

# 2" Steel Set Screw Type Connector with Insulated Throat

Item No. 636SI

Topaz EMT connectors with set screw type assembly provide secure concrete tight protection when taped. Insulated throat models offer superior protection against abrasion. Available in sizes from 1/2" to 4". Applications include use in dry locations to bond EMT thin wall conduit to electrical boxes or enclosures. Model sizes 2-1/2" to 4" are suitable for both EMT and rigid conduit. Assemblies include steel locknut; constructed of strong and long lasting steel with zinc plated finish; UL listed. NEMA/ANSI FB-1 compliant.

## SPECIFICATIONS

Item UPC/EAN Number: 751338231504

Label Description: EMT CONNECTORS
