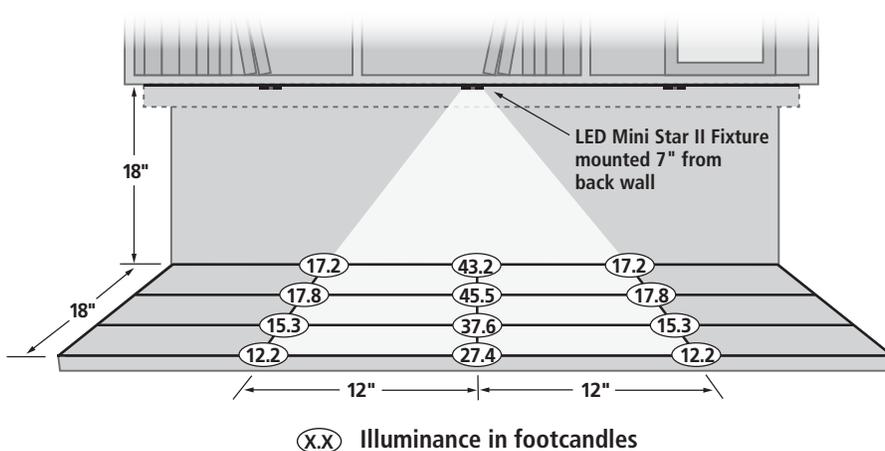

## Single Fixture Wiring

## Applications

- Under cabinets
- Over cabinets
- Indirect lighting
- Display cases
- Furniture, shelf lighting
- Ceilings

## Countertop Photometrics Data

## Specifications

Dimensions	2 15/16" x 2 15/16" x 1/2" (75mm x 75mm x 13mm)
Product Material	Aluminum base, PC cover
Lens	Frosted glass
Cover Colors	White, Black, Bronze, Aluminum
Mounting	Wood screws provided or double sided tape provided
Average LED life	40,000 hours
LEDs per fixture	6
Operating Voltage	24V DC
Power Consumption	3.26W
Current	136mA
Maximum Single Run	See adjacent power supply information
Fixture Illuminance	404 lux 17 3/4" (45cm) above surface
Luminous Flux of LED Module	137 lumens
Luminous Efficacy	42 lm/W
CRI	83
Color Temperature	3000K
Operating Temperature	-5°C – 50°C

# LED LP Puck Lights

NSL

LED LP Puck Lights are a sleek and powerful lighting fixture ideal for in cabinet, under cabinet and show case lighting.

**DIMMABLE!**

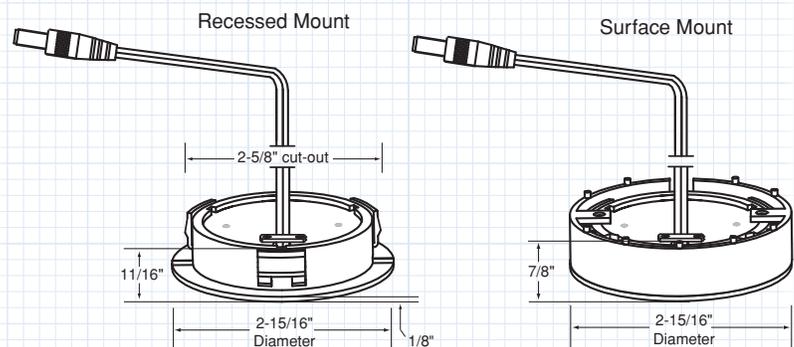

Save up to 87% in running costs compared to 20 watt xenon or halogen puck lights. Use in cabinets, display cases, retail environments, cubbies, entertainment centers, back bar areas, wine rooms, china cabinets, built-in shelving and anywhere a low-profile, economical puck light is required.

## Features

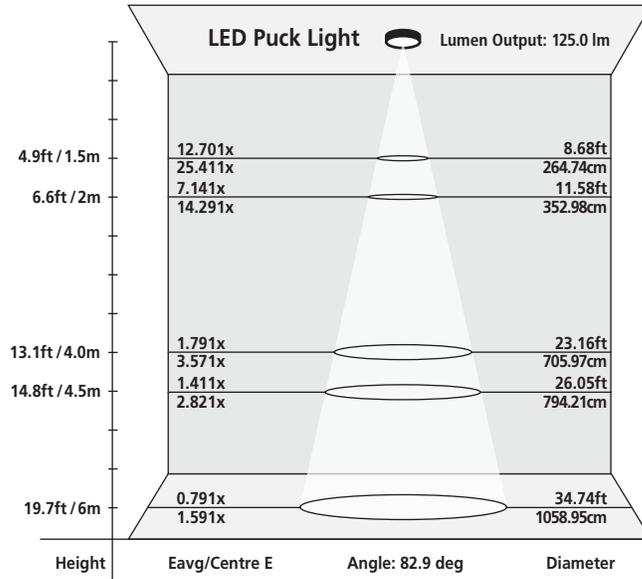

- ✓ Warm White (3000K) LED light with 80 CRI
- ✓ Plastic housing in two attractive finishes
- ✓ Produces minimal heat – helps keep displays cool
- ✓ Easy installation – no lamps to replace, no dimmers to install!
- ✓ Long life LEDs last up to 30,000 hours
- ✓ High light output – each puck delivers 125 lumens
- ✓ 2 year warranty

## Applications

- Under cabinets
- Over cabinets
- Indirect lighting
- Display cases
- Furniture, shelf lighting

## Photometrics Data

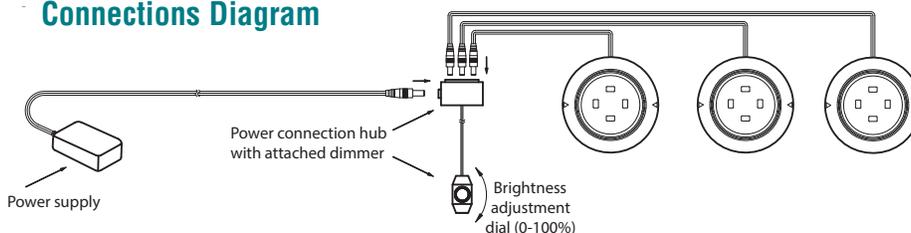

Note: The curves indicate the illuminated area and the average illumination at a set distance from the LED Puck Light.

## Specifications

Input Voltage:	120V DC, 60 Hz AC operation (140mA driver output)
Wattage	LP-1-YY (Single Puck) = 2.9W LP-3KIT-YY (3 Puck Kit) = 8.2W LP-5KIT-YY (5 Puck Kit) = 13W
Maximum	Run 6 single pucks or one 5-light kit plus one single puck using LP-6P-15W (included with 5-light kits)
LED Specs	5630 SMD LEDs, 30,000 hours rated life
Color Temperature	Warm White (3000K)
Color Rendering Index	80
Dimmers	Dimmable with inline dimmer attached to plug-in drivers (LP-3P-9W and LP-6P-15W)
Lead wires	60" lead wires
Construction	Heavy duty, hard durable plastic
Dimensions	H = 7/8" (surface mounted), H = 1/8" (recessed mounted), Diameter = 2-15/16"
Mounting	Recessed or surface mount
Cut-out	2-5/8" hole size for recessed mounting

## Connections Diagram

## Dimmable Drivers

### LP-3P-9W

9W plug-in driver, 120V, AC input, 15V, 140mA output; with six foot (72") power cord to polarized 2-prong AC plug and 60" lead wire to hub; includes 3-port hub and inline linear dimmer with 58" lead wire, cUL/us Listed

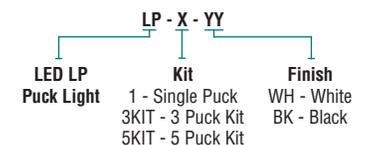

### LP-6P-15W

15W plug-in driver, 120V, AC input, 15V, 140 mA output; with six foot (72") power cord to polarized 2-prong AC plug and 60" lead wire to hub; includes 6-port hub and inline linear dimmer with 58" lead wire, cUL/us Listed

## Cover Finish

## Product Codes

### NOTE:

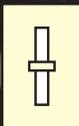

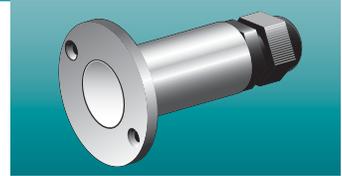

LP-3KIT-YY Kit includes 3-hub connector, 9W plug-in driver and inline dimmer.

LP-5KIT-YY Kit includes 6-hub connector, 15W plug-in driver and inline dimmer.

# LED Disc Light

NSL

A robust LED marker light ideal for public or residential applications, indoor or outdoor.

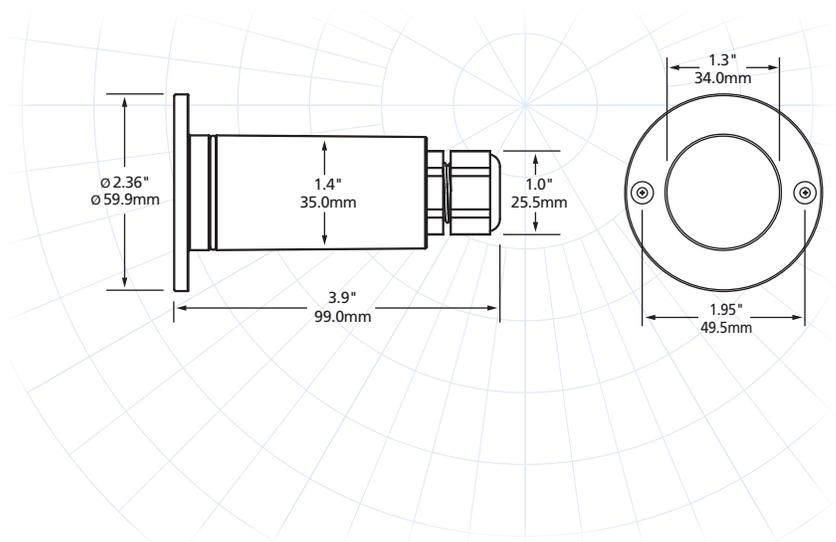

**DIMMABLE!**

LED Disc Light is a robust fixture suitable for in-ground, ceiling or wall mount applications. The 3 watt LED package delivers a surprising amount of light making it ideal as an up light for shrubs and small trees. Certified for wet burial applications, LED Disc Light makes an excellent paver light for public areas, decks, driveways and patios. Our concrete form makes concrete pour applications simple and fast.

## Features

- ✓ Fully dimmable with dimmable power supply (sold separately)
- ✓ Long life – 50,000 hours
- ✓ Low power consumption of 3 watts per fixture
- ✓ Safe 12 volt, Class 2 power supply (not included)
- ✓ Up to 30 fixtures per power supply
- ✓ cUL listed for in-wall, IC ceiling, in-floor, outdoor wet, and outdoor burial applications
- ✓ Fits in any 1.5" diameter hole, 4" long
- ✓ No UV, no infrared, no radiated heat
- ✓ 3 year limited warranty

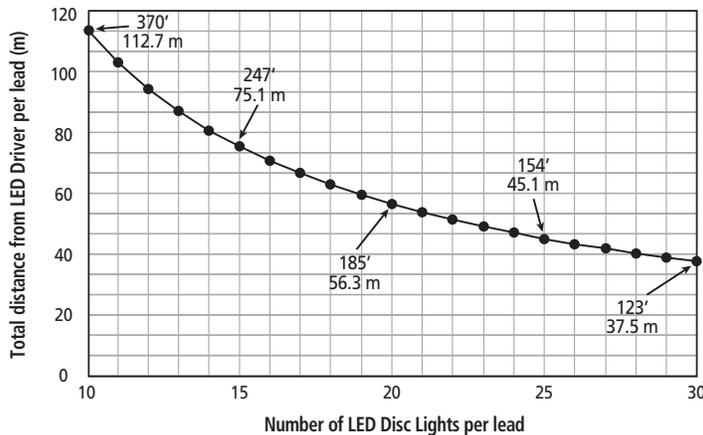

## Applications

- Steps
- Aisles
- Paths
- Driveways
- Direction lighting
- Information lighting
- Decorative lighting
- Merchandising
- Landscape accents

## 100% LED Light Output Chart

With every foot of lead wire and every light fixture, there is voltage loss. With too much voltage loss all light fixtures will not develop 100% of their potential output. Below is a chart of acceptable voltage loss which will maintain 100% of the potential light output of the LED Disc Light. Simply plot the number of LED Disc Light you wish to place on one lead on the horizontal axis, with the total distance from the LED Driver to the last LED Disc Light on the vertical axis. If the resulting plot is at or below the line shown, you will have acceptable voltage loss and your LED Disc Light will output 100% of their potential.

NOTE: No more than 18 LED Disc Lights per LEDDR-12-60W or 6 per LEDDR-12-20W-HW.

## Indoor/Outdoor Dimmable Drivers

See page 57 - 58 for driver selection guide and details of use. See page 26 for list of compatible dimming systems.

