

Wynter Round Large (LED)

700FMWNTRL_-LED_ 1.0

GENERAL PRODUCT INFORMATION:

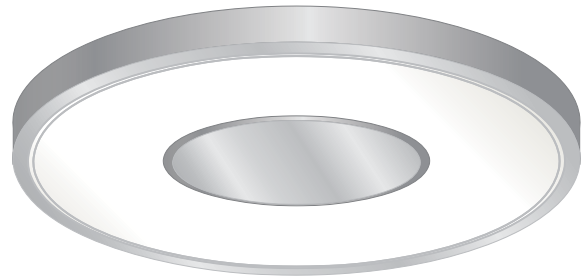

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is suitable for wet locations.

This product can be dimmed with a low-voltage electronic dimmer.

This product may be ceiling or wall mounted.

This instruction shows a typical installation.

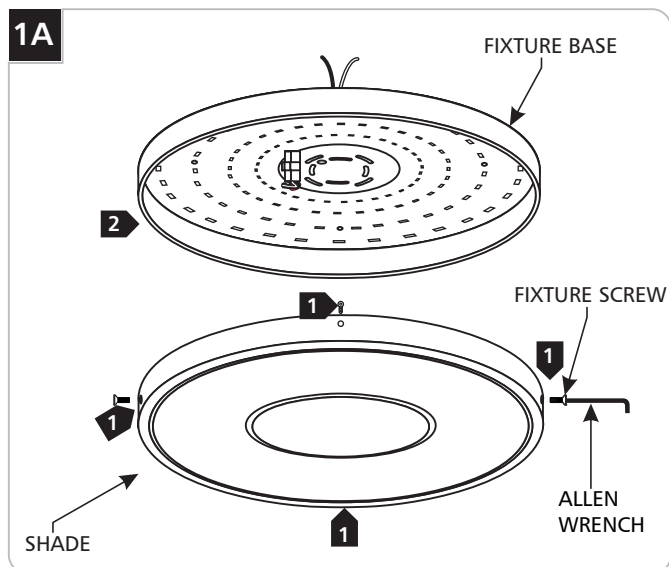

CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

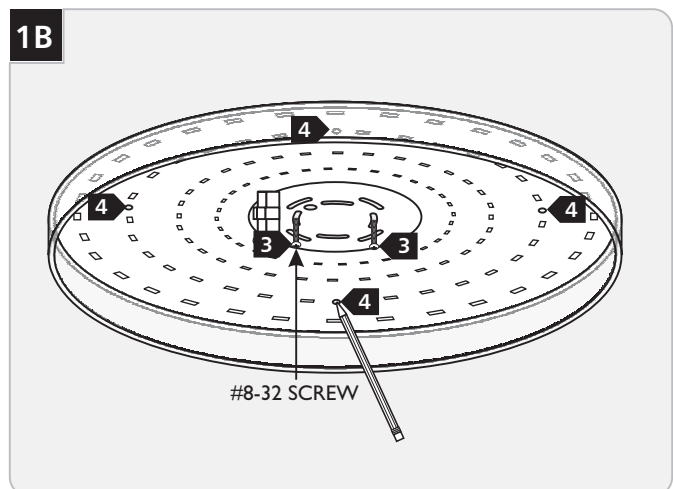

Use minimum 90°C supply conductors.

