

AK AL/CU SPLIT BOLT

- Manufactured from heat treated aluminum alloy. Provides maximum conductivity and strength for copper and aluminum conductors.
- Triangular edges bite into the conductor to break through surface oxides which eliminates wire brushing.
- UL 486A/B 90° C Listed and is CSA certified for 2,000 Volts. Ensures reliabiltiy for copper or aluminum conductors.
- Electro-Tin Plated provides low contact resistance.
- Spacer bar seperates dissimilar metals which prevents galvanic corrosion.
- Hex head provides ease of installation with standard wrenches.
- UL File E9998