### TRE12L20DC

Max. recommended load 18 W or 6 LED Disc Lights  
Min. recommended load 8 W or 3 LED Disc Lights  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

### TRE12L60DC

Max. recommended load 54 W or 18 LED Disc Lights  
Min. recommended load 8 W or 3 LED Disc Lights  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

## Non Dimmable Drivers

### LEDDR-12-60W

Indoor/Outdoor driver  
Max. 18 LED Disc Lights  
60W hardwire  
Input: 100 - 240V AC  
Output: 12V DC  
9 11/16" x 2 9/16" x 2 1/16" (246 x 65 x 52mm)

## Specifications

Voltage	12V DC
LED Type	5050
Average LED Life	50,000 hours
Power Consumption	3.0 W
Lumen output and Color Options	Cool White 98 lumens @ 5500K Warm White 95 lumens @ 2700K
Cover Finish	Stainless Steel
Barrel Finish	Stainless Steel
Lens	Frosted or Clear Tempered Glass
Wiring Options	Fixtures can be parallel wired or "Daisy chained" together with up to 18 fixtures on our largest driver. See adjacent power supply chart for details. NOTE: Use LW-18G-CL2 for all in-wall applications. Use LW-18G-BUR for all burial applications.
Agency Approval	cUL listed and labeled for wet, IC, ceiling, wall and direct burial applications.

## Accessories

# LED MiniDisc Light

**NSL**

A robust LED marker light ideal for public or residential applications, indoor or outdoor.

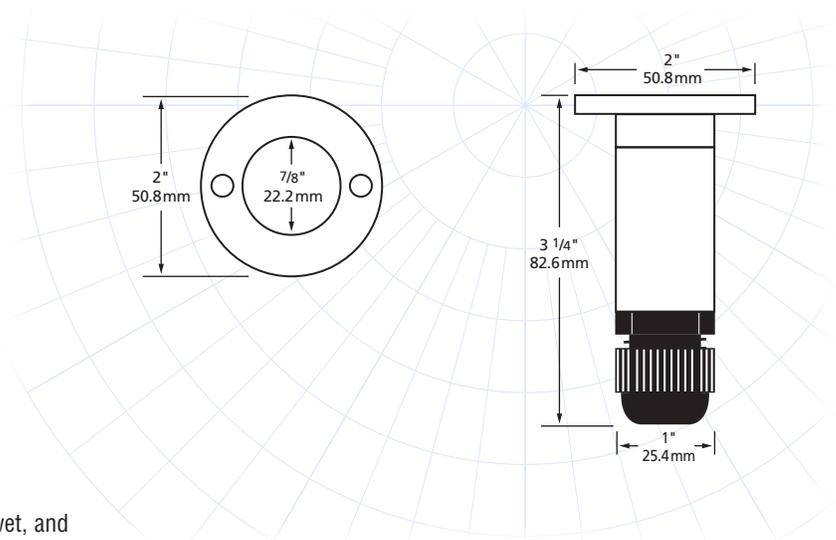

**DIMMABLE!**

LED MiniDisc Light is a compact yet powerful LED light fixture suitable for hundreds of applications. Made of durable cast aluminum, this robust fixture is suitable for in-ground, ceiling or wall applications – both indoor and outdoor. Our concrete form makes concrete pour applications simple and fast. LED MiniDisc Light makes LED marker lighting affordable for any budget!

## Features

- ✓ Now dimmable on the primary power supply side with our new dimmable LED Drivers!
- ✓ Long life – 50,000 hours
- ✓ Low power consumption of 0.24 watts per fixture
- ✓ Safe 12 volt, Class 2 power supply (not included)
- ✓ Up to 100 fixtures per power supply
- ✓ cUL listed for in-wall, IC ceiling, in-floor, outdoor wet, and outdoor burial applications
- ✓ Fits in any 1" diameter hole, 3 1/2" long
- ✓ 2 year limited warranty, 3 years on stainless steel

NOTE: When installing Mini Disc Lights in harsh environments (such as limestone, salted areas, coastal environments, etc.), please use the stainless steel version to avoid the risk of corrosion to body of fixture.

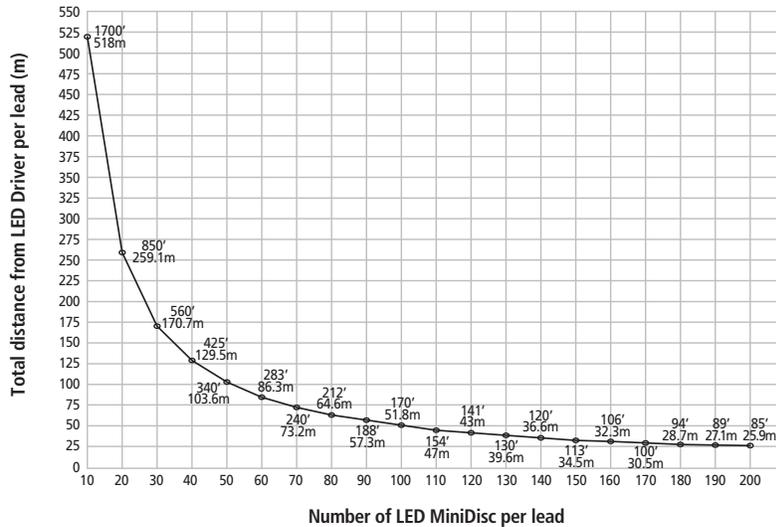

## Applications

- Steps
- Aisles
- Paths
- Driveways
- Direction lighting
- Information lighting
- Decorative lighting
- Merchandising
- Landscape accents

## 100% LED Light Output Chart

With every foot of lead wire and every light fixture, there is voltage loss. With too much voltage loss all light fixtures will not develop 100% of their potential output. Below is a chart of acceptable voltage loss which will maintain 100% of the potential light output of the LED MiniDisc Light. Simply plot the number of LED MiniDiscs you wish to place on one lead on the horizontal axis, with the total distance from the LED Driver to the last LED MiniDisc on the vertical axis. If the resulting plot is at or below the line shown, you will have acceptable voltage loss and your LED MiniDisc will output 100% of their potential.

NOTE: No more than 200 LED MiniDisc Lights per LEDDR-12-60W or 75 per LEDDR-12-20W-HW.

## Specifications

Voltage	12V DC
LED Module Specifications	12V DC, 20mA, 0.24 Watts
Average LED Life	50,000 hours
LED Colors	White 5400K, Warm White 2900K, Blue, Green, Amber, Red
Cover Finish	Aluminum, White, Bronze, Black, Stainless Steel
Barrel Finish	Aluminum, Stainless Steel
Packaging	Individually packaged in 2 color corrugated box
Construction	Both cover and barrel are die cast aluminum or stainless steel for corrosion protection, strength, weight and consistency of finish.
Lens	Frosted Tempered Glass
Wiring Options	Each LED Driver can power up to 200 LED MiniDisc Lights by parallel wiring ("daisy chain") between fixtures. NOTE: Use LW-18G-CL2 for all in-wall applications. Use LW-18G-BUR for all burial applications.
Agency Approval	cETLus listed and labeled for wet, IC, ceiling, wall and direct burial applications.

# LED Bristrip

**NSL**

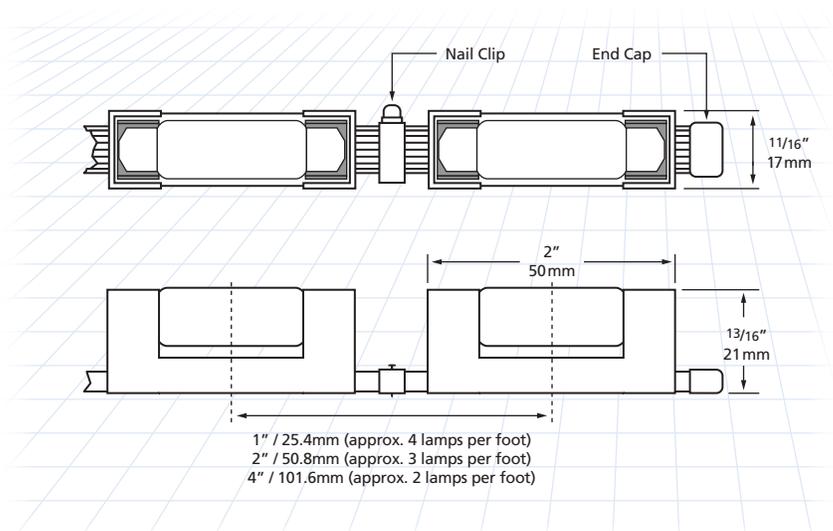

NSL's popular Bristrip provides the ultimate in linear lighting systems.

With a bend radius of 2 1/4" / 5.75 cm (inside or outside), LED Bristrip can evenly illuminate the tightest of curved surfaces. Even 90 degree corners are simple to do. LED Bristrip mounts easily with 3M® double sided tape (pre-fixed to the back of each socket) or with simple to use nail clips for added security. The lamp holders are stamped with a "+" and "-" to indicate polarity of the LED modules.

## Features

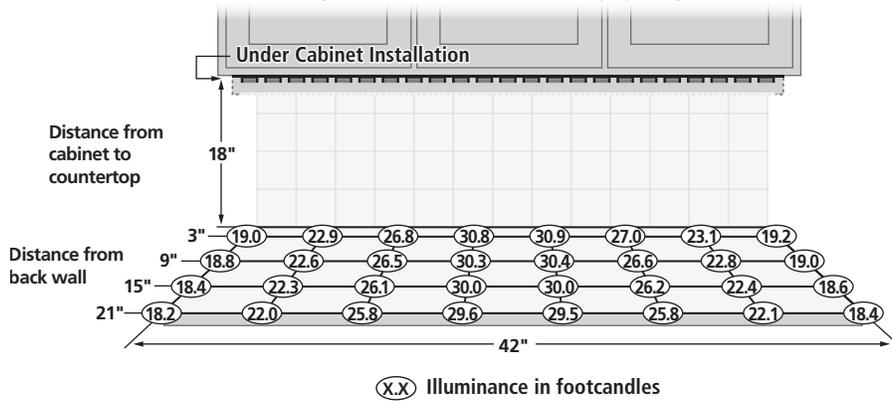

- ✓ 0.52W, 24V LED modules for up to 85% energy savings
- ✓ 2, 3 or 4 lamps per foot models
- ✓ Snap in lamp holders for easy lamp replacement
- ✓ MR-11 lamp adaptors for hi-lighting items in showcases
- ✓ Maximum single run of 170 LED festoon modules (90 Watts)
- ✓ Mounts with 3M double sided tape or mounting clips
- ✓ Parallel wiring means loss of one bulb does not affect others
- ✓ Field cuttable
- ✓ 50,000 hour average lamp life
- ✓ 2 year limited warranty
- ✓ Fully dimmable with dimmable power supply (sold separately)

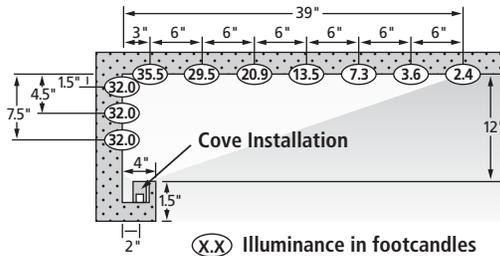

## Applications

- Under cabinets
- Above cabinets
- Showcase lighting
- Cove lighting
- Indirect lighting
- Sign back lighting
- Shelf lighting
- Decorative accents

## Countertop Photometrics Data (with 0.52 watt LED bulbs, 4 lamps per ft.)

## Cove Photometrics Data (with .52 watt LED bulbs, 4 lamps per ft.)

NOTE: Orientation of LED lamps in both cove and under cabinet applications will affect light levels on the surface they are aimed at.

## Dimmable Drivers

See page 57 - 58 for driver selection guide and details of use. See page 26 for list of compatible dimming systems.

### TRE24L40DC

Max 76 LED BS lamps, Min 16  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

### TRE24L96DC

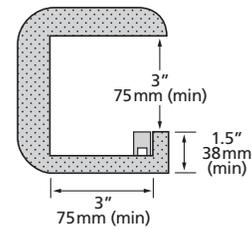

Max 180 LED BS lamps, Min 16  
6.77" x 2.67" x 1.26" (171 x 68 x 32mm)

## Non Dimmable Drivers

### MLDR-120-24

Max. 110 LED Britestrip lamps  
Single secondary tap, max. 185 total  
120W hardwire  
Input: 100 - 240V AC  
Output: 24V DC  
10" x 3 3/8" x 3 3/16"  
(254 x 85.7 x 80.9mm)

## Cove Typical Installation Detail

- Dimensions shown are minimum to achieve even surface illumination using 4" spacing.
- If using 2" spacing, minimum dimensions should be 2" (50mm).
- Cove can curve vertically or horizontally as Britestrip is flexible in both directions.

## Accessories

**BL-001/WH - White**  
**BL-001/BK - Black**  
Assembly Kit (required to ship with every cut). Includes junction box, terminal block and end cap.  
2.2"L x 1.8"W x 1"H (55.9 x 45.7 x 25.4mm)

# Thin-line LED Down Lights

**NSL**

Designed for retrofit and new construction, damp and wet locations, Thin Line Downlights are a versatile and affordable choice for countless applications.