Install the Fixture

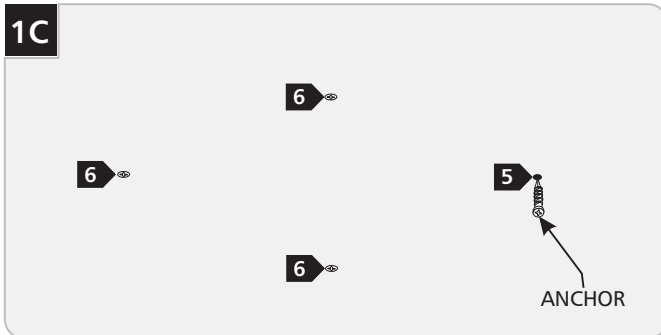

1 With the provided Allen wrench, remove the four fixture screws.

2 Remove the shade from the fixture base.

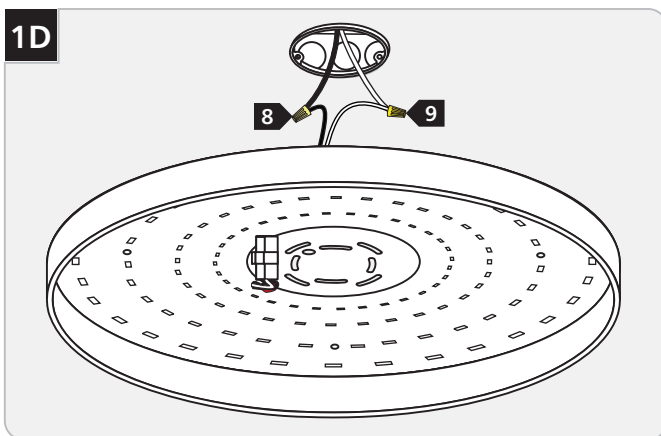

3 Temporarily install the fixture base to the electrical box with two #8-32 screws.

4 Mark the four anchor locations and uninstall the fixture base.

5 At the marked location, push the anchor in up to the threads.

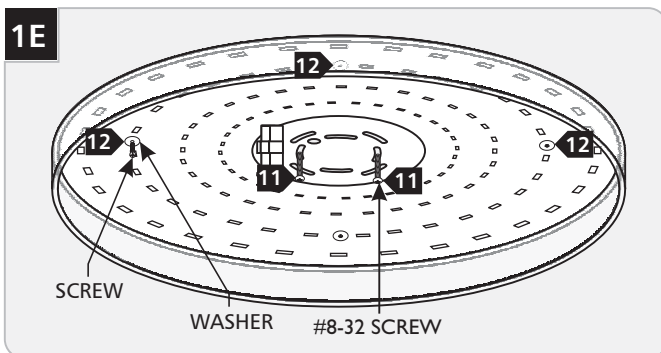

6 Screw the anchor the rest of the way in with a screwdriver.

7 Connect the fixture to a suitable ground in accordance with local electrical codes.

8 Connect the black driver wire to the hot power line wire with a wire nut.

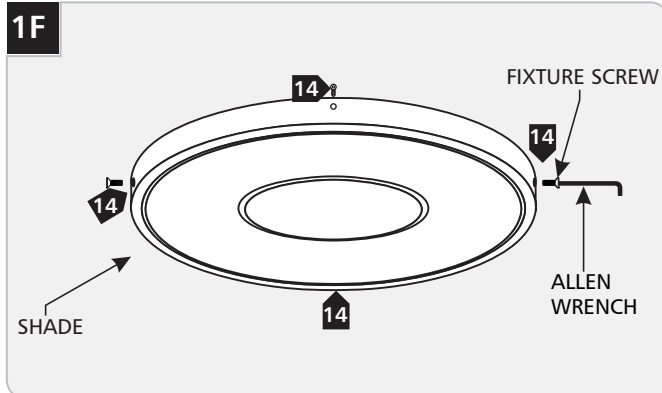

9 Connect the white driver wire to the neutral power line wire with a wire nut.

10 Properly place the wires and wire connections into the electrical box.

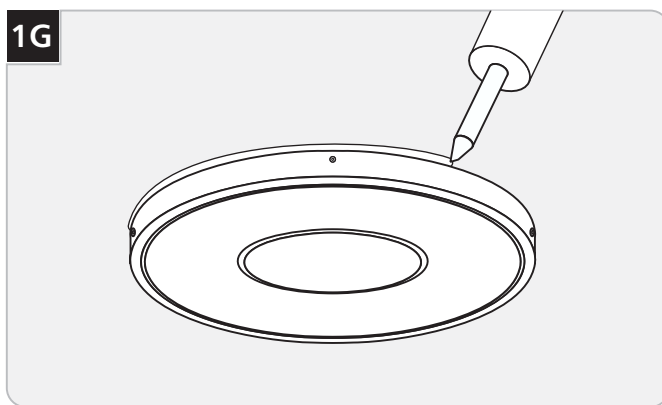

11 Re-install the fixture base to the electrical box with two #8-32 screws.

12 Secure the fixture base to the anchors with the screws and washers.

13 Align the screw holes on the shade to the holes in the fixture base and re-install the shade to the fixture base.

14 Secure the shade to the fixture base with the four fixture screws using the provided Allen wrench.

15 For wet location installation, caulk around the mounting base with waterproof construction sealant.
