Overview Documents

The 3M™ E-A-R™ UltraFit™ **Corded** Earplugs feature a “no-roll”, triple-flange design that provides quick, clean, and comfortable hearing protection. Simply hold the stem and push the earplug into the ear. The tip stays clean even if hands are dirty or gloves are worn. The soft polymer earplugs are washable and reusable so they don’t need to be replaced as often, reducing waste and lowering costs. Recommended applications include assembly and mechanical, chipping, chiseling, cleaning, drilling, furnace operations, grinding, heavy equipment operations, machining, metal repair, painting, pouring/casting, power fastening, riveting, sanding, sawing and welding. These earplugs are commonly used in the following industries: construction, general manufacturing, mining, oil and gas, and transportation.

These soft polymer earplugs have a Noise Reduction Rating (NRR) of 25 dB and are test compatible with the 3M™ E-A-Rfit™ Validation System.

Not only is noise present in our daily routines and recreational activities, but millions of Americans work in hazardous noise on a daily basis. Estimates from the National Institutes of Health suggest that hearing loss afflicts 28 million Americans. About one third of those cases are at least partially attributable to noise. Hearing loss due to noise is almost entirely preventable by judicious use of hearing protection.

Specifications

Brand	E-A-R™
Category	Pre-Molded Earplugs, Hearing Protection
Color	Yellow
Cord Color	Blue
Corded/WithOut Cord	Corded
Cord Material	Vinyl
Cord Type	Vinyl
Electrically Insulated	Yes
Green Certification or other Recognition	No
Green Environmental Attribute	No
Hearing Protection Style	Corded
Material	Elastomeric Polymer

Metal Detectable	No
Moisture Resistant	Yes
Noise Reduction Rating	25 Decibel
Packaging	Carrying Case
Pairs Per Package	50
Plug Color	Yellow
Plug Material	Elastomeric Polymer
Product Line	Earplugs
Product Series	E-A-R UltraFit
Product Type	Reusable Earplugs
Recommended Application	Facility Maintenance, Grinding, Electrical, Machine Operations, Sanding, Welding, Demolition, Painting, Blasting, Assembly, Cleaning
Recommended Industry	Transportation, Pharmaceutical, Construction, Automotive, Military Maintenance, Repair and Operation (MRO), Manufacturing, Mining, Metal Fabrication, Oil & Gas, General Manufacturing
Reusable	Yes
Shape	Multi-Flange
Size	One Size Fits Most
