

## 47605-DP

AC Power Surge Protective Module (two duplex blue receptacles)

This AC Dual Power Module with surge suppression provides power to voice, video, audio, and data distribution modules – routers, switches, modems, audio distribution modules, and security modules – mounted inside a Leviton Structured Media® Center enclosure. Equipped with TVSS (Transient Voltage Surge Suppression) outlets, the AC Power Module provides protection from transient voltage surges, and is intended for use where sensitive equipment would benefit from protection against the damage caused by such surges. A green indicator light on the face of the unit, when continuously lit, indicates surge protection is in effect. When the indicator light is off, the receptacle is no longer providing suppression. When protection is lost, an audible alarm will beep continuously. This power supply easily drops into a cutout in the bottom of the Structured Media Center. This design allows you to install the power required without taking up valuable space inside the enclosure.

**UPC Code:** 07847711813

**Country Of Origin:** Mexico

**NEMA:**  
5-15R

### Technical Information

#### Electrical Ratings

**Type:** AC Power Module

**Output Voltage:** 120 Volt

**Input Voltage:** 120 Volt AC

**Output Power:** 15 Amp

#### Material Specifications

**Enclosure Material:** Powder-Coated Steel

#### Mechanical Specifications

**Quantity of Outlets:** 4

#### Performance Data

**MCOV:** 150V rms

**Joules at 10/1000 micro-sec:** 720

**Max Surge Current L-N:** 24kA

**Noise Rejection:** -30dB at 500kHz-30MHz

**UL1449 Impulse 6kV/500A L-G:** 400V

**Diagnostics:** Indicator Light & Audible Alarm

#### Product Features

**Type:** AC Power Module

**Output Voltage:** 120 Volt

**Input Voltage:** 120 Volt AC

**Output Power:** 15 Amp

**Feature:** Surge

**NEMA:** 5-15R

**Quantity of Outlets:** 4

**Series Compatibility:** 280 and 420 Series Compatible

**Standards and Certifications:** UL

**Warranty:** 2 Year Limited

#### Standards and Certifications

**NEMA:** WD-6

**ANSI:** C-73

**UL498HG:** File E13399

**UL1449 Std. 2nd Edition:** File E146315

**CSA C22.2 No. 42:** File 152105

**NOM:** 057

### Features and Benefits

- 120VAC Power Module for Leviton 14", 21", 28", and 42" Structured Media® Centers
- Two 15-Amp duplex receptacles. Enough to power four pieces of active equipment – like a service provider modem or Leviton router or switch – in your Structured Media enclosure
- In excessive power surges, a built-in audible alarm sounds to warn the user that power is now unprotected
- Two cable knock-outs on bottom for power service connections
- Safety clips protect outlets against dust, dirt, and debris
- Provides optimum protection and EMI/RFI filtering that meets UL 1449 standards
