

Nuheat Mat Repair Kit for Heating Wire. AC0040 One repair per kit.

The Nuheat Mat Repair Kit contains all the materials needed to repair Nuheat Lead Wires if it has been damaged during installation including a complete set of easy-to-follow instructions.

The kit will repair 1 Break in the wire; if the mat is damaged in more than one area, order a kit for each break. You will need a few basic tools (Heat Gun, Wire Strippers, Etc.) to perform the repair.

Equipment is available which can pinpoint the location of the break, if you do not know the break location.
