Plug Into Zimmies Electrical Newsletter

This month:

- Energy update
- Safety Message
- ECommerce Update
- Branch News
- Price Increases
- New Products

As an electrician, you're likely pretty familiar with receptacle installation. How familiar are you with receptacle tension testing, though? While some electricians deal with it often, others can go years without ever having to **tension test** receptacles. It's possible that you've never had to do any receptacle tension testing at all.

It's the middle of a nor'easter. The wind is howling. You peek out the window and see nothing but a white sheet of blowing snow. You're happy to be inside, cozy and warm, three hours into a television binge with the thermostat set to whatever you think a thermostat should be set to. Then, in an instant, darkness. The electricity is out and you have no idea if it will be back on in two minutes or two days. Many folks faced with such a situation turn to portable generators...

The following vendors will have price increases starting November 1st:

- ETI
- NSL
- Progress
- Maxis/Southwire
- Westinghouse
- Crouse Hinds
- Eaton Distribution
- RAB
- Philips Lamps

We will be closed:
**Thursday, November 22nd &
Friday November 23rd**
