L7511

Brand Features

Leviton Wire Mesh Safety Grips are built tough to provide the strength, reliability and gripping force required for today's demanding wire management applications. They are designed to distribute stress over a large area so they can securely hold, pull or support the wire, rope, tubing or fiber optic cable to which they are applied. Leviton Wire Mesh Safety Grips are flexible holding devices used to pull cable, rope, or tubing into place; to support it after it has been installed, to prevent cable pullout; or to provide strain-relief that reduces the arc of bend at points of wire connections or terminations. Available in a wide selection of style, weave, attachment and wire options designed to meet the highest standards for strength, flexibility, durability and longevity.

Item Description

2-1/2 Inch, Straight, Male, Anodized Aluminum Body, Wide-Range Strain-Relief, 2.000 - 2.450 Cord Range

Technical Information

Material Specifications

Body Material: Anodized Aluminum

Color / Feature: Galvanized

Grip Material: Galvanized Steel

Mechanical Specifications

NPT Size: 2-1/2

Fitting Style: Straight

Fitting Gender: Male

Fitting Type: Wide-Range

Weave: Single

Cord Range: 2.000 - 2.450

Standards and Certifications

Warranty: 2-Year Limited

Standards and Certifications:
UL/CSA

Representative image shown.

UPC Code: 07847797152

Country Of Origin: Mexico

**Eligible for ARRA funded projects >
\$7,443,000*
