Have you heard about our Online Resources? Our website offers you mobile tips and tools for your everyday jobs. Everything from (cross) reference lists to heat loss, volume, and square footage calculators are available to you with a few quick clicks. Simply select "Online Resources" under the "Resource" tab and you will be able to sift through different categories such as energy, power and distribution, safety and more. Each category contains links that will bring you right to the source. This way, you know that you will be directed right to the source for the most accurate information. On the job and want to double check your calculations or make sure you're working within safety codes, **Check Out our Online Resources Today!**

We are very excited for the 2019 Incentive Programs. EnergizeCT released their 2019 program at a roll-out meeting last week. Massachusetts will release theirs in February. The most lucrative incentives will be fixtures with onboard controls. We look forward to working with our customers on

making sure you have the right products to meet the new parameters that were introduced.
