----------	----------------	---------	---------

NuTone offers a variety of hoses so you can choose the one that's just right for your home. Standard, non-powered hoses work with all non-electric tools and come with a convenient storage hanger to neatly hold the hose when not in use.

- 32-foot long, low voltage standard hose for use with non-electric tools provides a quality hose suitable for most vacuuming jobs
- Rotary control on handle allows you to regulate power unit speed exactly as you need it while vacuuming
- Standard hose, in dark grey, with durable crushproof construction will withstand the demands of daily use
- Includes end-couplings and storage hanger