**DIMMABLE!**

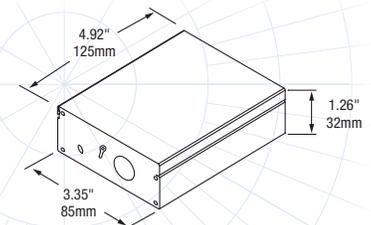

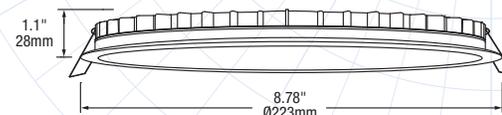

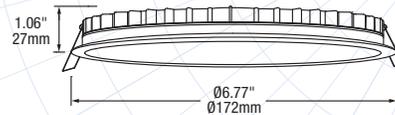

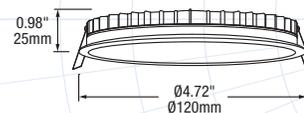

**Now up to  
105 Lumens  
per watt!**

Thin-line LED Down Lights are a breakthrough in LED downlight technology. Clever placement of 2835 LEDs around our glass diffusing lens provide brilliant and efficient LED lighting from a fixture that is only 26mm thick. Thin-line LED Down Lights are designed for retrofit and new construction installations and are very simple to install. They are ideal for shallow ceiling plenums since no IC can or box is required above the fixture.

## Features

- ✓ Energy efficient – up to 80% energy savings
- ✓ Convenient remote driver option
- ✓ Ultra thin design
- ✓ Warm White and Natural White color temperatures
- ✓ Available in 5 sizes
- ✓ All models available for shower or outdoor wet location listing. (specify when ordering)
- ✓ Retrofit or new construction
- ✓ No IC can required above the fixture
- ✓ Connects directly to 120V power supply
- ✓ Easy to install
- ✓ 50,000 hour life
- ✓ 5 year limited warranty
- ✓ Airtight

## High Power Thin-line LED Down Light – 4, 6 and 8 inch

Remote Driver

## Residential Applications

- Kitchens
- Pantries
- Laundry rooms
- Bathrooms
- In showers
- Under soffits (outdoor)

## Commercial Applications

- Lobbies
- Hallways
- Banquet halls
- Elevators
- Stairways
- Retail
- Restaurants
- Office lighting
- Under cabinet
- In cabinet
- Wall mount for egress lighting
- Under soffits (outdoor)

# LV-DL Series

**NSL**

The LV-DL Series Down Lights are easy to install and can replace traditional MR16 and PAR ceiling fixtures widely used indoors, in residential homes and commercial applications such as retail, hotel and museums.

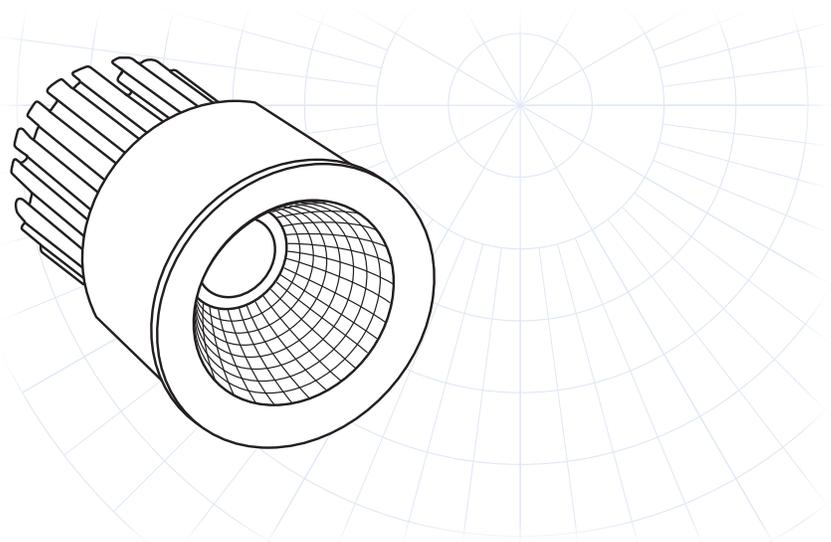

**DIMMABLE!**

Introducing the new LED Low Voltage Down Light (LV-DL series). The LV-DL series utilizes high brightness Epistar COB (Chip on board) LEDs offering great thermal performance, low power consumption (8.2W with the LV-DL8 series, 12W with the LV-DL13 series) and a long lifespan of 50,000 hrs. The LV-DL8 series has 5 different trim designs to choose from while the LV-DL13 offers a small 110mm (4") adjustable gimbal. Both LV-DL down lights feature a custom designed heat sink to disperse heat and are powered by a constant current power supply that is dimmable with most trailing edge electronic dimming systems.

## Features

- ✓ Energy efficient – up to 80% energy savings
- ✓ High Brightness COB LED's
- ✓ Low power consumption
- ✓ Warm White and Neutral White color temperatures
- ✓ Available in two standard beam angles
- ✓ New Construction, IC and remote installations
- ✓ ETL listed for direct contact with insulation and combustible materials (LV-DL13)
- ✓ Self resetting thermal protector
- ✓ Easy to install, modular design
- ✓ 50,000 hour life
- ✓ 5 year limited warranty

## Residential Applications

- Kitchens
- Pantries
- Laundry rooms
- Bathrooms

## Commercial Applications

- Lobbies
- Hallways
- Elevators
- Stairways
- Retail
- Restaurants
- Office lighting

## LV-DL8 series specifications

# Surface/Recessed LED Down Light

**NSL**

LED Down Light is a simple yet beautiful solution for flush mount and recessed applications without requiring the use of a recessed can.

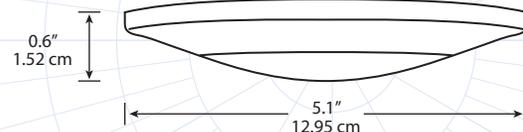

DIMMABLE!

The DL-4-9D/DL-6-15D series features a 120V AC alternating current source which eliminates the need for a traditional LED driver. In addition, the DL-4-9D/DL-6-15D is wet location listed and installs easily on standard ceiling junction box or can be retrofitted to existing recessed cans with included hardware.

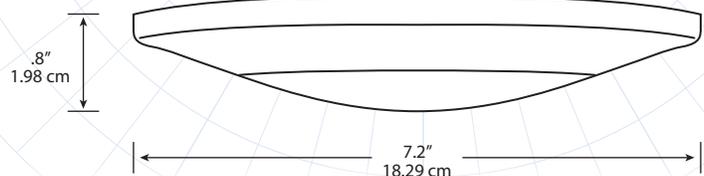

## Features

- ✓ 120V AC source, no driver needed
- ✓ Installs easily on standard ceiling junction box with included hardware
- ✓ Included mounting springs allow existing recessed cans to be retrofitted
- ✓ Die cast aluminum trim routes heat away from electrical components
- ✓ White polycarbonate diffuser eliminates hot spots creating uniform light distribution
- ✓ Wet location listed suitable for virtually any application
- ✓ Suitable for use in IC or NON-IC Applications
- ✓ 90+ CRI, the absolute best in the industry
- ✓ Dimmable to 5% with most standard dimmers
- ✓ Approved by ETL Standards for Canada and USA
- ✓ Energy Star / T24 Compliant
- ✓ 5 year warranty

LED Down Light – 4 inch

LED Down Light – 6 inch

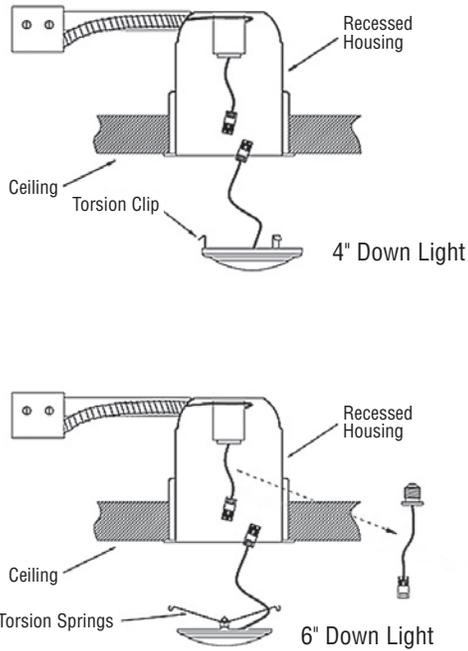

## Applications

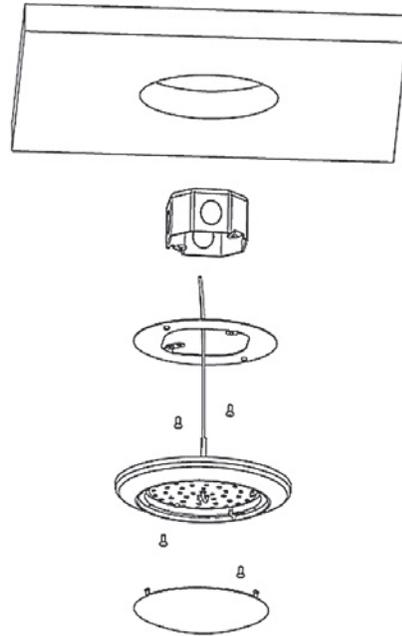

- Lobbies
- Hallways
- Banquet halls
- Elevators
- Stairways
- Retail
- Restaurants
- Residential

# LED Switch Star

**NSL**

Suitable for indoor or outdoor use, LED Switch Star is the perfect fixture for security or egress lighting.

**DIMMABLE!**

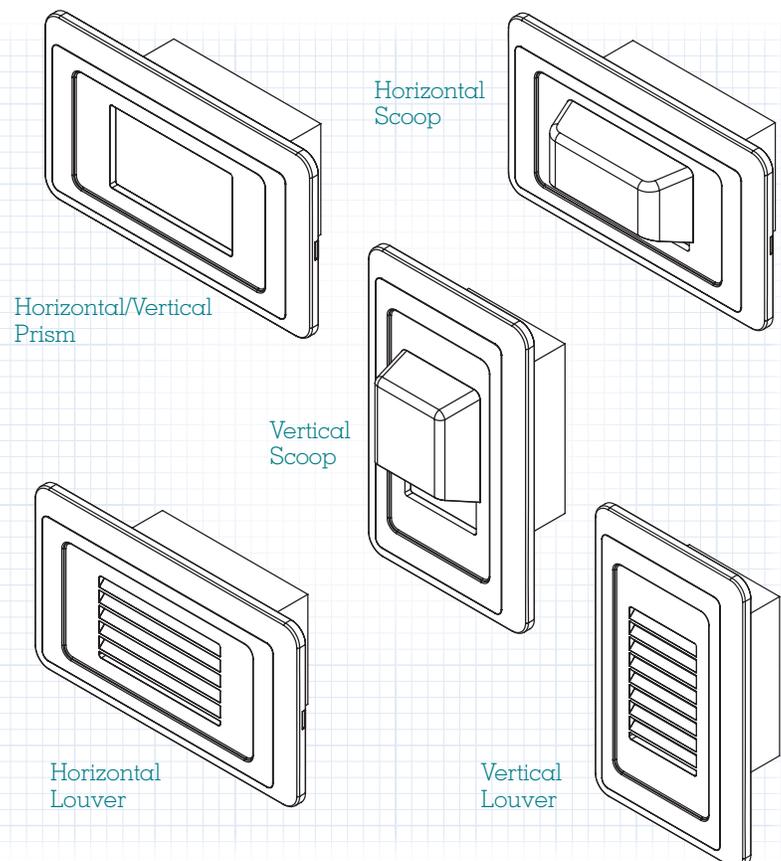

LED Switch Star mounts to most standard 2"x4" electrical boxes and can be used both indoors and outdoors. Solid polycarbonate construction (5VA flame rated) means the fixture will never corrode in harsh environments. There are no remote drivers to deal with – LED Switch Star connects directly to 120V and is extremely easy to install. Decorative covers available include Louver, scoop or prism in both horizontal as well as vertical mount options. Low power consumption of only 1.4 watts and the efficacy of 57 lumens per watt make this a perfect fixture for safety, security or egress lighting applications.

## Features

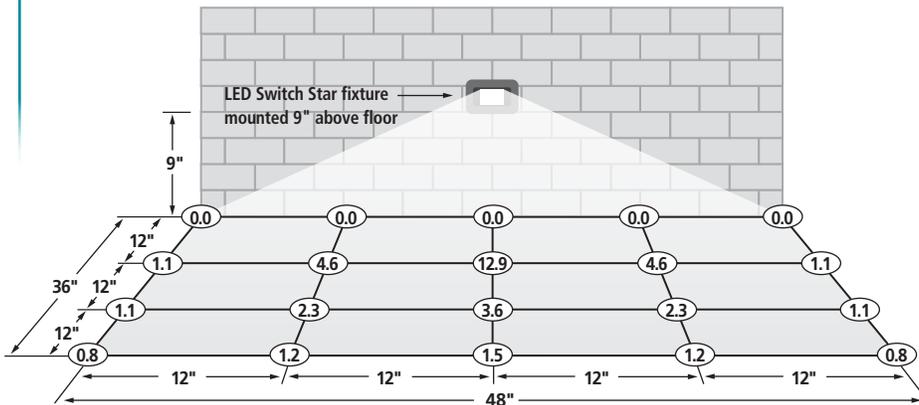

- ✓ Low power consumption (1.4 watts)
- ✓ Easy installation – mounts to standard 2" x 4" electrical box
- ✓ Indoor or outdoor applications
- ✓ 3 colors to choose from
- ✓ Dimmable
- ✓ 40,000 hour life
- ✓ ETL listed
- ✓ 3 year warranty

## Applications

- Hallways
- Stairways
- Night Light
- Decks and Patios
- Parking garages
- Elevators
- Exterior commercial or residential

# LED Switch Star

(X.X) Illuminance in Lux

## Specifications

Input Voltage:	120V AC
Power Consumption	1.4W, .012A
Color Temperature	2700K

LED-SW-MOD

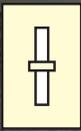

### Replacement Cover for Switch Star

# LED Step Star

NSL

LED Step Star provides a safe, attractive and affordable way to light stairs, hallways and aisleways.

