Brand Features

All HLC products are UL Listed and use Generation III Universal Powerline Bus (UPB™) – a digital communications standard for lighting and home control that ensures superior reliability. UPB™ works over existing wires in a home and does not require new wiring. Simply swap out an existing switch that has a neutral and replace with a Leviton UPB smart switch

Item Description

HLC Scene Switch, 6-Button, White.

Features and Benefits

- Control all lights in a room or area. Lights may be turned on or off, dimmed, brightened, and set to four different scenes
- Setting a scene is as simple as pressing the scene button the Scene Switch five times
- Has Infrared Receiver for use with optional Scene Switch Remote Control
- Includes White Bezel, connectors, instructions
- Color Change Kit Available in White, Ivory, Almond, Light Almond, Brown, Grey, and Black
- Custom Engraving is available to facilitate task and location based lighting controls like "Kitchen Prep" or "Back Porch"
- Scene Switches may be placed into a table top cradle that plugs directly into any standard electrical outlet. This table top cradle allows for convenient control of your scenes from a bedside nightstand, on desk in a home office, or next to your favorite chair
- When used standalone, no software is required for you to change lighting scenes on a Scene Switch
- The four scenes on a Scene Switch are easily set by first pressing the desired Scene Switch button, then setting the lights it controls to the desired levels, and then quickly pressing the same Scene Switch button five times in a row
- Leviton recommends that every Home Lighting Control (HLC) installation include a Phase Coupler, part number 39A00-1
- Leviton Part Number: HL381-W
