**Product Description:**

Garvin Industries' circuit breaker lockout devices are designed with safety in mind. Circuit breaker lockout devices are a necessity for any installer; as a safety measure, circuit breakers are required by law to be locked in the proper position. Installers who carry Garvin Industries' universal breaker lock out also save time and money as our circuit breaker lockout devices are compatible with every major brand of circuit breaker. Our universal breaker lock out prevents overstock and unnecessary trips to a job site to identify panels. Constructed of steel, Garvin Industries' patented circuit breaker lockout is resistant to corrosion, National Fire Protection Association and National Electrical Code compliant, easy to install, and guaranteed for life.
