

Mirror Hanging Instructions

2040

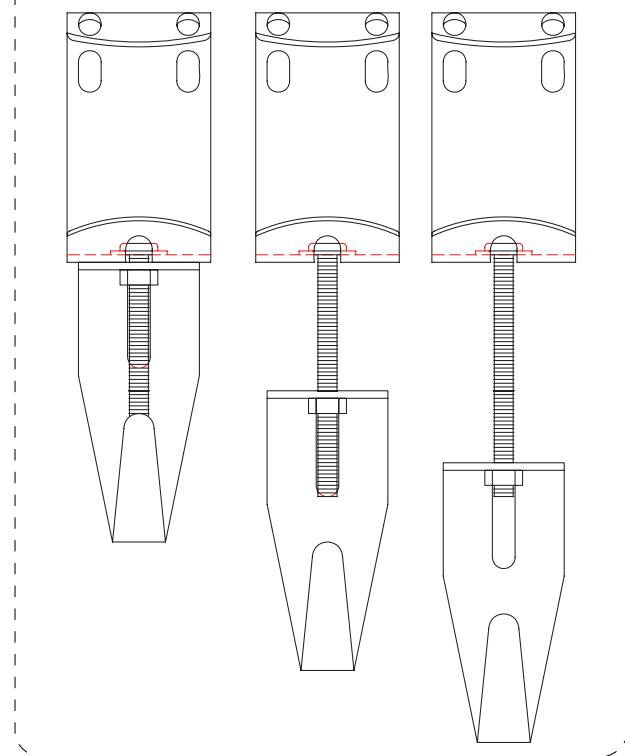

(E) 7/2012

Adjustable Hook included
in hardware bag

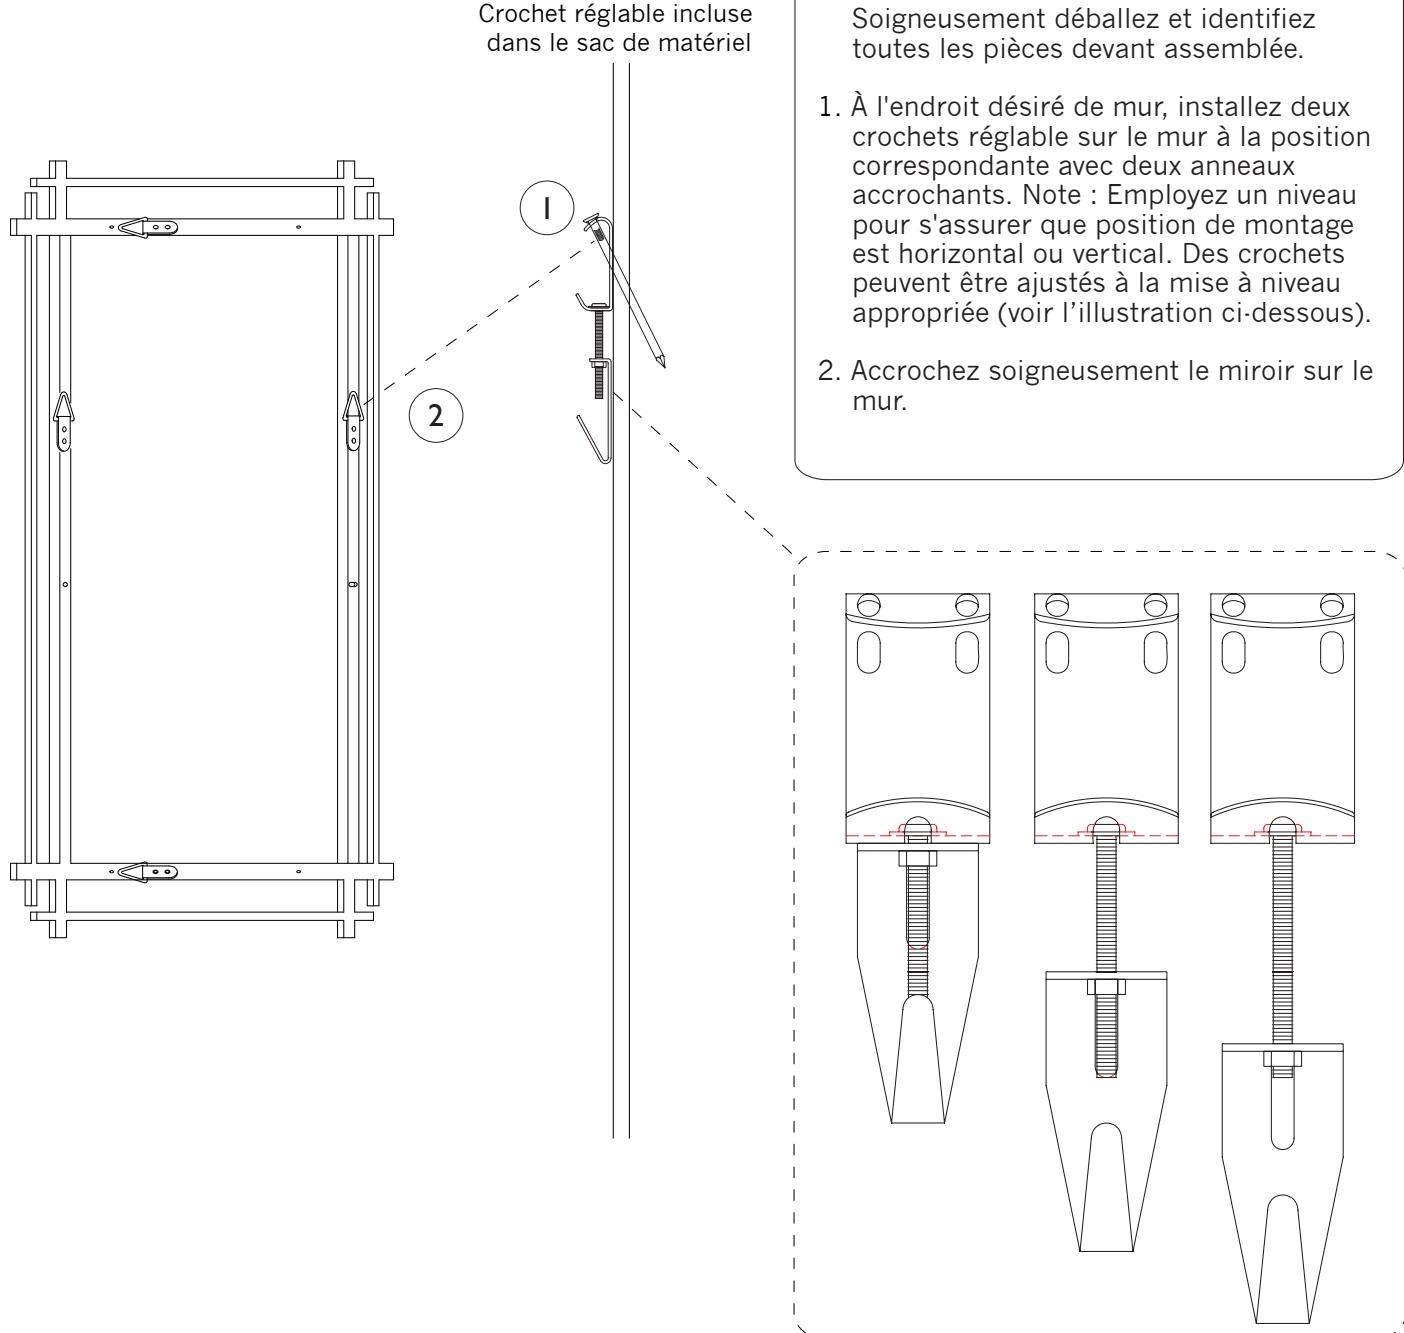

Carefully unpack and identify all parts
before assembly.

1. At the desired wall location, install two adjustable hooks into wall at the corresponding position with two hanging loops. Note: Use a level to insure mounting position is horizontal or vertical. Hooks can be adjusted for proper leveling (See illustration below).
2. Carefully hang mirror onto wall.
