

Introducing...

Cut-in Snap Lock

Introducing the latest innovation in electrical fittings, the Cut-in Snap Lock BX connector.

It provides significant labor savings when connecting metal clad or armored cable in old work (cut-in) electrical box installations. No tools are required when assembling to the cable or box and the anti-short bushing is pre-assembled and will not fall out during transit or installation. After installing the old-work box in the wall and fishing the cable through the box, simply snap the cable to the fitting and snap the fitting into the box. The Cut-In Snap Lock BX Connector is also easily removed without tools and it is reusable.

- **Faster and simpler installation**
- **No tools required**
- **One piece design**
- **Robust, pre-assembled anti- short bushing**
- **Easy removal & reusable**
- **Fits 1/2" knockout**
- **Fits AL & steel AC 14-2 thru 10-3, MC/MCI-A/HCF 14-2 thru 10-3**
- **cULus Listed**

Pull conduit thru knockout, insert wires in fitting

Snap conduit into the fitting

Push fitting and conduit back thru knockout

Snap into knockout from inside the box

Squeeze tabs to release fitting for removal

Item#	Description	Trade Size	Inner Carton	Master Carton	Inner Weight	Master Weight
