### Features

- Installation tool kit to connect BNC, F-Type, RCA, 90°/Right Angle compression connectors on coaxial cable
- Compresses ALL IDEAL compression connectors
- Professional level kit includes the 30-793 Pro XL compression tool, the PrepPRO™ Coax Stripper for RG59 through 6Quad, and the 45-074 Data-T® Cutter. Includes hip pouch.
- For use in home theater, CATV, satellite systems and security applications.
- System creates a permanent connection so your connector never comes loose.
- Adjustable compression tool works with most non-IDEAL connectors.
