

Save time and increase accuracy with sales order automation!

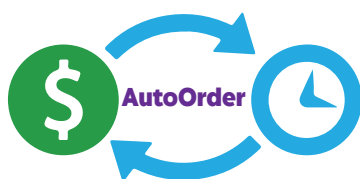

Do you enter your POs into your office PC before providing them to us?

Do you order from us several times a week?

Are you spending too much time waiting for salesman to manually enter your orders and bids into our system?

Are you tired of human errors on your orders?

Would you like to save time by sending your POs directly from your PC to our system?

Now you can with AutoOrder!

Benefits:

- Orders go directly into our system and print in our warehouse without the need for human interaction!
- Eliminates costly data entry errors
- Frees up our sales rep to better serve your other needs
- No need to wait in line to place your order with your sales rep
- Get your orders a day earlier by sending them in at night!

How to get setup:

- Email sample POs and your account number to your sales rep and / or E-Commerce@usesi.com

If you cannot email your POs, we can also accept  Fax

For more information please email E-Commerce@usesi.com
