Not all transformers are equal – and this one is the most powerful transformer we offer! NuTone transformers feature an easy-to-install lock-mount or wall-mount that can reduce installation time by 25%. An additional unique feature is the thermal cut-off switch designed to shut off the door chime system in the event of excessive temperature. NuTone saves you time and money!

- 16-volt, 30VA transformer for powering multiple door chimes in one home; order in standard package of six to help assist with your planning and still retain that economical edge
- Quick install transformers, built to last so you should have fewer call backs
- One 16-volt, 30VA transformer powerful enough for up to three chimes saving you installation time