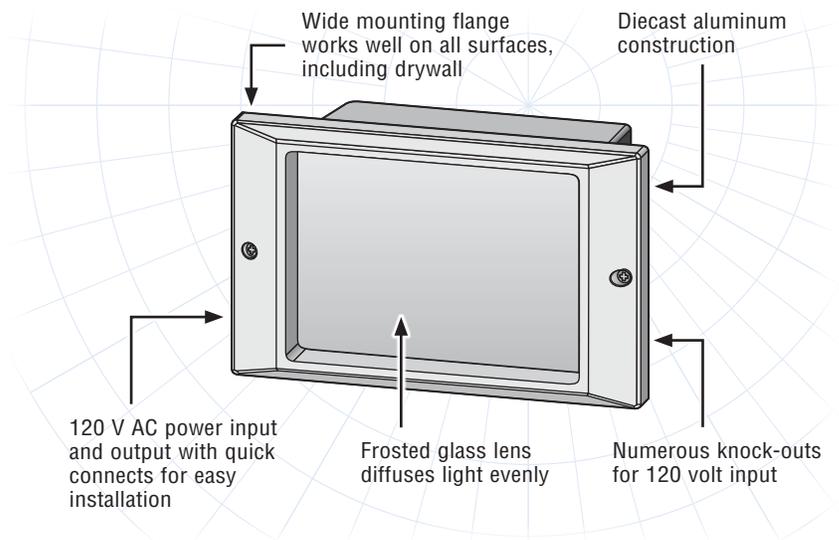

**DIMMABLE!**

LED Step Star provides a highly effective and energy efficient recessed fixture suitable for indoor and outdoor use. With power consumption of just 5.2 watts LED Step Light delivers solid performance at an affordable price. Replaceable 120V DC LED Module included. Dimmable. 120V AC input and output of fixture up to 150 fixtures per 15A tap. The warm white (3100° Kelvin) color temperature provides natural looking light. LED Step Lights are made of cast aluminum for strength and corrosion protection and are suitable for concrete pour installations. Each fixture has an available “concrete cap” to make concrete pour installations a breeze.

## Features

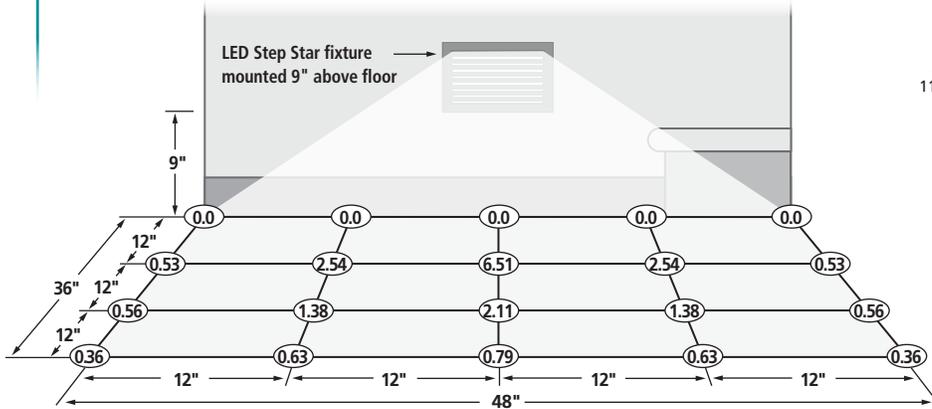

- ✓ Low power consumption – just 5.2 watts
- ✓ 120V AC power input and output with quick connects for easy installation
- ✓ Long Life – 40,000 hours
- ✓ Warm color temperature 3100K +/-200K
- ✓ cUL listed for wet and IC locations
- ✓ Suitable for concrete pour installations
- ✓ Die cast aluminum construction
- ✓ Replaceable 120V DC LED module
- ✓ Dimmable with most trailing edge electronic dimming systems
- ✓ 2 year limited warranty

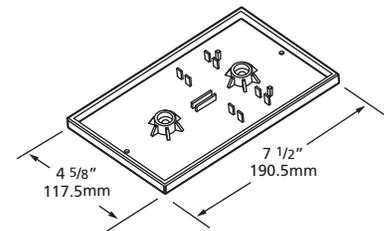

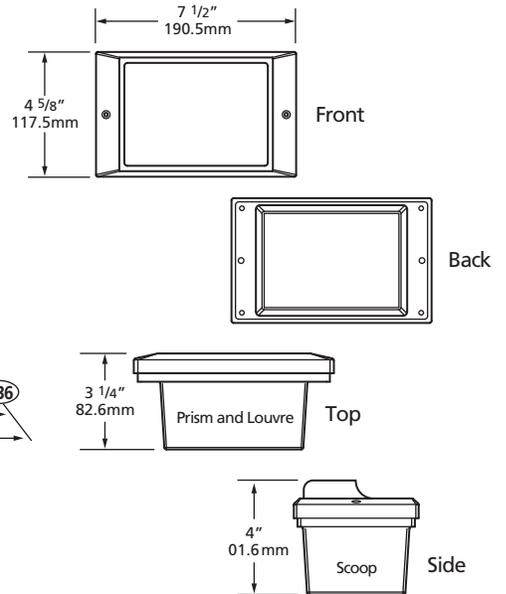

## Applications

- Interior stairs
  - Exterior stairs
  - Aisles
  - Hallways
  - Paths
  - Emergency lighting
  - Theaters
  - Public areas
  - Patios
  - Decks
- Anywhere that requires security or safety lighting in an aesthetically pleasing manner!

Concrete cap for concrete pour installations  
Product Code: SL-CC

IMPORTANT: It is recommended that you use Magic Lite's Concrete Cap for concrete pour installations. These caps assist in providing a proper reveal for flush mount of fixture cover after concrete is dry.

## Specifications

Input Voltage	120V AC
Power Consumption	5.2 Watts
Lumens	73.5
Average LED Life	40,000 hours
LED Colors	Warm White (3100K +/-200)
CRI	>80
Cover Finish	Powder Coated White, Bronze, Brushed Aluminum, Black
Can Finish	Powder Coated White
Construction	Cover and can cast aluminum
Lens	Frosted Tempered Glass
Wiring Options	120V AC hardwire – can be daisy chained up to 150 fixtures per 15A circuit
Agency Approval	cUL listed for wall, ceiling, wet and IC locations.

## Dimensions (L x W x H)

Cover Type	Cover
Scoop	Cover 7 1/2" x 4 5/8" x 1 1/2" (190.5mm x 117.5mm x 38.1mm)
	Can 5 1/2" x 4" x 2 1/2" (139.7mm x 101.5mm x 63.5mm)
Prism	Cover 7 1/2" x 4 5/8" x 3/4" (190.5mm x 117.5mm x 19.1mm)
	Can 5 1/2" x 4" x 2 1/2" (139.7mm x 101.5mm x 63.5mm)
Louver	Cover 7 1/2" x 4 5/8" x 3/4" (190.5mm x 117.5mm x 19.1mm)
	Can 5 1/2" x 4" x 2 1/2" (139.7mm x 101.5mm x 63.5mm)

# LED Brick Star

NSL

LED Brick Star provides a safe, attractive and affordable way to light stairs, aisles, paths and entrance ways.

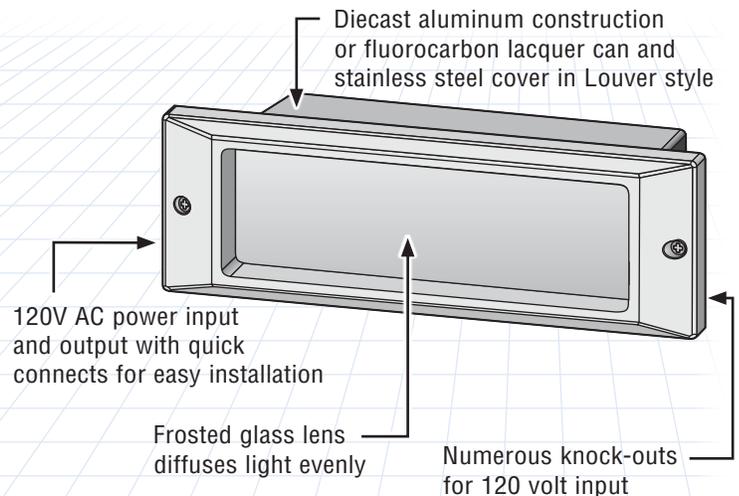

**DIMMABLE!**

LED Brick Star provides a safe, attractive and affordable way to light stairs, aisles, paths and entrance ways. With power consumption of just 5.2 watts 72% energy savings vs. Xenon/Halogen technologies. Dimmable. 120V AC input and output of fixture up to 150 fixtures per 15A tap. Replaceable 120V DC LED Module included. cUL/us listed wet location for all interior and exterior wall, ceiling and concrete pour installations. LED Brick Light delivers excellent performance at an affordable price. The LED Brick Light has been uniquely designed to the specific size of a standard brick. This provides the perfect solution for those applications where a more linear fixture is required.

## Features

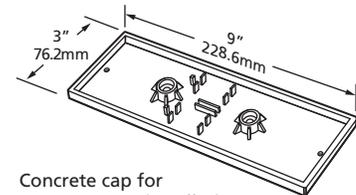

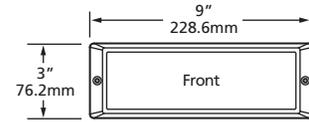

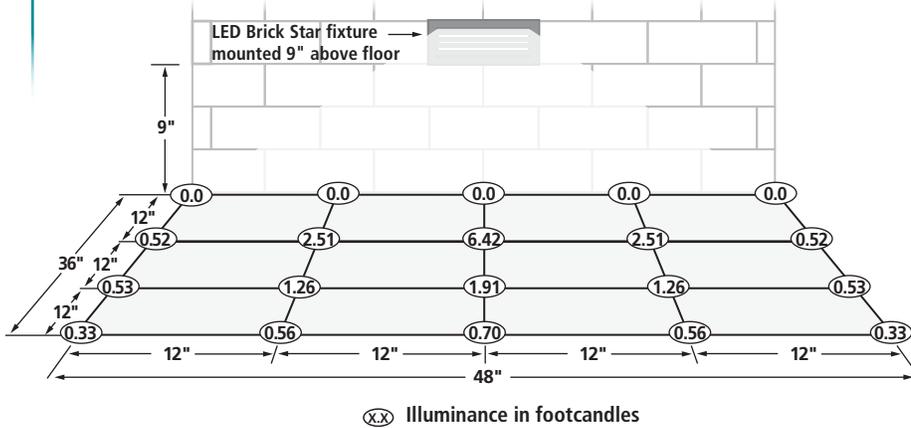

- ✓ Louver style now available in Stainless Steel
- ✓ Low power consumption – just 5.2 watts
- ✓ 120V AC power input and output with quick connects for easy installation
- ✓ Long life – 40,000 hours
- ✓ Warm color temperature 3000° K
- ✓ cUL listed for wet and IC locations
- ✓ Available concrete cap for easy concrete pour installations
- ✓ Die cast aluminum construction
- ✓ Available in fluorocarbon lacquer can and stainless steel Louver cover for harsh locations
- ✓ Dimmable with most training edge dimming systems
- ✓ Up to 150 fixtures can be daisy chained on one 15 amp circuit
- ✓ 2 year limited warranty, 3 years on stainless steel

## Applications

- Interior stairs
  - Exterior stairs
  - Aisles
  - Hallways
  - Paths
  - Emergency lighting
  - Theaters
  - Public areas
  - Patios
  - Decks
- Anywhere that requires security or safety lighting in an aesthetically pleasing manner!

# LED Wall Star

**NSL**

LED Wall Star by NSL provides a safe, attractive and affordable way to light interior and exterior steps, aisles, halls, paths, entrance ways and patios & decks.

