DESIGN BUILD
CATALOG 2020

Electrical Wholesalers and HZ Electric Supply want to simplify the process for you to price a commercial or industrial project. In this catalog, you will see a comprehensive list of items complete with pricing. All inventory is currently in stock to support the program.

This catalog is concentrated in the area of light commercial gear including panel boards, breakers, dry-type transformers, safety switches, fuses, load centers, enclosed breakers, and some basic motor controls.

In addition to gear, you will find a revised list of interior and exterior LED lighting that can replace existing fluorescent lamps and HID fixtures.

Please note that the pricing listed in this catalog is effective for 2020 and modifications to pricing or stock items may take place throughout the year.

If there is anything more you would like to see in the catalog or have any questions, please feel free to suggest to your salesperson and we can revise our information accordingly.

Thank you for your business and support.

Advance Express

Quickly replace a **LED driver in the field**

Advance Express is a program to help you win in the replacement LED driver market. 7 recommended drivers cover the majority of applications for Downlights, Troffers, Industrial and Outdoor while minimizing your inventory.

1. Get needed info from the end user

- What is the type of luminaire?
- What is the line voltage?
- Is it on a dimmer?

2. Get needed info from the failed driver

- Is it a class 2 output driver?
- What is the driver's output current?
- What is the driver's output voltage?
- Is it a constant current or constant voltage driver?

3. Select the driver
