SPECIFICATIONS:

COMFORTABLE + BREATHABLE: 4.1oz. Microfiber fabric feels super soft and moves with you but won't cling or stretch out. Hemmed edges prevent curling; seamed in back.

WICKING + FAST-DRYING: PURE-tech™ delivers superior moisture-wicking to pull moisture away from your face and neck. It dries quickly in use and after washing.

COOLING: PURE-tech™ Cool Wicking Technology adapts to hot or cold conditions, releasing heat when it's warm and trapping it in the cold.

UPF 50+ UV PROTECTION: Carries the maximum sun-protection rating for fabric and provides maximum protection of your skin against harmful UV rays. Sun-protection properties are permanent and only enhanced after several washings. The Skin Cancer Foundation recommends this fabric as an effective UV protectant only for covered areas.

MULTI-USE: Neck gaiter, face protection, hair covering, headband and more. Protects from the sun, wind, dust and the elements – wet or dry, wherever you go. Shines in the summer as a sun-protection piece. Practical and comfortable for daily use year-round as an extra layer of protection. In colder weather, it's an excellent layering accessory for wicking and warmth without bulk.

ANTI-ODOR: Zinc-based anti-microbial fabric technology fights odor to help you stay fresh.

DURABLE: Sun, sweat, and saltwater meet your match - sublimation printing into the fibers of the fabric to stay breathable and won't fade from exposure to the elements. Machine washable, reusable.

SPECS:

SIZE: 9.5" x 18"

FABRIC: 100% Microfiber Polyester UPF 50+ Fabric