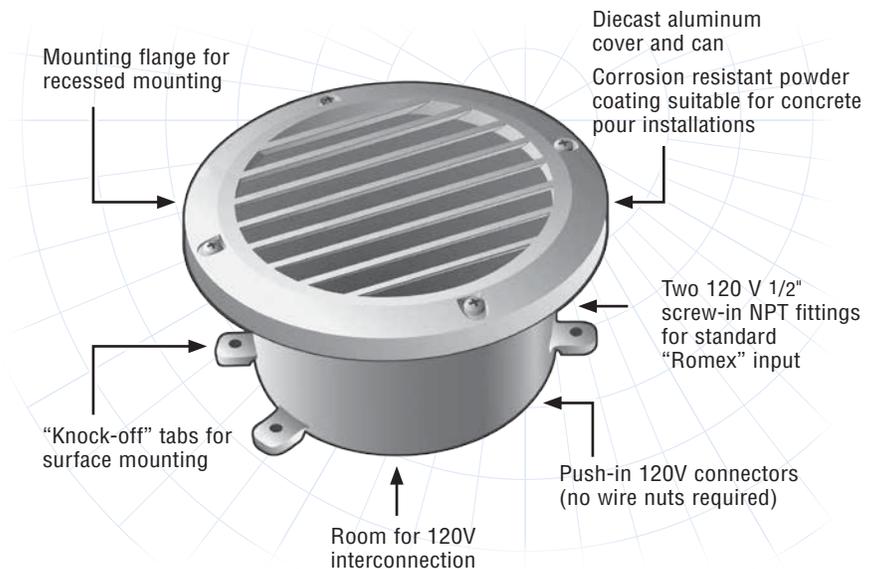

**DIMMABLE!**

Die cast aluminum surface or recessed mount LED light fixture of only 5.2 watts. Dimmable. 120V AC input and output of fixture up to 150 fixtures per 15A tap. Replaceable 120V DC LED module included. UL listed Wet Location. Offered in three cover styles and four fixture finishes.

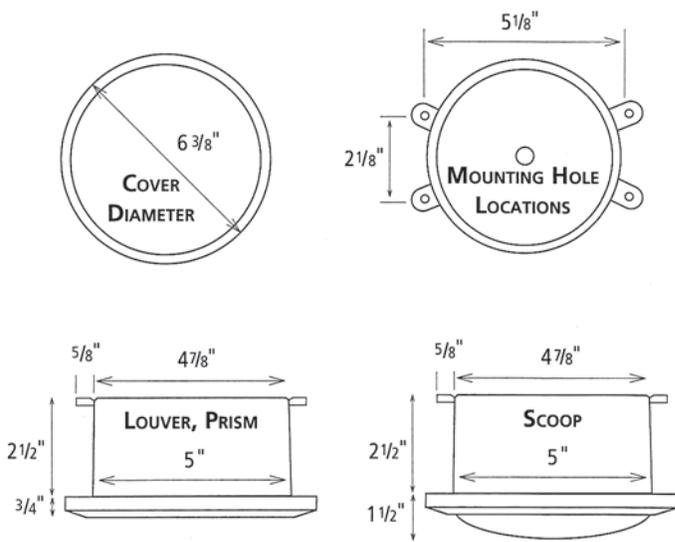

## Features

- ✓ REplaceable 120V DC LED module
- ✓ Pleasingly warm color temperature of 3100K
- ✓ Three cover designs: Louver, Prism and Scoop
- ✓ Four cover color options: White, Black, Bronze or Aluminum
- ✓ Dimmable
- ✓ UL listed for wet and IC locations
- ✓ Use in poured concrete
- ✓ Can be surface mounted or recessed into any hole 5" diameter and 3" deep
- ✓ Two year limited warranty

## Applications

- Interior stairs
  - Exterior stairs
  - Aisles
  - Hallways
  - Paths
  - Patios & Decks
  - Entry lighting
  - Post lighting
  - Showers
- Anywhere that requires security or safety lighting in an aesthetically pleasing manner!

# LED Wall Sconces

**NSL**

Suitable for indoor or outdoor use, this attractively designed fixture provides both an up light and down light component utilizing our replaceable 5.2 watt LED modules.

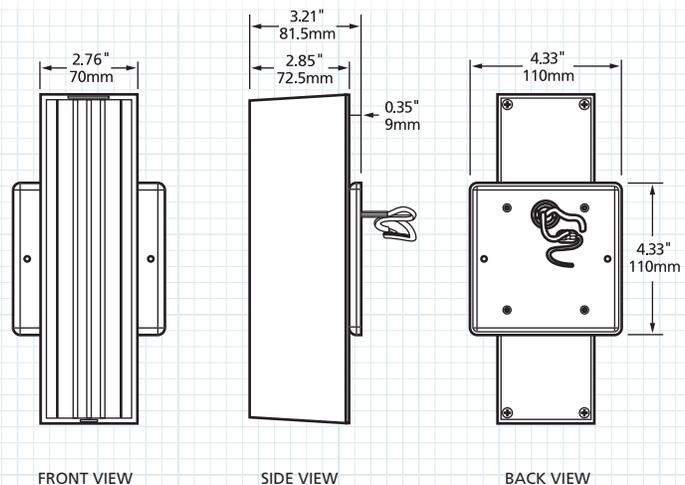

**DIMMABLE!**

LED Wall Sconce combines elegant contemporary design with high efficiency LEDs. The result is an extremely versatile fixture ideal for use in countless applications indoor or outdoor. Clear lensed openings provide a distinctive beam pattern that provides warm (3000K) efficient light with an overall power consumption of just 10.4 watts! You can also elect to have only an up light or down light component if you wish. Rugged die-cast aluminum construction in four finishes make this fixture a natural choice that will last for many years.

## Features

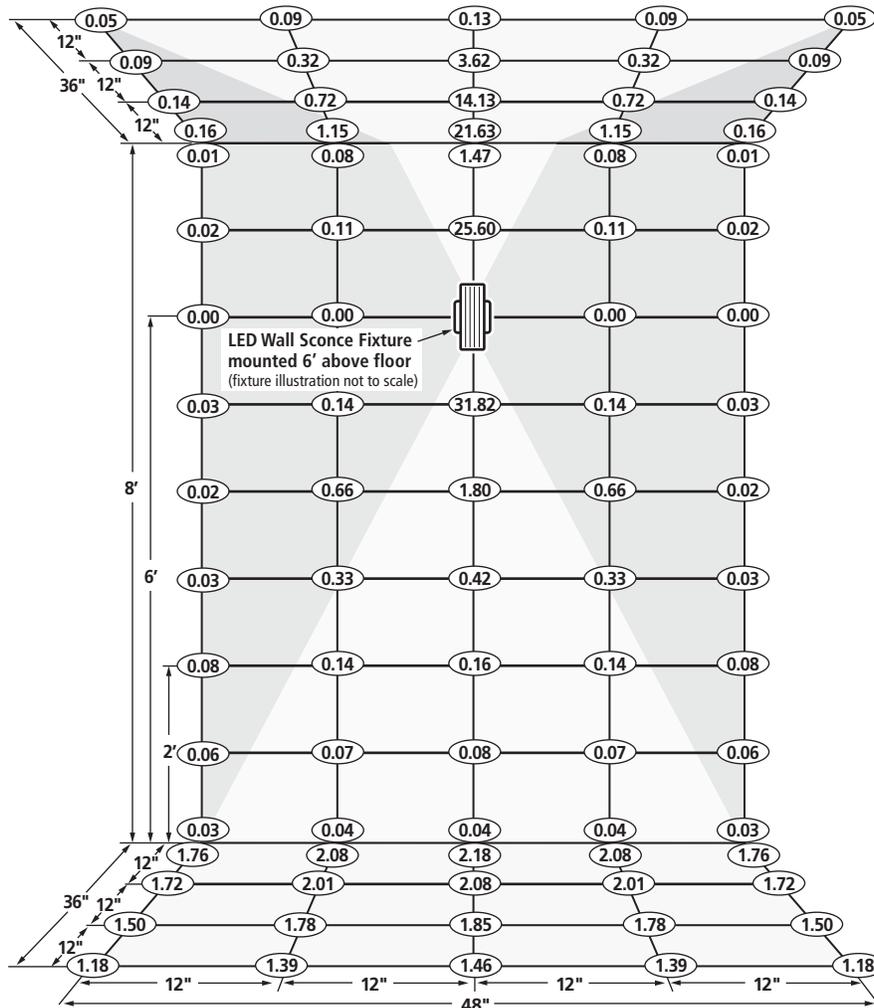

- ✓ Replaceable 5.2 watt LED modules
- ✓ Energy efficient at just 10.4 watts overall power consumption
- ✓ Dimmable with most trailing edge electronic dimming systems
- ✓ Rugged Cast Aluminum construction
- ✓ 40,000 hour LED life
- ✓ Mounts to CSA listed 4" octagonal junction box
- ✓ White, Bronze, Black and Aluminum finishes available
- ✓ Dual top and bottom, or, top or bottom single light operation option
- ✓ cUL listed wet location for exterior or interior applications
- ✓ Powder coated finish
- ✓ 2 year limited warranty

## Applications

- Exterior residential
- Exterior commercial
- Entrance ways
- Hallway lighting
- Hotel hallways
- Restaurants
- Stairways
- Lobbies
- Outside elevators
- Deck Lights
- Patio Lights

# LED Task Star

**NSL**

All of the convenience and light output of traditional task lights with the benefits of LED technology.

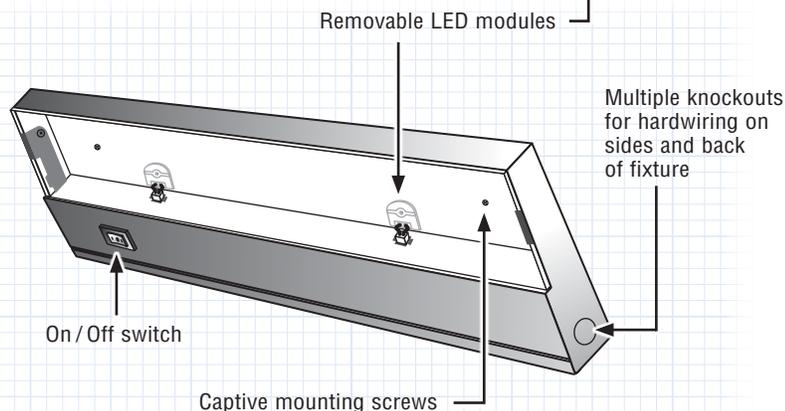

**DIMMABLE!**

LED Task Star comes with replaceable high voltage LED modules that are dimmable making it an extremely versatile fixture. It is available in 1,2,3,4 and 5 module versions. Overall power consumption is as low as 5.2 watts per fixture. What's more, there are no remote or internal LED drivers to worry about as the replaceable modules work directly off of line voltage. Simply connect directly to 120 Volt power.

## Features

- ✓ Dimmable with most trailing edge dimmers
- ✓ Low power consumption – as low as 5.2 watts per module
- ✓ Warm White color temperature (3000K +/- 200)
- ✓ 40,000 hour useful lamp life
- ✓ No harmful UV rays
- ✓ Fast and easy installation – push in terminals for hard wire connection
- ✓ 120 volt through wiring
- ✓ Available in 1, 2, 3, 4 & 5 LED module units
- ✓ Secure hinged lens
- ✓ Captive mounting screws in lamp compartment
- ✓ Available in 4 colors: White, Bronze, Black and Brushed Aluminum
- ✓ 6' cord and plug version also available (special order)
- ✓ 3 year limited warranty

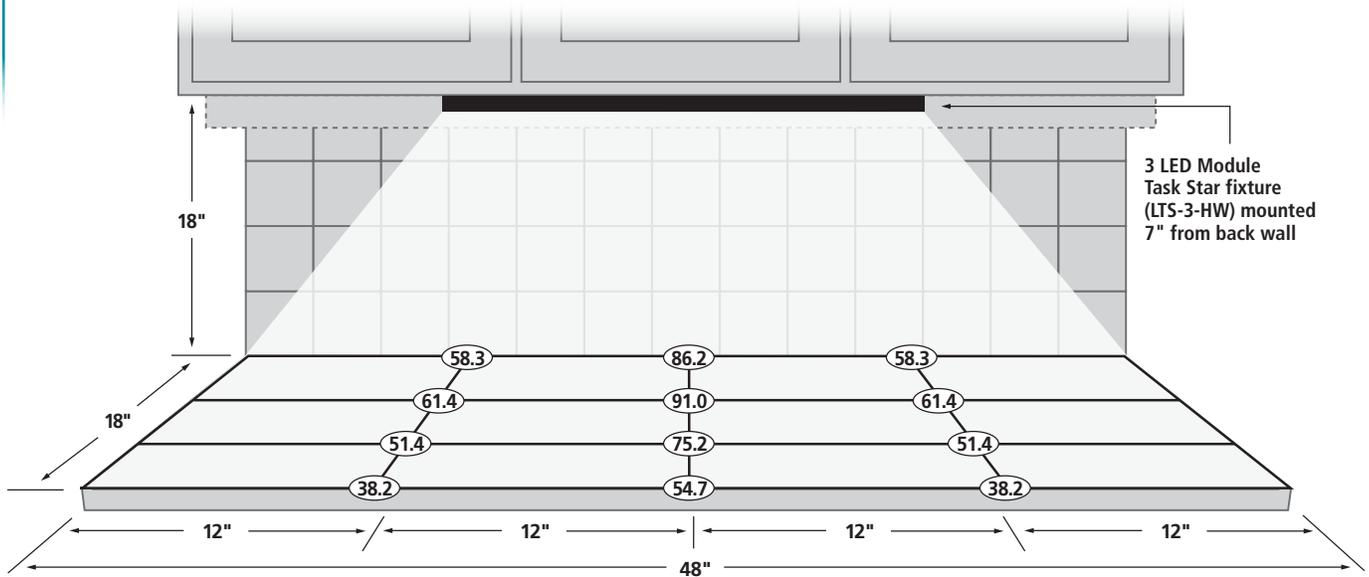

Available in 1, 2, 3, 4 and 5 module units.

