Danger Detected

Description

Kidde now offers a series of smoke and combination smoke & carbon monoxide alarms that can be interconnected wirelessly.

Now any home can be interconnected without the need for extensive and expensive re-wiring. Alarms connect to each other wirelessly. If one alarm goes into alert it will send a signal to all of your interconnected alarms to go into alert. If a fire starts upstairs, you will know immediately downstairs.

This innovative line of alarms contain 10-year sealed-in lithium batteries and come in both battery operated and 120V hardwired (with 10-year battery backup) versions.

Intelligent Wire-Free 10-Year Smoke and Combination Alarm Models

10-Year Sealed Battery Operated Alarms

P4010DCS-W:	Smoke Alarm with Wire-Free Interconnect
P4010LDCS-W:	Smoke Alarm with Wire-Free Interconnect and Emergency Safety Light
P4010DCSCO-W:	Combination Smoke and CO Alarm with Wire-Free Interconnect

HARDWIRED Alarms with 10-Year Sealed Battery Backup

P4010ACS-W:	Smoke Alarm with Wire-Free Interconnect
P4010LACS-W:	Smoke Alarm with Wire-Free Interconnect and Emergency Safety Light
P4010ACSCO-W:	Combination Smoke and CO Alarm with Wire-Free Interconnect

Features of Intelligent Wire-Free Alarms

Six Models: 3 battery operated and 3 hardwired (with 10-year battery backup).

Quick and Easy Setup: No dip switches. An average home setup takes just minutes.

Voice Alerts: Announce the type of hazard detected. Smoke alarms announce "Fire!" when a smoke or fire hazard is detected. Combination Smoke/CO alarms additionally announce "Warning Carbon Monoxide" when a CO hazard is detected.

Sealed-in Lithium Battery: No battery replacement required over the 10 year life of the alarm. Eliminates worry about battery removal or unauthorized deactivation of alarm.

Photoelectric Sensor: Smoke alarms contain advanced photoelectric sensor that may detect visible particles (associated with smoldering fires) sooner than ionization alarms.

Self Activation: Alarm automatically activates when attached to included mounting bracket.

Test/Hush™ Button: Tests alarm circuitry and activates Smart Hush™, which temporarily silences nuisance alarms.

End of Life Warning: Indicates the alarm is in need of replacement.