Save up to 80% in energy consumption with same light output as 18 watt xenon!

## Applications

- Under cabinet task light
- Over cabinet accent light
- Display cases and exhibits
- Merchandising
- Indirect accent light
- Wall units and bars
- Office work stations

## Low Voltage Mini Flood Light

Low Voltage Mini Flood Lights provide exceptional illumination in a variety of beam spreads and colors and are IP68 rated for under water applications as well as wet locations.

Static Color

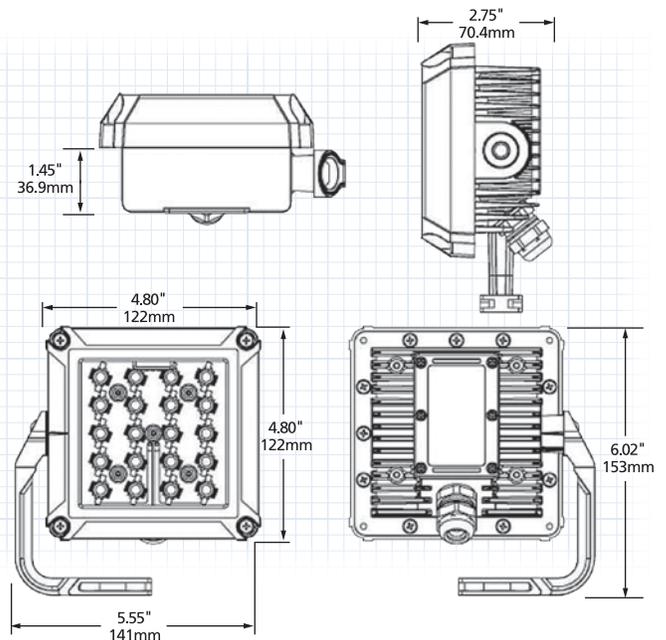

RGB Color Change

Low Voltage LED Mini Floods provide an extra degree of safety working on Class 2, 24Volt power supplies and are suitable for submersed applications down to 1 meter under water. They are available in Warm White and Cool White as well as Blue and RGB making them a powerful tool for flood lighting or spot lighting buildings, trees or fountain lighting.

### Features

- ✓ Compact size
- ✓ Adjustable mounting arm with degree markings allows easy fixture aiming
- ✓ Safe 24 Volt operation
- ✓ Long life 50,000 hours
- ✓ Several mounting options including ground mount, wall mount, extended wall mount
- ✓ High lumen output
- ✓ Available in Warm White, Cool White, Blue and RGB color change
- ✓ Available in 10° and 30° beam spreads static colors, 40° for RGB
- ✓ IP68 submersible to 1 meter – ideal for fountains and water features.
- ✓ Comes with 6' (1.8m) power feed wire for static colors, 6' with quick connect for RGB
- ✓ RGB can be controlled with stand alone controller or with existing DMX systems
- ✓ 2 year limited warranty

### Applications

- Spot lighting architectural features
- Signage illumination
- Narrow spots for grazing building facades
- Dock lighting
- Fountain and pool lighting
- Parking lots
- Flag poles
- Landscape lighting

# High Power LED Flood Light

**NSL**

Available in various beam angles and color temperatures these High Power LED Flood Lights are suitable for a variety of indoor or outdoor applications.

DESIGNLIGHTS  
CONSORTIUM

The High Power LED Flood Lights are fitted with efficient Cree, OSRAM or Philips Lumileds LUXEON LEDs and powered by a Meanwell driver offering superior performance and reliability. With our unique beam profile and uniform photometric distribution, the LED Flood Light series achieves high optical efficiency with state-of-the-art technology to boost overall system efficiency.

Proprietary thermal management design ensures low LED junction temperature, while maintaining an extremely light weight fixture. High Power LED Flood Lights are cETL/us listed with selected models DesignLights Consortium® (DLC) qualified.

## Design Innovation

### Fold-Fin Heatsink (FFH) technology

- Thin aluminum sheets that are pressed into the desired fin structures by fully automated machines
- The heatsink is soldered together using a high temperature furnace resulting in a large total surface area that is extremely light weight

### Air ventilation housing design

- Designed to allow very effective air flow across the heatsink
- Helps to direct the heat away from LED light source by natural convection

### Distributed heat source

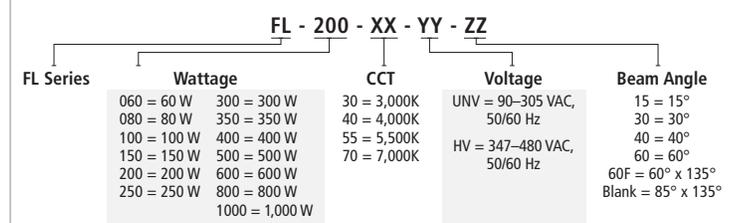

- Evenly distributed light source panel configuration spreads the heat source over larger area
- Reduced thermal density lowers LED junction temperature

## LED vs Metal Halide Replacement Table

LED Flood Light	Metal Halide Flood Light

# Xenon Task Light

**NSL**

Xenon bulbs burn significantly cooler, have four times the lamp life and are half the cost of halogen.

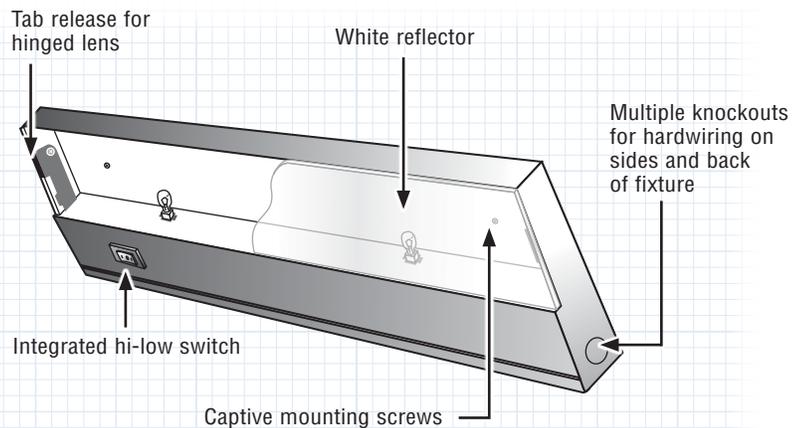

**DIMMABLE!**

Xenon Task Light (XTL) is the perfect affordable solution for under cabinet, counter and shelf lighting. XTL utilizes an 18 watt xenon lamp that provides a better quality light (color rendering index RA = 100 and color temperature of 2750 Kelvin), longer lamp life (10,000 hours) and a cooler burning lamp when compared to traditional halogen products.

## Features

- ✓ Safety – low pressure 18 watt xenon lamps that burn cooler than halogen
- ✓ 10,000 hour lamp life
- ✓ Easily dimmable
- ✓ Fast and easy installation – push in terminals for wire connection, snap on covers
- ✓ 120 volt through wiring
- ✓ Available in 1, 2, 3, 4 & 5 lamp units
- ✓ Hinged lens for easy relamping
- ✓ Captive mounting screws included in bulb compartment
- ✓ Available in 4 colors: White, Bronze, Black and Brushed Aluminum
- ✓ 5' pre-installed cord and plug also available
- ✓ 1 year limited warranty

Available in 1, 2, 3, 4 and 5 module units.

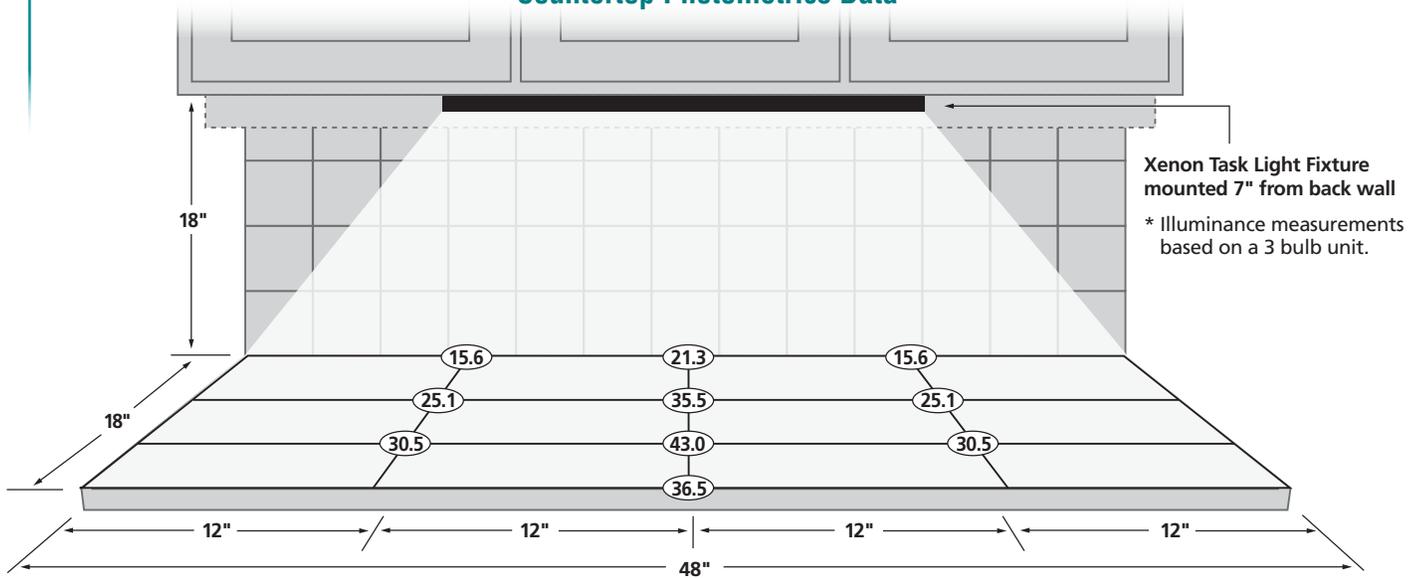

## Applications

- Under cabinet task light
- Over cabinet accent light
- Display cases and exhibits
- Merchandising
- Indirect accent light
- Wall units and bars
- Office work stations

# Xenon Task Light

**NSL**

## Countertop Photometrics Data

(X.X) Illuminance in footcandles

## Specifications

Operating Voltage	120 Volt
Weight	XTL-1 = 350g XTL-2 = 760g XTL-3 = 1100g XTL-4 = 1450g XTL-5 = 1680g
Product Material	Aluminum body, ABS end covers
Product Finish	Black & White: Powder Coating Aluminum, Bronze: Anodized
Product Color	Black, White, Aluminum, Bronze
Lens	Frosted Glass
Cover Finish	Side Cover (Black, White & Bronze): Plastic Injection Side Cover (Aluminum): Vacuum Plating
Replacement Lamp	12 V, 18 W, product code XTL-BULB

Available in white or black (powder coated finish) and a brushed aluminum or bronze finish (anodized).

Hardwire units can be daisy chained up to 66 bulbs or 1188 watts

## Product Code

Code	Description	Energy Usage*	Dimension (L x W x H)
XTL-1-HW/xx	Xenon Task Light, 1 Lamp	18W	9" x 4 5/8" x 1 1/2" (229mm x 113mm x 39mm)
XTL-2-HW/xx	Xenon Task Light, 2 Lamp	36W	17 1/2" x 4 5/8" x 1 1/2" (445mm x 113mm x 39mm)
XTL-3-HW/xx	Xenon Task Light, 3 Lamp	54W	26" x 4 5/8" x 1 1/2" (659mm x 113mm x 39mm)
XTL-4-HW/xx	Xenon Task Light, 4 Lamp	72W	34 1/2" x 4 5/8" x 1 1/2" (875mm x 113mm x 39mm)
XTL-5-HW/xx	Xenon Task Light, 5 Lamp	90W	38 1/2" x 4 5/8" x 1 1/2" (967mm x 113mm x 39mm)

Wiring options: Replace HW (hardwire) with PC for plug and cord version  
xx = finish color: AL - Aluminum, BK - Black, BZ - Bronze, WH - White

# Xenon Mini Light

**NSL**

Sleek design and beautiful finishes combined with xenon technology.

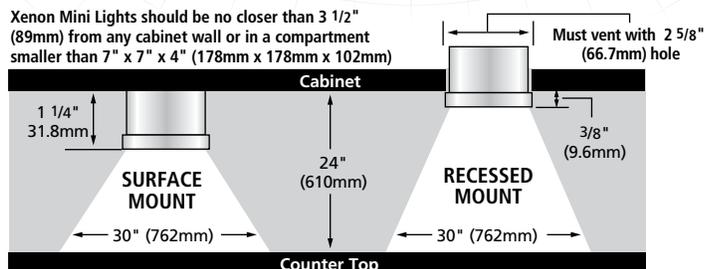

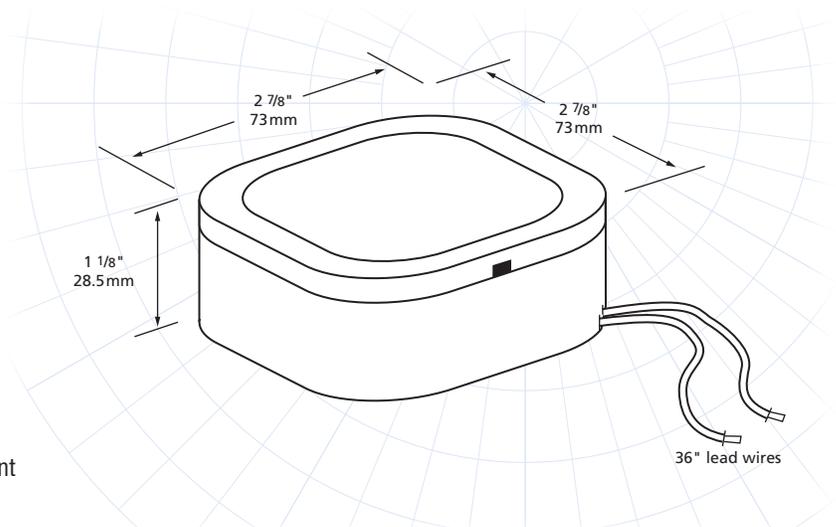

Xenon Mini Light uses safe 12V, 18W xenon lamps that burn much cooler than halogen. Xenon lamp technology provides excellent light quality (CRI = 100) with a warm color temperature of 2750 Kelvin and long lamp life of 10,000 hours.

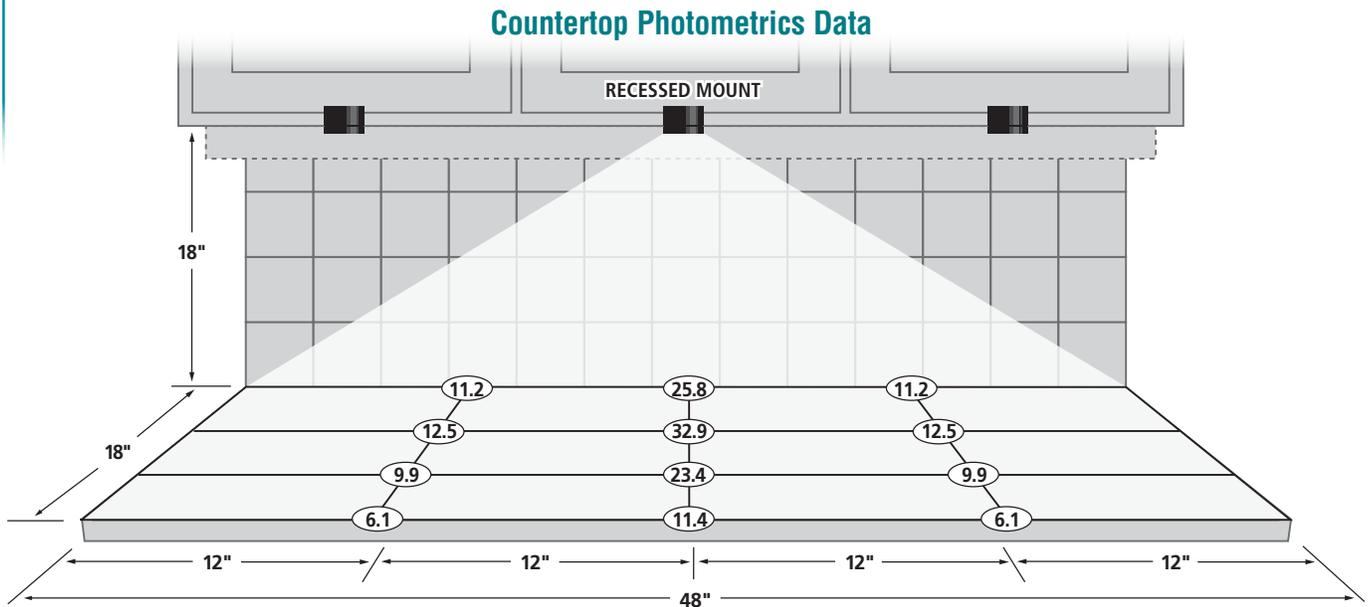

## Features

- ✓ Safety – burns significantly cooler than halogen
- ✓ Low pressure lamps safer than halogen
- ✓ Bulbs last 4 times longer than halogen – 10,000 hours
- ✓ No UV rays – won't damage articles under lamp, provides a whiter, more natural light
- ✓ Easy relamping
- ✓ Fast and easy installation – Surface or recess mount
- ✓ Innovative design – oval shaped trim is aesthetically pleasing
- ✓ Available individual or 3 light kits
- ✓ 1 year limited warranty

## Applications

- Under cabinet task light
- Kitchen task lighting
- Display cases and exhibits
- Shelf lighting
- Wall units and bars
- Office task lighting

# Xenon Bristrip

**NSL**

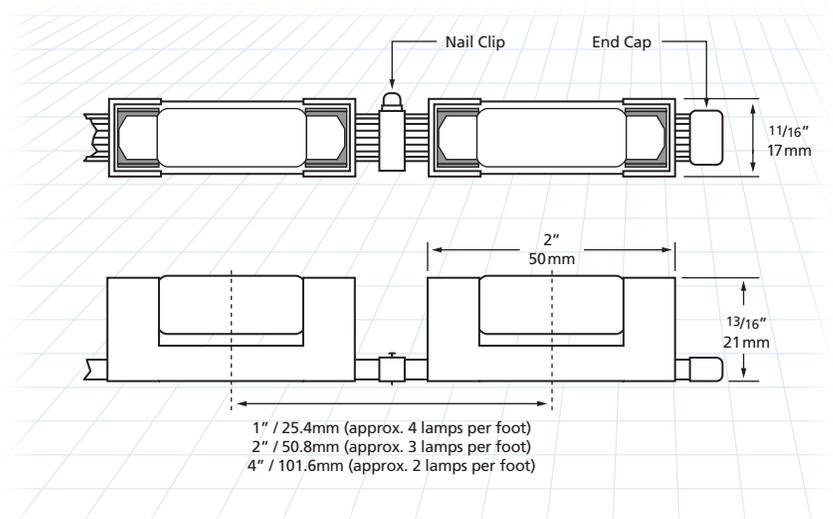

NSL's popular Bristrip provides the ultimate in linear lighting systems.

With a bend radius of 2.25" (5.75cm), inside or outside, Xenon Bristrip can evenly illuminate the tightest of curved surfaces. Even 90 degree corners are simple to do. Xenon Bristrip mounts easily with 3M® double sided tape (pre-fixed to the back of each socket) or with simple to use nail clips for added security. The lamp holders have a metal reflector built in which deflects heat away from the mounting surface and reflects light onto the surface being illuminated.

## Features

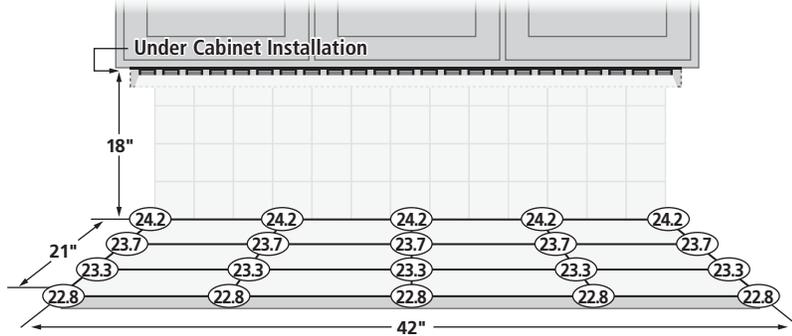

- ✓ Safe 24V operation
- ✓ Flexible design allows for wide variety of applications
- ✓ Parallel wiring means loss of a bulb does not affect remaining strip
- ✓ Snap in bulb socket design for ease of installation and replacement
- ✓ Field cuttable
- ✓ Simple, safe, effective terminal blocks and covers for connecting to power
- ✓ Each socket has its own 3M® double sided tape for mounting
- ✓ Optional nail clips for wood or porous surfaces
- ✓ 1 year limited warranty

## Applications

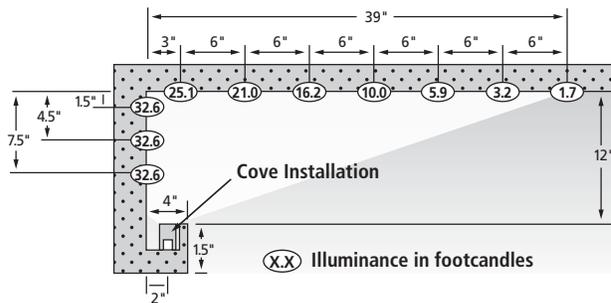

- Under cabinets
- Above cabinets
- Showcase lighting
- Cove lighting
- Indirect lighting
- Sign back lighting
- Shelf lighting
- Decorative accents

## Countertop Photometrics Data (with 5 watt Xenon bulbs)

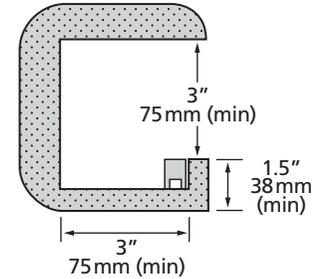

(X.X) Illuminance in footcandles

## Cove Photometrics Data (with 5 watt Xenon bulbs)

(X.X) Illuminance in footcandles

## Cove Typical Installation Detail

- Dimensions shown are minimum to achieve even surface illumination using 4" (101mm) spacing.
- If using 2" spacing, minimum dimensions should be 2" (50mm).
- Cove can curve vertically or horizontally as Britestrip is flexible in both directions.

## Accessories

**BL-001/WH - White**  
**BL-001/BK - Black**  
 Assembly Kit (required to ship with every cut). Includes junction box, terminal block and end cap.

# Xenon Brick Light

**NSL**

Xenon Brick Light provides a safe, attractive and affordable way to light stairs, aisles, paths and entrance ways.

**NOW AVAILABLE IN  
STAINLESS STEEL Louver**

**DIMMABLE!**

Xenon Brick Light (XBL) comes with an 18 watt xenon lamp and has been uniquely designed to fit a standard brick void. This provides the perfect solution for those applications where a more linear fixture is required.

Both the cover and the can of the Xenon Brick Light are constructed of die cast aluminum for corrosion protection and strength. The XBL is suitable for both interior and exterior applications and comes with integral 12 volt transformer and housing for easy installation. Our concrete cap accessory makes concrete pour installations fast and easy.

## Features

- ✓ Louver style now available in Stainless Steel
- ✓ Safety - burns significantly cooler than halogen
- ✓ Low pressure lamps are safer than halogen
- ✓ Easy re-lamping
- ✓ Easy to re-lamp
- ✓ Long life – 10,000 hours
- ✓ No harmful UV rays from lamp
- ✓ Fast and easy installation
- ✓ cUL listed for wet locations
- ✓ Die cast aluminum construction suitable for concrete pour installations
- ✓ Available in fluorocarbon lacquer can and stainless steel Louver cover for harsh locations
- ✓ 120 volt push in connectors for ease of power input
- ✓ Bulb replacement has low voltage safety (12 volt class 2 transformer in each fixture)
- ✓ Dimmable
- ✓ 1 year limited warranty

## Xenon Bulb

- Burns significantly cooler than halogen
- Brighter than fluorescent
- Four times the lamp life, at half the replacement cost of 120 V halogen
- No harmful UV rays
- Safe low pressure bulbs

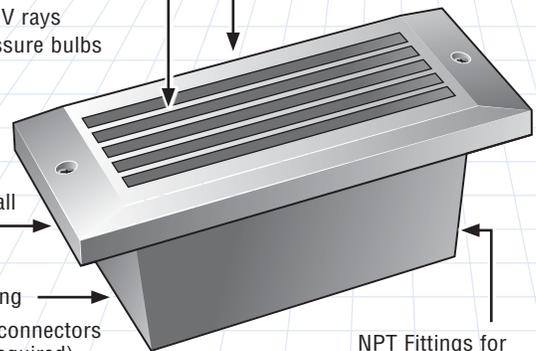

Diecast aluminum cover and can or fluorocarbon lacquer can and stainless steel cover in Louver style

- Corrosion resistant
- Suitable for concrete pour installation

Wide mounting flange works well on all surfaces, including drywall

Room for easy 120 V thru-wiring

Push-in 120 V connectors (no wire nuts required)

NPT Fittings for standard "Romex" input

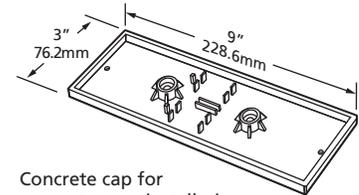

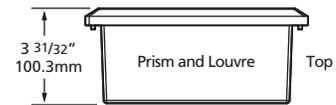

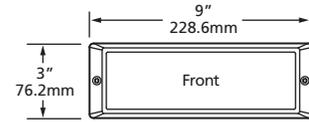

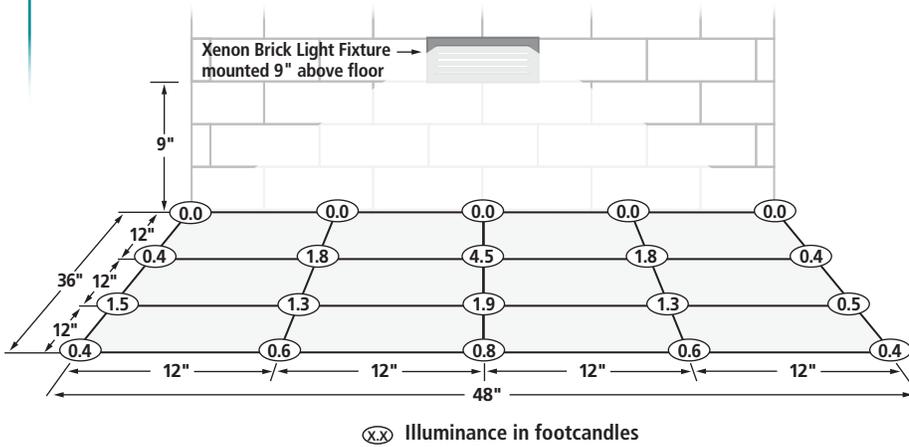

## Applications

- Interior stairs
  - Exterior stairs
  - Aisles
  - Hallways
  - Paths
  - Emergency lighting
  - Theaters
  - Public areas
  - Patios
  - Decks
- Anywhere that requires security or safety lighting in an aesthetically pleasing manner!

# Xenon Brick Light

## Floor Photometrics Data

Concrete cap for concrete pour installations  
Product Code: BL-CC

IMPORTANT: It is recommended that you use NSL's Concrete Cap for concrete pour installations. These caps assist in providing a proper reveal for flush mount of fixture cover after concrete is dry.

## Specifications

Input Voltage	120V AC
Power Consumption	18 Watts
Average Lamp Life	10,000 hours
Color Temperature	2750K
Cover Finish	Powder Coated White, Bronze, Brushed Aluminum, Black or Stainless Steel in Louver model
Can Finish	Powder Coated White or fluorocarbon lacquer
Construction	Cover and can cast aluminum
Lens	Frosted Tempered Glass
Wiring Options	120V AC hardwire – can be daisy chained up to 66 fixtures per 15A circuit
Agency Approval	cUL listed for in wall, ceiling, wet and IC locations
Replacement Lamp	12 V, 18 W, product code XTL-BULB

# Galaxy Fiber Optic System

**NSL**

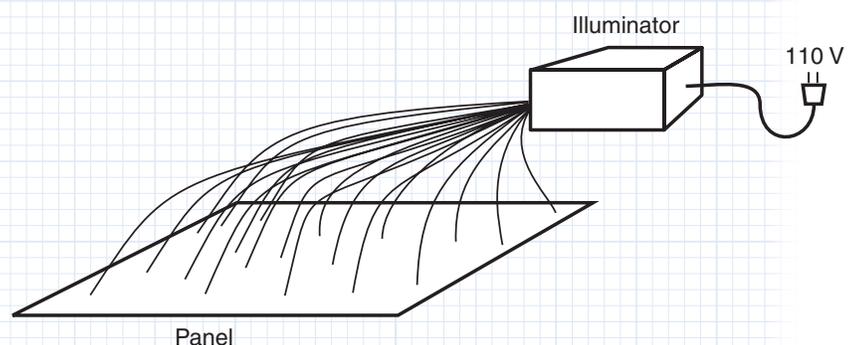

Fiber optic cables transmit light from a LED or Halogen illuminator for a sparkling overhead light show.

Galaxy Fiber Optic Systems are comprised of a fiber optic illuminator with a LED or Halogen light source, 12' long, 1.0mm dia. clear acrylic fibers, and acrylic panels or existing ceiling/wall covering drilled to accept the fibers. Fiber optic illuminators ship with a black/white wheel for a twinkling star night effect, and a color wheel for a kaleidoscope effect. Standard acrylic panels fit into a 2' x 2' or 2' x 4' drop ceiling. Custom panel sizes are available, up to a maximum 4' x 8' panel.

## Features

- ✓ Four illuminator choices
- ✓ New LED illuminator has 85% energy savings vs. similar Halogen model
- ✓ No electricity or heat at the point of illumination
- ✓ Fiber optic cable is durable, There is nothing to break or burn out
- ✓ No UV rays at the point of illumination
- ✓ Easy remote maintenance
- ✓ ETL listed for indoor dry locations

## Applications

- Dining Rooms
- Bedrooms
- Bathrooms
- Entryways
- Living Rooms
- Entertainment Rooms
- Visual Merchandising
- Exhibit Projects

## Specifications

“Galaxy Fiber Optic Panel Systems” incorporates our own “clear nite” background panel. The “clear nite” background is a 3/16” gloss or matte black acrylic panel whose highly reflective surface allows for depth and multiple light point representation. Optional matte finish on plexiglass panels diffuses possible reflections from ambient room illumination.

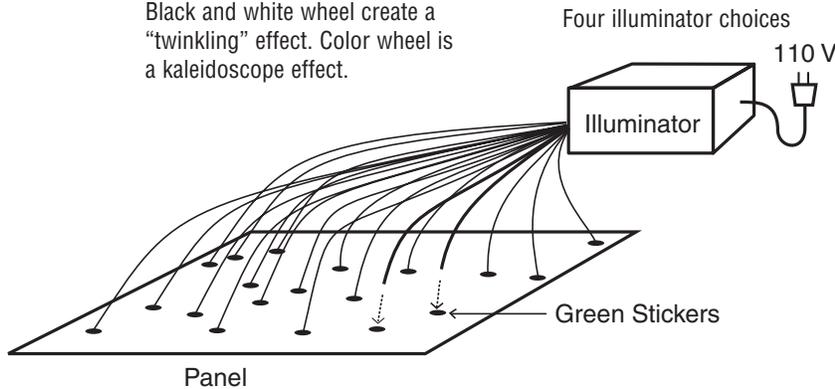

Standard “clear nite” panels are 2' x 2' or 2' x 4' and fit into standard drop ceilings. Custom sizes are available. Our “star point” fibers can also be placed into any other medium of approximately 1" or less width for custom applications (i.e., wood or standard ceiling tiles). See instructions for complete specifications and installation details at [www.magiclite.com](http://www.magiclite.com)

Not dimmable. One year warranty.

GP-5-12 Interior showing 5 watt LED MR-16 bulb

Point-to-point acrylic fibers transmit light from the illuminator to a gloss or matte black panel. Black and white wheel create a “twinkling” effect. Color wheel is a kaleidoscope effect.

- Standard 2' x 2' and 2' x 4' panels pre-cut to fit in drop ceilings
- Custom cut panels for special applications
- Gloss and matte panel finish options

## Illuminator Options

Illuminator with a harness of 400 Fibers in a 12' length. 75 watt Halogen bulb. 11" x 5.5" x 5.75".

## Panel Options

**2' x 2'**  
Gloss = GP-P-2  
Matte = GP-P-2-M

**2' x 4'**  
Gloss = GP-P-4  
Matte = GP-P-4-M

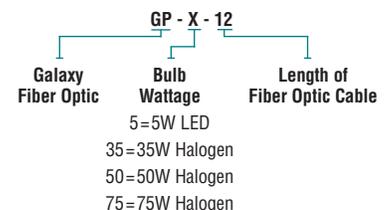

**Custom** = Any dimension up to a 4' x 8' panel  
Contact distributor for quote

Illuminator	Fiber Length	Number of Fibers	Maximum Panels/Area	Maximum Fibers/Sq.Ft.	Total Fixture Wattage
GP-35B-12	12'	160	(3) 2'x4' / 24 sq. ft.	6.7	55
GP-50-12	12'	300	(4) 2'x4' / 32 sq. ft.	9.4	70
GP-5-12	12'	300	(4) 2'x4' / 32 sq. ft.	9.4	10
GP-75-12	12'	400	(4) 2'x4' / 32 sq. ft.	12.5	95

All illuminators ETL Listed for indoor use only.  
Note: Standard 2x4 panels are pre - drilled with 70 holes.

## Product Codes

**MAGNETIC** ETL listed indoor and outdoor

**TR-12-150**  
10" x 3.1" x 3"  
1 circuit at 150 watts for 12V AC

**TR-12-240**  
10" x 4.25" x 3.6"  
1 circuit at 240 watts for 12V AC

**TR-12-300 or TR-24-300**  
10" x 4.25" x 3.6"  
2 circuits at 150 watts each for 12V AC  
1 circuit at 300 watts for 24V AC

**TR-12-480 or TR-24-480**  
11.1" x 4.75" x 4.25"  
2 circuits at 240 watts each for 12V AC  
1 circuit at 480 watts for 24V AC

**TR-24-600**  
11.1" x 4.75" x 4.25"  
2 circuits at 300 watts each for 24V AC

**TR-24-960**  
12.5" x 7.0" x 4.75"  
2 circuits at 480 watts each for 24V AC

**ELECTRONIC** UL listed as a component ("RU" Marking). Check your fixture listing for acceptability. All connections must be made per fixture listing and NEC. 120V AC input/11.6V AC output.

**TER-12-60/W (white)**  
**TER-12-60/B (black)**  
3.5" x 1.5" x 1"  
1 circuit at 60 watts, class 2,  
for 11.6V AC

**TE-12-80**  
2.125" x 1.25" x 0.75"  
1 circuit at 80 watts for 11.6V AC

**TE-12-105**  
3.0" x 1.25" x 0.75"  
1 circuit at 105 watts for 11.6V AC

**TE-12-150**  
4.0" x 1.6" x 1"  
1 circuit at 150 watts for 11.6V AC

**ELECTRONIC** ETL listed as a stand alone power supply ("ETL" Marking). Each transformer is enclosed in a painted steel enclosure with 1/2" knockouts for the incoming 120V AC and the 11.7V AC output.

**TECLT-12-60**  
6.5" x 1.5" x 1.5"  
Class 2, 1 circuit at 60 watts,  
for 11.7V AC

**TECLT-12-150**  
7.1" x 1.75" x 1.75"  
1 circuit at 150 watts for 11.7V AC

**NOTE:**

- All transformer and LED driver dimensions are Length x Width x Height
- All transformer dimensions are of enclosure including mounting flanges and included strain relief
- All transformers should be totally enclosed, and must ventilate
- All LED drivers, dimmers and transformers carry a two year warranty

# Making Your Ideas A Reality

In business for 30 years, NSL is a strong leader in architectural and decorative lighting. Our product range includes the latest in LED technology, fiber optics and traditional lighting products which cover a vast range of applications. Products are stocked in our Buffalo, NY warehouse and our stocking electrical distributor partners across the U.S.A. assure prompt delivery of products to the job site. Our dedicated inside sales and support staff and highly professional national sales force are here to serve you.

# NSL

## Mission Statement

NSL is dedicated to be a leader in providing quality innovative lighting solutions for our customers. Continuous attention to professionalism, efficiencies and ethics will allow our team to accomplish our goals in a profitable manner. Improvement is constant!

# WARRANTY

National Specialty Lighting (NSL) warrants this lighting system to be free from defects in material and/or workmanship, under normal use and service, for a period of ONE YEAR (TWO YEARS to FIVE YEARS for LED products) from the date of original purchase. Please note that incandescent/xenon lamps are EXCLUDED from this warranty.

In the event of a defect in material or workmanship during the warranty period, NSL will repair or replace (at its option) your Lighting System under the conditions of warranty. NSL will do this at its expense for the cost of materials but not for shipping. THIS REMEDY IS THE SOLE AND EXCLUSIVE REMEDY FOR ANY AND ALL CLAIMS RELATING TO ANY BREACH OF WARRANTY BY NSL.

## LIMITATIONS, EXCLUSIONS AND OTHER RIGHTS

- A. Except as provided herein, NSL makes no other warranties express or implied, including but not limited to the implied warranties of merchantability or fitness for a particular purpose, and all such warranties are expressly disclaimed.
- B. In no event shall NSL be liable for indirect, incidental or consequential damages, even if NSL has been advised of the possibility of such damage. This disclaimer applies during and after warranty period.
- C. NSL is not responsible for malfunctions in and/or damage to Lighting Systems where a sale is specifically made without warranty. In such an event the disclaimers of warrant and liability, set forth above, shall continue to apply.
- D. This warranty covers normal consumer use and does not cover damage which occurs during shipment or failure which results from alteration, accident, theft, misuse, abuse, abnormal use, negligent installation, improper maintenance or where adequate care has not been taken to prevent ice or snow damage to the lighting system.
- E. Specifically, when installing mini disc lights in harsh environments such as limestone, salted areas, coastal environments etc. Please use the stainless steel version to avoid the risk of corrosion to body of fixture and voiding warranty.

If you discover a defect or malfunction during the period to which this warranty applies, call or email NSL for information or to receive warranty service.

**Note: You must contact our office for a RETURN GOODS AUTHORIZATION number before returning product. After inspection it will be determined whether a credit is due.**
